EXECUTIVE SUMMARY

U.S. Corrections is a **Disabled-Veteran Owned Business** registered as a Limited Liability Company, out of Charlotte, NC.

We have a thorough understanding of the State of West Virginia’s – Inmate Transportation Request for Quote and the duties it entails. We already perform the services requested for numerous other law enforcement agencies and correctional institutions across the United States and its surrounding Territories. We have the full ability to handle this request.

U.S. Corrections operates under the *Motor Carrier Act* and has a valid DOT and MC number in order to operate as a “Passenger Carrier for Hire” for interstate and intrastate (in most states) operations. U.S. Corrections is fully insured and compliant with all State and Federal Guidelines, such as the Dangerous Criminal Act of 2003

The primary points of contact for this bid are as follows;

Suite 300
Charlotte, NC 28277

Out-of-State Transportation: We have an extensive amount of experience in out-of-state transports/extraditions. We currently facilitate the safe and secure movement of thousands of inmates per year, by ground and air travel, to all 50-states and all U.S. Territories.

In-State Transportation: U.S. Corrections currently provides in-state transportation for multiple agencies around the nation. Our officers are either stationed as full-time employees with the agency we are supporting on a contractual basis or utilized as needed on a per order basis. Some of these transports include to-and-from court hearings, medical appointments and transport to other agencies/facilities.

Medical Watch: U.S. Corrections currently provides 24-hour medical watch services to numerous agencies. In doing so, our officers are able to replace that agencies tasked staff so they may be better utilized elsewhere and reduce the financial burden of excessive or overtime pay to that agency.

Training & Staffing: U.S. Corrections currently offers numerous training courses and academies for law enforcement and corrections professionals. Many agencies also utilize our highly-trained and licensed officers to staff their facilities on a contractual basis or on a temporary, as needed, period of time when they are short on staff and in need of trust-worthy, quality professionals.

*Further information on U.S. Corrections and the services we provide will follow this page.

CORPORATE BACKGROUND AND EXPERIENCE

U.S. Corrections is a new company by name but not by existence, experience, and management. The name U.S. Corrections, often referred to as **U.S.C.**, was formed in January of 2014 after an existing company decided to leave the prisoner transportation industry and focus their efforts elsewhere. The management team of the existing company's transport unit, which had been around since 2008, had an agreement with the owners to continue to employ all transport staff, purchase all vehicles and equipment, and launch the U.S. Corrections that you now know today. Since January 2014 U.S. Corrections has quickly become one the largest prisoner transportation companies on the East Coast and is rapidly growing its presence on the West Coast. Our company contracts with over **100 agencies** across the United States and facilitates over **4,000 inmate moves per year**, through all 50-states and U.S. Territories. Our leadership team has **over 8 years** of experience working together and performing private prisoner transports and other inmate services.

U.S. Corrections is a **Disabled-Veteran Owned Business** led by three combat-hardened **U.S. Marines** who bring the ethics, core values, and dedication-to-duty they took away from the military to their business on a daily basis. In an industry that revolves around constant adaptation, attentiveness to detail, maintenance of operational security and unwavering focus we are well-prepared to conquer any task assigned to us.

We pride ourselves on the men and women we employ and the family-like atmosphere we have created with our Officers, Dispatchers, and Office Associates. We know that, if given the opportunity, our staff will be trusted representatives for the State of West Virginia's – Division of Corrections and we guarantee, as you will see in our *Staff & Training Overview* (to follow), that we only employ the finest and most capable **Corrections Professionals** there are in this industry. From our elite High-Risk Inmate Transport Unit to our renowned Training Staff, we will not let you down.

As already stated, U.S. Corrections currently contracts with over **100 agencies** on a multitude of projects, details, and assignments. Our current clientele entrusts us with carrying out some of their most complex and intricate assignments. The majority of the clients we serve utilize us for not only their Prisoner Transportation needs but also entrust us with performing such services as **Medical Watch, Facility-Staffing, and the training of their existing-personnel**. The flexibility of U.S. Corrections and the ability to improvise, adapt, and with remarkable proficiency execute any agencies demands is unseen in this industry. We take great pride in our abilities and the impeccable relationships we have built with all levels of law-enforcement organizations and correctional institutions so far.

FINANCIAL STABILITY

U.S. Corrections is financially sound and is consistently growing in size. We firmly believe that we will continue to grow and hope that through this proposal the State of West Virginia’s Purchasing Division will feel the same. We are hiring on average 8 to 12 new team members per month and are steadily growing our already large vehicle fleet. Our credit and finances are in order and of exceptional quality. We feel confidently that future financial conditions WILL NOT occur and jeopardize our ability to service the State of West Virginia, if awarded this contract.

If we can provide additional articles of information regarding our financial stability, please let either of us know.
