**Subject:** EOC Tour

I just wanted to get everyone on the same page about this request. Kyle asked that Dr. Redfield receive a tour of the EOC in advance of his flu briefing (which is a follow-up from the NCIRD orientation), that Teresa and Tracie are now working to schedule.

To get this done as soon as possible, we are building in 30 minutes just before/after his OPHPR orientation tomorrow morning. Timing-wise, we will have to wait and see what T&T hear back from EOC, but Seth, you should plan for an early start and/or late end to the OPHPR meeting tomorrow.

Hi Barbara,

Dr. Messonnier may invite anyone from her Senior Leadership team she would like to attend.

There will be two staff members accompanying the Director.

Please advise if Room 8121 will accommodate the meeting.

Thanks for your prompt response.

Teresa

Subject: RE: CIO Leadership Meeting with New CDC Director

Hi Tracie, yes. Dr. Messonnier can do 3:10pm ? 4:10pm with Dr. Redfield on Wed, 3/28.

We're just checking to see if we understand correctly that this is more of a smaller 1:1 rather than Dr. Messonnier and her entire senior staff, correct? If smaller then we can do Dr. Messonnier's office, Room 8121 that can hold up to 5 comfortably and include Kristin Pope and Allen Craig.

Thank you,

Barbara Cozart

**Sent:** 30 Mar 2018 08:16:19 -0400  
**To:** Strength, Tracie (CDC/OD/OCS)  
**Cc:** Williams, Teresa (CDC/OD/OCS)  
**Subject:** CSELS Meeting with Dr. Redfield

Good morning Tracie,

Are you able to add the individuals below to the “Dr. Michael Iademarco, CSELS CIO Leadership Meeting w/ New CDC Director” invite on Monday, April 2<sup>nd</sup> at 11am?

Mac Kenzie, William R. (CDC/OPHSS/CSELS) ([wrm0@cdc.gov](mailto:wrm0@cdc.gov));  
Simone, Patricia (Pattie) (CDC/OPHSS/CSELS/DSEPD) <[pms6@cdc.gov](mailto:pms6@cdc.gov)>;  
Salerno, Reynolds (CDC/OPHSS/CSELS/DLS) <[yyw2@cdc.gov](mailto:yyw2@cdc.gov)>;  
Yoon, Paula (CDC/OPHSS/CSELS) ([pay3@cdc.gov](mailto:pay3@cdc.gov));  
Glynn, Kate (CDC/OPHSS/CSELS) ([mjg6@cdc.gov](mailto:mjg6@cdc.gov))

I can also forward but didn't want Dr. Redfield's inbox to get inundated with forward notifications. Please advise.

Thanks,

**Melanie R. Ramsey**

**Subject:** RE: CDC W Leadership Meeting with New CDC Director

Mitch will be available. If he has anyone sit with him from CDCW, it would likely be Anstice Brand, our acting DD. I will reserve 9166 for Dr. Redfield's use on Friday, April 6. There is a conference table in that office that will seat 7.

Do you know who else from the OD will be traveling to DC and attending this meeting?

**Subject:** April 6 schedule

Hi folks. Let's start at NCHS at 1030 on the 6th, and extend the invite to Chesley if he wanted to join too. Both KM and R3 will get themselves there. Schedule for one hour then allow ample travel time back to DC and time for lunch, before scheduling CDC-W & NIOSH in the afternoon (again one hour each). Will need maps and logistics instructions for them too. We can discuss more when we meet if you have any questions. Thanks!

## Directions and Map

### Ronald Reagan Washington National Airport (DCA), Arlington, VA

Start out going North on S. Smith Blvd. and follow the signs marked "Washington" to exit the airport onto George Washington Parkway. Merge onto I-395 North toward Washington. Continue on I-395 for approximately 2 miles and then keep left to take I-295 South. Take Southeast Freeway/I-695 South toward Pennsylvania Ave. Merge onto DC-295 North on the left. Continue for approximately 7 miles and take the MD 410/Hyattsville exit. Turn left at the end of the ramp onto MD 410/East-West Highway. Continue to approximately 3 miles and turn right onto Adelphi Road and then a left onto Toledo Road. *The Metro 4 building is located on the left after the parking garage.* Total Travel Estimate: 27 minutes / 15.7 miles

### Baltimore/Washington International Thurgood Marshall Airport (BWI), Baltimore, MD

Take the Baltimore-Washington Parkway (Route 295) toward Washington. Cross I-495 and take the next exit (Riverdale/Hyattsville/New Carrollton). Turn right at the first traffic light (Riverdale Road/Route 410). At the 6th traffic light, turn right onto Adelphi Road and then left onto Toledo Road. *The Metro 4 building is located on the left after the parking garage.* Total Travel Estimate: 38 minutes / 26.3 miles

### Washington Dulles International Airport (IAD), Dulles, VA

Start out going Northeast on Saarinen Circle toward the Airport Access Road. Merge onto VA-267 E toward I-495/Exit 18-19/VA – 123/Baltimore-Richmond. Merge onto I-495 via Exit 18 toward Baltimore. Continue on I-495 to exit 28B (New Hampshire Avenue/Takoma Park). At the second traffic light, turn left onto Adelphi Road. Continue on Adelphi Road through 5 traffic lights and turn right onto Toledo Road. *The Metro 4 building is located on the left after the parking garage.* Total Travel Estimate: 53 minutes / 35.3 miles

### Metro Rail

NCHS is located approximately 0.5 from the Prince George's Plaza Metro station on the GREEN line. For additional information including fares, trip planner, bus schedules, maps, and etc. contact the [Washington Metropolitan Area Transit Authority](#)

**Shuttle Bus Service from and to PG Plaza Metro Rail Station**

Atlantic Parking operates a courtesy Shuttle Bus service hours are: 6:00 – 10:00 a.m. and 2:30 – 6:00 p.m. Monday through Friday to/from the PG Plaza Metro Rail Station. Look for a white 15-passenger bus with the lettering Atlantic Parking. The Shuttle Bus departs from Parking Garage A (southwest side, next to our building, Metro 4) at 6:00 a.m. and 2:30 p.m. and travels back and forth to the PG Plaza Metro Rail Station (picks up/drops off on side facing PG Plaza). In the mornings, it takes the Shuttle Bus roughly 15 minutes to make a complete circuit, and in the evenings approximately 25 minutes. In the event that the wait for the Shuttle Bus becomes long, which may occur due to rush-hour traffic or weather, you can call 301-779-9696 to determine its location and estimated time of arrival to Parking Garage A or the PG Plaza Metro Rail Station stop.

**Parking**

Atlantic Parking Garage A (301-779-9696) is next to the NCHS Metro 4 building. Visitors are encouraged to lock vehicle doors and not leave valuables in plain view.

Good Grief, I'm sorry, I started my email to you and I guess I was interrupted and it was saved as a draft.

The Auditorium C has been reserved on the 2nd floor. I will also attach directions to the Center.

Kim

Importance: High

Good afternoon Kimberly,

I am reaching out to inquire if Dr. Rothwell and the NCHS Leadership would be available to meet with the CDC Director on April 6nd from 10:30-11:30 a.m. at NCHS's office. If yes, please respond back with a room location that will be suitable for NCHS plus 3 additional OD staff personnel.

Thanks,

Teresa Williams

## Directions and Map

### Ronald Reagan Washington National Airport (DCA), Arlington, VA

Start out going North on S. Smith Blvd. and follow the signs marked "Washington" to exit the airport onto George Washington Parkway. Merge onto I-395 North toward Washington. Continue on I-395 for approximately 2 miles and then keep left to take I-295 South. Take Southeast Freeway/I-695 South toward Pennsylvania Ave. Merge onto DC-295 North on the left. Continue for approximately 7 miles and take the MD 410/Hyattsville exit. Turn left at the end of the ramp onto MD 410/East-West Highway. Continue to approximately 3 miles and turn right onto Adelphi Road and then a left onto Toledo Road. *The Metro 4 building is located on the left after the parking garage.* Total Travel Estimate: 27 minutes / 15.7 miles

### Baltimore/Washington International Thurgood Marshall Airport (BWI), Baltimore, MD

Take the Baltimore-Washington Parkway (Route 295) toward Washington. Cross I-495 and take the next exit (Riverdale/Hyattsville/New Carrollton). Turn right at the first traffic light (Riverdale Road/Route 410). At the 6th traffic light, turn right onto Adelphi Road and then left onto Toledo Road. *The Metro 4 building is located on the left after the parking garage.* Total Travel Estimate: 38 minutes / 26.3 miles

### Washington Dulles International Airport (IAD), Dulles, VA

Start out going Northeast on Saarinen Circle toward the Airport Access Road. Merge onto VA-267 E toward I-495/Exit 18-19/VA – 123/Baltimore-Richmond. Merge onto I-495 via Exit 18 toward Baltimore. Continue on I-495 to exit 28B (New Hampshire Avenue/Takoma Park). At the second traffic light, turn left onto Adelphi Road. Continue on Adelphi Road through 5 traffic lights and turn right onto Toledo Road. *The Metro 4 building is located on the left after the parking garage.* Total Travel Estimate: 53 minutes / 35.3 miles

### Metro Rail

**Subject:** RE: Opioid Briefing with the CDC Director (at the Rx Summit) - April 3, 2018 @ 11-11:30 a.m.

Good morning,

Deb was asked by OD (Policy and Chief of Staff's office) to brief Congresswomen Clark at Roybal at 12:00 pm. Is there any possibility she and Dr. Redfield can meet earlier? She is planning to leave the Summit by 11:00 am so she can get to Roybal in ample time for the briefing with Rep. Clark.

Respectfully,

## Mara R. Golden

Subject: NCEZID's CIO Leadership Meeting with New CDC Director

Importance: High

Good afternoon Celeste,

We are reaching out to inquire if Dr. Khabbaz and the NCEZID Leadership would be available to meet with the CDC Director on Friday, March 30th from 10:15-11:15 a.m. at NCEZID's office.

If yes, please respond back with a room location that will be suitable for NCEZID plus 3 additional OD staff personnel.

Thanks,

Teresa

Good morning,

Yes, that's correct. Senator Blunt asked specifically for a call within the next two weeks and would like to meet him once Congress is back in session in mid-April, so Kyle's proposal would work well. I would just recommend that we set up a call as well with Blunt before the in-person meeting on the 9<sup>th</sup>.

**From:** CDC OD Announcements  
**Sent:** 26 Mar 2018 16:48:33 -0400  
**To:** CDC All - CDC & ATSDR and non-CDC & non-ATSDR  
**Subject:** CDC All-Hands Meeting on Thursday, March 29, at 3:00 p.m.

CDC Director and ATSDR Administrator Robert R. Redfield, MD, will hold an All-Hands Meeting on Thursday, March 29, at the Roybal Campus, in the Global Communications Center, in the Alexander D. Langmuir Auditorium (Building 19), beginning at 3:00 p.m. ET. Contractors may attend this meeting with the prior approval of their employer.

Please plan to attend, watch the All-Hands on IPTV, or listen by phone. Also, consider carpooling to the meeting with your co-workers. Access this <<http://intranet.cdc.gov/connects/event/cdc-agency-wide-all-hands/>> link to add the meeting to your Outlook calendar.

#### Accessibility

CDC encourages participation by employees with disabilities.

An ASL interpreter will be available in the auditorium, and assistive listening devices are available from blue-shirted technicians at the event. Please plan to arrive early to ensure your needs are met before the event begins.

A closed-captioned version will be available via IPTV (select Channel 4 from the list of channels on the IPTV website). Captions and participation by persons with communications challenges will also be available online via Relay Conference Captioning. To view the online captions at the start time of the event, please login for captioning on your computer, smartphone, or tablet at <<http://fedrcc.us/Enter.aspx?EventID=3558454&CustomerID=321>> fedrcc.us, event (b)(6)

Requests for accommodations, questions, or comments on accessibility (Section 508) compliance may be directed to the CDC <<mailto:508helpdesk@cdc.gov>> Section 508 Helpdesk.

#### Federal RCC ? Mobile

Federal RCC ? Mobile is a wireless application that provides secure real-time text of your conference call to your Smartphone device. Browse to <<http://mobilercc.sfpintrelay.com/>> <http://mobilercc.sfpintrelay.com/> and then enter your name and the event number, (b)(6)

#### Bridge Line:

Toll Free for Domestic Callers: 800-857-5006

Participant passcode: (b)(6)

Toll Number for International Callers: 1-415-228-4564

Participant passcode: (b)(6)

## IPTV

The All-Hands will be available via IPTV via your computer. IPTV Services are not available via CITGO, but CDC staff not able to connect to the CDC network at the time of the event can use external IPTV if internet access is available by connecting to <http://remoteiptv.cdc.gov/> and using CDC network login information. International CDC network connected users can go to <http://globalremoteiptv.cdc.gov/> to access the conference. For further details on accessing remote events, refer to the [http://intranet.cdc.gov/itso/itso\\_info/IPTV.htm](http://intranet.cdc.gov/itso/itso_info/IPTV.htm) IPTV FAQs page.

Good evening Scott,

Thank you for your email.

Unfortunately Mr. Mutombo will be out of town on those dates except Wed., June 20<sup>th</sup>.

We would be delighted to host Dr. Redfield at our offices, but I understand that for security reasons it might better for us to meet with him at CDC.

I will check with Dr. Mireille Kanda and Mr. Mutombo about June 20<sup>th</sup> and then get back to you.

All the best,  
Susan

**Cc:** Dikembe Mutombo (b)(6) (b)(6) (b)(6)  
**Subject:** Dikembe Mutombo Foundation  
**Importance:** High

Dear Mr. McGowan,

Hope you are well.

My name is Susan M. Johnson and I am the Executive Director for the Dikembe Mutombo Foundation here in Atlanta. Mr. Mutombo and Dr. Redfield met yesterday during the CDC Foundation's board meeting. Dr. Redfield would like to meet with Mr. Mutombo to discuss the [Biamba Marie Mutombo Hospital](#) in the Democratic Republic of the Congo and the possibility of an exchange of technical training between CDC and the hospital. Would you kindly assist me in scheduling a meeting with Dr. Redfield, Mr. Mutombo, our Senior Medical Advisor and me? At this time the following days are available, **May 15 – May 18 and May 21<sup>st</sup>**. We can also look at some dates in June.

It might interest Dr. Redfield to know that **Dr. Rebecca Martin**, Director, Center for Global Health at CDC visited the Mutombo hospital in February 2017. While she was there, she met with Dr. Groesbeck Parham, our gynecologic/oncologist consultant. Dr. Martin's primary interest, as it relates to CDC is support for activities that are presently underway at the hospital and to increase the numbers of women who are tested for [HIV](#), and making sure that those

who test positive are screened for cervical cancer, and of course started on ARV's". In her follow up meeting with us here she discussed laboratory capacity at the hospital and engaging the private-sector around health in the DR Cong.

Thank you for your assistance and please let us know when we might be able to meet with Dr. Redfield.

Best regards,

Susan

Good evening Scott,

Thank you for your email.

Unfortunately Mr. Mutombo will be out of town on those dates except Wed., June 20<sup>th</sup>.

We would be delighted to host Dr. Redfield at our offices, but I understand that for security reasons it might better for us to meet with him at CDC.

I will check with Dr. Mireille Kanda and Mr. Mutombo about June 20<sup>th</sup> and then get back to you.

All the best,  
Susan

Hi Susan! Unfortunately with travel and programmed leave, Dr. Redfield won't be available until June. Does June 7, 8, 15, or 20 work for you? I assume the meeting would be here at CDC once scheduled, but please clarify that for me too. I'm including our team here for their awareness and to assist with the visit once scheduled.

I'm looking forward to hearing from you!

Scott

Thank you for your email Susan. I have added Scott Scales to this email. He will assist you in finding a time for Mr. Mutombo to meet with Dr. Redfield. The director has some travel planned the rest of this month so I'm not sure these dates will work, but Scott can assist you. I know that Dr. Redfield is looking forward to the meeting.

Kyle

**Cc:** Dikembe Mutombo (b)(6) (b)(6) (b)(6)  
**Subject:** Dikembe Mutombo Foundation  
**Importance:** High

Dear Mr. McGowan,

Hope you are well.

My name is Susan M. Johnson and I am the Executive Director for the Dikembe Mutombo Foundation here in Atlanta. Mr. Mutombo and Dr. Redfield met yesterday during the CDC Foundation's board meeting. Dr. Redfield would like to meet with Mr. Mutombo to discuss the [Biamba Marie Mutombo Hospital](#) in the Democratic Republic of the Congo and the possibility of an exchange of technical training between CDC and the hospital. Would you kindly assist me in scheduling a meeting with Dr. Redfield, Mr. Mutombo, our Senior Medical Advisor and me? At this time the following days are available, **May 15 – May 18 and May 21<sup>st</sup>**. We can also look at some dates in June.

It might interest Dr. Redfield to know that **Dr. Rebecca Martin**, Director, Center for Global Health at CDC visited the Mutombo hospital in February 2017. While she was there, she met with Dr. Groesbeck Parham, our gynecologic/oncologist consultant. Dr. Martin's primary interest, as it relates to CDC is support for activities that are presently underway at the hospital and to increase the numbers of women who are tested for **HIV**, and making sure that those who test positive are screened for cervical cancer, and of course started on ARV's". In her follow up meeting with us here she discussed laboratory capacity at the hospital and engaging the private-sector around health in the DR Cong.

Thank you for your assistance and please let us know when we might be able to meet with Dr. Redfield.

Best regards,

Susan

**Attachments:** Dash Pass Mr. Mutombo.pdf, MAP\_Roybal Campus\_Visitor ParkingB45.docx

Thank you Susan. I've attached a dash pass and map for Mr. Mutombo to make it easier to get on to campus. He will still have to go through the visitor lane before entering but I will let the guards know that he is coming. Once through, he will have a parking space reserved as soon as he enters the garage to the right (there will be a cone with his name on it). I will also be there at the visitors center to direct him in and get him to his meeting with the Director. If there are any questions the day of the meeting, my cell is (b)(6)

Lastly, can you let me know approximately what time he will arrive? That way I can start looking for him.

Thanks,  
Brad

Hi Brad,

Mr. Mutombo has been to CDC several times as far back as 1998. We also worked with CDC on the National Immunization Days polio eradication campaign in the DR Congo back in 1999.

A parking pass would be appreciated and if you wouldn't mind meeting him at the visitor's center that would be terrific.

Thank you for your assistance.

Susan

Hi Susan,

My name is Brad Bartee and I am a member of Dr. Redfield's advance team. I am writing to you today to help coordinate Mr. Mutombo's visit to CDC next Wednesday from 1-2pm. I understand that he has been to CDC previously, so, I just wanted to find out what support he needs from us? I can provide a parking pass and instructions on entering the Campus if that is needed and can also meet him at the visitors center to escort him to Dr. Redfield's office.

Thank you and let me know how I can be of assistance.

Brad

Teresa,

Here's the first one of these and it should be scheduled in June or later. Thanks!

Jeremy

Lunch with Dr. James W. Curran

Nancy Sterk (EA to Dr. Curran)

TBD (Summer 2018)

ATL (Emory Univ.)

? Meet with Dean Curran to have lunch at the Rollins School of Public Health offices when available.

? In 1995 James W. Curran was appointed professor of epidemiology and dean of the Rollins School of Public Health. Graduating from the Univ. of Notre Dame, he received his MD from the Univ. of Michigan and a master of public health from Harvard Univ. In 1981 Dr. Curran coordinated the task force on AIDS at the CDC and then led the HIV/AIDS Division. While at the CDC, he attained the rank of the assistant surgeon general.

? Dr. Curran is a fellow of the American Epidemiologic Society, the American College of Preventive Medicine, and the Infectious Diseases Society of America. Author or co-author of more than 260 scholarly publications, he was elected to the Institute of Medicine of the National Academy of Sciences in 1993. He was given the Surgeon General's Medal of Excellence in 1996 and the John Snow Award from the American Public Health Association in 2003.

? Dr. Curran is an adjunct Prof. of Medicine and Nursing, and Co-Director and Principal Investigator of the Emory Center for AIDS Research. He is immediate past chair of the board on Population Health and Public Health Practice of the Institute of Medicine and served on the Executive Committee of the Assoc. of Schools of Public Health. Additionally, he holds an endowed chair known as the James W. Curran Dean of Public Health.

Yes to a meeting; not to a lunch.

Agree

**Subject:** RE: Invitation to lunch w/Dr. James W. Curran

Good morning Nancy,

I hope you are doing well.

Would it be possible to schedule a meeting instead of lunch?

Would any of the dates/times work for Dr. Curran?

6/6 11-11:30 a.m.

6/15 11-11:30 a.m.

If these times are unacceptable, could you offer some times in June?

Thanks,

Teresa

Good morning ? I am writing on behalf of Dr. James W. Curran, Dean at the Rollins School of Public Health/Emory University. He would like to invite Dr. Redfield to lunch in our offices sometime this summer if at all possible. When you have a chance, could you please respond with some options if Dr. Redfield is amenable to this request?

Thank you!

Nancy

**Subject:** RE: Invitation to lunch w/Dr. James W. Curran

Directions to RSPH/Dr. Jim Curran's office:

Turn right out of CDC onto Clifton Road. Proceed ahead to Houston Mill Road – turn right at light. As you start down the hill, take the first left onto Rollins Way. Enter the first parking deck on the right – you will need to press the buzzer to have them lift the gate. Drive ahead and you will see a parking spot w/an orange cone w/Dr. Redfield's name on it. Once parked, walk back across Rollins Way. You will see two building connected by a bridge. Enter the one to the left (Claudia Nance Rollins Building). Proceed ahead to the elevators and take them to the 8<sup>th</sup> floor – left off the elevator into the Dean's Suite.

I wanted to send you the complete directions but of course I will be more than happy to meet Dr. Redfield at the parking deck to escort him - if the driver could call me at (404)786-6045 when they are close I will come down.

Let me know if you need anything else and I hope you are having a wonderful day also!

Nancy

Hi Kimberly,

Per our telephone conversation today, the meeting between Drs. Besser and Redfield is confirmed May 7<sup>th</sup> from 11:00-11:30 a.m. at our CDC Roybal Campus, 1600 Clifton Road, NE.

The meeting will take place in Building 21, 12<sup>th</sup> Floor, OD Suite in the Director's Conference Room.

A member of our Advance Team will contact you soon to discuss logistics for security clearance and an escort for Dr. Besser and Dr. John Lumpkin.

Please feel free to contact me should you have any questions.

Have a wonderful weekend.

Best,  
Teresa

**Subject:** Meeting Request: Dr. Richard Besser and Dr. Robert Redfield - May 7, 2018

Good morning Kim,

I hope you are doing well.

Will Dr. Besser be in Atlanta attending the CDC/Emory 1918 Influenza Pandemic Commemoration on May 7<sup>th</sup>?

If yes, would it be possible to schedule a 30 minute meeting at Emory or CDC?

Could you offer some times that Dr. Besser would be available?

Thank you for your consideration.

Best,  
Teresa

Hi Teresa,

Thanks so much for letting me know. I know Dr. Gottlieb would very much like to meet with Dr. Redfield.

By chance, has breakfast opened up for Dr. Redfield on April 4? Dr. Gottlieb could do any time between 8:00-10:00 am. If not, we will make the 2:30-3:30 pm time work (we have the Williams Room booked at the Hyatt – located on the Atlanta Conference Level of the Hyatt).

Thanks again!

## Interim Estimates of 2017–18 Seasonal Influenza Vaccine Effectiveness — United States, February 2018

Brendan Flannery, PhD<sup>1</sup>; Jessie R. Chung, MPH<sup>1</sup>; Edward A. Belongia, MD<sup>2</sup>; Huong Q. McLean, PhD<sup>2</sup>; Manjusha Gaglani, MBBS<sup>3</sup>; Kempapura Murthy, MPH<sup>3</sup>; Richard K. Zimmerman, MD<sup>4</sup>; Mary Patricia Nowalk, PhD<sup>4</sup>; Michael L. Jackson, PhD<sup>5</sup>; Lisa A. Jackson, MD<sup>5</sup>; Arnold S. Monto, MD<sup>6</sup>; Emily T. Martin, PhD<sup>6</sup>; Angie Foust, MS<sup>1</sup>; Wendy Sessions, MPH<sup>1</sup>; LaShondra Berman, MS<sup>1</sup>; John R. Barnes, PhD<sup>1</sup>; Sarah Spencer, PhD<sup>1</sup>; Alicia M. Fry, MD<sup>1</sup>

In the United States, annual vaccination against seasonal influenza is recommended for all persons aged  $\geq 6$  months (1). During each influenza season since 2004–05, CDC has estimated the effectiveness of seasonal influenza vaccine to prevent laboratory-confirmed influenza associated with medically attended acute respiratory illness (ARI). This report uses data from 4,562 children and adults enrolled in the U.S. Influenza Vaccine Effectiveness Network (U.S. Flu VE Network) during November 2, 2017–February 3, 2018. During this period, overall adjusted vaccine effectiveness (VE) against influenza A and influenza B virus infection associated with medically attended ARI was 36% (95% confidence interval [CI] = 27%–44%). Most (69%) influenza infections were caused by A(H3N2) viruses. VE was estimated to be 25% (CI = 13% to 36%) against illness caused by influenza A(H3N2) virus, 67% (CI = 54%–76%) against A(H1N1)pdm09 viruses, and 42% (CI = 25%–56%) against influenza B viruses. These early VE estimates underscore the need for ongoing influenza prevention and treatment measures. CDC continues to recommend influenza vaccination because the vaccine can still prevent some infections with currently circulating influenza viruses, which are expected to continue circulating for several weeks. Even with current vaccine effectiveness estimates, vaccination will still prevent influenza illness, including thousands of hospitalizations and deaths. Persons aged  $\geq 6$  months who have not yet been vaccinated this season should be vaccinated.

Methods used by the U.S. Flu VE Network have been published previously (2). At five study sites,\* patients aged  $\geq 6$  months seeking outpatient medical care for an ARI with cough within 7 days of illness onset were enrolled. Study enrollment began after local surveillance identified increasing weekly influenza activity or one or more laboratory-confirmed cases of influenza per week for 2 consecutive weeks. Patients

were eligible for enrollment if they 1) were aged  $\geq 6$  months on September 1, 2017, and thus were eligible for vaccination; 2) reported an ARI with cough with onset  $\leq 7$  days earlier; and 3) had not been treated with influenza antiviral medication (e.g., oseltamivir) during this illness. After obtaining informed consent from patients or from parents or guardians for their children, participants or their proxies were interviewed to collect demographic data, information on general and current health status and symptoms, and 2017–18 influenza vaccination status. Nasal and oropharyngeal swabs (or nasal swabs alone for children aged  $< 2$  years) were collected to obtain respiratory specimens; nasal and oropharyngeal swabs were placed together in a single cryovial with viral transport medium. Specimens were tested at U.S. Flu VE Network laboratories using CDC's real-time reverse transcription polymerase–chain reaction (rRT-PCR) protocol for detection and identification of influenza viruses. Participants (including children aged  $< 9$  years, who require 2 vaccine doses during their first vaccination season) were considered vaccinated if they received  $\geq 1$  dose of any seasonal influenza vaccine  $\geq 14$  days before illness onset, according to medical records and registries (at the Wisconsin site); medical records and self-report (at the Washington site); or self-report only (at the Michigan, Pennsylvania, and Texas sites). VE against all influenza virus types combined and against viruses by type/subtype was estimated as  $100\% \times (1 - \text{odds ratio})$ .<sup>†</sup> Estimates were adjusted for study site, age group, sex, race/ethnicity, self-rated general health, number of days from illness onset to enrollment, and week of illness (3-week intervals) using logistic regression. Interim VE estimates for the 2017–18 season were based on patients enrolled through February 3, 2018.

Among the 4,562 children and adults with ARI enrolled at the five study sites from November 2, 2017, through February 3, 2018, a total of 1,712 (38%) tested positive for influenza virus by rRT-PCR, including 1,392 (81%) influenza A viruses and 323 (19%) influenza B viruses (Table 1). Among 1,340 subtyped influenza A viruses, 1,143 (85%) were A(H3N2) viruses and 208 (16%) were A(H1N1)pdm09

\*The U.S. Flu VE Network sites and the dates enrollment began are as follows: Kaiser Permanente Washington (Seattle, Washington) (November 27, 2017); Marshfield Clinic Research Institute (Marshfield, Wisconsin) (December 26, 2017); University of Michigan School of Public Health (the School of Public Health partnered with the University of Michigan Health System, Ann Arbor, and the Henry Ford Health System, Detroit, Michigan) (December 4, 2017); University of Pittsburgh Schools of the Health Sciences (the Schools of the Health Sciences partnered with the University of Pittsburgh Medical Center, Pittsburgh, Pennsylvania) (November 29, 2017); and Baylor Scott & White Health, Texas A&M University Health Science Center College of Medicine (Temple, Texas) (November 2, 2017).

<sup>†</sup>  $100\% \times (1 - \text{odds ratio})$  [ratio of odds of being vaccinated among outpatients with influenza-positive test results to the odds of being vaccinated among outpatients with influenza-negative test results].

viruses. Most (98%) influenza B viruses belonged to the B/Yamagata lineage. The proportion of patients with influenza differed by study site, sex, age group, race/ethnicity, self-rated health status, and interval from illness onset to enrollment (Table 1). The percentage of patients who were vaccinated ranged from 45% to 59% among study sites and differed by sex, age group, race/ethnicity, and self-rated health status.

Among ARI patient participants, 43% of those with influenza had received the 2017–18 seasonal influenza vaccine, compared with 53% of influenza-negative participants (Table 2). After adjusting for study site, age group, sex, race/ethnicity, self-rated general health, number of days from illness onset to enrollment, and week of illness onset (3-week intervals), VE against medically attended ARI caused by all influenza virus types combined was 36% (CI = 27%–44%). VE for all ages was 25% (CI = 13% to 36%) against medically attended ARI caused by A(H3N2) virus infection, 67% (CI = 54%–76%) against influenza A(H1N1)pdm09 virus infection, and 42% (CI = 25%–56%) against influenza B virus infection. VE point estimates against medically attended influenza for all virus types varied by age group; statistically significant protection against medically attended influenza was found among children aged 6 months through 8 years (VE = 59%; CI = 44%–69%) and adults aged 18–49 years (VE = 33%; CI = 16%–47%), whereas no statistically significant protection was observed in other age groups.

As of February 3, 2018, a total of 257 influenza A(H3N2) viruses from U.S. Flu VE Network participants had been characterized by CDC; 240 (93%) belonged to either genetic group 3C.2a (226 viruses) or the related subgroup 3C.2a1 (14), whereas 17 (7%) belonged to group 3C.3a. Genetic group 3C.2a includes the A/Hong Kong/4801/2014 reference virus representing the A(H3N2) component of the 2017–18 Northern Hemisphere influenza vaccines (3).

## Discussion

Early and widespread influenza activity during the 2017–18 influenza season provided the opportunity to estimate interim VE against several circulating influenza viruses, including the predominant A(H3N2) virus. These interim estimates reflect ongoing challenges with the A(H3N2) vaccine component since the 2011–12 season. The interim estimate of 25% VE against A(H3N2) viruses this season indicates that vaccination provided some protection, in contrast to recently reported, nonsignificant interim estimates of 17% from Canada and 10% from Australia (4,5) and is similar to final (32%) VE estimates in the United States against A(H3N2) viruses during 2016–17<sup>§</sup>

<sup>§</sup> <https://www.cdc.gov/vaccines/acip/meetings/downloads/slides-2017-06/flu-03-ferdinands.pdf>.

(6). However, among children aged 6 months through 8 years, the interim estimates against any influenza and A(H3N2) virus infection were higher; the risk for A(H3N2) associated medically-attended influenza illness was reduced by more than half (59%) among vaccinated children. Also, with interim VE estimates of 67% and 42% against influenza A(H1N1)pdm09 and B viruses, respectively, vaccination provided substantial protection against circulating A(H1N1)pdm09 viruses, as well as moderate protection against influenza B viruses predominantly belonging to the B/Yamagata lineage, the second influenza type B component included in quadrivalent vaccines. CDC continues to recommend influenza vaccination while influenza viruses are circulating in the community; several more weeks of influenza activity are likely. Influenza vaccination has prevented thousands of hospitalizations during previous seasons when influenza A(H3N2) viruses were predominant, including during the 2014–15 season when interim VE estimates were similar to those reported here. Appropriate use of influenza antiviral medications for treatment of severely ill persons or persons at high risk for complications from influenza who develop influenza symptoms is important, especially among older adults, who currently have the highest hospitalization rates (3).

VE estimates against A(H3N2) viruses have been lower than estimates against A(H1N1)pdm09 and B viruses for several years (7). Although there is no definitive evidence for antigenic drift of viruses circulating this season compared with cell culture–propagated reference viruses representing the A(H3N2) vaccine component (3), challenges with antigenic characterization of recent A(H3N2) viruses, many of which could not be characterized using traditional hemagglutination inhibition assays, have required the use of additional virus neutralization assays to assess antigenic characteristics. Multiple factors might be contributing to the reported VE against A(H3N2) viruses this season. Immune responses to vaccination differ by age and previous infection or vaccination history and can affect vaccine protection; higher VE against A(H3N2) viruses among young children suggests that vaccination might provide better protection against circulating A(H3N2) viruses to this age group. Also, genetic changes in the vaccine virus hemagglutinin protein that arise during passage in eggs might result in a vaccine immune response that is less effective against circulating viruses (8,9). Human serologic data indicate decreased inhibition of circulating cell culture–propagated A(H3N2) viruses compared with egg-propagated viruses among persons vaccinated with egg-based vaccines.<sup>¶</sup> Additional studies are needed to assess whether VE against circulating A(H3N2) viruses varies by vaccine type, including comparisons between egg-based and

\* Defined as having received ≥1 dose of influenza vaccine ≥14 days before illness onset. A total of 102 participants who received the vaccine ≤13 days before illness onset were excluded from the study sample.

† The chi-square statistic was used to assess differences between the numbers of persons with influenza-negative and influenza-positive test results, in the distribution of enrolled patient and illness characteristics, and in differences between groups in the percentage vaccinated.

§ Enrollees were categorized into one of four mutually exclusive racial/ethnic populations: white, black, other race, and Hispanic. Persons identifying as Hispanic might have been of any race. Persons identifying as white, black, or other race were non-Hispanic. Race/ethnicity data were missing for 15 enrollees.

¶ Fourteen patients had coinfection with influenza A and influenza B, making the sum 1,726, or 14 greater than the total number of influenza-positive patients.

non-egg-based vaccines. CDC will continue to monitor VE through the remainder of the season and is investigating these factors. In addition, many efforts are under way to improve selection and development of candidate vaccine viruses that are optimal for vaccine production and provide protection against a majority of circulating viruses.

These interim VE estimates underscore the need for influenza antiviral treatment for any patient with suspected or confirmed influenza who is hospitalized, has severe or progressive illness, or is at high risk for complications from influenza, regardless of vaccination status or results of rapid, point-of-care influenza

**TABLE 2. **Abbreviation:** CI = confidence interval.

\* Vaccine effectiveness was estimated as 100% x (1 - odds ratio [ratio of odds of being vaccinated among outpatients with influenza-positive test results to the odds of being vaccinated among outpatients with influenza-negative test results]); odds ratios were estimated using logistic regression.

<sup>†</sup> Statistically significant at the p<0.05 level.

diagnostic tests.\*\* CDC recommends antiviral medications as an adjunct to vaccination, and their potential public health benefit is increased in the context of low VE. A CDC health

\*\* A complete summary of guidance for antiviral use is available at <https://www.cdc.gov/flu/professionals/antivirals/summary-clinicians.htm>. Groups at high risk for influenza complications include the following: children aged <2 years; adults aged ≥65 years; persons with chronic pulmonary conditions (including asthma); persons with cardiovascular disease (except hypertension alone); persons with renal, hepatic, or hematologic (including sickle cell) disease; persons with metabolic disorders (including diabetes mellitus); persons with neurologic and neurodevelopmental conditions (including disorders of the brain, spinal cord, peripheral nerves and muscles, such as cerebral palsy, epilepsy [seizure disorders], stroke, intellectual disability [mental retardation], moderate to severe developmental delay, muscular dystrophy, or spinal cord injury); persons with immunosuppression, including that caused by medications or by human immunodeficiency virus infection; women who are pregnant or ≤2 weeks postpartum; persons aged <19 years who are receiving long-term aspirin therapy; American Indian/Alaska Natives; persons with morbid obesity (i.e., body-mass index ≥40); and residents of nursing homes and other chronic-care facilities.

update issued December 27, 2017, regarding treatment with antiviral medications is available at <https://emergency.cdc.gov/han/han00409.asp>. Clinicians should be aware that influenza activity is widespread, and influenza should be considered as a possible diagnosis in all patients with acute respiratory illness.

The findings in this report are subject to at least four limitations. First, vaccination status included self-report at four of five sites. End-of-season VE estimates based on updated documentation of vaccination status might differ from interim estimates. Second, information from medical records and immunization registries is needed to evaluate VE by vaccine type and for fully vaccinated versus partially vaccinated children, as well as to evaluate the effects of previous season vaccination and timing of vaccination; end-of-season analysis of VE by vaccine type and effects of partial or previous season vaccination is planned. Third, an observational study design

**Summary****What is already known about this topic?**

Effectiveness of seasonal influenza vaccine can vary by season and has generally been higher against influenza A(H1N1)pdm09 and B viruses than against A(H3N2) viruses.

**What is added by this report?**

So far this season, influenza A(H3N2) viruses have predominated, but other influenza viruses are also circulating. Based on data from 4,562 children and adults with acute respiratory illness enrolled during November 2, 2017–February 3, 2018, at five study sites with outpatient medical facilities in the United States, the overall estimated effectiveness of the 2017–18 seasonal influenza vaccine for preventing medically attended, laboratory-confirmed influenza virus infection was 36%.

**What are the implications for public health practice?**

CDC continues to monitor influenza vaccine effectiveness. Influenza vaccination is still recommended; vaccination reduces the risk for influenza illnesses and serious complications. Treatment with influenza antiviral medications, where appropriate, is especially important this season.

has greater potential for confounding and bias relative to randomized clinical trials. However, the test-negative design is widely used in VE studies and has been used by the U.S. Flu VE Network to estimate VE for previous influenza seasons. Finally, small sample sizes in some age groups resulted in wide confidence intervals, and end-of-season VE estimates could change as additional patient data become available or if there is a change in circulating viruses late in the season. It is also important to note that the VE estimates in this report are limited to the prevention of outpatient medical visits rather than more severe illness outcomes, such as hospitalization or death; data from studies measuring VE against more severe outcomes will be available at a later date.

Annual monitoring of VE supports ongoing efforts to improve influenza vaccines. Although more effective vaccines are needed, vaccination prevents a substantial burden of influenza-related illness annually. During the 2014–15 season, when VE against medically attended illness caused by any influenza virus was less than 20%, vaccination was estimated to prevent 11,000–144,000 influenza-associated hospitalizations and 300–4,000 influenza-associated deaths (<https://www.cdc.gov/flu/about/disease/2014-15.htm>). Small increases in VE can substantially affect the number of hospitalizations prevented during a severe season (10). Although interim estimates suggest that vaccination has prevented some influenza-related illness this season, influenza vaccines with improved effectiveness are needed to substantially reduce the incidence of disease.

Hi Scott,

Thanks so much, 8:30-9:15 will be perfect. KLD is out of office at that time, can you please include Michelle Bonds and Kate Galatas on the invite? They will be the ones prepping Dr. Redfield for this session.

Many thanks!  
Delaney

**Subject:** Ebola communication planning and run through

Hi Scott,

When Dr. Redfield gets back from WHA, OADC will need to work with him on comms prep for the current Ebola outbreak (talk through/prep for media, lessons learned, etc.). We were hoping to see

when might be the earliest that we can meet with him for this? Ideally it would be great to block an hour, but understand if that is not physically possible.

Thanks!  
Delaney

**Subject:** Ebola Prep Sessions

Hi Katherine,

This morning on hot topics you mentioned media prep sessions for Dr. Redfield on the Ebola outbreak, once he gets back from WHA. We weren't quite sure on next steps so wanted to check in – would you like us to start scheduling those with his team, or do you need to talk through this with others before anything goes on the calendar?

Thanks so much,  
Delaney

**Subject:** Ebola Discussion with Secretary Azar

UPDATE:

The times have shifted a bit. This discussion will take place from 9:50-10:35am. Thanks, Nikki

Drs. Dahl and Rollin, currently in DRC, will deliver a report to Sec. Azar in the ECR at 10:00 on Fri. 1 June. Below is the bridgeline information:

USA Toll Free: 866-719-6879  
International: 210-234-3578  
Passcode: (b)(6)

A/V, please assist by connecting them to the meeting. Their mobile numbers are: Dr Dahl - 404- 374-8702, Dr Rollin - 470-312-5791.

Please let me know if you have any questions.

Best,  
Nikki

**CDC Media Contact (if applicable):** TBD

2. **Event Information:**

**Event Host:** Rollins School of Public Health, Emory University

**Purpose of Event:** The Rollins School of Public Health at Emory University and the U.S. Centers for Disease Control and Prevention (CDC), will bring together experts from different disciplines for a one-day symposium on pandemic influenza threats. In the context of the centenary of the 1918 influenza pandemic, the one-day symposium will feature perspectives on its history from world experts on influenza and public health. The event will facilitate interactive discussion and debate about our ability to identify and respond to novel influenza threats today and convene experts from academia and government for public discussion on prioritization of future investment in pandemic influenza.

**Agenda:** attached

**Number of Attendees and Composition:** Public health researchers, practitioners, and future leaders, policymakers, Public Health and Preparedness Partners, Physicians and Healthcare Providers, and Media invited to attend.

**Key Participants:** Speakers will include leading experts in global public health, policy making, epidemiology, virology, medicine, and medical and nursing history. Recognized public health leaders from Emory and CDC (past and present), academics, authors, and media personalities will engage in dynamic sessions: roundtable discussions, point/counterpoint, and other creative opportunities for debate and discussion.

**Bios:** TBD

**Source Invitation:** Yes on the 2/15/18 DL. (for Schuchat)

3. **Dr. Schuchat's Speech Information or Talking Points (TPs):**

**Dr. Schuchat's Remarks/Presentation/TPs:** TBD

**Proposed Role and Topic:** TBD

**To:** Strength, Tracie (CDC/OD/OCS)  
**Subject:** Influenza symposium  
**Attachments:** 1 Rollins CDC Symposium 3 APRIL 2018 DRAFT AGENDA.DOCX

Good morning – Dr. Jim Curran asked that I send the attached “draft” agenda for an influenza symposium that is being hosted here at the Rollins School of Public Health on Monday, May 7. He thought that Dr. Redfield would be interested in seeing it – we understand that it would be doubtful for him to attend any portion of it but if he is able to, please contact me and I can make arrangements on this end.

Thanks so much!

Nancy

Hi John and Blake,

Just a request to reserve a parking spot near the visitor center for Dr. Redfield on 5 June from 2:00-4:00. He will visit Chamblee that day to participate in a lab tour.

Thanks,

Brad

+Kyle

I am thinking lunch is Dr Redfield and Kadlec alone. They can walk to B16 together.

I (Kyle and I) will have lunch w/ Chris.

The 1-2pm will include others.

Thanks

---

Hi Sherri,

I've added Rima. Also, is this meeting confirmed?

Please advise if the 12-1 p.m. lunch with Bob Kadlec and Chris Meekins is confirmed?

Thanks,  
Teresa

**Subject:** June 19

Hi Rima –

Are you here? Kadlec is coming & meeting w/ Redfield 1-2pm.

I would like the session focused on EZID-related items, hoping you can be there. We will invite a few members of the transition unit as well.

Thanks

**Sent:** Tuesday, April 3, 2018 4:40 PM  
**Subject:** Save the Date: May 3 CDC Event for the Georgia Delegation

The Centers for Disease Control and Prevention (CDC) will **host an open house for the Georgia Delegation with our new Director, Dr. Robert Redfield, May 3, 2018 from 3:30 – 5:30pm.**

On the agenda:

- Opportunity for the Georgia Delegation to meet the new CDC Director
- Time for CDC Senior Leadership to provide the Delegation with several updates in areas that the Agency is working in the Georgia community
- A chance for Members to meet senior CDC leaders and network with other members in order to advance CDC's mission

More details and formal invitation to come shortly. We hope you will join us.

Thank you,  
Sherri

Hi Sarah. Thank you. We will confirm that date and time. Delaney, copied here is the OADC POC. I will circle back tomorrow with my logistics POC. Scott

Sent from my iPhone

On Apr 16, 2018, at 4:20 PM, Wiley, Sarah D. (CDC/OID/OD) <[sed5@cdc.gov](mailto:sed5@cdc.gov)> wrote:

Hi, Scott. It looks like the morning slot on 4/23 will work best. If you can let us know who will be the POC from OD for this, Phoebe can work with that person on the details, clearances, timing specifics, etc. NCEZID, NCIRD, and OID will participate from program side.

Re: photographs, we have limits on the number of people who can go on an HCL tour. If we have a photographer, we would also need to include additional safety and security staff. If this is for a CDC Connects story, I'm wondering if we could get photos of Dr. Redfield on his way into the lab building, or at a different spot before we actually get to the HCL, so that we can ensure that the program staff and leadership who need to talk with him about the work going on in the lab are able to go. Let me know if there's someone in OADC I can talk with about whether or not we need to do photos in the HCL corridor on this visit. Thanks. - Sarah

**Subject:** BSL Tour

Hi Sara and Steve. We'd like to arrange for Dr. Redfield and Kyle to visit the BSL IV lab as part of their continued CDC orientation, and to highlight Dr. Redfield's commitment to lab safety & quality. Looking at our calendars, the following two dates & times work best on our end, so please let me know your thoughts or concerns with these options, and if you're available to join them Steve. Also, we expect that KLD's team may want to do a CDC Connects story as part of the visit, so there may be some limited CDC photography as allowed.

- Monday 23 April, 10:30-11:30 am or 3-4 pm
- Tuesday 24 April, 2:30-3:30 pm

Thanks! -Scott

Good morning Teresa-

I just left a voicemail for you relating to scheduling a security clearance indoctrination appointment for Dr. Redfield. it is my understanding that he has a meeting scheduled with Dr. Kadlec at 1230 today where the intent is to discuss classified information.

Would you be able to help us find some time (about 20-30 min) before then? Thanks; Ruby (cc'd) would be the briefer for him.

Very respectfully,

Michael Schmoyer, Ph.D

**Subject:** Scheduling Security Clearance Indoctrination

Good morning Teresa-

I just left a voicemail for you relating to scheduling a security clearance indoctrination appointment for Dr. Redfield. it is my understanding that he has a meeting scheduled with Dr. Kadlec at 1230 today where the intent is to discuss classified information.

Would you be able to help us find some time (about 20-30 min) before then? Thanks; Ruby (cc'd) would be the briefer for him.

Very respectfully,

Michael Schmoyer, Ph.D

## **HIV/STD Partners Organizations Executive Director Short Biographies**

Prepared for Dr. Redfield's June 21 engagement

---

### **Michael Ruppal**

#### **Executive Director, The AIDS Institute**

Michael Ruppal is the Executive Director of The AIDS Institute (TAI), a national healthcare organization that focuses on HIV/AIDS, Hepatitis and related diseases. TAI's mission is to promote action for social change through, public policy, advocacy, research and education. He is responsible for overseeing the agency's day to day operations of its programs including state and federal policy, patient advocacy, research, education, capacity building, communications, community planning, and convening. TAI's program and administrative offices are in Tampa, FL at the University of South Florida, College of Medicine, where Michael is the Director of Policy and Ethics for the College of Medicine as part of the collaboration. He also oversees TAI's state policy offices in Tallahassee, FL and the national policy office in Washington, DC.

Since 1996, he has functioned in senior management for the non-profit sector developing, managing and providing HIV/AIDS support services in various capacities including, grant management, case management, site based homeless program, supportive housing services, rental assistance, food pantry, financial management and job placement.

Prior to his experience in the non-profit field he worked as a real estate/construction lender for Barnett Banks of Florida. He founded and owned a real estate company as well as a real estate development/construction company for over 12 years. As a licensed real estate broker, mortgage broker and residential contractor, Michael has an extensive background in financial and business management and program and project development.

### **Jesse Milan, Jr.**

#### **Executive Director, AIDS United**

Jesse Milan, Jr. JD is President & CEO of AIDS United, a national organization focused on ending the HIV epidemic in the U.S. through grant-making, policy and capacity building. AIDS United has a 30-year legacy of granting over \$113 million, including \$8 million currently, to over 240 grantees in 36 states and territories, and the 48 members of its Public Policy Council are the leading HIV organizations in the country. A person living with HIV for over 30 years and a recognized leader in the HIV community, Milan serves currently as Chair Emeritus on the Black AIDS Institute board of directors, on the Scientific Advisory Board for the President's Emergency Plan for AIDS Relief (PEPFAR), is an officer of the global Funders Concerned About AIDS board, and serves on the Dean's Advisory Council for the UNC Gillings School of Global Public Health. He is former AIDS Director for the City of Philadelphia, and worked 15 years as vice president of two public health consulting firms. He served a five-year appointment as co-chair of the CDC/HRSA Advisory Committee on HIV and STD Prevention, Treatment and Care, and has been designated a Fulbright Senior Specialist in Global HIV/AIDS. A graduate of Princeton University and the New York University School of Law, Milan has served as board chair of five non-profit organizations and received numerous honors. He has conducted three speaking tours of Africa for the U.S. State Department; has given hundreds of presentations; and delivered keynote addresses across the U.S. including at the White House.

### **Murray C. Penner**

### **Executive Director, NASTAD**

Murray Penner is Executive Director at NASTAD. Murray joined NASTAD in 2001 and previously served as Director of NASTAD's Care & Treatment Program and prior to his current role as NASTAD's Deputy Executive Director. Murray oversees all NASTAD programs [including Health Care Access, Health Systems Integration, Health Equity, Prevention, Hepatitis, Global and Policy & Legislative Affairs] as well as NASTAD's overall operations. Murray has strong expertise and experience in HIV and hepatitis treatments, the Ryan White Program and AIDS Drug Assistance Programs (ADAP), as well as drug pricing. Prior to his work at NASTAD, Murray served as the Coordinator for the Fort Worth Area Ryan White HIV Planning Council. He received his Bachelor Degree in Social Work from Bethel College in North Newton, KS and is pursuing his MPH from The George Washington University.

### **David Harvey**

#### **Executive Director, National Coalition of STD Directors (NCSD)**

David joined NCSD as executive director in October of 2016. Previously he was founding executive director of AIDS Alliance for Children, Youth & Families, a national public health association; and president and CEO of Proliteracy, an international adult education organization. David has held positions as project director and policy analyst for the National Disability Rights Network and the University of Medicine & Dentistry of NJ's – National Pediatric & Family HIV Resource Center. He is past executive director of LIFT-DC, an anti-poverty direct service organization in Washington. David started out his career as an aide to U.S. Representative Sam Gejdenson (D-CT) and Martin Stevens, M.P. (C-Fulham & Hammersmith) in the House of Commons.

David has spoken widely at domestic and international conferences, served on various national boards and blue ribbon panels and in 2012 was appointed by Secretary Clinton to the U.S. National Commission for UNESCO. He is a graduate of Clark University and Catholic University of America and has authored over 20 peer-reviewed articles and chapters and various other publications. David is currently a member of the board of American Sexually Transmitted Diseases Association (ASTDA) and is a nationally certified executive coach through the International Coach Federation (ICF).

### **Paul Kawata**

#### **Executive Director, NMAC**

Since 1989, Paul Akio Kawata has served as Executive Director of the National Minority AIDS Council (NMAC), the premier organization dedicated to leading with race to urgently fight for health equity and racial justice to end the HIV epidemic in America. Under Paul's direction, NMAC implemented the first HIV treatment education programs in the United States targeted to minorities. Paul provides strategic direction of the organization's administrative, fiscal and fundraising infrastructure, and oversees its training, technical assistance, education, and national advocacy programs and initiatives. In addition, he conceived and developed the organization's high-profile meetings, including the United States Conference on AIDS (USCA), currently the largest annual AIDS-related gathering in the country.

**Subject:** RE: Rescheduling HIV/STD exec dir meeting

Thanks Michael. I've included a few others for awareness and to allow them to comment as needed. I am concerned about your timing. Dr. Redfield is scheduled to join from 3-3:45pm, but we can tweak that some, however he does have a hard stop at 4:30pm, so if you wanted, we could do 3:45-4:30. We expect that Amanda Campbell, Dep Chief of Staff, and maybe Mitch or others from CDCW may also join. Let us know and thanks for sharing and arranging. -Scott

**Subject:** RE: Rescheduling HIV/STD exec dir meeting

Hi Scott:

Sara Jamieson in our CDC/W office will take care of the non-CDC building access at CDC/W on June 21 at 3:45pm. As an FYI, attached is an email I sent to Campus Security on May 12 when this meeting was originally scheduled if that is any help to you or anyone in your office.

CDC/W has reserved CR 9150 from 3-5pm for this meeting; the meeting is set to start at 3:45pm.

Attached are the bios for the five Executive Directors Dr. Redfield will be meeting with and I have listed their names and organization immediately below:

**Non-CDC Attendees:**

- Jesse Milan – AIDS United
- Murray Penner – NASTAD
- Michael Ruppal – AIDS Institute
- Paul Kawata – NMAC
- David Harvey – NCSD

**CDC Attendees**

- Robert Redfield
- Jonathan Mermin
- Special Assistant to the CDC Director?

Please let me know if you need anything else. I am happy to help!

Thanks,

-Michael

**Michael D. Williams, MPH**

Special Assistant to Dr. Jonathan Mermin, Director

Hi Juanita,

Dr. Redfield was hoping to meet with Dr. Sigounas on June 11<sup>th</sup> in person.

If that's not possible, could we look at scheduling a call sometime the week of June 11<sup>th</sup>?

Thanks,

Teresa

Hi Teresa,

Let me check with Dr. Sigounas on the 8:30am time on June 11. Since we are located outside of DC we need to allow time to get downtown with rush hour traffic. The June 25<sup>th</sup> time looks best for us, but let me check and get back to you. Can you hold both of those times. I may not get back today, but will as soon as possible.

Thank you,

Hi Juanita,

We may have some difficulties securing a time on May 15<sup>th</sup>.

Dr. Redfield has a conflicts at the times you offered on June 11<sup>th</sup>.

Would it be possible to schedule a meeting on June 11<sup>th</sup> from 8:30-9:00 a.m.?

If not, what about June 25<sup>th</sup> from 12:30-1:00 p.m.?

Thanks so much for your time and consideration.

Best,  
Teresa

Hi Teresa,

I still don't have a firm answer about Dr. Sigounas' schedule for next Tuesday, May 15. What time, if any, do you have open that day? I can see if we can accommodate Dr. Redfield's schedule. Or, we can look at Monday, June 11. Dr. Sigounas is downtown every Monday for meetings 9:30-12:15 (9:30-10; 10-10:30 and 11:30-12:15). Any chance of time 10:30-11:30 or 12:30?

Thanks,

**Subject:** RE: Request for Meeting with Dr. George Sigounas, HRSA and Dr. Robert Redfield, CDC

Teresa,

Dr. Sigounas is scheduled to speak on May 15, 10:45-11:30am and I don't know how much time he wants to stay for this HRSA regional event. Until, I can talk to him, I don't want to commit. Could we either go back to May 14 in the afternoon or wait until I know about May 15. I think Dr. Sigounas would like to meet with Dr. Redfield as soon as possible.

Thank you,

FYI—I am not in the office (b)(6)

I understand.

One of the meetings that Dr. Sigounas has every Monday at HHH is 11:30-12:15pm, so 11:30 is not good. Let me look at May 15 and get back to you. He is actually going to be at Humphrey that day attending a HRSA meeting, but we don't have the times locked up yet. That might work.

Thanks,

**Juanita Grabner**

**Subject:** RE: Media interview for June 28

Hi Teresa,

The interview with Associated Press on June 28<sup>th</sup> is a go. We're currently planning to spend 3:30 to 3:45 pm prepping Dr. Redfield, followed by in-person photos/portraits with an AP photographer from 3:45 to 4 pm, and the interview will be from 4 to 4:30 (along with any wiggle room on the back-end, if possible). As of now, the interview will be by phone since the reporter isn't located in Atlanta. I'll let you know if that changes.

Please let me know if you need any further information, but I'll continue to update as we finalize the details.

Thanks,  
Kate

Hi Teresa,

Betsy has confirmed the June 18<sup>th</sup> interview, so let's proceed with prep from 5 to 5:30 pm, and the interview from 5:30 to 6 pm. Please also keep the hold on June 28<sup>th</sup> as time for a possible interview with another reporter/outlet – and we'll circle back on that as details are finalized.  
FYI: I'm on leave next week, but Michelle and Kathy will follow up with any needed updates regarding the interview.

Thanks for all your help on this today!  
Kate

Hi Kate,

Dr. Redfield is open to having the interview on Monday, June 18<sup>th</sup> from 5-6 p.m.

Also, per our conversation, I am holding Thursday, June 28<sup>th</sup> from 3:30-4:30 p.m.

Please advise how you would like to proceed.

Thanks,  
Teresa

Hi Tracie,

Can we put a hold on his calendar for 3 to 4 pm on Wednesday, June 20<sup>th</sup> (after the CERC training)? We'd like to see if we can arrange the interview (3 to 3:30 prep; 3:30 to 4 pm interview) at that time. Also, if you know of any other 1-hour windows that we may be able to claim on Monday, Tuesday or Wednesday (June 18-20), please let me know.

Thanks,  
Kate

## 1. Contacts:

**Logistics Specialist:** TBD

**Special Assistant:** Ashley Knotts (Dee Dee will staff)

**Event Contact:** Sukeshi Mehta Roberts, Venesco, LLC Contractor, (CGH), Office: (404) 498-1476, Mobile: (404) 317-0619, [nwn7@cdc.gov](mailto:nwn7@cdc.gov)

**CDC Staffer Accompanying Dr. Schuchat:** TBD

**CDC Program Contact (if applicable):** TBD

**CDC Media Contact (if applicable):** TBD

## 2. Event Information:

**Event Host:** CGH

**Purpose of Event:** Meet with Dr. Zsuzsanna Jakab, WHO EURO Regional Director, who will be visiting CDC to meet with key programs to discuss collaborations and opportunity for strengthening our efforts. Key topics include outbreak and emergency response, as well as general multilateral engagement discussions. Dr. Rebecca Martin would also like to join this meeting.

The US is a member of WHO, which directs and coordinates the health activities of the UN. Specifically, WHO shapes the world's health research agenda and provides technical support to countries at the global, regional and local levels – Dr. Jakab is Director at the Regional Level. WHO monitors and assesses health trends with the common goals of responding to diseases and achieving better health globally. WHO is charged with outbreak and emergency response, and importantly, serves as an important non-partisan convener – both technical and political.

**Agenda (if applicable):** TBD

**Number of Attendees and Composition:** TBD

**Key Participants (if applicable):** TBD

**Bios:** <http://www.euro.who.int/en/about-us/regional-director/biography>

**Source Invitation:** Yes on the 3/5/18 DL; Originally run on the 1/18/18 DL; previous Director deferred it back to CGH. **AS comments: yes, but good to keep on Steve Redd's radar in case last minute conflict.**

3. **Dr. Schuchat's Speech Information or Talking Points (TPs):**

**Subject:** RE: EURO Regional Director Visit to CDC April 23-24, Decision List  
**Date:** Monday, February 26, 2018 5:04:38 PM

---

Hi Jeremy,

This request was sent to Dr. F's DL at the beginning of January, but we wanted to resubmit it for Dr. Schuchat's consideration. See details below and let us know if you have any questions.

**Who:** Dr. Zsuzsanna Jakab, WHO EURO Regional Director. Dr. Rebecca Martin would also like to join this meeting.

**When:** April 23<sup>rd</sup> or 24<sup>th</sup> (we will confirm the date depending on Dr. Schuchat's availability)

**Why:** CGH is hosting a visit from the EURO Regional Director to meet with key programs to discuss collaborations and opportunity for strengthening our efforts. Key topics include outbreak and emergency response, as well as general multilateral engagement discussions.

**CGH Recommendation:** Dr. Martin recommends that Dr. Schuchat take this meeting.

Thank you and take care,  
Sukeshi

**Subject:** EURO Regional Director Visit to CDC April 22-24, Decision List

Hi Jeremy,

I would like to submit an item to the Director's Decision list. **Dr. Zsuzsanna Jakab**, WHO EURO Regional Director, is planning to visit CDC **April 22-24** to meet with key programs to discuss collaborations and opportunity for strengthening our efforts. As you may know, the United States is a member of the World Health Organization (WHO), which directs and coordinates the health activities of the United Nations. Specifically, WHO shapes the world's health research agenda and provides technical support to countries at the global, regional and local levels—Dr. Jakab is Director at the Regional Level. WHO monitors and assesses health trends with the common goals of responding to diseases and achieving better health globally. WHO is charged with outbreak and emergency response, and importantly, serves as an important non-partisan convener – both technical and political. All that said, WHO is an important partner for CDC and CGH recommends taking this meeting if Dr. Fitzgerald is available.

Please let me know if you have any questions.

Best,

Jacquelyn

**Jacquelyn Sunshine Lickness**

Special Assistant to Dr. Rebecca Martin  
Office of the Director, Center for Global Health  
Room 9003, Building 21, Clifton Campus  
**Phone:** (404) 639-8039  
**Cell:** (678) 519-8389

**From:** Scales, Scott L. (CDC/OD/OCS)  
**Sent:** 16 Apr 2018 16:00:48 -0400  
**To:** Williams, Teresa (CDC/OD/OCS); Sorrells, Marjorie J. (CDC/OD/OCS); Strength, Tracie (CDC/OD/OCS); Downie, Diane (Dee Dee) (CDC/CGH/DGHP); Knotts, Ashley (CDC/OD/OCS)  
**Cc:** McCallister, Jeremy (CDC/OD/OCS)  
**Subject:** RE: Meeting with the WHO EURO Regional Director

Thx. Pls also ask if there's a gift exchange planned

---

**From:** Williams, Teresa (CDC/OD/OCS)  
**Sent:** Monday, April 16, 2018 4:00 PM  
**To:** Scales, Scott L. (CDC/OD/OCS) <ixj3@cdc.gov>; Sorrells, Marjorie J. (CDC/OD/OCS) <isg8@cdc.gov>; Strength, Tracie (CDC/OD/OCS) <tmd9@cdc.gov>; Downie, Diane (Dee Dee) (CDC/CGH/DGHP) <ftl9@cdc.gov>; Knotts, Ashley (CDC/OD/OCS) <vqf0@cdc.gov>

**Subject:** Memorial Service for Katrin Kohl

Hi – we’ve confirmed the date, time, and location for the memorial service for Katrin.

It’s scheduled for June 15<sup>th</sup>, 11:00am, in Auditorium A of the GCC. It will be followed by a tree planting, and we’re working with OSSAM on the location for that on the Roybal campus.

If anyone from the CDC/OD is planning to attend, or would like to speak, can you let us know so we can factor it in as we continue the planning process?

Thanks,

**Sherry Smallwood**

**Date:** Sunday, April 15, 2018 4:56:00 PM

---

Hello Scott, Teresa and Jeremy,

Please find below a request from OSSAM/WorkLife Wellness Office (WVO) for Director Redfield to serve as both a speaker and participant in its Men's Health 5K Walk/Run on June 14 at Lullwater Park (on the campus of Emory University).

OSSAM is hosting the event in partnership with Emory and has requested Dr. Redfield to provide brief opening remarks (~15 minutes) highlighting the importance of physical activity for improved men's health. If Dr. Redfield is amenable, OSSAM would also like both him and Principal Deputy Director, Dr. Anne Schuchat, to spend about 45 minutes walking or running the race course.

Additional request details are included below. If the Speakers Bureau can assist the OCS with this request, please let me know. Thank you.

Warm regards,  
Ashante Dobbs Cooper, MPH, MS

**Celebrate National Men's Health Week**

**June 11-17, 2018**

Men can make their health a priority by taking daily steps to be healthier and stronger. There are many easy things you can do every day to improve your health and stay healthy.

- Get Good Quality Sleep
- Toss Out the Tobacco
- Move More
- Eat Healthy
- Tame Your Stress
- Stay on Top of Your Game
- [Find more on the National Men's Health Webpage](#)

## Talking points for the Men's Health 5K Walk/Run

National Men's Health Week is observed each year leading up to Father's Day. This week is a reminder for men to take steps to be healthier, but they don't have to do it alone! Whether it's your husband, partner, dad, brother, son, or friend you can help support the health and safety of the men in your life.

Those here today are taking a big steps towards a healthier lifestyle. Regular activity and exercise is vital for overall health & wellness in both men and women as we age and is one of the most important things you can do for your health.

Heart disease and stroke are two of the leading causes of death in the United States. According to the National Physical Activity Guidelines, getting at least 150 minutes a week (2 hours and 30 minutes) of moderate-intensity aerobic activity can put you at a lower risk for these diseases. You can reduce your risk even further with more physical activity.

The good news is that regular physical activity can also:

- Control Your Weight
- Reduce Your Risk of Cardiovascular Disease
- Reduce Your Risk of Type 2 Diabetes and Metabolic Syndrome
- Reduce Your Risk of Some Cancers
- Strengthen Your Bones and Muscles
- Improve Your Mental Health and Mood
- Improve Your Ability to do Daily Activities and Prevent Falls
- Increase Your Chances of Living Longer

Men can make their health a priority by taking daily steps to be healthier and stronger. In addition to physical activity, there are many easy things you can do every day to improve your health and stay healthy:

- Get Good Quality Sleep
- Toss Out the Tobacco
- Move More
- Eat Healthy
- Tame Your Stress

For men, the importance of testicular self-exams in younger men, and screenings for prostate cancer, thyroid disease, low testosterone, and depression are especially important.

CDC has an excellent comprehensive **WorkLife Wellness Program** and offers many benefits like free fitness centers, healthy eating options, and an employee assistance program.

Hi Brad,

I was just thinking we need to coordinate! Thanks for reaching out. I am copying Bob Weinkle who will be introducing Dr. Redfield at the event. He will be able to meet him once he arrives at the venue.

He can [register for the 5K here](#). He will be giving his remarks at the race start area which is will be in the back parking lot of the Emory University Woodruff Residential Hall located at [1495 Clifton Road](#), Atlanta, GA 30322. It is at the corner of Clifton Rd. and Gatewood Drive.

Here is the [Google map directions](#) to race start and a map of race course is attached.

**Subject:** Dr. Redfield Participation in 5K at Lullwater

Hi Becky, I hope this finds you well.

I wanted to start coordinating with you for Dr. Redfield's participation in the 5K on 14 June.

My first question is what I need to do to get him registered for the run/walk, and also where exactly you would like him to give remarks prior to the start? If you have a map that you can refer me to that would be great.

Thank you. And if you have questions for me just let me know.

Brad

Good afternoon Sherri,

When he is available, we would love to have Dr. Redfield present at an upcoming Board of Directors meeting. The list of the upcoming meetings are listed below. The meetings are from 7:30—9:00am here at the Metro Atlanta Chamber offices. Dr. Redfield would not need to stay for the entire meeting. We would 15 minutes on the agenda for him to present.

Thursday, June 21	7:30 - 9:00 a.m.	MAC Offices
Thursday, August 16	7:30 - 9:00 a.m.	MAC Offices
Thursday, September 20	7:30 - 9:00 a.m.	MAC Offices

Please do not hesitate to reach out if you have any additional questions. Thank you and have a great evening.

All the best,

Kathryn

Good afternoon John,

I hope you are doing well.

Would you like to propose a time that would work for you on May 8<sup>th</sup> and 9<sup>th</sup>?

I have some available on May 8<sup>th</sup> between 9:30 a.m. – Noon and currently I could almost accommodate anytime on the 9<sup>th</sup> between 10 a.m. – Noon and after 1 p.m.

Please advise.

Thanks,  
Teresa

## **J. Nadine Gracia**

J. Nadine Gracia is Executive Vice President and Chief Operating Officer at Trust for America's Health (TFAH), where she is a senior policy adviser to the president and manages TFAH's core business functions and internal operations. She has more than twenty years of leadership and management experience in federal government, advocacy organizations, academia, and clinical practice. Prior to joining TFAH, Dr. Gracia served in the Obama Administration as the Deputy Assistant Secretary for Minority Health at the U.S. Department of Health and Human Services (HHS). In that capacity, she directed departmental policies and programs to end health disparities and advance health equity and provided executive leadership on administration priorities including health reform and criminal justice reform. She also led the federal Office of Minority Health, where she oversaw a budget of \$57 million and pioneered innovative, multi-sectoral partnerships in the public and private sectors. Previously, she served as Chief Medical Officer in the Office of the Assistant Secretary for Health, where her portfolio included adolescent health, emergency and disaster preparedness, environmental health and climate change, and global health. Prior to that role, she was appointed as a White House Fellow at HHS and worked in the Office of the First Lady on the development of the *Let's Move!* initiative to solve childhood obesity.

A first-generation Haitian-American, Dr. Gracia received a Bachelor of Arts in French with honors from Stanford University, a medical degree from the University of Pittsburgh School of Medicine, and a Master of Science in Clinical Epidemiology from the University of Pennsylvania. She completed her training as a pediatrician at Children's Hospital of Pittsburgh and later was a clinical instructor and research fellow at The Children's Hospital of Philadelphia, where she conducted research on community risk factors for violence. Dr. Gracia is active in many civic and professional organizations.

Hi Catherine,

My apologies, I meant May 21<sup>st</sup>.

Could the training be by phone or envision? Dr. Redfield could be available June 4<sup>th</sup> or 5<sup>th</sup>. Do you have a time in mind?

I've copied Marsha to respond regarding Kyle's participation.

Thank you for your consideration.

Best,  
Teresa

Hi Teresa,

Just to make sure, the original training is set for May 21<sup>st</sup> not June. Does that still not work for Dr. Redfield and Kyle? If not, we will be doing the training one more time on June 4<sup>th</sup> or 5<sup>th</sup>. Do either of those dates work?

Thank you!  
Catherine

**Importance:** High

Good afternoon Ms. Bird,

Dr. Redfield will be traveling internationally on June 21<sup>st</sup> and not available to attend the Mandatory Travel Training scheduled June 21<sup>st</sup> from 10-11 a.m.

Would it be possible to schedule a date for Dr. Redfield to participate in the training?

Thank you for your consideration.

Best,  
Teresa

Catherine, thanks very much for just chatting. I sincerely appreciate you looking at alternative options that may be available for Dr. Redfield and Kyle to receive this training at another time besides the 4-5pm time when Dr. Redfield is on stage closing the Global Health Meeting here in Atlanta.

Please let me know if I can assist in any way, and I hope you enjoy your Memorial Day weekend.

Best,

Scott

**Subject:** Meet and Greet with the Shepard Awards Speaker, Roberta Ness

Good morning Tracie,  
I would like to schedule a meet and greet with Dr. Redfield and the Shepard Awards keynote speaker, Roberta Ness, on June 14th. This is the meeting is usually held from 15-20 minute. I have attached her bio. Also in the past the director gives open remarks at the Shepard Award ceremony. Who should I work with this year to pan out the details and talking points?

**Subject:** RE: Shepard Awards 10:00-11:30am June 14th.

Hi Scott,

Another question regarding the Shepard Awards, for clarity. There seems to be a lot of confusion regarding these events. Here is the tentative run of show from OADS. It shows AS as giving the opening remarks (5 min) and then R3 giving longer remarks and introducing the keynote speaker (10 min) I spoke with JM and he confirmed that R3 did agree to this during the DL meeting.

Delaney is checking with OADC as they *may* have under the impression that AS was giving the majority of remarks.

Is the below run of show consistent to what you thought was happening at this ceremony?

Thanks,  
Nikki

**Subject:** RE: Shepard Awards 10:00-11:30am June 14th.

Good afternoon Nikki,  
Dr. Schuchat has been asked to give the Introductory remarks and Dr. Redfield is asked to introduce the keynote speaker. Below is a proposed "run of show".

Introductory Remarks: RADM Anne Schuchat (could include acknowledgment of the recent passing of last year's keynote speaker) approx. 5 minutes

Introduction of Keynote Speaker: Dr. Robert Redfield, approx. 10 minutes

Keynote: Innovation and Creativity in Modern Public Health, Dr. Roberta Ness (approx. 45 minutes including Q and A)

Presentation of Awards: John Iskander, MD (approx. 25 minutes)

Closing: John Iskander, MD (< 5 minutes)

Hi Jeremy,

Dr. Ken Staley, the new PMI Coordinator for USAID, will be in town on May 4, and Dr. Martin recommends that Dr. Redfield meet with him for 30 minutes while he is here. Can we run this on the Decision List?

This is 2 weeks and 2 days out. Is this okay to go on the DL or should I re-route for Ashley Knotts and others on the A-Team to get on his calendar? I know we typically route things under 2 weeks that way, but wasn't sure if this was bordering on too tight.

Thanks!

Hi Laura,

I was asked by Anne Schuchat, the Principle Deputy at CDC, to work with you on a visit by Admiral Giroir to the CDC Headquarters in Atlanta. I wanted to get started on planning this visit and was wondering if there were specific dates that Admiral Grioir had in mind.

Also, any thoughts you may have on specific interests from Dr. Giroir would be great. I suspect meeting with the leadership working on opiates will be among the priorities.

Looking forward to working with you.

-Von

Hi Scott,

Looks like we are going to shoot for June 14<sup>th</sup> in the afternoon. Tentatively, the ASH will visit the regional office in the morning and come to CDC in the afternoon. It would be great to lock down a time for the Dr. Redfield visit. Jim Kucik and his staff will be helping to coordinate the meeting schedules.

Meetings/topics that we are proposing include

1. R3
2. Public Health Workforce
3. Opiates with surveillance
4. Physical activity/Obesity/Nutrition
5. HIV/Viral hepatitis

Let us know if you need additional information

Hi Laura,

I was asked by Anne Schuchat, the Principle Deputy at CDC, to work with you on a visit by Admiral Giroir to the CDC Headquarters in Atlanta. I wanted to get started on planning this visit and was wondering if there were specific dates that Admiral Giroir had in mind.

Also, any thoughts you may have on specific interests from Dr. Giroir would be great. I suspect meeting with the leadership working on opiates will be among the priorities.

Looking forward to working with you.

-Von

Hi Scott,

Looks like we are going to shoot for June 14<sup>th</sup> in the afternoon. Tentatively, the ASH will visit the regional office in the morning and come to CDC in the afternoon. It would be great to lock down a time for the Dr. Redfield visit. Jim Kucik and his staff will be helping to coordinate the meeting schedules.

Meetings/topics that we are proposing include

1. R3
2. Public Health Workforce
3. Opiates with surveillance
4. Physical activity/Obesity/Nutrition
5. HIV/Viral hepatitis

Let us know if you need additional information

**Subject:** ASH visit to CDC Atlanta

Hi Laura,

I was asked by Anne Schuchat, the Principle Deputy at CDC, to work with you on a visit by Admiral Giroir to the CDC Headquarters in Atlanta. I wanted to get started on planning this visit and was wondering if there were specific dates that Admiral Giroir had in mind.

Also, any thoughts you may have on specific interests from Dr. Giroir would be great. I suspect meeting with the leadership working on opiates will be among the priorities.

Looking forward to working with you.

**Subject:** Request to meet - Chicago Department of Public Health Commissioner

Hello Dr. Redfield, I will be attending a meeting at CDC on Monday, June 18<sup>th</sup>. I would really appreciate having an opportunity to meet with you to discuss some of the work (e.g., opioids, communicable diseases, immunizations, preparedness) that my department has been able to do. Directly funded, large urban areas have the capacity to quickly implement and evaluate programs that reach the highest risk populations. If you have any availability on the afternoon of June 18<sup>th</sup>, I will make myself available.

Thank you for considering my request.

Julie

**Subject:** Meeting with Dr. Redfield

Hi Jeremy:

Laura Hanen and Dr. William Barnes from NACCHO (National Association of City & County Health Officers) will be in town for the Preparedness Summit **4/16<sup>th</sup> – 4/18<sup>th</sup>** and would like to meet with Dr. Redfield. **Purpose:** to welcome him to CDC and provide a very general overview of their work with the Agency.

Below are their bios. Unsure when he will be here and accepting meetings but thought I would ask.

## 2017-2018 Board of Directors

### Officers

#### President

##### **John M. Wiesman, DrPH, MPH**

Secretary of Health, Washington State Department of Health  
John Wiesman was appointed secretary of health for the Washington State Department of Health in April 2013.

He has worked in four local public health departments in Washington and Connecticut. He started his public health career in Connecticut in 1986 and was in its first group trained to provide HIV counseling and testing.

During his career, Wiesman has transformed health departments from providing individual clinical services to implementing policies, systems and environmental changes that make healthy choices easier and less expensive. He also partnered with a community clinic to provide integrated primary care and behavioral health. Wiesman also worked at the University of Washington, School of Public Health as a project director on a back pain outcome assessment team grant.

A native of Wisconsin, Wiesman earned his Doctorate of Public Health in public health executive leadership from the University of North Carolina-Chapel Hill in 2012. He received a Master of Public Health in chronic disease epidemiology from Yale University in 1987 and his Bachelor of Arts degree in biology from Lawrence University in Wisconsin in 1983.

#### President-Elect

##### **Nicole Alexander-Scott, MD, MPH**

Director, Rhode Island Department of Health  
Nicole Alexander-Scott has been the director of the Rhode Island Department of Health since May 2015. She brings to this position tremendous experience from her work as a specialist in infectious diseases for children and adults at hospitals in Rhode Island affiliated with Brown University and at the Rhode Island Department of Health. Her clinical and academic responsibilities were balanced with serving as a consultant medical director for the Office of HIV/AIDS, Viral Hepatitis, STDs, and TB in the Division of Infectious Diseases and Epidemiology at the Rhode Island Department of Health. Alexander-Scott is board certified in pediatrics, internal medicine, pediatric infectious diseases, and adult infectious diseases. She obtained a Master of Public Health degree from Brown University in 2011. She is also an assistant professor of pediatrics and medicine at the Warren Alpert Medical School of Brown University.

Originally from Brooklyn, New York, Alexander-Scott attended Cornell University, majoring in human development and family studies, and subsequently graduated from medical school in 2001 from SUNY

National Headquarters  
2231 Crystal Drive, Suite 450  
Arlington, VA 22202  
(202) 371-9090

Regional Office  
600 Peachtree Street NE, Suite 1000  
Atlanta, GA 30308  
(202) 371-9090

www.astho.org  
@ASTHO

Upstate Medical University at Syracuse. After completing a combined internal medicine-pediatrics residency at SUNY Stony Brook University Hospital in 2005, Alexander-Scott finished a four-year combined fellowship in adult and pediatric infectious diseases at Brown in 2009.

### **Immediate Past President**

#### **Jay Butler, MD**

Director of Public Health, Alaska Department of Health and Social Services

Jay Butler was appointed chief medical officer for the Alaska Department of Health and Social Services and director of the Division of Public Health by Governor Bill Walker in December 2014. From 2010 to 2014, Butler served as senior director for community health services at the Alaska Native Tribal Health Consortium in Anchorage, where he was also a clinical infectious diseases consultant and medical director for infection control and employee health. His earlier work includes serving as chief medical officer of the Alaska Department of Health Social Services from 2007 to 2009, Alaska state epidemiologist, 2005-07, director of CDC's Arctic Investigations Program, 1998-2005, and medical epidemiologist in CDC's National Center for Infectious Diseases in Atlanta, 1991-98.

He is a graduate of the University of North Carolina Medical School, has completed clinical training at Vanderbilt and Emory universities, and maintains clinical board certifications in infectious diseases, internal medical, and pediatrics. He has authored or co-authored over 100 scientific papers and medical textbook chapters on infectious diseases and emergency preparedness, and he is an affiliate professor of medicine at the University of Alaska Anchorage. In 2010, he received ASTHO's National Excellence in Public Health Award.

### **Past President**

#### **Karen McKeown, MSN, RN**

Administrator and State Health Official, Wisconsin Department of Health

Karen McKeown is the state health officer and has served as administrator of the division of public health in the Wisconsin Department of Health Services since January 2012. In this role, she leads the division and works with many partners to realize the vision of Everyone Living Better, Longer.

As an oncology staff nurse and leader for 11 years, McKeown previously oversaw the clinical operations of inpatient and outpatient oncology departments. McKeown's health policy experience includes a student fellowship with the U.S. Senate finance committee and a graduate fellowship with the Heritage Foundation. McKeown holds a bachelor's degree from the University of Texas in Tyler, and a master's degree in nursing management, policy and leadership from Yale University.

### Secretary-Treasurer

#### Gerd W. Clabaugh, MPA

Assistant Secretary for Public Health, Iowa Department of Health

Gerd Clabaugh was appointed by Governor Branstad in May 2014 as the Director of the Iowa Department of Public Health (IDPH). Clabaugh has served in many capacities within IDPH, including Deputy Director, Director of Health Promotion and Chronic Disease Prevention, Director of Acute Disease Epidemiology and Emergency Response. During the early 1990s, he was appointed Director of the Center for Health Policy.

