Republic of Germany
Mr Horst Seehofer
Alt-Moabit 140, Berlin

Dear Colleague,

I would like to thank you for your letter dated 17 August 2018 referring to the Political Agreement between the Federal Republic of Germany, the Kingdom of Spain and the Hellenic Republic of 29 June 2018. The three Sides in the said Political Agreement underline their support for concluding the revision of the Common European Asylum System in 2018 with the aim of striking the right balance between a fair sharing of responsibility and solidarity. Furthermore, the Parties have committed to establishing interim measures, until entry into force of the new Common European Asylum System, between those Member States willing to move ahead collectively on a European level, as the best way to proceed, in accordance with applicable international and European law.

Furthermore, in light of the Political Agreement, the Hellenic Republic and the Federal Republic of Germany will continue to work towards European solutions and the avoidance of unilateral measures with respect to migration and asylum.

In this framework, I hereby confirm the acceptance of the operational details of the actions foreseen in the Political Agreement as described in your letter as well as the modalities set out in the Arrangement set forth in Annexes 1 and 2 (attached), as a meaningful way of operationalizing the Political Agreement.

Sincerely yours,

Berlin, 17. August 2018

Dear Colleague,

I have the honour to refer to the Political Agreement between the Federal Republic of Germany, the Kingdom of Spain and the Hellenic Republic of 29 June 2018. The three Sides in said Political Agreement underline their support for concluding the revision of the Common European Asylum System in 2018 with the aim of striking the right balance between a fair sharing of responsibility and solidarity. Furthermore, the Parties have committed to establishing interim measures, until entry into force of the new Common European Asylum System, between those Member States willing to move ahead collectively on a European level, as the best way to proceed, in accordance with applicable international and European law.

Furthermore, and in light of the Political Agreement, the Hellenic Republic and the Federal Republic of Germany will continue to work towards European solutions and the avoidance of unilateral measures with respect to migration and asylum. They also stress that the three dimensions of a comprehensive migration policy, namely external, protection/management of external borders and internal, should be pursued in parallel.

The Hellenic Republic and the Federal Republic of Germany acknowledge that, as regards the reform of the Dublin IV Regulation proposal, the compromise text of the Bulgarian Presidency is a solid basis to start the trilogues with the European Parliament and the European Commission as soon as possible, with the aim of concluding the ne-

gotiations by the end of 2018. Greece, as a Member State at the external border, and Germany, as the main Member State of destination, reiterate their commitment to a fair distribution of applicants of international protection. They further reiterate that Search and Rescue Operations have to be conducted in accordance with international law and in full respect of the competences of the respective maritime rescue coordination centres.

In the Political Agreement, the Parties express their support for the adoption of additional immediate operational EU initiatives, based on solidarity, including through burden sharing, in response to possible crises. In this vein, competent Ministers and eventually Heads of Government will convene to examine and agree upon additional measures based on solidarity and fair burden sharing. On this basis, the countries will support each other in the European Council. The term "crisis" should be defined for the purposes of the aforementioned political agreement as a situation where a member state has surpassed a certain percentage, e.g. 140%, of its fair share in asylum applicants. The fair share should be calculated on the basis of the following formula: total asylum requests in the EU, during the previous year, applied by the reference key (total population and GDP) of the member state.

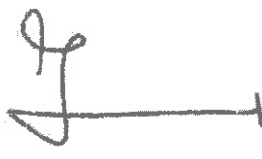

In the Political Agreement, the Parties further reiterated their commitments to supporting Member States at the external border financially or through the provision of police and asylum officers. In this light, the Hellenic Republic and the Federal Republic of Germany agree that, where the hotspot approach is implemented, supportive and development measures need to be taken in order to assist local communities. Specific measures to be taken in respect of Greece include but are not limited to deployment of EASO and Frontex personnel. Germany is committed to deploy 55 experts through EASO to assist the asylum procedure and will provide 15 interpreters in languages to be specified by the Greek Asylum Service in case such interpreters cannot be provided by EASO. Furthermore, Germany acknowledges the Greek efforts for the adoption of the updated Greek Financial Plan of 2018 and the Financial Plan of 2019 and furthermore supports positive measures, such as development programmes, in the five Greek islands.

Finally, I would like to propose to you the Arrangement set forth in Annexes 1 and 2 as a meaningful way of operationalizing the Political Agreement vis-a-vis the refusal of entry at the border between the Federal Republic of Germany and the Republic of Austria and family reunifications. This Arrangement is without prejudice to the continuation of the efforts towards the reform of the Common European Asylum System.

If this letter and the Annexes thereto are acceptable to your Government, this letter and your confirmation will together constitute a political arrangement to be implemented as from the date of receipt of your reply.

- i. The German Side refusing entry may return the person by air only, at the Athens International Airport. Part II: Family Reunifications

7. Accepted and Pending 'take charge' requests

The German Side will swiftly conclude family reunifications in the framework of the Regulation (EU) No 604/2013 of the European Parliament and the Council of 26 June 2013 establishing the criteria and mechanisms for determining the Member State responsible for examining an application for international protection lodged in one of the Member States by a third-country national or a stateless person (recast) (Dublin III Regulation), with respect to 'take charge' requests submitted by the Greek Dublin Unit that have been already accepted by the German Dublin Unit before 1 August 2018. The German Side will conclude the examination of all 'take charge' requests that have been submitted before 1 August 2018 and have not been examined yet within two months of the beginning of the cooperation between the both Sides based on this Administrative Arrangement. The number of persons to be transferred from Greece to Germany is capped at 600 persons per month. Transfers will be carried out both by charter and commercial flights. These family reunifications will be concluded by the end of 2018.

8. Future 'take charge' requests

Any requests after 31 July 2018 will be dealt with according to the procedures as laid down in the Dublin III Regulation, as well as the respective Implementing Regulations (including the given time limits for submitting or answering a request as well as for transfers).

9. Currently pending requests for re-examination

The German Side will examine and reply to all requests for re-examination that have been submitted before 1 August 2018 ('currently pending requests for re-examination') without undue delay. To accelerate this examination, the Greek Side will provide the German Side with a sortable list containing i) the German and Greek reference numbers of the currently pending requests for re-examination and ii) the dates when these requests have been submitted by 30 September 2018. If a request for re-examination is accepted by the German

Side, the transfer of the person concerned will be carried out within six months of acceptance of the request.

11. Language of documentation accompanying currently pending requests for re-examination

Documents accompanying currently pending requests for re-examination will be submitted in their original language. A translation in English will be submitted, if available. Submission of documentation in its original language may not alone be considered a reason for rejecting a request for re-examination.

12. Costs of family reunification transfers

Greece will cover all costs related to family reunification transfers to Germany according to Article 30 (1) of the Dublin III Regulation.

Part III: Final Provisions

13. Liaison officers

- ii. The two Sides will settle disputes arising from the interpretation or application of this Administrative Arrangement solely through negotiation.
15. Beginning and ending of the cooperation and changes
- i. The cooperation between the Sides based on this Administrative Arrangement will start the day of the reply to the letter to which it is annexed.
 - ii. This cooperation can be unilaterally discontinued. In order to avoid misunderstandings and inconveniences, the discontinuing Side should inform the other Side in writing at least three weeks beforehand. This Administrative Arrangement will also discontinue upon entry into force of the revised Common European Asylum System.
