

## THE U.N. GLOBAL CLIMATE TREATY ISN'T GLOBAL

### Americans Will Pay the Price

The United Nations is negotiating a climate treaty that will require severe restrictions on the amount of energy we use. And it puts the entire burden on the U.S. and a few other countries.

CHECK IT OUT FOR YOURSELF: 1-888-54FACTS or [www.climatefacts.org](http://www.climatefacts.org)

### 50 Cents More for Every Gallon of Gasoline

Economists predict that reducing our energy use by more than 20% will require price increases for most types of energy. Natural gas could go up 45%, electricity costs could increase by 20%, and gasoline prices could go up by 50 cents a gallon.

### Most Countries Are Exempt

Americans will pay more for everything that requires energy to transport or manufacture, while 132 of 166 countries, including India, China and Mexico, are exempt.

## It's Not Global and It Won't Work.