Clabaugh has experience in both state government operations and nonprofit organizations. He is the former director of operations at the Iowa Healthcare Collaborative (IHC) where he worked with Iowa hospitals in promoting infection reduction strategies. As a private consultant, he supported public health agencies in assessing community health needs, program development, planning for public health improvement, and grant writing.

He is past-president and past-legislative chair of the Iowa Public Health Association, and has served as an adjunct faculty member at the University of Iowa, Montana State University-Billings, Des Moines University, and Iowa State University. He has authored or contributed to academic publications in the journals Value in Health, American Journal of Medical Quality, and Vaccine.

Clabaugh has pursued doctoral studies at the University of Iowa, holds a Master's degree in Public Administration from Iowa State University and a Bachelor's degree from Drake University. He is married with four children.

### Regional Representatives

#### Representative, Region I [\[Map\]](#)

#### Nicole Alexander-Scott, MD, MPH

Director, Rhode Island Department of Health

Nicole Alexander-Scott has been the director of the Rhode Island Department of Health since May 2015. She brings to this position tremendous experience from her work as a specialist in infectious diseases for children and adults at hospitals in Rhode Island affiliated with Brown University and at the Rhode Island Department of Health. Her clinical and academic responsibilities were balanced with serving as a consultant medical director for the Office of HIV/AIDS, Viral Hepatitis, STDs, and TB in the Division of Infectious Diseases and Epidemiology at the Rhode Island Department of Health.

Alexander-Scott is board certified in pediatrics, internal medicine, pediatric infectious diseases, and adult infectious diseases. She obtained a Master of Public Health degree from Brown University in 2011. She is also an assistant professor of pediatrics and medicine at the Warren Alpert Medical School of Brown University.

##### **Japhet C. Rivera Diaz**

Puerto Rico Department of Health

*Mr. Rivera Diaz's bio will be available soon.*

#### **Representative, Region III** [\[Map\]](#)

##### **Marissa Levine, MD, MPH**

Commissioner of Health, Virginia Department of Health

Marissa Levine was appointed by Governor Terry McAuliffe as the State Health Commissioner at the Virginia Department of Health (VDH) effective March 14, 2014. She previously served as the Interim State Health Commissioner, Chief Deputy Commissioner for Public Health and Preparedness and, prior to that, held the position of Deputy Commissioner for Public Health and Preparedness beginning February 2009.

Levine directed local health departments in two districts within Virginia from 2002 until 2009. Levine is a board-certified family physician who also completed a Masters of Public Health (MPH) from the Johns Hopkins Bloomberg School of Public Health. She received her MD from the Albert Einstein College of Medicine in Bronx, NY and completed family practice residency training at the University of Virginia in Charlottesville.

Levine started her career in private medical practice in Pennsylvania. She subsequently joined the staff of an academic medical center and became the director of a family practice residency training program in northwestern Pennsylvania. While in Pennsylvania, Levine was also very involved in community health improvement efforts and was a member of the local board of health.

#### **Representative, Region IV** [\[Map\]](#)

##### **Mary Currier, MD, MPH**

State Health Officer, Mississippi State Department of Public Health

Mary Currier became Mississippi's state health officer in 2010 after serving as state epidemiologist from 1993 to 2003, and again from 2007 to 2009.

Currier has 30 years of state service experience and 25 years serving in public health. Prior to serving as state epidemiologist, Currier was a medical consultant with the Mississippi State Department of Health, where she began her career as a staff physician for the prenatal care, family planning, STD, and pediatrics programs.

Karen McKeown is the state health officer and has served as administrator of the division of public health in the Wisconsin Department of Health Services since January 2012. In this role, she leads the division and works with many partners to realize the vision of Everyone Living Better, Longer.

As an oncology staff nurse and leader for 11 years, McKeown previously oversaw the clinical operations of inpatient and outpatient oncology departments. McKeown's health policy experience includes a student fellowship with the U.S. Senate finance committee and a graduate fellowship with the Heritage Foundation. McKeown holds a bachelor's degree from the University of Texas in Tyler, and a master's degree in nursing management, policy and leadership from Yale University.

**Representative, Region VI** [\[Map\]](#)

**Nathaniel Smith, MD, MPH**

Director and State Health Officer, Arkansas Department of Health

As a member of the governor's cabinet, Nate Smith serves as director and state health officer of the Arkansas Department of Health. In this position, he provides senior scientific and executive leadership for the agency with over 5,000 personnel and a budget of over \$400 million delivering services throughout the state in more than 94 locations. He was selected as interim director in May 2013 by Gov. Mike Beebe and then appointed director in August 2013.

Smith has a strong commitment to the mission of ADH: "To protect and improve the health and well-being of all Arkansans." In his role as director, he strives to help colleagues achieve their full potential using public health best practices supported by science-based decisions.

Smith previously served the Arkansas Department of Health as branch chief for infectious diseases, state epidemiologist, and deputy director for public health programs. He is board-certified in internal medicine and infectious diseases and holds voluntary faculty positions in the Division of Infectious Diseases at the UAMS College of Medicine and in the Epidemiology Department at the College of Public Health. From July 2006 until he returned to Arkansas in August 2009, Smith served as infectious diseases consultant at Kijabe Hospital, country medical director for the University of Maryland School of Medicine in Kenya, and senior medical technical advisor for the AIDSRelief program in East Africa.

### **Representative, Region VII** [\[Map\]](#)

#### **Randall W. Williams, MD, FACOG**

Director, Missouri Department of Health & Senior Services

Randall W. Williams, MD, FACOG, is an obstetrician and gynecologist who graduated from the University of North Carolina with Honors in History and Zoology and received his medical training at the University of North Carolina where he was a Holderness Fellow.

Williams was appointed by Governor Eric Greitens to serve in his Cabinet as Director of Health and Senior Services (DHSS) and was subsequently unanimously confirmed by the Missouri Senate on March 9, 2017. He believes a fundamental tenet of effective leadership is to be readily available and accessible and he has visited all of Missouri's 115 counties to listen and learn from all of Missouri's citizens.

DHSS accomplishments to date with Williams include passage of Missouri's Good Samaritan Law and Universal Narcan Availability Law; working with Governor Grietens on the Executive Order establishing a statewide PDMP; holding opioid summits throughout the state; and bringing together and meeting with all 115 local health departments for the first time in more than a decade. The department is also working to increase the number of providers in rural and underserved areas; improve behavioral health services for veterans and their families; promote physical fitness and community engagement through the My Missouri Steps Up initiative; enhance interagency coordination and collaboration with the state Departments of Social Services and Mental Health; and improve all aspects of women's health, especially to reduce infant and maternal mortality.

Williams previously served as both the Deputy Secretary for Health and State Health Director in the Department of Health and Human Services in North Carolina. His responsibilities there included developing, integrating and communicating state health policy and helping lead a 17,000 member agency with a 20 billion dollar budget that combined Medicaid, social services, public health and mental health services.

To help patients and families affected by the opioid crisis, Williams led efforts in North Carolina that resulted in the legislature voting unanimously to implement a statewide standing order to treat narcotic overdoses by making naloxone available to everyone in North Carolina under his authority. He also visited stakeholders and citizens in all 100 counties in the state during his time with the department.

Williams has also previously served on local and state boards of health, in addition to delivering 2000 babies as a practicing obstetrician. He also helped serve the medical needs of people in overseas conflict zones. His ongoing work has taken him to Iraq 12 times, and he has also worked in Afghanistan, Libya and Haiti. Recognition of these efforts was reflected in his selection as Triangle Red Cross Humanitarian of the Year and the Raleigh News & Observer's Tar Heel of the Week.

He is also an avid runner. Williams believes physical exercise contributes greatly to a sense of wellness and led a campaign to encourage families to run 5Ks for charity. He enjoys training for and running marathons and has run marathons in Boston, New York, Paris, Athens, Florence and Jerusalem.

### **Representative, Region VIII** [\[Map\]](#)

#### **Mylynn Tufte**

State Health Officer North Dakota Department of Health

State Health Officer Mylynn Tufte's previous experiences as a health management executive and former critical care nurse bring an extensive background to the top leadership role in the North Dakota Department of Health. Tufte brings more than 20 years of experience in the health industry, serving in a strategic and health advisory role to some of the largest payers and providers in the country. Her diverse experience includes working with state governments, national and regional health plans, integrated delivery networks, academic and community medical centers, physician groups, and accountable care organizations.

As a progressive leader with extensive experience in strategy, operations, and health information technology, she has helped organizations develop and implement innovative solutions that improve healthcare for broad populations. Her experience in population health management has helped organizations improve quality and access to care, decrease the total cost of care, and improve the overall experience for consumers.

Tufte earned a bachelor's degree in nursing from Case Western Reserve University in Cleveland, Ohio, followed by a Master of Business Administration degree and a master's degree in information management degree from Arizona State University.

### **Representative, Region IX** [\[Map\]](#)

#### **Karen Smith, MD, MPH**

Director and State Public Health Officer, California Department of Public Health

On March 23, 2015, Karen Smith was sworn in as director of the California Department of Public Health and state public health officer. Smith is a physician specializing in infectious disease and public health. Prior to her appointment, she served as public health officer and deputy director at the Napa County Health and Human Services Agency beginning in 2004. She was also on medical staff for infectious disease at Queen of the Valley Medical Center in Napa from 2012 to 2014.

Smith served as clinical faculty at the Santa Clara County Valley Medical Center Division of Infectious Diseases from 1997 to 2004. She served as assistant section chief at the California Department of Health Services Tuberculosis Control Branch from 2000 to 2001 and was a faculty consultant for the Francis J. Curry International Tuberculosis Center at the University of California, San Francisco from 1997. Smith held several positions at the Stanford University School of Medicine from 1992 to 2004, including resident, fellow, and international health course director. Smith also served as TB Controller and Deputy Health Officer for Santa Clara County from 1997 to 2004.

Smith completed her medical training and infectious diseases fellowship at Stanford University after having obtained a Master of Public Health degree at Johns Hopkins School of Hygiene and Public health. Prior to her medical training, Smith served in the Peace Corp as Public Health Laboratory Director for the Marrakesh Province in Morocco and at the Wichienburi Regional Hospital in Thailand.

#### **Elke Shaw-Tulloch, MHS**

Public Health Administrator, Idaho Department of Health and Welfare

Elke Shaw-Tulloch began her current position as administrator of the Idaho Department of Health and Welfare on Sept. 2, 2012. The division of health provides services ranging from immunizations, testing for communicable diseases, regulating food safety, certifying emergency medical personnel, vital record administration, and compilation of health statistics to bioterrorism preparedness. The division's programs and services actively promote healthy lifestyles and prevention activities, while monitoring and intervening in disease transmission and health risks as a safeguard for Idaho citizens.

Shaw-Tulloch began working for the division of health as a health education specialist in 1996. She was promoted to manager of the Radiation Health Effects Program (1998) and then became manager of the Environmental Health Education and Assessment Program (1998-2001). In 2001, Shaw-Tulloch was hired as bureau chief for environmental health and safety, which evolved under her leadership to become the Bureau of Community and Environmental Health in 2003.

Shaw-Tulloch has an undergraduate degree in environmental health with a biology minor and a Master of Health Science degree with an environmental health emphasis from Boise State University.

#### **USAPI Director**

#### **Esther L. Muña, MHA, CPC, CEO**

Chief Executive Officer and Financial Services Administrator, Commonwealth Healthcare Corporation

Esther Muña was appointed chief executive officer for the Commonwealth Healthcare Corporation (CHCC), the health agency for the Commonwealth of the Northern Mariana Islands in April 2014. As CEO, Muña oversees strategic direction and all operations of the Commonwealth Health Center Hospital, Rota Health Center, Tinian Health Center, Public Health Services, and Behavioral Health Services and provides leadership and direction of Kagman Community Health Center.

Past experiences include:

- April 2013-April 2014: interim CEO for CHCC
- October 2012-April 2013: chief operations officer for CHCC; instrumental in the abatement of immediate jeopardies issued in September 2012 CMS survey
- January 2012-September 2012: Medicaid advisor and Medicaid HIT coordinator under the governor's office; instrumental in the amendment of the Medicaid State Plan to change the payment methodology for the only hospital in the CNMI (CHC)

Muña also worked for the Commonwealth Health Center Hospital under the Department of Public Health for several years. She was a hospital administrator for one and a half years and hospital CFO for

four years. She held other healthcare management positions including business office manager, privacy officer, and medical records manager.

She received a Master of Health Administration degree from Saint Joseph's College of Maine and is an alumna of Indiana University, Bloomington, Indiana (social and behavioral science major) and Northern Marianas College (accounting major). She is active in several membership organizations, including the Pacific Island Health Officers Association – Board of Directors secretary, 2013 to current, the American Public Health Association, the American College of Healthcare Executives, the Healthcare Financial Management Association, the American Hospital Association, and the American Association of Professional Coders – president (Guam-CNMI Chapter), 2010.

Other recognitions of note include being featured in the February 2010 issue of *AAPC Coding Edge Magazine*: “Minute with a Member”, the winner of CDC Sustainable Management Project and presented winning project in CDC Sustainable Management Conference in Cape Town, South Africa (2006): “Improving Revenue Collections with Total Quality Management”. She is also a certified professional coder since 2004 and AHIMA-Approved ICD-10 coding instructor since 2012.

#### **USAPI Atlantic Director**

##### **Michelle S. Davis, PhD**

Health Commissioner and Chief Health Officer, Virgin Islands Department of Health

Michelle Davis currently holds the position of regional health administrator (RHA) with the U.S. Department of Health and Human Services (HHS) New York Regional office. The RHA serves as the principal federal public health authority for the secretary of HHS and the assistant secretary for health. The RHA also assures collaborative promotion of the Surgeon General's initiatives.

Prior to her current position, she served as the deputy RHA for the Mid-Atlantic region (DC, DE, MD, PA, VA, WV) as the health liaison between DHHS and state/local agencies, coordinated regional/national programs, recommended policies and served on the federal emergency preparedness, response and recovery team.

Davis has worked as a public health professional in a variety of positions at the federal, state, and municipal levels. This included the deputy secretary for the Pennsylvania Department of Health. She was responsible for oversight of over 600 staff and a budget of \$250 million.

Before working with the Commonwealth of Pennsylvania she held positions as deputy health commissioner for policy and planning with the city of Philadelphia and senior epidemiologist with CDC. She has also held positions with the states of South Carolina, Indiana, and New York and at the local level with the city of Detroit and with the District of Columbia as a CDC federal assignee.

Davis has held several elected positions within professional organizations including: president and chair of the board of the Pennsylvania Public Health Association (PPHA), president and vice-president of the Black Caucus of Health Workers of the American Public Health Association (APHA) and governing councilor for the epidemiology section of APHA.

Davis matriculated at the University of Michigan majoring in biology and psychology at the undergraduate level. She continued her education at the University of South Carolina, Johns Hopkins, and the University of North Carolina where she majored in epidemiology for her graduate degrees.

#### Ex Officio Members

##### **Michael Fraser, PhD, CAE, FCPP Executive Director, ASTHO**

Michael Fraser has served as ASTHO's executive director since August 2016. Most recently, he served as the executive vice president and CEO of the Pennsylvania Medical Society in Harrisburg, Pa. During his tenure there, he worked with physician leaders to transform the organization into a dynamic, relevant, and effective membership organization representing all of the state's physicians, and tackling critical issues such as the opioid misuse and drug abuse crisis.

Fraser served as CEO of the Association of Maternal and Child Health Programs (AMCHP) from 2007 to 2013, where his leadership was recognized nationally by the Maternal and Child Health Bureau's Director's Award in 2014. In addition, the American Public Health Association's MCH Section awarded AMCHP the Outstanding Leadership and Advocacy Award. Prior to joining AMCHP, Fraser was the deputy executive director of the National Association of County and City Health Officials (NACCHO) from 2002 to 2007, and served in several capacities at the U.S. Department of Health and Human Services, including positions at the Health Resources and Services Administration and CDC.

Fraser received his doctorate and masters degrees in sociology from the University of Massachusetts at Amherst and a masters of science in management with a concentration on management, strategy and leadership from the Eli Broad School of Management at Michigan State University. He received a B.A. in sociology from Oberlin College in 1991. Fraser is an Adjunct Faculty in the Department of Global and Community Health at the George Mason University College of Health and Human Services and a Professional Lecturer in Health Policy & Management at the Milken Institute School of Public Health at George Washington University.

Joan Duwve is the associate dean for public health practice at the IU Fairbanks School of Public Health and the chief medical officer at the Indiana State Department of Health. Duwve received her bachelor's degree from The Ohio State University, a Masters of Public Health degree from the University of Michigan and her medical degree from The Johns Hopkins School of Medicine. She completed a residency in Family Medicine at St. Vincent's Hospital and Health Services in Indianapolis. Duwve spent her pre-medical years serving in the Peace Corps and working in international public health in North Africa and the Middle East and then worked as a private practice family physician for 11 years.

Duwve serves on several state committees, including the Mental Health and Addiction Prevention Advisory Committee, and the Covering Kids and Families Board of Directors. She co-chairs the State Prescription Drug Overdose Prevention Task Force. Regionally, Duwve serves as an advisor to the Midwest Injury Prevention Alliance Board of Directors and co-chairs the MIPA Prescription Drug Abuse Task Force.

**Lori Tremmel Freeman, BS, MBA**  
**Chair, Affiliate Council**

CEO, Association of Maternal & Child Health Programs

Lori Tremmel Freeman, BS, MBA is currently the Chief Executive Officer at the Association of Maternal & Child Health Programs (AMCHP) in Washington, DC. In her role, Freeman provides direction and leadership for organizational mission, vision and objectives, working every day to protect and promote the optimal health of women, children, and families and to strive for a nation that values and invests in the wellbeing of all women, children, families, and communities. She also manages the organization's operations, ensures partnerships with federal, state, and local agencies, national policy makers, organizations, foundations, and the public; ensures that member needs are addressed through organization's committees, programs and activities; and supports the work of the President, Executive Committee and the Board of Directors. Freeman has had a 27-year career in nonprofit management, holding senior leadership positions with the National Association of County and City Health Officials (NACCHO); the International Test and Evaluation Association (ITEA); the Association for the Advancement of Medical Instrumentation (AAMI); the Society of Nuclear Medicine and Molecular Imaging (SNMMI); the American Public Health Association (APHA); and Grant Thornton LLP.

Freeman received a Bachelor of Science degree in Management Science from Lock Haven University in Pennsylvania, and went on to complete a Masters degree in Business Administration and Marketing minor from Indiana University of Pennsylvania. She is active in her local community holding leadership positions on the Paul VI Catholic High School Board, Middleburg Horse Trials, and Middleburg Pony Club. Freeman currently resides in Haymarket, Virginia with her husband and twin children.

Dr. Robert R. Redfield, Director  
Centers for Disease Control and Prevention/ATSDR  
1600 Clifton Road  
Building 21, Floor 12  
Atlanta, GA 30333

Dear Dr. Redfield,

On behalf of the Association of State and Territorial Health Officials (ASTHO), it is our pleasure to invite you to meet with our Board of Directors during our June meeting in Atlanta, GA. ASTHO is the national nonprofit organization representing state public health agencies in the United States, the U.S. Territories, and the District of Columbia, and over 100,000 public health professionals these agencies employ. ASTHO's vision is state and territorial health agencies advancing health equity and optimal health for all and its mission is to support, equip, and advocate for state and territorial health officials in their work of advancing the public's health and well-being. The Board would be extremely appreciative of the chance to meet you in person, learn more about your vision and priorities for CDC, and discuss current state and federal efforts to advance the nation's health.

The ASTHO Board of Directors will conduct its next meeting on June 14 and 15 in Atlanta, GA. The Board is scheduled to meet with CDC leaders on CDC's Roybal campus on Thursday, June 14 and will be at the Emory Conference Center on Friday, June 15 to conduct Board business. We would welcome an opportunity to meet with you as your schedule allows during either or both of these times. I look forward to hearing from you soon and working with your staff to make the visit as productive and helpful as possible.

Most sincerely,

Michael Fraser, PhD, MS, CAE, FCPP  
Executive Director

**Subject:** ASTHO Invitation - Redfield

**Importance:** High

Dear Dr. Redfield,

On behalf of the Association of State and Territorial Health Officials (ASTHO), it is our pleasure to invite you to meet with our Board of Directors during our June meeting in Atlanta, GA. ASTHO is the national nonprofit organization representing state public health agencies in the United States, the U.S.

Territories, and the District of Columbia, and over 100,000 public health professionals these agencies employ. ASTHO's vision is state and territorial health agencies advancing health equity and optimal health for all and its mission is to support, equip, and advocate for state and territorial health officials in their work of advancing the public's health and well-being. The Board would be extremely appreciative of the chance to meet you in person, learn more about your vision and priorities for CDC, and discuss current state and federal efforts to advance the nation's health.

The ASTHO Board of Directors will conduct its next meeting on June 14 and 15 in Atlanta, GA. The Board is scheduled to meet with CDC leaders on CDC's Roybal campus on Thursday, June 14 and will be at the Emory Conference Center on Friday, June 15 to conduct Board business. We would welcome an opportunity to meet with you as your schedule allows during either or both of these times. I look forward to hearing from you soon and working with your staff to make the visit as productive and helpful as possible.

Most sincerely,

Michael Fraser, PhD, MS, CAE, FCPP

Executive Director, ASTHO

## 2017-2018 Board of Directors

### Officers

#### President

##### **John M. Wiesman, DrPH, MPH**

Secretary of Health, Washington State Department of Health  
John Wiesman was appointed secretary of health for the Washington State Department of Health in April 2013.

He has worked in four local public health departments in Washington and Connecticut. He started his public health career in Connecticut in 1986 and was in its first group trained to provide HIV counseling and testing.

During his career, Wiesman has transformed health departments from providing individual clinical services to implementing policies, systems and environmental changes that make healthy choices easier and less expensive. He also partnered with a community clinic to provide integrated primary care and behavioral health. Wiesman also worked at the University of Washington, School of Public Health as a project director on a back pain outcome assessment team grant.

A native of Wisconsin, Wiesman earned his Doctorate of Public Health in public health executive leadership from the University of North Carolina-Chapel Hill in 2012. He received a Master of Public Health in chronic disease epidemiology from Yale University in 1987 and his Bachelor of Arts degree in biology from Lawrence University in Wisconsin in 1983.

#### President-Elect

##### **Nicole Alexander-Scott, MD, MPH**

Director, Rhode Island Department of Health  
Nicole Alexander-Scott has been the director of the Rhode Island Department of Health since May 2015. She brings to this position tremendous experience from her work as a specialist in infectious diseases for children and adults at hospitals in Rhode Island affiliated with Brown University and at the Rhode Island Department of Health. Her clinical and academic responsibilities were balanced with serving as a consultant medical director for the Office of HIV/AIDS, Viral Hepatitis, STDs, and TB in the Division of Infectious Diseases and Epidemiology at the Rhode Island Department of Health. Alexander-Scott is board certified in pediatrics, internal medicine, pediatric infectious diseases, and adult infectious diseases. She obtained a Master of Public Health degree from Brown University in 2011. She is also an assistant professor of pediatrics and medicine at the Warren Alpert Medical School of Brown University.

Originally from Brooklyn, New York, Alexander-Scott attended Cornell University, majoring in human development and family studies, and subsequently graduated from medical school in 2001 from SUNY

Upstate Medical University at Syracuse. After completing a combined internal medicine-pediatrics residency at SUNY Stony Brook University Hospital in 2005, Alexander-Scott finished a four-year combined fellowship in adult and pediatric infectious diseases at Brown in 2009.

### Immediate Past President

#### Jay Butler, MD

Director of Public Health, Alaska Department of Health and Social Services

Jay Butler was appointed chief medical officer for the Alaska Department of Health and Social Services and director of the Division of Public Health by Governor Bill Walker in December 2014. From 2010 to 2014, Butler served as senior director for community health services at the Alaska Native Tribal Health Consortium in Anchorage, where he was also a clinical infectious diseases consultant and medical director for infection control and employee health. His earlier work includes serving as chief medical officer of the Alaska Department of Health Social Services from 2007 to 2009, Alaska state epidemiologist, 2005-07, director of CDC's Arctic Investigations Program, 1998-2005, and medical epidemiologist in CDC's National Center for Infectious Diseases in Atlanta, 1991-98.

He is a graduate of the University of North Carolina Medical School, has completed clinical training at Vanderbilt and Emory universities, and maintains clinical board certifications in infectious diseases, internal medical, and pediatrics. He has authored or co-authored over 100 scientific papers and medical textbook chapters on infectious diseases and emergency preparedness, and he is an affiliate professor of medicine at the University of Alaska Anchorage. In 2010, he received ASTHO's National Excellence in Public Health Award.

### Past President

#### Karen McKeown, MSN, RN

Administrator and State Health Official, Wisconsin Department of Health

Karen McKeown is the state health officer and has served as administrator of the division of public health in the Wisconsin Department of Health Services since January 2012. In this role, she leads the division and works with many partners to realize the vision of Everyone Living Better, Longer.

As an oncology staff nurse and leader for 11 years, McKeown previously oversaw the clinical operations of inpatient and outpatient oncology departments. McKeown's health policy experience includes a student fellowship with the U.S. Senate finance committee and a graduate fellowship with the Heritage Foundation. McKeown holds a bachelor's degree from the University of Texas in Tyler, and a master's degree in nursing management, policy and leadership from Yale University.

### Secretary-Treasurer

#### Gerd W. Clabaugh, MPA

Assistant Secretary for Public Health, Iowa Department of Health

Gerd Clabaugh was appointed by Governor Branstad in May 2014 as the Director of the Iowa Department of Public Health (IDPH). Clabaugh has served in many capacities within IDPH, including Deputy Director, Director of Health Promotion and Chronic Disease Prevention, Director of Acute Disease Epidemiology and Emergency Response. During the early 1990s, he was appointed Director of the Center for Health Policy.

Clabaugh has experience in both state government operations and nonprofit organizations. He is the former director of operations at the Iowa Healthcare Collaborative (IHC) where he worked with Iowa hospitals in promoting infection reduction strategies. As a private consultant, he supported public health agencies in assessing community health needs, program development, planning for public health improvement, and grant writing.

He is past-president and past-legislative chair of the Iowa Public Health Association, and has served as an adjunct faculty member at the University of Iowa, Montana State University-Billings, Des Moines University, and Iowa State University. He has authored or contributed to academic publications in the journals Value in Health, American Journal of Medical Quality, and Vaccine.

Clabaugh has pursued doctoral studies at the University of Iowa, holds a Master's degree in Public Administration from Iowa State University and a Bachelor's degree from Drake University. He is married with four children.

#### **Representative, Region II** [\[Map\]](#)

##### **Japhet C. Rivera Diaz**

Puerto Rico Department of Health

*Mr. Rivera Diaz's bio will be available soon.*

#### **Representative, Region III** [\[Map\]](#)

##### **Marissa Levine, MD, MPH**

Commissioner of Health, Virginia Department of Health

Marissa Levine was appointed by Governor Terry McAuliffe as the State Health Commissioner at the Virginia Department of Health (VDH) effective March 14, 2014. She previously served as the Interim State Health Commissioner, Chief Deputy Commissioner for Public Health and Preparedness and, prior to that, held the position of Deputy Commissioner for Public Health and Preparedness beginning February 2009.

Levine directed local health departments in two districts within Virginia from 2002 until 2009. Levine is a board-certified family physician who also completed a Masters of Public Health (MPH) from the Johns Hopkins Bloomberg School of Public Health. She received her MD from the Albert Einstein College of Medicine in Bronx, NY and completed family practice residency training at the University of Virginia in Charlottesville.

Levine started her career in private medical practice in Pennsylvania. She subsequently joined the staff of an academic medical center and became the director of a family practice residency training program in northwestern Pennsylvania. While in Pennsylvania, Levine was also very involved in community health improvement efforts and was a member of the local board of health.

#### **Representative, Region IV** [\[Map\]](#)

##### **Mary Currier, MD, MPH**

State Health Officer, Mississippi State Department of Public Health

Mary Currier became Mississippi's state health officer in 2010 after serving as state epidemiologist from 1993 to 2003, and again from 2007 to 2009.

Currier has 30 years of state service experience and 25 years serving in public health. Prior to serving as state epidemiologist, Currier was a medical consultant with the Mississippi State Department of Health, where she began her career as a staff physician for the prenatal care, family planning, STD, and pediatrics programs.

Administrator and State Health Official, Wisconsin Department of Health

Karen McKeown is the state health officer and has served as administrator of the division of public health in the Wisconsin Department of Health Services since January 2012. In this role, she leads the division and works with many partners to realize the vision of Everyone Living Better, Longer.

As an oncology staff nurse and leader for 11 years, McKeown previously oversaw the clinical operations of inpatient and outpatient oncology departments. McKeown's health policy experience includes a student fellowship with the U.S. Senate finance committee and a graduate fellowship with the Heritage Foundation. McKeown holds a bachelor's degree from the University of Texas in Tyler, and a master's degree in nursing management, policy and leadership from Yale University.

**Representative, Region VI** [\[Map\]](#)

**Nathaniel Smith, MD, MPH**

Director and State Health Officer, Arkansas Department of Health

As a member of the governor's cabinet, Nate Smith serves as director and state health officer of the Arkansas Department of Health. In this position, he provides senior scientific and executive leadership for the agency with over 5,000 personnel and a budget of over \$400 million delivering services throughout the state in more than 94 locations. He was selected as interim director in May 2013 by Gov. Mike Beebe and then appointed director in August 2013.

Smith has a strong commitment to the mission of ADH: "To protect and improve the health and well-being of all Arkansans." In his role as director, he strives to help colleagues achieve their full potential using public health best practices supported by science-based decisions.

Smith previously served the Arkansas Department of Health as branch chief for infectious diseases, state epidemiologist, and deputy director for public health programs. He is board-certified in internal medicine and infectious diseases and holds voluntary faculty positions in the Division of Infectious Diseases at the UAMS College of Medicine and in the Epidemiology Department at the College of Public Health. From July 2006 until he returned to Arkansas in August 2009, Smith served as infectious diseases consultant at Kijabe Hospital, country medical director for the University of Maryland School of Medicine in Kenya, and senior medical technical advisor for the AIDSRelief program in East Africa.

### **Representative, Region VII** [\[Map\]](#)

#### **Randall W. Williams, MD, FACOG**

Director, Missouri Department of Health & Senior Services

Randall W. Williams, MD, FACOG, is an obstetrician and gynecologist who graduated from the University of North Carolina with Honors in History and Zoology and received his medical training at the University of North Carolina where he was a Holderness Fellow.

Williams was appointed by Governor Eric Greitens to serve in his Cabinet as Director of Health and Senior Services (DHSS) and was subsequently unanimously confirmed by the Missouri Senate on March 9, 2017. He believes a fundamental tenet of effective leadership is to be readily available and accessible and he has visited all of Missouri's 115 counties to listen and learn from all of Missouri's citizens.

DHSS accomplishments to date with Williams include passage of Missouri's Good Samaritan Law and Universal Narcan Availability Law; working with Governor Grietens on the Executive Order establishing a statewide PDMP; holding opioid summits throughout the state; and bringing together and meeting with all 115 local health departments for the first time in more than a decade. The department is also working to increase the number of providers in rural and underserved areas; improve behavioral health services for veterans and their families; promote physical fitness and community engagement through the My Missouri Steps Up initiative; enhance interagency coordination and collaboration with the state Departments of Social Services and Mental Health; and improve all aspects of women's health, especially to reduce infant and maternal mortality.

Williams previously served as both the Deputy Secretary for Health and State Health Director in the Department of Health and Human Services in North Carolina. His responsibilities there included developing, integrating and communicating state health policy and helping lead a 17,000 member agency with a 20 billion dollar budget that combined Medicaid, social services, public health and mental health services.

To help patients and families affected by the opioid crisis, Williams led efforts in North Carolina that resulted in the legislature voting unanimously to implement a statewide standing order to treat narcotic overdoses by making naloxone available to everyone in North Carolina under his authority. He also visited stakeholders and citizens in all 100 counties in the state during his time with the department.

Williams has also previously served on local and state boards of health, in addition to delivering 2000 babies as a practicing obstetrician. He also helped serve the medical needs of people in overseas conflict zones. His ongoing work has taken him to Iraq 12 times, and he has also worked in Afghanistan, Libya and Haiti. Recognition of these efforts was reflected in his selection as Triangle Red Cross Humanitarian of the Year and the Raleigh News & Observer's Tar Heel of the Week.

He is also an avid runner. Williams believes physical exercise contributes greatly to a sense of wellness and led a campaign to encourage families to run 5Ks for charity. He enjoys training for and running marathons and has run marathons in Boston, New York, Paris, Athens, Florence and Jerusalem.

### **Representative, Region VIII** [\[Map\]](#)

#### **Mylynn Tufte**

State Health Officer North Dakota Department of Health

State Health Officer Mylynn Tufte's previous experiences as a health management executive and former critical care nurse bring an extensive background to the top leadership role in the North Dakota Department of Health. Tufte brings more than 20 years of experience in the health industry, serving in a strategic and health advisory role to some of the largest payers and providers in the country. Her diverse experience includes working with state governments, national and regional health plans, integrated delivery networks, academic and community medical centers, physician groups, and accountable care organizations.

As a progressive leader with extensive experience in strategy, operations, and health information technology, she has helped organizations develop and implement innovative solutions that improve healthcare for broad populations. Her experience in population health management has helped organizations improve quality and access to care, decrease the total cost of care, and improve the overall experience for consumers.

Tufte earned a bachelor's degree in nursing from Case Western Reserve University in Cleveland, Ohio, followed by a Master of Business Administration degree and a master's degree in information management degree from Arizona State University.

### **Representative, Region IX** [\[Map\]](#)

#### **Karen Smith, MD, MPH**

Director and State Public Health Officer, California Department of Public Health

On March 23, 2015, Karen Smith was sworn in as director of the California Department of Public Health and state public health officer. Smith is a physician specializing in infectious disease and public health. Prior to her appointment, she served as public health officer and deputy director at the Napa County Health and Human Services Agency beginning in 2004. She was also on medical staff for infectious disease at Queen of the Valley Medical Center in Napa from 2012 to 2014.

Smith served as clinical faculty at the Santa Clara County Valley Medical Center Division of Infectious Diseases from 1997 to 2004. She served as assistant section chief at the California Department of Health Services Tuberculosis Control Branch from 2000 to 2001 and was a faculty consultant for the Francis J. Curry International Tuberculosis Center at the University of California, San Francisco from 1997. Smith held several positions at the Stanford University School of Medicine from 1992 to 2004, including resident, fellow, and international health course director. Smith also served as TB Controller and Deputy Health Officer for Santa Clara County from 1997 to 2004.

Smith completed her medical training and infectious diseases fellowship at Stanford University after having obtained a Master of Public Health degree at Johns Hopkins School of Hygiene and Public health. Prior to her medical training, Smith served in the Peace Corp as Public Health Laboratory Director for the Marrakesh Province in Morocco and at the Wichienburi Regional Hospital in Thailand.

#### **Elke Shaw-Tulloch, MHS**

Public Health Administrator, Idaho Department of Health and Welfare  
Elke Shaw-Tulloch began her current position as administrator of the Idaho Department of Health and Welfare on Sept. 2, 2012. The division of health provides services ranging from immunizations, testing for communicable diseases, regulating food safety, certifying emergency medical personnel, vital record administration, and compilation of health statistics to bioterrorism preparedness. The division's programs and services actively promote healthy lifestyles and prevention activities, while monitoring and intervening in disease transmission and health risks as a safeguard for Idaho citizens.

Shaw-Tulloch began working for the division of health as a health education specialist in 1996. She was promoted to manager of the Radiation Health Effects Program (1998) and then became manager of the Environmental Health Education and Assessment Program (1998-2001). In 2001, Shaw-Tulloch was hired as bureau chief for environmental health and safety, which evolved under her leadership to become the Bureau of Community and Environmental Health in 2003.

Shaw-Tulloch has an undergraduate degree in environmental health with a biology minor and a Master of Health Science degree with an environmental health emphasis from Boise State University.

#### **USAPI Director**

#### **Esther L. Muña, MHA, CPC, CEO**

Chief Executive Officer and Financial Services Administrator, Commonwealth Healthcare Corporation

Esther Muña was appointed chief executive officer for the Commonwealth Healthcare Corporation (CHCC), the health agency for the Commonwealth of the Northern Mariana Islands in April 2014. As CEO, Muña oversees strategic direction and all operations of the Commonwealth Health Center Hospital, Rota Health Center, Tinian Health Center, Public Health Services, and Behavioral Health Services and provides leadership and direction of Kagman Community Health Center.

Past experiences include:

- April 2013-April 2014: interim CEO for CHCC
- October 2012-April 2013: chief operations officer for CHCC; instrumental in the abatement of immediate jeopardies issued in September 2012 CMS survey
- January 2012-September 2012: Medicaid advisor and Medicaid HIT coordinator under the governor's office; instrumental in the amendment of the Medicaid State Plan to change the payment methodology for the only hospital in the CNMI (CHC)

Muña also worked for the Commonwealth Health Center Hospital under the Department of Public Health for several years. She was a hospital administrator for one and a half years and hospital CFO for

four years. She held other healthcare management positions including business office manager, privacy officer, and medical records manager.

She received a Master of Health Administration degree from Saint Joseph's College of Maine and is an alumna of Indiana University, Bloomington, Indiana (social and behavioral science major) and Northern Marianas College (accounting major). She is active in several membership organizations, including the Pacific Island Health Officers Association – Board of Directors secretary, 2013 to current, the American Public Health Association, the American College of Healthcare Executives, the Healthcare Financial Management Association, the American Hospital Association, and the American Association of Professional Coders – president (Guam-CNMI Chapter), 2010.

Other recognitions of note include being featured in the February 2010 issue of *AAPC Coding Edge Magazine*: “Minute with a Member”, the winner of CDC Sustainable Management Project and presented winning project in CDC Sustainable Management Conference in Cape Town, South Africa (2006): “Improving Revenue Collections with Total Quality Management”. She is also a certified professional coder since 2004 and AHIMA-Approved ICD-10 coding instructor since 2012.

#### **USAPI Atlantic Director**

##### **Michelle S. Davis, PhD**

Health Commissioner and Chief Health Officer, Virgin Islands Department of Health

Michelle Davis currently holds the position of regional health administrator (RHA) with the U.S. Department of Health and Human Services (HHS) New York Regional office. The RHA serves as the principal federal public health authority for the secretary of HHS and the assistant secretary for health. The RHA also assures collaborative promotion of the Surgeon General's initiatives.

Prior to her current position, she served as the deputy RHA for the Mid-Atlantic region (DC, DE, MD, PA, VA, WV) as the health liaison between DHHS and state/local agencies, coordinated regional/national programs, recommended policies and served on the federal emergency preparedness, response and recovery team.

Davis has worked as a public health professional in a variety of positions at the federal, state, and municipal levels. This included the deputy secretary for the Pennsylvania Department of Health. She was responsible for oversight of over 600 staff and a budget of \$250 million.

Before working with the Commonwealth of Pennsylvania she held positions as deputy health commissioner for policy and planning with the city of Philadelphia and senior epidemiologist with CDC. She has also held positions with the states of South Carolina, Indiana, and New York and at the local level with the city of Detroit and with the District of Columbia as a CDC federal assignee.

Davis has held several elected positions within professional organizations including: president and chair of the board of the Pennsylvania Public Health Association (PPHA), president and vice-president of the Black Caucus of Health Workers of the American Public Health Association (APHA) and governing councilor for the epidemiology section of APHA.

Davis matriculated at the University of Michigan majoring in biology and psychology at the undergraduate level. She continued her education at the University of South Carolina, Johns Hopkins, and the University of North Carolina where she majored in epidemiology for her graduate degrees.

#### Ex Officio Members

##### **Michael Fraser, PhD, CAE, FCPP Executive Director, ASTHO**

Michael Fraser has served as ASTHO's executive director since August 2016. Most recently, he served as the executive vice president and CEO of the Pennsylvania Medical Society in Harrisburg, Pa. During his tenure there, he worked with physician leaders to transform the organization into a dynamic, relevant, and effective membership organization representing all of the state's physicians, and tackling critical issues such as the opioid misuse and drug abuse crisis.

Fraser served as CEO of the Association of Maternal and Child Health Programs (AMCHP) from 2007 to 2013, where his leadership was recognized nationally by the Maternal and Child Health Bureau's Director's Award in 2014. In addition, the American Public Health Association's MCH Section awarded AMCHP the Outstanding Leadership and Advocacy Award. Prior to joining AMCHP, Fraser was the deputy executive director of the National Association of County and City Health Officials (NACCHO) from 2002 to 2007, and served in several capacities at the U.S. Department of Health and Human Services, including positions at the Health Resources and Services Administration and CDC.

Fraser received his doctorate and masters degrees in sociology from the University of Massachusetts at Amherst and a masters of science in management with a concentration on management, strategy and leadership from the Eli Broad School of Management at Michigan State University. He received a B.A. in sociology from Oberlin College in 1991. Fraser is an Adjunct Faculty in the Department of Global and Community Health at the George Mason University College of Health and Human Services and a Professional Lecturer in Health Policy & Management at the Milken Institute School of Public Health at George Washington University.

Joan Duwve is the associate dean for public health practice at the IU Fairbanks School of Public Health and the chief medical officer at the Indiana State Department of Health. Duwve received her bachelor's degree from The Ohio State University, a Masters of Public Health degree from the University of Michigan and her medical degree from The Johns Hopkins School of Medicine. She completed a residency in Family Medicine at St. Vincent's Hospital and Health Services in Indianapolis. Duwve spent her pre-medical years serving in the Peace Corps and working in international public health in North Africa and the Middle East and then worked as a private practice family physician for 11 years.

Duwve serves on several state committees, including the Mental Health and Addiction Prevention Advisory Committee, and the Covering Kids and Families Board of Directors. She co-chairs the State Prescription Drug Overdose Prevention Task Force. Regionally, Duwve serves as an advisor to the Midwest Injury Prevention Alliance Board of Directors and co-chairs the MIPA Prescription Drug Abuse Task Force.

**Lori Tremmel Freeman, BS, MBA**  
**Chair, Affiliate Council**

CEO, Association of Maternal & Child Health Programs

Lori Tremmel Freeman, BS, MBA is currently the Chief Executive Officer at the Association of Maternal & Child Health Programs (AMCHP) in Washington, DC. In her role, Freeman provides direction and leadership for organizational mission, vision and objectives, working every day to protect and promote the optimal health of women, children, and families and to strive for a nation that values and invests in the wellbeing of all women, children, families, and communities. She also manages the organization's operations, ensures partnerships with federal, state, and local agencies, national policy makers, organizations, foundations, and the public; ensures that member needs are addressed through organization's committees, programs and activities; and supports the work of the President, Executive Committee and the Board of Directors. Freeman has had a 27-year career in nonprofit management, holding senior leadership positions with the National Association of County and City Health Officials (NACCHO); the International Test and Evaluation Association (ITEA); the Association for the Advancement of Medical Instrumentation (AAMI); the Society of Nuclear Medicine and Molecular Imaging (SNMMI); the American Public Health Association (APHA); and Grant Thornton LLP.

Freeman received a Bachelor of Science degree in Management Science from Lock Haven University in Pennsylvania, and went on to complete a Masters degree in Business Administration and Marketing minor from Indiana University of Pennsylvania. She is active in her local community holding leadership positions on the Paul VI Catholic High School Board, Middleburg Horse Trials, and Middleburg Pony Club. Freeman currently resides in Haymarket, Virginia with her husband and twin children.

**David L. Lakey, MD**  
**Alumni Board Member**

Vice Chancellor for Health Affairs, University of Texas System  
Senior Vice President for Population Health and Isadore Roosth Distinguished  
Professor, University of Texas Health Science Center Tyler

David Lakey serves as the vice chancellor for health affairs for the University of Texas System, and the senior vice president for population health and Isadore Roosth Distinguished Professor at the University of Texas Health Science Center in Tyler (UTHCT). He is the dean of the School of Community and Rural Health at UTHCT. He currently serves on a federal public health advisory committee for CDC and the Defense Health Board.

Lakey served as commissioner of the Texas Department of State Health Services from January 2007 to February 2015, leading the Texas public health response to multiple high profile events including hurricanes Ike, Gustov, and Dolly, the H1N1 influenza pandemic, and the Ebola outbreak in Dallas.

During his tenure as commissioner, Lakey served as president of ASTHO in 2011-2012, and received several national awards including the AMCHP President's Award, the March of Dimes President's Public Health Leadership Award, the Arthur T. McCormack Award, and the American College of Obstetricians and Gynecologists Distinguished Service Award. As ASTHO president, he issued ASTHO's 2012 Healthy Babies President's Challenge focused on reducing infant mortality and prematurity in the United States. In 2015, Lakey was elected by the March of Dimes to a five-year term on its board of trustees.

March 28, 2018

Dr. Robert R. Redfield, Director  
Centers for Disease Control and Prevention/ATSDR  
1600 Clifton Road  
Building 21, Floor 12  
Atlanta, GA 30333

Dear Dr. Redfield,

On behalf of the Association of State and Territorial Health Officials (ASTHO), it is our pleasure to invite you to meet with our Board of Directors during our June meeting in Atlanta, GA. ASTHO is the national nonprofit organization representing state public health agencies in the United States, the U.S. Territories, and the District of Columbia, and over 100,000 public health professionals these agencies employ. ASTHO's vision is state and territorial health agencies advancing health equity and optimal health for all and its mission is to support, equip, and advocate for state and territorial health officials in their work of advancing the public's health and well-being. The Board would be extremely appreciative of the chance to meet you in person, learn more about your vision and priorities for CDC, and discuss current state and federal efforts to advance the nation's health.

The ASTHO Board of Directors will conduct its next meeting on June 14 and 15 in Atlanta, GA. The Board is scheduled to meet with CDC leaders on CDC's Roybal campus on Thursday, June 14 and will be at the Emory Conference Center on Friday, June 15 to conduct Board business. We would welcome an opportunity to meet with you as your schedule allows during either or both of these times. I look forward to hearing from you soon and working with your staff to make the visit as productive and helpful as possible.

Most sincerely,

Michael Fraser, PhD, MS, CAE, FCPP  
Executive Director

**To:** Romanik, Nikki Jo (CDC/OD/OCS);Williams, Teresa (CDC/OD/OCS);Strength, Tracie (CDC/OD/OCS)  
**Cc:** Bartee, Brad Allen (CDC/OD/OCS);McGuire, Delaney (CDC/OD/OADC);McCallister, Jeremy (CDC/OD/OCS);Kroop, Seth (CDC/OD/OCS);Hoo, Elizabeth (CDC/OD/PPEO);Roberts, Ursula (CDC/OD/OCS) (CTR)  
**Subject:** RE: Shepard Awards 10:00-11:30am June 14th.

Just huddled with JM and R3 did agree to intro speaker. Here's what we're going to do. Please revise calendars accordingly and let me know if any problems...

9-9-30am R3 meets with ASTHO Board in DCR  
9:30-9:45 R3 & AS move to Speaker Ready Room to meet with Shepard Speaker (please reserve SRR)  
945-10am, AS & R3 meet with speaker in SRR and prep for talk  
10am Lecture begins

**To:** Romanik, Nikki Jo (CDC/OD/OCS) <kon6@cdc.gov>  
**Cc:** Bartee, Brad Allen (CDC/OD/OCS) <yxa0@cdc.gov>; McGuire, Delaney (CDC/OD/OADC) <mze7@cdc.gov>; McCallister, Jeremy (CDC/OD/OCS) <isn8@cdc.gov>; Kroop, Seth (CDC/OD/OCS) <wpw7@cdc.gov>; Hoo, Elizabeth (CDC/OD/PPEO) <irp5@cdc.gov>  
**Subject:** RE: Shepard Awards 10:00-11:30am June 14th.

I'll defer to JM about any acceptance of R3 to do remarks as you've outlined below. If he has not agreed per our protocols, then they need to submit via the DL process for him to do that, otherwise he's just attending

**Subject:** RE: Shepard Awards 10:00-11:30am June 14th.

Hi Scott,

Another question regarding the Shepard Awards, for clarity. There seems to be a lot of confusion regarding these events. Here is the tentative run of show from OADS. It shows AS as giving the opening remarks (5 min) and then R3 giving longer remarks and introducing the keynote speaker (10 min) I spoke with JM and he confirmed that R3 did agree to this during the DL meeting.

Delaney is checking with OADC as they *may* have under the impression that AS was giving the majority of remarks.

Is the below run of show consistent to what you thought was happening at this ceremony?

Thanks,  
Nikki

**Subject:** RE: Shepard Awards 10:00-11:30am June 14th.

Good afternoon Nikki,  
Dr. Schuchat has been asked to give the Introductory remarks and Dr. Redfield is asked to introduce the keynote speaker. Below is a proposed "run of show".

Introductory Remarks: RADM Anne Schuchat (could include acknowledgment of the recent passing of last year's keynote speaker) approx. 5 minutes

Introduction of Keynote Speaker: Dr. Robert Redfield, approx. 10 minutes

Keynote: Innovation and Creativity in Modern Public Health, Dr. Roberta Ness (approx. 45 minutes including Q and A)

Presentation of Awards: John Iskander, MD (approx. 25 minutes)

Closing: John Iskander, MD (< 5 minutes)

Hi Jeffrey,

I booked Room 12126 that is down the hall from 12105, where you will be.

It's a small conference room with a table that can fit 5 comfortably with dial in capability.

Also, I will be [REDACTED] when you have your event. If there is anything you would like to go over before I leave that would be idea either today or tomorrow.

Would you like to visit to get an idea of the space?

Also, copied above are Tamika Brown who handles all of our conference room space and Nikki Romanik who is my colleague and will be a good source of information when I am out.

Let me know if you want to swing by today or tomorrow.

Thanks,  
Brad

**Subject:** RE: ASTHO Board of Directors meeting

Good morning Brad. I hope all is well.

May I have your assistant or be guided to a POC in the OD that can help me with an ASTHO request related to the ASTHO Board of Directors meeting?

On Thursday, June 14<sup>th</sup> ASTHO has a group of 5 individuals who will need to meet from 11:30-12:30 and they would like to use meeting space at the CDC office, if possible, since the individuals will be there participating in the CDC/ASTHO meetings that day. In addition to these 5 people who will be onsite, they will have 2 people calling in for this meeting, so they would need a speaker phone in the room as well.

Is there someone I can work with about securing a meeting location on the same floor as the ASTHO Board of Directors meeting?

**Board of Directors Visit to Centers for Disease Control & Prevention**

**Thursday, June 14, 2018**

**Arlen Specter Headquarters and Operations Center, Building 21, Room 12105 —Atlanta, GA**

**AGENDA**

- 7:00 a.m.- **Small groups shuttle or walk from Emory Conference Center to CDC Global Communications Center/Visitors Center, Building 19 (see attached arrival schedule) (valid photo ID required for security check-in)**
- 7:30 a.m. **Center/Visitors Center, Building 19 (see attached arrival schedule) (valid photo ID required for security check-in)**
- 8:00 a.m. **Breakfast Available**
- 8:15 a.m. **Welcome & Call to Order** *J. Wiesman (WA)*  
 Agenda Review and Meeting Preparation
- 9:00 a.m.- **Meeting with CDC Director – Roles for States in Eliminating Diseases**
- 9:30 a.m. CDC Attendee(s): Robert R. Redfield, M.D., Director; Rear Admiral Jonathan Mermin, MD, MPH, Director of the National Center for HIV/AIDs, Viral Hepatitis, STD and TB Prevention (NCHHSTP); Captain Paul Weidle, PharmD, MPH Acting Director of Division of Viral Hepatitis, (NCHHSTP)  
*State Experiences* *J. Wiesman (WA)*  
*Group Discussion*
- 10:00 a.m. **Emergency Preparedness – Hurricane Preparedness & Response**  
 CDC Attendees: Daniel Sosin, MD, MPH, FACP, Deputy Director and Chief Medical Officer, Office for Public Health Preparedness and Response; Jeff Bryant, MS, MSS, Director, Division of Emergency Operations; Christine Kosmos, RN, BSN, MS, Director, Division of State and Local Readiness—Office of Public Health Preparedness & Response  
*Threat Assessment, Public Health Emergency Preparedness Changes* *J. Wiesman (WA)*  
*Group Discussion*
- 11:00 a.m. **Chronic Disease/Non-Communicable Disease Prevention**  
 CDC Attendee(s): Ursula Bauer, PhD, MPH, Director, National Center for Chronic Disease Prevention & Health Promotion  
*State Non-Communicable Disease (NCD) Prevention & 6/18 Efforts* *N. Alexander-Scott (RI)*  
*Territorial NCD Prevention* *E. Muna (MP)*  
*BRFSS – Future Support, Ideas for Transformation* *Group Discussion*  
*Population Health* *Group Discussion*
- 12:00 p.m. **Luncheon Break**  
 Audit & Finance Committee Meeting (Conference Room 12126)
- 1:00 p.m. **Opioids, Primary Prevention Activities & ACEs Research**  
 CDC Attendee(s): Debra Houry, MD, MPH, Director, National Center for Injury Prevention & Control; Elizabeth Solhtalab, MPA, Acting Associate Director for Policy & Partnerships, NCIPC; Melissa T. Merrick, PhD, Behavioral Scientist, Surveillance Branch, Division of Violence Prevention, NCIPC  
*State Experiences* *J. Butler (AK)*  
*State Spend Down Issues with STR & New Opioid Activities* *Group Discussion*  
*Preventing ACEs/Roles for State and Territorial Health Leadership* *Group Discussion*

- 2:00 p.m. **Surveillance, Informatics, Big Data & State-Federal Strategy Sharing**  
 CDC Attendee(s): Chesley Richards, MD, MPH, FACP, Deputy Director for Public Health Scientific Services, Director, Office of Public Health Scientific Services; Rear Admiral Michael Iademarco, MD, MPH, Director, Center for Surveillance, Epidemiology & Laboratory Services; William MacKenzie, MD, Acting Associate Director for Science

## 1. Contacts:

**Logistics Specialist:** Nikki Romanik

**Special Assistant:** Ashley Knotts / Hugh Green

**Event Contact:** Sarah Despres, O: 202-540-6601, [sdespres@pewtrusts.org](mailto:sdespres@pewtrusts.org),

**CDC Staffer Accompanying Dr. Redfield:** TBD

**CDC Program Contact (if applicable):** TBD

**CDC Media Contact (if applicable):** TBD

## 2. Event Information:

**Event Host:** The Pew Charitable Trusts

**Purpose of Event:** Meet with leadership from The Pew Charitable Trusts to introduce the Director to their work and discuss ways they can advance shared priorities, particularly in addressing antibiotic resistance, which is an area where governments, public health groups, patients, healthcare providers, and industries such as drug developers and meat producers, have come together to support meaningful policies to address the topic.

The Pew Charitable Trusts is driven by the power of knowledge to solve today's most challenging problems. We are an independent nonprofit organization – the sole beneficiary of 7 individual trusts established between 1948 and 1979 by 2 sons and 2 daughters of Sun

Oil Company founder Joseph N. Pew and his wife, Mary Anderson Pew. From its first day in 1948, Pew's founders steeped the new institution with the entrepreneurial and optimistic spirit that characterized their lives. As the country and the world have evolved, we have remained dedicated to our founders' emphasis on innovation. Today, Pew is a global research and public policy organization, still operated as a non-partisan, non-governmental organization dedicated to serving the public.

In recent years, The Pew Charitable Trusts have worked closely with CDC in 4 areas: Antibiotic Resistance; Substance Use Prevention and Treatment Initiative (SUPTI); Food Safety; and Health Impact Assessments and Lead Exposure.

**Agenda (if applicable):** Coming 6/6 or 6/7

**Number of Attendees and Composition:** TBD

**Key Participants (if applicable):** Allan Coukell, Senior Director, Health Programs;

Sarah Despres, Director, Gov Relations;

Brett Beckerson, Manager, Substance Use Prevention and Treatment Initiative;

**Bios:** TBD

**Source Invitation:** Yes on the 4/16/18 DL

3. **Dr. Redfield's Speech Information or Talking Points (TPs):**

**Dr. Redfield's Remarks/Presentation/TPs:** TBD

**Proposed Role and Topic:** TBD

**Length of Presentation:** TBD

**Press:** TBD

**Teleprompter:** TBD

4. **Supporting/Logistics Materials:**

-

5. **OGC Review Materials:**

April 5, 2018

Robert R. Redfield, MD  
Director  
Centers for Disease Control and Prevention  
1600 Clifton Road  
Atlanta, GA 30329

Dear Dr. Redfield:

On behalf of The Pew Charitable Trusts, I am writing to congratulate you on becoming the Director of the Centers for Disease Control and Prevention (CDC) and to request a meeting to introduce you to our work and discuss ways we can advance our shared priorities, particularly in addressing antibiotic resistance.

The Pew Charitable Trusts is an independent, non-profit research and public policy organization that seeks to improve public policy, inform the public, and invigorate civic life. In recent years, we have worked closely with CDC in four areas:

1. **Antibiotic Resistance:** As you know, antibiotic resistance is an urgent public health issue that requires sustained, high-level leadership and attention. Antibiotics underpin modern medicine, but resistant bacteria threaten that progress. Pew has enjoyed a multi-year partnership with the CDC Foundation to address ways to improve antibiotic stewardship. For example, Pew worked with CDC to analyze data for use in setting national targets for reducing inappropriate antibiotic prescribing in ambulatory care settings, to develop tools to facilitate the adoption of CDC's antibiotic use measures in hospitals, and provide guidance for small and rural hospitals in implementing stewardship.

Pew is committed to increasing funding for the CDC's Combatting Antibiotic Resistant Bacteria (CARB) activities as an essential component of the broader, government-wide One Health Initiative. In FY2016, we were pleased that Pew's involvement in a multi-stakeholder advocacy campaign resulted in substantial additional baseline funding for CDC's efforts to strengthen antibiotic resistance surveillance and improved state laboratory capacity, and we continue to advocate for increased funding for these activities in the current Labor-HHS appropriations legislation.

2. **Substance Use Prevention and Treatment Initiative (SUPTI):** CDC's statistics on the effects of substance use paint a grim picture of a growing epidemic. Pew is conducting research and working at the federal and state levels to advance policies to improve prevention and treatment. We collaborated with CDC on efforts to evaluate practices intended to increase prescriber use of prescription drug monitoring programs, including a workshop for Prevention for States and Data-Driven Prevention Initiative grantees. SUPTI also supports CDC's efforts to disseminate research reports and other messages.

3. **Food Safety:** Each year, one in six Americans gets sick from a foodborne illness. Pew's Safe Food project has been working to address this public health issue through implementation of the Food Safety Modernization Act and through collaboration with CDC on food safety and enteric disease issues in an effort to improve root cause analysis following a foodborne outbreak. We continue to hold discussions with CDC's Division of Foodborne, Waterborne and Environmental Diseases over strategies to improve foodborne disease surveillance and the interpretation and reliability of culture-independent diagnostic testing.
4. **Health Impact Assessments and Lead Exposure:** Despite improvements in reducing lead exposure, there are still at least half a million children, ages 1-5 with blood lead levels over CDC's reference dose. After a year long research process, the Pew Health Impact Project recently released a report titled "10 Policies to Prevent and Respond to Childhood Lead Exposure," an assessment of the risks communities face and key federal, state, and local solutions related to lead exposure. Pew regularly engaged with CDC staff as this report was developed.

If you have the time, we would very much look forward to meeting to discuss ways we can advance our common goals. We are particularly interested in ensuring that the United States continues to lead in tackling antibiotic resistance. This is an area where governments, public health groups, patients, healthcare providers, and industries such as drug developers and meat producers, have come together to support meaningful policies to address antibiotic resistance. Your leadership will be critical to maintaining the momentum of this effort. My colleague Sarah Despres can be reached at [sdespres@pewtrusts.org](mailto:sdespres@pewtrusts.org) or (202) 540-6601 to assist with scheduling.

Sincerely,

Allan Coukell  
Senior Director, Health Programs

**Subject:** Proposed times for Partner meeting at CDCW

Hi Scott-

Per Mitch's email below and as mentioned on the call this week, we wanted to suggest possible times on Monday, June 11 for Dr. Redfield's attendance at the Partner meeting at CDCW.

Our first choice is a 1pm start but seeing that he has a meeting scheduled during that time slot, starting at 1.30 or 2pm would also be great. Given that he has to leave by 2.30pm for the Pew meeting, we wouldn't want to start any later than 2pm to allow him to be there for the first half. The meetings typically last one hour, and he has the option of attending the entire meeting (as outlined below) or just the first 15 mins – either is completely fine.

Please let us know if any of these options work, and thanks in advance for accommodating!

Aimee

**Subject:** Recommendation for Dr. Redfield meeting in Washington, DC

Hi Scott,

We have a recommendation for some time that Dr. Redfield is in Washington, DC. Several times a year, CDC/W convenes a group of government affairs leads for DC-based policy partners (see the list below) to discuss important issues, make sure we are in touch with cross-cutting partners, share information, etc. Each meeting begins with a welcome and policy discussion led by CDC/W followed by a budget discussion by Sherri Berger and Alison Kelly. We usually like to have a third speaker (a CIO director or other CDC leader) at the meeting to discuss a CDC program or initiative or agency priority. We also use these as a forum to introduce CDC leaders to this group so that they can get to know partners and vice versa. I think it would be good for Dr. Redfield to meet with this group. Normally about 25 or 30 people come, and it's an interesting and useful discussion and the introductions, and their hearing about his priorities, would be very helpful.

**Subject:** RE: Meeting request.

Sarah,

The scheduling team is working to book the meeting with you and Allan Coukell when he is in town on June 11<sup>th</sup>. We were wondering if you would be able to come here to CDC/Washington. Hoping it actually might be extra convenient for you since we are tentatively scheduling (you are the first to know!) one of our quarterly partner meetings at 2pm that day and have Dr. Redfield join and then have the Pew meeting at 3pm. Would that work? If so, would it be just you and Allan Coukell in the meeting or others?

Thanks!

Anstice Brand

**Subject:** ASTHO meeting with the Director

Dear Teresa and Kyle,

Dr. Alexander-Scott (SHO-RI) and Dr. Wiesman (SHO-WA) were hoping for a brief chance to meet with the Director while in Atlanta next week. Dr. Alexander-Scott was not able to join us in May and would really like some one on one time to introduce herself to the Director, and she and Dr. Wiesman wanted to follow-up on the potential idea of a commentary or Op-Ed that the Director mentioned while we were there in May. Would it be possible to find sometime on Thursday the 14th (maybe 15 minutes) while we are there? Thank so much,

Mike

**Subject:** RE: Dr. Schuchat's Calendar

Dear Jeremy,

On April 24<sup>th</sup>, Shannon Royce, Director, and Heidi Christensen, Public Affairs Specialist, of the Center for Faith-based and Neighborhood Partnerships (HHS/Office of the Secretary) will be visiting CDC and have asked to meet with you. The purpose of the visit is to introduce the Center for Faith-based and Neighborhood Partnerships and get acquainted with CDC programs that are interested in working more closely with faith-based institutions and communities. They are particularly interested in CDC's efforts to address the opioid crisis (including prescriber guidelines and prevention), chronic disease prevention, emergency preparedness, and HIV prevention.

The meetings will be held on the Roybal campus in building 21, room 12116. The time slotted for your meeting is 9:00am.

If you have questions or need additional information, please let me know.

Thanks, Leandris

**Subject:** RE: Dr. Schuchat's Calendar

Good afternoon Teresa and Tracie,

I hope all is well. I am checking to see if Dr. Schuchat has any availability between 10am – 1pm on April 24, 2018 to attend a meeting with Shannon Royce, HHS Partnerships Center Director? A follow up email with additional details will come later this week.

Good afternoon Ayanna,

I hope you are doing well.

I am following up on the request to schedule a NIH Visit with Drs. Fauci and Collins on June 12<sup>th</sup> at the NIH Office?

Dr. Fauci is available between 11 a.m. – 6 p.m.

Would Dr. Collins be available for two hour during this time period for a meeting and tour of NIH?

Thank you for your consideration.

Best,  
Teresa

**Subject:** RE: Dr. Redfield - Global Health Impact Across the US Government: Accelerating Progress through Partnerships

Hi Jeremy,

I have some follow up on this. So to confirm, Dr. Redfield will sit in the audience during the panel, not participate on it, right?

Also Dr. Martin suggested that rather than having a formal dinner, we instead invite the panelists and Dr. Redfield to the no host social event that we are holding after. It would give Dr. Redfield a chance to meet and interact with our country office staff and it would allow him and the other panelists to leave whenever they like.

Let us know if this is an option. Working on the agenda now.

Thanks.

**Importance:** High

Hi Jeremy,

I just sat down with Dr. Martin's Chief of Staff on this item. In reviewing it, we actually think it would be better for him to attend the panel and sit in the audience, but not serve on the panel itself. We would also like to propose that after the closing remarks session, that he attend a dinner with the USG panelists noted below. We have confirmation from Amb. Birx, are waiting on a response from Amb. Green and Adm Ziemer, and will be inviting an attendee from DoD. Do you want the dinner event on a separate DL item?

Thanks!!!

Thanks. I'll need to discuss with Kyle first. That would conflict with R3's preparedness briefing. I'll circle back when things are clear.

**Subject:** Media training at HHS

**Importance:** High

Scott,

Katherine and Kyle discussed yesterday scheduling another media training session for R3 at HHS sometime in May. The trainer is only available the afternoon of May 14 starting at 1:30. It would be at HHS studios again. This session would be 2 hours.

Is there any open time on that afternoon that we can work this in?

Thanks so much,  
Megan

**Date:** Thursday, May 31, 2018 4:32:26 PM

---

Hi Scott and team,

Please find below a request for Dr. Redfield to provide opening remarks at OFR's virtual all hands meeting on 6/28/18. They are amenable to other CDC delegates but not a video teleconference or prerecorded remarks.

Additional details are included below.

Thank you,

Mansi

New request from Request Director form --

Event Overview:

Event Title: Office of Financial Resources Virtual All Hands Meeting

Name of Organization Hosting Event: Office of Financial Resources

Description of Organization: The Office of Financial Resources (OFR) seeks to provide exemplary financial stewardship and exceptional customer service for managing CDC's acquisition and assistance processes while serving as diligent stewards of public funds. As a unit within CDC's Office of the Chief Operating Officer (OCOO), OFR shares its vision "to be partners in protecting health through exemplary business service, innovative practices and continuous workforce development."

Event Location: Roybal, Bldg 19 in the DLA (Distance Learning Auditorium)

Event date: 06/28/2018

Event start time: 10:00 AM | End Time: 11:00 AM

Director's participation requested start time: 10:00 AM

Director's participation requested end time: 10:15 AM

Contact Person

Contact Person: Sarah McLaulin

Contact Office Phone: 404-639-7754

Contact Cell Number: 470-728-6710

Contact Email: xga7@cdc.gov

#### Event Details

What is the purpose of this event?: On June 28 from 10 -11 AM, OFR will host it's annual virtual all-hands for staff. OFR's director, Christa Capazzola, would like to invite Dr. Redfield to speak to OFR staff and welcome him as the new CDC director. Last summer Dr. Schuchat presented at this meeting and this was very well received by OFR staff.

Proposed role of Director?: speaker

If the Director is unable to attend, would you still be interested in a CDC speaker?: YES

If the Director is unable to attend in-person, would joining by video teleconference be an option?: NO

If the Director is unable to attend in-person or by VTC, would a pre-recorded message be an option?: NO

#### Presentation Details

Topic of Presentation: Introductory remarks related to Dr. Redfield's new role as CDC Director and the end of FY 2018 and preparing for FY 2019.

Type of Presentation: Opening Remarks

Presentation Special Notes:

Additional Speakers: OFR Director, Christa Capazzola

Length of Presentation: 5-10 minutes

PowerPoint requested: [ppt-available]

Will there be Q&A?: NO

Specific topic/points you would like the Director to address: New role as Director and vision for CDC in FY 2019; FY 2019 funding and CDC's plan; FY 2018 closeout/end.

Audience and Key Participants?: Public Health/Medical Professionals

Audience Size?: 251-1000

Expected Media Coverage?: NO

Will this event be videotaped?: NO

Additional details?: [Additional-details]

**From:** Redfield, Robert R. (CDC/OD)  
**Sent:** 12 Apr 2018 14:56:25 +0000  
**To:** Redfield, Robert R. (CDC/OD);Seth Kroop (CDC/OD/OCS) (wpw7@cdc.gov);Ashley Knotts (CDC/OD/OCS) (vqf0@cdc.gov);Brad Allen Bartee (CDC/OD/OCS) (yxa0@cdc.gov);Romanik, Nikki Jo (CDC/OD/OCS);McGuire, Delaney (CDC/OD/OADC);McGowan, Robert (Kyle) (CDC) (omc2@cdc.gov)  
**Subject:** Office of Infectious Diseases (OID) Board of Scientific Counselors (BSC)  
**Attachments:** Office of Infectious Diseases (OID) Board of Scientific Counselors (BSC).pdf

## 1. Contacts:

**Logistics Specialist:** TBD

**Special Assistant:** TBD

**Event Contact:** Robin Moseley (OID), O: 404.639.4461, Mobile: 404.247.0457, [rrm1@cdc.gov](mailto:rrm1@cdc.gov)

**CDC Staffer Accompanying Dr. Redfield:** TBD

**CDC Program Contact (if applicable):** TBD

**CDC Media Contact (if applicable):** TBD

## 2. Event Information:

**Event Host:** OID

**Purpose of Event:** The OID BSC is one of CDC's federal advisory committees, which work to achieve stakeholder and public engagement in CDC's efforts and commitment to improve people's health. CDC's infectious disease BSC was originally established in 1962, making it one of the agency's oldest advisory committees. The OID BSC advises the Secretary, HHS; the Director, CDC; the Director, OID; and the Directors of CDC's 3 infectious disease national centers concerning strategies, goals, and priorities for the programs and research within the national centers and monitors the overall strategic direction and focus of OID and the national centers. The board consists of 17 members, including the chair; 6 ex officio

members from federal agencies; and 7 liaison representatives from other CDC federal advisory committees, the Mexico Ministry of Health, and the Public Health Agency of Canada.

**Agenda (if applicable):** TBD

**Number of Attendees and Composition:** 50 public health professionals and CDC staff. The Directors of OID, NCEZID, NCHHSTP, NCIRD, and CGH will also attend and present remarks.

**Key Participants (if applicable):** TBD

**Bios:** TBD

**Source Invitation:** Yes on the 4/9/18 DL; Dr. Schuchat is already scheduled to speak to the group on 5/3 @ 9:30 AM.

3. **Dr. Redfield's Speech Information or Talking Points (TPs):**

**Dr. Redfield's Remarks/Presentation/TPs:** TBD

**Proposed Role and Topic:** Provide a brief overview and update (5 – 10 min.) followed by Q & A (5 – 10 min.).

**Length of Presentation:** see above.

**Press:** TBD

**Teleprompter:** TBD

4. **Supporting/Logistics Materials:**

-

5. **OGC Review Materials:**

**From:** [CDC Speakers Bureau](#)  
**To:** [Scales, Scott L. \(CDC/OD/OCS\)](#); [Williams, Teresa \(CDC/OD/OCS\)](#); [McCallister, Jeremy \(CDC/OD/OCS\)](#)

**Subject:** FW: Directors Request  
**Date:** Friday, March 2, 2018 10:05:39 AM

---

Hello Scott, Teresa and Jeremy,  
Please find below a request for Acting Director Schuchat to provide opening remarks at the CDC Board of Scientific Counselors, Office of Infectious Diseases' federal advisory committee meeting on May 2 at Roybal.

The Committee has allotted 5-10 minutes for Dr. Schuchat to provide an Agency overview/update followed by a 5-10 minute Q&A. The Committee is not amenable to hosting an alternate speaker if Dr. Schuchat is unavailable.

Additional request details are included below. If the Speakers Bureau can assist the OCS with this request, please let me know. Thank you.

Warm regards,  
Ashante Dobbs Cooper, MPH, MS

2. **Event Information:**

**Event Host:** OADC

**Purpose of Event:** CDC Museum's Disease Detective Camp (DDC) is an educational program for high school juniors and seniors offered since 2005 by the David J. Sencer CDC Museum. DDC is an interdisciplinary educational program that reflects the museum's mission of educating the public about CDC's work. Topics include: public health interventions, global health, infectious disease, chronic disease, injury prevention, data analysis, surveys, health disparities, environmental health, emergency preparedness, outbreaks, scientific communication, laboratory technology, disease surveillance, epidemiology, and public health law. Each summer sixty-six slots are available in the two iterations of camp, and each year an average of 450 applications are received. The June 2018 campers are from the US states of California, Georgia, Illinois, Michigan, Mississippi, North Carolina, Nebraska, Ohio, Texas, Pennsylvania, and Virginia, and the country of Uganda.

**Subject:** CDC Disease Detectives Camp  
**Importance:** High

We are a go for Friday, for R3 to make some brief remarks at the Museum. Tracie will work with you to narrow down the exact time and location for him to be involved, and since your event times will impact the OADC bi-weekly comms meeting, there will be some time changes to that meeting, as a result of him doing this. Again, Tracie will coordinate that with you Llelwyn.

Please submit your brief TPs to Seth Kroop **by COB today**, so we can get them to R3 before he departs DC tonight.

Would it be possible for Mrs. Redfield to join the event too?

Unfortunately R3 will be in Africa on July 27, so he can't do that one. You may want to ask Anne about doing it.

Let us know if there are other questions.

Thanks!

Scott

**Subject:** RE: CDC Night at SunTrust Park

Jeremy and Scott - Thanks for your follow-up. I hope you don't mind, but I would like to add another item to the Director's decision list.

The David J. Sencer CDC Museum would like to cordially invite Dr. Redfield to give opening remarks at Disease Detective Camp closing program scheduled at the GCC, Alexander D. Langmuir Auditorium, from 2:00-3:30 p.m. on Friday, June 15 and again on Friday, July 27 for the second camp closing session.

Dr. Redfield would not have to stay for the entire program. The audience will consist of student campers, CDC volunteers, museum staff, and friends and families of the campers. We would like Dr. Redfield to provide 2-3 opening remarks welcoming the program attendees, congratulating the campers for completing the week, and commenting on the importance of inspiring young people to pursue public health.

Below is background information about the camp.

**CDC Museum's Disease Detective Camp (DDC) is an educational program for high school juniors and seniors offered since 2005 by the David J. Sencer CDC Museum. DDC is an interdisciplinary educational program that reflects the museum's mission of educating the public about CDC's work. Topics include: public health interventions, global health, infectious disease, chronic disease, injury prevention, data analysis, surveys, health disparities, environmental health, emergency preparedness, outbreaks, scientific communication, laboratory technology, disease surveillance, epidemiology, and public health law. Each summer sixty-six slots are available in the two iterations of camp, and each year an average of 450 applications are received. The June 2018 campers are from the US states of California, Georgia, Illinois, Michigan, Mississippi, North Carolina, Nebraska, Ohio, Texas, Pennsylvania, and Virginia, and the country of Uganda.**

Thanks in advance for your support. Sorry for the late request.

**Subject:** CDC Night at SunTrust Park

It is that time of the year again. OADC is starting plans for the annual “CDC Night at SunTrust Park.” I mentioned this event to Dr. Redfield during his *CDC Connects*’ leadership profile interview in April. He seemed very interested and excited about attending, if his schedule permits.

Below are some game and date options for “CDC Night at SunTrust Park”:

- Thursday, July 26 – Braves vs. Dodgers
- Friday, August 17 – Braves vs. Rockies
- Friday, August 31 – Braves vs. Pirates
- Friday, September 14 – Braves vs. Nationals

We are hoping that one of these proposed games and dates work well with Dr. Redfield’s schedule. Let me know if you require additional information.

Thanks much,

Llewelyn F. Grant

**Subject:** Overseas Leadership Get-together and Hang Out

Colleagues,

OSMB would like to welcome you (CDs and DDs, plus OSMB HQ, plus a few additional FOMs) to Mike's house and garden on Wed, June 6, 6:00-8:30 (or to whenever, since my wife will be out of state 😊). Our OSMB social committee is having a fun time brainstorming things to drink, stuff to eat, and entertainment. We'll hope for a sunny day but we will do our best with whatever they give us.

More to follow, but please mark your calendars!

Mike

## 2. Event Information:

**Event Host:** CGH

**Purpose of Event:** This session will provide an opportunity to hear from and interact with senior policy leaders from within the USG regarding trends and emerging priorities for USG investments in global health. This session will include a strategic overview of USG global health work from the perspectives of White House and implementing agencies from HHS, USAID, and other USG high level organizations. Speakers are asked to discuss challenges and opportunities in a whole of government approach in addressing major health threats and trends, and providing perspectives on major themes that will drive the USG's success in improving health outcomes.

**Agenda (if applicable):**

<b>CGH Annual Meeting Closing Session Grand Hall West</b>	
3:20PM-3:25PM	Welcome Back
3:25PM-4:30PM	Global Health Impact: Accelerating Progress Through USG Partnerships and Innovation
<p>The special USG panel will feature principals from the White House and federal agencies that lead USG global health initiatives. Panelists will discuss their vision for USG global health programs, expected achievements, and critical themes for a USG staff audience to understand as they implement programs in the field. Panelists will outline their view of the role of the U.S. in global health and the changing global context of our work, discuss the future of USG global health programs over the next 5-10 years, and highlight key opportunities for USG programs to intensify the use of data, technology, innovation, and new partnership models to accelerate progress. Panelists will provide guidance and clearly articulate expectations for results and continuous improvement in the field.</p> <p>Moderator: Garrett Grigsby, Director, Office of Global Affairs, Department of Health &amp; Human Services  Panel: Andrea Hall, Senior Director for WMD and Biodefense, National Security Council; Amb. Deborah Birx, U.S. Global AIDS Coordinator &amp; U.S. Special Representative for Global Health Diplomacy, Department of State; Ken Staley, Coordinator, President’s Malaria Initiative, U.S. Agency for International Development; Terry Rauch, Deputy Assistant Secretary for Health Readiness Policy &amp; Oversight (acting), Department of Defense</p>	
4:30PM-4:35PM	Sharing Insights: What USG Investments in Global Health Mean to Host Country Nationals? (Dr. Peninah Munyua, CDC/Kenya)
4:35PM-5:00PM	CDC Global Health: Vision for the Future (Robert Redfield, CDC Director)
5:00PM-5:10PM	Closing
5:10PM-5:45PM Kennesaw	Country Director Listening Session with CDC Director
5:30PM – 7:30PM Big Kahuna	Social Event

**Number of Attendees and Composition:** 500+ US-based and Country-based CGH staff, including Country Directors, Deputy Country Directors, Division Directors, Branch Chiefs, program staff, locally-employed staff and other guests.

**Key Participants (if applicable):** Moderator: Garrett Grigsby, Director, Office of Global Affairs, Department of Health & Human Services

Panel: Andrea Hall, Senior Director for WMD and Biodefense, National Security Council; Amb. Deborah Birx, U.S. Global AIDS Coordinator & U.S. Special Representative for Global Health Diplomacy, Department of State; Ken Staley, Coordinator, President’s Malaria Initiative, U.S. Agency for International Development; Terry Rauch, Deputy Assistant Secretary for Health Readiness Policy & Oversight (acting), Department of Defense.

**Bios:** TBD

**Source Invitation:** Yes on the 4/30/18 DL

**Subject:** RE: DL Item for Dr. Redfield

Jeremy,

In addition to the corrected date of 6/04/2018 for the item below, we would also like to ask for Dr. Redfield participation in a panel discussion from 3:30 – 4:30 pm that day as well.

The session entitled *Global Health Impact Across the U.S. Government: Accelerating Progress through Partnerships* is proposed to be from 3:30-4:30 on June 4<sup>th</sup>. We are hoping that this session will provide an opportunity to hear from and interact with senior policy leaders from within the US government regarding trends and emerging priorities for US government investments in global health. This session will include a strategic overview of the U.S. government's global health work from the perspectives of White House and implementing agencies from the Department of Health and Human Services, United States Agency for International Development, and other USG high level. We are asking speakers discuss challenges and opportunities in a whole of government approach in addressing major health threats and trends. Also that they provide your perspective on major themes that will drive the U.S. government's success in improving health outcomes.

Moderator: Rebecca Martin, CGH Director  
USG Panel:

---

- TBD: Dr. Redfield, CDC if available. Possible back up: Garrett Grigby HHS
- Ambassador Green (United States Agency for International Development)
- Ambassador Birx
- Rear Admiral Tim Ziemer (National Security Council);

Do you mind including this as a separate Decision List item for Dr. Redfield?

Thank you!

**Subject:** DL Item for Dr. Redfield

Hi Jeremy,

I am not sure if Pam Dougherty submitted a Decision List Item to you or not, so I apologize if this is duplicative.

**Subject for Requested Meeting/Call:** Closing Address at CGH Annual Meeting

**Suggested Date:** 6/5/2018

**Time:** 4:30-5:00 pm

**Duration:** 30 minutes

**Location if Outside of CDC:** At Hyatt Regency Downtown: 265 Peachtree St NW, Atlanta, GA 30303

**Purpose of Meeting/Brief Description:** The CGH Annual meeting is held the first full week of June. Country Directors, Deputy Directors, Division and Center staff all come together for 1-2 days of meetings. The purpose of the meeting will be to discuss and define/position ourselves for success in the future.

**Question(s):** Dr. Redfield provide closing remarks to the CGH Annual meeting.

**Agenda (if applicable):** Draft agenda will be shared by the middle of May.

**Number of Attendees and Composition:** Over 500 US-based and Country-based CGH staff, including Country Directors, Deputy Country Directors, Division Directors, Branch Chiefs, program staff, locally-employed staff and other guests.

**Key Participants (if applicable):** The panel just prior to the closing remarks will include representatives from across the USG who will present on USG global priorities. Panelists are TBD.

**Source Invitation if Applicable:** NA

In addition, Dr. Redfield, and others from the OD, including Dr. Schuchat will be invited to a social event from 5-7p that evening. Location and final times TBD and I will send a separate DL item for it.

Thanks Jeremy!

**Subject:** Proposed times for Partner meeting at CDCW

Hi Scott-

Per Mitch's email below and as mentioned on the call this week, we wanted to suggest possible times on Monday, June 11 for Dr. Redfield's attendance at the Partner meeting at CDCW.

Our first choice is a 1pm start but seeing that he has a meeting scheduled during that time slot, starting at 1.30 or 2pm would also be great. Given that he has to leave by 2.30pm for the Pew meeting, we wouldn't want to start any later than 2pm to allow him to be there for the first half. The meetings

typically last one hour, and he has the option of attending the entire meeting (as outlined below) or just the first 15 mins – either is completely fine.

Please let us know if any of these options work, and thanks in advance for accommodating!

Aimee

**Subject:** Recommendation for Dr. Redfield meeting in Washington, DC

Hi Scott,

We have a recommendation for some time that Dr. Redfield is in Washington, DC. Several times a year, CDC/W convenes a group of government affairs leads for DC-based policy partners (see the list below) to discuss important issues, make sure we are in touch with cross-cutting partners, share information, etc. Each meeting begins with a welcome and policy discussion led by CDC/W followed by a budget discussion by Sherri Berger and Alison Kelly. We usually like to have a third speaker (a CIO director or other CDC leader) at the meeting to discuss a CDC program or initiative or agency priority. We also use these as a forum to introduce CDC leaders to this group so that they can get to know partners and vice versa. I think it would be good for Dr. Redfield to meet with this group. Normally about 25 or 30 people come, and it's an interesting and useful discussion and the introductions, and their hearing about his priorities, would be very helpful.

**Subject:** 15 minutes tomorrow?

Hi Scott,

Michelle and Kyle spoke earlier, and they are hoping to brief Dr. Redfield in person re the PATH event. Is it possible to add 15 minutes to the calendar tomorrow, for the following people to brief him?

- Kyle
- Amanda
- Michelle
- Kate Galatas

Happy to talk through more details if helpful.

Thanks so much!  
Delaney

## 1. Contacts:

**Logistics Specialist:** Nikki Romanik

**Special Assistant:** Ashley Knotts / Hugh Green

**Event Contact:** Kelly Healy (PATH), [khealy@path.org](mailto:khealy@path.org)

**CDC Staffer Accompanying Dr. Redfield:** Amanda Campbell (RSVP is done for Amanda)

**CDC Program Contact (if applicable):** TBD

**CDC Media Contact (if applicable):** TBD

## 2. Event Information:

**Event Host:** PATH

**Purpose of Event:** This event will serve as an opportunity to shine a spotlight on how partnering across sectors to develop and deliver innovations will help transform our ability to address emerging threats as well as long-standing health scourges. PATH sees this as an opportunity for the Director to share his thoughts, at the outset of his tenure, about the role CDC will play in protecting the health of Americans, and populations around the globe, in an interconnected world.

PATH is the leader in global health innovation. An international nonprofit organization, we save lives and improve health, especially among women and children. We accelerate innovation across five platforms—vaccines, drugs, diagnostics, devices, and system and

service innovations—that harness our entrepreneurial insight, scientific and public health expertise, and passion for health equity. By mobilizing partners around the world, we take innovation to scale, working alongside countries primarily in Africa and Asia to tackle their greatest health needs. Together, we deliver measurable results that disrupt the cycle of poor health.

**Agenda (if applicable):** attached

**Number of Attendees and Composition:** 75 – 100 people and will be a mix of USG colleagues, other NGOs, private sector, and a handful of Congressional staff

**Key Participants (if applicable):** Attached

**Bios:** TBD

**Source Invitation:** Yes on the 5/29/18 DL

3. **Dr. Redfield’s Speech Information or Talking Points (TPs):**

**Dr. Redfield’s Remarks/Presentation/TPs:** TBD

**Proposed Role and Topic:** Present remarks at the program and reception hosted by PATH that will bring together a cross-section of senior leaders from the private sector, government, and civil society to discuss the role of innovation in advancing public health globally. Fireside chat

**Length of Presentation:** TBD

**Press:** TBD

**Teleprompter:** TBD

4. **Supporting/Logistics Materials:**

5. **OGC Review Materials:** Pending approval from OGC; sent 6/1/18. The ethics rules permit Dr. Redfield to participate in the PATH partnership event and accept the complimentary attendance should he choose to do so. Generally, employees are prohibited from accepting a gift given from a prohibited source or because of the employee’s official position. 5 C.F.R. §2635.202. Excluded from the definition of gift is free attendance to an event provided by the sponsor of the event to an employee who is assigned to present information on behalf

of the agency at the event on any day when the employee is presenting. 5 C.F.R. §2635.203(b)(8). Because Dr. Redfield is assigned to present information at the PATH partnership event, he is permitted to accept the complimentary attendance to the event, which includes a reception with light hors d'oeuvres.

May 23, 2018

Dr. Robert Redfield  
Director  
US Centers for Disease Control and Prevention

Dear Dr. Redfield,

I am writing to invite you to speak at a program and reception hosted by PATH on the evening of Monday, June 11 at our Washington, DC offices at 455 Massachusetts Avenue NW Suite 1000. The event will bring together a cross-section of senior leaders from the private sector, government and civil society to discuss the role of innovation in advancing public health globally.

This event will serve as an opportunity to shine a spotlight on how partnering across sectors to develop and deliver innovations will help transform our ability to address emerging threats as well as long-standing health scourges. We see this as an opportunity for you to share your thoughts, at the outset of your tenure, about the role CDC will play in protecting the health of Americans, and populations around the globe, in an interconnected world.

Many thanks for considering this request, and I look forward to seeing you in Washington or Seattle in the coming months.

Warm regards,

A handwritten signature in black ink that reads "Steve Davis".

Steve Davis  
President and CEO  
PATH

**Subject:** RE: Invitation to speak at June 11 event in Washington, DC

Hi Jeremy,

Yes, happy to provide these details. The reception will have light hors d'oeuvres and will be approximately \$22/person. We are anticipating 75-100 people. It will be a mix of USG colleagues, other NGOs, private sector, and a handful of Congressional staff.

Thank you for keeping us posted on the formal acknowledgement. We hope to get the invitation out today with Dr. Redfield named, but will hold until we hear from you all.

Best,  
Kelly

Jeremy,

Thanks so much for getting in touch and we are extremely excited that Dr. Redfield will be participating. I am looping in Kelly Healy who is planning the event and should be able to provide you with some answers on costs. She can also be your POC moving forward if you need anything else but feel free to continue to reach out to me if needed.

Have a wonderful weekend.

Best,

Elana Banin

Ms. Banin,

Dr. Redfield has agreed to speak at your event on 6/11. Could you give us specifics on the attendees and the cost per person for the reception so that we can get that cleared with our legal team? Thanks and once we hear back and are cleared he'll be able to do the reception as well. We'll also work on getting you a formal acknowledgement today but it may come next week. Thanks and if you have any questions until then please feel free to reach out directly to me.

Jeremy

Dear CDC Colleagues,

Greetings and hope this message finds you well. This morning PATH's CEO, Steve Davis, and Dr. Redfield met in Geneva and discussed the possibility of Dr. Redfield attending and speaking at an upcoming event the evening of June 11<sup>th</sup> at our Washington, DC office. Please find attached a formal letter of invitation.

We would be honored to have Dr. Redfield join us. Please let me know if I can be of help in providing additional information.

With best regards,

**Elana Banin**

Hi Kate,

Dr. Redfield is open to having the interview on Monday, June 18<sup>th</sup> from 5-6 p.m.

Also, per our conversation, I am holding Thursday, June 28<sup>th</sup> from 3:30-4:30 p.m.

Please advise how you would like to proceed.

Thanks,  
Teresa

Hi Tracie,

Can we put a hold on his calendar for 3 to 4 pm on Wednesday, June 20<sup>th</sup> (after the CERC training)? We'd like to see if we can arrange the interview (3 to 3:30 prep; 3:30 to 4 pm interview) at that time. Also, if you know of any other 1-hour windows that we may be able to claim on Monday, Tuesday or Wednesday (June 18-20), please let me know.

Thanks,  
Kate

**Subject:** Media interview for Friday

Hi Scott,

Thanks for talking through Dr. Redfield's availability for an interview on Friday. I talked with folks here, and they are working with the reporter on her availability from 9:30-10:00am. Can we please put a hold on his calendar for 9:30-10:00, media interview? We will confirm as soon as possible.

Additionally, has the Sepsis pre-brief by chance moved?

Thanks so much!  
Delaney

**Subject:** RE: Media interview for June 28

Hi Teresa,

The interview with Associated Press on June 28<sup>th</sup> is a go. We're currently planning to spend 3:30 to 3:45 pm prepping Dr. Redfield, followed by in-person photos/portraits with an AP photographer from 3:45 to 4 pm, and the interview will be from 4 to 4:30 (along with any wiggle room on the back-end, if possible). As of now, the interview will be by phone since the reporter isn't located in Atlanta. I'll let you know if that changes.

Please let me know if you need any further information, but I'll continue to update as we finalize the details.

Thanks,  
Kate

**Subject:** RE: Media interview for Friday

Hi Teresa,

Betsy has confirmed the June 18<sup>th</sup> interview, so let's proceed with prep from 5 to 5:30 pm, and the interview from 5:30 to 6 pm. Please also keep the hold on June 28<sup>th</sup> as time for a possible interview with another reporter/outlet – and we'll circle back on that as details are finalized.  
FYI: I'm on leave next week, but Michelle and Kathy will follow up with any needed updates regarding the interview.

Thanks for all your help on this today!  
Kate

Global Polio Eradication Initiative  
Finance update  
June 2018 POB Meeting

# Finance Update

- **2017 final expenditure 8% under budget(\$79M)**
  - 2016 - 19% under budget variance
  - 2017 total exp \$1.004 billion; 2018 budget set at \$942M
- **2018 Q1 Expenditure \$239M (17% under \$288M budget)**
  - Variance due mostly to delayed immunization campaigns
    - 58% of annual campaign planned for Q1, several postponed to Q2
- **Cash Forecast**
  - Encouraging for this year – GPEI fully funded for 2018
  - 2019 also fully funded in principle – need to secure pledges to address timing and specificity of late-year contributions
- **Multi-year Budget development underway, 2019-2022**

# Key Issues and Risks:

- **2018 Expenditure and budget:**
  - Outbreaks, e.g. Horn of Africa, DRC, hard to predict
    - Could push budget up, require new financing or consume flexible funds
- **Cash forecast:**
  - \$7B PEESP funding sufficient through 2019, with timely monetization and absent new large demands
- **Multi-year budget, need to:**
  - Avoid reducing too much or too soon
  - Sustain donor commitment
  - Ensure cost-effectiveness and efficiency

# Requests of POB

1. Comments or questions about GPEI budgets, expenditures, cash forecasts presented here
2. Support mobilization of additional resources required for GPEI post-2019

# ANNEXES

# 2018 GPEI Budget Overview

- \$942 Million
  - \$177m below 2017 budget
  - More than 2/3 of budget in AFRO and EMRO
  - Endemic countries absorb \$469 million (50%) of budget
  - Majority of SIAs planned in first half of year: Q1 59%, Q2 19%, Q3 1%, and Q4 21%
  - GPEI budget online  
<http://polioeradication.org/financing/financial-needs/financial-resource-requirements-frr/gpei-budget-2018/>

# Challenges & Next Steps:

Challenges	Progress/ Achievements	Next Steps
Cash management late 2019 and beyond	Ongoing and improved cash-gap forecasting and reporting	Commence fund-raising through the Polio Advocacy and Communications Team (PACT). Coordinate with UNICEF and WHO organization-wide fundraising efforts.
Multi-year budget development 2019-2022, and its financing;	Integrated budget development (top-down and bottom-up) underway by GPEI Finance Management Team (FMT) and Eradication and Outbreak Management Group (EOMG)	Produce cost-conscious and feasible budget sufficient to achieve eradication, with risk-rated scenarios and options for the Strategy Committee, the FAC and the POB to consider. Communicate approved budget to donors, partners to secure necessary funding commitments
Transparency and accountability	Process improvements in financial reporting and budgeting. Positive external reviews of GPEI finances (most recently DFID and Rotary).	Ongoing “value for money” inquiry (e.g. SIAs, Surveillance, Outbreaks). Deepen engagement with countries/regions.

# RESOURCE MOBILIZATION UPDATE

POB UPDATE 28 June 2018

AMERICAN  
OVERSIGHT

HHS-CDC-19-0276-A-000

## OVERALL GOAL:

To mobilize the resources and secure the enabling environment necessary to eradicate polio

PACT'S OBJECTIVES: Monetize donor pledges from 2017  
Update: Monetization rate on 2017 pledges improving (31% in December 2017, 43% in January, 56 % as of May)  
Programme fully funded in 2018, well funded in 2019 with potential cash gaps as of mid-2019  
Raise the additional resource requirements - still to be defined

# CURRENT STATUS OF RESOURCE MOBILIZATION

At the recent WHA, many donors reiterated their strong commitment and support to GPEI and the need to finish the job. To secure additional funding PACT is focusing its approaches on annual donors in 2018 and 2019. Visits to key donors in Q2 to Germany, EU Brussels and Japan, scoping additional donor visits and technical briefings for the remainder of the year. PACT will start approaches to other (multi-annual) donors as early as 2019 to secure funds for 2020 and beyond. Donors are inquiring about updated budgets for 2019 and beyond, a new plan, clarity on the funding needs (transition, containment, post certification), alignment with other transition and replenishment processes as well as clarity on GPEI costs / WHO investment case costs. The latest known additional financial requirements are \$500 to \$750 million as discussed at the January 2018 POB in-person meeting. Final budget figures for programme extension to be finalized by September POB. In lieu of budget numbers, PACT has developed an interim budgeting tool for use with annual donors.

# KEY ISSUES & RISKS

Major GPEI pledging event only one year ago  
Funding landscape in global health is challenging as Global Financing Facility, Global Fund, Gavi, & WHO in current or imminent financing and replenishment processes  
PACT factoring in funding needs for outbreaks, and stockpiles in addition to regular programme resource mobilization  
With current funding projections, GPEI would not be meeting funding level requirements up to 2021  
PACT's ability to raise funds in 2018 and outer years is challenged by absence of budget and plan for 2019 to 2022  
Status of programme progress, stagnation in Afghanistan, incremental progress in other areas, continuing surveillance gaps in critical areas, perceived lack of prioritization by endemic country governments, donors' focus on Africa

Key Challenges	Progress/ Mitigation	Next Steps
No available budgets until September	PACT is developing a budget tool for donor meetings in Q2 / Q3	Presentation of budget tool in Japan in June and to other donors during future visits
Keep momentum on polio for donors in crowded and competitive global health environment	GPEI will revise its Investment Case and increase dialogue with donors Coordinating with other multilateral global health organizations on a common narrative.	Start revision of Investment Case Updating communications strategy to support Resource Mobilization efforts Increase dialogue with donors Coordinate joint WHO/GPEI messaging and ask to donors to avoid confusion with new WHO Investment Case
Projected shortfall with initial funding projections from existing and potential donors	Amplify resource mobilization efforts	Initiate series of road shows to donors and potential donors Update Individual resource mobilization market strategies Donor mapping to prioritize resource mobilization efforts Re-engage with lapsed donors and Multilateral Banks Identify Innovative Financing possibilities

# REQUESTS OF POB

POB member voices and advocacy needed within respective organizations, and externally, to ensure polio stays a priorityAvailability for potential high-level meetings during UN General Assembly

**THANK YOU**

# UPDATE ON GLOBAL POLIO STOCKPILE OF ORAL POLIO VACCINES

Update to the Polio Oversight Board 28 June 2018

AMERICAN  
OVERSIGHT

HHS-CDC-19-0276-A-000

# mOPV stockpile; purpose, governance & management

The purpose of the global stockpiles of monovalent Oral Polio Vaccine is to ensure timely supply of vaccines to respond to outbreaks of specific poliovirus types at a time when OPV is no longer used in routine immunization systems. mOPV2 stockpile was established in 2015 ahead of the withdrawal of type 2 containing vaccines – the Switch from tOPV to bOPV. Establishment of the mOPV1 and mOPV3 stockpiles is in progress; to be in place before withdrawal of bOPV from the routine immunization systems, 4 years after last virus. WHO governs the global stockpile of bulk and finished mOPVs. Day to day management of the stockpile is carried out jointly by UNICEF and WHO

# Activities and outcome of efforts to establish the global mOPV stockpile

- Gavi investment case approved for Gavi-eligible countries to access stockpile after OPV is withdrawn from routine immunization system - \$191.28M/2.25Bds (Sept 2006) Expression of interest issued to industry with 5 manufacturers responding but indicated technical constraints (2007) Bulk stockpile established with two manufacturers (2015) mOPV1: 300Mds mOPV2: 519Mds mOPV3: 300Mds Service contract established with one manufacturer to convert, store, ship (2016) Thorough review of the size and timelines of the stockpile carried out in 2016-17. As a result the forecasted quantity increased from 1.19Bds to 2.3Bds (+0.8Bds of type 2, net increase of 150Mds mOPV1 and mOPV3), to be secured across three manufacturers, timelines for establishment of the stockpiles for the mOPV1&3 shifted in view of delays of WPV1 eradication. Negotiations ongoing to explore options and adjust the contractual arrangement with the manufacturers to new GPEI program timelines

# CHALLENGES & MITIGATION MEASURES

Challenges	Actions Taken	Next Steps
Suppliers exiting the market, with one major mOPV bulk producing manufacturer remaining in 2020	<ul style="list-style-type: none"> <li>Discussions to reengage suppliersExplore, monitor, consider alternative options</li> </ul>	<ul style="list-style-type: none"> <li>Divest and contract alternative back up supplier</li> </ul>
No agreed mechanism yet in place to finance establishment of the stockpile for the Post Certification Period	<ul style="list-style-type: none"> <li>Immediate short term funding of \$7.5M committed by BMGF to replenish mOPV2SC/EOMG/FMT agreed on mechanism for budgeting of the stockpile PACT engagement</li> </ul>	<ul style="list-style-type: none"> <li>PACT to start fundraising on behalf of GPEI and PCS for stockpiles</li> </ul>
Expiry of mOPV2 in global stockpile due to non-usage (insurance policy); in the future, similar for mOPV1 and mOPV3	<ul style="list-style-type: none"> <li>Managing across bulk/semi-finished/finished product considering production lead timesPushing for shelf life extension</li> </ul>	<ul style="list-style-type: none"> <li>Extension of shelf life to 9 years from end 2018; later 7 years for mOPV1 and mOPV3</li> </ul>
Securing additional bulk for stockpile to bring it up from 1.19Bds to 2.256Bds	<ul style="list-style-type: none"> <li>Explored with preferred supplier, awaiting offerEarly discussions with potential back up supplier</li> </ul>	<ul style="list-style-type: none"> <li>If acceptable, contracting supply to secure access to bulk and filling capacityIf not acceptable, to reconsider approach</li> </ul>
Extension of contracts	<ul style="list-style-type: none"> <li>Contracts extended through 2021&amp;2022, MoUs in progress WHO/UNICEF</li> </ul>	<ul style="list-style-type: none"> <li>Utility of taking ownership of mOPV2 bulk stocks by 2022 if not converted</li> </ul>
Planning and management of the stockpile in changing operational and epidemiological environment	<ul style="list-style-type: none"> <li>Continue quarterly review and adjustment of the mOPV stockpiles</li> </ul>	<ul style="list-style-type: none"> <li>Early engagement with the 'new' owners of polio program on the issues of capacity building and handover</li> </ul>

HHS-CDC-19-0276-A-000734

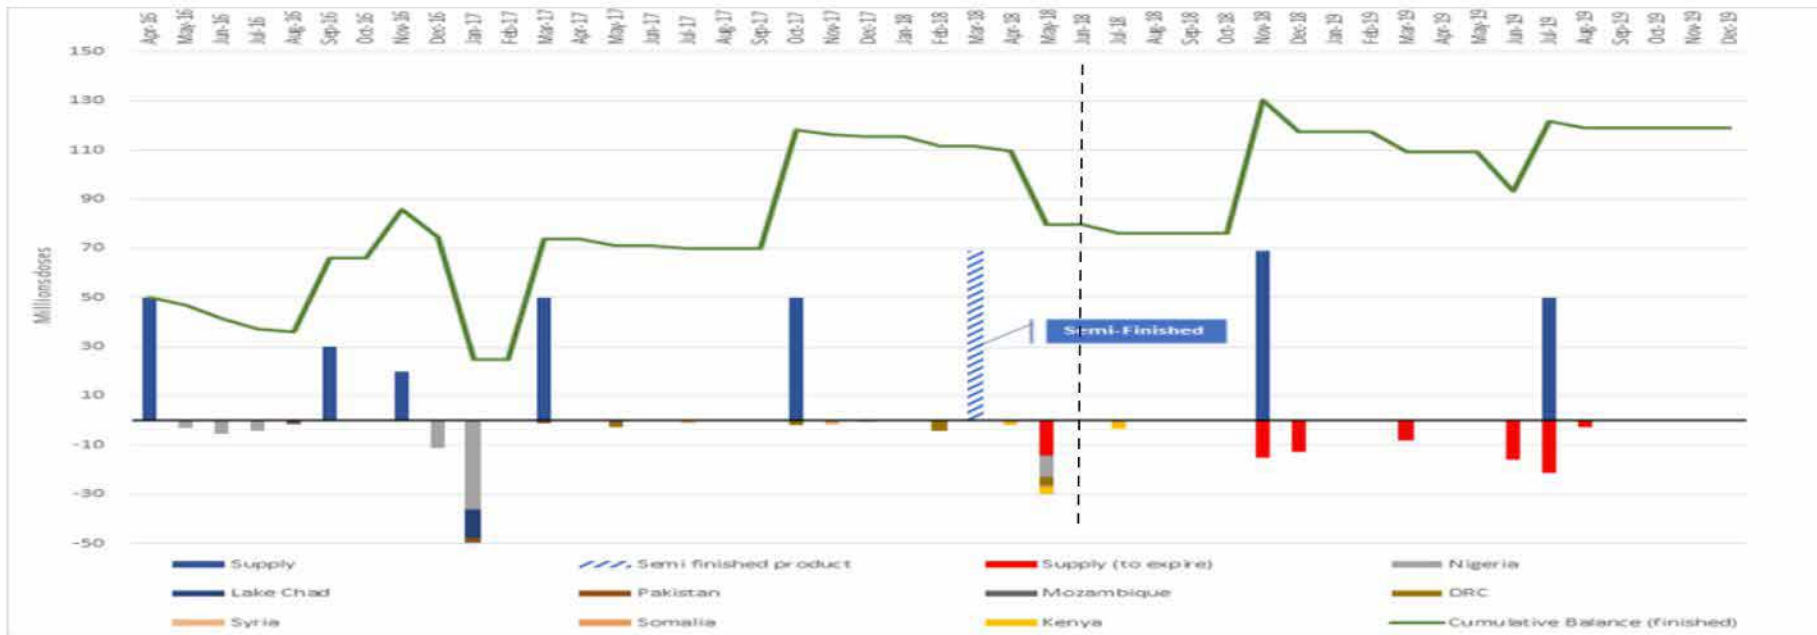

## Requests of POB

1. Endorse the mOPV stockpile arrangement agreed by the SC: explore options to increase bulk stockpiles to 2.256Bds across three OPV types; rely on a primary stockpile holder that offers 7-9 years shelf life across the three mOPV types; GPEI to fundraise (outside of FFR) for the mOPV stockpiles which will be used post certification and after GPEI has dissolved. Take note of necessity to write off of up to 90.7Mds/\$10.9M of finished mOPV2 due to expiry. For information, POB to take note that the global stockpile will undergo regular reviews and may be modified before the Certification to adjust to evolving operational (including supply) and epidemiological contexts.

# ANNEXES

# Status of global stockpile of finished product mOPV2

- Total delivery of 105,7Mds of mOPV2 to 10 countries over 2 years; 94.2Mds in stocks as of end of May 2018mOPV2 bulk fully converted with one supplier; stockpile products now starting to expire, requiring replenishment.

## Recap of Scenario 1: outbreak response in the phases 1&2

	Parameter	2018-20	2021-25	2026-31	Total
mOPV2	Estimated consumption	62,400,000	165,600,000	N/A	
	Order QTY finished	119,000,000	200,000,000	87,000,000	406,000,000
	Order Additional Bulk	837,000,000	-	-	337,000,000
	<b>Total Cost (USD)</b>	<b>24,240,000</b>	<b>31,068,241</b>	<b>14,408,254</b>	<b>59,716,496</b>
mOPV1	Estimated consumption	-	183,600,000	181,200,000	
	Order QTY finished	150,000,000	300,000,000	-	450,000,000
	Order Additional Bulk	300,000,000	-	-	300,000,000
	<b>Total Cost (USD)</b>	<b>41,400,000</b>	<b>47,142,361</b>	<b>-</b>	<b>88,542,361</b>
mOPV3	Estimated consumption	-	96,000,000	91,200,000	
	Order QTY finished	-	250,000,000	200,000,000	450,000,000
	Order Additional Bulk	300,000,000	-	-	300,000,000
	<b>Total Cost (USD)</b>	<b>18,000,000</b>	<b>38,880,301</b>	<b>33,576,201</b>	<b>90,456,503</b>
	Additional cost of storage	720,000	1,840,000	2,040,000	4,360,000
	Cost of disposal	-	-	-	
	<b>Cost Grand Total</b>	<b>84,360,000</b>	<b>118,930,904</b>	<b>50,024,456</b>	<b>243,075,359</b>

Parameters/assumptions: Based on the operational scenario endorsed by the EOMG Relies on supplies from preferred manufacturer only Shelf life of finished product: mOPV2 – 9 years; mOPV1&3 – 7 years

Residual stock at the end of the Phase 2	
mOPV2	224,800,000
mOPV1	85,200,000
mOPV3	262,800,000

# Transition Update to the Polio Oversight Board

Mike McGovern, TMG Chair

28 June, 2018

unicef

World Health  
Organization

BILL & MELINDA  
GATES foundation

# Post-certification Strategy

## Polio Eradication and Endgame Strategic Plan (PEESP)

- 1 Poliovirus detection & interruption
- 2 OPV2 withdrawal, IPV introduction, immunization system strengthening
- 3 Containment & global certification
- 4 Transition Planning
  - Mainstream polio-essential functions to sustain global eradication
  - Support country transition planning
  - Capture lessons learned

### Post-Certification Strategy (PCS)

**Purpose:** *Defines the technical standards for the polio-essential functions that will be needed to sustain a polio-free world.*

## PCS goals

	Description
1 <b>Contain Poliovirus Sources</b>	Ensure potential sources of poliovirus are properly controlled or removed
2 <b>Protect Populations</b>	Withdraw OPV from use and immunize populations with IPV
3 <b>Detect and Respond</b>	Promptly detect any poliovirus reintroduction and rapidly respond to prevent transmission

**Note:** Research & Development is included in the PCS as a cross-cutting enabling function

**PCS has been published and endorsed at the 71st World Health Assembly**  
 Links to English and translated versions are available on the [GPEI](#) website

# GPEI Partner Transition Update

## BMGF:

An internal BMGF leadership meeting was held in March 2018 to review the PCS and get input on the foundation's role post-certification. BMGF will continue to support and advocate for a successful implementation of the PCS functions and will plan its contribution to the PCS in collaboration with current and future partners.

## CDC:

CDC's Polio Transition Roadmap is undergoing cross-center clearance and is awaiting final approval by the Director. CDC remains committed to the successful implementation of the PCS, and will remain deeply involved in polio transition planning and implementation as one of the future owners.

## Rotary International:

Rotary has committed to advocate for the implementation of the polio post-certification strategy with a group of donor and at risk countries after certification of the eradication of polio. Rotary is finalizing the lessons learned in carrying out its PolioPlus program to be shared with other programmatic areas of the organization.

## UNICEF:

UNICEF's Polio Transition and Post-Certification Management Plan will have been shared with the agency's Deputy Executive Director for endorsement prior to the POB meeting. The Plan is a living document and will be updated periodically and as needed.

## WHO:

WHO's Strategic Action Plan was presented at the 71st World Health Assembly. The plan puts country ownership at its center and outlines how WHO will continue to provide support at the country level, with the goal to gradually transfer essential polio function costs into the core WHO budget.

# Transition Management Group Sunset

## RATIONALE:

- TMG mandate is completed: transition plans for 14 priority countries will be finalized by May 2018
- Current country planning activities will be transferred to WHO and UNICEF regional and country offices
- High-level approach and guidance needed at country level
- Secretariat provided support and guidance and will be needed in future activities and groups

## BACKGROUND:

- Decision to “sunset” TMG in June 2018 was communicated to WHO and UNICEF Regional Directors in December 2017
- Decision was endorsed by the Strategy Committee
- Decision to continue secretariat to support lessons learned projects and proposed high level advisory group of future owners

## For POB awareness:

### Country Planning Task Team:

1. Transfer of all activities to WHO and UNICEF
2. Partners and stakeholders will receive regular quarterly updates

### Lessons Learned Task Team:

3. Activities will continue and report directly to the SC (collection of Lessons Learned projects and the GPEI History Project)

# Transition Independent Monitoring Board (TIMB)

Sir Liam Donaldson, TIMB Chair, postponed the June meeting for the following reasons:

- Member state's position on polio transition is to be finalized after the WHA
- Polio transition is coming under “new ownership”, not yet fully defined, WHO management is not yet finalized
- WHO leadership may wish to consider how the TIMB fits into the new management structures

**Decision on future and direction of the TIMB is needed**

# Requests of the Polio Oversight Board

## Endorsement and guidance on the following:

1. Defining the future role and direction of the TIMB as a neutral and independent convening body
2. Need for high-level advocacy and technical support made up of core and expanded immunization partners and future owners that will support WHO and UNICEF activities in transition priority countries and PCS implementation
  - Ask the POB to advocate with future stakeholders and commit their agencies to the group
  - Ask for a firm commitment to hold an introductory meeting and define the terms of reference for the group

# Questions and Discussion

**World Health  
Organization**

**Building Consensus for Certification of Poliovirus Eradication: Meeting of the chairs of the  
committees which advise and support the GPEI**

*WHO, Geneva, room M 105*

*April 16, 2018*

***MEETING NOTE***

## **Background**

---

Since January 2017 there have been 25 WPV1 cases worldwide (21 in Afghanistan, 9 in Pakistan) and 99 cases of cVDPV2s (74 in Syria, 25 in DRC). In this context, where the last detection (case or environmental positive sample) of wild poliovirus (WPV) is in sight, but circulating vaccine derived poliovirus (cVDPV) outbreaks continue, there is a need to reach a consensus on how certification of wild poliovirus eradication will be defined. At the meeting of the Global Certification Commission in 2017, as well as at meetings of other polio oversight committees, it was recommended to bring together the Chairs of the relevant advisory groups to ensure all partners are aware that recommendations that each can make may impact on the eventual certification of poliovirus eradication. It is acknowledged that the Global Certification Commission (GCC) remains responsible for certifying the eradication of Wild Poliovirus.

## **Objectives of the meeting**

---

1. Review progress toward WPV eradication and consider the criteria for certification of WPV eradication in the context of the ongoing risk of polio due to VDPV that may occur post certification and beyond OPV cessation.
2. Develop consensus around the roles of each committee currently and once WPV transmission has ceased, until certification, and including in the context of VDPV events and outbreaks.
3. Agree on key messages concerning (1) and (2) above
4. Provide information on other key policy decisions required to implement the PCS and suggest roles of relevant committees in providing further recommendations

## **Attendees**

---

The meeting was attended by the chairs of various advisory bodies to the Polio Eradication Programme; namely the Global Certification Commission (GCC), International Health Regulations Emergency Committee (IHR-EC), SAGE, SAGE Polio Working Group, Containment Advisory Group (CAG), Independent Monitoring Board (IMB), and the GCC-Containment Working Group (CWG) and focal persons from GPEI partners. Full list of attendees is in Annex 2.

## **Summary of outcome**

---

The group agreed that an options appraisal document for the requirements for certification of poliovirus eradication will be developed by the GCC secretariat. The document will outline the pros and cons of each option regarding requirements for certification of WPV eradication and the relative impact that each option would have on the timeline and process of certification. The three options highlighted were:

1. Certification of eradication based on the interruption of WPV alone
2. Certification of eradication based on the interruption of WPV, with consideration of the context of ongoing or recent cVDPV outbreaks
3. A multi-phase process for certification of eradication, suggested as:
  - Step 1: Eradication of WPV
  - Step 2: Eradication of cVDPVs
  - Step 3: Certification of Containment of all PVs.

Once the options appraisal has been produced, it will be fully considered by the GCC with careful consideration of the communications' implications and impacts on certification of each of the options.

## **Minutes of the meeting and recommendations**

---

### **Opening and Welcome**

#### **M. Zaffran**

A programmatic update and overview for the context of this meeting was provided

### **Update on the process of Certification and key points from the 17<sup>th</sup> Meeting of the Global Commission for the Certification of Poliomyelitis Eradication (GCC)**

#### **D. Salisbury**

The 17th meeting of the GCC took place in February 2018, with Chairs from each of the six Regional Certification Commissions (RCC) in attendance. A summary of the GCC recommendations were provided for each of the five meeting sessions.

The GCC recommended the following criteria to be applied for certification of WPV eradication:

1. No WPV transmission detected from any population source for the previous three years, and
2. Global poliovirus surveillance meeting certification criteria, and
3. Safe and secure containment of WPV retained in facilities, such as laboratories and vaccine manufacturing facilities

Additionally, the GCC recommended that the announcement of the eradication of WPV should take into consideration the epidemiology of cVDPVs at that time. The following requirements were suggested:

1. No detection of a persistent [ $>6$  months of confirmed circulation] cVDPV2 outbreak from any population source in the previous 18 months; and
2. No detection of a cVDPV 1 or 3 outbreak from any population source in the previous six months.

### **Update from SAGE WG discussions on criteria for certification of poliovirus eradication**

#### **I. Jani**

A presentation provided the key recommendations of the 15th meeting of the SAGE Polio Working Group, 20-21 February, 2018. The Working Group noted the proposed changes to the preconditions for certification and requested GCC to maintain communication with other advisory bodies (such as IMB, IHR, CAG).

### **The role of different committees from cessation of transmission up until global certification**

#### **B. Burkholder**

The proposed responsibilities of the committees advising the GPEI for developing the policy guidance on certification, containment, protection, detection and response was presented. The WHO will convene a future meeting for the responsibilities for implementing these policies.

Several attendees emphasised that after certification, the responsibility shifts to SAGE and raised the possibility of retaining the GCC to carry the post-certification process through to the end, with the GCC having a primary role in certifying the eradication of VDPVs. Discussions also highlighted that the document *Public Health Management of a Containment Breach of Type 2 Poliovirus* has been drafted and needs to be circulated for input.

## Discussion and consensus on what it means to certify eradication

### Summary of the main discussion points:

#### 1. The criteria to be applied for the certification of WPV eradication

##### Adequate global poliovirus surveillance

- How to deal with countries where there may be surveillance that does not meet accepted criteria. In these areas, such as Somalia and Northern Nigeria, the standard criteria of AFP performance indicators and the absence of wild poliovirus detection may not be sufficient. The need for surveillance data from non-standard sources was discussed.
- In many industrialised countries, AFP-surveillance has been replaced with enterovirus and/or environmental surveillance. The sensitivity and specificity of these supplemental surveillance methods are unknown, without criteria to link them to AFP surveillance standards.
- As IPV is introduced globally, the risk of silent transmission will increase and AFP surveillance may not be a reliable indicator.
- The GCC Chair confirmed that all countries must provide clear evidence to the GCC, based on factors including population immunity, surveillance quality, outbreak preparedness, containment and health system status for certification.

##### Safe and secure containment of WPV retained in facilities

- There is a high probability that completing certification of containment will not coincide with the certification of interruption of transmission and will happen later.
- The status of non-PEF facilities (such as academic institutions) that may contain WPV samples was discussed. Member states will conduct inventories and identify facilities that could have potential infectious material. The World Health Assembly could emphasize the importance of containment.
- At the time of WPV certification, the GCC will consider the status of bio-risk management of potentially infectious materials and readiness to respond to containment breaches. All facilities retaining WPVs should have at the least an Interim Containment Certificate, with a clear plan to achieve a full Certificate of Containment.

#### 2. Certification of eradication in the context of VDPVs

- The recommendation from GCC (of certification when there has been no detection of a persistent cVDPV2 outbreak in the previous 18 months at the time of certification), is to avoid recent, or concurrent outbreaks of polio due to cVDPV at the time of WPV certification. Outbreaks of cVDPVs will be perceived as polio outbreaks in the public view and would undermine the credibility of WPV certification. It was emphasised that the absence of cVDPVs are not criteria for the eradication of WPV, but considerations for when certification takes place.
- Substantial concern was raised over linking cVDPVs with WPV certification, such as: the impact on the eradication strategy and timeline (as related to WPV alone); the political and media pressure to certify after three years without poliovirus detection; and not defining a clear separation between cVDPVs and WPV. However, there was lack of agreement on the solution.
- An option of a multi-phase approach, with separate stages of certification of eradication was suggested: first, the certification of eradication of wild polioviruses; second, the certification of eradication of cVDPVs; and third, certification of containment of all polioviruses. It was mentioned that the disappearance of VDPVs emanating from immunodeficient persons (iVDPVs) would also need to be validated, perhaps in a separate later stage.

### Proposed next steps:

The development of an options appraisal document for the different options for certification of poliovirus eradication was agreed. The document will outline the pros and cons of each option and the relative impact that each would have on the timeline and process of certification of eradication. It will then be carefully considered by the GCC.

The three options highlighted:

1. Certification of eradication based on the interruption of WPV alone
2. Certification of eradication based on the interruption of WPV, with consideration of the context of cVDPV outbreaks. One option for this is the recommendation from GCC, with no detection of a persistent cVDPV2 outbreak from any population source in the previous 18 months
3. A multi-phase process for certification of eradication, suggested as:
  - Step 1: eradication of WPV
  - Step 2: validation of absence of cVDPVs
  - Step 3: containment of all PV

Rotary highlighted that communication to donors has been that certifying the eradication of WPV has been the stated goal of their PolioPlus program and this should be considered when assessing the options.

The appraisal is to be developed by the secretariat of the GCC and then discussed by the GCC and Polio Oversight Board. Once a consensus is reached, it will be shared with SAGE and presented to the World Health Assembly in May 2019.

### **3. Communication**

- There may be a challenge in communicating the different possible scenarios to the lay public, as AFP caused by either WPV or cVDPV will probably all be seen as ‘paralysis/death caused by polio.’
- There needs to be clear communication plan in the certification of eradication, which would align with the selected certification option. This should include clear validation steps to move from the Polio Eradication and Endgame Strategic Plan to the Post-Certification Strategy.
- The difference between certification of WPV eradication and VDPV eradication needs to be clearly communicated.
- All partners and committees need to be aligned in their communication.

### **4. Certifying the eradication of type 3 poliovirus**

- Certifying the global eradication of type 3 poliovirus would provide an opportunity for a test run for the eventual certification of all wild polioviruses.
- The declaration of type 3 certification would provide a good milestone to give enthusiasm to the programme, donors and the public.
- This would not necessarily be followed by the withdrawal of Sabin Type 3 from the oral poliovirus vaccine.

## ANNEX 1: AGENDA

### Building Consensus for Certification of Poliovirus Eradication

*WHO, Geneva, room M 105*

*April 16, 2018*

#### **AGENDA**

#### **Objectives of the meeting:**

1. Review progress toward WPV eradication, and consider the criteria for certification of WPV eradication in the context of the ongoing risk of polio disease due to VDPV that may occur post certification and beyond OPV cessation.
2. Develop consensus around the roles of each committee once WPV transmission has ceased until certification, including in the context of VDPV events and outbreaks.
3. Agree on key messages concerning (1) and (2) above

#### **April 16**

---

14:00 – 14:15	Welcome and opening remarks	M. Zaffran
14:15 -14:45	Update from the 17 <sup>th</sup> Meeting of the Global Commission for the Certification of Poliomyelitis Eradication	D. Salisbury
14:45 – 15:00	Update on SAGE WG	I. Jani
15:00 – 16:00	Discussion and consensus building	ALL
16:00 – 16:15	<b>Coffee Break</b>	
16.15 – 17.00	Discussion on role of different committees from cessation of transmission up until global certification	ALL
17:00 – 18:00	Consensus on what it means to certify eradication	

## ANNEX 2: List of Participants

### Building Consensus for Certification of Poliovirus Eradication

*WHO, Geneva, room M 105*

*April 16, 2018*

#### **LIST OF PARTICIPANTS**

##### **Committee chairs**

David Salisbury	Global Certification Commission (GCC)
	European Regional Certification Commission (RCC)
Sir Liam Donaldson	Independent Monitoring Board (IMB)
	Polio Transition Independent Monitoring Board (TIMB)
Alejandro Cravioto	Strategic Advisory Group of Experts on Immunization (SAGE)
Peter Figueroa	SAGE Working Group on Polio (SAGE WG)
Ilesjh Jani	SAGE Working Group on Polio (SAGE WG)
David Heymann	Containment Advisory Group (CAG)
Arlene King (by phone)	GCC-Containment Working Group (CWG)
Helen Rees	International Health Regulations Emergency Committee (IHR-EC)

##### **GPEI Partners**

**BMGF** : Jay Wenger

**Centers for Disease Control and Prevention** : Rebecca Martin (by phone) and John Vertefeuille (by phone)

**Rotary International** Carol Pandak

**UNICEF** : Jalaal Abdelwahab

**World Health Organisation** : Michel Zaffran, Roland Sutter, Ondrej Mach, Graham Tallis, Harish Verma, Grace Macklin, Rosamund Lewis, Arshad Quddus, Jamal Ahmed, Andre Doren, Brent Burkholder (consultant to WHO)

**Agenda**  
**Polio Oversight Board Meeting**  
**28 June, 2018**

8:30 – 11:00 PST/ 11:30 – 14:00 EST/ 17:30 – 20:00 CEST

<b>Closeout and Final Remarks</b>	Chris Elias		5 min

# ENDEMIC COUNTRY UPDATES June 2018

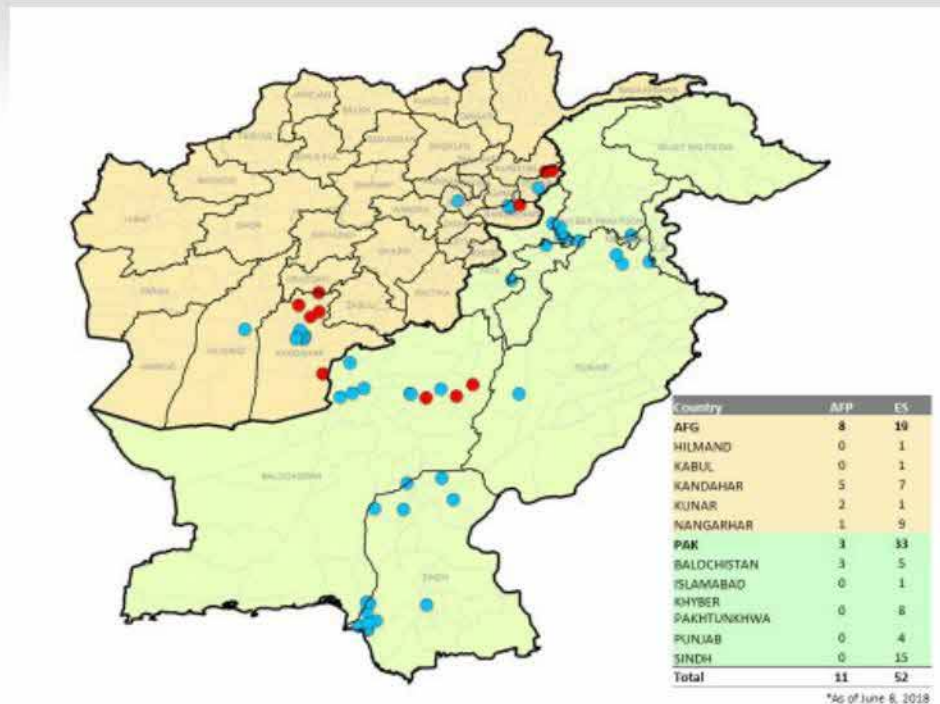

## POB Meeting

## Afghanistan

# AFGHANISTAN - CURRENT SITUATION

Transmission of wild poliovirus in the Northern and Southern transmission corridors has not been interrupted: 8 polio cases and 18 positive environmental samples in 2018. The most recent case is reported from Shahwalikot district in Kandahar Province with date of paralysis onset of April 27, 2018. Transmission in Kandahar Province has re-established and it is worrisome that some districts have been harboring transmission for more than 1 year. Transmission is also currently occurring in Nangarhar and Kunar where positive environmental samples as well as polio cases continue to be detected. Genetic sequencing data strongly suggests that both Afghanistan and Pakistan programs have not yet been able to identify and reach all population groups harboring transmission in the Northern Corridor. The TAG believes that, if accessibility improves and can be sustained, the program is on the right track to achieve the goal of stopping transmission in Afghanistan.

## AFGHANISTAN - KEY ISSUES AND RISKS

**Risk of ongoing transmission in the Southern & Eastern regions due to access and security**  
**Ongoing ban on house to house campaign in South region and risk of further spread**  
**Increasing inaccessibility in Eastern region**  
**Deteriorating security situation creating an environment of fear among front line workers/monitors and program staff which negatively affects quality**  
**Inability to implement interventions to improve quality leading to ongoing missed children**  
**Ban on house marking, house-to-house tally sheet and full time social mobilization in some areas**  
**Challenges in getting females front line workers particularly in high risk areas**  
**Limitation in full implementation of accountability framework**  
**Clusters of chronically missed children due to refusals**  
**On-going transmission in the northern and southern corridors which constitute a common epidemiological block along with Pakistan due to frequent population movement and spread of transmission across the border.**  
**Upcoming parliamentary elections in October and possible impact on the program**

# CHALLENGES & NEXT STEPS TO ADDRESSING THE RISKS

## Challenges/Risks

## Progress/ Achievements

## Next Steps

Orphan viruses in East region: ongoing undetected transmission in Northern corridor

Northern corridor plan established & tracked with Pakistan

1) Implement Northern Corridor Plan; 2) cluster specific approach to tracking missed children; 3) special focus on High Risk Mobile Populations 4) strengthening surveillance

Risk of continued transmission in the southern region & spread to other regions due to inaccessibility; Recent ban in large parts of south- allowing only mosque to mosque campaigns

Ongoing dialogue at multiple levels to gain access; expansion of polio+ in the South; Southern Corridor being tracked with Pakistan – cluster specific approach to access, vaccine acceptance & high risk mobile populations; Expansion of complementary vaccination

1) Continued dialogue with multiple stakeholders, with no compromise on house-to-house campaigns; 2) Further expansion of complementary vaccination activities, including transit teams; 3) Additional campaign when there is a window of opportunity; 4) Tracking of Southern Corridor Plan

Ability to undertake quality campaigns in areas with access limitations

Deployment of appropriate monitors to oversee campaign; expansion of remote monitoring to triangulate quality;

Continued dialogue with all parties to allow program basics, including implementation of revised microplan where feasible

Chronically missed children (due to refusal, access, quality)

Cluster approaches implemented as part of Northern/Southern corridor action plans; improvement in quality in some areas

The trends & reasons for missed children, along with the methodology and impact of interventions should be tracked over time in both fully accessible and access compromised areas.

Sub-optimal quality in accessible areas

Establishment of Frontline worker selection committees; implementation of accountability framework; efforts to focus on improving training quality and intra-campaign monitors

Further implement NEAP activities aimed at improving quality – house-based microplanning; triangulation of data;

## AFGHANISTAN- REQUESTS TO THE POB

- **Continue to ensure adequate & timely resources to fully implement the NEAP and support fund raising for important complementary vaccination activities that are not core FRR (health outreach, nutrition, WASH, etc. as required) Advocacy with the Government: Call from Bill Gates to President Ghani stressing the need to sustain efforts; to refrain from making drastic changes in program implementation approaches; or to penalize when new cases are identified; reiterate that polio should remain a priority following upcoming elections in October Urgent advocacy to gain house-to-house access for quality SIAs in areas where restrictions on immunization activity are being imposed. The TAG requested all stakeholders at global & country level to explore all options for facilitating house to house access.**

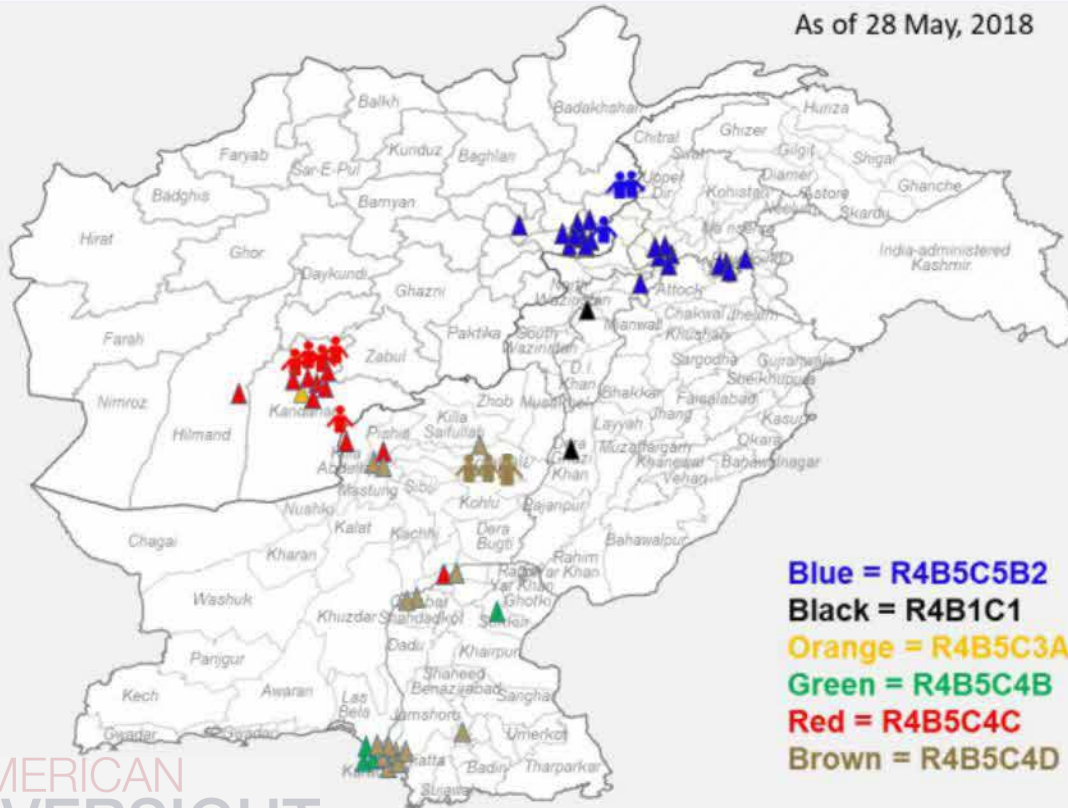

## Pakistan

# PAKISTAN SUMMARY OF CURRENT STATUS

## WPV1 CASES & ES+, BY CLUSTER, PAKISTAN & AFGHANISTAN 2018

As of 28 May, 2018

Blue = R4B5C5B2  
 Black = R4B1C1  
 Orange = R4B5C3A  
 Green = R4B5C4B  
 Red = R4B5C4C  
 Brown = R4B5C4D

2018 Cases Northern Corridor Nangarhar - R4B5C5B2, 1

February Shahwalikot

R4B5C4C, 27

April 2nd

Division Duki - R4B5C4D, 8

March Duki - R4B5C4D, 8

May Duki - R4B5C4D, 18

May

Highlighted WPV1 cases in 2018 compared to 3 as of the end of 2017. All WPV1 cases reported from Duki District, Balochistan. Most recent case had paralysis onset on 18 May 2018. Duki outbreak a priority. Transmission persists in the same region as shown by environmental surveillance, though ES+ are declining in Karachi and Quetta block. 13% of ES samples are positive for WPV compared to 17% in 2017. Karachi and Balochistan Southern Corridor still pose epidemiological risk and this risk extends beyond the corridors themselves.

## PAKISTAN KEY ISSUES AND RISKS

- Stopping poliovirus transmission in common corridors and Karachi. Stopping the WPV1 outbreak in Duki District Balochistan on a priority basis and responding immediately to any new outbreak outside core reservoirs  
Sustaining motivation and commitment to a long-running program and building upon prior gains in the face of multiple other national public health priorities  
Identifying and characterizing any population clusters not yet reached by immunization efforts  
Countering persistent resistance (both overt and covert) and addressing remaining gaps in SIA operational implementation which lead to insufficient immunity among geographically accessible populations  
Sustained transmission throughout the epidemiologic block of Pakistan-Afghanistan which requires highly coordinated efforts to halt both national spread and persistent cross border poliovirus transmission associated with highly mobile populations  
Strengthening systemic weaknesses in EPI throughout many parts of the country  
Sustaining government commitment at all levels after upcoming national elections

# CHALLENGES AND ACHIEVEMENTS SINCE JANUARY POB & NEXT STEPS

## Challenges

## Progress/ Achievements since last POB

## Next Steps

Persistent transmission in Quetta Block (especially Killa Abdullah) and Karachi

- Significant programmatic improvement following establishment Incident Management Committee (IMC) instituted in PEOC and enhanced oversight in Killa Abdullah; Gulistan Action Plan developed including Jirgas, long term deployment of some key staff, more female involvement etc Rollout of Special Mobile Strategy in 89 UCs of Karachi that were covered by mobile team from Jan-May 2018. CBV conversion in these 89 UCs from July Karachi Communication strategy developed with "bottom up approach" Communication Consultation and Focus Group Discussions in Karachi and Quetta

- Sustain progress in Quetta block Cluster and still missed children analyses should be overlaid with a social analysis Evaluate recent communication interventions to determine their impact on direct refusal and misconceptions Conduct an in-depth analysis on operational challenges in SIAs from Area-In-Charge level up in key high risk areas in Karachi and develop an action Ensure a smooth transition to CBV/CHW across all UCs in Karachi

Missed populations particularly in the northern corridor between eastern Afghanistan and Khyber-Peshawar, Islamabad/Rawalpindi block.

- Northern corridor action plan developed and implemented Abu Dhabi cross border meeting with Pak-Afghanistan held on 29-30 March 2018 for effective coordination and campaign synchronization. Communication consultation and Focus Group Discussions

- Fully implement and jointly track Northern and Southern Corridor action plans Coordinate Pakistan and Afghanistan programme activities (geographical mapping, social analysis of risk groups, intervention design, communication/media, and impact evaluation)

Programmatic challenges (poor SIA quality, security compromised areas) along the South FATA, South KP and South Punjab corridor

- Developed Central Pakistan Coordination concept and unit in RY Khan Special campaigns with support of Law Enforcement Agencies in Shaktoi belt, SWA and Bajour Programmatic and surveillance review in South KP and development of Central Corridor Action Plan Establishment of ES in SWA and Bajour in April 2018

- Develop Central Pakistan coordination plan Continue UC level analysis for missed children in the most problematic areas including Rawalpindi and South Punjab Continue program analysis on vacated, bordering, and security challenged areas to identify and reach any potentially missed populations

National elections in 2018

- Health Secretary sent note to Chief Secretaries focusing on the importance of the continued momentum of activities Follow-up communication from the Secretary to Prime Minister Risk of election on polio program included in talking points with GoP BMGF telephone call with Chief of Army staff on 7th June - complete

- Advocacy with new caretaker government by partners (e.g. RD EMRO, POB, BMGF)

Continued slow administrative action on program requests

- Visa issues generally resolved Delays continue receiving NOCs (with a maximum duration of 1 months duration each when received).

- NEOC to follow-up with GoP to ensure timely issuance of blanket NOCs for Baluchistan, FATA, and KP so GPEI partners can deploy staff in key high risk areas.

## PAKISTAN - REQUESTS TO THE POB

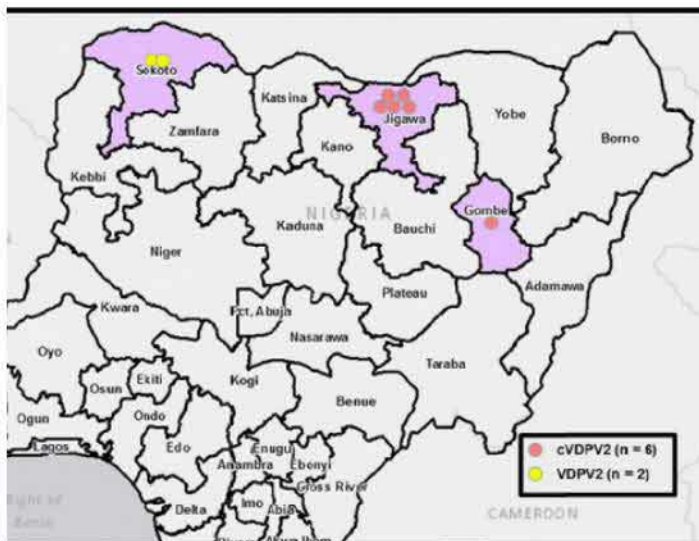

- Advocacy with caretaker government to ensure that polio eradication remains a priority during political transition. Blanket No Objection Certificates for international staff to visit security-sensitive areas of Balochistan, FATA and KP Approval of 2019/21 PCI (i.e. Multi Year Budget) Advocacy with GoP and donors to continue ensuring adequate resources to fully implement the TAG approved SIA calendar and strategies in NEAP 2018/19

## Nigeria

# NIGERIA – CURRENT STATUS

No WPV circulation detected in almost two years; Nigeria currently responding aggressively to VDPV2 circulation in three states – Jigawa, Gombe and Sokoto. OPV2 used more extensively in Nigeria than any other country in the world; has maintained high population immunity against Type 2 but insufficient to prevent circulation. Routine immunization at disastrous levels in all three states – well below 20%. These outbreaks are manageable; country program has good oversight and high coverage; management of mOPV2 vaccine supply has improved.

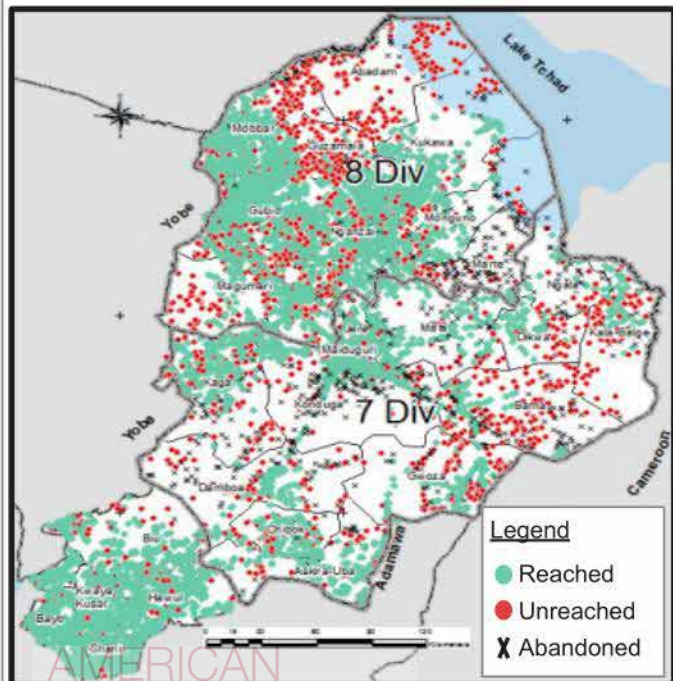

## 2018 ES VDPV2/cVDPV2 in Nigeria

EPID	Type	State	Site name
ENW-NE-IS-HIA-GGD-18-004	cVDPV2	Jigawa	GARIYO
ENW-NE-IS-HIA-MLG-18-006	cVDPV2	Jigawa	MAI LC

# KEY RISK: SOME 104K CHILDREN REMAIN UNREACHED IN BORNO

Coverage map showing vaccination reach in Borno as at April 2018

Breakdown of vaccination reach in Borno state as at April 2018 (Number of settlements)

$N = 20,343$

Reached settlements  
Unreached settlements

- So far over 340,000 children have been reached by the RES/RIC intervention but; An estimated 104,000 children yet to be vaccinated remain trapped in ~5,000+ unreached settlements

- As at August 2016, the insurgency in Borno prevented over 600,000 children across over 10,000 communities from being reached with OPV Today, that number is about 104,000 children, thanks to the innovation from NPHCDA, GPEI and the Borno state government through the Reach Every Settlement (RES) and Reach Inaccessible Children (RIC) RES was implemented in the partially accessible settlements using local security support and RIC was implemented in fully inaccessible settlements using special immunization teams

# CHALLENGES AND NEXT STEPS

CHALLENGES	PROGRESS/ACHIEVEMENTS	NEXT STEPS
Access to fully inaccessible communities in Borno, mostly due to security challenges	Innovation from NPHCDA, GPEI and the Borno state government through the Reach Every Settlement (RES) and Reach Inaccessible Children (RIC) has led to a reduction of children not being reached with OPV from 600,000 to 104,000	Continued negotiation and advocacy with military to reach inaccessible settlements with a focus on the islands in Lake Chad, Marte and Abadam; focus is on the brigade commander level; advocacy led by national government
Significant gaps across many wards for ward level AFP reporting; particularly Borno	Nigeria has continued to meet the Annualized NAFP and stool adequacy targets since 2014	Continue to deploy innovative approaches to reach the inaccessible communities with surveillance, e.g. engagement of community informants from security-compromised areas; WHO leading this work
Political commitment to polio eradication remains low across the country	Absolute decline in the involvement of Governors in polio; LGAs late/defaulting on their share to polio funding; federal government released its 2017 funding commitment in Q1 2018; increasingly difficult environment due to 2019 national elections	Targeted outreach to key governors and LGA chairmen by National EOC and Executive Director, NPHCDA; Aliko Dangote with Governor of Borno directly in June during state visit
Routine immunization across the north continues to be poor	Minimal improvement in the RI-LQAs performance since the baseline in 2017	Involving traditional structures in RI uptake in their communities – strategy being rolled out in northern states with Gates support

HHS-CDC-19-0276-A-000769

# NIGERIA - REQUESTS TO THE POB

## Key areas

## What needs to happen

1

### Borno access challenges

- Continued advocacy to ensure **>5,000 inaccessible settlements with children reached, especially Marte, Abadam and the islands; POB to send letter to Governor of Borno State encouraging urgent close of remaining gaps**

2

### Government leadership & participation

- Encourage Government of Nigeria to allocate N4 billion to polio in the 2018 budget; **POB to send letter to President Buhari on budget and request for 2<sup>nd</sup> quarter National Task Force meeting chaired by him personally**

# Transition Update to the Polio Oversight Board

Mike McGovern, TMG Chair

28 June, 2018

unicef

World Health  
Organization

BILL & MELINDA  
GATES foundation

# Post-certification Strategy

## Polio Eradication and Endgame Strategic Plan (PEESP)

- 1 Poliovirus detection & interruption
- 2 OPV2 withdrawal, IPV introduction, immunization system strengthening
- 3 Containment & global certification
- 4 Transition Planning
  - Mainstream polio-essential functions to sustain global eradication
  - Support country transition planning
  - Capture lessons learned

### Post-Certification Strategy (PCS)

**Purpose:** *Defines the technical standards for the polio-essential functions that will be needed to sustain a polio-free world.*

## PCS goals

	Description
1 <b>Contain Poliovirus Sources</b>	Ensure potential sources of poliovirus are properly controlled or removed
2 <b>Protect Populations</b>	Withdraw OPV from use and immunize populations with IPV
3 <b>Detect and Respond</b>	Promptly detect any poliovirus reintroduction and rapidly respond to prevent transmission

**Note:** Research & Development is included in the PCS as a cross-cutting enabling function

**PCS has been published and endorsed at the 71st World Health Assembly**

Links to English and translated versions are available on the [GPEI](#) website

# GPEI Partner Transition Update

## BMGF:

An internal BMGF leadership meeting was held in March 2018 to review the PCS and get input on the foundation's role post-certification. BMGF will continue to support and advocate for a successful implementation of the PCS functions and will plan its contribution to the PCS in collaboration with current and future partners.

## CDC:

CDC's Polio Transition Roadmap is undergoing cross-center clearance and is awaiting final approval by the Director. CDC remains committed to the successful implementation of the PCS, and will remain deeply involved in polio transition planning and implementation as one of the future owners.

## Rotary International:

Rotary has committed to advocate for the implementation of the polio post-certification strategy with a group of donor and at risk countries after certification of the eradication of polio. Rotary is finalizing the lessons learned in carrying out its PolioPlus program to be shared with other programmatic areas of the organization.

## UNICEF:

UNICEF's Polio Transition and Post-Certification Management Plan will have been shared with the agency's Deputy Executive Director for endorsement prior to the POB meeting. The Plan is a living document and will be updated periodically and as needed.

## WHO:

WHO's Strategic Action Plan was presented at the 71st World Health Assembly. The plan puts country ownership at its center and outlines how WHO will continue to provide support at the country level, with the goal to gradually transfer essential polio function costs into the core WHO budget.

# Transition Management Group Sunset

## RATIONALE:

- TMG mandate is completed: transition plans for 14 priority countries will be finalized by May 2018
- Current country planning activities will be transferred to WHO and UNICEF regional and country offices
- High-level approach and guidance needed at country level
- Secretariat provided support and guidance and will be needed in future activities and groups

## BACKGROUND:

- Decision to “sunset” TMG in June 2018 was communicated to WHO and UNICEF Regional Directors in December 2017
- Decision was endorsed by the Strategy Committee
- Decision to continue secretariat to support lessons learned projects and proposed high level advisory group of future owners

## For POB awareness:

### Country Planning Task Team:

1. Transfer of all activities to WHO and UNICEF
2. Partners and stakeholders will receive regular quarterly updates

### Lessons Learned Task Team:

3. Activities will continue and report directly to the SC (collection of Lessons Learned projects and the GPEI History Project)

# Transition Independent Monitoring Board (TIMB)

Sir Liam Donaldson, TIMB Chair, postponed the June meeting for the following reasons:

- Member state's position on polio transition is to be finalized after the WHA
- Polio transition is coming under “new ownership”, not yet fully defined, WHO management is not yet finalized
- WHO leadership may wish to consider how the TIMB fits into the new management structures

**Decision on future and direction of the TIMB is needed**

# Requests of the Polio Oversight Board

## Endorsement and guidance on the following:

1. Defining the future role and direction of the TIMB as a neutral and independent convening body
2. Need for high-level advocacy and technical support made up of core and expanded immunization partners and future owners that will support WHO and UNICEF activities in transition priority countries and PCS implementation
  - Ask the POB to advocate with future stakeholders and commit their agencies to the group
  - Ask for a firm commitment to hold an introductory meeting and define the terms of reference for the group

# Questions and Discussion

# CDC's Fight to End TB

Dr. Robert Redfield, Director, Centers for Disease Control and Prevention

Dr. Rebecca Martin, Director, Center for Global Health, CDC

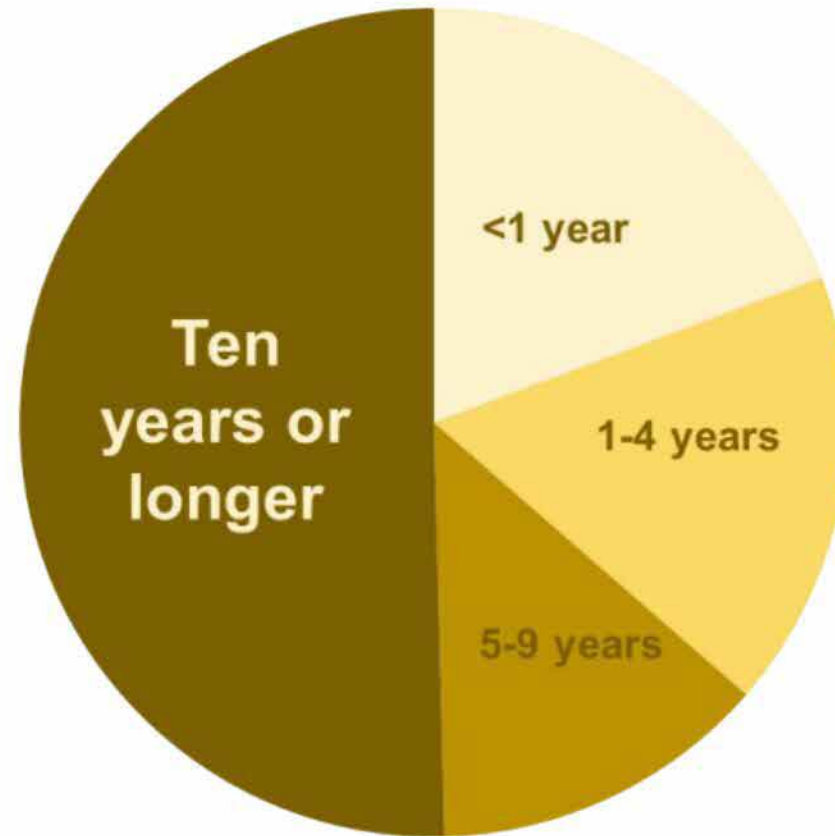

Dr. Jonathan Mermin, Director, National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention, CDC

# Progress in reducing TB in the United States is stalling

Up to 13 million Americans have latent TB infection (LTBI)

**About 81% of the non-U.S.—born people diagnosed with TB disease had been in the United States 1 year or longer and 50% for 10 years or longer**

# Drug resistance resulting from incomplete TB therapy is rare in the United States because almost all patients complete TB therapy

Approximately 1% of annual reported U.S. TB cases are multidrug-resistant.

\*Provisional data, as of February 12, 2018.

Note: Based on initial isolates from persons with no prior history of TB; multidrug resistant TB (MDR-TB) defined as resistance to at least isoniazid and rifampin.

A few cases per year may be extensively drug-resistant.

\* XDR-TB, extensively drug-resistant TB.

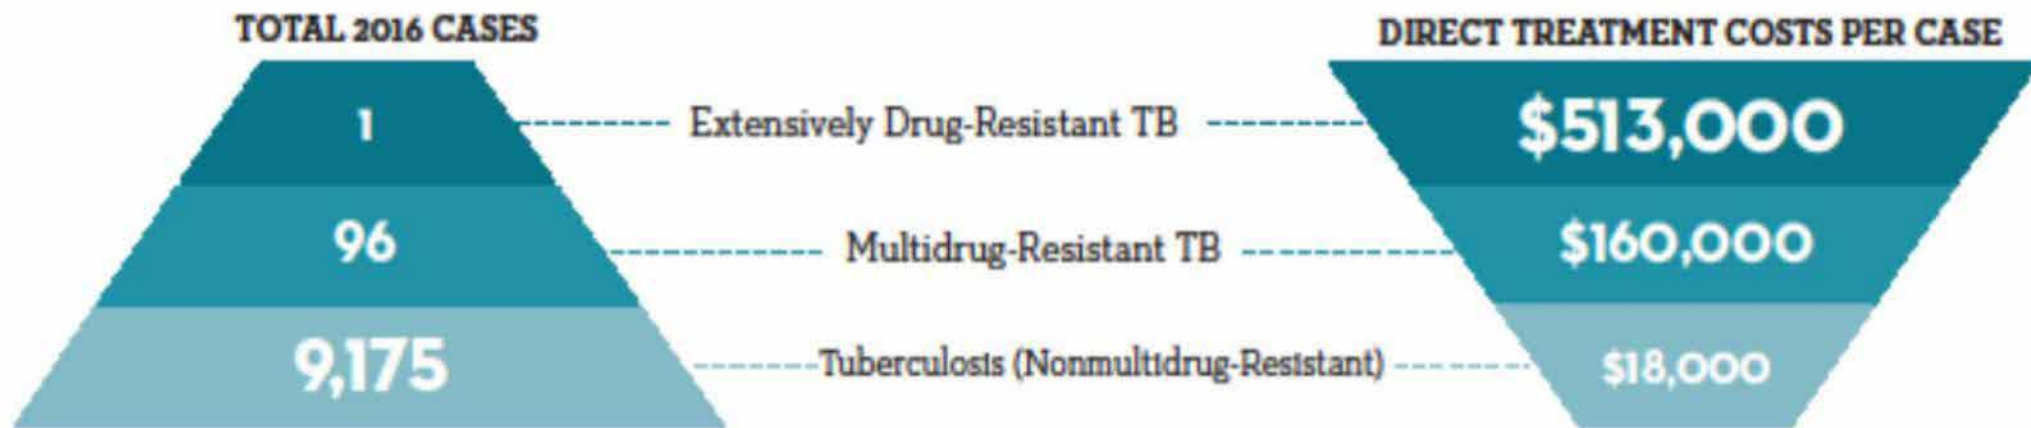

† DST, drug susceptibility test.

‡ Provisional data, as of February 12, 2018.

Note: XDR-TB is defined as resistance to isoniazid and rifampin, plus resistance to any fluoroquinolone and at least one of three injectable second-line anti-TB drugs.

# DRUG-RESISTANT TB IS COMPLEX & COSTLY.

Drug-resistance threatens our ability to treat & control TB.

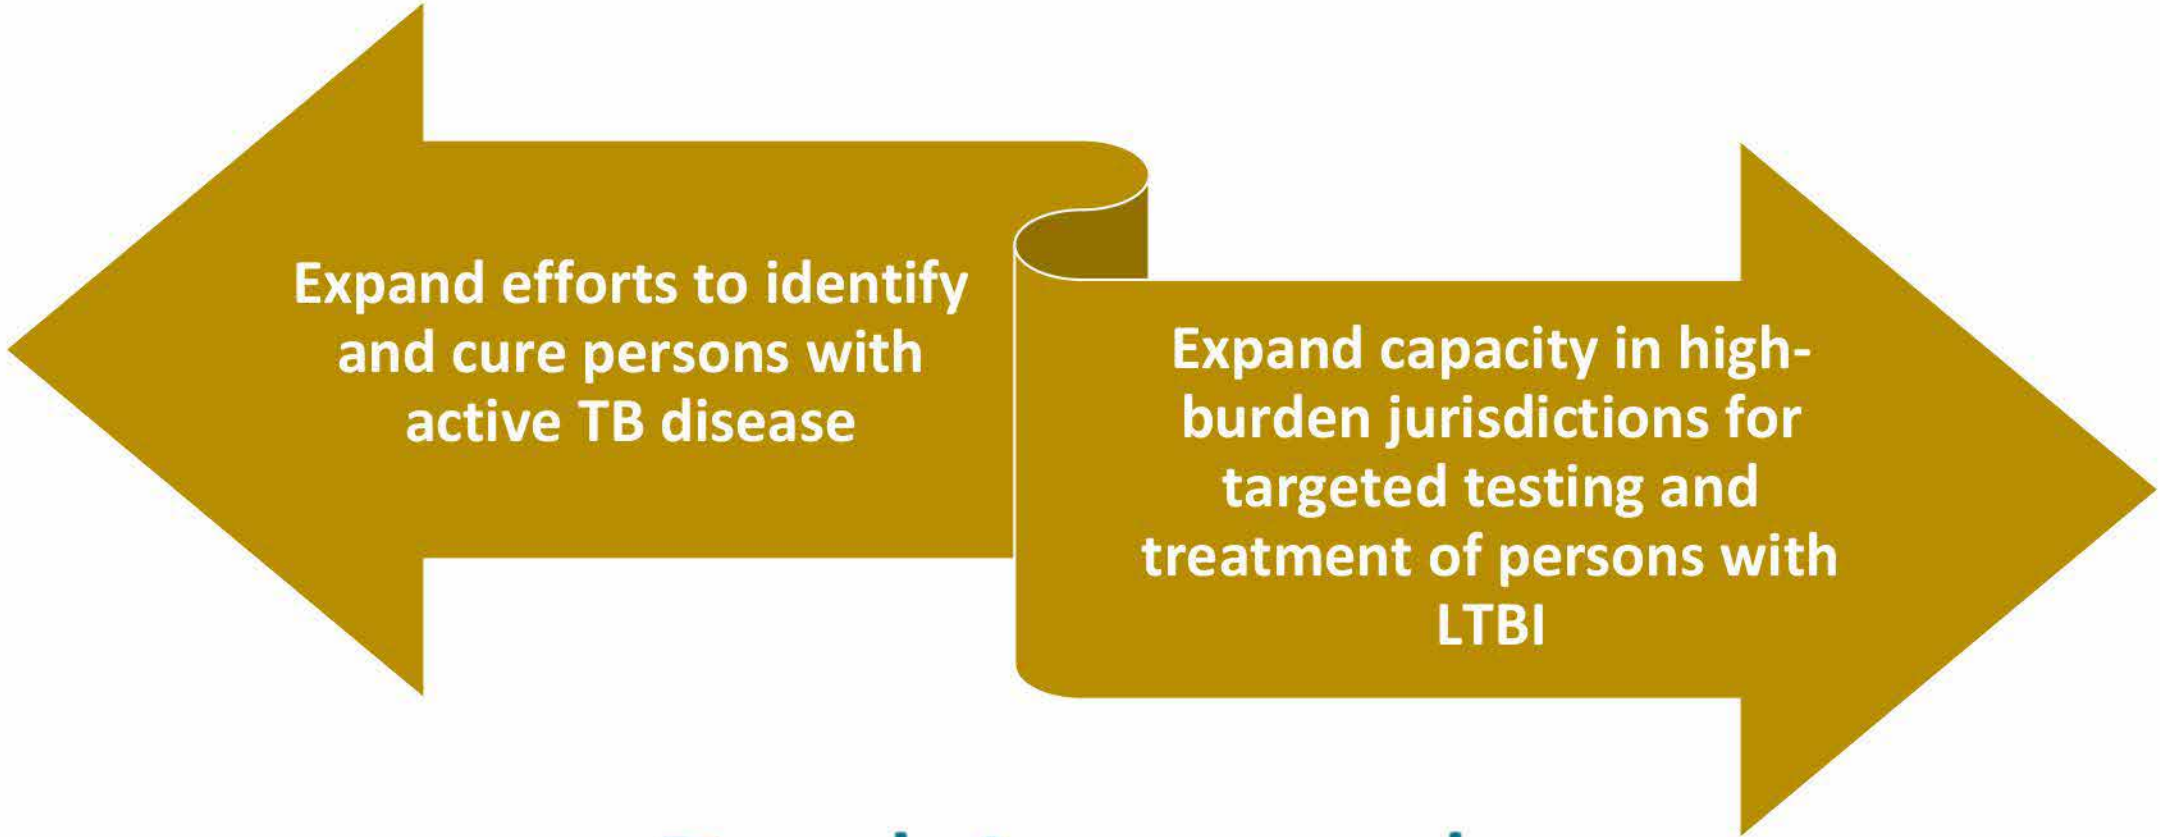

Testing and treatment for LTBI = \$600 - \$700 per patient

CDC Prevents the Development and Spread of Drug Resistance Supports state and TB programs that ensure treatment completion Provides rapid, molecular detection of drug resistance service for states Maintains a small stockpile of TB drugs to ensure that patient treatment will not be interrupted

# Eliminating TB in the United States is possible

Expand efforts to identify  
and cure persons with  
active TB disease

Expand capacity in high-  
burden jurisdictions for  
targeted testing and  
treatment of persons with  
LTBI

## Dual Approach

# Dual approach should focus on high burden states

- Fund TB programsSharpen surveillance and responseConduct research

- Find and treat TB diseaseDetect recent transmission through whole genome sequencingShorter regimens

**Curtail recently transmitted TB disease**

**Accelerate screening and treatment for latent TB infection**

**Expand targeted LTBI testing and treatmentIGRA3HP/4R**

- Outreach to & engagement with affected communitiesPartner with primary care providers who serve affected communities

# CDC's Regulatory Authority

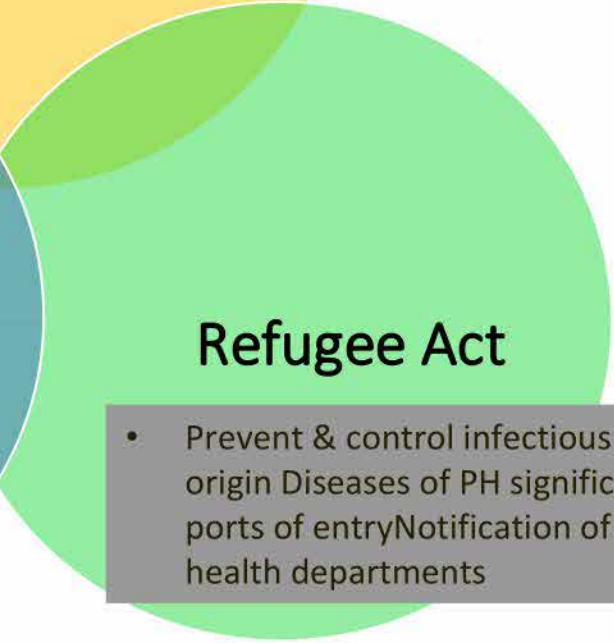

Immigration &  
Nationality Act

- International & interstate movement of people, animals, & cargo  
Prevents importation & spread of communicable diseases

- Required medical exam  
Defines inadmissible medical conditions (e.g. TB, STIs, harmful behavior, drug abuse)  
Vaccines required for immigrants

Public Health  
Service Act

Refugee Act

- Prevent & control infectious diseases at origin  
Diseases of PH significance  
Meet at ports of entry  
Notification of state/local health departments

# United States Panel Sites

354 Sites in 159 Countries

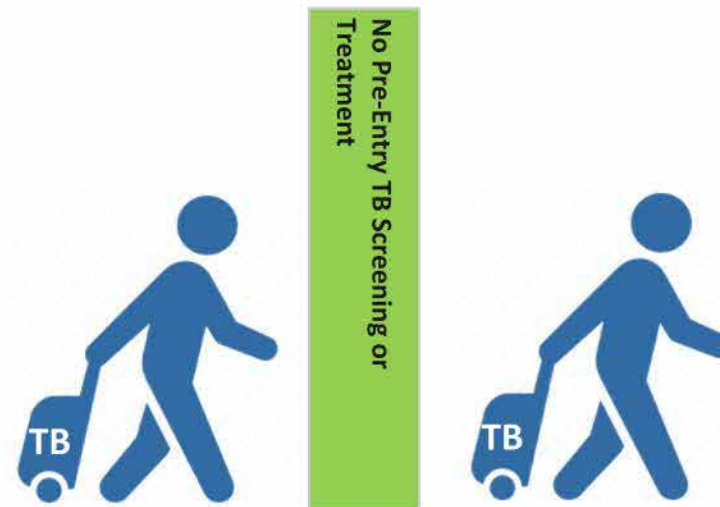

# Non-immigrant Visa (NIV) Applicant Medical Screening Initiative

- Addressing importation of TB is a critical part of controlling AMRCDC is working closely with Department of State to implement Proposes screening approximately 1.2 million NIVs in 45 countries that contribute to foreign-born TB in the United States or are a World Health Organization high-burden country

**Currently screened Over 1 million immigrants and refugees are screened annually**

**No routine screening About 10 million NIVs do not receive medical screening currently**

Tuberculosis is the **world's top infectious disease killer**, CLAIMING **1.8 MILLION LIVES** EACH YEAR

TB IS AMONG THE GREATEST HEALTH THREATS WORLDWIDE

**1 IN 4 PEOPLE**

worldwide is infected with latent TB

**NEARLY 10.4 MILLION**

people become ill with the disease each year

**TB ANYWHERE IS TB EVERYWHERE.**

It spreads from person to person and can move across borders

WHAT IS DRIVING THE CONTINUED SPREAD OF TB?

**Missed TB**

More than 40% of all TB cases go undetected or unreported

**Weak Health Care Systems**

Patients are not being treated effectively, which contributes to the growing threat of drug-resistant TB

**TB/HIV Co-Infection**

TB is the top killer of people living with HIV, whose weakened immune systems make them more susceptible to becoming ill with TB

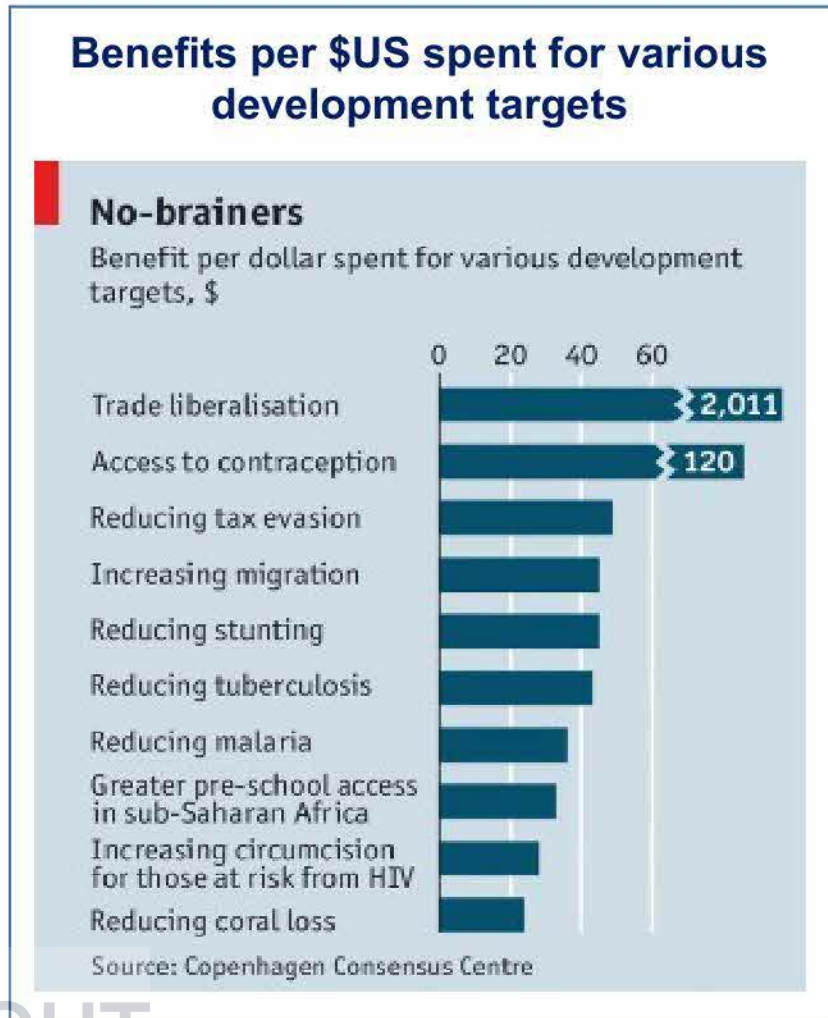

**Multidrug-Resistant TB**

Multidrug-resistant TB is now found in every country in the world, with 480,000 new cases and more than 200,000 deaths each year

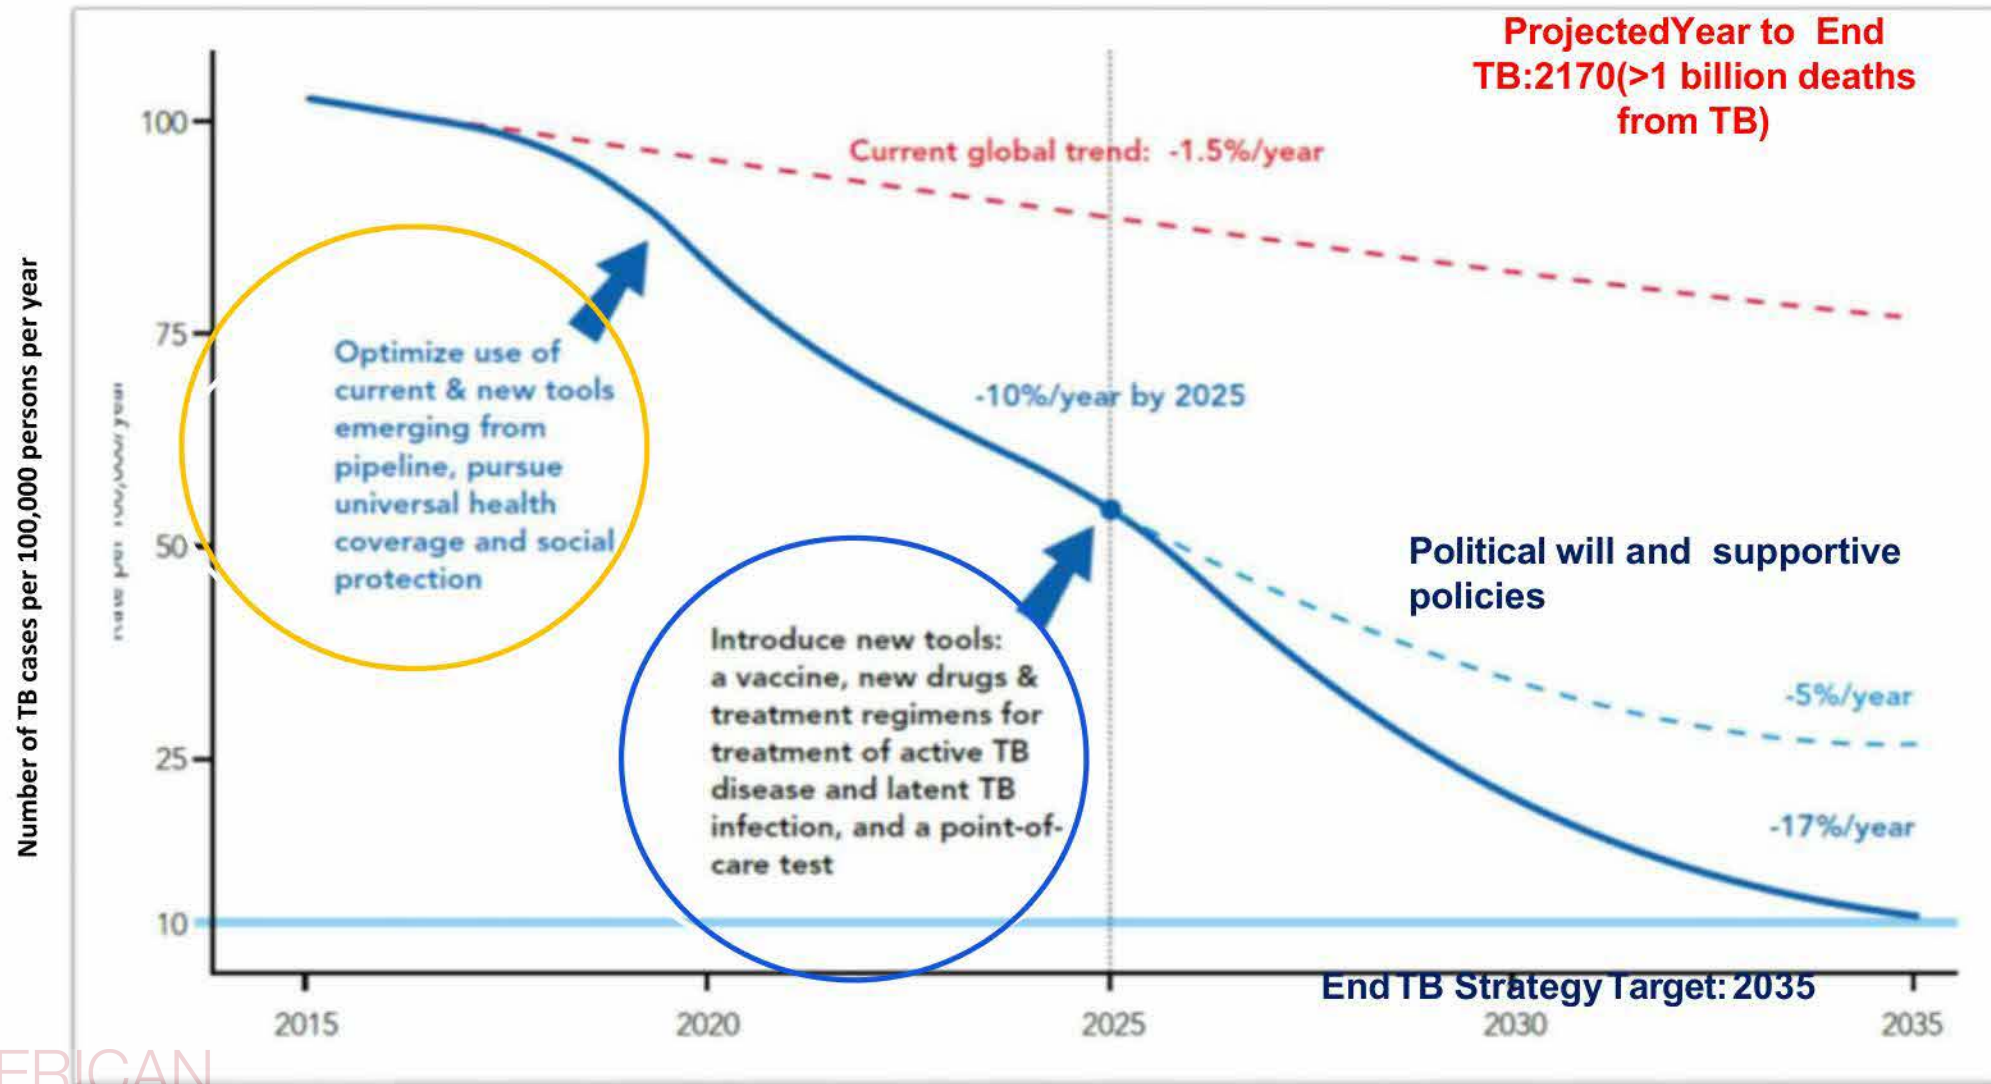

Key Challenge: Inadequate investment in new tools, technologies, and approaches 1.8M TB deaths/year = 4658 deaths/day = 194 deaths/hour = >3 deaths/min

# Why Invest in TB?

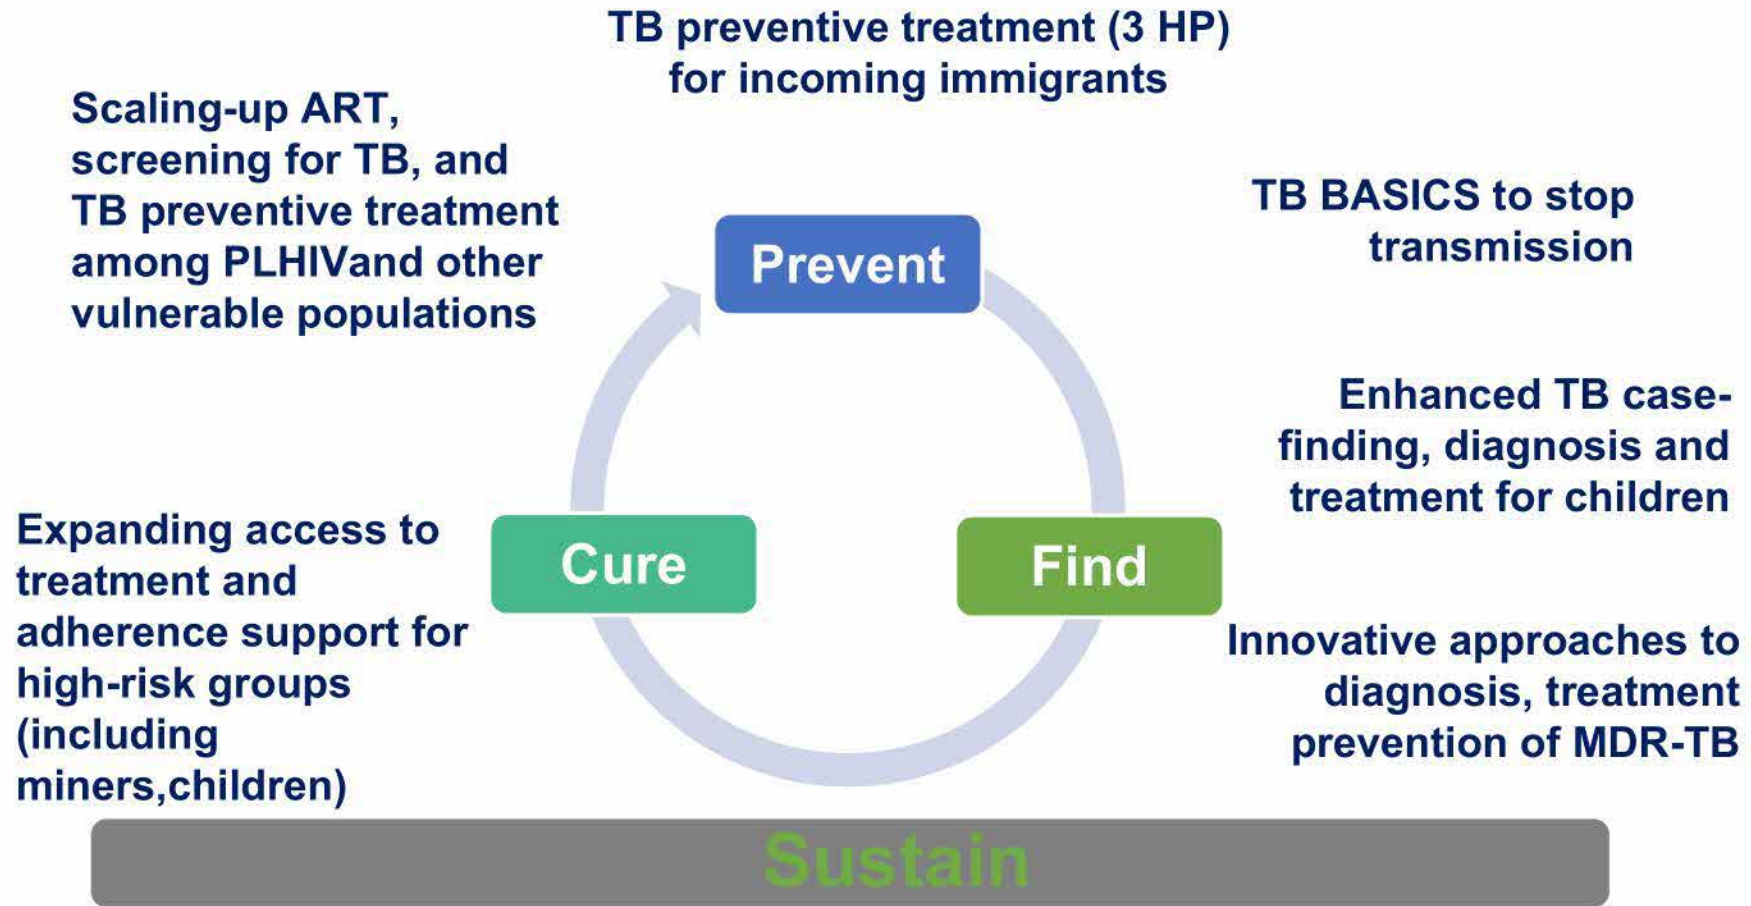

An Expert panel including Nobel Laureates identified 19 Sustainable Development Goal (SDG) Targets with the best value for money for 2016-2030. Focus on these would quadruple impact of aid budget without extra spending. Reducing TB deaths by 95% would result in a \$43 gain in environmental, economic & social benefits per \$1 spent. 84% of TB funding already comes from government's of affected countries, but there remains a \$2B shortfall to reach global targets.

# Accelerate Impact to End TB & MDR TB by 2035: Scale-up What Works & Invest in Innovations

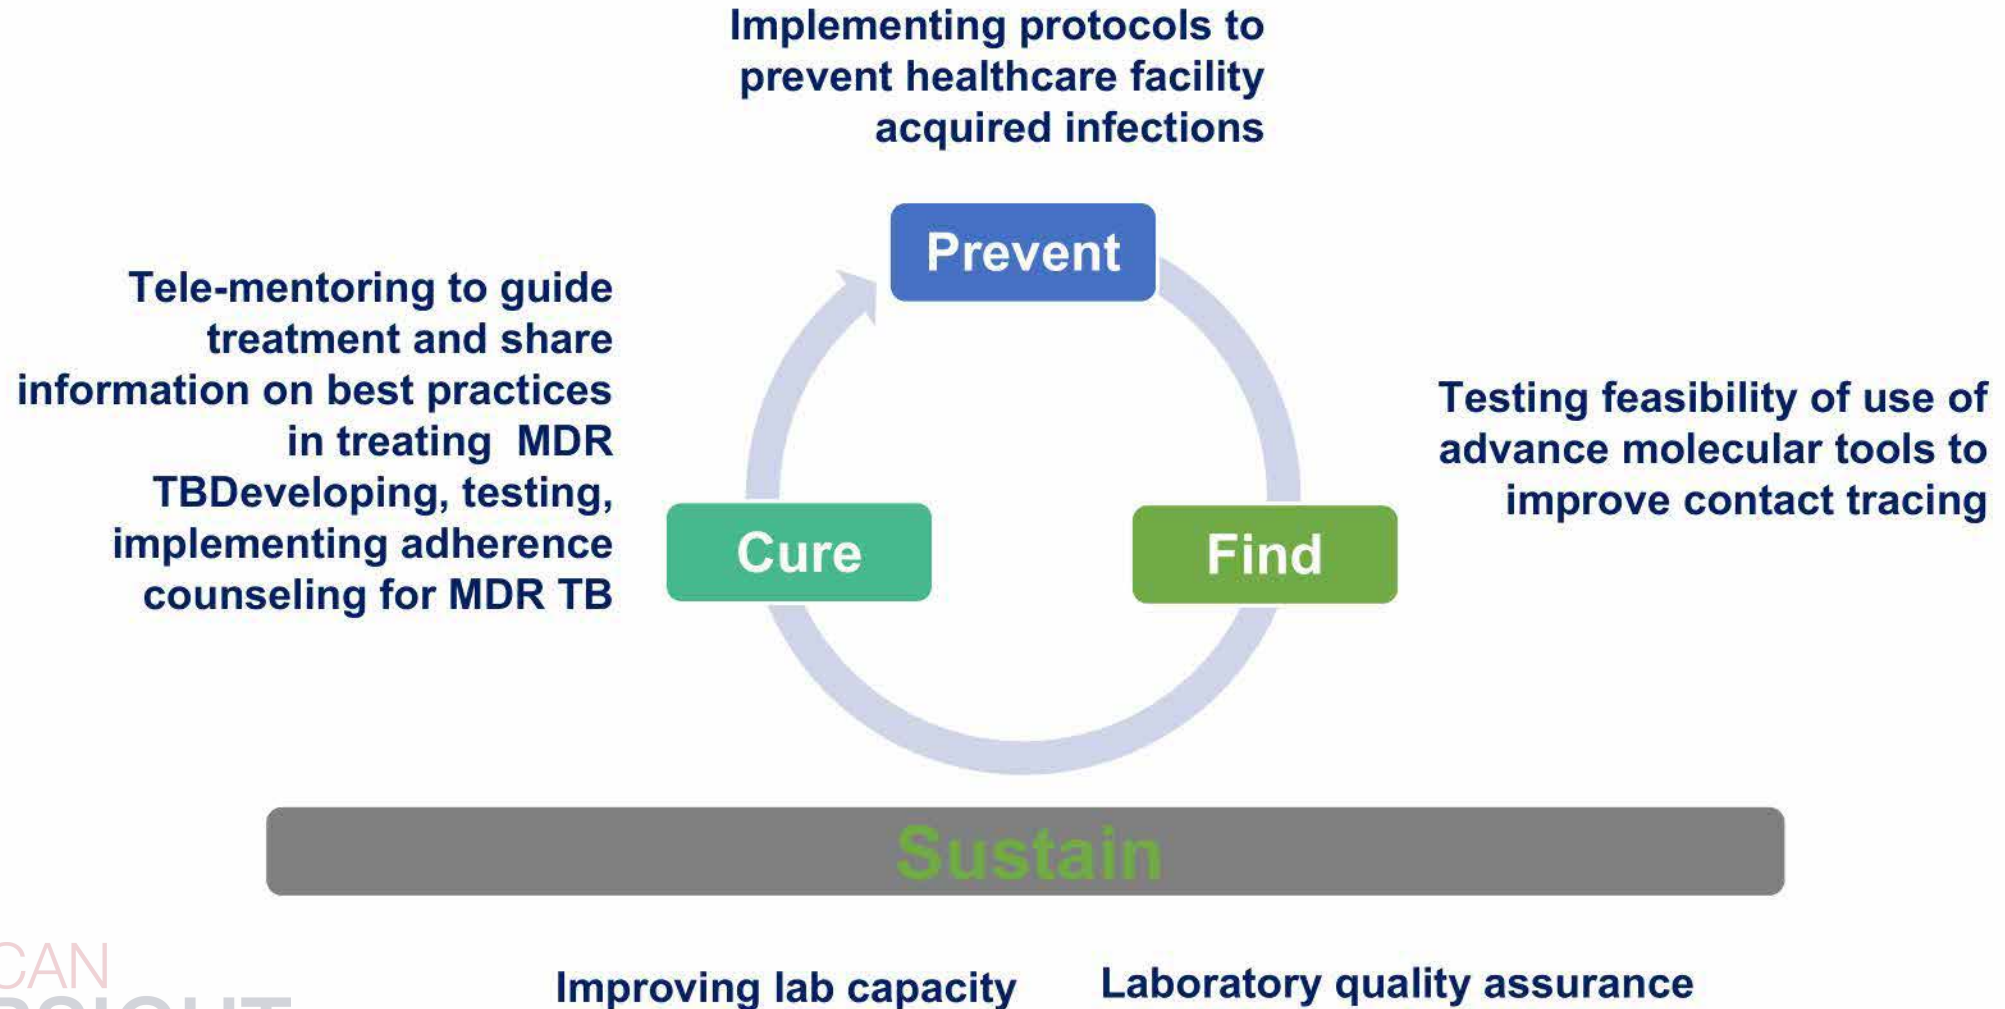

# CDC's Global TB Efforts Innovations for Impact

# Model TB Project: India

# TB Preventive Therapy Scale-up Through PEPFAR

**By the end of 2019, PEPFAR is planning to scale up TPT for people living with HIV 3.5X over 2016**

# Bridging CDC's Domestic & Global Mandates: Domestic Returns from Investment in Global TB Control

## CDC Global TB Focus Countries

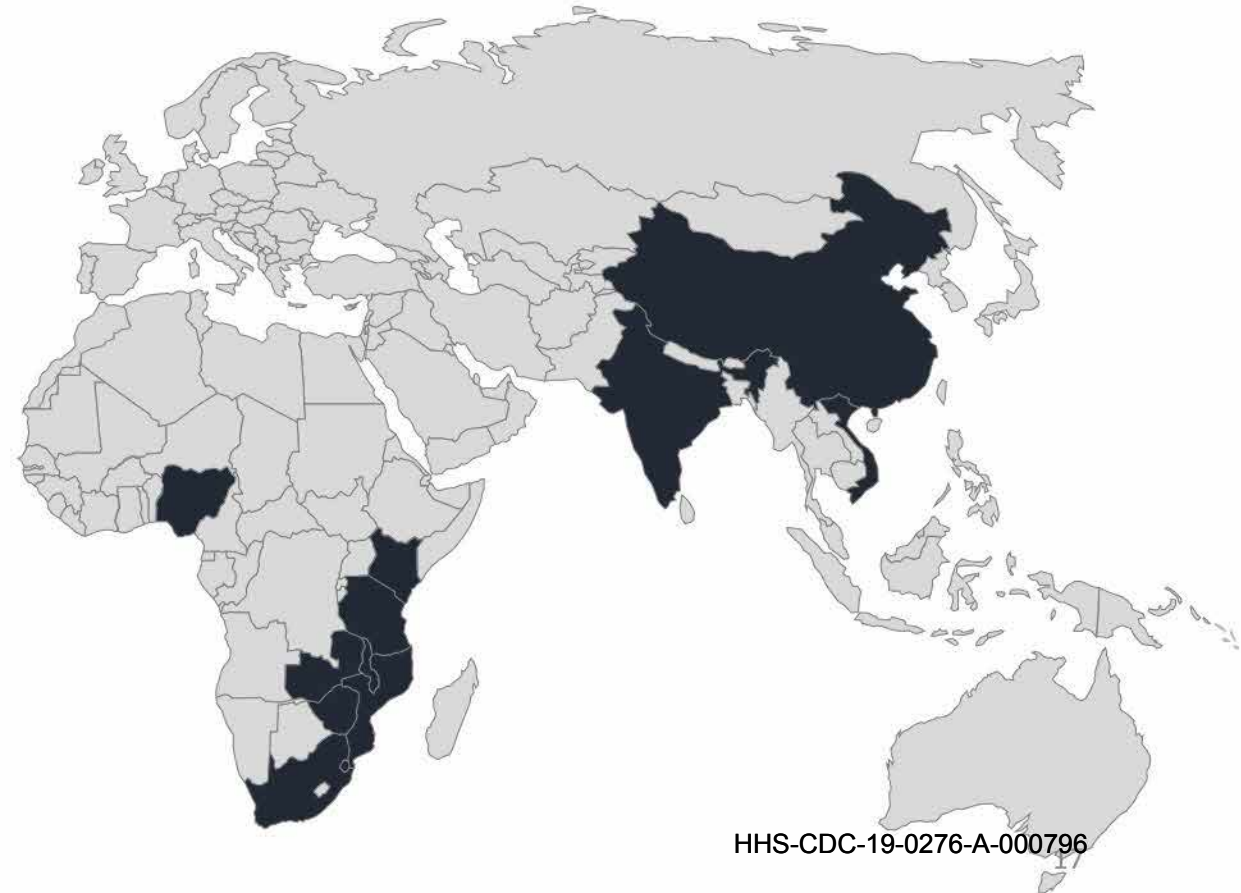

THE NEW ENGLAND JOURNAL OF MEDICINE

SPECIAL ARTICLE

### Domestic Returns from Investment in the Control of Tuberculosis in Other Countries

Kevin Schwartzman, M.D., M.P.H., Olivia Oxlade, M.Sc.,  
R. Graham Barr, M.D., Dr.P.H., Franque Grimard, Ph.D., Ivelisse Acosta, M.D.,  
Jeannette Baez, M.D., Elizabeth Ferreira, M.D., Ricardo Elías Melgen, M.D.,  
Willy Morose, M.D., Arturo Cruz Salgado, D.D., M.P.H., Vary Jacquet, M.D.,  
Susan Maloney, M.D., Kayla Laserson, Sc.D., Ariel Pablos Mendez, M.D., M.P.H.,  
and Dick Menzies, M.D.

Coupled with a strong domestic program, strengthening TB control programs abroad (in conjunction with overseas screening) has a greater ROI than overseas screening and follow-up and treatment of cases in the US

# CDC's Global TB Efforts

## Current Resources

**\$12 Million in Global TB Funding**  
**\$7.2M in LHHS appropriations for U.S. TB prevention allocated to CDC's global activities**  
**\$4.8M for projects funded by GHSA, CARB, and through the USAID IAA**  
**\$69.4 Million in FY 2017 PEPFAR Country Operational Plans for TB**  
**5% of CDC PEPFAR funding and 1% of all USG PEPFAR funding**

# Looking Ahead to UN General Assembly

**Sept. 26- UN High-level meeting on TBBuilds on 2017 Ministerial Conference and 2018 WHA Opportunity to show U.S. leadership to shape outcomes**

## Pre-Brief for Meeting with Secretary Azar on TB

### Agenda

1. **Introductions**
2. **Follow-Up Questions from Dr. Redfield**
3. **Review Run of Show** – Rebecca Martin/Ashley Knotts

#### **Draft Run of Show**

- Introductions and Overview of Upcoming TB Events (OGA: 2 min)
- Domestic TB epidemiology and programs (CDC: 11 min)
- Domestic and Global TB (FDA: 4 min)
- Global TB Research (NIH: 11 min)
- Global TB epi and programs (CDC: 11 min)
- Q&A (6 min)

4. **Discuss Presentation Format** – All

**Subject:** RE: Media interview for Friday

Hi Teresa,

Betsy has confirmed the June 18<sup>th</sup> interview, so let's proceed with prep from 5 to 5:30 pm, and the interview from 5:30 to 6 pm. Please also keep the hold on June 28<sup>th</sup> as time for a possible interview with another reporter/outlet – and we'll circle back on that as details are finalized.  
FYI: I'm on leave next week, but Michelle and Kathy will follow up with any needed updates regarding the interview.

Thanks for all your help on this today!  
Kate

**Subject:** Media interview for Friday

Hi Scott,

Thanks for talking through Dr. Redfield's availability for an interview on Friday. I talked with folks here, and they are working with the reporter on her availability from 9:30-10:00am. Can we please put a hold on his calendar for 9:30-10:00, media interview? We will confirm as soon as possible.

Additionally, has the Sepsis pre-brief by chance moved?

Thanks so much!  
Delaney

## SBC PREP MEETING #2

June 7, 2018

### Agenda

#### Content Review

- Review each initiative
- Identify information gaps
- Confirm critical messages

#### PowerPoint Review

#### Action items

### Timeline for Prep:

Date	Activity
May – June	Gather prep materials from CIOs and draft PPT
May 25	Package submitted to HHS with follow up Q&A over next few weeks
June 5	Dr. Redfield SBC Prep Meeting #1 (discuss logistics and initiatives)
June 7	Dr. Redfield SBC Prep Meeting #2 (discuss initiatives and PPT)
June 6 – 20	Dr. Redfield meets with or calls all “impacted” OpDiv heads to discuss initiatives
June 6 – 15	Gather additional prep materials and update PPT
June 15	Dr. Redfield SBC Prep Meeting #3 (discuss initiatives and finalize PPT)
June 15	PPT, names, and titles of attendees due to HHS
June 20	Dr. Redfield SBC Prep Meeting #4 (if needed)
June 21	SBC in DC

# AGENDA FOR SBC PREP MEETING #1

June 5, 2018

## Introductions

### Review Logistics (see pages 2-3)

- What to expect for the SBC
- Major steps between today and June 21

### Content Review

- Review each initiative
- Identify information gaps
- Confirm critical messages

### Action items

## Timeline for Prep:

Date	Activity
May – June	Gather prep materials from CIOs and draft PPT
May 25	Package submitted to HHS with follow up Q&A over next few weeks
June 5	Dr. Redfield SBC Prep Meeting #1 (discuss logistics and initiatives)
June 6 – 20	Dr. Redfield meets with or calls all “impacted” OpDiv heads to discuss initiatives
June 6 – 15	Gather additional prep materials and update PPT
June 15	Dr. Redfield SBC Prep Meeting #2 (discuss initiatives and finalize PPT)
June 15	PPT, names, and titles of attendees due to HHS
June 20	Dr. Redfield SBC Prep Meeting #3 (if needed)
June 21	SBC in DC

## Meeting Logistics and Guidance from HHS

### *Structure*

- There will be one discretionary SBC meeting for each OpDiv, as well as ASFR. These meetings will be one hour in length.
- The SBC meetings will be held in the Humphrey Building.
- Please note that we are not able to accommodate a remote call-in line for the meetings.

### *Presentation*

- Up to thirty minutes of the hour-long meeting will be available for your OpDiv/StaffDiv presentation.
- We ask that you complete a PowerPoint presentation for use in the meeting, and send ASFR (both myself and your program analyst) the slide deck **no later than five business days prior to your SBC meeting.**
- The slide deck should discuss the key changes proposed at each funding level for FY 2020, as well as budgetary A-19 legislative proposals.
- There are no limits on the number of slides you may bring, but please be mindful of time.

## *Attendance*

- OpDiv/StaffDiv attendance is limited to 5 attendees total, including up to 3 seated at the table.
- Please email the names and titles of attendees to me **no later than five business days before the SBC meeting**. Please indicate which attendees should be seated at the table, as we will need to prepare name tents in advance of the meeting.

***HHS Leaders and Staff invited to CDC's SBC:*** Hargan, Eric (OS/IOS);Brady, Will (HHS/IOS);Keckler, Charles (HHS/IOS);Urbanowicz, Peter (HHS/IOS);Harrison, Brian (HHS/IOS);Moughalian, Jen (HHS/ASFR);Destro, Brenda (HHS/ASPE);Lapinski, Mary-Sumpter (HHS/IOS);Stannard, Paula (HHS/IOS);Wynne, Maggie (HHS/IOS);Caliguri, Laura (HHS/IOS);O'Brien, John (HHS/ASPE);Charrow, Robert (HHS/OGC);Bassett, Matthew (HHS/ASL);Arbes, Sarah (HHS/ASL);Best, Daniel (HHS/IOS);Giroir, Brett (HHS/OASH);Parker, Jim (HHS/IOS);Agnew, Ann (HHS/IOS);Cochran, Norris (HHS/ASFR);O'Keefe, Erin (HHS\ASFR);Bailey, Katherine (OS/ASFR);Pence, Laura (HHS/IOS); Callahan, Kenneth (HHS/IOS);Moreno, Rafael (OS/ASA/IOS);Coughlin, Janis (HHS/ASFR);Cabezas, Miriam (HHS/ASFR);Curtis, Jillian (HHS/ASFR);Willis, Mollie (HHS/ASFR);

Hi Tracie and Marsha,

In our 1x1 today, Kyle agreed that we need a little time with Dr. Redfield before he goes to the CDC Foundation Board dinner and meeting May 8-9. Will you please find us a 30 minute window for a pre-brief? We may not need that whole time either.

Diana

**Importance:** High

Event Name: **Required Secretarial briefing: HHS Principals' Opioids Steering Committee Retreat**

Date: April 9, 2018

Location: Humphrey Building, Room 800

Time: 8:30 – 4:00  
[Principals' Commitment: 9:00 – 1:15 – Meeting starts at 9am]

**Reason:**

The purpose of the Principals' Retreat is to convene an all-day meeting of top HHS leadership to develop a set of proposals to further HHS work to address the opioids epidemic and to help foster collaboration among the OpDivs and StaffDivs on the topic. A formal invitation for this working meeting of Principals will soon follow. Please be on the lookout for this formal invitation which will describe the subject matter expertise we are requesting for this meeting. At a minimum, we are requesting you, the Principals, commit to personally being there from 9:00 – 1:15. The Secretary is planning on attending from 12:00-1:15.

**CDC Media Contact (if applicable):** TBD

## 2. Event Information:

**Event Host:** PolioPlus, Rotary International

**Purpose of Event:** Rotary International has had the privilege of working side by side with the CDC as a core partner of the Global Polio Eradication Initiative (GPEI) since 1988. Together, we have nearly eliminated this disease. with your continued leadership and the ongoing commitment and scientific expertise of CDC's incredible staff, Rotary International is confident we will soon achieve the goal of a polio free world.

In light of the critical role CDC plays as a spearheading partner of the Global Polio Eradication Initiative, Rotary International would like to give you the opportunity to make brief remarks highlighting progress toward global polio eradication and the leadership role of

the CDC therein. CDC's work on the technological and programmatic innovations that contributed to addressing the transmission of polio in Nigeria, progress in the Afghanistan/Pakistan epidemiologic block; the critical role of the STOP and NSTOP programs, and the importance of ensuring that the US investment in the polio infrastructure is translated to benefit global public health after polio eradication would be of particular interest to this key group of Congressional leaders.

**Agenda (if applicable):** see attached.

**Number of Attendees and Composition:** TBD

**Key Participants (if applicable):** Rotary will be recognizing Rep. Dan Donovan (R-NY), Rep. Gwen Moore (D-WI), Rep. Mark Pocan (D-WI), and Rep. Tom Rooney (R-FL) as the 2018 Champions of Polio Eradication. Congressional Champions of prior years will also be recognized at the event.

**Bios:** TBD

**Source Invitation:** Yes on the 4/2/18 DL

**3. Dr. Redfield's Speech Information or Talking Points (TPs):**

**Dr. Redfield's Remarks/Presentation/TPs:** TBD

**Proposed Role and Topic:** Participate as an honored guest at the annual Rotary International reception honoring Congressional Champions of Polio Eradication to recognize key members of Congress for their leadership in the global polio eradication effort.

**Length of Presentation:** TBD

**Press:** TBD

**Teleprompter:** TBD

**4. Supporting/Logistics Materials: Entry Instructions -**

You will enter [The United States Capitol Building](#) via the NORTH DOOR, located on the ground level/first floor on the Senate side of the U.S. Capitol Building [facing Constitution Avenue and

the Russell Senate Office Building, and Union Station in the distance]. The North Door is located at the top of a walking ramp on the side of the U.S. Capitol Building.

You will be required to pass through a U.S. Capitol Police security screening building on the U.S. Capitol Plaza, prior to being permitted entry to The Capitol through the NORTH DOOR. Please advise U.S. Capitol Police personnel that you are a guest at the Rotary International Polio Eradication Champions Reception in Room S207, The Mansfield Room (2<sup>nd</sup> Floor) of the United States Capitol.

Once you enter the NORTH DOOR, please stop at the Senate Visitors Desk on your left, where you will be asked to provide your name and destination and receive a Visitor Pass. **All guests must be prepared to show proper identification. *Guests should not arrive earlier than 15 minutes before the start of the function as early access to the reception room will not be allowed.*** The names of all guests who have RSVP'd in advance of the event will be included on the Reception Guest List and will be cleared to proceed to Room S207, the Mansfield Room. Turn LEFT immediately past the Senate Visitors Desk and follow to elevators. Take elevator to 2nd floor. Exit elevator and turn away from the doors facing outside and the US Supreme Court in the distance. Turn LEFT; immediate RIGHT; and immediate LEFT to a hallway and the entrance to the Mansfield Room is on the RIGHT. Please stop at the reception desk to receive a guest name badge before entering the reception

##### **5. OGC Review Materials:**

26 March 2018

Dr. Robert Redfield  
Director, Centers for Disease Control and Prevention

Dear Dr. Redfield:

On behalf of members of Rotary clubs throughout the United States, I would like to congratulate you on your appointment to serve as the Director of the U.S. Centers for Disease Control and Prevention. Rotary International has had the privilege of working side by side with the CDC as a core partner of the Global Polio Eradication Initiative (GPEI) since 1988. Together, we have nearly eliminated this disease. With your continued leadership and the ongoing commitment and scientific expertise of CDC's incredible staff, I am confident we will soon achieve the goal of a polio free world.

I also take this opportunity to invite you to participate as an honored guest at the annual Rotary International reception honoring Congressional Champions of Polio Eradication to recognize key members of Congress for their leadership in the global polio eradication effort. This event will be held on **Tuesday evening, 15 May, 2018 from 5:30 p.m. to 7:30 p.m. in the historic Mike Mansfield Room, S-207, U.S. Capitol Building.**

Rotary will be recognizing **Representative Dan Donovan (R-NY), Representative Gwen Moore (D-WI), Representative Mark Pocan (D-WI) and Representative Tom Rooney (R-FL) as 2018 Champions of Polio Eradication** at this reception. Congressional Champions of prior years will also be recognized at the event. The event invitation is attached for your reference.

In light of the critical role CDC plays as a spearheading partner of the Global Polio Eradication Initiative, Rotary International would like to give you the opportunity to make brief remarks highlighting progress toward global polio eradication and the leadership role of the CDC therein. CDC's work on the technological and programmatic innovations that contributed to addressing the transmission of polio in Nigeria, progress in the Afghanistan/Pakistan epidemiologic block; the critical role of the STOP and NSTOP programs, and the importance of ensuring that the US investment in the polio infrastructure is translated to benefit global public health after polio eradication would be of particular interest to this key group of Congressional leaders.

I wish you every success as you assume your new leadership responsibilities at the CDC; and I look forward to hearing from you regarding your availability to join us on the 15<sup>th</sup> of May.

Sincerely,

A handwritten signature in black ink, appearing to read "Mike McGovern".

**Subject:** RE: ONDCP meeting - Friday at 3:30pm

Thanks!

Also, Mitch is not attending the Rotary Polio event May 15, but Anstice likely is. We'll confirm closer to the date. If not Anstice, definitely another Account Manager from CDCW. Thank you!

Hi Scott-

We double checked and Mitch is attending the ONDCP meeting Friday at 3:30pm. Let us know if there are concerns with this.

Also, we'll get back to you on the May 15 Polio Champions event when we know if Mitch or Anstice will attend.

Thanks!  
Aimee

**DIRECTIONS for**  
**ROTARY INTERNATIONAL RECEPTION**  
**Honoring 2018 Congressional Champions of Polio Eradication**  
*and*  
**Past Congressional Champions**  
**Tuesday, May 15, 2018 ~ 5:30 p.m. to 7:30 p.m.**  
**The Mike Mansfield Room, S-207(Second Floor)**  
**The United States Capitol Building**

**UNITED STATES CAPITOL BUILDING ENTRANCE:**

**The North Door:**

You will enter [The United States Capitol Building](#) via the NORTH DOOR, located on the ground level/first floor on the Senate side of the U.S. Capitol Building [facing Constitution Avenue and the Russell Senate Office Building, and Union Station in the distance]. The North Door is located at the top of a walking ramp on the side of the U.S. Capitol Building.

You will be required to pass through a U.S. Capitol Police security screening building on the U.S. Capitol Plaza, prior to being permitted entry to The Capitol through the NORTH DOOR. Please advise U.S. Capitol Police personnel that you are a guest at the Rotary International Polio Eradication Champions Reception in Room S207, The Mansfield Room (2<sup>nd</sup> Floor) of the United States Capitol.

Once you enter the NORTH DOOR, please stop at the Senate Visitors Desk on your left, where you will be asked to provide your name and destination and receive a Visitor Pass. **All guests must be prepared to show proper identification. *Guests should not arrive earlier than 15 minutes before the start of the function as early access to the reception room will not be allowed.*** The names of all guests who have RSVP'd in advance of the event will be included on the Reception Guest List and will be cleared to proceed to Room S207, the Mansfield Room. Turn LEFT immediately past the Senate Visitors Desk and follow to elevators. Take elevator to 2nd floor. Exit elevator and turn away from the doors facing outside and the US Supreme Court in the distance. Turn LEFT; immediate RIGHT; and immediate LEFT to a hallway and the entrance to the Mansfield Room is on the RIGHT. Please stop at the reception desk to receive a guest name badge before entering the reception.

**HANDICAPPED ENTRANCE:**

Handicapped individuals may also enter the Capitol Building via North Door and take direction from a uniformed U.S. Capitol Police officer to the Mansfield Room on the 2nd Floor of the U.S. Capitol Building. Wheelchairs are available for use by visitors in the

**Capitol Complex. Constituents visiting The Capitol may request the use of a wheelchair through their Senators' or Representative's office.**

**Capitol South** <https://www.wmata.com/rider-guide/stations/capitol-south.cfm>

**BLUE/ORANGE LINES to Capitol South METRO.** Exit at corner of First and C Streets, behind the Cannon House Office Building. Walk straight ahead one block to First and Independence Avenue and see the U.S. Capitol grounds and U.S. Capitol Building to your left. Proceed across Independence Avenue and proceed through the U.S. Capitol East Front Plaza. As you near Constitution Avenue, look for the small white U.S. Capitol Police security screening building on your left on the sidewalk. Pass through this security building and proceed up the walking ramp on the side of the U.S. Capitol and enter the building through the **NORTH DOOR**.

Once you enter the **NORTH DOOR**, please stop at the Senate Visitors Desk on your left, where you will be asked to provide your name and destination and receive a Visitor Pass. The names of all guests who have RSVP'd in advance of the event will be included on the Reception Guest List and will be cleared to proceed to Room S207, the Mansfield Room. Turn **LEFT** immediately past the Senate Visitors Desk and follow to elevators. Take elevator to 2nd floor. Exit elevator and turn away from the doors facing outside and the US Supreme Court in the distance. Turn **LEFT**; immediate **RIGHT**; and immediate **LEFT** to a hallway and the entrance to the Mansfield Room is on the **RIGHT**. Please stop at the reception desk to receive a guest name badge before entering the reception

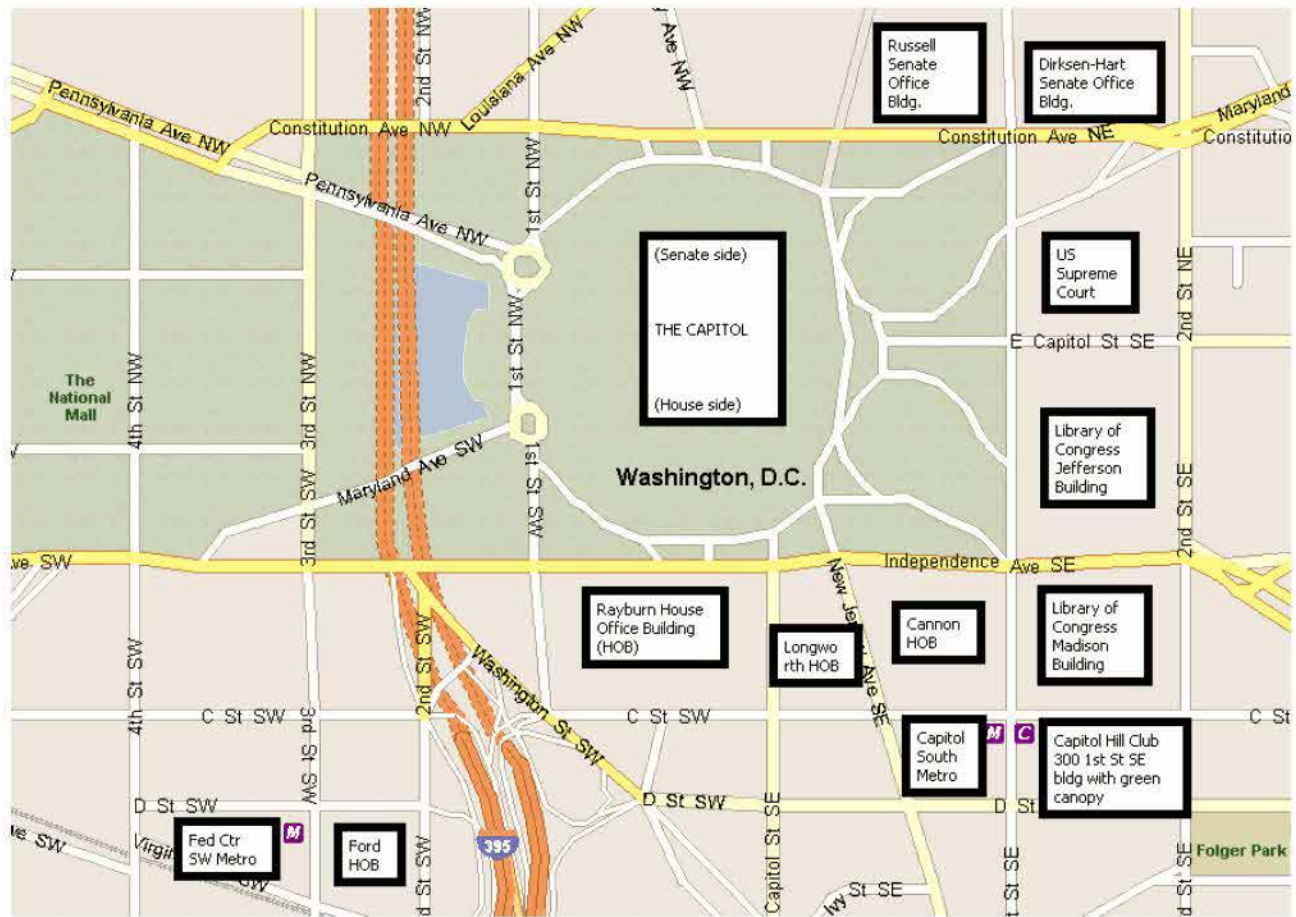

**Union Station** <https://www.wmata.com/rider-guide/stations/union-station.cfm>

**RED LINE to Union Station METRO.** Exit front of Union Station and walk three long blocks south on Delaware Avenue toward the Capitol Building [Senate office buildings will be on your left as you approach Constitution Avenue and the U.S. Capitol Building]. Enter Capitol Building via North Door entrance directions described above.

### **SUGGESTED PARKING:**

Public parking is *very limited* around the Capitol complex. The closest public paid parking facility is the garage attached to the rear of Union Station [First Street and Massachusetts Avenue, NE]. Park and walk inside Union Station and exit front of Union Station to taxi stand in front of the station. Take taxi to "Senate side" of Capitol Building and enter Capitol via North Door [see North Door entrance directions above]. The District of Columbia does recognize accessible parking permits issued by the states and territories. Parking is permitted at designated handicapped spaces or any metered/un-metered parking space (no fee required), within the hours allowed for general parking in that area. Visitors must display state-issued handicapped tags or permits. Parking is not allowed where stopping, standing or parking is prohibited to all vehicles, in spaces reserved for special vehicles (buses, taxis, etc.), or where it would clearly be a traffic hazard. Handicapped visitors who have an appointment in a Senator's or Representative's office may request accessible parking through that office.

**Cc:** [Pam@ONeillEvent.com](mailto:Pam@ONeillEvent.com)  
**Subject:** Dr. Redfield's participation in the 15 May Reception Honoring Congressional Champions of Polio Eradication

Dear Ms. Cashman,

I am writing to follow up on the introduction made by my colleague, Carol Pandak as related to the participation of Dr. Redfield in the 15 May reception honoring Congressional Champions of Polio Eradication. We are delighted that Dr. Redfield will be joining us.

I take this opportunity to provide summary information we have provided in the past as related to the participation of CDC leadership in this reception. I anticipate these details will be helpful for planning Dr. Redfield's participation and knowing what to expect.

1. Points of Contact for the day of the reception in case of emergency:  
Ms. Pam Jackson, (b)(6)  
Ms. Kris Tsau, (b)(6)
2. Are there any added security approvals needed for the evening?  
We will be providing a list of participants to Capitol Security. Photo ID will be needed.
3. Which entrance should the director enter? North entrance – full instructions attached.
4. What time do you want the director to arrive? (event starts at 5:30pm) For now I would say 5:45, this may change a bit as we get an indication of when Members plan to arrive.
5. Please send me a program agenda for the evening. I am attaching last year's program to give you a sense. The program is fairly fluid to accommodate the participation of Members, and that often varies, however, the overall flow of how the event typically goes is reflected in the attached program from last year.
6. How many people will be at the reception? 125-150
7. Will media be present or invited? We have not typically invited media. They would be welcome, but this event is not typically deemed to be of interest to media.

I'd be happy to answer and additional questions or concerns that have not been addressed in the points above.

Kind regards,  
Kris

Hi Aimee,

Are you asking for April 11<sup>th</sup> from 10-10:30 a.m. for Rep. Burgess?

We have Buddy Carter confirmed for April 11<sup>th</sup> from 10-10:30 a.m.

Please advise.

Thanks,  
Teresa

CDCW scheduling update: unfortunately, doesn't look like we can fill the time Monday. However, two questions/comments for Wed, April 11. Sen. Burr may be available at 9am that day. May we put a hold? Rep. Burgess may be available at 1pm that day? Is that feasible? If so, may we put a hold?

**Subject:** HOLD for scheduling on April 9th between 3:30-5:30 p.m.

Good afternoon,

We are currently holding April 9<sup>th</sup> from 3:30-5:30 p.m. for scheduling.

We are trying to schedule a 30 minutes pre-brief for training with KLD and Dr. Redfield on Monday possibly at 4:30-5 p.m. or 5:00-5:30 p.m.

Please advise if we can use any of this time for scheduling.

Thanks,  
Teresa

Teresa Williams

**Subject:** Dr. Redfield and Rep. Graves (R-GA) - 6/13

Rep. Graves is available as of right now to meet with Dr. Redfield on Wednesday the 13<sup>th</sup> at 10:30 am. There is a possibility he would have to cancel if a mark-up was scheduled during that time but otherwise he is free. Can I confirm? I think we will know by Tuesday am if he would need to cancel (if not sooner).

Jenny

**Subject:** Scheduling updates from CDCW for April 26

Hi all-

A few updates from CDCW for **April 26**:

- We'd like to move Rep. Buddy Carter (R-GA) from 10am to 4:30pm (Cannon 432).
- We'd like to confirm Sen. Chuck Schumer (D-NY) for 10:30am in the Capitol, S-221 – *I have entrance instructions if needed.*
- We (CDCW) no longer need the call holds for tomorrow (4/13)

Thank you!  
Aimee

**Subject:** Scheduling updates from CDCW for April 26

Hi all-

A few updates from CDCW for **April 26**:

- We'd like to move Rep. Buddy Carter (R-GA) from 10am to 4:30pm (Cannon 432).
- We'd like to confirm Sen. Chuck Schumer (D-NY) for 10:30am in the Capitol, S-221 – *I have entrance instructions if needed.*
- We (CDCW) no longer need the call holds for tomorrow (4/13)

Thank you!  
Aimee

CDCW scheduling update: unfortunately, doesn't look like we can fill the time Monday. However, two questions/comments for Wed, April 11. Sen. Burr may be available at 9am that day. May we put a hold? Rep. Burgess may be available at 1pm that day? Is that feasible? If so, may we put a hold?

**Subject:** HOLD for scheduling on April 9th between 3:30-5:30 p.m.

Good afternoon,

We are currently holding April 9<sup>th</sup> from 3:30-5:30 p.m. for scheduling.

We are trying to schedule a 30 minutes pre-brief for training with KLD and Dr. Redfield on Monday possibly at 4:30-5 p.m. or 5:00-5:30 p.m.

Please advise if we can use any of this time for scheduling.

Thanks,

Teresa

**Subject:** Senior Leadership Team Meeting with Secretary Azar

Dear Senior Leaders,

As we mentioned Monday at the leadership meeting, HHS Secretary Alex Azar will be at CDC for a visit on June 1, 2018, and we are planning a Senior Leadership team meeting while he is visiting. **We ask that you be at Roybal campus, 12<sup>th</sup> Floor, Room 12105 from 8:45 to 10:00 a.m.** The actual meeting will be 1 hour, but the limited timeline and unpredictable Atlanta traffic call for all leaders to arrive a few minutes before Secretary Azar. We would like each of you to introduce yourselves and give a one minute introduction that includes a description of your work at CDC. Please try not to only list your center name or the center acronym, but instead, state the topic of work in the center.

We do not plan to use Envision or telephone bridge. There will be no delegates. Please respond to Nikki Jo Romanik (b)(6) cc'd here) by **COB Friday, May 25**, to let us know if you will attend this meeting.

Please let me know if you have any questions.

Kyle McGowan

**Subject:** Secretary Hosted Dinner

Additionally, for the dinner, please see the details below:

**Date:** Wednesday, May 23, 2018  
**Time:** 7:30– 9:30PM (7:30 arrivals, 8:00 sit down for dinner)  
**Location:** La Vie des Champs, La-Vie-des-Champs 15, 1202 Genève  
**Press:** Closed

The Secretary will host a dinner on the margins of the World Health Assembly. This dinner will be focused on pandemic preparedness and outbreak response, as well as relationship building. This is an informal dinner with no set agenda, but there will be a small, informal discussion on national challenges to addressing infectious diseases, IHR implementation, WHO support to member states during emergencies, and sustainable progress on health security goals.

Dinner Menu

- Tartare de saumon (cold salmon tartare)
- Pavé de boeuf, beurre maison, pommes sautées et légumes (roast beef with butter, potatoes sauted and veg)
- Coulant au chocolat et sorbet passion (warmed chocolate cake and warmed runny chocolate in the centre and passion sorbet)

**Subject:** Security Awareness Training (SAT) 2018 Campaign Kick-Off Announcement

## 2018 Security Awareness Training

This message launches the mandatory 2018 Security Awareness Training Program. CDC achieved a 100% completion rate during the 2017 Campaign, and everyone's effort toward improving CDC's information security program is appreciated. This course includes Security Awareness Training, Privacy Awareness Training, and the OSSAM insider Threat and Counterintelligence courses.

Every employee, contractor, or affiliate with a CDC account must complete 2018 Security Awareness Training (SAT) **by June 13, 2018 at 5:00 P.M. EDT. Please act promptly and complete the training as soon as possible.**

Along with fulfilling mandatory training requirements, the new and improved **Scenario Based** course provides real world simulations to encourage you to be more vigilant when dealing with cyber security issues.

**Here are a few of the highlights of the new course:**

- New and improved interface
- Real world/scenario based simulations
  - Updated SAT resource page: <http://intranet.cdc.gov/misotrain/sat.html>

## 2018 SAT Online from CDC Intranet

The 2018 Security Awareness Training course can be accessed at <http://sat.cdc.gov>. Please click on the **plus sign** beside the “Security Awareness Training (SAT)” entry and select the “2018

**Security Awareness Course”** link to begin the training.

## Other SAT Training Options

I will be presenting the one and a half hour SAT training onsite at each CDC Atlanta campus. The Live 2018 SAT training session schedule is provided on the [OCIO Security Awareness Training](#) Web page.

We now have a new delivery model for the 2018 SAT course for those who do not have an active CDC network account. First time users, users without network access, as well as users who do not have remote access will be able to access the 2018 training through SAMS. Information on requesting remote Internet access to the training is available on the [OCIO Security Awareness Training](#) Web page.

## Completion Requirements

Failure to take this Security Awareness Training by the deadline of **June 13, 2018 at 5:00 P.M. EDT** may result in your access to CDC’s network being suspended. If your access is suspended, you will need to make arrangements with your Information Systems Security Officer ([ISSO](#)) or supervisor to take the training. Once you have completed the training, your network access will be reactivated.

All employees and contractors using CDC’s IT resources are vital to the protection, confidentiality, integrity, and availability of these critical assets. I appreciate your prompt attention to completing this required training. Thank you for contributing to CDC’s overall IT security program.

Cheri Gatland-Lightner

**Subject:** FW: Security Awareness Training (SAT) 2018 Campaign Kick-Off Announcement

Hi Tracie and Marsha-

Dr. Redfield and Kyle both need to complete the 2018 SAT training prior to June 13<sup>th</sup>, or they will be locked out of the network. The SAT training they were certified for to get their user ID's counted toward 2017, so they will need the refresher. The link is in the email below, the training is really straightforward. They will need to complete it while connected to the network so that it registers that they completed it.

Could please schedule time on their respective calendar's to complete the training? An hour should be more than sufficient. Please let me know if you have any questions.

Thanks,  
Whitney

Hi Aimee,

Are you asking for April 11<sup>th</sup> from 10-10:30 a.m. for Rep. Burgess?

We have Buddy Carter confirmed for April 11<sup>th</sup> from 10-10:30 a.m.

Please advise.

Thanks,  
Teresa

CDCW scheduling update: unfortunately, doesn't look like we can fill the time Monday. However, two questions/comments for Wed, April 11. Sen. Burr may be available at 9am that day. May we put a hold? Rep. Burgess may be available at 1pm that day? Is that feasible? If so, may we put a hold?

**Subject:** HOLD for scheduling on April 9th between 3:30-5:30 p.m.

Good afternoon,

We are currently holding April 9<sup>th</sup> from 3:30-5:30 p.m. for scheduling.

We are trying to schedule a 30 minutes pre-brief for training with KLD and Dr. Redfield on Monday possibly at 4:30-5 p.m. or 5:00-5:30 p.m.

Please advise if we can use any of this time for scheduling.

Thanks,  
Teresa

**Subject:** Schumer Meeting

Hi Ladies-

Specific instructions for entrance to S-221 for the Schumer meeting.

Thanks!  
Aimee

**MEETING CONFIRMATION:**  
**LOCATION: S-221, THE CAPITOL**  
**TIME: 10:30AM**  
**DATE: THURSDAY, APRIL 26**

This email confirms your meeting with Leader Schumer. The meeting will take place in our office located in S-221, the Capitol. S-221 is located on the Senate side of the Capitol (closest to Union Station). You will want to use the North business entrance to the Capitol, which is located at the corner of Constitution Ave and Delaware Avenue NE. You should enter through the white guard shack, and will go through metal detectors. Once inside the Capitol the appointments desk will direct you up to S-221.

Please arrive at least 15 minutes early so that you can have time to go through security and check-in with the appointments desk.

DEATH

# CDC's unique role and activities to address sepsis

# CDC Vital Signs Report (2016)

## Call to action: Sepsis is a medical emergency

- CDC called on healthcare providers to:
  - **Educate** patients and their families about symptoms and when to seek medical attention
  - **Remind** patients that taking care of chronic illnesses helps prevent infections
  - **Think sepsis** by knowing sepsis signs and symptoms to identify and treat patients early
  - **Act fast** if sepsis is suspected.
  - **Reassess** patient management and antibiotic therapy
- Focus on preventability, need for education, and early recognition

**Problem:** Sepsis is deadly when it's not quickly recognized and treated.

Certain people with an infection are more likely to get sepsis.

- CDC evaluation found more than 80% of adults and 70% of children who developed sepsis had a health condition that may have put them at risk.
- Sepsis occurs most often in people 65 years or older or younger than 1 year, with weakened immune systems, or with chronic medical conditions (e.g., diabetes).
- While less common, even healthy infants, children, and adults can develop sepsis from an infection, especially when not treated properly.

Certain infections and germs lead to sepsis most often.\*

- Four types of infections are often associated with sepsis: lung, urinary tract, skin, and gut.
- Common germs that can cause sepsis are *Staphylococcus aureus*, *Escherichia coli* (E. coli), and some types of *Streptococcus*.

\*Among patients in the evaluation with an identified source of infection, however, infectious source cannot be identified in many patients.

**Healthcare providers are key to preventing infections and illnesses that can lead to sepsis.**

<b>EDUCATE</b> patients and their families about the early symptoms of some infections and sepsis, and when to seek care for an infection, especially those at higher risk.	<b>REMINDE</b> patients that taking care of chronic diseases helps prevent infections.	<b>ENCOURAGE</b> infection-prevention measures, such as hand hygiene and vaccination against infections.
---	--	--

**Common infections can lead to sepsis.** Know the signs and symptoms of sepsis.

Among adults with sepsis:

- 50% had a lung infection (e.g., pneumonia)
- 25% had a urinary tract infection (e.g., kidney infection)
- 10% had a type of gut infection

Signs and symptoms of sepsis:

- Shivering, fever, or very cold
- Extreme pain or discomfort
- Clonus or mottled skin
- Short of breath
- High heart rate

**80%** Sepsis begins outside of the hospital for nearly 80% of patients.

**7 in 10** A CDC evaluation found 7 in 10 patients with sepsis had recently used health care services or had chronic diseases requiring frequent medical care.

**4** Four types of infections are most often associated with sepsis: lung, urinary tract, skin, and gut.

# Get Ahead of Sepsis (2017)

## Goal

Emphasizes the importance of sepsis early recognition, timely treatment, reassessment of antibiotic needs, and prevention of infections that could lead to sepsis

## Example of Impact from CDC Educational Outreach and Promotion of Sepsis

Consumers reached reported intended behavior change:

- 71% of consumers who saw CDC’s messaging said they searched for more information about sepsis
- Over half of the consumers who saw CDC’s messaging said they asked a healthcare professional for more information about sepsis

**GET AHEAD  
OF SEPSIS**

**KNOW THE RISKS. SPOT THE SIGNS. ACT FAST.**

# Examples of other CDC sepsis efforts & integration with other programs

- Alignment with antimicrobial stewardship efforts: Integrating CDC's new educational effort *Be Antibiotics Aware: Smart Use, Best Care* with using antibiotics as a tool to treat and manage sepsis and linking the importance of hand hygiene to get ahead of sepsis during the WHO's Annual Clean Hands Campaign (May 5, 2018).
- CDC and Vermont Oxford Network collaboration: Developing a National Healthcare Safety Network (NHSN) surveillance protocol for late onset sepsis and meningitis in neonates
- International sepsis work: Collaborating with John Hopkins University to study bloodstream infections (BSIs) occurring in newborn infants in NICUs in India
- Applied research: Appropriate use of antibiotics during sepsis care; Microbiome disruption as risk for subsequent infection/sepsis; SEP-1 (CMS early intervention measure) compliance measurement
- Emerging Infections Program (EIP): Linkage to improving vaccine use and impact; comprehensive tracking and risk factor studies of leading causes
- HHS' Office of Prevention Research and Evaluation (OPRE) collaboration: Evaluation of Medicare data and variability of mortality across hospitals in the US

On August 23, 2016, this report was posted as an MMWR Early Release on the MMWR website (<http://www.cdc.gov/mmwr>).

### Abstract

**Background:** Sepsis is a serious and often fatal clinical syndrome, resulting from infection. Information on patient demographics, risk factors, and infections leading to sepsis is needed to integrate comprehensive sepsis prevention, early recognition, and treatment strategies.

**Methods:** To describe characteristics of patients with sepsis, CDC and partners conducted a retrospective chart review in four New York hospitals. Random samples of medical records from adult and pediatric patients with administrative codes for severe sepsis or septic shock were reviewed.

**Results:** Medical records of 246 adults and 79 children (aged birth to 17 years) were reviewed. Overall, 72% of patients had a health care factor during the 30 days before sepsis admission or a selected chronic condition likely to require frequent medical care. Pneumonia was the most common infection leading to sepsis. The most common pathogens isolated from blood cultures were *Escherichia coli* in adults aged ≥18 years, *Klebsiella* spp. in children aged ≤1 year, and *Enterococci* spp. in infants aged <1 year; for 106 (33%) patients, no pathogen was isolated. Eighty-two (25%) patients with sepsis died, including 65 (26%) adults and 17 (22%) infants and children.

**Conclusions:** Infection prevention strategies (e.g., vaccination, reducing transmission of pathogens in health care environments, and appropriate management of chronic diseases) are likely to have a substantial impact on reducing sepsis. CDC, in partnership with organizations representing clinicians, patients, and other stakeholders, is launching a comprehensive campaign to demonstrate that prevention of infections that cause sepsis, and early recognition of sepsis, are integral to overall patient safety.

- Sepsis begins outside of the hospital for nearly 80% of patients.
- 7 in 10 patients with sepsis had recently interacted with healthcare providers or had chronic diseases requiring frequent medical care.
- Four types of infections were most often associated with sepsis: lung, urinary tract, skin, and gut.

## Incidence and Trends of Sepsis in US Hospitals Using Clinical vs Claims Data, 2009-2014

Chanu Rhee, MD, MPH; Raymond Dantes, MD, MPH; Lauren Epstein, MD, MS; David J. Murphy, MD, PhD; Christopher W. Seymour, MD, MSc; Theodore J. Iwashyna, MD, PhD; Sameer S. Kadri, MD, MS; Derek C. Angus, MD, MPH; Robert L. Danner, MD; Anthony E. Fiore, MD, MPH; John A. Jernigan, MD, MS; Greg S. Martin, MD, MSc; Edward Septimus, MD; David K. Warren, MD, MPH; Anita Karcz, MD, MBA; Christina Chan, MPH; John T. Menchaca, BA; Rui Wang, PhD; Susan Gruber, PhD; Michael Klompas, MD, MPH; for the CDC Prevention Epicenter Program

- Estimated 1.7 million cases of sepsis among adults patients and nearly 270,000 deaths.
- 22% of patients with sepsis did not survive their hospitalization or went to hospice. Sepsis was present in nearly 1/3 of all hospitalizations that culminated in death.
- Efforts are underway to figure out how to apply these definitions to children to get a reliable assessment of pediatric burden of sepsis.

HHS-CDC-19-0276-A-000975

# Thinking Holistically to Protect Patients

# Core Messages – Healthcare Professionals

- You can protect your patients by recognizing and treating sepsis **quickly**.
- Know your facility's existing guidance for diagnosing and managing sepsis. If you suspect sepsis:
  - **Immediately** alert the clinician in charge if it is not you.
  - Start antibiotics **as soon as possible**, in addition to other therapies appropriate for that individual patient.
  - Check patient progress frequently. **Reassess** antibiotic therapy 24-48 hours to stop or change therapy as needed. Be sure antibiotic type, dose, and duration are correct.
- Sepsis is a medical emergency. Protect your patients by acting fast. Delayed recognition and treatment of sepsis increases your patients' risk of death.

# Educational Materials – Healthcare Professionals

## Materials for Healthcare Professionals

- **Infographic:** All healthcare professionals
- **Brochure:** All healthcare professionals
- **Fact Sheets:**
  - Primary care settings
  - Long-term care
  - Hospitals and home care
  - Emergency departments and urgent care
- **Poster:** All healthcare professionals
- **Pocket cards:** All healthcare professionals

HHS-CDC-19-0276-A-000978

# Core Messages – Patients and Families

- Talk to your doctor or nurse about steps you can take to prevent infections. Some steps include taking good care of chronic conditions and getting recommended vaccines.
- Practice good hygiene, such as handwashing, and keeping cuts clean until healed.
- Know the symptoms of sepsis.
- **ACT FAST.** Get medical care **IMMEDIATELY** if you suspect sepsis or have an infection that's not getting better or is getting worse.
- Always remember, sepsis is a medical emergency. Time matters. If you or your loved one suspects sepsis or has an infection that's not getting better or is getting worse, ask your doctor or nurse, "Could this infection be leading to sepsis?"

# Educational Materials – Patients and Families

## Materials for Patients and Families

- **Brochure:** All patients and families
- **Video:** All patients and families
- **Fact Sheets:**
  - People living with chronic conditions
  - Aging adults, their caregivers, and mothers of young children
- **Conversation starter:** All patients and families
- **Infographic:** All patients and families

Hi Von, 4/23 may be best but we need to first confirm that Anne is not needed in DC for an OGC event. The other dates you mentioned will have conflicts and thus she likely won't be here.

Teresa can let us know in the next day or two if that could be confirmed and then we can put the weekly SL and this visit on her calendar.

**Subject:** RE: Dr. Schuchat availability for HHS meeting

Hi Jeremy,

I spoke with Anne and she suggested I try to tag on a 30 minute meeting with Don Wright and Carter to the end of a Monday senior leadership meeting. The idea would be to use the last 30 minutes of the senior leadership meeting for a Healthy People 2030 discussion.

Based on recent communications with HHS, they can make it down on 4/23, 4/30, or 5/7. I noticed that the SL meetings have not been scheduled this far out. Will this be a problem?

-Von

Hey Jeremy,  
Let me talk to Steve Redd about this one. Even if Dr. Schuchat can't make it, I think it would be productive for Don Wright and Carter to meet with the full senior leadership team to discuss changes to Healthy People 2030.

Once I get Steve's input, I will come back to you and we can find a date.

**Subject:** Dr. Schuchat availability for HHS meeting

Hi- I am beginning to schedule our nearly annual All Hands meeting for Healthy People 2020, led by Dr. Don Wright, Director, Office of Disease Prevention and Health Promotion at HHS/OASH. Dr. Schuchat participated in our last All Hands (fall 2016), hosting a 1 hour meeting with Dr. Wright and staff.

I am inquiring about her availability and interest in meeting with them again. At this point, we would be looking for a 1 hour meeting during the period 5/1-5/8. Our Acting PPEO Director (Von Nguyen) has suggested that we may want to engage cross-CIO leadership as part of that meeting, so wondering if there may some meeting here at Roybal that already brings a number of them to Building 21 during that window and would be a good piggyback.

Thanks!

Hi- HHS staff (Don Wright, Carter Blakey) are scheduled to meet with the CDC Senior Leadership team on 4/23 from 10-10:30. This is confirmed.

We had also scheduled additional time with Dr. Schuchat from 10:30-11 on 4/23. Per discussion within OADPS (Proposed) we think the latter meeting time can be released and the calendar holds from 10:30-11 for Drs Schuchat and Nguyen can be released.

Please let me know if you have any questions. Thanks!

Marjorie and Seth;

Dr. Roberta Ness has agreed to give this year's Shepard Award lecture. Could you please let me know Dr. Schuchat's availability June 12, 13, and 14th? The ceremony typically begins at 10 AM and lasts for 90

minutes.

Thank you,

John I.

CHARLES C. SHEPARD 2018 SCIENCE AWARDS

# INNOVATION & CREATIVITY

in modern public health

**Keynote Speaker: Dr. Roberta Ness**

June 14, 2018 • 10:00 A.M. to 11:30 P.M.

AMERICAN  
OVERSIGHT

HHS-CDC-19-0276-A-001007

## CHARLES C. SHEPARD • BIOGRAPHY

The preeminent science awards of CDC/ATSDR, inaugurated in 1986, are named in honor of Charles C. Shepard, MD, the internationally recognized microbiologist who was chief of the Leprosy and Rickettsia Branch at CDC for more than 30 years, until his death on February 18, 1985.

Charles Carter Shepard was born in Ord, Nebraska, on December 18, 1914. He attended Stanford University (1932–1935) and then transferred to Northwestern University, where he received BS, MS, and MD degrees. In 1941, he joined the Commissioned Corps of the Public Health Service. From 1942 through 1948, he worked at the National Institutes of Health (NIH) in Bethesda, Maryland.

While on sabbatical during 1948 through 1949, he worked in the laboratory of Arne Tiselius in Uppsala, Sweden, and learned the new physical separation techniques that would revolutionize immunology and biochemistry. He returned to Bethesda for a year before moving to the Rocky Mountain Laboratory, National Institute of Allergy and Infectious Diseases, NIH, in Hamilton, Montana, to study various pathogenic bacteria and their phages at the biochemical and ultrastructural levels. In 1953 he came to CDC, where he continued his outstanding work with rickettsiae and began his distinguished and definitive experiments with mycobacteria, culminating in the cultivation of the leprosy bacillus, *Mycobacterium leprae*, in mice. His landmark article, "The Experimental Disease that Follows the Injection of Human Leprosy Bacilli into Foot-Pads of Mice" (*Journal of Experimental Medicine* 1960;112:445–454), is still considered a classic in microbiology. His achievement made possible the large-scale evaluation of antibiotic efficacy and reduced testing time from several years to only months. It also paved the way for leprosy vaccine studies.

Dr. Shepard made significant early contributions to the diagnosis, natural history, and epidemiology of Rocky Mountain spotted fever; Q fever; and scrub, murine, and epidemic typhus. He was also codiscoverer (with Joseph McDade) of the Legionnaires' disease bacterium (*Legionella pneumophila*) after the now famous outbreak of virulent pneumonia in Philadelphia in 1976.

Dr. Shepard received numerous awards, among them the Gorgas Medal (1962), the Kimble Methodology Award (1962), the Philip R. Edwards Award (1964), the World Leprosy Day Award (1970), and the first CDC Medal of Excellence (1977).

He also received the HEW Distinguished Service Medal (1978), the Raol Folleraux Award (1978), and the Richard and Hinda Rosenthal Award (1979). He was active in multiple professional organizations, including the Armed Forces Epidemiologic Board Commission on Rickettsial Diseases; the WHO Immunology of Leprosy Program; the WHO Advisory Panel on Leprosy; the Heiser Program for Research in Leprosy; and the Leprosy Research Council, which he chaired. He was also involved in many editorial activities, having served on the board of directors of the *International Journal of Leprosy* and as a frequent reviewer for numerous prestigious journals.

Although Dr. Shepard's contributions to science and public health were prodigious, perhaps his greatest legacy is the influence he has had on the CDC scientists who have followed in his footsteps and have continued to find inspiration in the scientific integrity and excellence he has come to represent.

## KEYNOTE SPEAKER'S BIOGRAPHY

### **Roberta B. Ness, MD, MPH**

Roberta B. Ness, MD, MPH, Rockwell Professor of Public Health at the University of Texas, has been called one of America's foremost experts in innovative thinking. She is author of four books, *Innovation Generation*, a systematic method about how to maximize your creativity; as well as *Creativity in the Sciences*, *Genius Unmasked*, and *The Creativity Crisis*, a workbook, storybook, and critical appraisal of institutional barriers to innovation. Dr. Ness has given over 90 talks and workshops on innovative thinking at America's top universities, research and development-intensive corporations, and science and technology professional societies including the National Academies, American Association for the Advancement of Science, the Association for American Physicians, and the American Society for Clinical Investigation. She offers a free online course, *Reimagining Innovation*, which has been accessed by more than 100,000 viewers. She has given two TED talks and was featured on the Bill Nye-hosted podcast, *Star Talk Radio*.

A recognized expert in medicine and public health, Dr. Ness is former dean of The University of Texas School of Public Health, one of the largest such schools in the nation.

Dr. Ness's international acclaim is shown by membership in the most esteemed professional society in the United States, the National Academies of Science, as well as other prestigious honorary societies including the American Society for Clinical Investigation, Delta Omega Honorary, and the American Epidemiologic Society. She is former president of the top two professional societies in her field, a fellow of the American College of Physicians, and associate editor or on the editorial board of numerous scientific journals. Other honors include a 1996 Leadership Award from the Family Health Council, 2006 Laureate Award from the American College of Physicians, 2008 Distinguished Professor of Women's Health from the Society for General Internal Medicine, 2011 presidential appointment to the Mickey Leland Center for Environmental Research, 2013 Petersdorf Lectureship from the American Association of Medical Colleges, and 2014 Athena Swan lectureship at Oxford University. She has received two of the most prestigious lifetime achievement awards in her field: the 2013 Snow Award from

the American Public Health Association, and the 2017 Lillienfeld Award from the American College of Epidemiology.

Dr. Ness received her medical degree from Cornell University and her master's in public health from Columbia University. She established the leading paradigm in the field of women's health research, termed "gender-based biology" in her book, *Health and Disease Among Women*. In almost 400 publications and more than three dozen federally funded grants, Dr. Ness has discovered causes and established best prevention and treatment approaches for diseases as varied as cancer, pregnancy complications, and cardiovascular disease. Dr. Ness has been an advisor to the National Institutes for Health, the Centers for Disease Control and Prevention, NASA, and the Department of Defense, among others.

Dr. Ness's insights as a scientist and administrator have put her in a unique position to imagine and prove the usefulness of techniques to improve creativity both personal and organizational.

# PUBLICATION AWARD NOMINEES

*Nominated by the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry (CDC/ATSDR) for the 2018 Charles C. Shepard Science Awards. The nominated articles were judged on scientific merit and the significance of their effect on the mission of CDC/ATSDR. Following is a complete citation and brief description of each article, listed by category and in alphabetical order by the first author's last name.*

# ASSESSMENT

Yutaka Aoki, Jennifer Yee, and Mary E. Mortensen

## **Blood Cadmium by Race/Hispanic Origin: The Role of Smoking**

*American Journal of Public Health* 2016;106(11):2049–2056

Cadmium, a soft, bluish-white metal that shares characteristics with zinc and mercury, causes lung cancers and is associated with kidney and prostate cancer. The authors used NHANES data, which included blood cadmium and self-reported smoking status, to explore how blood cadmium varied by race/ethnicity and smoking status among U.S. adults and the extent to which the difference may be explained by intensity of smoking, a known major source of cadmium exposure.

Nancy F. Butte, Kathleen B. Watson, Kate Ridley, Issa F. Zakeri, Robert G. McMurray, Karin A. Pfeiffer, Scott E. Crouter, Stephen D. Herrmann, David R. Bassett, Alexander Long, Zekarias Berhane, Stewart G. Trost, Barbara E. Ainsworth, David Berrigan, and Janet E. Fulton

## **A Youth Compendium of Physical Activities: Activity Codes and Metabolic Intensities**

*Medicine and Science in Sports and Exercise* 2018;50(2):246–256

Gathering accurate data on human energy expenditure can improve the design and evaluation of physical activity and obesity interventions. This study describes the development of a compilation tool used to identify the energy expenditure of 196 physical activities using data on youth only. The tool fills a critical gap and can be used by a variety of audiences—including researchers, health professionals, teachers and coaches, and fitness professionals.

## **Trends in Utilization and Costs of BRCA Testing Among Women Aged 18–64 years in the United States, 2003–2014**

*Genetics in Medicine* 2017; doi: 10.1038/gim.2017.118

About 300,000 U.S. women have mutations of *BRCA* genes, which help suppress tumors. *BRCA* genetic mutations increase the risk of breast and ovarian cancers. Early discovery of *BRCA* mutations allows for prevention measures. This study identified changes in *BRCA* testing rates and costs consistent with effects of several influencing factors that could help inform public health approaches to promoting effective and appropriate *BRCA* testing.

and William M. Callaghan

**Contribution of Maternal Age and Pregnancy Checkbox on Maternal Mortality Ratios  
in the United States, 1978–2012**

*American Journal of Obstetrics and Gynecology* 2017; 217:352 e1–e7

Women in the United States are more likely to die from childbirth or pregnancy-related causes than women in other high-income countries. The authors characterized maternal death in the United States and examined potential contributors to increasing maternal mortality ratios from 1978 through 2012. The results show the urgent need for partnerships between state maternal mortality review committees and vital statistics offices to identify the best opportunities for improving reporting of pregnancy status on death certificates.

Gibrilla F. Deen, Nathalie Broutet, Wenbo Xu, Barbara Knust, Foday R. Sesay, Suzanna L. R. McDonald, Elizabeth Ervin, Jaclyn E. Marrinan, Philippe Gaillard, Ndema Habib, Hongtu Liu, William Liu, Anna E. Thorson, Francis Yamba, Thomas A. Massaquoi, Faustin James, Archchun Ariyaratnam, Christine Ross, Kyle Bernstein, Antoine Coursier, John Klena, Marylin Carino, Alie H. Wurie, Yong Zhang, Marion S. Dumbuya, Neetu Abad, Baimba Idriss, Teodora Wi, Sarah D. Bennett, Tina Davies, Faiqa K. Ebrahim, Elissa Meites, Dhamari Naidoo, Samuel J. Smith, Patricia Ongpin, Tasneem Malik, Anshu Banerjee, Bobbie R. Erickson, Yongjian Liu, Yang Liu, Ke Xu, Aaron Brault, Kara N. Durski, Jorn Winter, Tara Sealy, Stuart T. Nichol, Margaret Lamunu, James Bangura, Sihem Landoulsi, Amara Jambai, Oliver Morgan, Guizhen Wu, Mifang Liang, Qiudong Su, Yu Lan, Yanzhe Hao, Pierre Formenty, Ute Stroher, and Foday Sahr

**Ebola RNA Persistence in Semen of Ebola Virus Disease Survivors—Final Report**

*The New England Journal of Medicine* 2017;377(15):1428–1437

The West Africa Ebola epidemic presented the opportunity to test a larger number of male Ebola survivors for Ebola virus RNA in their semen, and it was urgent to understand how long sex could be a risk factor for Ebola transmission. The study showed that many survivors had virus RNA persisting in their semen and emphasized the importance of testing and counseling programs for Ebola survivors to reduce the risk of sexual transmission.

Alpha Oumar Diallo, Heidi M. Soeters, Issaka Yameogo, Guetawendé Sawadogo, Flavien Aké, Clément Lingani, Xin Wang, Andre Bitá, Amadou Fall, Lassana Sangaré, Rasmata Ouédraogo-Traoré, Isaïe Medah, Brice Bicaba, and Ryan T. Novak, for the MenAfriNet Consortium

**Bacterial Meningitis Epidemiology and Return of *Neisseria meningitidis* Serogroup A Cases in Burkina Faso in the Five Years Following MenAfriVac Mass Vaccination Campaign**

*PLoS One* 2017;12(11):e0187466

The authors evaluated the effectiveness over a 5-year period of a new serogroup A meningococcal conjugate vaccine introduced during national mass vaccination campaigns in sub-Saharan Africa. This paper measures progress toward CDC's Strategic Framework for Global Immunizations by 2020 goal to control, eliminate, or eradicate vaccine-preventable diseases, which includes the elimination of *Neisseria meningitidis* serogroup A (NmA) epidemics in the meningitis belt.

Elaine W. Flagg and Elizabeth A. Torrone

**Declines in Anogenital Warts Among Age Groups Most Likely to Be Impacted by Human Papillomavirus Vaccination, United States, 2006–2014**

*American Journal of Public Health* 2018;108(1):112–119

Vaccine monitoring is crucial for assessing the progress of immunization programs, demonstrating impact on disease, and evaluating policy needs. This study assesses the impact of human papillomavirus vaccination on the prevalence of anogenital warts among private insurance enrollees in the United States. The authors report that decreases in the occurrence of anogenital warts among U.S. females, previously limited to those aged 15–19 years, are now occurring through age 29 years.

Katherine A. Fowler, Linda L. Dahlberg, Tadesse Haileyesus, Carmen Gutierrez, and Sarah Bacon

**Childhood Firearm Injuries in the United States**

*Pediatrics* 2017;140(1):e20163486

International studies indicate that 91% of firearm deaths of children among high-income countries occur in the United States. This paper characterizes firearm injuries and their causes among children in the United States. Reported data on fatal and nonfatal firearm injuries include the magnitude and nature of these injuries for the nation, by state, over time, and across age, sex, and racial and ethnic groups. The authors also discuss prevention strategies.

H. Frederick Frasch and Ana M. Barbero

**In Vitro Human Epidermal Permeation of Nicotine from Electronic Cigarette Refill Liquids and Implications for Dermal Exposure Assessment**

*Journal of Exposure Science & Environmental Epidemiology* 2017;27(6):618–624

Use of electronic cigarettes has grown substantially over the past several years. E-cigarettes can potentially help wean nicotine addicts from cigarette smoking, but there are several concerns raised by their use. These include use of these products by young people and the potential for e-cigarettes to become a gateway to cigarette smoking. This paper describes a new data-driven approach to determine the risk of skin contact with nicotine contained in liquids used in e-cigarettes.

Chaitra Gopalappa, Stephanie L. Sansom, Paul G. Farnham, and Yao-Hsuan Chen

**Combinations of Interventions to Achieve a National HIV Incidence Reduction Goal: Insights from an Agent-based Model**

*AIDS* 2017;31(18):2533–2539

A major goal of CDC's mission is to allocate resources efficiently. Understanding which intervention combinations will best help reach national HIV prevention goals will inform decision makers and program directors about how to allocate HIV prevention resources. This paper used modeling to analyze combinations of care-continuum targets that can generate a 25% reduction in new infections by 2020. Findings will help health departments fine tune their HIV prevention efforts.

Jeremy A. Grey, Kyle T. Bernstein, Patrick S. Sullivan, Sarah E. Kidd, Thomas L. Gift, Eric W. Hall, Abigail Hankin-Wei, Hillard S. Weinstock, and Eli S. Rosenberg

**Rates of Primary and Secondary Syphilis Among White and Black Non-Hispanic Men Who Have Sex With Men, United States, 2014**

*Journal of Acquired Immune Deficiency Syndromes* 2017;76(3):e65–e73

Trends in syphilis cases have followed the increasing trajectory seen among men who have sex with men. Early detection of disparities and improved prevention of syphilis among groups at risk can influence overall syphilis rates. This paper characterizes the burden of syphilis among racial, ethnic, and sexual minority populations, specifically non-Hispanic black and white men who have sex with men. Findings supplement what can be determined by using national surveillance data alone.

José E. Hagan, Yoshihiro Takashima, Amarzaya Sarankhuu, Otgonbayar Dashpagma, Baigalmaa Jantsansengee, Roberta Pastore, Gunregjav Nyamaa, Buyanjargal Yadamsuren, Mick N. Mulders, Kathleen A. Wannemuehler, Raydel Anderson, Bettina Bankamp, Paul Rota, and James L. Goodson

**Risk Factors for Measles Virus Infection Among Adults During a Large Outbreak in Postelimination Era in Mongolia, 2015**

*The Journal of Infectious Diseases* 2017;216(10):1187–1195

CDC contributes to global efforts to control vaccine-preventable diseases. This study analyzed measles risks during a nationwide outbreak. Authors identified a previously unknown risk group for measles susceptibility in Mongolia (young adults, particularly those born outside the capital). They also found evidence suggesting that latent effects of the immunization program breakdown that occurred during the collapse of the Soviet Union might have led to waning measles immunity among certain populations.

Cynthia J. Hines, Matthew V. Jackson, James A. Deddens, John C. Clark, Xiaoyun Ye, Annette L. Christianson, Juliana W. Meadows, and Antonia M. Calafat

**Urinary Bisphenol A (BPA) Concentrations Among Workers in Industries that Manufacture and Use BPA in the USA**

*Annals of Work Exposure and Health* 2017;61(2):164–182

Practically every American is exposed to bisphenol A (BPA), a man-made chemical used to make plastics, and epoxy resins that are used to protectively line some food cans. BPA may also be added to certain specialty waxes used to make wax patterns for casting metal parts in manufacturing plants. This manuscript describes the first assessment of exposure to BPA, a chemical suspected to affect the endocrine system, among American manufacturing workers.

Joy Hsu, Jessica Chen, and Maria C. Mirabelli

**Asthma Morbidity, Comorbidities, and Modifiable Factors Among Older Adults**

*The Journal of Allergy and Clinical Immunology: In Practice* 2018;6(1):236–243

By 2030, the number of U.S. adults aged 65 or older will more than double. This rapid growth in the number of older Americans will place strong demands on health care and aging-related services. This paper identifies and assesses causes and risk factors for higher rates of asthma deaths among older U.S. adults. The authors found that health professionals can use existing reporting systems to identify those with asthma who could benefit from additional interventions.

A. Danielle Iuliano, Katherine M. Roguski, Howard H. Chang, David J. Muscatello, Rakhee Palekar, Stefano Tempia, Cheryl Cohen, Jon Michael Gran, Dena Schanzer, Benjamin J. Cowling, Peng Wu, Jan Kyncl, Li Wei Ang, Minah Park, Monika Redlberger-Fritz, Hongjie Yu, Laura Espenhain, Anand Krishnan, Gideon Emukule, Liselotte van Asten, Susana Pereira da Silva, Suchunya Aungkulanon, Udo Buchholz, Marc-Alain Widdowson, and Joseph S. Bresee, for the Global Seasonal Influenza-associated Mortality Collaborator Network

**Estimates of Global Seasonal Influenza-associated Respiratory Mortality: A Modelling Study**  
*The Lancet* doi: 10.1016/S0140-6736(17)33293-2

Reliable country-specific influenza death estimates that describe influenza burden are critical for national and international decision making. Although influenza vaccines are distributed globally, vaccine use is limited due to uncertainty about influenza burden. This study analyzed methods used and accounted for differences among countries. The authors worked with collaborators from 47 countries to model vital records and surveillance data to calculate death estimates for 1999–2015 and applied estimates to countries without data.

Heesoo Joo, Brian Maskery, Tarissa Mitchell, Andrew Leidner, Alexander Klosovsky, and Michelle Weinberg

**A Comparative Cost Analysis of the Vaccination Program for U.S.-bound Refugees**

*Vaccine* 2017; doi: 10.1016/j.vaccine.2017.09.023

This study estimates the cost of the Vaccination Program for U.S.-bound Refugees (VPR) and can help inform policies. The VPR, a collaboration between CDC and the State Department, offers vaccines to U.S.-bound refugees overseas. By providing vaccines before departure, the VPR improves the health of refugees and U.S. communities by reducing the probability that refugees arrive with vaccine-preventable diseases. The assessment of costs of strategies clarifies VPR expenses and assists governments with refugee health programs.

Kathleen N. Ly, Ruth B. Jiles, Eyasu H. Teshale, Monique A. Foster, Rick L. Pesano, and Scott D. Holmberg

**Hepatitis C Virus Infection Among Reproductive-aged Women and Children in the United States, 2006 to 2014**

*Annals of Internal Medicine* 2017;166(11):775–782

Hepatitis C virus (HCV) infection among pregnant women has been difficult to quantify because screening among this population is not routinely performed. Many HCV infections among women and their infants go undetected because of under-recognition of risk behaviors and concerns about stigma and legal repercussions. This study describes the nature of HCV infection among pregnant women and their infants and advances understanding of the changing epidemiology of HCV during the nation's opioid crisis.

Marilyn J. Manco-Johnson, J. Michael Soucie, and Joan Cox Gill, for the Joint Outcomes Committee of the Universal Data Collection U.S. Hemophilia Treatment Center Network

**Prophylaxis Usage, Bleeding Rates, and Joint Outcomes of Hemophilia, 1999 to 2010: A Surveillance Project**

*Blood* 2017;129(17):2368–2374

Hemophilia is a genetic disorder primarily affecting males and characterized by the lack of a protein critical to normal blood clotting. This paper uses surveillance data from a large population of boys and men with severe hemophilia to track changes in the use and outcomes of treatment to prevent bleeding into joints. The same data analyzed longitudinally provides insights that will guide efforts to improve the health impact of this prevention strategy.

Louise B. Murphy, Miriam G. Cisternas, Kurt J. Greenlund, Wayne Giles, Casey Hannan, and Charles G. Helmick

### **Defining Arthritis for Public Health Surveillance: Methods and Estimates in Four U.S. Population Health Surveys**

*Arthritis Care & Research* 2017;69(3):356–367

Arthritis is a common chronic disease in the United States with significant economic, personal, and societal impact. Accurate prevalence estimates of arthritis are important to public health. This study examined arthritis prevalence from four frequently used U.S. population health surveys. The authors used two definition (arthritis defined by doctor diagnosis and by ICD codes) to make comparisons among the surveys and guided readers in appropriately interpreting and choosing estimates.

Sara E. Oliver, Elizabeth R. Unger, Rayleen Lewis, Darius McDaniel, Julia W. Gargano, Martin Steinau, and Lauri E. Markowitz

### **Prevalence of Human Papillomavirus Among Females After Vaccine Introduction-National Health and Nutrition Examination Survey, United States, 2003–2014**

*The Journal of Infectious Diseases* 2017;216(5):594–603

This paper provides an assessment of the human papillomavirus (HPV) vaccine program in the United States using high-quality, nationally representative data. The authors showed that within 8 years of HPV vaccine introduction, vaccine-type HPV prevalence decreased 71% among 14- to 19-year-olds and 61% among 20- to 24-year-olds. Estimated vaccine effectiveness was high. A decrease in HPV vaccine-type prevalence among unvaccinated females suggests herd immunity.

Robert M. Park and Shannon L. Berg

### **Manganese and Neurobehavioral Impairment. A preliminary risk assessment**

*Neurotoxicology* 2017; doi: 10.1016/j.neuro.2017.08.003

Exposure to manganese dust occurs primarily in mining and metallurgy. Recent studies indicate neurological deficits may occur when workers are exposed to manganese. The authors used quantitative risk assessment methods to determine the risks of impairment in workers' exposure in several industries. Although there is clear scientific evidence of the health effects at higher exposure levels, this study helps inform decision makers of the health effects of low-level exposures.

Gabriela Paz-Bailey, Eli S. Rosenberg, Kate Doyle, Jorge Munoz-Jordan, Gilberto A. Santiago, Liore Klein, Janice Perez-Padilla, Freddy A. Medina, Stephen H. Waterman, Carlos Garcia Gubern, Luisa I. Alvarado, and Tyler M. Sharp

**Persistence of Zika Virus in Body Fluids—Preliminary Report**

*The New England Journal of Medicine* 2017; doi: 10.1056/NEJMoa1613108

Between the discovery of Zika virus in the 1950s and its emergence in the early 2000s, only 20 human cases of Zika virus infection had been documented. As such, little was known about Zika virus infection. The authors enrolled 150 people early in the course of their infection and followed them for 6 months after their illness began. CDC made two major public health recommendations because of this study.

Matthew D. Ritchey, Fleetwood Loustalot, Hilary K. Wall, Claudia A. Steiner, Cathleen Gillespie, Mary G. George, and Janet S. Wright

**Million Hearts: Description of the National Surveillance and Modeling Methodology Used to Monitor the Number of Cardiovascular Events Prevented During 2012–2016**

*Journal of the American Heart Association* 2017; doi: 10.1161/JAHA.117.006021

Despite being the number one cause of death in the United States, there is no national surveillance system to track cardiovascular events. This study describes how the Million Hearts initiative combines emergency department, hospital, and mortality data systems to track cardiovascular events while preventing double-counting. Development of this method has helped overcome the limitations of national surveillance and helped the initiative to measure its success in meeting the aim of preventing 1 million events.

Jorge Rosenthal, Natalia Largaespada, Lynn B. Bailey, Michael Cannon, C. J. Alverson, Dayrin Ortiz, Gail Pa Kauwell, Joe Sniezek, Ramon Figueroa, Robyn Daly, and Peter Allen

**Folate Deficiency Is Prevalent in Women of Childbearing Age in Belize and Is Negatively Affected by Coexisting Vitamin B-12 Deficiency: Belize National Micronutrient Survey 2011(1–4)**

*The Journal of Nutrition* 2017;147(6):1183–1193

Neural tube defects such as spina bifida and anencephaly result in death or lifelong disability for those affected, but they are usually prevented when women consume enough folic acid before and during early pregnancy. However, many countries have not established prevention policies, often because awareness of the burden of neural tube defects is low. To guide public health programs such as food fortification, this paper assesses the risk of folate and other micronutrient deficiencies.

Lauren M. Rossen, Katherine A. Ahrens, and Amy M. Branum

**Trends in Risk of Pregnancy Loss Among U.S. Women, 1990–2011**

*Paediatric and Perinatal Epidemiology* 2018;32(1):19–29

Pregnancy loss is an experience shared by about 20% of U.S. women who become pregnant, and the risk of loss appears to have increased over the past several decades. More recently, there have been population-level changes in various risk factors for pregnancy loss, including the prevalence of obesity and increases in maternal age. Using nationally representative data on women of childbearing age, this paper details how the risk has increased over the past several decades.

Isaac See, Paul Wesson, Nicole Gualandi, Ghinwa Dumyati, Lee H. Harrison, Lindsey Leshner, Joelle Nadle, Susan Petit, Claire Reisenauer, William Schaffner, Amy Tunali, Yi Mu, and Jennifer Ahern

**Socioeconomic Factors Explain Racial Disparities in Invasive Community-Associated Methicillin-Resistant *Staphylococcus aureus* Disease Rates**

*Clinical Infectious Diseases* 2017;64(5):597–604

Methicillin-resistant *Staphylococcus aureus* (MRSA) is a common cause of antibiotic-resistant infections. Since CDC began surveillance in 2005, incidence has declined significantly for invasive healthcare-associated but not community-associated MRSA. This paper suggests strategies for reducing health disparities in invasive community-associated MRSA rates, based on the finding that depressed socioeconomic status drives racial disparities in invasive MRSA rates. These findings provide insights into interventions that could reduce racial disparities and community-associated invasive MRSA.

N. Sarita Shah, Sara C. Auld, James C. M. Brust, Barun Mathema, Nazir Ismail, Pravi Moodley, Koleka Mlisana, Salim Allana, Angela Campbell, Thuli Mthiyane, Natasha Morris, Primrose Mpangase, Hermina van der Meulen, Shaheed V. Omar, Tyler S. Brown, Apurva Narechania, Elena Shaskina, Thandi Kapwata, Barry Kreiswirth, and Neel R. Gandhi

**Transmission of Extensively Drug-resistant Tuberculosis in South Africa**

*The New England Journal of Medicine* 2017;376(3):243–253

Drug-resistant tuberculosis is the leading cause of antimicrobial resistance–related deaths worldwide. Drug-resistant TB is 50–100 times more expensive to treat than drug-susceptible TB, yet only 50% of patients are cured. This paper challenged a long-standing belief about drug-resistant TB and involved groundbreaking work to characterize how and where transmission is occurring in South Africa, the epicenter of the HIV and drug-resistant TB epidemic.

Aakash Shrivastava, Anil Kumar, Jerry D. Thomas, Kayla F. Laserson, Gyan Bhushan, Melissa D. Carter, Mala Chhabra, Veena Mittal, Shashi Khare, James J. Sejvar, Mayank Dwivedi, Samantha L. Isenberg, Rudolph Johnson, James L. Pirkle, Jon D. Sharer, Patricia L. Hall, Rajesh Yadav, Anoop Velayudhan, Mohan Papanna, Pankaj Singh, D. Somashekar, Arghya Pradhan, Kapil Goel, Rajesh Pandey, Mohan Kumar, Satish Kumar, Amit Chakrabarti, P. Sivaperumal, A. Ramesh Kumar, Joshua G. Schier, Arthur Chang, Leigh Ann Graham, Thomas P. Mathews, Darryl Johnson, Liza Valentin, Kathleen L. Caldwell, Jeffery M. Jarrett, Leslie A. Harden, Gary R. Takeoka, Suxiang Tong, Krista Queen, Clinton Paden, Anne Whitney, Dana L. Haberling, Ram Singh, Ravi Shankar Singh, Kenneth C. Earhart, A.C. Dhariwal, L.S. Chauhan, S. Venkatesh, and Padmini Srikantiah

**Association of Acute Toxic Encephalopathy with litchi Consumption in an Outbreak in Muzaffarpur, India, 2014: A Case-control Study**

*The Lancet Global Health* 2017;5(4):e458–e466

Outbreaks of an acute neurological illness with high rate of death among children occur every year in Muzaffarpur—India’s largest litchi cultivation region. In 2014, the authors investigated the cause and risk factors for this illness. In this hospital-based surveillance and age-matched case-control study, laboratory investigators assessed potential causes of the illness. Findings suggested minimizing litchi consumption, ensuring receipt of an evening meal, and carrying out rapid glucose correction for suspected illness.

James Tsai, Italia V. Rolle, Tushar Singh, Sheree L. Boulet, Timothy A. McAfee, and Althea M. Grant

### **Patterns of Marijuana and Tobacco Use Associated with Suboptimal Self-rated Health Among U.S. Adult Ever Users of Marijuana**

*Preventive Medicine Reports* 2017;6:251–257

Although studies have evaluated the effects of marijuana and tobacco use on health, combined patterns of their impact on health are uncertain. This paper characterized marijuana and tobacco use in relation to self-rated health among U.S. adults aged 20 years or older using data from the National Health and Nutrition Examination Survey. In the context of legalization of marijuana in some U.S. states, this study provides important information about the health impact of these activities.

John M. Violanti, Desta Fekedulegn, Michael E. Andrew, Tara A. Hartley, Luenda E. Charles, Diane B. Miller, and Cecil M. Burchfiel

### **The Impact of Perceived Intensity and Frequency of Police Work Occupational Stressors on the Cortisol Awakening Response (CAR): Findings from the BCOPS Study**

*Psychoneuroendocrinology* 2017;75:124–131

Because law enforcement can be stressful, police officers are ideal for examining workplace stress on physical and psychological health. This cross-sectional study identified five types of workplace stressors and examined their effect on poor health in a high-stress occupation. Findings indicated that officers who experience elevated levels of the most stressful events had a dysregulated stress response system that could lead to a variety of adverse health outcomes including cardiovascular disease.

## DATA METHODS AND STUDY DESIGN

Pallavi D. Annambhotla, Brian M. Gurbaxani, Matthew J. Kuehnert, and Sridhar V. Basavaraju

**A Model to Estimate the Probability of Human Immunodeficiency Virus and Hepatitis C Infection Despite Negative Nucleic Acid Testing Among Increased-risk Organ Donors**  
*Transplant Infectious Disease* 2017;19(2):e12676

According to the Organ Procurement and Transplant Network, more than 120,000 people are waiting for organs, but only 30,000 transplant surgeries take place each year. Further complicating the picture, about 20% of organs offered for transplant are designated "increased risk" due to their potential for harboring HIV and hepatitis viruses. This paper describes a non-laboratory mathematical model to better estimate the risk of undetected HIV and hepatitis C transmission related to organ transplantation.

Henry C. Baggett, Nora L. Watson, Maria Deloria Knoll, W. Abdullah Brooks, Daniel R. Feikin, Laura L. Hammit, Stephen R.C. Howie, Karen L. Kotloff, Orin S. Levine, Shabir A. Madhi, David R. Murdoch, J. Anthony G. Scott, Donald M. Thea, Martin Antonio, Juliet O. Awori, Vicky L. Baillie, Andrea N. DeLuca, Amanda J. Driscoll, Julie Duncan, Bernard E. Ebruke, Doli Goswami, Melissa M. Higdon, Ruth A. Karron, David P. Moore, Susan C. Morpeth, Justin M. Mulindwa, Daniel E. Park, Wantana Paveenkittiporn, Barameht Piralam, Christine Prosperi, Samba O. Sow, Milagritos D. Tapia, Khalequ Zaman, Scott L. Zeger, and Katherine L. O'Brien, for the Perch Study Group

**Density of Upper Respiratory Colonization with *Streptococcus pneumoniae* and Its Role in the Diagnosis of Pneumococcal Pneumonia Among Children Aged <5 Years in the PERCH Study**

*Clinical Infectious Diseases* 2017; 64(Suppl 3):S317–S327

Pneumococcal pneumonia is difficult to diagnose in young children, because commonly available methods (blood culture) lack sensitivity. This study employed improved estimates of childhood pneumonia caused by *Streptococcus pneumoniae*, a leading and vaccine-preventable cause of severe disease and death in children under 5 years old. The investigators used data from the Pneumonia Etiology Research for Child Health (PERCH) study, a seven-country case-control study that aimed to determine the causes of pneumonia in young children.

Blosser, Erika Chapman, Jeremy C. Roseberry, Jessica Gentry, Pamela Pontones, Joan Duwve, Paula Peyrani, Ron M. Kagan, Jeannette M. Whitcomb, Philip J. Peters, Walid Heneine, John T. Brooks, and William M. Switzer

**Detailed Transmission Network Analysis of a Large Opiate-Driven Outbreak of HIV Infection in the United States**

*The Journal of Infectious Diseases* 2017;216(9):1053–1062

The U.S. opioid epidemic and increase in the number of people who inject drugs are a health emergency. Researchers merged data science, a simulation, and network theory with traditional epidemiology and laboratory methods. They also adapted methods and developed computational techniques to answer questions during the investigation. Findings suggest most infections were present when the investigation began, and early transmission may have been associated with sexual activity and injection drug use.

Brigette L. Gleason, Stephanie L. Foster, Grete E. Wilt, Barbara Miles, Brian Lewis, Katherine Cauthen, Michael King, Francis Bayor, Sorie Conteh, Tom Sesay, Sorie I.B. Kamara, Greg Lambert, Patrick Finley, Walter Beyeler, Thomas Moore, Jennifer Gaudio, Peter H. Kilmarx, and John T. Redd

**Geospatial Analysis of Household Spread of Ebola Virus in a Quarantined Village—Sierra Leone, 2014**

*Epidemiology and Infection* 2017; 145(14):2921–2929

Allocating scarce resources during the 2014 Ebola outbreak proved contentious. This paper describes a field study aimed at reducing death from Ebola virus disease (EVD) in Sierra Leone by using household interview data and the household GPS for onsite geocoding with Google Earth to characterize the spread of EVD within one affected village. Researchers identified risk factors for household Ebola acquisition that can help guide public health interventions in future outbreaks.

Lee S. Katz, Taylor Griswold, Amanda J. Williams-Newkirk, Darlene Wagner, Aaron Petkau, Cameron Sieffert, Gary Van Domselaar, Xiangyu Deng, and Heather A. Carleton

**A Comparative Analysis of the Lyve-SET Phylogenomics Pipeline for Genomic Epidemiology of Foodborne Pathogens**

*Frontiers in Microbiology* 2017; doi: 10.3389/fmicb.2017.00375

Modern epidemiology of foodborne bacterial pathogens relies increasingly on whole genome sequencing (WGS). Since 2013, U.S. agencies responsible for food safety have performed WGS on all *Listeria monocytogenes* found in clinical, food, and environmental samples. The authors built a whole-genome single-nucleotide polymorphism phylogenomics pipeline called Lyve-SET to aid in epidemiological investigations. Lyve-SET has been placed in the public domain and is used routinely worldwide to enhance public health practice and reduce the burden of infectious disease.

Diba Khan, Lauren M. Rossen, Brady Hamilton, Erin Dienes, Yulei He, and Rong Wei

**Spatiotemporal Trends in Teen Birth Rates in the USA, 2003–2012**

*Journal of the Royal Statistical Society* 2018;181(1):35–58

Teen birth rates have declined over the past several years across the United States. However, county-level variations and trends over time have not been explored. Although teen births are collected at the county level, resulting raw county rates are often too imprecise for practical use for many small counties. In this analysis researchers explored county variations in teen birth rates across counties in the United States, from 2003 to 2012, by using hierarchical Bayesian models.

Ji Lin, Xiaohui Zhuo, Barbara Bardenheier, Deborah B. Rolka, W. Edward Gregg, Yuling Hong, Guijing Wang, Ann Albright, and Ping Zhang

**Cost-effectiveness of the 2014 U.S. Preventive Services Task Force (USPSTF) Recommendations for Intensive Behavioral Counseling Interventions for Adults with Cardiovascular Risk Factors**

*Diabetes Care* 2017;40(5):640–646

Diabetes is the nation's most expensive disease and cardiovascular disease is our number one killer. This study used a diabetes computer simulation model to assess the long-term cost-effectiveness of the newly recommended behavioral counseling service for preventing diabetes and cardiovascular disease by the U.S. Preventive Services Task Force. The model can be used to accurately quantify the long-term health and economic consequences of several interventions used for preventing and managing type 2 diabetes.

**Determining the Seasonality of Respiratory Syncytial Virus in the United States: The Impact of Increased Molecular Testing**

*The Journal of Infectious Diseases* 2017;216(3):345–355

Respiratory syncytial virus (RSV) is a major cause of respiratory infections in children and older adults. RSV diagnostic testing increasingly employs molecular diagnostic assays. Polymerase chain reaction results are now reported more widely and have become increasingly important for routine RSV surveillance. Determining RSV seasonality with PCR-based reports yields a better understanding of virus circulation for epidemiologic purposes. This paper assesses the impact of such methods on RSV surveillance and determining the seasonality of RSV.

Cora Peterson, Curtis Florence, Robert Thomas, and Joanne Klevens

**Cost-Benefit Analysis of Two Child Abuse and Neglect Primary Prevention Programs for U.S. States**

*Prevention Science* 2017; doi: 10.1007/s11121-017-0819-8

One in four children experience child maltreatment such as neglect, physical or sexual abuse, and psychological maltreatment, all of which can lead to serious health effects, but maltreatment can be prevented. The authors merged and translated a variety of unrelated previous scientific findings on prevention programs' effectiveness. In presenting cost-benefit results specific to each U.S. state, this paper can help scale up cost-effective public health approaches to a serious public health problem.

Harrison Quick, Lance A. Waller, and Michele Casper

**A Multivariate Space–time Model for Analysing County Level Heart Disease Death Rates by Race and Sex**

*Journal of the Royal Statistical Society Series C Applied Statistics* 2017;67(1):291–304

While many researchers have employed multivariate spatial or spatiotemporal extensions of the conditional autoregressive model, multivariate space-time analyses have been scarce. In this study, the authors developed, evaluated, and applied a Bayesian multivariate spatiotemporal statistical model applied to heart disease death. The model can be used for other health conditions and data sources, and the approach yields precise local-level data that allow researchers to accurately assess the burden of heart disease in communities.

**Detecting Local Zika Virus Transmission in the Continental United States: A Comparison of Surveillance Strategies**

*PLoS Currents: Outbreaks* 2017; doi: 10.1371/ currents.outbreaks.cd76717676629d47704170ecbdb5f820

Public health decisions are often based on uncertain data and potential outcomes. The 2015–2017 Zika virus epidemic drove efforts to improve surveillance systems and to develop interventions, testing, and travel recommendations. The authors developed a simulation model to incorporate the uncertainties and estimate outcomes reflecting those uncertainties. This approach included critical components of each approach and allowed assessment of all outcomes of interest.

**Estimation of Chronic Kidney Disease Incidence from Prevalence and Mortality Data in American Indians with Type 2 Diabetes**

*PLoS One* 2017;12(2):e0171027

No population-based incidence data exist on chronic kidney disease, except for during its advanced stages. This paper validates a new use of the illness-death model—a mathematical relationship between incidence, prevalence, and mortality—for computing the incidence density rate of chronic kidney disease. The new procedure adds a methodological tool with which to derive information from CDC cross-sectional surveys to improve understanding of chronic disease processes.

Fuyuen Yip, Bryan Christensen, Kanta Sircar, Luke Naeher, Nigel Bruce, David Pennise, Matthew Lozier, Tamara Piliishvili, Jennifer Loo Farrar, Debbi Stanistreet, Ronald Nyagol, Justus Muoki, Lindsey de Beer, Michael Sage, and Vikas Kapil

**Assessment of Traditional and Improved Stove Use on Household Air Pollution and Personal Exposures in Rural Western Kenya**

*Environment International* 2017; 99:185–191

More than 40% of families rely on solid fuels for heating and cooking. This poses risks for respiratory and cardiovascular diseases that most often affect women and children. This study improves our understanding of exposures to cookstove emissions from traditional and improved stoves. The authors used a single-arm pre- and post-intervention study to determine the performance of six improved cookstoves in a setting of daily stove use.

## LABORATORY SCIENCE

Justin M. Hettick, Brandon F. Law, Chen-Chung Lin, Adam V. Wisniewski, and Paul D. Siegel

### **Mass Spectrometry-based Analysis of Murine Bronchoalveolar Lavage Fluid Following Respiratory Exposure to 4,4'-Methylene Diphenyl Diisocyanate Aerosol**

*Xenobiotica* 2017; doi: 10.1080/00498254.2017.1344791

Diisocyanates are a family of chemical building blocks used to manufacture polyurethane products, particularly spray foam insulation, truck bed liners, and adhesives. They are also known to cause asthma and allergic reactions. Methylene diphenyl diisocyanate (MDI) is the most widely used diisocyanate. This study confirms that albumin is the major protein haptenated by MDI and shows the specific amino acids to which it reacts after live exposure.

### **Influenza Virus Exploits Tunneling Nanotubes for Cell-to-Cell Spread**

*Scientific Reports* 2017; doi: 10.1038/srep40360

The findings of this study provide an explanation for observations regarding lower-than-expected vaccine and antiviral effectiveness for influenza. The study fills the knowledge gap in our understanding by proposing a mechanism by which influenza viruses can spread from an infected cell to an uninfected cell using intercellular networks that connect epithelial cells, and thereby evade detection by the immune surveillance system and inhibition by antiviral drugs.

Sreekumar Othumpangat, Nicole B. Bryan, Donald H. Beezhold, and John D. Noti

**Upregulation of miRNA-4776 in Influenza Virus Infected Bronchial Epithelial Cells Is Associated with Downregulation of NFKBIB and Increased Viral Survival**

*Viruses* 2017; doi: 10.3390/v9050094

In the United States, the annual costs of influenza are about \$4.6 billion. Another \$7 billion are lost to sick days and lost productivity. Understanding how influenza spreads is essential for developing intervention strategies. The failure of vaccines to combat influenza emphasizes the need to develop new methods that target host genes used by the virus for its survival. This study identified a regulatory molecule involved in the survival and replication of the influenza virus.

**Immunocapture Isotope Dilution Mass Spectrometry in Response to a Pandemic Influenza Threat**

*Vaccine* 2017;35(37):5011–5018

The spread of an unknown influenza type can quickly become a public health emergency. Vaccination is the primary means to reduce sickness and death caused by influenza, but preparing vaccines for a new strain takes 6 to 9 months. The authors describe the use of immunocapture coupled with isotope dilution mass spectrometry to ensure high-quality vaccines. The result of this work can accelerate vaccine delivery to combat pandemics.

**Bead-based Immunoassay Allows Sub-picogram Detection of Histidine-rich Protein 2 from Plasmodium Falciparum and Estimates Reliability of Malaria Rapid Diagnostic Tests**

*PLoS One* 2017;12(2):e0172139

Malaria affects nearly 50% of the world population, causing millions of clinical cases and contributing to about 400,000 deaths annually. This paper describes a new assay that is more than 200 times more sensitive than conventional field diagnostic tests for malaria and can be used to screen large numbers of samples for detection. The assay has been used to develop additional studies of malaria infection dynamics in various settings.

**Field Evaluation of Dried Blood Spots for HIV-1 Viral Load Monitoring in Adults and Children Receiving Antiretroviral Treatment in Kenya: Implications for Scale-up in Resource-limited Settings**

*Journal of Acquired Immune Deficiency Syndrome* 2017;74(4):399–406

In 2013, the World Health Organization recommended use of HIV viral load testing to monitor patients on antiretroviral therapy. However, such testing requires blood samples be transported to laboratories within 24 hours or centrifuged to obtain plasma, which must then be transported. In this paper the authors determined that collecting dried blood spot specimens, which are easily collected, stored, and transported at regular temperatures, is a reasonable alternative to standard viral load testing.

**Modelling Filovirus Maintenance in Nature by Experimental Transmission of Marburg Virus Between Egyptian Rousette Bats**

*Nature Communications* 2017;8:14446

It has long been unclear how Marburg virus (the close cousin of Ebola virus) is spread from host animals. This study, using Marburg virus and its natural host, the Egyptian fruit bat, describes the development of a working animal model for measuring the spread of the virus from a bat species. The authors' use of biosafety level-4 laboratory conditions enabled them to measure and understand virus and host considerations that drive spillover to humans..

**Novel Multipurpose Pod-intravaginal Ring for the Prevention of HIV, HSV, and Unintended Pregnancy: Pharmacokinetic Evaluation in a Macaque Model**

*PLoS One* 2017;12(10):e0185946

Preexposure prophylaxis (PrEP) for preventing HIV acquisition has shown encouraging results. Sticking to PrEP use in clinical trials is a major factor in its effectiveness. This paper describes the development and evaluation of the pod-intravaginal ring. The ring can deliver as many as 10 drugs and be customized to target multiple pathogens. The ring should help women stick to their medication regimen better and work more effectively than taking pills every day.

### **Inhalation Exposure to Three-dimensional Printer Emissions Stimulates Acute Hypertension and Microvascular Dysfunction**

*Toxicology and Applied Pharmacology* 2017;335:1–5

Before the expiration of patents, three-dimensional printers cost thousands of dollars, but today they can be bought for less than \$300. As three-dimensional printing becomes more common it is critical that exposures and risks of emissions are understood. This paper describes the harm from exposure to three-dimensional printer emissions and should stimulate research on the toxicity of exposures. Findings suggest exposure levels that cause adverse responses were lower than many known hazardous materials.

### **Survival, Persistence, and Isolation of the Emerging Multidrug-resistant Pathogenic Yeast *Candida auris* on a Plastic Health Care Surface**

*Journal of Clinical Microbiology* 2017;55(10):2996–3005

*Candida auris* is a newly discovered multidrug-resistant yeast that is causing outbreaks of infections with high death rates on five continents. This paper shows that the survival and persistence of *C. auris* outside a human host allows ample time for transmission within a healthcare facility. The authors describe the development and evaluation of a laboratory method to isolate *C. auris* from clinical and environmental samples that often contain a complex community of microbes.

## PREVENTION AND CONTROL

Rahi Abouk, Scott D. Grosse, Elizabeth C. Ailes, and Matthew E. Oster

### **Association of U.S. State Implementation of Newborn Screening Policies for Critical Congenital Heart Disease with Early Infant Cardiac Deaths**

*JAMA* 2017;318(21):2111–2118

Before 2011, about 1,000 U.S. infants died each year of some type of congenital heart disease or defect before 6 months of age. Most U.S. states mandate screening, but most countries do not. Population-based studies of newborn screening are scarce. This study calculated reductions in early infant cardiac deaths in eight states that established screening mandates by June 1, 2013 but found no reduction in deaths associated with voluntary screening policies.

Robert Belknap, David Holland, Pei-Jean Feng, Joan-Pau Millet, Joan A. Caylá, Neil A. Martinson, Alicia Wright, Michael P. Chen, Ruth N. Moro, Nigel A. Scott, Bert Arevalo, José M. Miró, Margarita E. Villarino, Marc Weiner, and Andrey S. Borisov, for the TB Trials Consortium iAdhere Study Team

### **Self-administered Versus Directly Observed Once-weekly Isoniazid and Rifapentine Treatment of Latent Tuberculosis Infection: A Randomized Trial**

*Annals of Internal Medicine* 2017;167(10):689–697

Reactivation of latent tuberculosis infection is responsible for the majority of active TB cases in the United States. This randomized trial showed that self-administration of the 12-dose, 3-month regimen of isoniazid and rifapentine, known as 3HP, in the United States was safe and achieved a level of adherence and completion of therapy that was similar to administration by directly observed therapy, which is a highly effective but intrusive and costly.

Jennifer L. Bell, Matthew A. Taylor, Guang-Xiang Chen, Rachel D. Kirk, and Erin R. Leatherman

### **Evaluation of an In-vehicle Monitoring System (IVMS) to Reduce Risky Driving Behaviors in Commercial Drivers: Comparison of In-cab Warning Lights and Supervisory Coaching with Videos of Driving Behavior**

*Journal of Safety Research* 2017;60:125–136

Roadway collisions are consistently the leading cause of injury and death for U.S. workers. This study evaluated in-vehicle monitoring systems installed in company vehicles and recorded behaviors such as hard braking, swerving, and speeding for 30 seconds before and after each incident. Data were collected from different vehicles and driving patterns (oil and gas extraction operations or local truck transportation), as drivers at 20 locations in 12 U.S. states performed their work.

Adam Bjork and Daniel M. Sosin

**Characterization of Departures from Regulatory Requirements Identified During Inspections Conducted by the U.S. Federal Select Agent Program, 2014–2015**

*Health Security* 2017;15(6):587–598

CDC's Federal Select Agent Program regulates 66 biological agents and toxins that threaten the health of people, animals, and plants. This investigation led to improved practices to increase biosafety and biosecurity of biological agents and toxins. In doing so, the United States will have a decreased risk of terrorism by constraining access to these agents and decreasing the risk of accidental release through enforcement of biosafety standards.

**Transfer of Bacteriophage MS2 and Fluorescein from N95 Filtering Facepiece Respirators to Hands: Measuring Fomite Potential**

*Journal of Occupational and Environmental Hygiene* 2017;14(11):898–906

Acquiring or spreading pathogens by touching personal protective equipment is a concern within the healthcare industry. During public health outbreaks, resources become constrained and personal protective equipment, such as N95 filtering facepiece respirators, may have to be reused. The authors of this study measured the efficiency with which viruses moved from N95 respirators to human hands during exercises that mimic respirator use in health care.

**Effectiveness of a Third Dose of MMR Vaccine for Mumps Outbreak Control**

*The New England Journal of Medicine* 2017;377(10):947–956

Mumps cases have increased in the past 2 years to more than 5,000 cases annually in the United States, with most cases occurring during outbreaks in vaccinated populations. The effect of a third dose of the measles–mumps–rubella (MMR) vaccine in stopping a mumps outbreak is unknown. This study characterizes the effectiveness of the third dose of MMR—a critical question for the U.S. vaccination program at a time when mumps cases have surged.

Mitesh A. Desai, Dancun O. Okal, Charles E. Rose, Richard Ndivo, Boaz Oyaro, Fredrick O. Otieno, Tiffany Williams, Robert T. Chen, Clement Zeh, and Taraz Samandari

**Effect of Point-of-care CD4 Cell Count Results on Linkage to Care and Antiretroviral Initiation During a Home-based HIV Testing Campaign: A Non-blinded, Cluster-randomised Trial**

*The Lancet HIV* 2017;4(9):e393-e401

The burden of the HIV epidemic is highest in Africa, where 68% of the 37 million people living with HIV reside. Efforts to bring HIV under control rely on promoting antiretroviral therapy. This paper reports on a randomized controlled trial of an intervention for linking people with HIV to care. The authors identified a strategy for improving that link to HIV care by giving people immune-cell testing devices.

Richard Dunville, Amy Peterson, Nicole Liddon, Mary Roach, Kenneth Coleman, and Patricia Dittus

**Sustained Reduction in Chlamydia Infections Following a School-based Screening: Detroit, 2010–2015**

*American Journal of Public Health* 2018;108(2):231–233

Chlamydia is the most commonly reported nationally notifiable disease. In 2014, an estimated 28% of infections were among those aged 15 to 19 years. This paper evaluates a school-based screening intervention among a highly vulnerable population in Detroit, Michigan; describes a reduction in chlamydia prevalence associated with the program; and offers recommendations for carrying out the intervention.

**Effects of Concurrent Exposure to Antiretrovirals and Cotrimoxazole Prophylaxis Among HIV-exposed, Uninfected Infants**

*AIDS* 2017;31(18):2455–2463

Given the potential of cotrimoxazole preventive therapy (CPT) to prevent bacterial and malarial infections in HIV-exposed, uninfected (HEU) infants, the authors evaluated CPT toxicity when used with antiretroviral agents. In HIV-positive children, CPT has been associated with a 43% decrease in death, while in HEU infants, CPT is associated with decreased sickness and death. Findings suggest that interactions between CPT and antiretroviral treatment were not significant.

Leslie A. MacDonald, Stephen Bertke, Misty J. Hein, Suzanne Judd, Sherry Baron, Robert Merritt, and Virginia J. Howard

**Prevalence of Cardiovascular Health by Occupation: A Cross-sectional Analysis Among U.S. Workers Aged  $\geq 45$  Years**

*American Journal of Preventive Medicine* 2017;53(2):152–161

Heart disease and stroke are leading causes of death in the United States. In this study, the authors compile a comprehensive profile of the cardiovascular health of U.S. workers aged 45 years or older. The study informs targeted efforts to sustain the health of aging workers. Findings suggest the workforce's cardiovascular health profile is not randomly distributed within the labor market, even when adjusting for education and income.

Emily Mosites, Anna Frick, Prabhu Gounder, Louisa Castrodale, Yuan Li, Karen Rudolph, Debby Hurlburt, Kristen D. Lecy, Tammy Zulz, Tolu Adebajo, Jennifer Onukwube, Bernard Beall, Chris A. Van Beneden, Thomas Hennessy, Joseph McLaughlin, and Michael G. Bruce

**Outbreak of Invasive Infections from Subtype emm26.3 Group A *Streptococcus* Among Homeless Adults—Anchorage, Alaska, 2016–2017**

*Clinical Infectious Diseases* 2017;66(7):1068–1074

Group A *Streptococcus* can cause a range of infections such as strep throat and impetigo. In the past two years, three outbreaks of a rare invasive group A strep have been reported in Canada, and two have been reported in England. This paper describes outbreaks common among homeless populations in these countries and an inexpensive response to the outbreaks that decreased weekly incidence of the strain by 90% without increasing antibiotic resistance.

Tami H. Skoff, Amy E. Blain, James Watt, Karen Scherzinger, Melissa McMahon, Shelley M. Zansky, Kathy Kudish, Paul R. Cieslak, Melissa Lewis, Nong Shang, and Stacey W. Martin

**Impact of the U.S. Maternal Tetanus, Diphtheria, and Acellular Pertussis Vaccination Program on Preventing Pertussis in Infants  $< 2$  Months of Age: A Case-control Evaluation**

*Clinical Infectious Diseases* 2017;65(12):1977–1983

Effective pertussis vaccine programs have reduced U.S. pertussis incidence, but reported pertussis cases have been on the rise recently. Infants remain vulnerable to pertussis from birth until they receive direct protection through primary immunization beginning at 2 months old. The authors present a case-control evaluation of effectiveness of maternal Tdap (tetanus, reduced dose diphtheria, and pertussis vaccine) vaccination during pregnancy at preventing pertussis among infants under 2 months old.

Meghan Weinberg, Stephanie Dietz, Rachel Potter, Robert Swanson, Corinne Miller, and Jevon McFadden

**Vaccine Shot-limiting: Estimating the Prevalence, Indicators, and Impact on Vaccination Status—Michigan, 2012**

*Vaccine* 2017;35(7):1018–1023

Vaccines are one of public health's best prevention tools, but this study found some parents limit the number of shots their children receive per visit and are less likely to have their children's vaccination record up to date, possibly increasing their risk for vaccine-preventable diseases. This paper encourages healthcare providers to follow the Advisory Committee on Immunization Practices-recommended schedule and to take steps to ensure children on delayed schedules finish their vaccine series.

Christine Yoshinaga-Itano, Allison L. Sedey, Mallene Wiggin, and Winnie Chung

**Early Hearing Detection and Vocabulary of Children with Hearing Loss**

*Pediatrics* 2017;140(2):e20162964

Children who are deaf or hard of hearing usually fall behind their hearing peers in language, cognition, and social-emotional development. This paper reports on a CDC-funded effort to prevent language disability in children with bilateral congenital hearing loss. Findings suggest adherence to the objectives of the Early Hearing Detection and Intervention program improves vocabulary among children with congenital hearing loss, even when controlling for a variety of factors associated with language development.

# LIFETIME SCIENTIFIC ACHIEVEMENT

*The following current or former CDC/ATSDR employees were nominated for the Lifetime Scientific Achievement Award, which recognizes individuals for a body of work contributing to public health. Nominees are judged on their work's scientific merit, its effect on public health and the CDC/ATSDR mission, and on their leadership and recognition by peers.*

## Steven L. Cochi, MD, MPH

*Center for Global Health*

For 35 years, Dr. Steven Cochi has been shaping and carrying out national and international immunization policy and strategies to reduce the burden of vaccine-preventable diseases. He pioneered the Global Polio Eradication Initiative, which has brought the world close to eradicating polio. Four of six World Health Organization (WHO) regions have been certified polio-free. Only three countries remain polio-endemic (Nigeria, Afghanistan, and Pakistan); and only 37 cases were reported in 2016. He also has led the Measles and Rubella Initiative, which has decreased measles deaths by 79%, from 546,800 in 2000 to 114,900 in 2014. Measles elimination goals have been established in all WHO regions. Rubella elimination has been achieved in the Americas, and elimination goals have been established in two additional WHO regions.

Dr. Cochi's contributions to studies of Hib disease were instrumental in achieving licensure of the first Hib vaccine in 1985 for routine use in children. He also coordinated a series of studies to define the burden of varicella disease in the United States, determine the cost-effectiveness of a routine varicella vaccination program, and mathematically model a vaccination program, which led to licensure of varicella vaccine in 1995 for children.

Dr. Cochi has authored or coauthored more than 130 journal articles, 150 CDC publications, and 25 book chapters, which have provided an evidence-base for national and international immunization policy and program strategies. He has also been an editor for six compilations issues for journal supplements describing progress towards global immunization initiatives.

Dr. Cochi has received more than 30 CDC awards in validation of his body of scientific work by scientific peers including the Public Health Distinguished Service Medal in 1996 and Charles C. Shepard Science awards in 1996 for the best overall scientific paper, and in 2003 for the best scientific paper in the Assessment and Epidemiology category. He is a member of the American Academy of Pediatrics, American Public Health Association, Pediatric Infectious Diseases Society, Infectious Diseases Society of America, and the American Epidemiological Society. In 2013, he was recognized as one of 50 most influential people in the vaccine field globally. In 2016, he was nominated to the U.S. National Academy of Medicine for his contributions to the field of global immunization

## Denise Jamieson, MD, MPH

*National Center for Chronic Disease Prevention and Health Promotion*

Dr. Denise Jamieson's scientific work has improved maternal and child health worldwide. Since pediatric HIV infection was first documented, Dr. Jamieson has led landmark research on HIV in pregnancy that helped shape antiviral prophylaxis for perinatal HIV transmission, which decreased perinatal sickness and death around the world. From 2000 to 2003, Dr. Jamieson played a leadership role in the Mother-Infant Rapid Intervention at Delivery study, which documented the role rapid testing in labor and delivery settings has for reducing perinatal HIV transmission. This work led to worldwide use of rapid HIV testing in labor and delivery.

Dr. Jamieson's leadership in three of CDC's most complex emergency responses over the past decade has helped protect pregnant women and their infants from influenza, Ebola, and Zika. In January 2016, she co-led the Pregnancy & Birth Defects Task Force (PBDTF) and coauthored a key paper published in *The New England Journal of Medicine* that helped establish the link between Zika virus infection and birth defects. This paper was the sixth most discussed and shared academic paper of 2016 among 2.7 million research papers tracked by Altmetric.

Beginning in October 2016, Dr. Jamieson assumed the role of incident manager for the entire Zika response, leading more than 500 staff. Under her leadership, CDC issued travel notices for pregnant women and their partners, published clinical guidance documents for the care of pregnant women and their infants, identified sexual transmission of Zika, monitored blood and tissue safety issues in Zika-affected areas, developed laboratory kits and reagents, and carried out vector control strategies. Her work in establishing the causal link between the Zika virus and birth defects, coupled with the issuing of clinical and travel guidance, weakened the fetal effects of Zika virus infection.

Dr. Jamieson has authored more than 400 peer-reviewed publications and earned a variety of awards, including the 2005 and 2011 Charles C. Shepard Science Award. She has been a finalist for this award five times. She has also won the CDC & ATSDR Honor Award for Excellence in Emergency Response three times. She has received numerous Commissioned Corps Outstanding Service Medals and the U.S. Department of Health and Human Services Secretary's Award for Distinguished Service.

## James L. Pirkle, MD, PhD

*National Center for Environmental Health*

During a career that has lasted more than 36 years at CDC, Dr. James Pirkle has helped solve an array of public health problems that affect every American. His efforts to improve human exposure assessment have helped establish biomonitoring as a vital part of public health practice. He helped create laboratory methods leading to efforts to limit harmful exposures, including those from tobacco smoke and lead in gasoline. Dr. Pirkle has helped the Division of Laboratory Science (DLS) improve the precision of clinical measurements used to diagnose, treat, and prevent chronic disease. He has also helped introduce the measurement of trans-fats and document a major decline in trans-fat levels through food labelling.

Through Dr. Pirkle's research and leadership, DLS has world-class expertise in all major areas of clinical analytic laboratory measurements: metals, radionuclides, small molecules, peptides, proteins, lipids, and nucleic acids. By widely sharing division laboratory methods, Dr. Pirkle and division scientists have helped to raise standards and improve methods at thousands of laboratories around the world.

Dr. Pirkle analyzed national blood lead data and identified a correlation with use of lead in gasoline in the United States. These findings influenced EPA to remove lead from gasoline. As lead was removed from gasoline, blood lead levels in the U.S. population decreased by 78% and the percentage of children 1 to 5 years of age with lead levels above the health concern threshold decreased from 88% to 8.9%. These decreases in children's blood lead levels have improved the cognitive ability of U.S. children. Further, these findings influenced many countries to remove lead from gasoline and achieve similar declines in blood lead levels. In the same way, Dr. Pirkle's team characterized the U.S. population's exposure to secondhand smoke, which led to laws prohibiting smoking in public places.

Dr. Pirkle's most important accomplishments have been his contributions to building DLS laboratories whose quality and scientific achievements in public health are widely recognized. He has authored or coauthored 133 published articles and has received more than 20 honors of recognition including the Arnall Patz Lifetime Achievement Award, Assistant Secretary for Health's Award for Exceptional Achievement, Commissioned Corps Distinguished Service Medal, and the Charles C. Shepard Award for Laboratory and Methods.

## Lawrence B. Schonberger, MD, MPH

*National Center for Emerging and Zoonotic Infectious Diseases*

During a career spanning more than 40 years, Dr. Lawrence Schonberger has made substantial contributions to the epidemiology of viral, prion, and rickettsial infections. He is internationally known for his contributions to discovering the epidemiology and best preventive practices for a series of mysterious illnesses, including Reye Syndrome, vaccine-associated Guillain-Barré syndrome (GBS), and prion diseases.

Dr. Schonberger's work is noted for taking on challenging epidemiologic questions and analyzing data to identify risks and connections for diseases and syndromes with unknown causes. His leadership and vision have helped to control Reye syndrome, and his findings led to changes in labelling and medication practices. Similarly, his work on influenza vaccine-associated GBS altered the course of a national vaccination program in 1976, saving lives.

His work also inspired and sometimes challenged others. In 1991, an epidemiologic study on GBS associated with the 1976 influenza vaccination campaign was published that had been conducted with input from other experts who, despite Dr. Schonberger's analyses, persistently questioned the existence of an increased risk of GBS after swine flu vaccinations. A later study conducted in two states corroborated Dr. Schonberger's findings, showing an increased GBS risk after vaccination.

For decades, Dr. Schonberger has displayed exemplary leadership, initiative, and achievement, resulting in substantial improvements in the prevention and control of multiple diseases. He has coauthored more than 250 publications in peer-reviewed journals and CDC reports, including seven Shepard Award-nominated papers. His leadership of the Epidemiology Office in the Division of Viral Diseases has influenced the career paths of scores of CDC epidemiologists.

Dr. Schonberger has received numerous honors and awards, including Commissioned Corps medals such as the Meritorious Service Medal for his prion disease work and, from his colleagues for his support working with junior-level epidemiologists, a Phillip S. Brachman Distinguished Friend of the EIS Award. In 2011, he was awarded the James M. Hughes Medal of Excellence by the National Center for Emerging and Zoonotic Infectious Diseases for his exemplary leadership, initiative, and achievements. Dr. Schonberger is a past president of the American Epidemiological Society. Even after 40 years, he still comes to work each day, mentoring junior staff, working with peers, and creating lasting and meaningful relationships with partners across the federal government and academia.

## John W. Ward, MD,

*National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention*

Since 1984, Dr. John W. Ward has been a principal contributor to the body of scientific knowledge on some of the most challenging and consequential public health problems of the 20th and 21st centuries. He began his career as an Epidemic Intelligence Service officer assigned to CDC's AIDS Activity. Since then, his scientific achievements in the field of HIV/AIDS and viral hepatitis have included the discovery and elaboration of risk factors, transmission modes, vulnerable population needs, and racial and ethnic disparities. He has also helped develop effective ways to prevent and control infection, disease complications, and premature death from HIV/AIDS and viral hepatitis.

Dr. Ward's scientific achievements are many and varied. He provided the first evidence for a new laboratory test for HIV that improved the safety of the nation's blood supply. He identified new routes by which HIV spreads, such as cornea and bone transplants and plasma donations, as well as the actions needed to stop such transmission. He conducted the first natural history study of HIV among adults and children infected with the virus by unscreened blood donations to document the high death rates for people infected with HIV and factors related to disease progression. He improved surveillance of HIV-related illnesses to include tuberculosis, toxoplasmosis, and other opportunistic infections among people infected with HIV to guide national recommendations for HIV prevention, care, and treatment. He expanded the case definition for HIV/AIDS surveillance, which remains the surveillance standard today. He developed the first CDC recommendations for hepatitis B and C testing for people born between 1945 and 1965. He also guided new World Health Organization policies for hepatitis A and B vaccination, hepatitis C testing, viral hepatitis modelling, and development of the WHO strategic prevention framework, including the first global goals for the elimination of hepatitis B and C as public health threats.

During his 31 years at CDC, Dr. Ward has supervised some 150 multidisciplinary senior-level professionals. He is frequently asked to provide expert reviews for *The Lancet*, *The New England Journal of Medicine*, *JAMA* and many other journals. He is often invited to serve on organizing committees for numerous national and international conferences and to give keynote addresses, lectures, and presentations.

## Paul A. Schulte, PhD, MS

*National Institute for Occupational Safety and Health*

Dr. Paul Schulte has made significant contributions to the field of occupational safety and health, public health, and the protection and well-being of the workforce in the United States and around the world. He has been at the leading edge of advancing scientific knowledge and workplace safety and health policy in numerous areas, including molecular epidemiology, genetics in the workplace, risk communication, prevention through design, surveillance, and nanotechnology. He was a pioneer in the development of policies and methods to ensure research study subjects are informed of study results. He was an early proponent of workers' right to know their risks of workplace exposures and identified this as an important emerging public health issue.

Among Dr. Schulte's most notable contributions has been his development of guidance to protect workers from chemical, physical, and biological hazards, which led to prevention of workforce sickness, death, and injury. He led the effort to develop a detailed protocol for identifying the level of chemical exposure that is immediately dangerous to life and health and fostered an effort to recalibrate existing values, thus providing useful information to emergency responders and others during disasters.

To combat one of the most costly occupational diseases, dermatitis, Dr. Schulte coordinated the NIOSH effort to develop guidance for more than 100 high-volume chemical substances. He has promoted the effort to consider the occupational hazards of green jobs, and he coordinated the development of a major community demonstration project to reduce needle sticks in healthcare workers.

Dr. Schulte is a three-time winner of the American College of Occupational and Environmental Medicine's Kammer Award for Merit in Authorship. He has been a Charles C. Shepard Science Award nominee three times and an Alice Hamilton Science Award Honorable Mention recipient four times. He received the Secretary of DHHS Award for Distinguished Service in 2002. In 2011, he led the group that won the Bullard-Sherwood Research-to-Practice Award for outstanding application of occupational safety and health research. He has written or contributed to more than 349 NIOSH reports and documents, 143 published papers and abstracts, and 54 chapters in books and reports, and 11 NIOSH blog posts, and 315 scientific presentations that provided widely used information and guidance to protect workers.

# PREVIOUS WINNERS

## 2017

### ASSESSMENT

Katherine E. Fleming-Dutra, Adam L. Hersh, Daniel J. Shapiro, Monina Bartoces, Eva A. Enns, Thomas M. File, Jr., Jonathan A. Finkelstein, Jeffrey S. Gerber, David Y. Hyun, Jeffrey A. Linder, Ruth Lynfield, David J. Margolis, Larissa S. May, Daniel Merenstein, Joshua P. Metlay, Jason G. Newland, Jay F. Piccirillo, Rebecca M. Roberts, Guillermo V. Sanchez, Katie J. Suda, Ann Thomas, Teri Moser Woo, Rachel M. Zetts, and Lauri A. Hicks

**Prevalence of Inappropriate Antibiotic Prescriptions Among U.S. Ambulatory Care Visits,**  
*JAMA* 2016;315(17):1864–1873

### DATA METHODS AND STUDY DESIGN

Samuel S. Shepard, Sarah Meno, Justin Bahl, Malania M. Wilson, John Barnes, and Elizabeth Neuhaus

**Viral Deep Sequencing Needs an Adaptive Approach: IRMA, the Iterative Refinement Meta-Assembler**

*BMC Genomics* 2016;17:801

### LABORATORY SCIENCE

Sabine M. G. van der Sanden, Weilin Wu, Naomi Dybdahl-Sissoko, William C. Weldon, Paula Brooks, Jason O'Donnell, Les P. Jones, Cedric Brown, S. Mark Tompkins, M. Steven Oberste, Jon Karpilow, and Ralph A. Tripp

**Engineering Enhanced Vaccine Cell Lines to Eradicate Vaccine-Preventable Diseases: The Polio End Game**

*Journal of Virology* 2016;90(4):1694–1704

### PREVENTION AND CONTROL

Philip J. Peters, Pamela Pontones, Karen W. Hoover, Monita R. Patel, Romeo R. Galang, Jessica Shields, Sara J. Blosser, Michael W. Spiller, Brittany Combs, William M. Switzer, Caitlin Conrad, Jessica Gentry, Yury Khudyakov, Dorothy Waterhouse, S. Michele Owen, Erika Chapman, Jeremy C. Roseberry, Veronica McCants, Paul J. Weidle, Dita Broz, Taraz Samandari, Jonathan Mermin, Jennifer Walthall, John T. Brooks, and Joan M. Duwve, for the Indiana HIV Outbreak Investigation Team

**HIV Infection Linked to Injection Use of Oxycodone in Indiana, 2014–2015**

*The New England Journal of Medicine* 2016;375(3):229–239

## LIFETIME SCIENTIFIC ACHIEVEMENT

Patrick J. Lammie, PhD

Dr. Lammie was recognized for his wide-ranging research and work to control and eliminate neglected parasitic diseases, particularly lymphatic filariasis.

## 2016

### ASSESSMENT

Alexandra M. Oster, Joel O. Wertheim, Angela L. Hernandez,  
Marie Cheryl Bañez Ocfemia, Neeraja Saduvala, and H. Irene Hall

#### **Using Molecular HIV Surveillance Data to Understand Transmission Between Subpopulations in the United States**

*Journal of Acquired Immune Deficiency Syndromes* 2015;70:444–451

### DATA METHODS AND STUDY DESIGN

Jacek Skarbinski, Eli Rosenberg, Gabriela Paz-Bailey, H. Irene Hall, Charles E. Rose,  
Abigail H. Viall, Jennifer L. Fagan, Amy Lansky, Jonathan H. Mermin

#### **Human Immunodeficiency Virus Transmission at Each Step of the Care Continuum in the United States**

*JAMA Internal Medicine* 2015;175(4):588–596

## LABORATORY SCIENCE

David S. Campo, Guo-Liang Xia, Zoya Dimitrova, Yulin Lin, Joseph C. Forbi, Lilia Ganova-Raeva, Lili Punkova, Sumathi Ramachandran, Hong Thai, Pavel Skums, Seth Sims, Inna Rytsareva, Gilberto Vaughan, Ha-Jung Roh, Michael A. Purdy, Amanda Sue, and Yury Khudyakov s

### **Accurate Genetic Detection of Hepatitis C Virus Transmissions in Outbreak Settings**

*The Journal of Infectious Diseases* 2015;213(6):957–965

## PREVENTION AND CONTROL

Concepción F. Estívariz, Abhijeet Anand, Howard E. Gary Jr., Mahmudur Rahman, Jannatul Islam, Tajul I. Bari, Steven G.F. Wassilak, Susan Y. Chu, William C. Weldon, Mark A. Pallansch, James D. Heffelfinger, Stephen P. Luby, Khalequ Zaman

### **Immunogenicity of Three Doses of Bivalent, Trivalent, or Type 1 Monovalent Oral Poliovirus Vaccines with a 2-Week Interval Between Doses in Bangladesh: An Open-label, Non-inferiority, Randomised, Controlled Trial**

*The Lancet Infectious Diseases* 2015;15:898–904

## LIFETIME SCIENTIFIC ACHIEVEMENT

Rear Admiral Kenneth G. Castro, MD

Dr. Castro was recognized for his leadership, expertise, and pioneering body of scientific work in HIV/AIDS and tuberculosis.

## 2015

### ASSESSMENT

Shelley S. Magill, Jonathan R. Edwards, Wendy Bamberg, Zintars G. Beldavs, Ghinwa Dumyati, Marion A. Kainer, Ruth Lynfield, Meghan Maloney, Laura McAllister-Hollod, Joelle Nadle, Susan M. Ray, Deborah L. Thompson, Lucy E. Wilson, and Scott K. Fridkin, for the Emerging Infections Program Healthcare-Associated Infections and Antimicrobial Use Prevalence Survey Team

### **Multistate Point-Prevalence Survey of Health Care-Associated Infections**

*The New England Journal of Medicine* 2014;370(13):1198–1208

### DATA METHODS AND STUDY DESIGN

Krista S. Crider, Owen Devine, Ling Hao, Nicole F. Dowling, Song Li, Anne M. Molloy, Zhu Li, Jianghui Zhu, and Robert J. Berry

### **Population Red Blood Cell Folate Concentrations for Prevention of Neural Tube Defects: Bayesian Model**

*The BMJ (clinical research edition)* 2014;349:g4554

## LABORATORY SCIENCE

Hua Yang, Jessie C. Chang, Zhu Guo, Paul J. Carney, David A. Shore, Ruben O. Donis, Nancy J. Cox, Julie M. Villanueva, Alexander I. Klimov, and James Stevens

### **Structural Stability of Influenza A(H1N1)pdm09 Virus Hemagglutinins**

*Journal of Virology* 2014;88(9):4828–4838

## PREVENTION AND CONTROL

The RTS,S Clinical Trials Partnership

### **Efficacy and Safety of the RTS,S/AS01 Malaria Vaccine During 18 Months After Vaccination: A Phase 3 Randomized, Controlled Trial in Children and Young Infants at 11 African Sites**

*PLoS Medicine* 2014;11(7):e1001685

## LIFETIME SCIENTIFIC ACHIEVEMENT

Patricia M. Griffin, MD

Dr. Griffin was recognized for her expertise in foodborne and enteric infections and her contributions to the science of food safety.

## 2014

### ASSESSMENT

Nadira K. Sultana, Samir K. Saha, Hassan M. Al-Emran, Joyanta K. Modak, M. A. Yushuf Sharker, Shams El-Arifeen, Adam L. Cohen, Abdullah H. Baqui, and Stephen P. Luby

### **Impact of Introduction of the Haemophilus Influenzae Type b Conjugate Vaccine into Childhood Immunization on Meningitis in Bangladeshi Infants**

*JAMA* 2016;315(17):1864–1873

## DATA METHODS AND STUDY DESIGN

Matthew W. Wheeler and A. John Bailer

### **An Empirical Comparison of Low-dose Extrapolation from Points of Departure (PoD) Compared to Extrapolations Based upon Methods that Account for Model Uncertainty**

*Regulatory Toxicology and Pharmacology* 2013;67:75–82

## LABORATORY SCIENCE

James M. Smith, Rachna Rastogi, Ryan S. Teller, Priya Srinivasan, Pedro M. M. Mesquita, Umadevi Nagaraja, Janet M. McNicholl, R. Michael Hendry, Chuong T. Dinh, Amy Martin, Betsy C. Herold, and Patrick F. Kiser

### **Intravaginal Ring Eluting Tenofovir Disoproxil Fumarate Completely Protects Macaques from Multiple Vaginal Simian-HIV Challenges**

*Proceedings of the National Academy of Sciences of the United States of America* 2013;110(40):16145–16150

## PREVENTION AND CONTROL

Tim McAfee, Kevin C. Davis, Robert L. Alexander Jr., Terry F. Pechacek, and Rebecca Bunnell

### **Effect of the First Federally Funded U.S. Antismoking National Media Campaign**

*The Lancet* 2013;382(9909):2003–2011

## LIFETIME SCIENTIFIC ACHIEVEMENT

Nancy J. Cox, PhD

Dr. Cox was recognized for her global leadership, expertise, mentorship, and scientific innovation in the epidemiology of influenza viruses and immunization.

## 2013

### ASSESSMENT

Rachel M. Smith, Melissa K. Schaefer, Marion A. Kainer, Matthew Wise, Jennie Finks, Joan Duwve, Elizabeth Fontaine, Alvina Chu, Barbara Carothers, Amy Reilly, Jay Fiedler, Andrew D. Wiese, Christine Feaster, Lex Gibson, Stephanie Griesse, Anne Purfield, Angela A. Cleveland, Kaitlin Benedict, Julie R. Harris, Mary E. Brandt, Dianna Blau, John Jernigan, J. Todd Weber, and Benjamin J. Park, for the Multistate Fungal Infection Outbreak Response Team

#### **The New England Journal of Medicine**

*Journal of Acquired Immune Deficiency Syndromes* 2012; doi: 10.1056/NEJMoa1213978

### DATA METHODS AND STUDY DESIGN

Joseph Y. Abrams, John R. Copeland, Robert V. Tauxe, Kashmira A. Date, Ermias D. Belay, Rajal K. Mody, and Eric D. Mintz

#### **Real-Time Modeling Used for Outbreak Management During a Cholera Epidemic, Haiti, 2010–2011**

*Epidemiology and Infection* 2012; doi: 10.1017/S0950268812001793

## LABORATORY SCIENCE

Yen T. Duong, Maofeng Qiu, Anindya K. De, Keisha Jackson, Trudy Dobbs, Andrea A. Kim, John N. Nkengasong, and Bharat S. Parekh

### **Detection of Recent HIV-1 Infection Using a New Infection Limiting-Antigen Avidity Assay: Potential for HIV-1 Incidence Estimates and Avidity Maturation Studies**

*PLoS ONE* 2012;7(3):e33328

## PREVENTION AND CONTROL

Yan T. Novak, Jean Ludovic Kambou, Fabien V. K. Diomandé, Tiga F. Tarbangdo, Rasmata Ouédraogo-Traoré, Lassana Sangaré, Clement Lingani, Stacey W Martin, Cynthia Hatcher, Leonard W. Mayer, F. Marc LaForce, Fenella Avokey, Mamoudou H. Djingarey, Nancy E. Messonnier, Sylvestre R. Tiendrébéogo, and Thomas A. Clark

### **Serogroup A Meningococcal Conjugate Vaccination in Burkina Faso: Analysis of National Surveillance Data**

*The Lancet Infectious Diseases* 2012;12(1):757–764

## LIFETIME SCIENTIFIC ACHIEVEMENT

Larry J. Anderson, MD

Dr. Anderson was recognized for his innovative research on respiratory syncytial virus and its disease burden in the United States.

## 2012

### ASSESSMENT

Concepción F. Estívariz, Hamid Jafari, Roland W. Sutter, T. Jacob John, Vibhor Jain, Ashutosh Agarwal, Harish Verma, Mark A. Pallansch, Ajit P. Singh, Sherine Guirguis, Jitendra Awale, Anthony Burton, Sunil Bahl, Arani Chatterjee, and R. Bruce Aylward

### **Immunogenicity of Supplemental Doses of Poliovirus Vaccine for Children Aged 6–9 Months in Moradabad, India: A Community-Based Randomized Controlled Trial**

*The Lancet Infectious Diseases* 2012;12(2):128–135 (published online 2011)

### DATA METHODS AND STUDY DESIGN

Alula Hadgu, Nandini Dendukuri, and Liangliang Wang

### **Evaluation of Screening Tests for Detecting Chlamydia Trachomatis Bias Associated with the Patient-Infected-Status Algorithm Epidemiology**

*Epidemiology* 2012;23(1):72–82 (published online 2011)

## LABORATORY SCIENCE

Brian H. Bird, Louis H. Maartens, Shelley Campbell, Baltus J. Erasmus, Bobbie R. Erickson, Kimberly A. Dodd, Christina F. Spiropoulou, Deborah Cannon, Clifton P. Drew, Barbara Knust, Anita K. McElroy, Marina L. Khristova, César G. Albariño, and Stuart T. Nichol

### **Rift Valley Fever Virus Vaccine Lacking the NSs and NSm Genes Is Safe, Nonteratogenic, and Confers Protection from Viremia, Pyrexia, and Abortion**

*Following Challenge in Adult and Pregnant Sheep* 2011;85(24):12901–1290949

## PREVENTION AND CONTROL

Timothy R. Sterling, M. Elsa Villarino, Andrey S. Borisov, Nong Shang, Fred Gordin, Erin Bliven-Sizemore, Judith Hackman, Carol Dukes Hamilton, Dick Menzies, Amy Kerrigan, Stephen E. Weis, Marc Weiner, Diane Wing, Marcus B. Conde, Lorna Bozeman, C. Robert Horsburgh, and Richard E. Chaisson, for the TB Trials Consortium PREVENT TB Study Team

### **Three Months of Rifapentine and Isoniazid for Latent Tuberculosis Infection**

*The New England Journal of Medicine* 2011;365(23):2155–2166

## LIFETIME SCIENTIFIC ACHIEVEMENT

Henry Falk, MD, MPH

Dr. Falk was recognized for his expertise and global leadership in environmental health science and public health policy and practice.

**2011**

**ASSESSMENT AND EPIDEMIOLOGY**

Stacy M. Holzbauer, Aaron S. DeVries, James J. Sejvar, Christine H. Lees, Jennifer Adjemian, Jennifer H. McQuiston, Carlota Medus, Catherine A. Lexau, Julie R. Harris, Sergio E. Recuenco, Ermias D. Belay, James F. Howell, Bryan F. Buss, Mady Hornig, John D. Gibbins, Scott E. Brueck, Kirk E. Smith, Richard N. Danila, W. Ian Lipkin, Daniel H. Lachance, P. James B. Dyck, and Ruth Lynfield

**Abattoir Workers Exposed to Porcine Brain**

*PLoS One* 2010;5(3):e9782

**LABORATORY AND METHODS**

Robert D. Gilmore, Jr., Rebekah R. Howison, Gabrielle Dietrich, Toni G. Patton, Dawn R. Clifton, and James A. Carroll

**The bba64 Gene of *Borrelia burgdorferi*, the Lyme Disease Agent, Is Critical for Mammalian Infection via Tick Bite Transmission**

*The Proceedings of the National Academy of Sciences of the United States of America* 2010;107(16):7515–7520

**PREVENTION AND CONTROL**

Charles S. Chasela, Michael G. Hudgens, Denise J. Jamieson, Dumbani Kayira, Mina C. Hosseini-pour, Athena P. Kourtis, Francis Martinson, Gerald Tegha, Rodney J. Knight, Yusuf I. Ahmed, Deborah D. Kamwendo, Irving F. Hoffman, Sascha R. Ellington, Zebrone Kacheche, Alice Soko, Jeffrey B. Wiener, Susan A. Fiscus, Peter Kazembe, Innocent A. Mofolo, Maggie Chigwenembe, Dorothy S. Sichali, and Charles M. van der Horst

**The Breastfeeding, Antiretroviral, and Nutrition Study Group Maternal or Infant Antiretroviral Drugs to Reduce HIV-1 Transmission**

*The New England Journal of Medicine* 2010;362(24):2271–2281

## LIFETIME SCIENTIFIC ACHIEVEMENT

Kathleen Kreiss, MD

Dr. Kreiss was recognized as a world-renowned expert in occupational respiratory disease. She has improved workplace safety by encouraging the use of safer materials and better work practices and controls.

## 2010

### ASSESSMENT AND EPIDEMIOLOGY

Fatimah S. Dawood, Seema Jain, Lyn Finelli, Michael W. Shaw, Stephen Lindstrom, Rebecca J. Garten, Larisa V. Gubareva, Xiyan Xu, Carolyn B. Bridges, and Timothy M. Uyeki

### **A Two-Amino Acid Change in the Hemagglutinin of the 1918 Influenza Virus Abolishes Transmission**

*Science* 2007;315:655–659

## PREVENTION AND CONTROL

R. Louise Floyd, Mark Sobell, Mary M. Velasquez, Karen Ingersoll, Mary Nettlesman, Linda Sobell, Patricia Dolan Mullen, Sherry Ceperich, Kirk von Sternberg, Burt Bolton, Bradley Skarpness, and Jyothi Nagaraja, for the Project CHOICES Efficacy Study Group

### **Preventing Alcohol-Exposed Pregnancies: A Randomized Controlled Trial**

*American Journal of Preventive Medicine* 2007;32:1–10

## LIFETIME SCIENTIFIC ACHIEVEMENT

Vincent Castranova, PhD

Dr. Castranova was recognized for his leadership in laboratory-based occupational health research. His contributions to the understanding of the biology of lung cells have been translated into the practical study of lung diseases and development of prevention programs.

## 2007

## ASSESSMENT AND EPIDEMIOLOGY

Wolfgang Hladik, Shelia C. Dollard, Jonathan Mermin, Ashley L. Fowlkes, Robert Downing, Minal M. Amin, Flora Banage, Esau Nzaro, Peter Kataaha, Timothy J. Dondero, Philip E. Pellett, and Eve M. Lackritz

### **Transmission of Human Herpesvirus 8 by Blood Transfusion**

*The New England Journal of Medicine* 2006;355:1331–1338

## LABORATORY AND METHODS

Mary A. Hoelscher, Sanjay Garg, Dinesh S. Bangari, Jessica A. Belser, Xiuhua Lu, Iain Stephenson, Rick A. Bright, Jacqueline M. Katz, Suresh K. Mittal, and Suryaprakash Sambhara

### **Development of Adenoviral-Vector-Based Pandemic Influenza Vaccine against Antigenically Distinct Human H5N1 Strains in Mice**

*The Lancet* 2006;368:1495–1502

## PREVENTION AND CONTROL

Cynthia G. Whitney, Tamar Pilishvili, Monica M. Farley, William Schaffner, Allen S. Craig, Ruth Lynfield, Ann-Christine Nyquist, Kenneth A. Gershman, Marietta Vazquez, Nancy M. Bennett, Arthur Reingold, Ann Thomas, Mary P. Glode, Elizabeth R. Zell, James H. Jorgensen, Bernard Beall, and Anne Schuchat

### **Effectiveness of Seven-Valent Pneumococcal Conjugate Vaccine Against Invasive Pneumococcal Disease: A Matched Case-Control Study**

*The Lancet* 2006;368:1495–1502

## LIFETIME SCIENTIFIC ACHIEVEMENT

Roger I. Glass, MD, PhD, MPH

Dr. Glass was recognized for his leadership and accomplishments in viral gastroenteritis. His work led to the recognition of rotavirus as a problem in the United States and to development of a rotavirus vaccine to be used worldwide.

## 2006

### ASSESSMENT AND EPIDEMIOLOGY

Lee Warner, Maurizio Macaluso, Harland D. Austin, David K. Kleinbaum, Lynn Artz, Michael E. Fleenor, Ilene Brill, Daniel R. Newman, and Edward W. Hook III

### **Application of the Case-Crossover Design to Reduce Unmeasured Confounding in Studies of Condom Effectiveness**

*American Journal of Epidemiology* 2005;161:765–773

Katherine M. Flegal, Barry I. Graubard, David F. Williamson, and Mitchell H. Gail

### **Excess Deaths Associated With Underweight, Overweight, and Obesity**

*JAMA* 2005;293:1861–1867

### LABORATORY AND METHODS

Terrence M. Tumpey, Christopher F. Basler, Patricia V. Aguilar, Hui Zeng, Alicia Solórzano, David E. Swayne, Nancy J. Cox, Jacqueline M. Katz, Jeffery K. Taubenberger, Peter Palese, and Adolfo García-Sastre

### **Characterization of the Reconstructed 1918 Spanish Influenza Pandemic Virus**

*Science* 2005;310(5745):77–80

## PREVENTION AND CONTROL

Stephen P. Luby, Mubina Agboatwalla, Daniel R. Feikin, John Painter, Ward Billhimer, Arshad Altaf, and Robert M. Hoekstra

### **Effect of Handwashing on Child Health: A Randomised Controlled Trial**

*The Lancet* 2005;366:225–233

## LIFETIME SCIENTIFIC ACHIEVEMENT

Robert V. Tauxe, MD, MPH

Dr. Tauxe was recognized for his leadership in the prevention and control of foodborne diseases in the United States and internationally. His work and that of his colleagues have resulted in dramatic changes in foodborne disease surveillance, outbreak detection, practices, and policies.

## 2005

### ASSESSMENT AND EPIDEMIOLOGY

Barbara Lopes Cardozo, Oleg O. Bilukha, Carol A. Gotway Crawford, Irshad Shaikh, Mitchell I. Wolfe, Michael L. Gerber, and Mark Anderson

#### **Mental Health, Social Functioning, and Disability in Postwar Afghanistan**

*JAMA* 2004;292:575–584

### LABORATORY AND METHODS

Justin M. Hettick, Michael L. Kashon, Janet P. Simpson, Paul D. Siegel, Gerald H. Mazurek, and David N. Weissman

#### **Proteomic Profiling of Intact Mycobacteria by Matrix-Assisted Laser Desorption/Ionization Time-of-Flight Mass Spectrometry**

*Analytical Chemistry* 2004;76:5769–5776

## PREVENTION AND CONTROL

Marc Bulterys, Denise J. Jamieson, Mary Jo O'Sullivan, Mardge H. Cohen, Robert Maupin, Steven Nesheim, Mayris P. Webber, Russell Van Dyke, Jeffrey Wiener, and Bernard M. Branson, for the Mother-Infant Rapid Intervention at Delivery (MIRIAD) Study Group

### **Rapid HIV-1 Testing During Labor: A Multicenter Study**

*JAMA* 2004;292:219–223

## OUTSTANDING SCIENTIFIC CONTRIBUTION TO PUBLIC HEALTH

William H. Hannon, Barbara W. Adams, and Robert F. Vogt

### **National Center for Environmental Health/Agency for Toxic Substances and Disease Registry**

*Newborn Screening Quality Assurance Program*

## LIFETIME SCIENTIFIC ACHIEVEMENT

James M. Hughes, MD

Dr. Hughes was recognized for his expertise in infectious diseases and bioterrorism and response. His leadership in addressing emerging and reemerging global threats has brought global prominence to CDC and improved public health infrastructures nationwide.

## 2004

### ASSESSMENT AND EPIDEMIOLOGY

Jennita Reefhuis, Margaret A. Honein, Cynthia G. Whitney, Shadi Chamany, Eric A. Mann, Krista R. Biernath, Karen Broder, Susan Manning, Swati Avashia, Marcia Victor, Pamela Costa, Owen Devine, Ann Graham, and Coleen Boyle

### **Risk of Bacterial Meningitis in Children with Cochlear Implants**

*The New England Journal of Medicine* 2003;349:435–445

### LABORATORY AND METHODS

Thomas G. Ksiazek, Dean Erdman, Cynthia S. Goldsmith, Sherif R. Zaki, Teresa Peret, Shannon Emery, Suxiang Tong, Carlo Urbani, James A. Comer, Wilina Lim, Pierre E. Rollin, Scott F. Dowell, Ai-Ee Ling, Charles D. Humphrey, Wun-Ju Shieh, Jeannette Guarner, Christopher D. Paddock, Paul Rota, Barry Fields, Joseph DeRisi, Jyh-Yuan Yang, Nancy Cox, James M. Hughes, James W. LeDuc, William J. Bellini, Larry J. Anderson, and the SARS Working Group

### **A Novel Coronavirus Associated with Severe Acute Respiratory Syndrome**

*The New England Journal of Medicine* 2003;348:1953–1966

## PREVENTION AND CONTROL

Cynthia G. Whitney, Monica M. Farley, James Hadler, Lee H. Harrison, Nancy M. Bennett, Ruth Lynfield, Arthur Reingold, Paul R. Cieslak, Tamara Pilishvili, Delois Jackson, Richard R. Facklam, James H. Jorgensen, and Anne Schuchat, for the Active Bacterial Core Surveillance of the Emerging Infections Program Network

### **Decline in Invasive Pneumococcal Disease After the Introduction of Protein-Polysaccharide Conjugate Vaccine**

*The New England Journal of Medicine* 2003;348:1737–1746

## LIFETIME SCIENTIFIC ACHIEVEMENT

Harold W. Jaffe, MD

Dr. Jaffe was recognized as a national and international leader in the disease investigation of HIV/AIDS, which has increased scientific knowledge about HIV/AIDS and improved national and international approaches to prevention and control.

Walter A. Orenstein, MD

Dr. Orenstein was recognized for his leadership in reducing the occurrence of vaccine-preventable diseases in children. His work has been critical to the development of national vaccine policy and global immunization strategies.

## 2003

### ASSESSMENT AND EPIDEMIOLOGY

Polly A. Marchbanks, Jill A. McDonald, Hoyt G. Wilson, Suzanne G. Folger, Michele G. Mandel, Janet R. Daling, Leslie Bernstein, Kathleen E. Malone, Giske Ursin, Brian L. Strom, Sandra A. Norman, Linda K. Weiss, Phyllis Wingo, Michael S. Simon, Ronald T. Burkman, Jesse A. Berlin, and Robert Spirtas

### **Oral Contraceptives and the Risk of Breast Cancer**

*The New England Journal of Medicine* 2002;346:2025–2032

### LABORATORY AND METHODS

Bharat S. Parekh, M. Susan Kennedy, Trudy Dobbs, Chou-Pong Pau, Robert Byers, Timothy Green, Dale J. Hu, Suphak Vanichseni, Nancy L. Young, Kachit Choopanya, Timothy D. Mastro, and J. Steven McDougal

### **Quantitative Detection of Increasing HIV Type 1 Antibodies After Seroconversion: A Simple Assay for Detecting Recent HIV Infection and Estimating Incidence**

*AIDS Research and Human Retroviruses* 2002;18:295–307

## PREVENTION AND CONTROL

Robert E. Quick, Akiko C. Kimura, Angelica Thevos, Mathias Tembo, Isidore Shamputa, Lori Hutwagner, and Eric Mintz

### **Diarrhea Prevention Through Household-Level Water Disinfection and Safe Storage in Zambia**

*The American Journal of Tropical Medicine and Hygiene* 2002;66:584–589

## OUTSTANDING SCIENTIFIC CONTRIBUTION TO PUBLIC HEALTH

Barbara Lopes Cardozo, Bradley A. Woodruff, Muireann Brennan, and Paul B. Spiegel

*National Center for Environmental Health  
International Emergency and Refugee Health Branch*

## LIFETIME SCIENTIFIC ACHIEVEMENT

William R. Jarvis, MD

Dr. Jarvis was recognized as a leader in the study of nosocomial infections and other threats to the safety of patients and healthcare workers. His research has led to interventions to reduce these risks and to the development of prevention guidelines.

## 2002

### ASSESSMENT AND EPIDEMIOLOGY

Trudy V. Murphy, Paul M. Gargiulo, Mehran S. Massoudi, David B. Nelson, Aisha O. Jumaan, Catherine A. Okoro, Lynn R. Zanardi, Sabeena Setia, Elizabeth Fair, Charles W. LeBaron, Melinda Wharton, John R. Livengood, and Benjamin Schwartz, for the Rotavirus Intussusception Inspection Team

### **Intussusception Among Infants Given an Oral Rotavirus Vaccine**

*The New England Journal of Medicine* 2001;344:564–572

### LABORATORY AND METHODS

Brent S. Davis, Gwong-Jen J. Chang, Bruce Cropp, John T. Roehrig, Denise A. Martin, Carl J. Mitchell, Richard Bowen, and Michel L. Bunning

### **West Nile Virus Recombinant DNA Vaccine Protects Mouse and Horse from Virus Challenge and Expresses in vitro a Noninfectious Recombinant Antigen that Can Be Used in Enzyme-Linked Immunosorbent Assays**

*Journal of Virology* 2001;75:4040–4047

## PREVENTION AND CONTROL

Belinda E. Ostrowsky, William E. Trick, Annette H. Sohn, Stephen B. Quirk, Stacey Holt, Loretta A. Carson, Bertha C. Hill, Matthew J. Arduino, Matthew J. Kuehnert, and William R. Jarvis

### **Control of Vancomycin-Resistant *Enterococcus* in Health Care Facilities in a Region**

*The New England Journal of Medicine* 2001;344:1427–1433

## OUTSTANDING SCIENTIFIC CONTRIBUTION TO PUBLIC HEALTH

Ronald M. Davis, Gary A. Giovino, Michael D. Erikson, and the Office on Smoking and Health

*National Center for Chronic Disease Prevention and Health Promotion*

## LIFETIME SCIENTIFIC ACHIEVEMENT

Gerald R. Cooper, MD, PhD

Dr. Cooper was recognized for his leadership in improving laboratory measures of lipids that led to the establishment of the CDC Lipid Standardization Program.

## 2001

### ASSESSMENT AND EPIDEMIOLOGY

Paul B. Spiegel and Peter Salama

#### **War and Mortality in Kosovo, 1998–99: An Epidemiological Testimony**

*The Lancet* 2000;335:2204–2209

### LABORATORY AND METHODS

K.B. Chua, William J. Bellini, Paul A. Rota, Brian H. Harcourt, Azaibi Tamin, S.K. Lam, Thomas G. Ksiazek, Pierre E. Rollin, Sherif R. Zaki, Wun-Ju Shieh, Cynthia S. Goldsmith, Duane J. Gubler, John T. Roehrig, B. Eaton, A.R. Gould, Jim Olson, H. Field, P. Daniels, A.E. Ling, Clarence J. Peters, Larry J. Anderson, and Brian W.J. Mahy

**Subject:** RE: Shepard Awards 10:00-11:30am June 14th.

Without OADS and with Scott.

OADC talked about the Shepard awards remarks with Dr. Schuchat today. It sounds like her recommendation would be for Dr. Redfield to attend as much of the Shepard awards as possible. Regarding the remarks however, she recommended that she handle opening remarks, and then R3

deliver 2-3 min closing remarks (talking about the importance of CDC as a data-driven, science-based agency). Would this plan be feasible and/or need to go back through any portion of the DL process?

We haven't touched base with OADS to see their interest, but wanted to check with you all first.

Thanks so much!

Delaney

**Subject:** RE: Shepard Awards 10:00-11:30am June 14th.

Hi All,

Thanks so much for this information! John, if you can send the TPs to me, that would be much appreciated. We are meeting with Katherine tomorrow, and then Dr. Redfield later this week to talk through the remarks, so I can also circle back to let you know if there are any details he would like to include while you develop the remarks.

I'm hoping you can answer a few questions about some different details than what Nikki has been working on 😊

(b)(5)

(b)(5)

If possible to answer these questions **by noon tomorrow, May 14**, that would be much appreciated.

Thanks so much for your time and help, and please let me know if it's easier to talk through any of this.

Best,  
Delaney

**Subject:** RE: Shepard Awards 10:00-11:30am June 14th.

Good afternoon Nikki,  
Dr. Schuchat has been asked to give the Introductory remarks and Dr. Redfield is asked to introduce the keynote speaker. Below is a proposed "run of show".

Introductory Remarks: RADM Anne Schuchat (could include acknowledgment of the recent passing of last year's keynote speaker) approx. 5 minutes

Introduction of Keynote Speaker: Dr. Robert Redfield, approx. 10 minutes

Keynote: Innovation and Creativity in Modern Public Health, Dr. Roberta Ness (approx. 45 minutes including Q and A)

Presentation of Awards: John Iskander, MD (approx. 25 minutes)

Closing: John Iskander, MD (< 5 minutes)

**Nina Ware Rherrass**

Hi John,

One quick question, I was under the impression that Dr. Schuchat was still giving the remarks for this event. Is OADS under the same impression? It has been hard to get clarification on this.

Thanks,  
Nikki

**Subject:** RE: Shepard Awards 10:00-11:30am June 14th.

Nikki, thanks for reaching out. You can work with Nina Ware re logistics coordination. I will be drafting talking points to Dr. Redfield; at this point we have tentatively scheduled him to be introduced by Dr. Schuchat, and subsequently to introduce our keynote speaker Dr. Roberta Ness. Please let me know who the best person to share the TPs is with.

Best,

John

Hi John,

I will be handling logistical coordination for Dr. Redfield during the Shepard Awards Ceremony. Who is the best person to coordinate with regarding this event? I want to make sure all requests and asks related to Dr. Redfield are received and coordinated, as this ceremony is so important! I don't want anything to slip through the cracks!

Looking forward to working with OADS on this!

Best,  
Nikki

Hi,

We think it's okay to come from the Exec Sec outward facing box.

I have attached a draft of the invitation for review. The reminder we propose that we send is below the original invitation. I apologize for stating the obvious, but we purposely didn't include "local" or "tribal" in the first sentence because no local or tribal health official will be on the call.

Please let us know if you'd like us to make any revisions.

Gia

Hi all. Are you wanting to send it under his name or have it sent from his Exec Sec outward facing e-mail box, but under his name, so that any replies can be coordinated rather than having up to 50 SHOs

emailing him directly? If everyone agreed and you could provide the distribution list, it may be possible. Looping others to help once you can clarify the intent.

Good morning,

I will send a calendar invite for April 6<sup>th</sup> from 4:00-4:15 p.m. for the pre-call.

I will add the SHOs call on Dr. Redfield's calendar for April 6<sup>th</sup> from 4:30-5:00 p.m.

Dr. Montero, will you provide the call-in number for the SHOs call?

Thanks,  
Teresa

Good evening,

I just spoke with Michael Fraser (cc'ed here) and we would like to set up a 30 min call for Dr. Redfield and the SHOs on Friday April 6, 430-500pm.  
Dr. Redfield can take the call from CDC/W.

Perhaps we can work in a pre-call with Michael and Jose from 400-415pm?

Can you work with Jose and Michael Fraser to confirm both?

Thank you,  
Sherri

**Sent:** Friday, March 30, 2018 9:52 AM  
**Subject:** Call with CDC Director Dr. Robert Redfield

Dear Colleagues:

This week, I assumed my new role as the Director of the Centers for Disease Control and Prevention (CDC) and Administrator of the Agency for Toxic Substances and Disease Registry (ATSDR). One of my highest priorities is speaking with you, the leaders working on the frontlines, to address the public health challenges our country faces.

Please join me for my first call with state and territorial health officials on **Friday, April 6, 2018, from 4:30 to 5:00 pm (EDT)**.

Throughout my career, I have deeply admired my public health colleagues, and I am excited to work closely with you to achieve our shared mission of protecting the public's health.

I look forward to this initial conversation. Call-in information appears below.

Sincerely,

Robert R. Redfield, MD  
Director, CDC, and  
Administrator, ATSDR

**Subject:** Dr. R upcoming DC Days

Hi Denise,

The following dates we expect Dr. Redfield and Kyle to be in DC. They will be needing a place to sit at CDC-W.

If anything changes with any of these dates, I will let you know. Thanks for your help.

May 14-16  
June 11-12  
June 25-26  
July 9-11  
August 6-7  
August 20-21

Brad

# NIH Visitor Map

## Street Address:

National Institutes of Health  
9000 Rockville Pike  
Bethesda, MD 20892

### Main Vehicle Entrance:

#### NIH Gateway Drive

Rockville Pike & NIH Gateway Drive

### NIH Gateway Center

### Vehicle Inspection:

5am – 10pm, Monday-Friday

After 10pm on weekdays, all day weekends and holidays, all visitor (commercial, non-commercial) vehicles, motorcycles and bicycles must enter campus at the Commercial Vehicle Inspection Facility (CVIF) -- Building 67 (on Rockville Pike between North and Wilson Drives)

### Pedestrians:

\* Open Monday - Friday, 6 am - 10 pm

\* Closed on Weekends and Observed Holidays

After 10 pm on weekdays, all day weekends and holidays, pedestrian visitors should enter campus via the Commercial Vehicle Inspection Facility (CVIF) - Building 67 (on Rockville Pike between North Drive and Wilson Drive)

### West Gateway Center (Pedestrians Only)

Near Old Georgetown Rd & South Dr

6am - 12pm Monday - Friday

### Patient and Patient Visitor Entrance

Cedar Lane & West Drive

Valet Parking at Clinical Center Main Entrance  
(Monday-Friday, 7am - 7pm)

*Inbound Traffic Only: 6am - 10pm, 7 days a week*

### Commercial Vehicle Inspection Facility (CVIF) Building 67: Commercial Vehicles Only

Rockville Pike - between North Dr. and Wilson Dr.

*Open 24 hours a day, 7 days a week*

After 10pm on weekdays, all day weekends and holidays, all visitors in vehicles or as pedestrians should enter via the CVIF.

To learn more about visitor and security issues at the NIH, visit:

<http://www.nih.gov/about/visitor/index.htm>

For questions about campus access, please contact the ORS Information Line at [orsinfo@mail.nih.gov](mailto:orsinfo@mail.nih.gov) or 301-594-6677, TTY - 301-435-1908.

HHS-CDC-19-0276-A-001134

# Information for Patients and Visitors to the National Institutes of Health

## Street Address:

National Institutes of Health  
9000 Rockville Pike  
Bethesda, MD 20892

Welcome to the NIH. Please take the time to read this bulletin. It contains important parking and security information you need when visiting the NIH campus.

## Patient and Patient Visitor Parking:

**Clinical Center — P1 Entrance**  
Parking Ticket Validation Required  
Monday — Friday, 7am - 9pm

Patient & Patient Visitor Parking  
Validation:  
B1 Lobby at Hospitality Desk

No validation required weeknights  
after 9pm, weekends & holidays

**Valet Parking Service:**  
Available at the Clinical Center  
Main Entrance

Monday — Friday  
7am – 7pm  
Ticket validation required

Valet Parking Validation:  
North Lobby at Hospitality Desk  
7am - 7pm

Unclaimed vehicles after 7pm  
will be parked in the front of  
the Clinical Center roadway  
and keys will be transferred  
to the CRC/Bldg.10 Admissions  
desk.

**Patient and Patient Visitor  
Extended Access Pass:**  
You can request an optional,  
extended visitor Photo ID and  
Campus Access Pass to expedite  
your campus and building entry.  
Visit the Clinical Center  
Admissions Desk or see your  
patient care coordinator for these  
timesaving services.

## General Visitor Parking Information:

Visitors (*other than patients*) parking  
at the **Gateway Parking Garage  
(MLP-11)** and in designated visitor  
parking lot:

Monday — Friday:  
6am - 9pm (entrance)  
6am - 11pm (exit)  
\$2.00 per hour for the first three  
hours \$12.00 for the entire day

Metered parking lots:  
Monday — Friday, 7am – 7pm  
\$2 per hour

The NIH has implemented security  
measures to help ensure the safety of  
our patients, employees, guests and  
facilities. All visitors must enter  
through the NIH Gateway Center at  
Metro or the West Gateway Visitor  
Center. You will be asked to submit to  
a vehicle or personal inspection.

Visitors over 15 years of age must  
provide a form of government-issued  
ID such as a driver's license or  
passport. Visitors under 16 years of  
age must be accompanied by an  
adult.

**Vehicle Inspections** – All vehicles  
and their contents will be inspected  
upon entering the campus.  
Additionally, all vehicles entering  
certain parking areas will be  
inspected, regardless of any prior  
inspection. Drivers will be required to  
present their driver's license and may  
be asked to open the trunk and hood.  
If you are physically unable to  
perform this function, please inform  
the inspector and they will assist you.

Vehicle inspection may consist of any  
combination of the following:  
Detection Dogs Teams (K-9),  
Electronic Detection Devices and  
Manual Inspection.

After inspection, you will be issued a  
vehicle inspection pass. It must be  
displayed on your vehicle's  
dashboard while you are on campus.  
The inspection pass is not a "parking  
permit." It only grants your vehicle  
access to enter the campus. You can  
only park in designated parking  
areas. ( See campus map)

**Personal Inspections** – All visitors  
should be prepared to submit to a  
personal inspection prior to entering  
the campus. These inspections may  
be conducted with a handheld  
monitoring device, a metal detector  
and by visible inspection.  
Additionally, your personal  
belongings may be inspected and  
passed through an x-ray machine.

Firearms, explosives, archery  
equipment, dangerous weapons,  
knives with blades over 2 1/2 inches,  
alcoholic beverages and open  
containers of alcohol are examples of  
prohibited items on the NIH campus.

***Visitor passes must be  
prominently displayed at all  
times while on the NIH campus.***

Just called me. He & Joy arrived at the Emory Conf Center last night and they are moving into the apartment today. As of now, he's not planning to come into the office, and we'll reschedule his on-line trainings from today, but he will take the two congressional calls from either his apartment or possibly from the office.

Seth, he asked that you e-mail him the documents for the calls.

Teresa, I'll stop over and we can talk about moving the trainings accordingly.

Happy Friday all...

Scott

## 2. Event Information:

**Event Host:** NACCHO

**Purpose of Event:** The theme of this year's largest gathering of local public health officials in the US is: Unleashing the Power of Local Public Health.

The National Association of County and City Health Officials (NACCHO)'s vision is health, equity, and security for all people in their communities through public health policies and services. NACCHO's mission is to be a leader, partner, catalyst, and voice for local health departments in order to ensure the conditions that promote health and equity, combat disease, and improve the quality and length of all lives. NACCHO is governed by a 27-member Board of Directors, comprising local and tribal health officials from across the

country elected by their peers, and including ex officio members representing the National Association of Counties, of which NACCHO is an affiliate, and the US Conference of Mayors. NACCHO's members are the nearly 3000 local health departments across the US.

**Agenda:** see attached.

**Number of Attendees and Composition:** 1500 local governmental public health officials and staff members from across the range of public health and across the country.

**Key Participants (if applicable):**

Judy Monroe	CDC Foundation
Garth Graham,	Aetna Foundation
Abby Gilbert, Humana	Humana
Loel Solemon	Kaiser Permanente

**Bios:** TBD

**Source Invitation:** Yes on the 6/11/18 DL; R3's comments: Yes to a day trip (a few hours); could meet w/ the SHO and NOLA Health Officer; topics for discussion: HIV (hotbed); Hep C; and opioids.

**3. Dr. Redfield's Speech Information or Talking Points (TPs):**

National Association of County & City Health Officials

The National Connection for Local Public Health

May 7, 2018

Robert Redfield, MD  
Director  
Centers for Disease Control and Prevention  
1600 Clifton Road  
Atlanta, GA 30333

Dear Dr. Redfield:

On behalf of the National Association of County and City Health Officials (NACCHO), I am writing to invite you to address the leaders of the nation's local health departments as a keynote speaker at our 2018 Annual Conference in New Orleans, Louisiana held July 10-12. The conference will be held at the New Orleans Marriott Hotel.

NACCHO represents nearly 3,000 city, county, metropolitan, district, and tribal health departments working every day to protect and promote health for all people. As you know, local health departments are on the front lines responding to health threats every day and helping to keep the American public healthy and safe.

The theme of this year's largest gathering of local public health officials in the United States is *Unleashing the Power of Local Public Health*. Attendees include 1,500 local governmental public health officials and staff members from across the range of public health and across the country. Our members would appreciate hearing your vision for CDC and how local health departments can work to achieve it. Ideally we would like to speak on the morning of Thursday, July 12.

I sincerely hope that you can join us for a plenary session on July 12, but we are flexible and will try our best to work with your schedule as needed. Insights from a national leader, such as yourself, on these critical issues would mean so much to local health department professionals. For further information about this speaking opportunity, please contact NACCHO's Meeting Manager, Chandra M. Champion, by phone at 202-507-4245 or email [cchampion@naccho.org](mailto:cchampion@naccho.org).

Thank you for your consideration and we hope to see you in New Orleans in July!

Sincerely,

Lori Tremmel Freeman, MBA  
Chief Executive Officer

Welcome to the 2018 Annual Meeting event scheduler. Use the Quick Start Guide on the left side of the screen to learn more about how to:

- Search or browse for Sessions and activities using the options at left.
- Review descriptions and presenters by clicking on session titles.
- Use 'My Itinerary' to build a personalized list of your preferred Sessions and activities.\*

\* Please note that using the 'My Itinerary' feature requires an account. You will be prompted to create an account when saving your agenda. This account will be separate from your registration login, but will be the same that you use to access the app that will be available for use during the Annual Meeting.

**Please contact [nacchoreg@naccho.com](mailto:nacchoreg@naccho.com) to register for all pre/post-conference workshops. Selecting items on this page creates a reminder for you but does not alert the Meetings Team at NACCHO that you would like to attend these events. Adding these items to your favorites does not guarantee you access into these events**

June 20, 2018

Dear Dr. Redfield,

Thank you for accepting our invitation to be a speaker at the upcoming NACCHO Annual 2018 Conference, July 10–12 in New Orleans, LA at the New Orleans Marriott. You will be speaking during the **“Unleashing the Power of Payers to Improve Population Health” Plenary Session** on **Thursday, July 12<sup>th</sup>** from **12:30 pm – 2:30 pm** in the Carondelet/Bissonet meeting room. Prior to the Plenary we will have a rehearsal from 11:00 am – 11:45 am.

NACCHO Annual is the year's largest gathering of local health officials in the United States. The conference provides a venue for local public health department staff, partners, funders, and others who are interested and invested in local public health to share the latest research, ideas, and strategies in local public health. More information about the conference is available at [www.nacchoannual.org](http://www.nacchoannual.org).

To facilitate the planning process, please send us the following information by Friday, June 29:

- **Picture and Biography**

Please provide us with an updated picture and biography. Your picture and biography will be published in the NACCHO Annual 2018 online program located here: [www.nacchoannual.org](http://www.nacchoannual.org).

- **Registration**

NACCHO Annual will cover your registration for the full conference. Please let us know if you have any dietary requests or ADA needs that we should note on your registration.

- **Conflict of Interest and Consent to Record**

Please complete and return the attached two forms via email or fax to Chandra M. Champion at [cchampion@naccho.org](mailto:cchampion@naccho.org) or 202-280-1043

- **Emergency Contact**

Please email us your cell phone number and name and number of your emergency contact.

- **Hotel Reservation and Airline Ticket**

NACCHO Annual will cover your flight as well as one-night room and tax on your behalf at the New Orleans Marriott Hotel. Please send us your arrival and departure dates. You will be responsible for any remaining room nights.

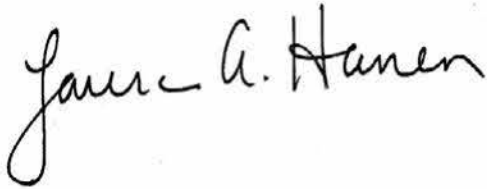

NACCHO will assist in booking your round-trip airfare. To expedite this process, please send us your full legal name as it appears on your government issued identification by **June 22**. We will have a personalized account set up and directly emailed to you from NACCHO's ATC/DEEM account. You will need to book your airfare by **July 27**. Please allow one week from the time you submit your information for your ATC account to be set up.

If you have any questions about your participation in this panel or the travel logistics communicated in this document, please contact Chandra M. Champion by phone at 202-507-4245 or email [cchampion@naccho.org](mailto:cchampion@naccho.org).

Once again, thank you for agreeing to speak at NACCHO Annual 2018. We look forward to seeing you in New Orleans in July!

Sincerely,

Laura Hanen  
Chief of Governmental Affairs

## Arrival Instructions

Dear Guest,

### Entry Information

All attendees will enter the Eisenhower Executive Office Building (EEOB) at the corner of **17th Street and State Place** (see attached map). Please arrive early and note that late arrivals may not be accommodated. You will be standing outdoors while in line, so please dress appropriately for the weather conditions.

### Identification

All guests 18 years of age or older will be required to present a valid, government-issued photo identification (detailed below). All foreign nationals must present their passport. All other forms of foreign identification will not be accepted.

**All information submitted (e.g. name, date of birth, city, etc.) must exactly match the government-issued photo ID you will present when arriving at the White House.**

The following forms of photo ID are acceptable for presentation to USSS upon entry to the White House complex:

- Valid government-issued United States identification card (e.g. drivers license, military ID)
- Valid United States or other official government-issued passports

**No other forms of identification will be accepted; photocopies, expired IDs, or other transmissions of these documents are NOT valid.**

### Prohibited Items

The following items are prohibited:

- Cameras or video recorders
- Any pointed object, including pocket knives
- Strollers and diaper bags
- Aerosol containers
- Guns, ammunition, fireworks, electric stun guns, mace, martial arts weapons/devices, or knives

No storage facilities are available on or around the White House complex. Individuals who arrive with prohibited items will not be permitted to enter.

### Parking

On-street parking is not available near the White House, and use of public transportation is strongly encouraged.

### Other Information

Guests should be advised to wear clothing appropriate for the nature of the White House – business or business casual. **Jeans and shorts are not allowed.**

# EEOB Appointments

**From:** Redfield, Robert R. (CDC/OD)  
**Sent:** 2 May 2018 16:54:10 +0000  
**To:** Redfield, Robert R. (CDC/OD);McGowan, Robert (Kyle) (CDC/OD/OCS);Green, Hugh (CDC/OD/OCS)  
**Cc:** Kroop, Seth (CDC/OD/OCS)  
**Subject:** Transit to Emory University: [Note: Nancy Sterk is available to meet Dr. Redfield at the parking deck to escort him. Please call Nancy when close by at (b)(6)]

Directions to RSPH/Dr. Jim Curran's office:

Turn right out of CDC onto Clifton Road. Proceed ahead to Houston Mill Road – turn right at light. As you start down the hill, take the first left onto Rollins Way. Enter the first parking deck on the right – you will need to press the buzzer to have them lift the gate. Drive ahead and you will see a parking spot w/an orange cone w/Dr. Redfield's name on it. Once parked, walk back across Rollins Way. You will see two building connected by a bridge. Enter the one to the left (Claudia Nance Rollins Building). Proceed ahead to the elevators and take them to the 8<sup>th</sup> floor – left off the elevator into the Dean's Suite.

After 10pm on weekdays, all day weekends and holidays, all visitor (commercial, non-commercial) vehicles, motorcycles and bicycles must enter campus at the Commercial Vehicle Inspection Facility (CVIF) -- Building 67 (on Rockville Pike between North and Wilson Drives)

## Pedestrians:

- \* Open Monday - Friday, 6 am - 10 pm
- \* Closed on Weekends and Observed Holidays

After 10 pm on weekdays, all day weekends and holidays, pedestrian visitors should enter campus via the Commercial Vehicle Inspection Facility (CVIF) - Building 67 (on Rockville Pike between North Drive and Wilson Drive)

## West Gateway Center (Pedestrians Only)

Near Old Georgetown Rd & South Dr  
6am - 12pm Monday - Friday

## Patient and Patient Visitor Entrance

Cedar Lane & West Drive

Valet Parking at Clinical Center Main Entrance  
(Monday-Friday, 7am - 7pm)

*Inbound Traffic Only: 6am - 10pm, 7 days a week*

## Commercial Vehicle Inspection Facility (CVIF) Building 67: Commercial Vehicles Only

Rockville Pike - between North Dr. and Wilson Dr.

*Open 24 hours a day, 7 days a week*

After 10pm on weekdays, all day weekends and holidays, all visitors in vehicles or as pedestrians should enter via the CVIF.

To learn more about visitor and security issues at the NIH, visit:

<http://www.nih.gov/about/visitor/index.htm>

For questions about campus access, please contact the ORS Information Line at [orsinfo@mail.nih.gov](mailto:orsinfo@mail.nih.gov) or 301-594-6677, TTY - 301-435-1908.

HHS-CDC-19-0276-A-001185

# Information for Patients and Visitors to the National Institutes of Health

## Street Address:

National Institutes of Health  
9000 Rockville Pike  
Bethesda, MD 20892

Welcome to the NIH. Please take the time to read this bulletin. It contains important parking and security information you need when visiting the NIH campus.

## Patient and Patient Visitor Parking:

**Clinical Center — P1 Entrance**  
Parking Ticket Validation Required  
Monday — Friday, 7am - 9pm

Patient & Patient Visitor Parking  
Validation:  
B1 Lobby at Hospitality Desk

No validation required weeknights  
after 9pm, weekends & holidays

**Valet Parking Service:**  
Available at the Clinical Center  
Main Entrance

Monday — Friday  
7am – 7pm  
Ticket validation required

Valet Parking Validation:  
North Lobby at Hospitality Desk  
7am - 7pm

Unclaimed vehicles after 7pm  
will be parked in the front of  
the Clinical Center roadway  
and keys will be transferred  
to the CRC/Bldg.10 Admissions  
desk.

**Patient and Patient Visitor  
Extended Access Pass:**  
You can request an optional,  
extended visitor Photo ID and  
Campus Access Pass to expedite  
your campus and building entry.  
Visit the Clinical Center  
Admissions Desk or see your  
patient care coordinator for these  
timesaving services.

## General Visitor Parking Information:

Visitors (*other than patients*) parking  
at the **Gateway Parking Garage  
(MLP-11)** and in designated visitor  
parking lot:

Monday — Friday:  
6am - 9pm (entrance)  
6am - 11pm (exit)  
\$2.00 per hour for the first three  
hours \$12.00 for the entire day

Metered parking lots:  
Monday — Friday, 7am – 7pm  
\$2 per hour

The NIH has implemented security  
measures to help ensure the safety of  
our patients, employees, guests and  
facilities. All visitors must enter  
through the NIH Gateway Center at  
Metro or the West Gateway Visitor  
Center. You will be asked to submit to  
a vehicle or personal inspection.

Visitors over 15 years of age must  
provide a form of government-issued  
ID such as a driver's license or  
passport. Visitors under 16 years of  
age must be accompanied by an  
adult.

**Vehicle Inspections** – All vehicles  
and their contents will be inspected  
upon entering the campus.  
Additionally, all vehicles entering  
certain parking areas will be  
inspected, regardless of any prior  
inspection. Drivers will be required to  
present their driver's license and may  
be asked to open the trunk and hood.  
If you are physically unable to  
perform this function, please inform  
the inspector and they will assist you.

Vehicle inspection may consist of any  
combination of the following:  
Detection Dogs Teams (K-9),  
Electronic Detection Devices and  
Manual Inspection.

After inspection, you will be issued a  
vehicle inspection pass. It must be  
displayed on your vehicle's  
dashboard while you are on campus.  
The inspection pass is not a "parking  
permit." It only grants your vehicle  
access to enter the campus. You can  
only park in designated parking  
areas. ( See campus map)

**Personal Inspections** – All visitors  
should be prepared to submit to a  
personal inspection prior to entering  
the campus. These inspections may  
be conducted with a handheld  
monitoring device, a metal detector  
and by visible inspection.  
Additionally, your personal  
belongings may be inspected and  
passed through an x-ray machine.

Firearms, explosives, archery  
equipment, dangerous weapons,  
knives with blades over 2 1/2 inches,  
alcoholic beverages and open  
containers of alcohol are examples of  
prohibited items on the NIH campus.

**Visitor passes must be  
prominently displayed at all  
times while on the NIH campus.**

# National Center for Health Statistics

(Metro 4 Building)  
3311 Toledo Road  
Hyattsville, Maryland 20782-2064  
NCHS Directory 301-458-4000

---

## Directions and Map

### Ronald Reagan Washington National Airport (DCA), Arlington, VA

Start out going North on S. Smith Blvd. and follow the signs marked "Washington" to exit the airport onto George Washington Parkway. Merge onto I-395 North toward Washington. Continue on I-395 for approximately 2 miles and then keep left to take I-295 South. Take Southeast Freeway/I-695 South toward Pennsylvania Ave. Merge onto DC-295 North on the left. Continue for approximately 7 miles and take the MD 410/Hyattsville exit. Turn left at the end of the ramp onto MD 410/East-West Highway. Continue to approximately 3 miles and turn right onto Adelphi Road and then a left onto Toledo Road. *The Metro 4 building is located on the left after the parking garage.* Total Travel Estimate: 27 minutes / 15.7 miles

### Baltimore/Washington International Thurgood Marshall Airport (BWI), Baltimore, MD

Take the Baltimore-Washington Parkway (Route 295) toward Washington. Cross I-495 and take the next exit (Riverdale/Hyattsville/New Carrollton). Turn right at the first traffic light (Riverdale Road/Route 410). At the 6th traffic light, turn right onto Adelphi Road and then left onto Toledo Road. *The Metro 4 building is located on the left after the parking garage.* Total Travel Estimate: 38 minutes / 26.3 miles

### Washington Dulles International Airport (IAD), Dulles, VA

Start out going Northeast on Saarinen Circle toward the Airport Access Road. Merge onto VA-267 E toward I-495/Exit 18-19/VA – 123/Baltimore-Richmond. Merge onto I-495 via Exit 18 toward Baltimore. Continue on I-495 to exit 28B (New Hampshire Avenue/Takoma Park). At the second traffic light, turn left onto Adelphi Road. Continue on Adelphi Road through 5 traffic lights and turn right onto Toledo Road. *The Metro 4 building is located on the left after the parking garage.* Total Travel Estimate: 53 minutes / 35.3 miles

### Metro Rail

NCHS is located approximately 0.5 from the Prince George's Plaza Metro station on the GREEN line. For additional information including fares, trip planner, bus schedules, maps, and etc. contact the [Washington Metropolitan Area Transit Authority](#)

**Shuttle Bus Service from and to PG Plaza Metro Rail Station**

Atlantic Parking operates a courtesy Shuttle Bus service hours are: 6:00 – 10:00 a.m. and 2:30 – 6:00 p.m. Monday through Friday to/from the PG Plaza Metro Rail Station. Look for a white 15-passenger bus with the lettering Atlantic Parking. The Shuttle Bus departs from Parking Garage A (southwest side, next to our building, Metro 4) at 6:00 a.m. and 2:30 p.m. and travels back and forth to the PG Plaza Metro Rail Station (picks up/drops off on side facing PG Plaza). In the mornings, it takes the Shuttle Bus roughly 15 minutes to make a complete circuit, and in the evenings approximately 25 minutes. In the event that the wait for the Shuttle Bus becomes long, which may occur due to rush-hour traffic or weather, you can call 301-779-9696 to determine its location and estimated time of arrival to Parking Garage A or the PG Plaza Metro Rail Station stop.

**Parking**

Atlantic Parking Garage A (301-779-9696) is next to the NCHS Metro 4 building. Visitors are encouraged to lock vehicle doors and not leave valuables in plain view.

First 2 hours – Free	
2 – 3 hrs.	\$ 5.00
3 – 4 hrs.	\$ 7.00
4 – 12 hrs.	\$ 9.00
12 – 24 hrs.	\$15.00

I think VTC would be good for that meeting. Scott also pointed out to me the key players were based in Europe for that meeting.

Sounds good on the other DC meeting you suggest as well—let's add that to our DC list for upcoming trips.

meetings for Dr. Redfield in DC

Hi Seth and Teresa,

I am actually with a CDC delegation over at AFRICOM (Stuttgart) now. I will discuss tomorrow when we meet with the AFRICOM Surgeon. Setting up a VTC is probably best for that meeting, unless Dr. Redfield wants to make a trip to Germany, which I could help arrange. Additionally along these lines, I think there is benefit in Dr. Redfield meeting with the Joint Staff Surgeon, Admiral (Dr.) Colin Chinn, whose office is in DC at the Pentagon.

I can help arrange a meeting with Mr. McCaffery as well, also in the Pentagon.

Please let me know the possible dates/times Dr. Redfield will be available in DC.

Very Respectfully,  
Eric

Hi Eric,

Dr. Redfield would like your assistance in setting up some follow-ups meetings in DC with DoD folks.

- Thomas McCaffery, Acting Assistant Secretary of Defense for Health Affairs
- Appropriate AFRICOM contact

Teresa Williams is on this email and is Dr. Redfield's scheduler—she can work with you to help arrange these meetings.

Teresa: he would like to try to get these meetings in person over his next 2 DC trips, prior to week of July 23 if possible. Phone or VTC would be a secondary option, but in-person is preferred.

Two booths that Dr. Redfield can choose from. I have marked the location in yellow below.

#1: Next to the door to a Men's bathroom and near/across from room 2166. This is the one closest to Rep. Cummings' office.

#2: Also next to a Men's bathroom, this one is near/across from room 2129. This one is about mid-way between Rep. Degette's office and Rep. Cummings' office.

Past Congressional Champions  
Tuesday, May 15, 2018 ~ 5:30 p.m. to 7:30 p.m.  
The Mike Mansfield Room, S-207(Second Floor)  
The United States Capitol Building**

**UNITED STATES CAPITOL BUILDING ENTRANCE:**

**The North Door:**

You will enter [The United States Capitol Building](#) via the NORTH DOOR, located on the ground level/first floor on the Senate side of the U.S. Capitol Building [facing Constitution Avenue and the Russell Senate Office Building, and Union Station in the distance]. The North Door is located at the top of a walking ramp on the side of the U.S. Capitol Building.

You will be required to pass through a U.S. Capitol Police security screening building on the U.S. Capitol Plaza, prior to being permitted entry to The Capitol through the NORTH DOOR. Please advise U.S. Capitol Police personnel that you are a guest at the Rotary International Polio Eradication Champions Reception in Room S207, The Mansfield Room (2<sup>nd</sup> Floor) of the United States Capitol.

Once you enter the NORTH DOOR, please stop at the Senate Visitors Desk on your left, where you will be asked to provide your name and destination and receive a Visitor Pass. **All guests must be prepared to show proper identification. *Guests should not arrive earlier than 15 minutes before the start of the function as early access to the reception room will not be allowed.*** The names of all guests who have RSVP'd in advance of the event will be included on the Reception Guest List and will be cleared to proceed to Room S207, the Mansfield Room. Turn LEFT immediately past the Senate Visitors Desk and follow to elevators. Take elevator to 2nd floor. Exit elevator and turn away from the doors facing outside and the US Supreme Court in the distance. Turn LEFT; immediate RIGHT; and immediate LEFT to a hallway and the entrance to the Mansfield Room is on the RIGHT. Please stop at the reception desk to receive a guest name badge before entering the reception.

**HANDICAPPED ENTRANCE:**

Handicapped individuals may also enter the Capitol Building via North Door and take direction from a uniformed U.S. Capitol Police officer to the Mansfield Room on the 2nd Floor of the U.S. Capitol Building. Wheelchairs are available for use by visitors in the

**Capitol Complex. Constituents visiting The Capitol may request the use of a wheelchair through their Senators' or Representative's office.**

**Capitol South** <https://www.wmata.com/rider-guide/stations/capitol-south.cfm>

**BLUE/ORANGE LINES to Capitol South METRO.** Exit at corner of First and C Streets, behind the Cannon House Office Building. Walk straight ahead one block to First and Independence Avenue and see the U.S. Capitol grounds and U.S. Capitol Building to your left. Proceed across Independence Avenue and proceed through the U.S. Capitol East Front Plaza. As you near Constitution Avenue, look for the small white U.S. Capitol Police security screening building on your left on the sidewalk. Pass through this security building and proceed up the walking ramp on the side of the U.S. Capitol and enter the building through the **NORTH DOOR**.

Once you enter the **NORTH DOOR**, please stop at the Senate Visitors Desk on your left, where you will be asked to provide your name and destination and receive a Visitor Pass. The names of all guests who have RSVP'd in advance of the event will be included on the Reception Guest List and will be cleared to proceed to Room S207, the Mansfield Room. Turn **LEFT** immediately past the Senate Visitors Desk and follow to elevators. Take elevator to 2nd floor. Exit elevator and turn away from the doors facing outside and the US Supreme Court in the distance. Turn **LEFT**; immediate **RIGHT**; and immediate **LEFT** to a hallway and the entrance to the Mansfield Room is on the **RIGHT**. Please stop at the reception desk to receive a guest name badge before entering the reception

**Union Station** <https://www.wmata.com/rider-guide/stations/union-station.cfm>

**RED LINE to Union Station METRO.** Exit front of Union Station and walk three long blocks south on Delaware Avenue toward the Capitol Building [Senate office buildings will be on your left as you approach Constitution Avenue and the U.S. Capitol Building]. Enter Capitol Building via North Door entrance directions described above.

### **SUGGESTED PARKING:**

Public parking is *very limited* around the Capitol complex. The closest public paid parking facility is the garage attached to the rear of Union Station [First Street and Massachusetts Avenue, NE]. Park and walk inside Union Station and exit front of Union Station to taxi stand in front of the station. Take taxi to "Senate side" of Capitol Building and enter Capitol via North Door [see North Door entrance directions above]. The District of Columbia does recognize accessible parking permits issued by the states and territories. Parking is permitted at designated handicapped spaces or any metered/un-metered parking space (no fee required), within the hours allowed for general parking in that area. Visitors must display state-issued handicapped tags or permits. Parking is not allowed where stopping, standing or parking is prohibited to all vehicles, in spaces reserved for special vehicles (buses, taxis, etc.), or where it would clearly be a traffic hazard. Handicapped visitors who have an appointment in a Senator's or Representative's office may request accessible parking through that office.

-  
**Instructions**

-  
Log in to the HHS Learning Portal at <https://iam.hhs.gov> and register for the following course:

**Course Name:** Health and Human Services Travel Charge Card Training  
**Offering ID:** 00047851

Please print and save your Training Certificate

### **HHS Travel Charge Card Job Aid: Registering for Training**

**Purpose:** To provide a step-by-step guide to registering for the official travel card training via LMS and downloading the training certificate.

**Audience:** Travel Cardholders and A/OPCs

## **Registering for the HHS Travel Charge Card Training (Course ID 00047851)**

1. Login AMS
2. Access the HHS Learning Portal (LMS)
3. Search for “HHS Travel Charge Card Training” or “00047851” in the Catalog Search box.
4. When the course appears in the search results, click the blue colored text “[Launch Content](#)” found under the course description. **DO NOT click the course name.**
5. Select “Continue Registration” to complete course registration. You should receive an e-mail from [HHSLMS@hhs.gov](mailto:HHSLMS@hhs.gov) notifying you that you have been registered for the course.

## **Downloading your HHS Travel Charge Card Training Completion Certificate**

1. Select the “Learning” tab
2. Select “Transcript”
3. Click “Print Certificate of Completion” next to the completed course title
4. The Crystal Report Viewer will open in a new browser window displaying your completion certificate. In the top left corner, select the Export icon.
5. The export window will appear in the middle of your screen. From the File Format drop down list, select “PDF”.
6. Click “Export”
7. A PDF file will open displaying your training completion certificate. Save the PDF and send to your local A/OPC.

If you are having technical issues with your LMS user profile such as being unable to register for the training or opening your training certificate, please contact the LMS Helpdesk at 855-495-2184 or [DHSHHelp@hhs.gov](mailto:DHSHHelp@hhs.gov).

# Step-by-Step Screen Shots – Registering for the HHS Travel Charge Card Training

## 1. Login AMS

**HHS.gov** Improving the health, safety and well-being of America  
**iAM@HHS** IDENTITY & ACCESS MANAGEMENT AT HEALTH & HUMAN SERVICES  
**AMS | Access Management System** Simplifying access to the Department's systems

3. Search for "HHS Travel Charge Card Training" or "00047851" in the Catalog Search box.

**Catalog Search**

Enter the course title, course ID, or offering ID in the search field. The LMS will search on each word or numeric ID separately. For example, if Word 2010 is entered as the search criteria, all offerings with either Word OR 2010 in the title, description, abstract, or keywords will be returned. Use the Advanced Search to narrow your search criteria, or check the Exact Match if you know the exact title of the course.

5. Select “Continue Registration” to complete course registration. The training course will launch in a new browser window following selection of “Complete Registration”.

The screenshot shows the Department of Health & Human Services Learning Portal. The top navigation bar includes links for Calendar, Preferences, Help, and Log Out. Below this is a banner with the text "The Joy of Learning Enabled Through Access!" and "Department of Health & Human Services Learning Portal". The main navigation menu includes Home, Learning, Skills, Collaboration, Success Plan, Profile, and Reports. On the left, there is a sidebar with links for All Learning Activity, Search Catalog, Knowledge Center, Learning Requests, Request Approval, and Evaluations & Surveys. The main content area displays "Please read..." followed by a message: "You are already registered for this offering. Are you sure you want to register again?". Below this is a section titled "Current Enrollments and completed course items" with a table:

Name	Registered On	Actions
Health and Human Services Travel Charge Card Training	03/17/2014	<a href="#">View Completed Course Item</a>
Health and Human Services Travel Charge Card Training	06/11/2015	<a href="#">View Completed Course Item</a>
Health and Human Services Travel Charge Card Training	08/14/2015	<a href="#">View Completed Course Item</a>

At the bottom right, there are two buttons: "Back to Search Results" and "Continue Registration". The "Continue Registration" button is highlighted with a red box and a red arrow pointing to it from the right.

## Step-by-Step Screen Shots – Downloading your Training Certificate

1. From the LMS Home screen, select the “Learning” tab.

The screenshot shows the top navigation bar with links for Calendar, Preferences, Help, and Log Out. Below the navigation bar is a banner with the text "The Joy of Learning Enabled Through Access!" and "Department of Health & Human Services Learning Portal". The main navigation tabs are Home, Learning (highlighted with a red box and a red arrow), Skills, Collaboration, Success Plan, Profile, and Reports. The Learning tab is active, displaying an "Announcements" section with a "Welcome to the HHS Learning Portal!" message and a "Catalog Search" section. The "In-Progress Learning Activities" section is also visible, showing a table with columns for Name, Registration Date, and Actions.

Name	Registration Date	Actions
Health and Human Services Travel Charge Card Training	08/14/2015	Launch Content

2. Select “Transcript”.

The screenshot shows the LMS Learning tab selected. The main navigation tabs are Home, Learning (highlighted with a red box and a red arrow), Skills, Collaboration, Success Plan, Profile, and Reports. The Learning tab is active, displaying a "My In-Progress Learning" section. The "Transcript" option is highlighted with a red box and a red arrow. Below the "Transcript" option is a message: "No enrollments currently available".

3. Click “Print Certificate of Completion” next to the completed course title

**Importance:** High

Hi all,

I received word from Dr. Redfield that he would like to greet ADM Giroir (ASH) when Giroir arrives on campus tomorrow between 11:30-11:40.

Dr. Redfield's Shepard remarks end right at 11:30. I wonder if we can have the Shepard folks try to get 5 minutes ahead of schedule so that he can finish at 11:25? Nikki—you're in contact with them, right?

Anyway, at 11:30 on his calendar tomorrow, please add that he will meet ADM Giroir in the Visitor's Center. Robin Ikeda will also be there. I can let her know. Nikki—can you let other contacts working on Giroir's visit know?

Thanks all.

Seth

**Subject:** Walking Transit: Emory University, Rollins School of Public Health Auditorium

#### Directions to event (Driving)

Turn right out of CDC onto Clifton Road. Proceed ahead to Houston Mill Road – turn right at light. As you start down the hill, take the first left onto Rollins Way. Enter the first parking deck on the right – you will need to press the buzzer to have them lift the gate. Drive ahead and you will see a parking spot w/an orange cone w/Dr. Redfield’s name on it. Once parked, walk back across Rollins Way. You will see two building connected by a bridge. Enter the one to the left (Claudia Nance Rollins Building). The Rollins Auditorium (where the event is being held) is immediately on the left.

## **CDC Leadership Roundtable Discussion**

Monday, April 23, 2018

9:30 a.m. – 10:30 a.m.

Building 21, 12<sup>th</sup> Floor, OD Conference Room (12302)

- I. Updates & Announcements**  
Dr. Anne Schuchat
  
- II. HP2030**  
Dr. Von Nguyen
  
- III. Around the Table Discussion**

## **Don Wright, MD, MPH**

Dr. Don Wright has served as the Deputy Assistant Secretary for Health and Director of the Office of Disease Prevention and Health Promotion (ODPHP) since January 2012. In this capacity, he leads coordination and policy development for public health and prevention activities within the Office of the Assistant Secretary for Health, U.S. Department of Health and Human Services. From February 2017 through January 2018, Dr. Wright served as the Acting Assistant Secretary for Health and, in the fall of 2017, he briefly served at the Acting Secretary of Health and Human Services.

As Director of ODPHP, Dr. Wright provides leadership for the Healthy People initiative and [healthfinder.gov](https://healthfinder.gov); and oversees the development the Dietary Guidelines for Americans, the Physical Activity Guidelines for Americans, and national action plans that address adverse drug events and health care-associated infections.

Prior to joining ODPHP, Dr. Wright served as the Deputy Assistant Secretary of Healthcare Quality. From 2007 to 2009, he was the Principal Deputy Assistant Secretary for Health.

Before joining HHS, Dr. Wright was the Director of the Office of Occupational Medicine for the Occupational Safety and Health Administration (OSHA). Prior to entering federal service he had a private medical practice in Texas. Dr. Wright received his undergraduate degree from Texas Tech University, a medical degree from the University of Texas, and an M.P.H. from the Medical College of Wisconsin. He completed his family medicine residency training at Baylor College of Medicine and is board-certified in both Family Medicine and Preventive Medicine.

## **Carter Blakey**

Carter Blakey is the Deputy Director of the Office of Disease Prevention and Health Promotion (ODPHP), US Department of Health and Human Services (HHS) and the Director of ODPHP's Division of Community Strategies (DCS). ODPHP plays a key role in developing and coordinating disease prevention and health promotion policy for the nation. As the DSC director, she oversees the Healthy People 2020/2030 activities on behalf of HHS and coordinates the initiative across the Federal Government and among non-federal stakeholders.

Since the late 1990s, she has worked on the myriad aspects of the Healthy People initiative, ranging from the development of the specific 10-year health objectives to implementation strategies across multiple sectors.

Before joining ODPHP, her consulting career encompassed numerous activities in the health and biomedical arenas, including projects for the National Institutes of Health, the Congressional Office of Technology Assessment, the Council for Responsible Nutrition, the HHS Office of Public Health and Science, ODPHP, and the National Center for Health Statistics. Previously, Ms. Blakey worked in public affairs and government relations for the Federation of American Societies for Experimental Biology; as a managing editor for FDC Reports, Inc., a publishing company specializing in health and the pharmaceutical industry; and as a teaching/research assistant at Georgetown University, Department of Biology.

# GLOBAL TASK FORCE ON CHOLERA CONTROL

©WHO/Acland

OVERVIEW OF

# ENDING CHOLERA

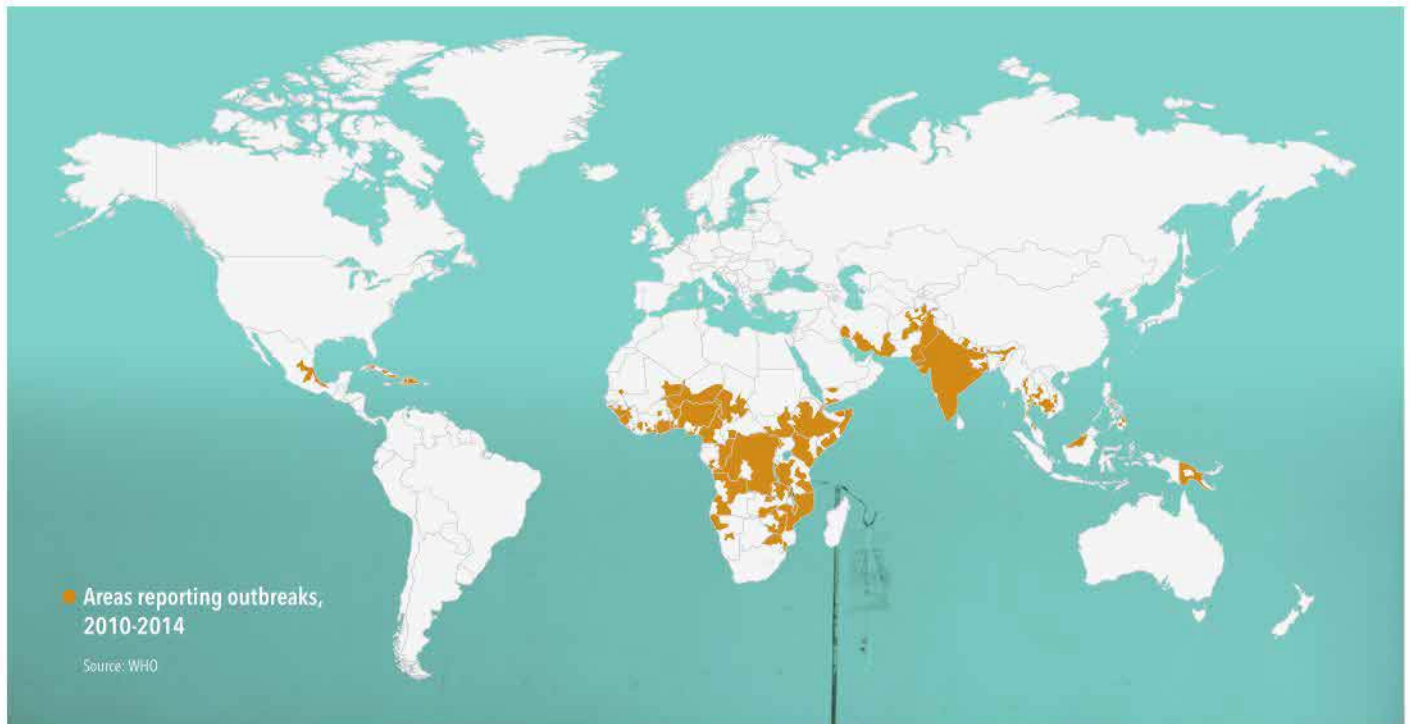

## A GLOBAL ROADMAP TO 2030

*Ending Cholera—A Global Roadmap to 2030* operationalises the new global strategy for cholera control at the country level and provides a concrete path toward a world in which cholera is no longer a threat to public health. By implementing the strategy between now and 2030, the Global Task Force on Cholera Control (GTFCC) partners will support countries to **reduce cholera deaths by 90 percent**. With the commitment of cholera-affected countries, technical partners, and donors, as many as 20 countries could eliminate disease transmission by 2030.

## ENDING CHOLERA—A CALL TO ACTION

Cholera is a disease of inequity—an ancient illness that today sickens and kills only the poorest and most vulnerable people. **The map of cholera is essentially the same as a map of extreme poverty.** Yet every death from cholera is preventable with the tools we have today, putting the goal of ending its public health impact within our reach. Cholera can be controlled with a multi-sectoral approach—including basic water, sanitation, and hygiene (WASH) services, and oral cholera vaccines (OCV). Ending cholera is a moral obligation and an important achievement in its own right, and it is also critical to achieving the Sustainable Development Goals (SDGs). If we fail to act, climate change, urbanization, and population growth will create an increased risk of cholera in the coming years.

**Map 1.** Areas reporting cholera outbreaks 2010–2014

(c)Gavi/Karel Prinsloo/Arete

In 2017, cholera continues to hit communities already made vulnerable by tragedies such as conflicts and famines. Yemen currently faces the world's largest cholera outbreak, with over 700,000 suspected cases and more than 2,000 deaths reported since April. Over 800 people have died of cholera in Somalia since the beginning of the year, and over 500 in the DRC. Haiti has now reported nearly 1 million cases and 10,000 deaths since the beginning of the 2010 outbreak.

## IMPLEMENTING THE GLOBAL ROADMAP

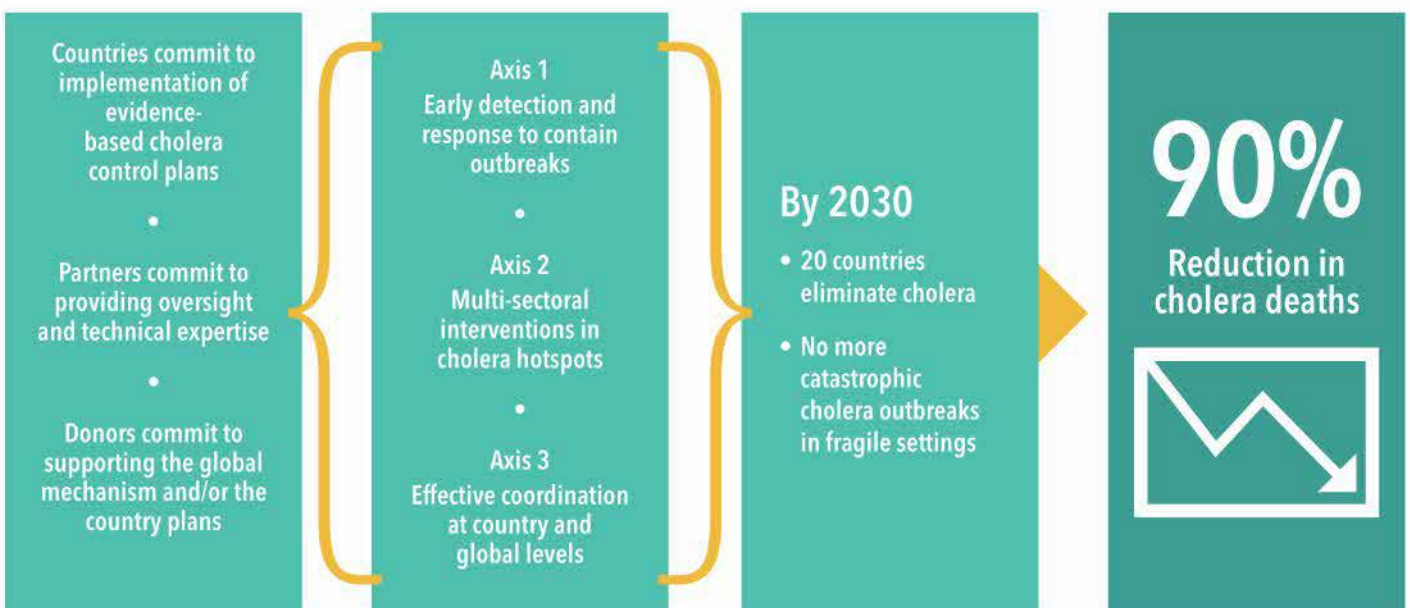

The strategy focuses on the 47 countries affected by cholera today, and consists of multi-sectoral interventions supported by a nimble and effective coordination mechanism. *The Global Roadmap* focuses on three strategic axes:

- 1. Early detection and quick response to contain outbreaks:** The strategy focuses on containing outbreaks—wherever they may occur—through early detection and rapid response, which are critical elements for reducing the global burden of cholera. Through interventions like robust community engagement, strengthening early warning surveillance and laboratory capacities, health systems and supply readiness, and establishing rapid response teams, we can drastically reduce the number of deaths from cholera even in fragile settings.
- 2. A targeted multi-sectoral approach to prevent cholera recurrence:** The strategy also calls on countries and partners to focus on cholera “hotspots”, the relatively small areas most heavily affected by cholera, which experience cases on an ongoing or seasonal basis and play an important role in the spread of cholera to other regions and areas. Cholera transmission can be stopped in these areas through measures including improved WASH and through use of OCV. In Africa alone, 40 to 80 million people live in cholera hotspots.
- 3. An effective mechanism of coordination for technical support, advocacy, resource mobilisation, and partnership at local and global levels:** The GTFCC provides a strong framework to support countries in intensifying efforts to control cholera, building upon country-led cross-sectoral cholera control programs, and supporting them through human, technical, and financial resources. As a global network of organisations, the GTFCC is positioned to bring together partners from across all sectors, and offers an effective country-driven platform to support advocacy and communications, fundraising, inter-sectoral coordination, and technical assistance.

© Lorenzo Pezzoli

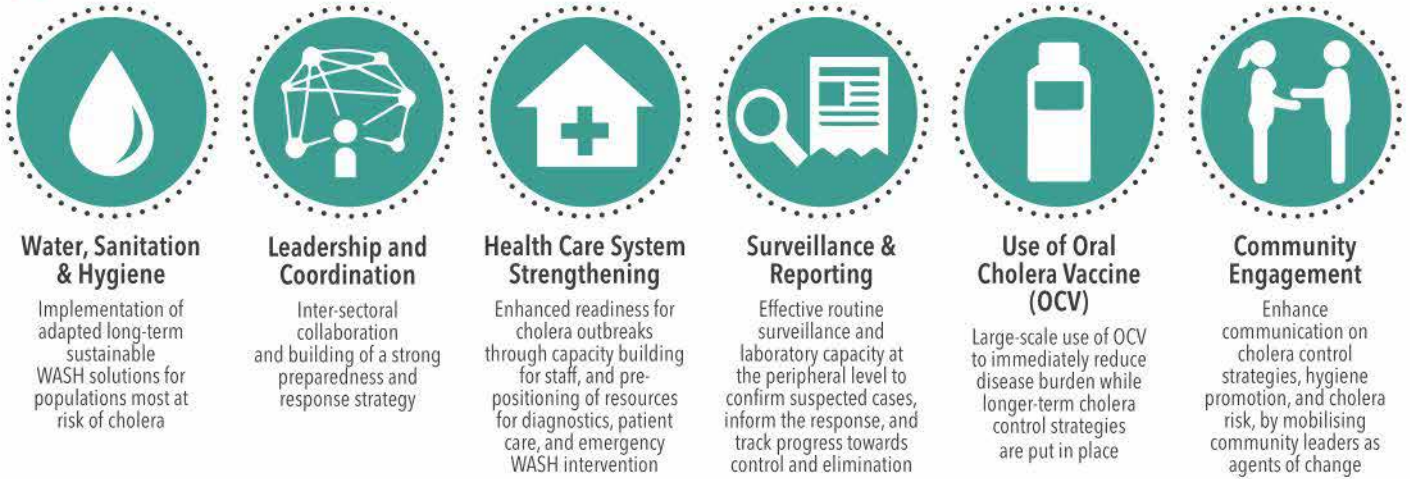

Figure 1: Theory of change of the *Global Roadmap*

## MULTI-SECTORAL INTERVENTIONS IN CHOLERA HOTSPOTS

The *Global Roadmap* calls for cholera hotspots to become the primary targets of a package of effective cholera control measures adapted to the local transmission pattern.

**Figure 2:** Multi-sectoral interventions to control cholera

## INVESTING IN A CHOLERA-FREE WORLD

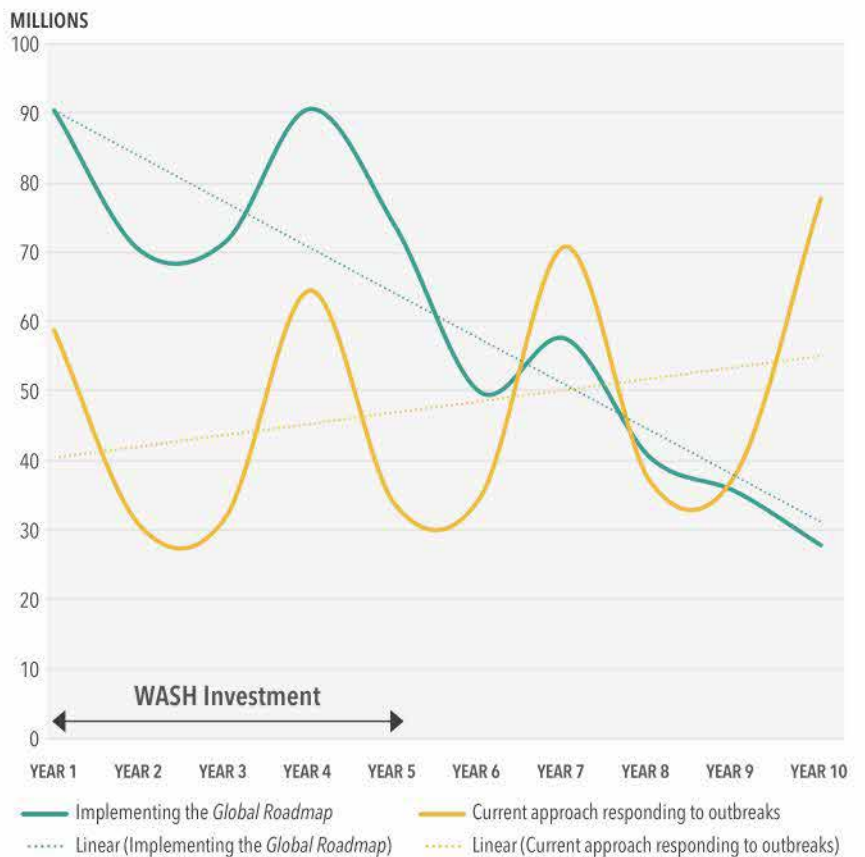

Implementing the GTFCC strategy will require aligning existing health and WASH resources to the *Global Roadmap*. This alignment represents a sound investment because it channels resources to areas most in need, and begins to reduce the significant economic burden of cholera, which costs an estimated US \$2 billion per year globally in health care costs and lost productivity. The Roadmap offers an estimate of the cost of controlling cholera in the Democratic Republic of Congo (DRC) that helps to demonstrate the resource needs for controlling cholera at country level over the next ten years.

The DRC case study shows that the successful implementation of the *Global Roadmap* may allow up to 50 percent cost savings compared with the ongoing average yearly cost of continuously responding to emerging cholera outbreaks. Most importantly, the proposed **long-term cholera control investments will also significantly reduce the impact of all water-related diseases**, while contributing to improvements in poverty, malnutrition, and education, representing a significant step toward the achievement of the SDGs for the world's poorest people and toward a world free from the threat of cholera.

The GTFCC will invite all key stakeholders to reconvene in early 2019 to take stock of the first 18 months of implementation of the *Global Roadmap*, and to mobilize resources to end cholera as a threat to public health by 2030.

**Figure 3:** Investing in the *Global Roadmap* vs the status quo

Preliminary estimates indicate that the successful implementation of the control strategy in DRC may allow up to 50% savings compared to the perpetual average yearly cost of continuously responding to emerging cholera outbreaks with OCV vaccination and a basic minimal package of WASH interventions.

## Information Brief

### 71<sup>st</sup> World Health Assembly Side Event on Pandemic Influenza

#### WHA Side Event “100 Years after the Pandemic: Preparedness to Protect Health for All”

- The US has received approval to sponsor a WHA side event entitled “100 Years after the Pandemic: Preparedness to Protect Health for All” and is in the process of seeking co-sponsors of the event. Potential co-sponsors include Norway, UK, Germany, Japan, Australia, Canada, Finland, Netherlands, China, Thailand, Indonesia, and Brazil.
- The side event will be held on Tuesday, May 22<sup>nd</sup> from 1800-1930 and will cover the following:
  - 1) Welcome and Introduction by WHO Director-General Dr. Tedros Adhanom Ghebreyesus, U.S. Secretary of Health and Human Services Alex M. Azar II, and a co-sponsor Minister of Health.
  - 2) Panel Discussion – “How the 1918 Influenza Pandemic Revolutionized Public Health History.”
  - 3) Panel Discussion – “Pandemic Influenza Preparedness and Response Today and Tomorrow: state of the globe, remaining gaps, existing tools, and new technologies and emerging paradigms for pandemic preparedness”
  - 4) Questions and Discussions
  - 5) Conclusion by a co-sponsor country leader
- The objectives of the side event are to:
  - 1) Galvanize support for redoubled prioritization of pandemic influenza preparedness by Member States and the need to develop, implement, and strengthen national pandemic influenza preparedness plans.
  - 2) Stress the importance of rapid, consistent, and continuous sharing of influenza viruses to global pandemic preparedness
  - 3) Highlight ongoing preparedness needs and refocus discussions around revisiting and refining strategic approaches and new innovations
- The event will include panelists and other invited speakers from ministries of health or other relevant ministries, non-governmental thought leaders, and subject matter experts, and provides an opportunity to build political and financial support for pandemic influenza preparedness and response, and inform Member State discussions on a WHA decision.

May 10, 2018

**Information Brief**  
**Pandemic Influenza Preparedness Framework**

**Bottom Line Up Front:**

- The Pandemic Influenza Preparedness Framework (PIP-FW) was negotiated with and agreed to by all Members States. The USG position is that it should not be re-opened for renegotiation.
- As negotiated, the PIP-FW relates only to influenza viruses with pandemic potential; the USG position is that seasonal influenza viruses should not become part of the PIP-FW.
- The USG position is that genetic sequence data (GSD) should not become PIP-biological materials.

**Background:**

**Pandemic Influenza Preparedness Framework (PIP-FW)**

- The PIP Framework was adopted by Member States in 2011 and brings together WHO, Member States, industry, civil society, and other stakeholders with the aim to:
  - Share influenza viruses with pandemic potential within WHO Global Influenza Surveillance and Response System (GISRS)
  - Improve pandemic influenza preparedness and response in all countries
  - Provide fair, transparent, equitable, and effective benefit sharing.
- There are two mechanisms whereby the PIP-FW ensures equitable benefits:
  - Influenza vaccine, diagnostic, and pharmaceutical manufacturers that make use of GISRS make an annual Partnership Contribution (PC) to WHO to ensure sustainable financing of the PIP benefit sharing system..
    - The PC was established to be equivalent to 50% of the running costs of the WHO GISRS, roughly estimated to be \$56M in 2010.
    - To date, approximately \$142M has been collected; 70% of the funds have been allocated to pandemic preparedness and 30% to response.
    - Guiding the expenditure of the PC is the High-Level Implementation Plan (HLIP). The HLIP I (2013-2017) outlined five areas of work and prioritized 72 countries.
    - The HLIP II (2018-2023) was approved in December 2017 and focuses on six outputs: 1) laboratory and surveillance, 2) burden of disease, 3) regulatory capacity building, 4) risk communications and community engagement, 5) planning for deployment, and 6) influenza pandemic preparedness planning.
  - The second mechanism of benefit sharing requires non-GISRS entities that obtain influenza viruses with pandemic potential (IVPP) to sign a Standard Material Transfer Agreement 2 (SMTA2). Each SMTA2 is individually negotiated to ensure that products (or other benefits) arising from access to IVPP are provided to WHO (e.g., vaccines, antivirals, diagnostic kits).
    - WHO has 12 SMTAs signed with vaccine and antiviral manufacturers that secures approximately 405M doses of pandemic vaccines and 10M treatment courses of antivirals

May 10, 2018

- WHO negotiation with other industry partners continues
- Academic and research institutions must also sign SMTA2s and are encouraged to commit to provide benefits (e.g. trainings to develop skills of GISRS lab personnel)

### **The 2016 Pandemic Influenza Preparedness Framework Review and Key Recommendations**

- The PIP-FW underwent a comprehensive review in 2016, following five years of implementation. The 2016 report was submitted to the 70th WHA in May 2017 through the 140th Executive Board.
- The final report presents 73 findings and 36 recommendations in the five areas assessed: virus sharing, genetic sequence data (GSD), benefit sharing, governance, and linkages with WHO programs and other legal instruments.
- Key Recommendations:
  1. The need for clearer guidance on virus sharing for the WHO Global Influenza Surveillance and Response System (GISRS) labs;
  2. The potential classification of genetic sequence data (GSD) as a PIP biological material;
  3. The potential classification of seasonal influenza viruses as a PIP biological material; and
  4. The PIP-FW should be considered a specialized international instrument to clarify the implementation of the Nagoya Protocol (NP) in relation to pandemic influenza preparedness and response.
- **Key Recommendation 1:** the WHO GISRS, in consultation with WHO Collaborating Centers, released clarifying operational guidance for the sharing of influenza viruses with human pandemic potential under the PIP-FW.
- **Key Recommendations 2 through 4:** the 70<sup>th</sup> WHA adopted the decision -WHA70(10) - to conduct a thorough and deliberative analysis of the implications of pursuing the recommendations regarding seasonal influenza and GSD, and for the Director General (DG) to report to the 71<sup>st</sup> WHA on progress to implement the decision and to make recommendations on further action.
  - The recommendations to consider GSD and seasonal influenza viruses in the context of the PIP-FW were raised, in part, due to the uncertainty regarding the implementation of the Nagoya Protocol (NP).
  - The NP is a legal framework agreement to support the Convention on Biological Diversity's (CBD) fair and equitable sharing of benefits derived from use of genetic resources. The NP dictates that the use of genetic resources within a Party's borders should be based upon mutually agreed terms, and specifies that access to genetic resources should be subject to prior informed consent unless otherwise determined by the Party with the genetic resource.
  - Parties to the NP are required to take legislative, administrative, or policy measures as appropriate to implement their obligations. The USG **is not** a Party to the CBD or the NP.
  - The USG position is that pathogens are not subject to the NP; however, CDC and other WHO Collaborating Centers as well as most member states continue to work under the assumption that influenza virus sharing will be subject to the terms of the NP.
  - Primary concern is the potential adverse impact on virus sharing within the GISRS due to the need to establish bilateral Prior Informed Consent (PIC) and Mutually Agreed upon Terms (MAT) with virus sharing partners.

May 10, 2018

- The NP requires parties to pay “due regard” when developing access and benefit-sharing legislation to govern health emergencies; however, the details of implementing legislation will be determined by each Party.
- Article 4 of the NP exempts genetic resources that are covered by another “specialized international instrument” to facilitate access and benefit sharing, consistent with the NP and CBD objectives.
  - GISRS and the PIP-FW could be designated as “specialized international instruments”, which would obviate the requirement to negotiate bilateral agreements that outline MAT and PIC for seasonal influenza viruses, influenza viruses with pandemic potential, and GSD related to the aforementioned.
    - As technologies become more advanced, manufacturers and researchers are increasingly using GSD to develop pandemic-related supplies.
    - The PIP Framework does not currently address access and benefit sharing related to GSD.
    - According to its 2014 Annual Report, the PIP Framework Advisory Group agrees that GSD falls within the parameters of the Framework; however, there is disagreement as to whether GSD should be included in the definition of PIP biological material.
- The USG **is not** in favor of considering GSD or seasonal influenza viruses in the context of the PIP-FW.
- The USG **is not** in favor of opening up the text of the PIP-FW for revision.
- In accordance with decision WHA70(10), the DG submitted to Member States for the 71<sup>st</sup> WHA the Pandemic Influenza Preparedness Framework for sharing of influenza viruses and access to vaccines and other benefits, which outlines the progress review of the PIP-FW Review Recommendations.

**Current status of the World Health Assembly Pandemic Influenza Preparedness Framework draft resolution to be submitted by the USG**

- The U.S. will be submitting a draft resolution to Committee A for consideration by Member States. The current version is below:

*The Seventy-first World Health Assembly, having considered the report by the Director-General on progress to implement decision WHA70(10),*

- 1) *Approves the recommendations contained at paragraph 19 and to request the Director-General to report thereon to the 72nd WHA through the EB;*
- 2) *To request the Director-General to work with Member States to facilitate the rapid sharing of samples of influenza viruses of pandemic potential with the WHO Global Influenza Surveillance and Response System (GISRS), including through engagement of all relevant ministries, regulatory authorities, and stakeholders responsible for facilitating the sharing of virus samples, in order to ensure they understand the importance of timely virus sharing and have processes in place to respond effectively in support of global public health;*
- 3) *To further request that the Director General report on implementation of the PIP Framework provisions for the timely sharing of virus samples [with the aim of reinforcing PIP Framework implementation by Member States].*

May 10, 2018

- The USG is conducting outreach to other Member States to assess support for the draft resolution. Member States that have been consulted are Norway, UK, Germany, Japan, Australia, Canada, Finland, Netherlands, China, Brazil, Indonesia, and Thailand.

### **The Global Initiative on Sharing All Influenza Data (GISAID)**

- The GISAID platform was launched in May 2008, in conjunction with the 61st WHA as an alternative to the public domain sharing model for GSD. It promotes the sharing of all influenza virus sequences and related metadata associated with human and animal influenza viruses as well as influenza viruses with pandemic potential.
- GISAID is the primary database used by WHO GISRS labs, including WHO Collaborating Centers, for vaccine virus decision-making. It operates through public-private partnerships, grants, and technical partnerships.
- The initiative ensures that open access to data in GISAID is provided free-of-charge to everyone, provided individuals identify themselves and agree to uphold the GISAID Database Access Agreement (DAA), which requires users to acknowledge the originating laboratories providing the specimen and the submitting laboratories who generate the sequence data.
- CDC has supported GISAID since 2007 by providing technical guidance, public funding, and in-kind contributions for the design and development of the EpiFlu™ database applications and their functionalities.
- Germany became the official host of the GISAID platform in 2010.

# Pandemic Influenza Preparedness Framework

Sharing of influenza viruses &  
access to vaccines and other benefits

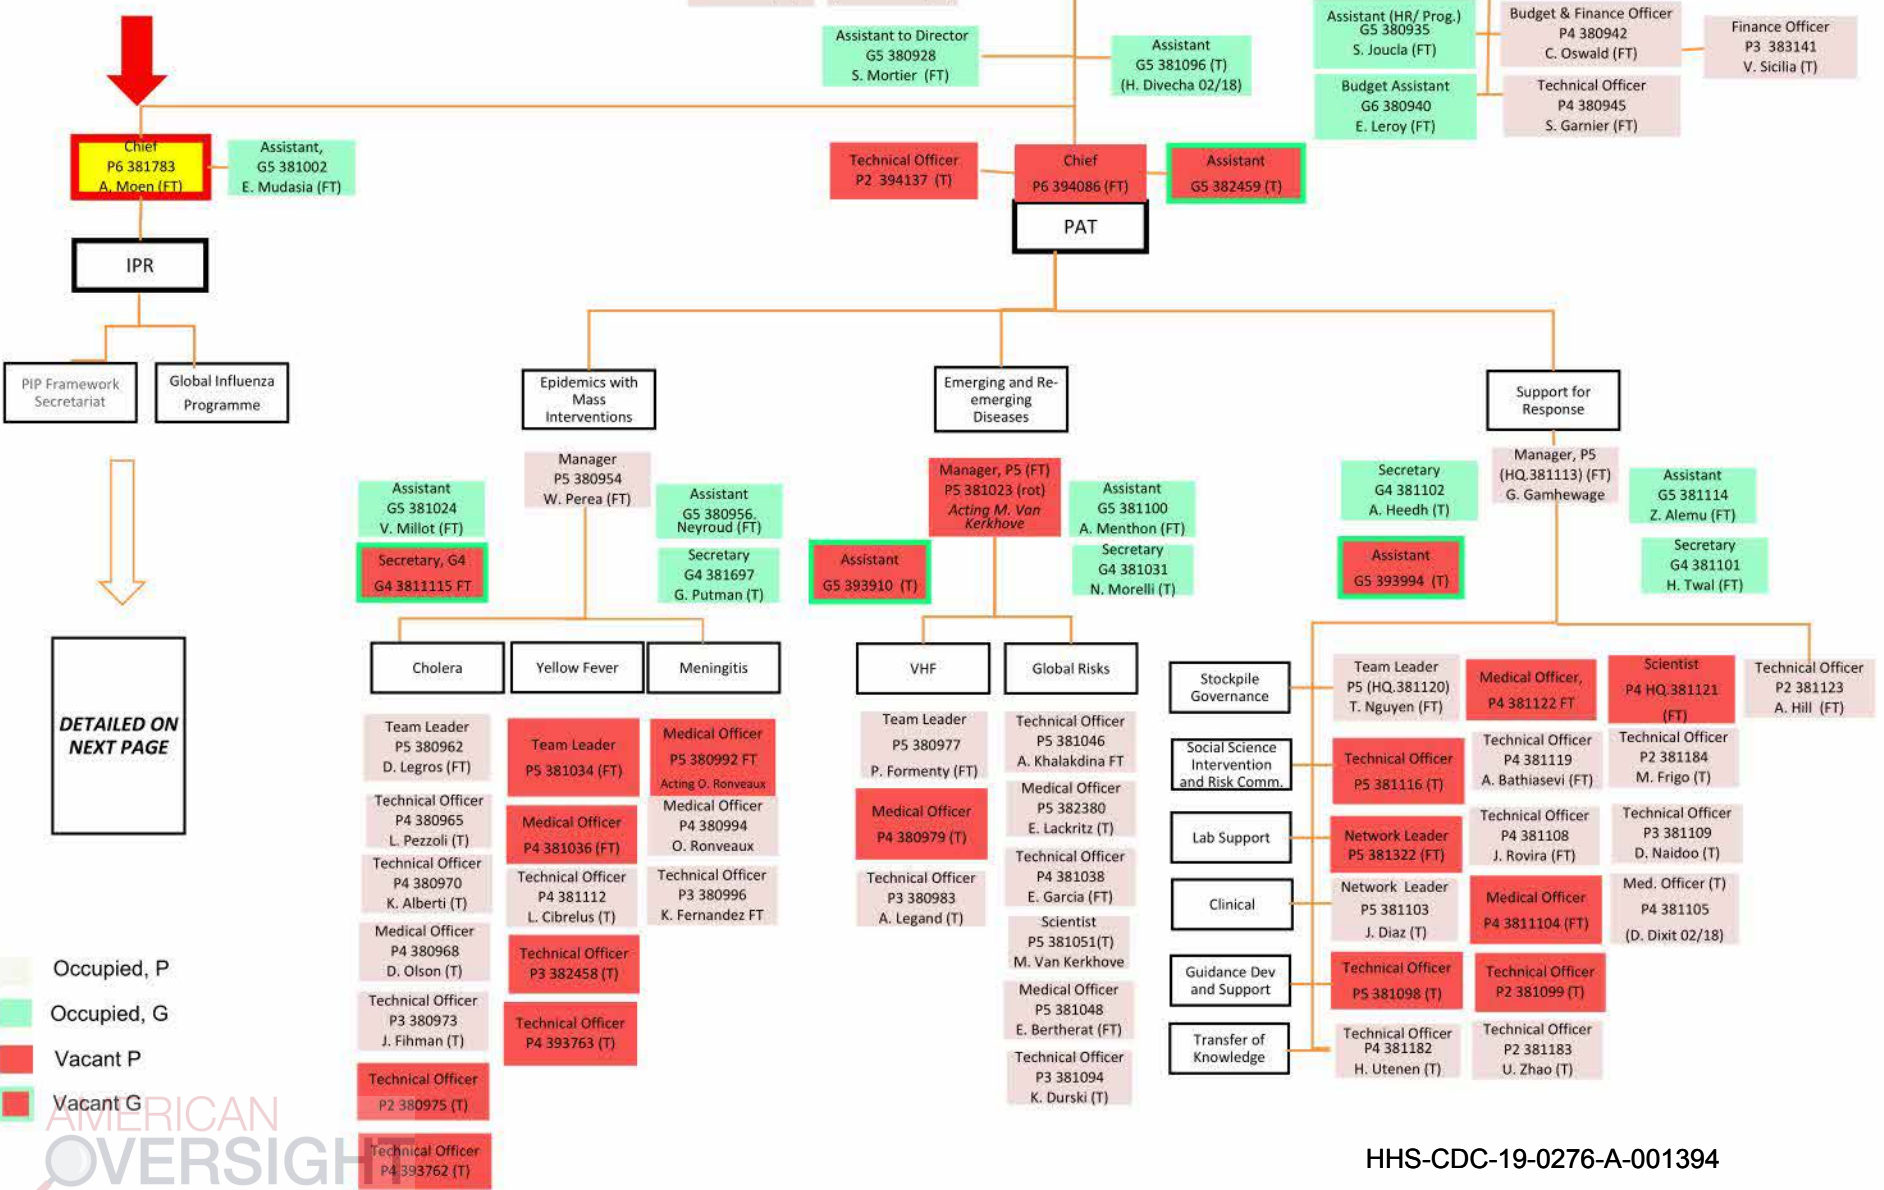

## Overview

# WHO Health Emergencies Programme (HQ)

## Infectious Hazard (IHM) Management (IHM)

January 2018

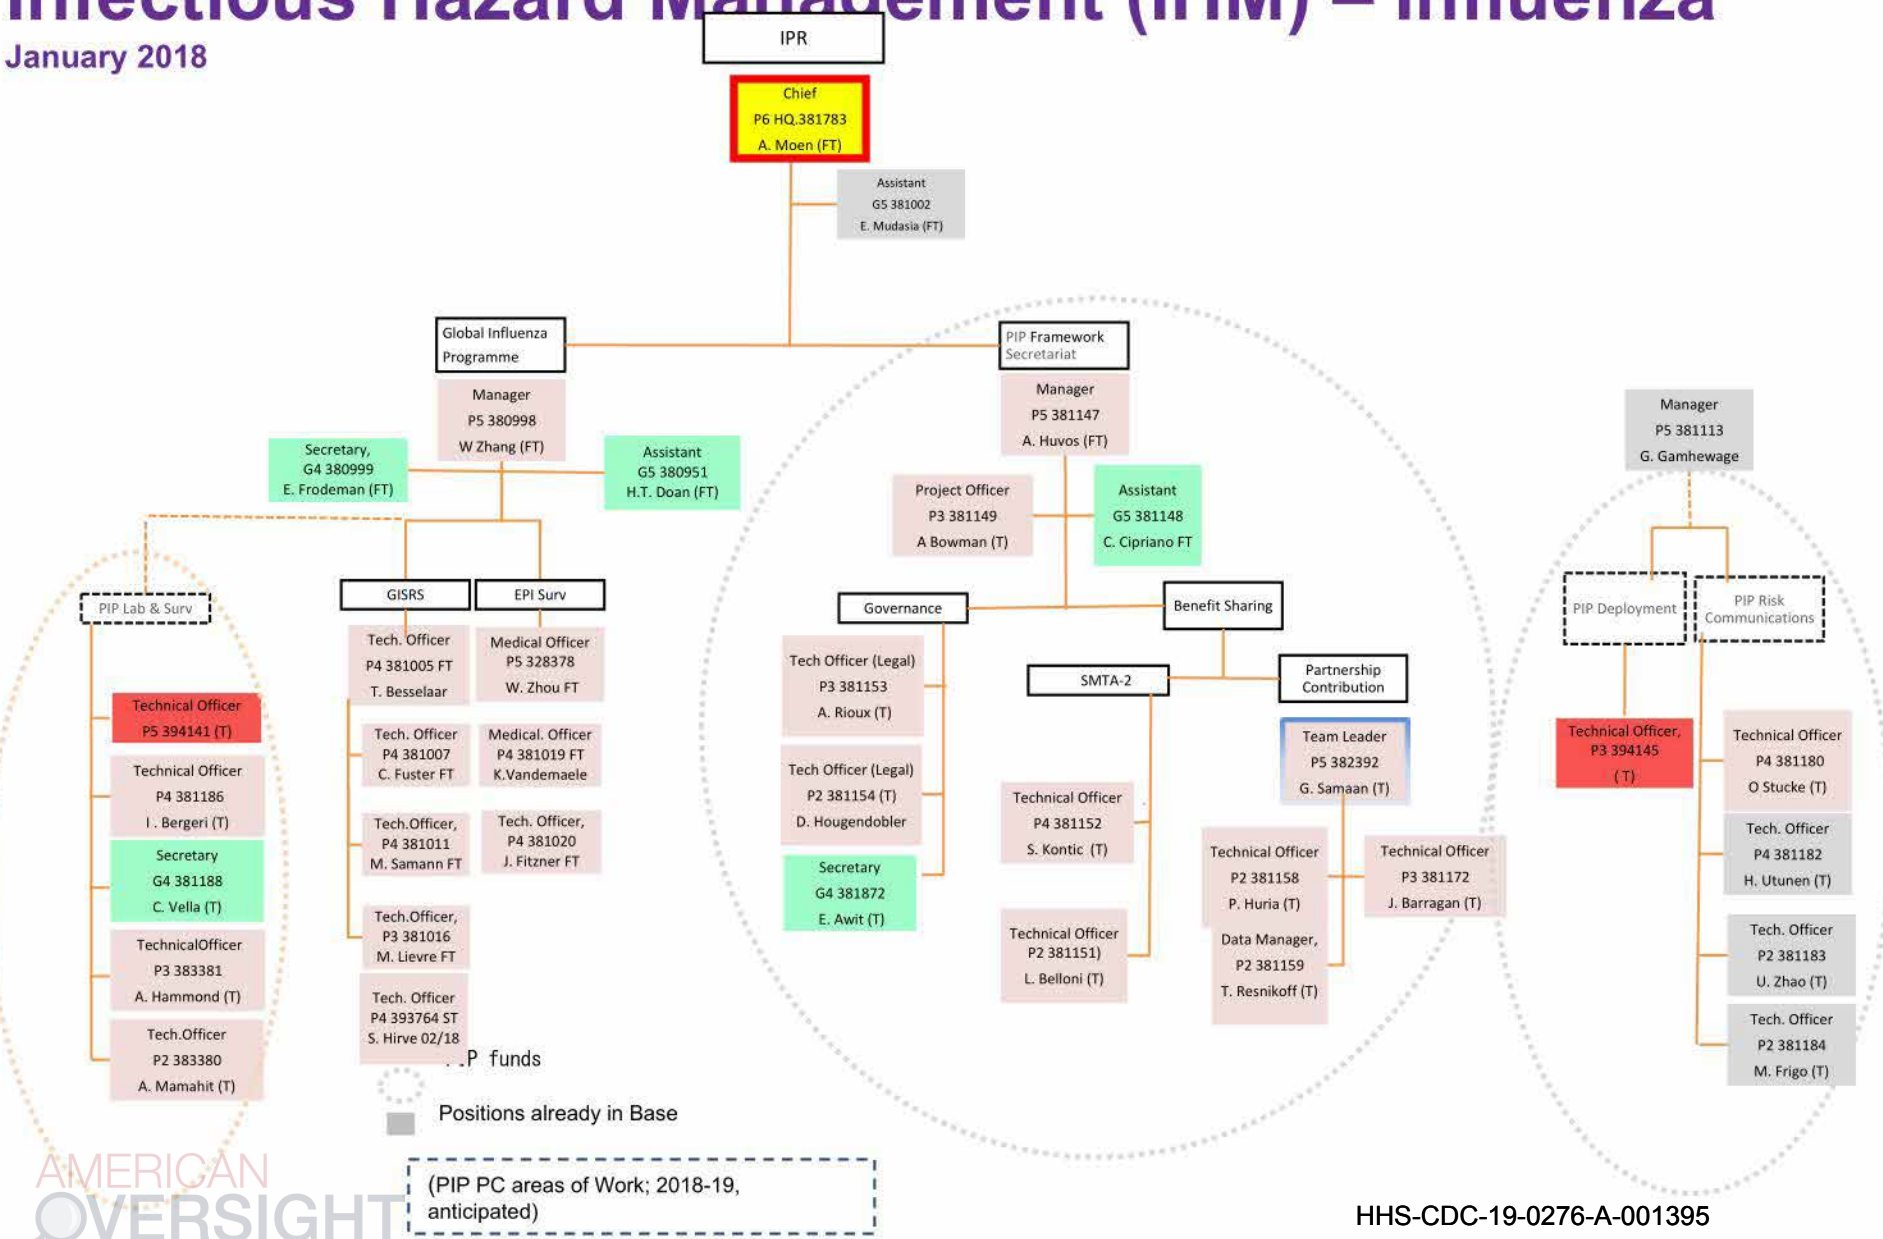

- Occupied, P
- Occupied, G
- Vacant P
- Vacant G

# Health Emergencies Programme (HQ)

## Infectious Hazard Management (IHM) – Influenza

January 2018

# What is the PIP Framework?

→ Innovative instrument to increase public health security by increasing global preparedness to respond to pandemic influenza

→ Focus is on increasing **equity** of access to life saving measures **such as vaccines**

- Brings together Member States, industry, civil society orgs, other key stakeholders, e.g. non-governmental, and philanthropic orgs, and WHO
- Guiding principles include transparency, equity & partnership

# Objectives of PIP Framework

---

- Section 2 specifies two objectives to be pursued **on an equal footing**:
- **Improve sharing of influenza viruses** with the potential to cause a pandemic among humans
  - Member states agree to share influenza viruses of pandemic potential (IVPP)
- **Achieve more predictable, efficient, and equitable access** to benefits arising from the sharing of viruses, notably vaccines and antiviral medicines

## Benefit sharing (Section 6)

---

→ PIP Framework establishes a Benefit Sharing System to provide:

- Surveillance & risk assessment information
- Technical assistance to strengthen key capacities, e.g. pandemic surveillance, risk assessment
- Equitable access to vaccines, antivirals and other critical pandemic response supplies
- Support to strengthen national pandemic influenza response capacities

# Benefit Sharing

Two principal benefit-sharing mechanisms:

→ **Standard Material Transfer Agreement (SMTA 2)** (Annex 2): Advance donation (or purchase) agreements that ensure that at the time of the next pandemic, WHO will have real-time access to pandemic products (e.g. vaccines, antivirals, diagnostics).

→ **Partnership Contribution (PC)** (Section 6.14.3): Annual payments of US \$28M to WHO from manufacturers that use GISRS (Global Influenza Surveillance and Response System). Funds support preparedness and response capacity strengthening in countries where they are weak.

## SMTA 2 (Standard Material Transfer Agreement)

---

- Establishes an **equitable**, **predictable** and **structured** access by WHO to pandemic response products (e.g. vaccines, antivirals, diagnostics) for countries in need
- **Legally binding contracts** with non-GISRS entities, notably influenza vaccine manufacturers, that received PIP biological materials
- Manufacturers select benefit sharing options based on their nature and capacities

# SMTA2 Pandemic Vaccine Commitments

COMPANY	COMMITMENTS							
	Vaccine donation	Vaccine reservation	Antiviral donation	Antiviral reservation	Technology transfer to developing countries	Technology transfer to WHO	Gap Grantee	Pre-qualified Vaccine
China National Biotech Group	8%	2%						
Denka Seiken	8%	2%						
Glaxo Group Limited	7.5%	2.5%	2 million treatment courses	8 million treatment courses				X
Green Cross Corporation	7%	3%					X	X
Kitasato Daiichi Sankyo Limited	8%	2%						
MedImmune LLC	9%	1%						X
The Research Foundation for Microbial Diseases of Osaka University (BIKEN)	8%	2%						
Sanofi Pasteur	7.5%	7.5%						X
Seqirus UK Limited	10%	2.5%						X
Serum Institute of India	8%	2%					X	X
Sinovac Biotech Co	8%	2%						

# Key achievements – SMTA 2

---

**>400M doses**  
of vaccines

**10 million**  
treatment courses  
of antivirals

**250,000**  
diagnostic kits

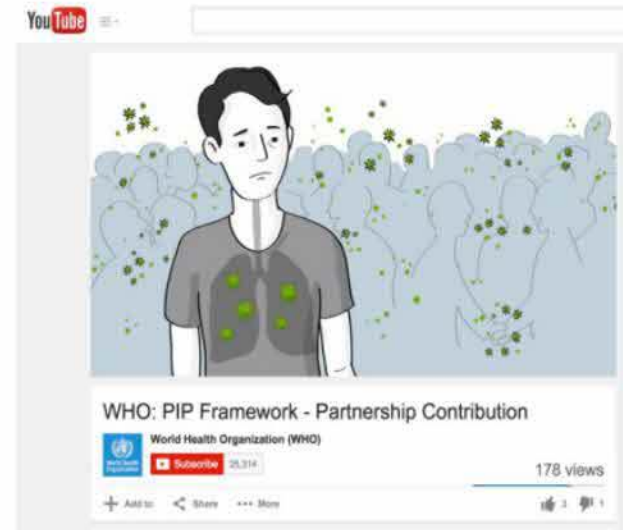

**12 agreements** signed, including with all multinational vaccine manufacturers (as of 31 December 2017)

# Partnership Contribution (PC)

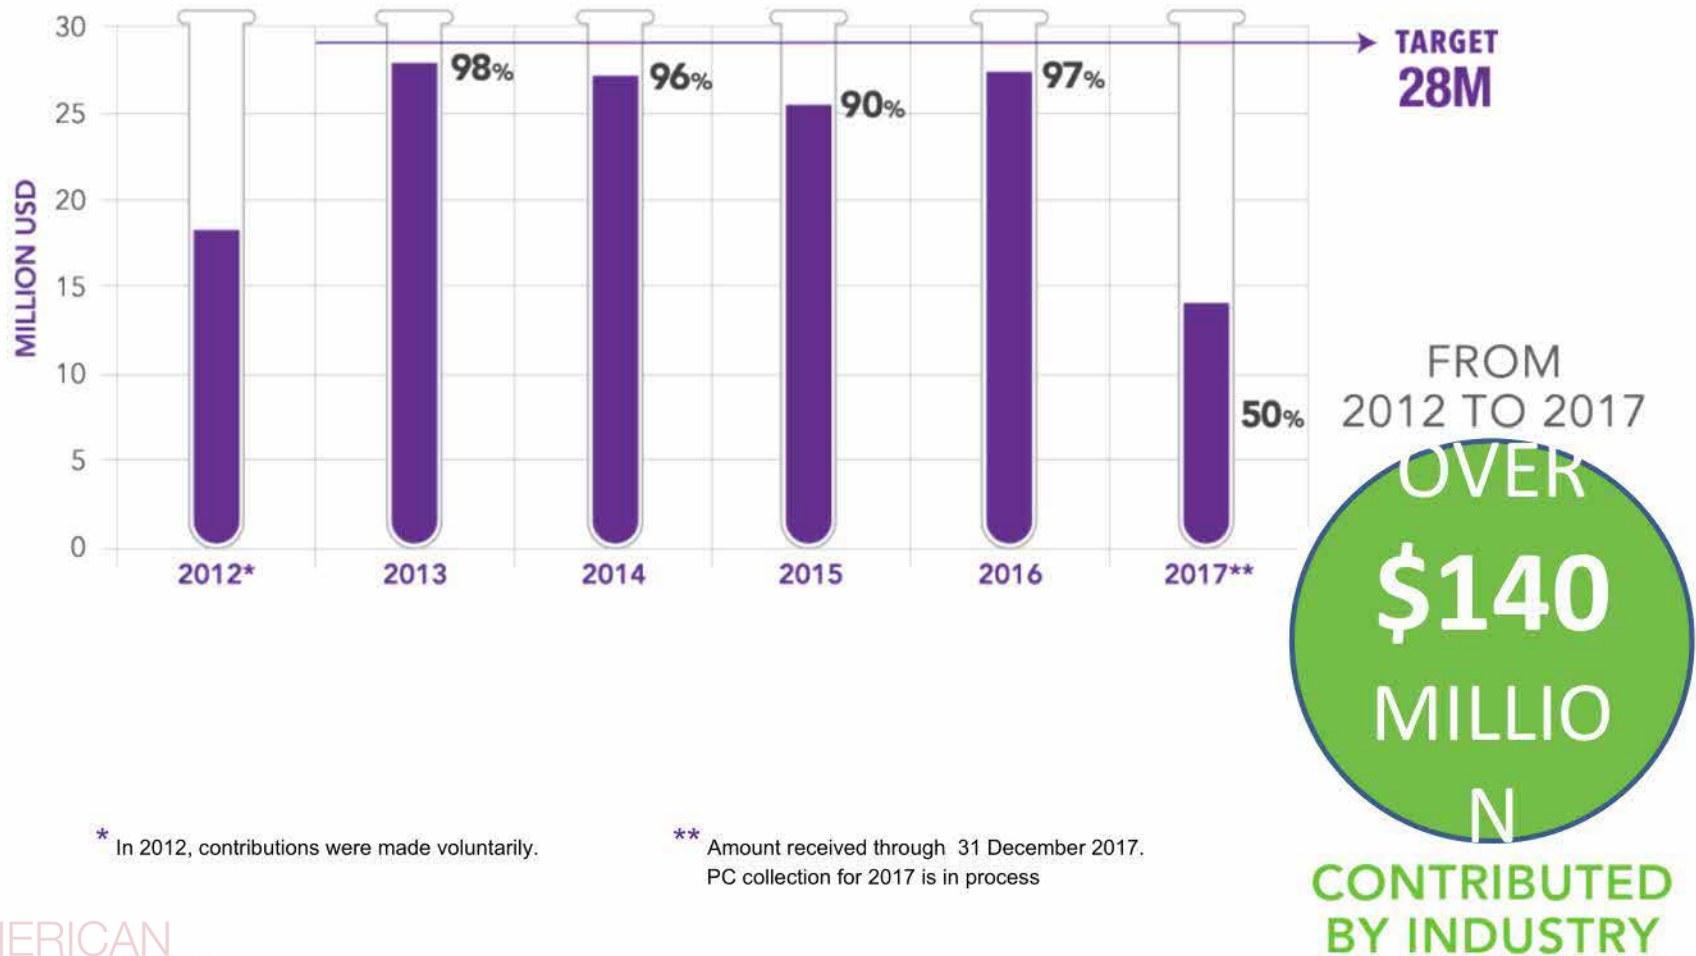

- Annual payment of US\$ 28M
- Paid to WHO by 'influenza vaccine, diagnostic and pharmaceutical manufacturers that **use GISRS.**'
- 70% of funds used by WHO to strengthen **preparedness** capacities
- 30% of funds set aside until next pandemic for **response**

- Video explains process to identify contributors and how much they should pay
- Available in all WHO official languages

# Partnership Contribution: US\$ 28M / annum

→ Percentage of total partnership contribution received for each year

\* In 2012, contributions were made voluntarily.

\*\* Amount received through 31 December 2017.  
PC collection for 2017 is in process

# Use of PC funds for Preparedness

- Director-General decides on use with advice from Advisory Group & interaction with industry other stakeholders
- High level *PC Implementation Plan II (2018-2023)* published in March 2018 builds on HLIP I (2013-2017) and focuses on 6 areas of work:

- **Lab & surveillance capacity building**
- **Burden of disease studies**
- **Regulatory Capacity building**
- **Planning for Deployment**
- **Risk Communications**
- **National Influenza Pandemic Preparedness Plans**

- Detailed work plans developed for activities in countries & regions

# Governance & review

---

## → 3-pillared oversight mechanism

- World Health Assembly: oversees implementation
- Director-General: promotes implementation
- Advisory Group:
  - Advises Director-General on the use of the Partnership Contribution
  - Monitors & assesses implementation of Framework
  - Interacts with Industry & other stakeholders

## → Full Framework review in 2016

- Report submitted to WHA70
- WHA70 considered and adopted decision WHA70(10)

## 1. Contacts:

**Logistics Specialist:** Brad Bartee

**Special Assistant:** Ashley Knotts

**Important Contact:** Jacob Eckles – Mobile 202-494-3668, email: [Jacob.eckles@hhs.gov](mailto:Jacob.eckles@hhs.gov)

### **CDC Personnel Accompanying CDC Director:**

**Mitch Wolfe** – Mobile: (b)(6)

**Rebecca Martin** – Mobile: (b)(6)

**CDC Program Contact (if applicable):** TBD

**CDC Media Contact (if applicable):** TBD

## 2. Event Information:

**Event Host:** World Health Organization

**Purpose of Event:** The World Health Assembly is the decision-making body of WHO. It is attended by delegations from all WHO Member States and focuses on a specific health agenda prepared by the Executive Board. The main functions of the World Health Assembly are to determine the policies of the Organization, appoint the Director-General, supervise financial policies, and review and approve the proposed program budget. The Health Assembly is held annually in Geneva, Switzerland

**Agenda (if applicable):** See Attached Director At-A-Glance

**Number of Attendees and Composition:** TBD

**Key Participants (if applicable):** TBD

**Bios:** Included in SA Materials

**Source Invitation:** Yes on DL

## 3. CDC Director Speech Information or Talking Points (TPs):

**CDC Director's Remarks/Presentation/TPs:** TBD

**Proposed Role and Topic:** TBD

**Length of Presentation:** TBD  
**Press:** TBD  
**Teleprompter:** TBD

#### **4. Supporting/Logistics Materials:**

##### **World Health Assembly location**

Palais des Nations  
1211 Geneva 10

##### **Hotel**

Most U.S. delegates are staying at the Intercontinental Hotel  
7-9 chemin du Petit-Saconnex  
Tel: [41] (22) 919 39 39

##### **Control Room**

We will have a control room at the Intercontinental Hotel (room number TBC) from May 18 through May 25. All U.S. delegates are welcome to use the control room 24/7. It has computers, printers, a photocopier, office supplies, a meeting table and wireless internet. When you check-in at the hotel, you should receive a key to the control room, but please ask for a key if for some reason you do not. All delegates names are on cleared list of people to get keys (even for those not staying at the Intercontinental Hotel). Alison Schaeffer, from the Office of Global Affairs, is managing the control room. Please be in touch with her with any questions (e: [Alison.Schaeffer@hhs.gov](mailto:Alison.Schaeffer@hhs.gov) or m: 202-713-6137). **If you lose your key to the control room, please contact Alison; do not ask for a new one at the front desk as this usually ends up in the deactivation of all our keys to the control room.**

##### **Credentials**

The U.S. Mission in Geneva has registered the full U.S. delegation. We will give you your badge at the delegation meeting on Sunday. If you cannot attend this meeting, we will leave your badge with the front desk at the Intercontinental Hotel. For entrance into the Palais, you will need to show your passport in addition to your badge. Please remember to take your passport with you each day!

##### **General Transportation**

Each delegation member is responsible for his/her travel to/from the airport. There are metered taxi cabs available just outside of baggage claim (cost will be about CHF 30). Alternatively, there are free tickets for public transportation available from a machine in the baggage collection area at the Geneva International Airport (on the left hand side just before passing customs). This *Unireso* ticket allows you free use of public transport in Geneva for a period of 80 minutes.

All hotels provide a free Geneva transport card that gives you free access to public transportation, including buses and trains to the airport. You should receive this card when you check-in to the Intercontinental Hotel. You **MUST** carry this card with you when you use the buses or must purchase a ticket before boarding. Although infrequent, Geneva police do sometimes board buses to verify that all passengers have proof of payment.

You can find a Geneva public transport trip planner [here](#).

The WHO building is within 15 minutes walking distance of the Intercontinental. Many delegates choose this option and can show you the way.

### **Transportation to/from Palais des Nations**

#### *Shuttle Buses*

We have a shuttle buses for U.S. Delegates that will go between the Intercontinental Hotel and Palais from Monday, 5/21 to Wednesday, 5/23. Please note that the shuttle is not available 24/7; first pick-up from the Intercontinental will be at 7:00am, and last drop-off will be at 11:00am. Alison Schaeffer, from the Office of Global Affairs, is managing the vehicles. Please contact her with any questions (e: [Alison.Schaeffer@hhs.gov](mailto:Alison.Schaeffer@hhs.gov) or m: 202-868-9310).

#### *Walking*

The Intercontinental Hotel is a short 10 minute walk from the Palais.

#### *Taxis*

A taxi stand is located on Avenue de la Paix, 50 meters uphill from the Palais gate, and are available any time. Taxis cannot enter the UN compound—passengers will have to get off at the Pregny or Nations gates.

### **Technology**

When you arrive in Geneva, you may need to take your battery out of your phone/BlackBerry for a few moments and then put it back it. This will help it find the network.

You will receive free wireless access at the Intercontinental Hotel. At check-in, you will receive a username and password. If you want to access wireless in the lobby, you need to ask the front desk for a separate username and password.

Electrical outlets often only take low-profile EU adapters (see below). If you plan on charging your phone or laptop at the EB, please remember to bring an adapter.

-

### **5. OGC Review Materials:**

The 71<sup>st</sup> World Health Assembly is the decision-making body of WHO. It is attended by delegations from all WHO Member States and focuses on a specific health agenda prepared by the Executive Board. The main functions of the World Health Assembly are to determine the policies of the Organization, appoint the Director-General, supervise financial policies, and review and approve the proposed program budget. The Health Assembly is held annually in Geneva, Switzerland.

**Audits**

Audit Name	Result	Reason
NON-CONTRACT FARE	FAIL	FLIGHT: 82, DEPARTING: 05/18/18, NON-CONTRACT FARE: IFFUS (UNKNOWN AIRPORT CODE) A non-contract fare was selected. Please provide a justification why a contract fare was not used.
	Traveler Justification:	These are the flights that work best with Dr. Redfield's schedule and the schedule of the WHO meetings. Dr. Redfield is not required to use the contract carrier in this case because that airline does not provide a business class city pair fare. Dr. Redfield has an approved reasonable accommodation for premium class flights on file with CDC's Reasonable Accommodations Office and the Office of Financial Resources

# JOURNAL

Issued in Arabic, Chinese, English, French, Russian, and Spanish

Available on Internet : [www.who.int/gb](http://www.who.int/gb)

## Seventy-first World Health Assembly

Preliminary Journal

9 May 2018

This preliminary journal is intended to give delegates, representatives and other participants advance indications of the Health Assembly's tentative programme of work. Additional information can be found in the *Guide for delegates to the World Health Assembly* (document A71/DIV./2).

The Journal does not constitute an official record of the Health Assembly's proceedings. The Journal is published in Arabic, Chinese, English, French, Russian and Spanish on every working day during the Health Assembly.

### Content

1.	Date, location and working hours .....	2
2.	Tentative programme of work of the Health Assembly .....	3
3.	Technical briefings .....	6
4.	Other meetings.....	8
5.	Arrangements for conduct of discussion in plenary meetings .....	13
6.	Provisional list of speakers for the general discussion in plenary .....	14

### Badges

For security reasons, all delegates will be required to wear photo ID badges in order to access the meeting rooms. During the online registration process, the focal point will be asked to upload a passport style photograph of each member of the delegation. Brief instructions on how to upload and resize an existing image are available at: <http://www.who.int/governance/en/>. Please note that delegates must register at WHO headquarters and obtain their badge before going to the Palais des Nations. Access to the Palais des Nations and the meeting rooms will be restricted to persons wearing badges.

### Interpretation

Interpretation is provided in the official languages (Arabic, Chinese, English, French, Russian and Spanish) to help delegates follow the discussions. To ensure statements are interpreted as clearly as possible, delegates are requested to send a copy of statements they plan to make to [interpret@who.int](mailto:interpret@who.int) at least 30 minutes in advance. For further information on length and delivery of statements please see section 5 of the Journal.

## 1. Date, location and working hours

The Seventy-first World Health Assembly will open in Geneva on Monday, **21 May 2018 at 09:30**. The Health Assembly will be held in the Palais des Nations, located near the Place des Nations and Avenue de la Paix and most easily reached by the entrance gate on the Route de Pregny. The working hours of the Health Assembly are from 09:00 to 12:00 and from 14:30 to 17:30, except for the first plenary meeting, which will commence at 09:30.

The Health Assembly will close no later than Saturday, 26 May 2018, as decided by the Executive Board at its 142nd session.

## 2. Tentative programme of work of the Health Assembly

**Monday, 21 May 2018**

<b>First plenary meeting</b>	<b>09:30</b>
	Delegations will sit in the French alphabetical order of names of Member States commencing with the letter “X” as decided by the drawing of lots. Delegations are requested to take their seats a few minutes before 09:30.
<b>Item 1</b>	<b>Opening of the Health Assembly</b>
Item 1.1	– Appointment of the Committee on Credentials
Item 1.2	– Election of the President of the Seventy-first World Health Assembly
Item 1.3	– Election of the five Vice-Presidents, the Chairmen of the main committees, and establishment of the General Committee
<b>High-Level Segment</b>	<b>10:30</b>
<b>General Committee<sup>1</sup></b>	<b>Immediately after conclusion of the High-Level Segment in plenary</b>
	Examination and submission to the Health Assembly of recommendations on such questions as: <ul style="list-style-type: none"><li>– Adoption of the provisional agenda as proposed by the Executive Board</li><li>– Addition of supplementary items, if any, to the provisional agenda</li><li>– Initial allocation to the main committees of items of the agenda</li><li>– Deferment of any item to a future Health Assembly</li><li>– Programme of work of the Health Assembly</li></ul>
<b>Second plenary meeting</b>	<b>14:30</b>
–	<b>Presidential address</b>
<b>Item 1 (continued)</b>	<b>Opening of the Health Assembly</b>
Item 1.4	– Adoption of the agenda and allocation of items to the main committees
<b>Item 2</b>	<b>Report of the Executive Board on its 141st and 142nd sessions and on its special session on the draft thirteenth general programme of work, 2019–2023</b>
–	Announcement by the President inviting suggestions regarding election of Members entitled to designate a person to serve on the Executive Board

<b>Item 8 (continued)</b>	<b>Reports of the main committees</b>
---------------------------	---------------------------------------

<b>Item 9</b>	<b>Closure of the Health Assembly</b>
---------------	---------------------------------------

### 3. Technical briefings

The following technical briefings will take place during the Seventy-first World Health Assembly.

**Tuesday, 22 May 2018**

**12:30–14:00**

**Room XII**

---

**Primary health care is key to achieving universal health coverage and health for all  
(lead up to 40th Anniversary of Alma Ata and 2019 General Assembly High-level meeting on UHC)**

The 1978 Declaration of Alma-Ata was the first international declaration to advocate for primary health care as the main strategy to achieve WHO's stated goal of health for all. Since then, strong primary care systems, based in local communities, are recognized to be essential to achieving universal health coverage. The core values and principles of the 1978 Alma-Ata Declaration still stand, and at the Global Conference on Primary Health Care: Towards Health for All, to be held in October this year in Astana, Republic of Kazakhstan the global community is expected to renew the emphasis on primary care as the main driver of people-centred health systems leading to universal health coverage. Making health care truly universal requires a shift from health systems designed around diseases and health institutions towards health systems designed around and for people.

The technical briefing will review lessons learnt on the implementation of primary health care over these past four decades. This will inform the future implementation of primary health care toward universal health coverage in our globalized world.

**Wednesday, 23 May 2018**

**12:30–14:00**

**Room XII**

---

**Official launch of the WHO immunization business case for the African continent**

While the African continent has made tremendous gains toward increasing access to immunization in the last 15 years, progress has stagnated, leaving one in five African children without access to life-saving vaccines. As a result, vaccine-preventable diseases continue to claim too many lives. On 31 January 2017 at the 28<sup>th</sup> African Union Summit, Heads of State from across Africa endorsed the Addis Declaration on Immunization (ADI), thereby committing to advance universal access to immunization across Africa, which is a core component of attaining universal health coverage and the Sustainable Development Goals.

In this context, WHO/AFRO and WHO/EMRO jointly developed the WHO immunization business case for the African Continent. This business case has been developed to mobilize sufficient resources for WHO to continue supporting all 54 Member States of the African continent to fully achieve the ADI commitments. During this technical briefing, new frameworks and developments on immunization will be presented including:

- the paradigm change and new approach for immunization as a core component of attaining universal health coverage on the African continent
- the immunization maturity grid
- country categorization for the African continent
- 2030 ambition to save 1.9 million lives
- WHO's new value proposition and county-tailored approach, and transformation of the immunization programme.

---

**Health, environment and climate change**

The Marrakesh Ministerial declaration released in 2016 at COP22 mandated WHO, UN Environment and World Meteorological Organization (WMO) to convene a global coalition between relevant Ministries, including Ministries of Health and Ministries of Environment, and key UN agencies and stakeholders, to drive forward actions that will reduce the harmful impacts on the environment and climate that affect human health and well-being. The main goal of the coalition is to jointly promote and achieve better management of environmental and climate risks to health. Notably, in its first phase, the coalition is prioritizing immediate actions to reduce the annual 12.6 million deaths caused by environmental risks and is specifically committed to support Member States and stakeholders in their efforts to tackle air pollution.

This interagency technical briefing will:

- enable the heads of agencies and Member States to reconfirm their commitments to support the Health, Environment and Climate Change Coalition (HECCC) in the effort to address the root environmental causes of ill health
- present a joint action plan for air pollution and detail the scope and purpose of the upcoming first WHO Global Conference on Air Pollution
- provide a scientific briefing on the state of knowledge on environmental determinants of health, including in relation to the non-communicable disease agenda
- report on the achievements of the BreatheLife Campaign.

---

**The role of parliamentarians in achieving universal health coverage and global health security**

Today at least 400 million people globally have no access to essential health services, and 40% of the world's population lack social protection. Achieving universal health coverage, including for the most marginalized and vulnerable groups of our societies, such as women, children, adolescents and the elderly, is a crucial objective for each and every country. Universal health coverage enables all people to receive the health services they need throughout their lives without suffering financial hardship.

Universal health coverage also includes health promotion and prevention and requires a broad public health approach to strengthening health systems. As the best defence to prevent disease outbreaks from becoming epidemics, and to respond to health emergencies, strong health systems are the best way to safeguard against health crises. In this way, universal health coverage and global health security are two sides of the same coin.

Universal health coverage and global health security are key pillars to the achievement of the Sustainable Development Goals, but ultimately they are a political choice. It is the responsibility of every country to pursue them, and parliamentarians have a key role to play in moving national health agendas forward.

This technical briefing will provide an opportunity to hear the voice of parliamentarians and share experiences on concrete actions in terms of legislation, accountability, budget allocation and advocacy. The briefing will also serve to share with parliamentarians the draft thirteenth general programme of work, 2019–2023. The technical briefing is organized in collaboration with the Inter-Parliamentary Union (IPU).

## 4. Other meetings

The Secretariat has been advised that the following meetings will take place during the Seventy-first World Health Assembly. This represents information received up to 8 May 2018:

### Monday, 21 May 2018

---

08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–09:00 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–09:00 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:20–09:20 Room VII	Meeting of heads of delegations of Member States of the Region of the Americas.
08:30–09:20 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.
08:45–09:20 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
12:30–14:00 Concordia 1	Meeting of the Pacific Health Ministers.
12:30–14:00 Room VII	Universal health coverage in emergencies – a call to action. Organized by the delegations of Afghanistan, the Netherlands, Nigeria and Switzerland.
12:30–14:00 Room XXIII	Assistive technology: making universal health coverage inclusive. Organized by the delegations of China, the Islamic Republic of Iran, Jordan and Pakistan.
12:30–14:00 Room XXIV	Primary health care and universal health coverage: the evidence, contributions and effectiveness of community health workers. Organized by the delegations of Algeria, Ecuador, Ethiopia, Norway and the United Republic of Tanzania.
13:00–14:00 Concordia 4	Meeting of the Council of the Arab Ministers of Health.
15:00–17:00 Room X	4 <sup>th</sup> Economic Cooperation Organization Ministerial Meeting on Health. <i>By invitation only.</i>
18:30–21:30 <i>at the Palais des Nations, Court of Honour (in case of rain at the Serpentine Bar)</i>	WHO 70 <sup>th</sup> anniversary reception. Co-organized with Switzerland.

## Tuesday, 22 May 2018

---

07:45–08:45 Room VII	Meeting of the delegations of Member States of the Americas Region (AMRO/GRUA).
08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–08:50 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–08:50 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:15–08:45 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
08:15–08:45 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
08:30–08:50 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.
12:15–14:15 Room XVI	Meeting of the Ministers of Health of the Non-aligned Movement (NAM).
12:30–14:00 Room XXIII	Tackling noncommunicable diseases as a major contribution to universal health coverage: are regulatory interventions a cost-effective alternative? Organized by the delegations of Brazil, Colombia, Costa Rica, Ecuador, Finland, the Netherlands and Uruguay.
12:30–14:00 Room XXIV	Towards universal coverage with HIV prevention services and commodities – the Global Prevention Coalition and Roadmap. Organized by the delegations of Ecuador, Haiti, the Islamic Republic of Iran, Luxembourg, Maldives, Mexico, Panama, Ukraine, the United Kingdom of Great Britain and Northern Ireland and the African Group.
18:00–19:30 Room VIII	Country-led and country-owned efforts on malaria elimination to achieving universal health coverage. Organized by the delegations of Australia, China, Lao People's Democratic Republic, New Zealand, Papua New Guinea, Spain, Sri Lanka, the United Republic of Tanzania and Zambia.
18:00–19:30 Room IX	Taking civil society engagement to new heights to advance WHO's thirteenth general programme of work and achieve the Triple Billion targets. Organized by Caritas Internationalis, International Federation of Medical Students' Associations, International Pediatric Association, International Pharmaceutical Students' Federation and PATH.
18:00–19:30 Room XXIII	Global action on patient safety for achieving effective universal health coverage. Organized by the delegations Czechia, Denmark, Germany, Japan, Kenya, Luxembourg, Malta, New Zealand, Oman, Poland, Saudi Arabia, South Africa, Sri Lanka and the United Kingdom of Great Britain and Northern Ireland.
18:00–19:30 Room XXIV	100 years after the pandemic: preparedness to protect Health for All. Organized by the delegations of Finland and the United States of America.
18:00–20:00 Room IV	Regional coordination meeting of the Member States of the Caribbean Community (CARICOM).

## Wednesday, 23 May 2018

---

07:45–08:45 Room VII	Meeting of the delegations of Member States of the Americas Region (AMRO/GRUA).
08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–08:50 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–08:50 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:15–08:45 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
08:15–08:45 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
08:30–08:50 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.
12:30–14:00 Room VIII	Why women, children, adolescents and youth are central to advancing universal health coverage, quality, equity, dignity, and sexual and reproductive health rights. Organized by the delegations of Denmark, France, Georgia, Malawi, Mozambique, Norway, Portugal, Slovenia and Sweden.
12:30–14:00 Room XXIV	Institutionalizing social participation and hearing people’s voice to secure sustainable gains for universal health coverage. Organized by the delegations of Chile, the Islamic Republic of Iran and Thailand.
12:30–14:15 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
18:00–18:50 Room IX	Gynecological oncology, early detection and prevention. Organized by the International Federation of Gynecology and Obstetrics.
18:00–19:30 Room VII	Member States commitment to the global movement towards universal health coverage: focused actions on primary health care and financing for effective delivery. Organized by the delegations of Australia, Ghana, Indonesia, Maldives, Mexico, Republic of Korea and Turkey.
18:00–19:30 Room VIII	Towards ending tuberculosis—BRICS efforts to achieve universal health coverage in the context of preparations for the UN High-Level Meeting on Tuberculosis. Organized by the delegations of Brazil, India, the Russian Federation and South Africa.
18:00–20:00 Room XXII	Informal meeting with the Ministers of Health of guinea-worm affected countries. Organized by the WHO Secretariat. <i>By invitation only.</i>
19:00–19:50 Room IX	Mobilizing society: inspiration for developing national responses to dementia. Organized by Alzheimer’s Disease International.

## Thursday, 24 May 2018

---

07:45–08:45 Room VII	Meeting of the delegations of Member States of the Americas Region (AMRO/GRUA).
08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–08:50 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–08:50 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:15–08:45 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
08:15–08:45 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
08:30–08:50 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.
12:30–14:00 Room VII	Inclusive formulation of evidence-based policies and programmes for universal health coverage. Organized by the delegations of Ethiopia, Uganda and the European Union.
12:30–14:00 Room VIII	Towards universal access to solid organ transplantation. Organized by the delegations of Algeria, Argentina, China, Costa Rica, Croatia, Dominican Republic, Italy, Portugal, Qatar, the Russian Federation, Spain and Uruguay.
12:30–14:30 Room IX	Small Island Developing States (SIDS) ministerial meeting.
18:00–18:50 Room IX	From burden to solution—ending tuberculosis, beating noncommunicable diseases and achieving Health for All through alcohol policy best buys implementation. Organized by the delegations of Botswana, Lithuania, Slovenia, Thailand and IOGT International.
18:00–19:30 Room VII	Addressing antimicrobial resistance: a threat to global health and the achievement of universal health coverage. Organized by the delegations of Canada, Chile, Fiji, Italy, the Netherlands, the Philippines, Republic of Korea, Sweden and Viet Nam.
18:00–19:30 Room VIII	Combatting the challenges of substandard and falsified medical products: the critical role of regulators. Organized by the delegations of Canada, Ireland, Japan, Mexico and the United States of America.
19:00–19:50 Room IX	The World Breastfeeding Trends Initiative as a vehicle to galvanise action to achieve World Health Assembly and Global Breastfeeding Collective targets to increase exclusive and continued breastfeeding. Organized by the International Baby Food Action Network.

## Friday, 25 May 2018

---

07:45–08:45 Room VII	Meeting of the delegations of Member States of the Americas Region (AMRO/GRUA).
08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–08:50 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–08:50 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:15–08:45 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
08:15–08:45 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
08:30–08:50 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.
12:30–14:00 Room VII	Nourishing universal health coverage—country successes, lessons learnt and new tools in integrating infant and young child nutrition in health, with a focus on breastfeeding. Organized by the delegations of Bangladesh, Burkina Faso, Canada, France, Ireland, Madagascar and the Philippines.
12:30–14:00 Room VIII	Access to medicines: overcoming obstacles created by monopolies—essential to universal health coverage and the 2030 Agenda. Organized by the delegations of Brazil, India, Morocco, Senegal and Thailand.
18:00–18:50 Room IX	Digital health and artificial intelligence for delivery of quality services towards universal access to health care. Organized by the International Society for Telemedicine and eHealth.
19:00–19:50 Room IX	Better access for all with sustainable financing systems: the role of the private sector and new innovations to achieve universal health coverage. Organized by the Global Diagnostic Imaging, Healthcare IT and Radiation Therapy Trade Association and the International Federation of Pharmaceutical Manufacturers and Associations.

## Saturday, 26 May 2018

---

08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–08:50 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–08:50 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:15–08:45 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
08:15–08:45 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
08:30–08:50 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.

## 5. Arrangements for conduct of discussion in meetings

---

### **Plenary. Theme of general discussion: “Health for All: commit to universal health coverage”**

Resolution WHA52.21 on reform of the Health Assembly requested the Director-General to make appropriate arrangements for a shortened plenary meeting and, to this end, encouraged group or regional statements in plenary debate. Delegates are requested to limit their statements to **five minutes** (550 words) in this debate. Group or regional statements may last up to 10 minutes.

Delegates wishing to have their name placed on the list of speakers for the general discussion should notify the Department for Governing Bodies and External Relations by e-mail ([piazzap@who.int](mailto:piazzap@who.int)) or fax +41 22 791 4173.

Copies of statements to be made in the general discussion should be submitted by email ([interpret@who.int](mailto:interpret@who.int)) or to the Office of the Assistant to the Secretary of the Health Assembly (Room A.656) by the morning of Monday, 21 May 2018. When submitting by email, please specify in the “Subject” and at the top of the statement, the name of the country and the meeting: “General Discussion”.

Delegates wishing to have their statements posted on the Health Assembly website [http://apps.who.int/gb/e/e\\_wha71.html](http://apps.who.int/gb/e/e_wha71.html) may send it to [statements@who.int](mailto:statements@who.int) and include in the subject line of the email the agenda item to which the statement relates. Additional information provided in this manner will not be included in the official record of the meeting.

### **Other meetings**

Interpretation is provided in the official languages (Arabic, Chinese, English, French, Russian and Spanish) to help delegates follow the discussions. Delegates are requested to send a copy of statements they plan to make to [interpret@who.int](mailto:interpret@who.int) or to give a paper copy to the conference officers in the room at least 30 minutes before delivery. This does not prevent delegates from making changes on delivery but will facilitate clarity and accuracy in all languages. Under ‘Subject’ and at the top of the statement please state the name of the country/group, the meeting (e.g. Plenary, Committee A, Committee B, Executive Board) and the relevant agenda item number.

Individual statements in Committees A and B are limited to 3 minutes (330 words) and group statements to five minutes (550 words). Delegates are requested to deliver statements at a normal speaking pace. Rapid delivery risks impeding clarity and accuracy in interpretation. Statements provided in advance are treated as confidential and checked against delivery for the purpose of the official record.

Delegates wishing to have their statements posted on the Health Assembly website [http://apps.who.int/gb/e/e\\_wha71.html](http://apps.who.int/gb/e/e_wha71.html) may send it to [statements@who.int](mailto:statements@who.int) and include in the subject line of the email the agenda item to which the statement relates. Additional information provided in this manner will not be included in the official record of the meeting.

### **Non-State actors statements at the Health Assembly**

Non-State actors in official relations with WHO may request to speak in Committee A or B of the Health Assembly under a technical item in which they have a particular expertise. Non-State actors wishing to have their name placed on the list of speakers should notify the Secretariat of Partnerships and non-State actors Department (PNA) by email ([nsastatements@who.int](mailto:nsastatements@who.int)) latest by 08:00 am of the day of the meeting in question. Non-State actors may submit their statements in advance for the Secretariat to post on a dedicated website and are invited to register at <https://extranet.who.int/nonstateactorsstatements/>. Statements should be limited to 2 minutes (300 words).

## 6. Provisional list of speakers for the general discussion in plenary

Bulgaria	(The delegate of Bulgaria will speak on behalf of the European Union)
Canada	(The delegate of Canada will speak on behalf of the Member States of the Region of the Americas)
Zimbabwe	(The delegate of Zimbabwe will speak on behalf of the Member States of the African Region)
India	
China	
Lebanon	(The delegate of Lebanon will give the statement of the Arab Ministers Council)
France	
United States of America	
United Kingdom of Great Britain and Northern Ireland	
Cuba	
Russian Federation

## INFORMATION FOR UNITED STATES DELEGATION TO 71ST WORLD HEALTH ASSEMBLY

MAY 21 – 25, 2018

### LOGISTICS

#### World Health Assembly location

Palais des Nations  
1211 Geneva 10

#### Hotel

Most U.S. delegates are staying at the Intercontinental Hotel  
7-9 chemin du Petit-Saconnex  
Tel: [41] (22) 919 39 39

#### Control Room

We will have a control room at the Intercontinental Hotel (room number TBC) from May 18 through May 25. All U.S. delegates are welcome to use the control room 24/7. It has computers, printers, a photocopier, office supplies, a meeting table and wireless internet. When you check-in at the hotel, you should receive a key to the control room, but please ask for a key if for some reason you do not. All delegates names are on cleared list of people to get keys (even for those not staying at the Intercontinental Hotel). Alison Schaeffer, from the Office of Global Affairs, is managing the control room. Please be in touch with her with any questions (e: [Alison.Schaeffer@hhs.gov](mailto:Alison.Schaeffer@hhs.gov) or m: 202-713-6137). **If you lose your key to the control room, please contact Alison; do not ask for a new one at the front desk as this usually ends up in the deactivation of all our keys to the control room.**

#### Delegation Meetings

##### Sunday, May 20

5:00pm

##### **U.S. Delegation Meeting**

Intercontinental Hotel, Madrid room

7:30pm

##### **Informal Delegation Dinner**

Luigia, Chemin de la Tourelle 2

Meet in the lobby of the Intercontinental at 7:20 if you want to walk to dinner together

##### Monday, May 22

No formal delegation meeting.

##### Daily meeting Tuesday, May 22 - Friday, May 25

7:30 – 7:50am

##### **U.S. Delegation Meeting**

Intercontinental Hotel

Control Room # TBC

#### Credentials

The U.S. Mission in Geneva has registered the full U.S. delegation. We will give you your badge at the delegation meeting on Sunday. If you cannot attend this meeting, we will leave your badge with the front desk at the

Intercontinental Hotel. For entrance into the Palais, you will need to show your passport in addition to your badge. Please remember to take your passport with you each day!

### **General Transportation**

Each delegation member is responsible for his/her travel to/from the airport. There are metered taxi cabs available just outside of baggage claim (cost will be about CHF 30). Alternatively, there are free tickets for public transportation available from a machine in the baggage collection area at the Geneva International Airport (on the left hand side just before passing customs). This *Unireso* ticket allows you free use of public transport in Geneva for a period of 80 minutes.

All hotels provide a free Geneva transport card that gives you free access to public transportation, including buses and trains to the airport. You should receive this card when you check-in to the Intercontinental Hotel. You **MUST** carry this card with you when you use the buses or must purchase a ticket before boarding. Although infrequent, Geneva police do sometimes board buses to verify that all passengers have proof of payment.

You can find a Geneva public transport trip planner [here](#).

The WHO building is within 15 minutes walking distance of the Intercontinental. Many delegates choose this option and can show you the way.

### **Transportation to/from Palais des Nations**

#### *Shuttle Buses*

We have a shuttle buses for U.S. Delegates that will go between the Intercontinental Hotel and Palais from Monday, 5/21 to Wednesday, 5/23. Please note that the shuttle is not available 24/7; first pick-up from the Intercontinental will be at 7:00am, and last drop-off will be at 11:00am. Alison Schaeffer, from the Office of Global Affairs, is managing the vehicles. Please contact her with any questions (e: [Alison.Schaeffer@hhs.gov](mailto:Alison.Schaeffer@hhs.gov) or m: 202-868-9310).

#### *Walking*

The Intercontinental Hotel is a short 10 minute walk from the Palais.

#### *Taxis*

A taxi stand is located on Avenue de la Paix, 50 meters uphill from the Palais gate, and are available any time. Taxis cannot enter the UN compound—passengers will have to get off at the Pregny or Nations gates.

### **Technology**

When you arrive in Geneva, you may need to take your battery out of your phone/BlackBerry for a few moments and then put it back in. This will help it find the network.

You will receive free wireless access at the Intercontinental Hotel. At check-in, you will receive a username and password. If you want to access wireless in the lobby, you need to ask the front desk for a separate username and password.

Electrical outlets often only take low-profile EU adapters (see below). If you plan on charging your phone or laptop at the EB, please remember to bring an adapter.

## WORLD HEALTH ASSEMBLY SESSIONS

### Daily Journals

Each morning, the Secretariat puts out an updated agenda (“journal”) for the day. Because negotiations take differing amounts of time, the schedule for when agenda items will be brought to the floor can change greatly from day to day. These journals are available at the Palais and uploaded on the WHA website [here](#). OGA will also pick up the daily journals from the Palais and have them available in the control room for delegation members each morning.

### Meeting rooms

Plenary: Assembly Hall (Salle des Assemblées) accessible from doors 13 and 15

Committee A: Conference Room XVIII on the first floor of Building E

Committee B: Conference Room XVII on the first floor of Building E

For the first several days of the Assembly access to the Plenary room will be limited. Overflow seating is available in the gallery upstairs, and proceedings other than the election will be broadcast on televisions and via webcast.

### Position Papers

OGA coordinates all position papers and talking points for Committee A and Committee B and will have a binder with these documents available at the chair when it is occupied. We do not leave the binders unattended so if you are in the chair prior to a break, please take the binder with you until the next session begins.

### USG Coverage Schedules

OGA will share schedules detailing who from the U.S. delegation will sit in the U.S. seat during plenary sessions and during specific agenda items in Committee A and Committee B. Timing for each agenda item can vary greatly so we will update this internal-USG schedule each morning and share it at the morning delegation meeting.

### Reporting and readouts

Each night, a representative from OGA will collect the summaries of negotiations from the Assembly floor and bilateral meetings. We will be in touch with delegates throughout the day if we do not receive your readouts.

## DELEGATION PARTICIPATION

The U.S. delegation is a working delegation. Members are assigned responsibility for particular agenda items or sessions. OGA will share schedules detailing who from the U.S. delegation will sit in the U.S. seat during plenary sessions. The assignment list represents an initial attempt to identify responsibilities for support to the Head of Delegation who is the spokesperson on all issues, and who may delegate the opportunity to speak to other members of the delegation. Since timing for each agenda item can vary greatly, we will update this internal-USG schedule each morning and share it at the morning delegation meeting. Any changes or additions to assignments will be discussed at the daily U.S. delegation meetings. **If you are unable to cover an event, please let Maya Levine ([maya.levine@hhs.gov](mailto:maya.levine@hhs.gov)) or Rachel Wood ([rachel.wood@hhs.gov](mailto:rachel.wood@hhs.gov)) know immediately.**

Assignments are made so that at least two members of the delegation will be present at all times at each session. The suggested assignments are based on dynamics of the Assembly, areas of expertise and interest, competing responsibilities of delegates, and the itineraries of U.S. delegation members.

As long as assignments are being covered, U.S. delegates may attend any session they wish, provided participation is not limited for reasons of space and/or need to limit participation to essential people only (e.g., resolution

drafting sessions). The head of delegation and alternate representative will coordinate assignments for negotiations and drafting groups as they arise.

Depending on the Assembly dynamics, delegates may receive other specific assignments, including participation at representational events, bilateral meetings with Member States, special technical briefings, resolution drafting sessions, meetings with WHO staff, etc. The responsibilities for any assignment include that a designated delegate(s):

- 1) attend the entire specified session;
- 2) take brief notes or highlights of particular presentation(s) and/or discussions; and
- 3) submit 2-4 bullets following the discussion to Jacob Eckles ([Jacob.eckles@hhs.gov](mailto:Jacob.eckles@hhs.gov)) for inclusion in the U.S. reporting cable.

### **Note-taking guidance**

If you are the assigned note-taker for an agenda discussion, event or bilateral meeting, please familiarize yourself with the briefing document, report and/or our position paper so that you have the context of the conversation to help capture meaningful notes.

Summaries of the committee discussion should be 3-6 sentences and able to answer the following questions:

- What action did the Assembly take? (This should be referenced under the "Issue" section of our position papers)
- What are the important outcomes and/or next steps for this issue?
- Did the United States play a role in achieving this outcome?
- What were some key discussion themes or noteworthy remarks (and who delivered them)?

Note-taking tips:

- Spell out all acronyms the first time they are used.
- If a summary is "SBU" indicate which items within the summary are SBU vs. Unclassified.
- Both plenary and bilateral meeting summaries will be shared with the wider interagency. Please write keeping in mind the broader audience.

# PRACTICAL INFORMATION

## UNITED NATIONS OFFICE AT GENEVA - UNOG

8-14 avenue de la Paix  
CH-1211 Geneva 10

or  
call the switchboard.  
T +41 (0)22 917 12 34

## ACCREDITATION

All delegates visiting the Palais des Nations must first register with the Security and Safety Service, which will issue identity badges upon arrival.

## ACCREDITATION REQUESTS

The conference Secretariat at the delegate's request will send out a registration form. The completed form with accompanying official letters regarding the delegation must be sent back to the conference Secretariat at least four working days in advance of the conference.

## IDENTIFICATION BADGES

On arriving for a conference, accredited delegates should visit the Security and Safety Service at the Pregny Gate to collect their identification badges. Delegates must present the original of the registration form sent beforehand to the conference Secretariat and their national identification card or passport. On the first day of a conference, there could be a bit of a wait so you may wish to arrive in good time.

## PARKING AUTHORIZATIONS

Delegates wishing to park on the premises should request authorization in advance through their individual Permanent Mission in Geneva. The UNOG Security and Safety Service at Pregny Gate will issue the parking authorization at the same time as the delegate's identification badge.

## SECURITY AT THE PALAIS DES NATIONS

For security reasons, the identification badge must be worn and visible to UNOG Security staff at all times while visiting the UNOG.

## OPENING HOURS

### PREGNY GATE

From Monday to Friday  
8:00 am - 5:00 pm

## LEAGUE OF NATIONS MUSEUM

The Museum relates, from 1919 to 1946, the history of the very first intergovernmental organization for peace and cooperation, without which the United Nations would not be what it is today. It also evokes current issues and the work of the UN today. The League's Archives have been registered since 2009 in the Memory of the World Register of UNESCO.

# JOURNAL

Issued in Arabic, Chinese, English, French, Russian, and Spanish

Available on Internet : [www.who.int/gb](http://www.who.int/gb)

## Seventy-first World Health Assembly

Preliminary Journal

9 May 2018

This preliminary journal is intended to give delegates, representatives and other participants advance indications of the Health Assembly's tentative programme of work. Additional information can be found in the *Guide for delegates to the World Health Assembly* (document A71/DIV./2).

The Journal does not constitute an official record of the Health Assembly's proceedings. The Journal is published in Arabic, Chinese, English, French, Russian and Spanish on every working day during the Health Assembly.

### Content

1.	Date, location and working hours .....	2
2.	Tentative programme of work of the Health Assembly .....	3
3.	Technical briefings .....	6
4.	Other meetings.....	8
5.	Arrangements for conduct of discussion in plenary meetings .....	13
6.	Provisional list of speakers for the general discussion in plenary .....	14

### Badges

For security reasons, all delegates will be required to wear photo ID badges in order to access the meeting rooms. During the online registration process, the focal point will be asked to upload a passport style photograph of each member of the delegation. Brief instructions on how to upload and resize an existing image are available at: <http://www.who.int/governance/en/>. Please note that delegates must register at WHO headquarters and obtain their badge before going to the Palais des Nations. Access to the Palais des Nations and the meeting rooms will be restricted to persons wearing badges.

### Interpretation

Interpretation is provided in the official languages (Arabic, Chinese, English, French, Russian and Spanish) to help delegates follow the discussions. To ensure statements are interpreted as clearly as possible, delegates are requested to send a copy of statements they plan to make to [interpret@who.int](mailto:interpret@who.int) at least 30 minutes in advance. For further information on length and delivery of statements please see section 5 of the Journal.

## 1. Date, location and working hours

The Seventy-first World Health Assembly will open in Geneva on Monday, **21 May 2018 at 09:30**. The Health Assembly will be held in the Palais des Nations, located near the Place des Nations and Avenue de la Paix and most easily reached by the entrance gate on the Route de Pregny. The working hours of the Health Assembly are from 09:00 to 12:00 and from 14:30 to 17:30, except for the first plenary meeting, which will commence at 09:30.

The Health Assembly will close no later than Saturday, 26 May 2018, as decided by the Executive Board at its 142nd session.

## 2. Tentative programme of work of the Health Assembly

**Monday, 21 May 2018**

**First plenary meeting** **09:30**

Delegations will sit in the French alphabetical order of names of Member States commencing with the letter “X” as decided by the drawing of lots. Delegations are requested to take their seats a few minutes before 09:30.

**Item 1**                      **Opening of the Health Assembly**

- Item 1.1                    – Appointment of the Committee on Credentials
- Item 1.2                    – Election of the President of the Seventy-first World Health Assembly
- Item 1.3                    – Election of the five Vice-Presidents, the Chairmen of the main committees, and establishment of the General Committee

**High-Level Segment** **10:30**

**General Committee<sup>1</sup>**                      **Immediately after conclusion of the High-Level Segment in plenary**

Examination and submission to the Health Assembly of recommendations on such questions as:

- Adoption of the provisional agenda as proposed by the Executive Board
- Addition of supplementary items, if any, to the provisional agenda
- Initial allocation to the main committees of items of the agenda
- Deferment of any item to a future Health Assembly
- Programme of work of the Health Assembly

**Second plenary meeting** **14:30**

–                      **Presidential address**

**Item 1 (continued)**                      **Opening of the Health Assembly**

- Item 1.4                    – Adoption of the agenda and allocation of items to the main committees

**Item 2**                      **Report of the Executive Board on its 141st and 142nd sessions and on its special session on the draft thirteenth general programme of work, 2019–2023**

–                      Announcement by the President inviting suggestions regarding election of Members entitled to designate a person to serve on the Executive Board

**Item 3**                      **Address by Dr Tedros Adhanom Ghebreyesus, Director-General**

- General discussion

<sup>1</sup>. Rules 29 and 30 of the Rules of Procedure of the World Health Assembly define membership of and attendance at the General Committee. Web link: <http://www.who.int/governance>.

<b>First meeting of Committee A</b>	<b>After commencement of general discussion under Item 3</b>

<b>Item 8 (continued)</b>	<b>Reports of the main committees</b>
---------------------------	---------------------------------------

<b>Item 9</b>	<b>Closure of the Health Assembly</b>
---------------	---------------------------------------

### 3. Technical briefings

The following technical briefings will take place during the Seventy-first World Health Assembly.

**Tuesday, 22 May 2018**

**12:30–14:00**

**Room XII**

---

**Primary health care is key to achieving universal health coverage and health for all  
(lead up to 40th Anniversary of Alma Ata and 2019 General Assembly High-level meeting on UHC)**

The 1978 Declaration of Alma-Ata was the first international declaration to advocate for primary health care as the main strategy to achieve WHO's stated goal of health for all. Since then, strong primary care systems, based in local communities, are recognized to be essential to achieving universal health coverage. The core values and principles of the 1978 Alma-Ata Declaration still stand, and at the Global Conference on Primary Health Care: Towards Health for All, to be held in October this year in Astana, Republic of Kazakhstan the global community is expected to renew the emphasis on primary care as the main driver of people-centred health systems leading to universal health coverage. Making health care truly universal requires a shift from health systems designed around diseases and health institutions towards health systems designed around and for people.

The technical briefing will review lessons learnt on the implementation of primary health care over these past four decades. This will inform the future implementation of primary health care toward universal health coverage in our globalized world.

**Wednesday, 23 May 2018**

**12:30–14:00**

**Room XII**

---

**Official launch of the WHO immunization business case for the African continent**

While the African continent has made tremendous gains toward increasing access to immunization in the last 15 years, progress has stagnated, leaving one in five African children without access to life-saving vaccines. As a result, vaccine-preventable diseases continue to claim too many lives. On 31 January 2017 at the 28<sup>th</sup> African Union Summit, Heads of State from across Africa endorsed the Addis Declaration on Immunization (ADI), thereby committing to advance universal access to immunization across Africa, which is a core component of attaining universal health coverage and the Sustainable Development Goals.

In this context, WHO/AFRO and WHO/EMRO jointly developed the WHO immunization business case for the African Continent. This business case has been developed to mobilize sufficient resources for WHO to continue supporting all 54 Member States of the African continent to fully achieve the ADI commitments. During this technical briefing, new frameworks and developments on immunization will be presented including:

- the paradigm change and new approach for immunization as a core component of attaining universal health coverage on the African continent
- the immunization maturity grid
- country categorization for the African continent
- 2030 ambition to save 1.9 million lives
- WHO's new value proposition and county-tailored approach, and transformation of the immunization programme.

---

**Health, environment and climate change**

The Marrakesh Ministerial declaration released in 2016 at COP22 mandated WHO, UN Environment and World Meteorological Organization (WMO) to convene a global coalition between relevant Ministries, including Ministries of Health and Ministries of Environment, and key UN agencies and stakeholders, to drive forward actions that will reduce the harmful impacts on the environment and climate that affect human health and well-being. The main goal of the coalition is to jointly promote and achieve better management of environmental and climate risks to health. Notably, in its first phase, the coalition is prioritizing immediate actions to reduce the annual 12.6 million deaths caused by environmental risks and is specifically committed to support Member States and stakeholders in their efforts to tackle air pollution.

This interagency technical briefing will:

- enable the heads of agencies and Member States to reconfirm their commitments to support the Health, Environment and Climate Change Coalition (HECCC) in the effort to address the root environmental causes of ill health
- present a joint action plan for air pollution and detail the scope and purpose of the upcoming first WHO Global Conference on Air Pollution
- provide a scientific briefing on the state of knowledge on environmental determinants of health, including in relation to the non-communicable disease agenda
- report on the achievements of the BreatheLife Campaign.

**The role of parliamentarians in achieving universal health coverage and global health security**

Today at least 400 million people globally have no access to essential health services, and 40% of the world's population lack social protection. Achieving universal health coverage, including for the most marginalized and vulnerable groups of our societies, such as women, children, adolescents and the elderly, is a crucial objective for each and every country. Universal health coverage enables all people to receive the health services they need throughout their lives without suffering financial hardship.

Universal health coverage also includes health promotion and prevention and requires a broad public health approach to strengthening health systems. As the best defence to prevent disease outbreaks from becoming epidemics, and to respond to health emergencies, strong health systems are the best way to safeguard against health crises. In this way, universal health coverage and global health security are two sides of the same coin.

Universal health coverage and global health security are key pillars to the achievement of the Sustainable Development Goals, but ultimately they are a political choice. It is the responsibility of every country to pursue them, and parliamentarians have a key role to play in moving national health agendas forward.

This technical briefing will provide an opportunity to hear the voice of parliamentarians and share experiences on concrete actions in terms of legislation, accountability, budget allocation and advocacy. The briefing will also serve to share with parliamentarians the draft thirteenth general programme of work, 2019–2023. The technical briefing is organized in collaboration with the Inter-Parliamentary Union (IPU).

## 4. Other meetings

The Secretariat has been advised that the following meetings will take place during the Seventy-first World Health Assembly. This represents information received up to 8 May 2018:

### Monday, 21 May 2018

---

08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–09:00 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–09:00 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:20–09:20 Room VII	Meeting of heads of delegations of Member States of the Region of the Americas.
08:30–09:20 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.
08:45–09:20 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
12:30–14:00 Concordia 1	Meeting of the Pacific Health Ministers.
12:30–14:00 Room VII	Universal health coverage in emergencies – a call to action. Organized by the delegations of Afghanistan, the Netherlands, Nigeria and Switzerland.
12:30–14:00 Room XXIII	Assistive technology: making universal health coverage inclusive. Organized by the delegations of China, the Islamic Republic of Iran, Jordan and Pakistan.
12:30–14:00 Room XXIV	Primary health care and universal health coverage: the evidence, contributions and effectiveness of community health workers. Organized by the delegations of Algeria, Ecuador, Ethiopia, Norway and the United Republic of Tanzania.
13:00–14:00 Concordia 4	Meeting of the Council of the Arab Ministers of Health.
15:00–17:00 Room X	4 <sup>th</sup> Economic Cooperation Organization Ministerial Meeting on Health. <i>By invitation only.</i>
18:30–21:30 <i>at the Palais des Nations, Court of Honour (in case of rain at the Serpentine Bar)</i>	WHO 70 <sup>th</sup> anniversary reception. Co-organized with Switzerland.

## Tuesday, 22 May 2018

---

07:45–08:45 Room VII	Meeting of the delegations of Member States of the Americas Region (AMRO/GRUA).
08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–08:50 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–08:50 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:15–08:45 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
08:15–08:45 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
08:30–08:50 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.
12:15–14:15 Room XVI	Meeting of the Ministers of Health of the Non-aligned Movement (NAM).
12:30–14:00 Room XXIII	Tackling noncommunicable diseases as a major contribution to universal health coverage: are regulatory interventions a cost-effective alternative? Organized by the delegations of Brazil, Colombia, Costa Rica, Ecuador, Finland, the Netherlands and Uruguay.
12:30–14:00 Room XXIV	Towards universal coverage with HIV prevention services and commodities – the Global Prevention Coalition and Roadmap. Organized by the delegations of Ecuador, Haiti, the Islamic Republic of Iran, Luxembourg, Maldives, Mexico, Panama, Ukraine, the United Kingdom of Great Britain and Northern Ireland and the African Group.
18:00–19:30 Room VIII	Country-led and country-owned efforts on malaria elimination to achieving universal health coverage. Organized by the delegations of Australia, China, Lao People's Democratic Republic, New Zealand, Papua New Guinea, Spain, Sri Lanka, the United Republic of Tanzania and Zambia.
18:00–19:30 Room IX	Taking civil society engagement to new heights to advance WHO's thirteenth general programme of work and achieve the Triple Billion targets. Organized by Caritas Internationalis, International Federation of Medical Students' Associations, International Pediatric Association, International Pharmaceutical Students' Federation and PATH.
18:00–19:30 Room XXIII	Global action on patient safety for achieving effective universal health coverage. Organized by the delegations Czechia, Denmark, Germany, Japan, Kenya, Luxembourg, Malta, New Zealand, Oman, Poland, Saudi Arabia, South Africa, Sri Lanka and the United Kingdom of Great Britain and Northern Ireland.
18:00–19:30 Room XXIV	100 years after the pandemic: preparedness to protect Health for All. Organized by the delegations of Finland and the United States of America.
18:00–20:00 Room IV	Regional coordination meeting of the Member States of the Caribbean Community (CARICOM).

## Wednesday, 23 May 2018

---

07:45–08:45 Room VII	Meeting of the delegations of Member States of the Americas Region (AMRO/GRUA).
08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–08:50 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–08:50 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:15–08:45 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
08:15–08:45 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
08:30–08:50 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.
12:30–14:00 Room VIII	Why women, children, adolescents and youth are central to advancing universal health coverage, quality, equity, dignity, and sexual and reproductive health rights. Organized by the delegations of Denmark, France, Georgia, Malawi, Mozambique, Norway, Portugal, Slovenia and Sweden.
12:30–14:00 Room XXIV	Institutionalizing social participation and hearing people’s voice to secure sustainable gains for universal health coverage. Organized by the delegations of Chile, the Islamic Republic of Iran and Thailand.
12:30–14:15 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
18:00–18:50 Room IX	Gynecological oncology, early detection and prevention. Organized by the International Federation of Gynecology and Obstetrics.
18:00–19:30 Room VII	Member States commitment to the global movement towards universal health coverage: focused actions on primary health care and financing for effective delivery. Organized by the delegations of Australia, Ghana, Indonesia, Maldives, Mexico, Republic of Korea and Turkey.
18:00–19:30 Room VIII	Towards ending tuberculosis—BRICS efforts to achieve universal health coverage in the context of preparations for the UN High-Level Meeting on Tuberculosis. Organized by the delegations of Brazil, India, the Russian Federation and South Africa.
18:00–20:00 Room XXII	Informal meeting with the Ministers of Health of guinea-worm affected countries. Organized by the WHO Secretariat. <i>By invitation only.</i>
19:00–19:50 Room IX	Mobilizing society: inspiration for developing national responses to dementia. Organized by Alzheimer’s Disease International.

## Thursday, 24 May 2018

---

07:45–08:45 Room VII	Meeting of the delegations of Member States of the Americas Region (AMRO/GRUA).
08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–08:50 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–08:50 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:15–08:45 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
08:15–08:45 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
08:30–08:50 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.
12:30–14:00 Room VII	Inclusive formulation of evidence-based policies and programmes for universal health coverage. Organized by the delegations of Ethiopia, Uganda and the European Union.
12:30–14:00 Room VIII	Towards universal access to solid organ transplantation. Organized by the delegations of Algeria, Argentina, China, Costa Rica, Croatia, Dominican Republic, Italy, Portugal, Qatar, the Russian Federation, Spain and Uruguay.
12:30–14:30 Room IX	Small Island Developing States (SIDS) ministerial meeting.
18:00–18:50 Room IX	From burden to solution—ending tuberculosis, beating noncommunicable diseases and achieving Health for All through alcohol policy best buys implementation. Organized by the delegations of Botswana, Lithuania, Slovenia, Thailand and IOGT International.
18:00–19:30 Room VII	Addressing antimicrobial resistance: a threat to global health and the achievement of universal health coverage. Organized by the delegations of Canada, Chile, Fiji, Italy, the Netherlands, the Philippines, Republic of Korea, Sweden and Viet Nam.
18:00–19:30 Room VIII	Combatting the challenges of substandard and falsified medical products: the critical role of regulators. Organized by the delegations of Canada, Ireland, Japan, Mexico and the United States of America.
19:00–19:50 Room IX	The World Breastfeeding Trends Initiative as a vehicle to galvanise action to achieve World Health Assembly and Global Breastfeeding Collective targets to increase exclusive and continued breastfeeding. Organized by the International Baby Food Action Network.

## Friday, 25 May 2018

---

07:45–08:45 Room VII	Meeting of the delegations of Member States of the Americas Region (AMRO/GRUA).
08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–08:50 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–08:50 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:15–08:45 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
08:15–08:45 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
08:30–08:50 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.
12:30–14:00 Room VII	Nourishing universal health coverage—country successes, lessons learnt and new tools in integrating infant and young child nutrition in health, with a focus on breastfeeding. Organized by the delegations of Bangladesh, Burkina Faso, Canada, France, Ireland, Madagascar and the Philippines.
12:30–14:00 Room VIII	Access to medicines: overcoming obstacles created by monopolies—essential to universal health coverage and the 2030 Agenda. Organized by the delegations of Brazil, India, Morocco, Senegal and Thailand.
18:00–18:50 Room IX	Digital health and artificial intelligence for delivery of quality services towards universal access to health care. Organized by the International Society for Telemedicine and eHealth.
19:00–19:50 Room IX	Better access for all with sustainable financing systems: the role of the private sector and new innovations to achieve universal health coverage. Organized by the Global Diagnostic Imaging, Healthcare IT and Radiation Therapy Trade Association and the International Federation of Pharmaceutical Manufacturers and Associations.

## Saturday, 26 May 2018

---

08:00–08:50 Concordia 4	Nordic Group meeting.
08:00–08:50 Room IV	Meeting of the delegations of Member States of the WHO South-East Asia Region.
08:00–08:50 Room XVI	Meeting of the delegations of Member States of the WHO African Region.
08:15–08:45 Room IX	Meeting of the delegations of Member States of the WHO Eastern Mediterranean Region.
08:15–08:45 Room XXIII	Meeting of the delegations of Member States of the WHO European Region.
08:30–08:50 Room VIII	Meeting of the delegations of Member States of the WHO Western Pacific Region.

## 5. Arrangements for conduct of discussion in meetings

---

### **Plenary. Theme of general discussion: “Health for All: commit to universal health coverage”**

Resolution WHA52.21 on reform of the Health Assembly requested the Director-General to make appropriate arrangements for a shortened plenary meeting and, to this end, encouraged group or regional statements in plenary debate. Delegates are requested to limit their statements to **five minutes** (550 words) in this debate. Group or regional statements may last up to 10 minutes.

Delegates wishing to have their name placed on the list of speakers for the general discussion should notify the Department for Governing Bodies and External Relations by e-mail ([piazzap@who.int](mailto:piazzap@who.int)) or fax +41 22 791 4173.

Copies of statements to be made in the general discussion should be submitted by email ([interpret@who.int](mailto:interpret@who.int)) or to the Office of the Assistant to the Secretary of the Health Assembly (Room A.656) by the morning of Monday, 21 May 2018. When submitting by email, please specify in the “Subject” and at the top of the statement, the name of the country and the meeting: “General Discussion”.

Delegates wishing to have their statements posted on the Health Assembly website [http://apps.who.int/gb/e/e\\_wha71.html](http://apps.who.int/gb/e/e_wha71.html) may send it to [statements@who.int](mailto:statements@who.int) and include in the subject line of the email the agenda item to which the statement relates. Additional information provided in this manner will not be included in the official record of the meeting.

### **Other meetings**

Interpretation is provided in the official languages (Arabic, Chinese, English, French, Russian and Spanish) to help delegates follow the discussions. Delegates are requested to send a copy of statements they plan to make to [interpret@who.int](mailto:interpret@who.int) or to give a paper copy to the conference officers in the room at least 30 minutes before delivery. This does not prevent delegates from making changes on delivery but will facilitate clarity and accuracy in all languages. Under ‘Subject’ and at the top of the statement please state the name of the country/group, the meeting (e.g. Plenary, Committee A, Committee B, Executive Board) and the relevant agenda item number.

Individual statements in Committees A and B are limited to 3 minutes (330 words) and group statements to five minutes (550 words). Delegates are requested to deliver statements at a normal speaking pace. Rapid delivery risks impeding clarity and accuracy in interpretation. Statements provided in advance are treated as confidential and checked against delivery for the purpose of the official record.

Delegates wishing to have their statements posted on the Health Assembly website [http://apps.who.int/gb/e/e\\_wha71.html](http://apps.who.int/gb/e/e_wha71.html) may send it to [statements@who.int](mailto:statements@who.int) and include in the subject line of the email the agenda item to which the statement relates. Additional information provided in this manner will not be included in the official record of the meeting.

### **Non-State actors statements at the Health Assembly**

Non-State actors in official relations with WHO may request to speak in Committee A or B of the Health Assembly under a technical item in which they have a particular expertise. Non-State actors wishing to have their name placed on the list of speakers should notify the Secretariat of Partnerships and non-State actors Department (PNA) by email ([nsastatements@who.int](mailto:nsastatements@who.int)) latest by 08:00 am of the day of the meeting in question. Non-State actors may submit their statements in advance for the Secretariat to post on a dedicated website and are invited to register at <https://extranet.who.int/nonstateactorsstatements/>. Statements should be limited to 2 minutes (300 words).

## 6. Provisional list of speakers for the general discussion in plenary

Bulgaria	(The delegate of Bulgaria will speak on behalf of the European Union)
Canada	(The delegate of Canada will speak on behalf of the Member States of the Region of the Americas)
Zimbabwe	(The delegate of Zimbabwe will speak on behalf of the Member States of the African Region)
India	
China	
Lebanon	(The delegate of Lebanon will give the statement of the Arab Ministers Council)
France

Hi all,

I wanted to circle back on this note. Our public engagement folks have been in touch with your public engagement folks about the content of the video for Dr. Redfield and Adm. Green so we wanted to work on finding a time.

We were told that there is a chance Dr. Redfield might be in Washington, DC on June 12-13. If that's the case, I would be happy to provide times during which the Administrator is available to record the video.

Thanks!

Elyse

**Subject:** Director Tapings

Hi Scott,

In last week's comms meeting, Dr. Redfield agreed to scheduling two more taping when available: a welcome video for CDC Museum, and a welcome video for CDC-INFO staff. Would it be possible to add these to the calendar, after the HHS media training on May 14? Katherine has also asked we move the New Employee Orientation taping to after the 14<sup>th</sup>, as this training will help prepare him for these videos, and none of the videos are time sensitive.

If possible to schedule all three together, we'd recommend that he will need the following time:

- 5 min travel to studio
- 15 min prep time
- 1 hour for taping
- 5 min travel back to DCR

Thanks so much, and please let me know if you have any questions.

Best,  
Delaney

Hi, Teresa. Here you go:

John Wesley Matthews

US Citizen  
Arriving in a Taxi

Thanks.

On Mon, Jun 4, 2018 at 10:36 AM, Williams, Teresa (CDC/OD/OCS) <[coo4@cdc.gov](mailto:coo4@cdc.gov)> wrote:

Greeting Mr. Matthew,

I am contacting you to confirm your appointment with Dr. Robert Redfield, Director, Centers for Disease Control and Prevention (CDC), scheduled Thursday, June 7, 2018 from 10 a.m. – 3:00 p.m. at our CDC Headquarters, 1600 Clifton Road, NE, Atlanta, GA 30329.

Please provide the following security clearance information below in order to clear you through security. If you will have someone accompanying you, I will need their security clearance information as well.

- Visitor's full name
- Are you a U.S. citizen?
  - If not, could you please provide your passport information?
- What mode of transportation will use to arrive on campus?
  - Taxi
  - Personal Vehicle – please provide the year, make and model of your vehicle
- Contact number to reach you.

Please feel free to contact me should you have any questions.

Kind Regards,

**Teresa Williams**

**Subject:** Re: Visitor for Dr. Redfield on Thursday, June 7

Morning,

John will meet with a few people throughout the day. I drafted a schedule and placed it on Tracie's desk last night to put in front of Dr. R for approval.

My thought is 1230-2 would be the Dr. R time slot — a working lunch at B16 or across the street.

Meeting him at the visitor center and escorting him out would be great.

Thanks,  
Sherri

Good morning Sherri,

Mr. Matthews is cleared through security and I will escort him.

Please advise if Mr. Matthews will be meeting with Dr. Redfield from 10:00 a.m. – 3 p.m.

Should I escort Mr. Matthews to the visitor's office reserved for him at 10 a.m.?

Thanks,  
Teresa

Dr. Redfield will have a visitor coming  
Can you work w/ OSSAM to clear him for campus access, badge, etc.  
Here is his contact information so you can coordinate directly:

John Matthews: (b)(6)  
(b)(6)

He is planning to be on campus 10-3pm  
More to come on scheduling meetings that day  
Thanks

You should. Can you also get a RESERVED table tent and go to the café, choose a quiet seat setting and put that on the table and preserve the seats until they arrive?

Hi Scott,

Please note the email and copy of the draft agenda below that was shared with Dr. Redfield. Ashley instructed Tracie to make sure there is a hold on everyone's calendar. Also, there is a hold on Dr. Redfield's calendar for the 12:30-2 p.m. working lunch. Let me know if you have any questions.

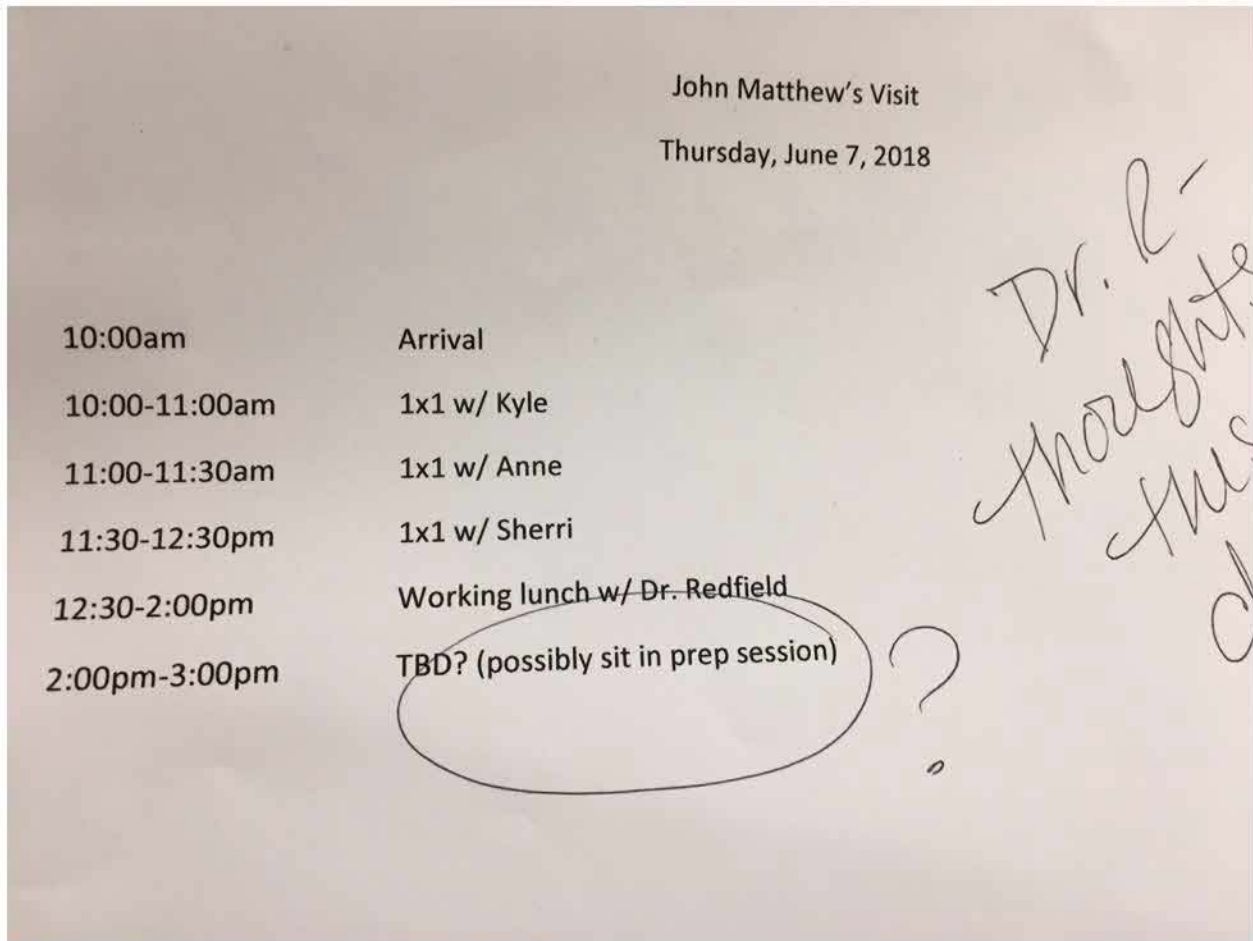

Thanks,  
Teresa

Hi All,

Here is the room location for the meeting with Chairman Roger's next week, April 4 at 4:00pm at the Rx Summit. Meeting will be in the Chairman's private meeting room - Chicago E.

Thanks,

MW

Subject: AS/Chairman Rogers mtg, April 4

Chairman Rogers has availability to meet with Dr. Schuchat at 4pm on Wednesday, April, 4 \*at\* the Rx Summit. This would be right before the plenary.

Would this work for Dr. Schuchat?

**Date:** Thursday, May 3, 2018 12:55:04 PM

---

Hi Jeremy,

See below for the details of a request for Dr. Redfield to meet with the new Minister of Health of Liberia some time during the week of June 11<sup>th</sup> – 15<sup>th</sup>. We are looking to see if Dr. Redfield would have any preferred dates for this meeting within this window. The Minister will be in the U.S. in June, and the CDC Country Office has requested CGH coordinate a one-day visit to CDC during this trip. Let us know if you have any questions.

**Who:** Dr. Wilhelmina Jallah, Minister of Health of the Republic of Liberia

**When:** 30 minutes on 06/11/2018

**Why:** CGH is coordinating a visit to CDC HQ by the new Minister of Health of Liberia to introduce the Minister to CDC/CGH leadership, provide an overview of CDC's activities in Liberia, and discuss shared public health priorities in Liberia. We are requesting a meeting with Dr. Redfield (to be accompanied by CGH leadership) for a short meet and greet to foster productive collaborations in the future. Dr. Martin will join this meeting.

**CGH Recommendation:** Dr. Martin Recommends

Thanks!

MEM

Hi Eric,

My apologies, unfortunately we will need to reschedule this meeting for later in May.

Dr. Redfield has some competing events that we are scheduling.

Would May 18<sup>th</sup> at 2-2:30 p.m. work?

My apologies for the inconvenience.

Best,  
Teresa

**Subject:** DoD Meet and Greet with Dr. Redfield

Good afternoon Teresa and Tracie,

My name is Eric Deussing, and I am the DoD Liaison to the CDC. As you may be aware, my position was created jointly between a previous CDC Director and the Assistant Secretary of Defense for Health Affairs. My predecessors and I have worked across all the CIOs to increase collaboration between our two agencies. Dr. Redfield clearly has a working knowledge of DoD, based on his professional history. I would like briefly meet with Dr. Redfield to introduce myself and discuss CDC/DoD collaboration (both current and future). Please let me know if he is available for a meeting. Thank you for your consideration.

Best,  
Eric

**Importance:** High

Good morning Marjorie,

Please advise if Dr. Boyle and the NCBDDD Leadership would be available to meet with Dr. Redfield on Tuesday, April 17<sup>th</sup> from 9:00-10:00 a.m. in the NCBDDD office.

If yes, please respond back with a room location that would be suitable for NCBDDD plus 3 additional OD staff personnel.

Thanks,  
Teresa

**Subject:** Leadership visit with Dr. Redfield

Dear Teresa,

I had a great meeting today with Dr. Redfield. We discussed setting up a visit between Dr. Redfield and a few of our ASTHO leaders during the new health officer orientation week since he will be in town and we could invite a few of our leadership to visit in person around that event to meet with him – specifically Dr. Wiesman (SHO-WA), Dr. Alexander-Scott (SHO-RI), and Dr. Butler (SHO-AK) who I believe will be in town for a meeting at CDC that week too.

Would Dr. Redfield have any time on May 2 in the afternoon to meet with our ASTHO President, President-Elect, and Past-President? Thanks for your help. Mike

Damaris,

Good morning. Kyle McGowan, Dr. Redfield's Chief of Staff, has requested that I reach out to see if we could schedule 15 mins with Peter Urbanowicz before Dr. Redfield (CDC Director) meets with Secretary Azar on Monday. We would like to request a meeting on Monday June 11<sup>th</sup> from 10:15-10:30 for Dr. Redfield and Amanda Campbell will be joining him. Thank you in advance for your assistance.

Respectfully,

**Tracie Strength**

**Subject:** EOC Tour

I just wanted to get everyone on the same page about this request. Kyle asked that Dr. Redfield receive a tour of the EOC in advance of his flu briefing (which is a follow-up from the NCIRD orientation), that Teresa and Tracie are now working to schedule.

To get this done as soon as possible, we are building in 30 minutes just before/after his OPHPR orientation tomorrow morning. Timing-wise, we will have to wait and see what T&T hear back from EOC, but Seth, you should plan for an early start and/or late end to the OPHPR meeting tomorrow.

Hi Dolkie,

All is well and I hope so with you.

Dr. Redfield has conflicts at the times you offered.

Would any of the dates/times be an option?

7/17 9:00 -9:30 a.m.  
4:00 -4:30 p.m.

7/18 1:00-1:30 p.m.

Thank you for your consideration.

Best,  
Teresa

**Subject:** Meeting Request between Dr. Elinore McCance-Katz, SAMHSA and Dr. Robert Redfield, CDC

Good afternoon Dolkie,

I hope you are doing well.

Dr. Redfield will be in DC on June 11<sup>th</sup> and would like to schedule a 30 minute in-person meeting with Dr. McCance-Katz to discuss the FY2020 HHS Budget Process.

If Dr. McCance-Katz is not available for an in-person meeting on June 11<sup>th</sup>, could you offer some dates and times to schedule a call some time the week of June 11<sup>th</sup>?

Thanks for your consideration.

Best,  
Teresa

**Attachments:** image001.png

Good morning Teresa,

I do believe we can accommodate. Dr. Houry will be serving as a moderator at the EIS Conference until 10:15 am, but that should allow her time to return to Chamblee. I believe our OD conference may suffice, but I will also reserve a larger conference room to be safe.

OD Conference Room: Chamblee Bldg. 106 9th Floor OD Conference Room #09108E (can accommodate 10 attendees)

Larger Conference Room: Chamblee Bldg. 106 8th Floor Conference Room 8A (can accommodate 16 attendees)

Once I confirm who will attend from NCIPC, I will follow up to confirm which conference room will be used.

Respectfully,

Mara R. Golden

Executive Assistant to Dr. Deb Houry, Director and Amy Peeples, Deputy Director

Hello Teresa;

Great talking with you on the phone just now. On April 19<sup>th</sup>, Dr. Houry's schedule is booked from 8-12pm (POC: Tamima Brown) I didn't see a meeting subject, but she also has conflicts at 8:30-9am, and 10am. On April 20<sup>th</sup>, 8:30-11am is open as well as 1-3pm. Hope this helps. Let me know if I can help further.

Andrea

Good morning Mara and Vivian,

Unfortunately we will need to reschedule NCIPC and NCEH's CIO Leadership meeting scheduled with Dr. Redfield on April 17<sup>th</sup>.

Dr. Redfield is available to reschedule the visits at Chamblee on April 19<sup>th</sup> or April 20<sup>th</sup>.

The preference is to schedule both CIO Leadership meetings on the same date.

Also, we will reschedule the Chamblee tours as well on the date that works best for your CIO Leadership.

Please respond as soon as possible.

(Reminder: Please copy Tracie Strength on all scheduling requests and responses.)

Thanks,  
Teresa

Yes, the NCCDPHP leadership is available to meet with Dr. Redfield. Please note the following meeting information:

Tuesday, April 17, 2018

10:15 am ? 11:15 am

Chamblee Campus

Bldg 107, 8th floor, Room 8A

I will reserve parking spaces in front of Bldg. 107. Please let me know how many spaces you will need.

Sylvia

**Subject:** FW: polio meeting request with Dr. Redfield

Can you please reach out to John Vertefeuille to schedule the following in-person briefing for Polio Oversight Board prep. Looks like June 25<sup>th</sup>, 11am-12pm or 2-3pm is best for John's group (per a separate email he sent me).

Hugh will be SA.

When would be a good day/time to brief Dr. Redfield face to face prior to the POB call scheduled for 28 June. Ideally we could maybe shoot for 25/26 June or 20<sup>th</sup> as a fall back. We would have final materials from the POB secretariat by the 25/26 dates. Earlier is okay but we'd be working from draft materials. (Ideal if 25th 11-12 or 2-3)

**Subject:** FW: polio meeting request with Dr. Redfield

Hi Seth,

Ashley indicated you'd be following up in her absence.

Given the relatively short time for scheduling I wanted to follow up on these things:

1. Whether a written preparatory note for next Friday's meeting with Rotary would suffice (as suggested below). Also, when the invite will be issued from the OD?
2. When would be a good day/time to brief Dr. Redfield F2F prior to the POB call scheduled for 28 June. Ideally we could maybe shoot for 25/26 June or 20<sup>th</sup> as a fall back. We would have final materials from the POB secretariat by the 25/26 dates. Earlier is okay but we'd be working from draft materials.
3. For the CSIS event on July 10, I understand CSIS has changed the agenda and is now requesting 20-25 minute closing presentation from Dr. Redfield. Originally he had been on a panel with Mark Green but in the latest version SEN Mitch McConnell is giving a keynote. Since this request came from HHS to OD/OD we've been a little out of the loop, but I want to make sure if Dr. Redfield is still intending to participate that we understand the information needs and start getting the materials together.

All the best,

John

**Subject:** polio meeting request with Dr. Redfield

Hi Ashley,

I ran into Dr. Redfield at the annual meeting and he indicated that he'd like to have an update in advance of the June POB call which is 28 June. Further, I know there that it is likely that John Germ, Mike McGovern, and Carol Pandak of Rotary International will meet with Dr. Redfield on June 15.

Could we set up a time to brief him?

Of note, if we did an brief before the John Germ meeting we would not likely have the final materials for the POB Board meeting. Also, it may be possible to provide prep for the Germ meeting in writing.

Please let me know.

Thanks,

John

**Subject:** RE: polio meeting request with Dr. Redfield

Good morning John,

I will confirm June 20<sup>th</sup> from 4-5 p.m. on Dr. Redfield's calendar.

Could you please confirm who should be invited?

Thanks,  
Teresa

**Subject:** RE: polio meeting request with Dr. Redfield

Hi Teresa,  
We will take the option of June 20 at 4pm. While we won't have a final packet of POB provided materials, we will know very well what the key issues are. It will be better to do it face to face.

Copying Kenya to ensure it is also blocked on Rebecca's calendar.

I appreciate it.  
John

**Subject:** FW: polio meeting request with Dr. Redfield

Good afternoon John,

Unfortunately Dr. Redfield will be in DC on June 25<sup>th</sup> and 26<sup>th</sup>, with scheduling conflicts.

Our very best option would be June 20<sup>th</sup> from 4:00-5:00 p.m. (in-person) and the second option would be June 26<sup>th</sup> from 12:30-1:30 p.m. (by phone or VTC from our CDC Washington Office).

Please advise.

Thanks,  
Teresa

**Subject:** FW: polio meeting request with Dr. Redfield

Hi Seth,

Ashley indicated you'd be following up in her absence.

Given the relatively short time for scheduling I wanted to follow up on these things:

1. Whether a written preparatory note for next Friday's meeting with Rotary would suffice (as suggested below). Also, when the invite will be issued from the OD?
2. When would be a good day/time to brief Dr. Redfield F2F prior to the POB call scheduled for 28 June. Ideally we could maybe shoot for 25/26 June or 20<sup>th</sup> as a fall back. We would have final materials from the POB secretariat by the 25/26 dates. Earlier is okay but we'd be working from draft materials.
3. For the CSIS event on July 10, I understand CSIS has changed the agenda and is now requesting 20-25 minute closing presentation from Dr. Redfield. Originally he had been on a panel with Mark Green but in the latest version SEN Mitch McConnell is giving a keynote. Since this request came from HHS to OD/OD we've been a little out of the loop, but I want to make sure if Dr.

Redfield is still intending to participate that we understand the information needs and start getting the materials together.

All the best,  
John

**Subject:** polio meeting request with Dr. Redfield

Hi Ashley,

I ran into Dr. Redfield at the annual meeting and he indicated that he'd like to have an update in advance of the June POB call which is 28 June. Further, I know there that it is likely that John Germ, Mike McGovern, and Carol Pandak of Rotary International will meet with Dr. Redfield on June 15.

Could we set up a time to brief him?

Of note, if we did an brief before the John Germ meeting we would not likely have the final materials for the POB Board meeting. Also, it may be possible to provide prep for the Germ meeting in writing.

Please let me know.  
Thanks,  
John

Good morning Damaris,

I hope you are doing well.

Dr. Redfield is scheduled to be in DC every other Monday, so his next DC day on a Monday would be July 9<sup>th</sup>.

Could we schedule the recurring meetings as follows from 10-10:30 a.m.?

July 9<sup>th</sup>

\*\*\*No meeting the week of July 23<sup>rd</sup>, Dr. Redfield will be international travel\*\*\*

August 6<sup>th</sup>

August 20<sup>th</sup>

September 10<sup>th</sup>

September 24<sup>th</sup>

October 22<sup>nd</sup>

November 26<sup>th</sup>

December 10<sup>th</sup>

December 24<sup>th</sup>

October 8<sup>th</sup> and November 12<sup>th</sup> falls on a holiday, we haven't confirmed Dr. Redfield's travel schedule to DC.

Thank you for your consideration.

Thanks,  
Teresa

**Subject:** Dr. Redfield's Monthly meetings with the HHS Deputy Secretary

**Importance:** High

Hi Scott,

The HHS Deputy Secretary's schedulers reached to ask if Dr. Redfield's first meeting with the HHS Deputy Secretary which is currently scheduled April 19<sup>th</sup> from 2-2:30 p.m. (this was Dr. Schuchat's current schedule) would be by phone or in person.

The SG's visit to CDC is also scheduled April 19<sup>th</sup>.

Should we schedule Dr. Redfield's meeting as a call?

Thanks,

Teresa

**Subject:** RE: Request for Bridge-line: CDC Monthly Meeting w/ HHS Deputy Secretary and Dr. Schuchat - Today, 3/16 @ 2-2:30 p.m.

Hi Ken,

There's a possibility that Dr. Redfield may be in Atlanta on April 19<sup>th</sup>.

May I get back with you shortly to confirm is this meeting would be a call?

Thanks,  
Teresa

Hi Teresa,

Thank you that's good to know. Tracie I have added you to the monthly meeting with the Dep. Sec. and CDC Director. Please let us know if you have any questions or concerns.

Also will Dr. Redfield be in DC for the April 19<sup>th</sup> meeting or should we set up a call-in #?

Best,

Ken Callahan

**Subject:** Request for Bridge-line: CDC Monthly Meeting w/ HHS Deputy Secretary and Dr. Schuchat - Today, 3/16 @ 2-2:30 p.m.  
**Importance:** High

Good morning Ken,

Would it be possible to request a bridge-line to include Sherri Berger in the meeting with the Deputy Secretary and Dr. Schuchat?

Thanks,

Teresa

**Subject:** FYI, re: OGA Briefings with AMA

Kyle and I went through the schedule, here is the plan:

April 13:

- Briefing on Combating Antibiotic-Resistant Bacteria (CARB)/Antimicrobial Resistance (AMR) @ 1:30 PM

Anne & Mitch will attend in person

April 18:

- Briefing on Global Health Security @ 1 PM

Unfortunately, OGA won't move this one (tough week with the EIS conference). Dr. Redfield via VTC (to be confirmed) and Mitch in person.

April 23:

- Briefing on TB @ 2 PM

Dr. Redfield via VTC and Rebecca (need to confirm in-person or VTC)

Thanks,  
Sherri

**Special Assistant:** Seth Kroop

**Event Contact:** TBD

**CDC Staffer Accompanying the Director:** TBD

**CDC Program Contact (if applicable):** TBD

**CDC Media Contact (if applicable):** TBD

## 2. Event Information:

**Event Host:** TBD

**Purpose of Event:** TBD

**Agenda (if applicable):** Proposed

- Starting at CDC around 9am
- Senior Leadership Meeting -1 hour
  - Format and speaking guidance TBD
- Emergency Operations Center (EOC) visit & walking discussions (not usual EOC tour) -30-40 min
  - Discussion topics TBD but possibly may include GHSA & Ebola

- Laboratory Tours -1.5 hours (Maybe HCL Corridor and Insectary--thoughts?)
- Small Group Leadership Working Lunch & Discussions with AMA – 45 min
  - Discussion topics TBD
- 10-15 min of Opening Remarks at CDC's All Staff Honor Awards Ceremony @ 1pm
  - Brad, hope this works for Honor Awards, rather than trying to squeeze in an AHM this date
- Depart CDC by 1:20 pm

**Number of Attendees and Composition:** TBD

**Key Participants (if applicable):** TBD

**Bios:** TBD

**Subject:** June 1st Visit to CDC

Colleagues: Secretary Azar is confirmed to visit CDC (Roybal campus) on Friday, June 1<sup>st</sup>. Below is the anticipated DRAFT agenda, FYI, that is pending final approval from HHS. Seth will be our lead for content and Nikki will be our lead for agenda development and logistics (and our planning calls). Nikki will schedule our first planning huddle early next week, so please plan to call-in or join and include others from your team that have a need to be involved. We expect walk-thru rehearsals on 30 & 31 May, and they'll be similar in demands to Dep Sec Hargan's visit to CDC late last year.

Finally, please let me know if you have any questions or suggestions as we start. Thank you! -Scott

**Subject:** R3 July Travel  
**Importance:** High

Team, R3 and Ashley will be traveling to Amsterdam 19-22 July for PEPFAR meeting, and then OA & CGH are coordinating a follow-on trip to Uganda, Tanzania, and possibly Mozambique, thru 31 July.

Can you please let us know if you have any concerns about security or communications in those countries and their capital cities. Dates are expected to be:

19-22 July Amsterdam  
July 26 travel to Dar Es Salaam  
July 28 or 29 travel to Maputo  
July 31 return Atlanta

Larry, can you also work with Teresa to schedule the FSTB's for these locations so that it can be delivered to R3 and Ashley before travel?

Kevin, let us know if there are any hardware or phone changes necessary for this trip.

Delaney/Kate/Molly, we do not have any expected formal presentations for him to deliver, but we expect he'll do a mini All Hands with each country team. Likewise we have no insights if media is being pitched or planned, but I suspect you're already in discussions with CGH about that.

Please let me know if I can answer any questions or concerns. Many thanks!

Scott

Thanks so much

If possible the early afternoon would be better. because Task Force meeting ends about noon and others may already have plans to return home in early afternoon but I will stay as long as necessary and hope the others can as well. Look forward to celebrating birthdays together, even though you are about 1/2 my age!

On Wed, May 23, 2018 at 6:25 AM, Berger, Sherri (CDC/OCOO/OD) <[sob8@cdc.gov](mailto:sob8@cdc.gov)> wrote:

All -

Dr. Fielding will be in Atlanta June 13 and 14 for a Task Force meeting.

Given Dr. Redfield's travel schedule, can you identify a 30-minute slot on June 14 for a meet and greet with Dr. Fielding? Dr. Fielding may include John Clymer (and possibly 2 others from the Task Force) in the meeting as well.

Thanks,  
Sherri

Good morning,

Sherri informed me that Dr. John Redd will attend all meetings today, except the working lunch with Dr. Redfield and Dr. Kadlec.

Dr. Pirkle and Phoebe, could you please request security access for Dr. Redd to attend your lab tours?

I will send a revised agenda soon.

Thanks for your patience.

Teresa

(b)(6)

**Subject:** Security clearance for June 19 HCL viewing

Hello CDC Physical Security,

As you may know, the Assistant Secretary for Preparedness and Response (ASPR), Robert Kadlec, will be visiting CDC Roybal campus on June 19. CDC OD has requested an HCL tour for him, and I write to request lab security clearance for this tour. The HCL Viewing Request Form has been processed and approved through the appropriate channels, and is attached for reference.

**Visitors' Full Names:**

- Robert Kadlec, Assistant Secretary for Preparedness and Response
- Chris Meekins, Deputy Assistant Secretary

**U.S. Citizen?** Yes

**Date and Time of Visit:** Tuesday, June 19, 2018; 1:45-2:30 p.m

**Campus/Bldg/Room of Visit:** Roybal/18/Basement Corridor

**Entry Point of Visitor:** Bldg. 18: Main entrance lobby

**CDC Point of Contact and Phone Number:** Teresa Williams; [coo4@cdc.gov](mailto:coo4@cdc.gov); 404.639.5998

**Point of Contact's Campus, Building, and Room:** Roybal, Bldg. 21 Room 12121.2

**Escort Name and Contact Number:** Rima Khabbaz (b)(6)

**Purpose:** To provide ASPR Robert Kadlec and his Deputy Assistant Secretary with a greater understanding of the mission of CDC's HCL labs, their importance to public health, and how they protect US national interests and public health.

----

**List of names for the Lab tour**

CDC

- Steve Monroe-OADLSS
- Rima Khabbaz- NCEZID
- Dan Jernigan- NCIRD
- Teresa Williams- OD
- Gregory Johnson- OSSAM

ASPR

- Robert Kadlec
- Chris Meekins

Thank you,

Phoebe Janflone, MPH

**Subject:** R3 Tomorrow

Updates from Sherri for tomorrow:

- Dr. Redfield and Kyle will arrive via Uber cab tomorrow morning and we'll meet them in the Visitor Center circle to begin agenda
  - Only change to agenda tomorrow is that we will not do campus tour, but instead Mrs. Joy Redfield will be joining us on campus for a 12<sup>th</sup> floor impromptu meet/greet followed by lunch in Bldg 16 (12:25-1:40pm, followed by a museum tour @ 1:40pm (Whitney will arrange campus access, escort, and connect her with OADC for museum tour)
  - She will return for CDC All Hands on Thursday too, so Whitney will need to do access again, escort, and seating next to Kyle in Aud-A – Brad, please make a name tent for her
- 10 April in the afternoon, while in DC, KLD will be arranging media training with HHS, so the afternoon has already been blocked accordingly and with more details to follow

Thanks for everyone's flexibility and continued professionalism. Let me know if there are any questions. See you tomorrow! -Scott

**Subject:** Organ Transplant Classification

Hi, Rebecca,

I'm sorry I missed your CIO orientation last week. Seth said it went really well.

I'm writing because this morning Dr. Redfield had a question about what we are doing to classify organs for transplant, similar to the way that we classify blood for transfusion.

If we have any updated one pagers with guidelines, that would be great.

Thanks,

Ashley

Global Polio Eradication Initiative  
Finance update June 2018 POB Meeting

# Finance Update

- **2017 final expenditure 8% under budget(\$79M)2016 - 19% under budget variance2017 total exp \$1.004 billion; 2018 budget set at \$942M2018 Q1 Expenditure \$239M (17% under \$288M budget)Variance due mostly to delayed immunization campaigns58% of annual campaign planned for Q1, several postponed to Q2Cash Forecast Encouraging for this year – GPEI fully funded for 20182019 also fully funded in principle – need to secure pledges to address timing and specificity of late-year contributionsMulti-year Budget development underway, 2019-2022**

# Key Issues and Risks:

- **2018 Expenditure and budget: Outbreaks, e.g. Horn of Africa, DRC, hard to predict Could push budget up, require new financing or consume flexible funds Cash forecast: \$7B PEESP funding sufficient through 2019, with timely monetization and absent new large demands Multi-year budget, need to: Avoid reducing too much or too soon Sustain donor commitment Ensure cost-effectiveness and efficiency**

# Requests of POB

Comments or questions about GPEI budgets, expenditures, cash forecasts presented hereSupport mobilization of additional resources required for GPEI post-2019

# ANNEXES

# 2018 GPEI Budget Overview

- \$942 Million \$177m below 2017 budget More than 2/3 of budget in AFRO and EMRO Endemic countries absorb \$469 million (50%) of budget Majority of SIAs planned in first half of year: Q1 59%, Q2 19%, Q3 1%, and Q4 21% GPEI budget online <http://polioeradication.org/financing/financial-needs/financial-resource-requirements-frr/gpei-budget-2018/>

# Challenges & Next Steps:

Challenges	Progress/ Achievements	Next Steps
Cash management late 2019 and beyond	Ongoing and improved cash-gap forecasting and reporting	Commence fund-raising through the Polio Advocacy and Communications Team (PACT). Coordinate with UNICEF and WHO organization-wide fundraising efforts.
Multi-year budget development 2019-2022, and its financing;	Integrated budget development (top-down and bottom-up) underway by GPEI Finance Management Team (FMT) and Eradication and Outbreak Management Group (EOMG)	Produce cost-conscious and feasible budget sufficient to achieve eradication, with risk-rated scenarios and options for the Strategy Committee, the FAC and the POB to consider. Communicate approved budget to donors, partners to secure necessary funding commitments
Transparency and accountability	Process improvements in financial reporting and budgeting. Positive external reviews of GPEI finances (most recently DFID and Rotary).	Ongoing “value for money” inquiry (e.g. SIAs, Surveillance, Outbreaks). Deepen engagement with countries/regions.

# RESOURCE MOBILIZATION UPDATE

POB UPDATE 28 June 2018

AMERICAN  
OVERSIGHT

HHS-CDC-19-0276-A-001

## OVERALL GOAL:

To mobilize the resources and secure the enabling environment necessary to eradicate polio

PACT'S OBJECTIVES: Monetize donor pledges from 2017  
Update: Monetization rate on 2017 pledges improving (31% in December 2017, 43% in January, 56 % as of May)  
Programme fully funded in 2018, well funded in 2019 with potential cash gaps as of mid-2019  
Raise the additional resource requirements - still to be defined

# CURRENT STATUS OF RESOURCE MOBILIZATION

At the recent WHA, many donors reiterated their strong commitment and support to GPEI and the need to finish the job. To secure additional funding, PACT is focusing its approaches on annual donors in 2018 and 2019. Visits to key donors in Q2 to Germany, EU Brussels and Japan, scoping additional donor visits and technical briefings for the remainder of the year. PACT will start approaches to other (multi-annual) donors as early as 2019 to secure funds for 2020 and beyond. Donors are inquiring about updated budgets for 2019 and beyond, a new plan, clarity on the funding needs (transition, containment, post certification), alignment with other transition and replenishment processes as well as clarity on GPEI costs / WHO investment case costs. The latest known additional financial requirements are \$500 to \$750 million as discussed at the January 2018 POB in-person meeting. Final budget figures for programme extension to be finalized by September POB. In lieu of budget numbers, PACT has developed an interim budgeting tool for use with annual donors.

# KEY ISSUES & RISKS

Major GPEI pledging event only one year ago  
Funding landscape in global health is challenging as Global Financing Facility, Global Fund, Gavi, & WHO in current or imminent financing and replenishment processes  
PACT factoring in funding needs for outbreaks, and stockpiles in addition to regular programme resource mobilization  
With current funding projections, GPEI would not be meeting funding level requirements up to 2021  
PACT's ability to raise funds in 2018 and outer years is challenged by absence of budget and plan for 2019 to 2022  
Status of programme progress, stagnation in Afghanistan, incremental progress in other areas, continuing surveillance gaps in critical areas, perceived lack of prioritization by endemic country governments, donors' focus on Africa

Key Challenges	Progress/ Mitigation	Next Steps
No available budgets until September	PACT is developing a budget tool for donor meetings in Q2 / Q3	Presentation of budget tool in Japan in June and to other donors during future visits
Keep momentum on polio for donors in crowded and competitive global health environment	GPEI will revise its Investment Case and increase dialogue with donors Coordinating with other multilateral global health organizations on a common narrative.	Start revision of Investment Case Updating communications strategy to support Resource Mobilization efforts Increase dialogue with donors Coordinate joint WHO/GPEI messaging and ask to donors to avoid confusion with new WHO Investment Case
Projected shortfall with initial funding projections from existing and potential donors	Amplify resource mobilization efforts	Initiate series of road shows to donors and potential donors Update Individual resource mobilization market strategies Donor mapping to prioritize resource mobilization efforts Re-engage with lapsed donors and Multilateral Banks Identify Innovative Financing possibilities

# REQUESTS OF POB

**THANK YOU**

# UPDATE ON GLOBAL POLIO STOCKPILE OF ORAL POLIO VACCINES

Update to the Polio Oversight Board 28 June 2018

AMERICAN  
OVERSIGHT

HHS-CDC-19-0276-A-001

# mOPV stockpile; purpose, governance & management

The purpose of the global stockpiles of monovalent Oral Polio Vaccine is to ensure timely supply of vaccines to respond to outbreaks of specific poliovirus types at a time when OPV is no longer used in routine immunization systems. mOPV2 stockpile was established in 2015 ahead of the withdrawal of type 2 containing vaccines – the Switch from tOPV to bOPV. Establishment of the mOPV1 and mOPV3 stockpiles is in progress; to be in place before withdrawal of bOPV from the routine immunization systems, 4 years after last virus. WHO governs the global stockpile of bulk and finished mOPVs. Day to day management of the stockpile is carried out jointly by UNICEF and WHO

# Activities and outcome of efforts to establish the global mOPV stockpile

- Gavi investment case approved for Gavi-eligible countries to access stockpile after OPV is withdrawn from routine immunization system - \$191.28M/2.25Bds (Sept 2006) Expression of interest issued to industry with 5 manufacturers responding but indicated technical constraints (2007) Bulk stockpile established with two manufacturers (2015) mOPV1: 300Mds mOPV2: 519Mds mOPV3: 300Mds Service contract established with one manufacturer to convert, store, ship (2016) Thorough review of the size and timelines of the stockpile carried out in 2016-17. As a result the forecasted quantity increased from 1.19Bds to 2.3Bds (+0.8Bds of type 2, net increase of 150Mds mOPV1 and mOPV3), to be secured across three manufacturers, timelines for establishment of the stockpiles for the mOPV1&3 shifted in view of delays of WPV1 eradication. Negotiations ongoing to explore options and adjust the contractual arrangement with the manufacturers to new GPEI program timelines

# CHALLENGES & MITIGATION MEASURES

Challenges	Actions Taken	Next Steps
Suppliers exiting the market, with one major mOPV bulk producing manufacturer remaining in 2020	<ul style="list-style-type: none"> <li>Discussions to reengage suppliersExplore, monitor, consider alternative options</li> </ul>	<ul style="list-style-type: none"> <li>Divest and contract alternative back up supplier</li> </ul>

HHS-CDC-19-0276-A-001774

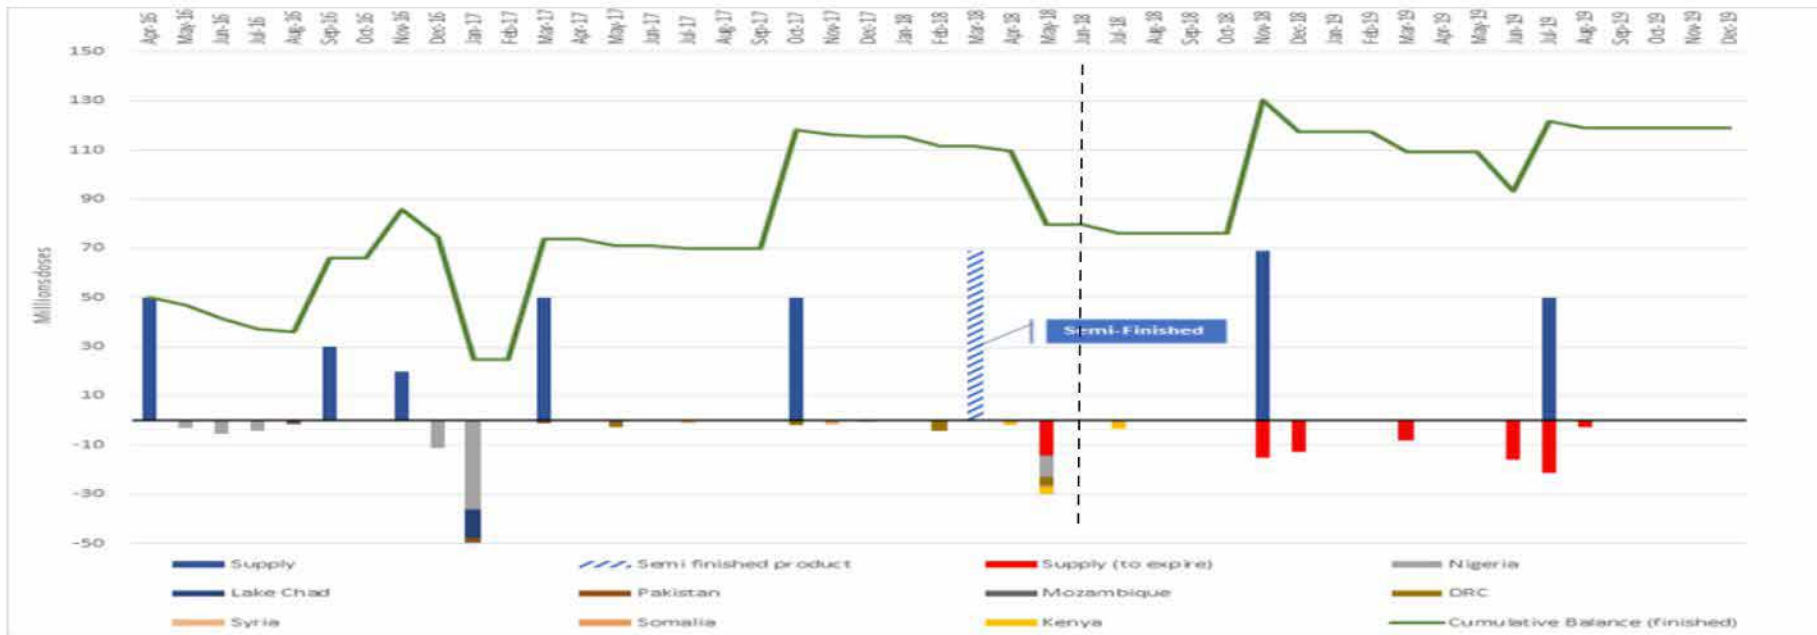

## Requests of POB

1. Endorse the mOPV stockpile arrangement agreed by the SC: explore options to increase bulk stockpiles to 2.256Bds across three OPV types; rely on a primary stockpile holder that offers 7-9 years shelf life across the three mOPV types; GPEI to fundraise (outside of FFR) for the mOPV stockpiles which will be used post certification and after GPEI has dissolved. Take note of necessity to write off of up to 90.7Mds/\$10.9M of finished mOPV2 due to expiry. For information, POB to take note that the global stockpile will undergo regular reviews and may be modified before the Certification to adjust to evolving operational (including supply) and epidemiological contexts.

# ANNEXES

# Status of global stockpile of finished product mOPV2

- Total delivery of 105,7Mds of mOPV2 to 10 countries over 2 years; 94.2Mds in stocks as of end of May 2018mOPV2 bulk fully converted with one supplier; stockpile products now starting to expire, requiring replenishment.

## Recap of Scenario 1: outbreak response in the phases 1&2

	Parameter	2018-20	2021-25	2026-31	Total
mOPV2	Estimated consumption	62,400,000	165,600,000	N/A	
	Order QTY finished	119,000,000	200,000,000	87,000,000	406,000,000
	Order Additional Bulk	837,000,000	-	-	337,000,000
	<b>Total Cost (USD)</b>	<b>24,240,000</b>	<b>31,068,241</b>	<b>14,408,254</b>	<b>59,716,496</b>
mOPV1	Estimated consumption	-	183,600,000	181,200,000	
	Order QTY finished	150,000,000	300,000,000	-	450,000,000
	Order Additional Bulk	300,000,000	-	-	300,000,000
	<b>Total Cost (USD)</b>	<b>41,400,000</b>	<b>47,142,361</b>	-	<b>88,542,361</b>
mOPV3	Estimated consumption	-	96,000,000	91,200,000	
	Order QTY finished	-	250,000,000	200,000,000	450,000,000
	Order Additional Bulk	300,000,000	-	-	300,000,000
	<b>Total Cost (USD)</b>	<b>18,000,000</b>	<b>38,880,301</b>	<b>33,576,201</b>	<b>90,456,503</b>
	Additional cost of storage	720,000	1,840,000	2,040,000	4,360,000
	Cost of disposal	-	-	-	
	<b>Cost Grand Total</b>	<b>84,360,000</b>	<b>118,930,904</b>	<b>50,024,456</b>	<b>243,075,359</b>

Parameters/assumptions: Based on the operational scenario endorsed by the EOMG. Relies on supplies from preferred manufacturer only. Shelf life of finished product: mOPV2 – 9 years; mOPV1&3 – 7 years

Residual stock at the end of the Phase 2	
mOPV2	224,800,000
mOPV1	85,200,000
mOPV3	262,800,000

# Transition Update to the Polio Oversight Board

28 June, 2018

unicef

World Health  
Organization

BILL & MELINDA  
GATES foundation

# Post-certification Strategy

## Polio Eradication and Endgame Strategic Plan (PEESP)

- 1 Poliovirus detection & interruption
- 2 OPV2 withdrawal, IPV introduction, immunization system strengthening
- 3 Containment & global certification
- 4 Transition Planning
  - Mainstream polio-essential functions to sustain global eradication
  - Support country transition planning
  - Capture lessons learned

### Post-Certification Strategy (PCS)

**Purpose:** *Defines the technical standards for the polio-essential functions that will be needed to sustain a polio-free world.*

## PCS goals

	Description
1 <b>Contain Poliovirus Sources</b>	Ensure potential sources of poliovirus are properly controlled or removed
2 <b>Protect Populations</b>	Withdraw OPV from use and immunize populations with IPV
3 <b>Detect and Respond</b>	Promptly detect any poliovirus reintroduction and rapidly respond to prevent transmission

**Note:** Research & Development is included in the PCS as a cross-cutting enabling function

**PCS has been published and endorsed at the 71st World Health Assembly**  
 Links to English and translated versions are available on the [GPEI](#) website

# GPEI Partner Transition Update

## BMGF:

An internal BMGF leadership meeting was held in March 2018 to review the PCS and get input on the foundation's role post-certification. BMGF will continue to support and advocate for a successful implementation of the PCS functions and will plan its contribution to the PCS in collaboration with current and future partners.

## CDC:

CDC's Polio Transition Roadmap is undergoing cross-center clearance and is awaiting final approval by the Director. CDC remains committed to the successful implementation of the PCS, and will remain deeply involved in polio transition planning and implementation as one of the future owners.

## Rotary International:

Rotary has committed to advocate for the implementation of the polio post-certification strategy with a group of donor and at risk countries after certification of the eradication of polio. Rotary is finalizing the lessons learned in carrying out its PolioPlus program to be shared with other programmatic areas of the organization.

## UNICEF:

UNICEF's Polio Transition and Post-Certification Management Plan will have been shared with the agency's Deputy Executive Director for endorsement prior to the POB meeting. The Plan is a living document and will be updated periodically and as needed.

## WHO:

WHO's Strategic Action Plan was presented at the 71st World Health Assembly. The plan puts country ownership at its center and outlines how WHO will continue to provide support at the country level, with the goal to gradually transfer essential polio function costs into the core WHO budget.

# Transition Management Group Sunset

## RATIONALE:

- TMG mandate is completed: transition plans for 14 priority countries will be finalized by May 2018
- Current country planning activities will be transferred to WHO and UNICEF regional and country offices
- High-level approach and guidance needed at country level
- Secretariat provided support and guidance and will be needed in future activities and groups

## BACKGROUND:

- Decision to “sunset” TMG in June 2018 was communicated to WHO and UNICEF Regional Directors in December 2017
- Decision was endorsed by the Strategy Committee
- Decision to continue secretariat to support lessons learned projects and proposed high level advisory group of future owners

## For POB awareness:

### Country Planning Task Team:

1. Transfer of all activities to WHO and UNICEF
2. Partners and stakeholders will receive regular quarterly updates

### Lessons Learned Task Team:

3. Activities will continue and report directly to the SC (collection of Lessons Learned projects and the GPEI History Project)

# Transition Independent Monitoring Board (TIMB)

Sir Liam Donaldson, TIMB Chair, postponed the June meeting for the following reasons:

- Member state's position on polio transition is to be finalized after the WHA
- Polio transition is coming under “new ownership”, not yet fully defined, WHO management is not yet finalized
- WHO leadership may wish to consider how the TIMB fits into the new management structures

**Decision on future and direction of the TIMB is needed**

# Requests of the Polio Oversight Board

## Endorsement and guidance on the following:

1. Defining the future role and direction of the TIMB as a neutral and independent convening body
2. Need for high-level advocacy and technical support made up of core and expanded immunization partners and future owners that will support WHO and UNICEF activities in transition priority countries and PCS implementation
  - Ask the POB to advocate with future stakeholders and commit their agencies to the group
  - Ask for a firm commitment to hold an introductory meeting and define the terms of reference for the group

# Questions and Discussion

**World Health  
Organization**

**Building Consensus for Certification of Poliovirus Eradication: Meeting of the chairs of the  
committees which advise and support the GPEI**

*WHO, Geneva, room M 105*

*April 16, 2018*

***MEETING NOTE***

## **Background**

---

Since January 2017 there have been 25 WPV1 cases worldwide (21 in Afghanistan, 9 in Pakistan) and 99 cases of cVDPV2s (74 in Syria, 25 in DRC). In this context, where the last detection (case or environmental positive sample) of wild poliovirus (WPV) is in sight, but circulating vaccine derived poliovirus (cVDPV) outbreaks continue, there is a need to reach a consensus on how certification of wild poliovirus eradication will be defined. At the meeting of the Global Certification Commission in 2017, as well as at meetings of other polio oversight committees, it was recommended to bring together the Chairs of the relevant advisory groups to ensure all partners are aware that recommendations that each can make may impact on the eventual certification of poliovirus eradication. It is acknowledged that the Global Certification Commission (GCC) remains responsible for certifying the eradication of Wild Poliovirus.

## **Objectives of the meeting**

---

1. Review progress toward WPV eradication and consider the criteria for certification of WPV eradication in the context of the ongoing risk of polio due to VDPV that may occur post certification and beyond OPV cessation.
2. Develop consensus around the roles of each committee currently and once WPV transmission has ceased, until certification, and including in the context of VDPV events and outbreaks.
3. Agree on key messages concerning (1) and (2) above
4. Provide information on other key policy decisions required to implement the PCS and suggest roles of relevant committees in providing further recommendations

## **Attendees**

---

The meeting was attended by the chairs of various advisory bodies to the Polio Eradication Programme; namely the Global Certification Commission (GCC), International Health Regulations Emergency Committee (IHR-EC), SAGE, SAGE Polio Working Group, Containment Advisory Group (CAG), Independent Monitoring Board (IMB), and the GCC-Containment Working Group (CWG) and focal persons from GPEI partners. Full list of attendees is in Annex 2.

## **Summary of outcome**

---

The group agreed that an options appraisal document for the requirements for certification of poliovirus eradication will be developed by the GCC secretariat. The document will outline the pros and cons of each option regarding requirements for certification of WPV eradication and the relative impact that each option would have on the timeline and process of certification. The three options highlighted were:

1. Certification of eradication based on the interruption of WPV alone
2. Certification of eradication based on the interruption of WPV, with consideration of the context of ongoing or recent cVDPV outbreaks
3. A multi-phase process for certification of eradication, suggested as:
  - Step 1: Eradication of WPV
  - Step 2: Eradication of cVDPVs
  - Step 3: Certification of Containment of all PVs.

Once the options appraisal has been produced, it will be fully considered by the GCC with careful consideration of the communications' implications and impacts on certification of each of the options.

## **Minutes of the meeting and recommendations**

---

### **Opening and Welcome**

#### **M. Zaffran**

A programmatic update and overview for the context of this meeting was provided

### **Update on the process of Certification and key points from the 17<sup>th</sup> Meeting of the Global Commission for the Certification of Poliomyelitis Eradication (GCC)**

#### **D. Salisbury**

The 17th meeting of the GCC took place in February 2018, with Chairs from each of the six Regional Certification Commissions (RCC) in attendance. A summary of the GCC recommendations were provided for each of the five meeting sessions.

The GCC recommended the following criteria to be applied for certification of WPV eradication:

1. No WPV transmission detected from any population source for the previous three years, and
2. Global poliovirus surveillance meeting certification criteria, and
3. Safe and secure containment of WPV retained in facilities, such as laboratories and vaccine manufacturing facilities

Additionally, the GCC recommended that the announcement of the eradication of WPV should take into consideration the epidemiology of cVDPVs at that time. The following requirements were suggested:

1. No detection of a persistent [ $>6$  months of confirmed circulation] cVDPV2 outbreak from any population source in the previous 18 months; and
2. No detection of a cVDPV 1 or 3 outbreak from any population source in the previous six months.

### **Update from SAGE WG discussions on criteria for certification of poliovirus eradication**

#### **I. Jani**

A presentation provided the key recommendations of the 15th meeting of the SAGE Polio Working Group, 20-21 February, 2018. The Working Group noted the proposed changes to the preconditions for certification and requested GCC to maintain communication with other advisory bodies (such as IMB, IHR, CAG).

### **The role of different committees from cessation of transmission up until global certification**

#### **B. Burkholder**

The proposed responsibilities of the committees advising the GPEI for developing the policy guidance on certification, containment, protection, detection and response was presented. The WHO will convene a future meeting for the responsibilities for implementing these policies.

Several attendees emphasised that after certification, the responsibility shifts to SAGE and raised the possibility of retaining the GCC to carry the post-certification process through to the end, with the GCC having a primary role in certifying the eradication of VDPVs. Discussions also highlighted that the document *Public Health Management of a Containment Breach of Type 2 Poliovirus* has been drafted and needs to be circulated for input.

## Discussion and consensus on what it means to certify eradication

### Summary of the main discussion points:

#### 1. The criteria to be applied for the certification of WPV eradication

##### Adequate global poliovirus surveillance

- How to deal with countries where there may be surveillance that does not meet accepted criteria. In these areas, such as Somalia and Northern Nigeria, the standard criteria of AFP performance indicators and the absence of wild poliovirus detection may not be sufficient. The need for surveillance data from non-standard sources was discussed.
- In many industrialised countries, AFP-surveillance has been replaced with enterovirus and/or environmental surveillance. The sensitivity and specificity of these supplemental surveillance methods are unknown, without criteria to link them to AFP surveillance standards.
- As IPV is introduced globally, the risk of silent transmission will increase and AFP surveillance may not be a reliable indicator.
- The GCC Chair confirmed that all countries must provide clear evidence to the GCC, based on factors including population immunity, surveillance quality, outbreak preparedness, containment and health system status for certification.

##### Safe and secure containment of WPV retained in facilities

- There is a high probability that completing certification of containment will not coincide with the certification of interruption of transmission and will happen later.
- The status of non-PEF facilities (such as academic institutions) that may contain WPV samples was discussed. Member states will conduct inventories and identify facilities that could have potential infectious material. The World Health Assembly could emphasize the importance of containment.
- At the time of WPV certification, the GCC will consider the status of bio-risk management of potentially infectious materials and readiness to respond to containment breaches. All facilities retaining WPVs should have at the least an Interim Containment Certificate, with a clear plan to achieve a full Certificate of Containment.

#### 2. Certification of eradication in the context of VDPVs

- The recommendation from GCC (of certification when there has been no detection of a persistent cVDPV2 outbreak in the previous 18 months at the time of certification), is to avoid recent, or concurrent outbreaks of polio due to cVDPV at the time of WPV certification. Outbreaks of cVDPVs will be perceived as polio outbreaks in the public view and would undermine the credibility of WPV certification. It was emphasised that the absence of cVDPVs are not criteria for the eradication of WPV, but considerations for when certification takes place.
- Substantial concern was raised over linking cVDPVs with WPV certification, such as: the impact on the eradication strategy and timeline (as related to WPV alone); the political and media pressure to certify after three years without poliovirus detection; and not defining a clear separation between cVDPVs and WPV. However, there was lack of agreement on the solution.
- An option of a multi-phase approach, with separate stages of certification of eradication was suggested: first, the certification of eradication of wild polioviruses; second, the certification of eradication of cVDPVs; and third, certification of containment of all polioviruses. It was mentioned that the disappearance of VDPVs emanating from immunodeficient persons (iVDPVs) would also need to be validated, perhaps in a separate later stage.

### Proposed next steps:

The development of an options appraisal document for the different options for certification of poliovirus eradication was agreed. The document will outline the pros and cons of each option and the relative impact that each would have on the timeline and process of certification of eradication. It will then be carefully considered by the GCC.

The three options highlighted:

1. Certification of eradication based on the interruption of WPV alone
2. Certification of eradication based on the interruption of WPV, with consideration of the context of cVDPV outbreaks. One option for this is the recommendation from GCC, with no detection of a persistent cVDPV2 outbreak from any population source in the previous 18 months
3. A multi-phase process for certification of eradication, suggested as:
  - Step 1: eradication of WPV
  - Step 2: validation of absence of cVDPVs
  - Step 3: containment of all PV

Rotary highlighted that communication to donors has been that certifying the eradication of WPV has been the stated goal of their PolioPlus program and this should be considered when assessing the options.

The appraisal is to be developed by the secretariat of the GCC and then discussed by the GCC and Polio Oversight Board. Once a consensus is reached, it will be shared with SAGE and presented to the World Health Assembly in May 2019.

### **3. Communication**

- There may be a challenge in communicating the different possible scenarios to the lay public, as AFP caused by either WPV or cVDPV will probably all be seen as ‘paralysis/death caused by polio.’
- There needs to be clear communication plan in the certification of eradication, which would align with the selected certification option. This should include clear validation steps to move from the Polio Eradication and Endgame Strategic Plan to the Post-Certification Strategy.
- The difference between certification of WPV eradication and VDPV eradication needs to be clearly communicated.
- All partners and committees need to be aligned in their communication.

### **4. Certifying the eradication of type 3 poliovirus**

- Certifying the global eradication of type 3 poliovirus would provide an opportunity for a test run for the eventual certification of all wild polioviruses.
- The declaration of type 3 certification would provide a good milestone to give enthusiasm to the programme, donors and the public.
- This would not necessarily be followed by the withdrawal of Sabin Type 3 from the oral poliovirus vaccine.

## ANNEX 1: AGENDA

### Building Consensus for Certification of Poliovirus Eradication

*WHO, Geneva, room M 105*

*April 16, 2018*

#### **AGENDA**

#### **Objectives of the meeting:**

1. Review progress toward WPV eradication, and consider the criteria for certification of WPV eradication in the context of the ongoing risk of polio disease due to VDPV that may occur post certification and beyond OPV cessation.
2. Develop consensus around the roles of each committee once WPV transmission has ceased until certification, including in the context of VDPV events and outbreaks.
3. Agree on key messages concerning (1) and (2) above

#### **April 16**

# ENDEMIC COUNTRY UPDATES June 2018

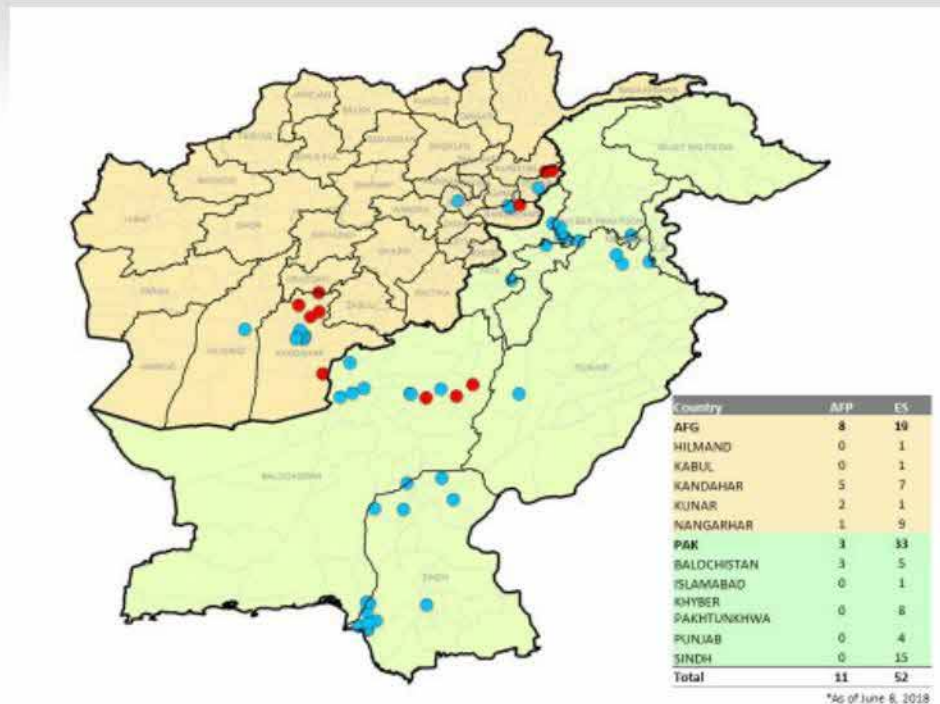

## POB Meeting

## Afghanistan

# AFGHANISTAN - CURRENT SITUATION

Transmission of wild poliovirus in the Northern and Southern transmission corridors has not been interrupted: 8 polio cases and 18 positive environmental samples in 2018. The most recent case is reported from Shahwalikot district in Kandahar Province with date of paralysis onset of April 27, 2018. Transmission in Kandahar Province has re-established and it is worrisome that some districts have been harboring transmission for more than 1 year. Transmission is also currently occurring in Nangarhar and Kunar where positive environmental samples as well as polio cases continue to be detected. Genetic sequencing data strongly suggests that both Afghanistan and Pakistan programs have not yet been able to identify and reach all population groups harboring transmission in the Northern Corridor. The TAG believes that, if accessibility improves and can be sustained, the program is on the right track to achieve the goal of stopping transmission in Afghanistan.

## AFGHANISTAN - KEY ISSUES AND RISKS

**Risk of ongoing transmission in the Southern & Eastern regions due to access and security**  
**Ongoing ban on house to house campaign in South region and risk of further spread**  
**Increasing inaccessibility in Eastern region**  
**Deteriorating security situation creating an environment of fear among front line workers/monitors and program staff which negatively affects quality**  
**Inability to implement interventions to improve quality leading to ongoing missed children**  
**Ban on house marking, house-to-house tally sheet and full time social mobilization in some areas**  
**Challenges in getting females front line workers particularly in high risk areas**  
**Limitation in full implementation of accountability framework**  
**Clusters of chronically missed children due to refusals**  
**On-going transmission in the northern and southern corridors which constitute a common epidemiological block along with Pakistan due to frequent population movement and spread of transmission across the border.**  
**Upcoming parliamentary elections in October and possible impact on the program**

# CHALLENGES & NEXT STEPS TO ADDRESSING THE RISKS

Challenges/Risks	Progress/ Achievements	Next Steps
Orphan viruses in East region: ongoing undetected transmission in Northern corridor	Northern corridor plan established & tracked with Pakistan	1) Implement Northern Corridor Plan; 2) cluster specific approach to tracking missed children; 3) special focus on High Risk Mobile Populations 4) strengthening surveillance
Risk of continued transmission in the southern region & spread to other regions due to inaccessibility; Recent ban in large parts of south- allowing only mosque to mosque campaigns	Ongoing dialogue at multiple levels to gain access; expansion of polio+ in the South; Southern Corridor being tracked with Pakistan – cluster specific approach to access, vaccine acceptance & high risk mobile populations; Expansion of complementary vaccination	1) Continued dialogue with multiple stakeholders, with no compromise on house-to-house campaigns; 2) Further expansion of complementary vaccination activities, including transit teams; 3) Additional campaign when there is a window of opportunity; 4) Tracking of Southern Corridor Plan
Ability to undertake quality campaigns in areas with access limitations	Deployment of appropriate monitors to oversee campaign; expansion of remote monitoring to triangulate quality;	Continued dialogue with all parties to allow program basics, including implementation of revised microplan where feasible
Chronically missed children (due to refusal, access, quality)	Cluster approaches implemented as part of Northern/Southern corridor action plans; improvement in quality in some areas	The trends & reasons for missed children, along with the methodology and impact of interventions should be tracked over time in both fully accessible and access compromised areas.
Sub-optimal quality in accessible areas	Establishment of Frontline worker selection committees; implementation of accountability framework; efforts to focus on improving training quality and intra-campaign monitors	Further implement NEAP activities aimed at improving quality – house-based microplanning; triangulation of data;

## AFGHANISTAN- REQUESTS TO THE POB

- **Continue to ensure adequate & timely resources to fully implement the NEAP and support fund raising for important complementary vaccination activities that are not core FRR (health outreach, nutrition, WASH, etc. as required) Advocacy with the Government: Call from Bill Gates to President Ghani stressing the need to sustain efforts; to refrain from making drastic changes in program implementation approaches; or to penalize when new cases are identified; reiterate that polio should remain a priority following upcoming elections in October Urgent advocacy to gain house-to-house access for quality SIAs in areas where restrictions on immunization activity are being imposed. The TAG requested all stakeholders at global & country level to explore all options for facilitating house to house access.**

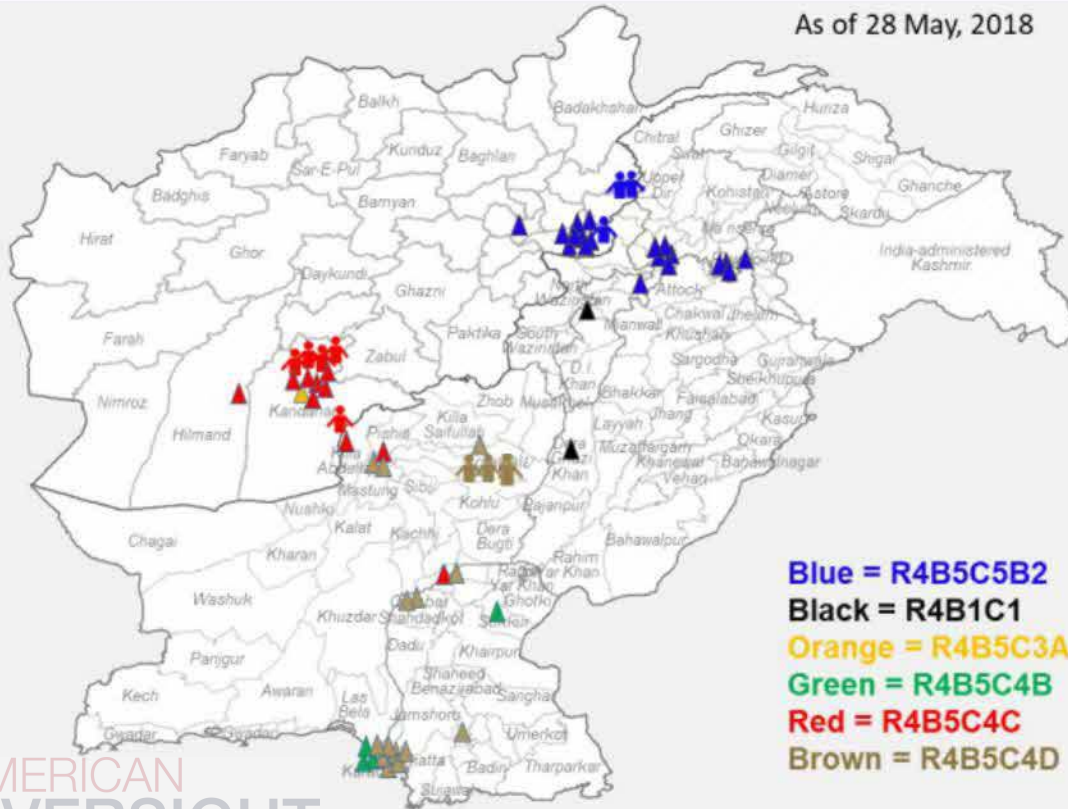

## Pakistan

# PAKISTAN SUMMARY OF CURRENT STATUS

## WPV1 CASES & ES+, BY CLUSTER, PAKISTAN & AFGHANISTAN 2018

As of 28 May, 2018

**Blue = R4B5C5B2**  
**Black = R4B1C1**  
**Orange = R4B5C3A**  
**Green = R4B5C4B**  
**Red = R4B5C4C**  
**Brown = R4B5C4D**

2018 Cases Northern Corridor  
 Nangarhar - R4B5C5B2, 1

January Ghaziabad - R4B5C5B2, 14

February Ghaziabad - R4B5C5B2, 3

March Southern

Corridor Shahwalikot - R4B5C4C, 5

January Spin

Boldak - R4B5C4C, 6

January Shahwalikot

R4B5C4C, 29

February Khakher -

R4B5C4C, 25

February Shahwalikot

R4B5C4C, 27

April 2nd Division Duki -

R4B5C4D, 8

March Duki - R4B5C4D, 8

May Duki - R4B5C4D, 18

May

Highlighted WPV1 cases in 2018 compared to 3 as of the end of 2017. All WPV1 cases reported from Duki District, Balochistan. Most recent case had paralysis onset on 18 May 2018. Duki outbreak a priority. Transmission persists in the same region as shown by environmental surveillance, though ES+ are declining in Karachi and Quetta block. 13% of ES samples are positive for WPV compared to 17% in 2017. Karachi - R4B5C4C, 8  
 Southern Corridor still pose epidemiological risk and this risk extends beyond the corridors themselves.

## PAKISTAN KEY ISSUES AND RISKS

- Stopping poliovirus transmission in common corridors and Karachi. Stopping the WPV1 outbreak in Duki District Balochistan on a priority basis and responding immediately to any new outbreak outside core reservoirs  
Sustaining motivation and commitment to a long-running program and building upon prior gains in the face of multiple other national public health priorities  
Identifying and characterizing any population clusters not yet reached by immunization efforts  
Countering persistent resistance (both overt and covert) and addressing remaining gaps in SIA operational implementation which lead to insufficient immunity among geographically accessible populations  
Sustained transmission throughout the epidemiologic block of Pakistan-Afghanistan which requires highly coordinated efforts to halt both national spread and persistent cross border poliovirus transmission associated with highly mobile populations  
Strengthening systemic weaknesses in EPI throughout many parts of the country  
Sustaining government commitment at all levels after upcoming national elections

# CHALLENGES AND ACHIEVEMENTS SINCE JANUARY POB & NEXT STEPS

## Challenges

## Progress/ Achievements since last POB

## Next Steps

Persistent transmission in Quetta Block (especially Killa Abdullah) and Karachi

- Significant programmatic improvement following establishment Incident Management Committee (IMC) instituted in PEOC and enhanced oversight in Killa Abdullah; Gulistan Action Plan developed including Jirgas, long term deployment of some key staff, more female involvement etc Rollout of Special Mobile Strategy in 89 UCs of Karachi that were covered by mobile team from Jan-May 2018. CBV conversion in these 89 UCs from July Karachi Communication strategy developed with "bottom up approach" Communication Consultation and Focus Group Discussions in Karachi and Quetta

- Sustain progress in Quetta block Cluster and still missed children analyses should be overlaid with a social analysis Evaluate recent communication interventions to determine their impact on direct refusal and misconceptions Conduct an in-depth analysis on operational challenges in SIAs from Area-In-Charge level up in key high risk areas in Karachi and develop an action Ensure a smooth transition to CBV/CHW across all UCs in Karachi

Missed populations particularly in the northern corridor between eastern Afghanistan and Khyber-Peshawar, Islamabad/Rawalpindi block.

- Northern corridor action plan developed and implemented Abu Dhabi cross border meeting with Pak-Afghanistan held on 29-30 March 2018 for effective coordination and campaign synchronization. Communication consultation and Focus Group Discussions

- Fully implement and jointly track Northern and Southern Corridor action plans Coordinate Pakistan and Afghanistan programme activities (geographical mapping, social analysis of risk groups, intervention design, communication/media, and impact evaluation)

Programmatic challenges (poor SIA quality, security compromised areas) along the South FATA, South KP and South Punjab corridor

- Developed Central Pakistan Coordination concept and unit in RY Khan Special campaigns with support of Law Enforcement Agencies in Shaktoi belt, SWA and Bajour Programmatic and surveillance review in South KP and development of Central Corridor Action Plan Establishment of ES in SWA and Bajour in April 2018

- Develop Central Pakistan coordination plan Continue UC level analysis for missed children in the most problematic areas including Rawalpindi and South Punjab Continue program analysis on vacated, bordering, and security challenged areas to identify and reach any potentially missed populations

National elections in 2018

- Health Secretary sent note to Chief Secretaries focusing on the importance of the continued momentum of activities Follow-up communication from the Secretary to Prime Minister Risk of election on polio program included in talking points with GoP BMGF telephone call with Chief of Army staff on 7th June - complete

- Advocacy with new caretaker government by partners (e.g. RD EMRO, POB, BMGF)

Continued slow administrative action on program requests

- Visa issues generally resolved Delays continue receiving NOCs (with a maximum duration of 1 months duration each when received).

- NEOC to follow-up with GoP to ensure timely issuance of blanket NOCs for Baluchistan, FATA, and KP so GPEI partners can deploy staff in key high risk areas.

## PAKISTAN - REQUESTS TO THE POB

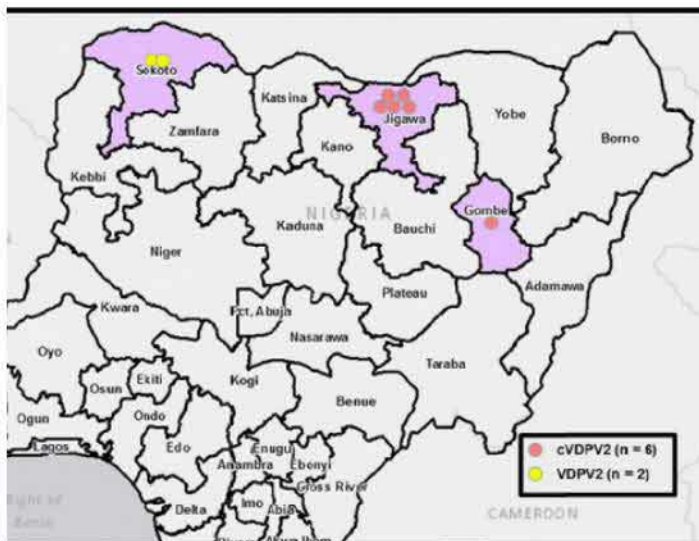

- Advocacy with caretaker government to ensure that polio eradication remains a priority during political transition. Blanket No Objection Certificates for international staff to visit security-sensitive areas of Balochistan, FATA and KP Approval of 2019/21 PCI (i.e. Multi Year Budget) Advocacy with GoP and donors to continue ensuring adequate resources to fully implement the TAG approved SIA calendar and strategies in NEAP 2018/19

## Nigeria

# NIGERIA – CURRENT STATUS

No WPV circulation detected in almost two years; Nigeria currently responding aggressively to VDPV2 circulation in three states – Jigawa, Gombe and Sokoto. OPV2 used more extensively in Nigeria than any other country in the world; has maintained high population immunity against Type 2 but insufficient to prevent circulation. Routine immunization at disastrous levels in all three states – well below 20%. These outbreaks are manageable; country program has good oversight and high coverage; management of mOPV2 vaccine supply has improved.

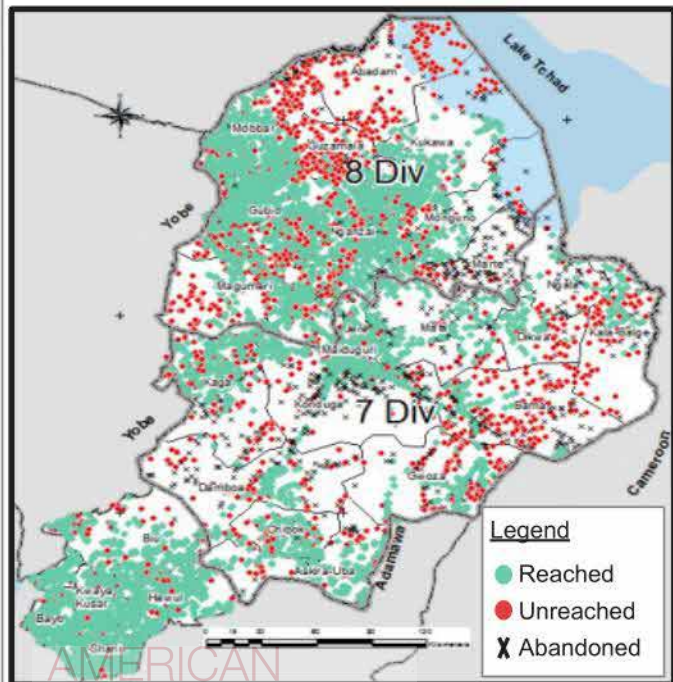

## 2018 ES VDPV2/cVDPV2 in Nigeria

EPID	Type	State	Site name
ENW-NE-IS-HIA-GGD-18-004	cVDPV2	Jigawa	GARIYO
ENW-NE-IS-HIA-MLG-18-006	cVDPV2	Jigawa	MAI LCI

# KEY RISK: SOME 104K CHILDREN REMAIN UNREACHED IN BORNO

Coverage map showing vaccination reach in Borno as at April 2018

Breakdown of vaccination reach in Borno state as at April 2018 (Number of settlements)

N = 20,343

Reached settlements  
Unreached settlements

- So far over 340,000 children have been reached by the RES/RIC intervention but; An estimated 104,000 children yet to be vaccinated remain trapped in ~5,000+ unreached settlements

- As at August 2016, the insurgency in Borno prevented over 600,000 children across over 10,000 communities from being reached with OPV Today, that number is about 104,000 children, thanks to the innovation from NPHCDA, GPEI and the Borno state government through the Reach Every Settlement (RES) and Reach Inaccessible Children (RIC) RES was implemented in the partially accessible settlements using local security support and RIC was implemented in fully inaccessible settlements using special immunization teams

# CHALLENGES AND NEXT STEPS

CHALLENGES	PROGRESS/ACHIEVEMENTS	NEXT STEPS
Access to fully inaccessible communities in Borno, mostly due to security challenges	Innovation from NPHCDA, GPEI and the Borno state government through the Reach Every Settlement (RES) and Reach Inaccessible Children (RIC) has led to a reduction of children not being reached with OPV from 600,000 to 104,000	Continued negotiation and advocacy with military to reach inaccessible settlements with a focus on the islands in Lake Chad, Marte and Abadam; focus is on the brigade commander level; advocacy led by national government
Significant gaps across many wards for ward level AFP reporting; particularly Borno	Nigeria has continued to meet the Annualized NAFP and stool adequacy targets since 2014	Continue to deploy innovative approaches to reach the inaccessible communities with surveillance, e.g. engagement of community informants from security-compromised areas; WHO leading this work
Political commitment to polio eradication remains low across the country	Absolute decline in the involvement of Governors in polio; LGAs late/defaulting on their share to polio funding; federal government released its 2017 funding commitment in Q1 2018; increasingly difficult environment due to 2019 national elections	Targeted outreach to key governors and LGA chairmen by National EOC and Executive Director, NPHCDA; Aliko Dangote with Governor of Borno directly in June during state visit
Routine immunization across the north continues to be poor	Minimal improvement in the RI-LQAs performance since the baseline in 2017	Involving traditional structures in RI uptake in their communities – strategy being rolled out in northern states with Gates support

HHS-CDC-19-0276-A-001809

# NIGERIA - REQUESTS TO THE POB

## Key areas

## What needs to happen

1

### Borno access challenges

- Continued advocacy to ensure **>5,000 inaccessible settlements with children reached, especially Marte, Abadam and the islands; POB to send letter to Governor of Borno State encouraging urgent close of remaining gaps**

2

### Government leadership & participation

- Encourage Government of Nigeria to allocate N4 billion to polio in the 2018 budget; **POB to send letter to President Buhari on budget and request for 2<sup>nd</sup> quarter National Task Force meeting chaired by him personally**

## CURRENT POLIO OUTBREAKS June 2018 POB Meeting

# OVERALL OUTBREAK RESPONSE ISSUES

- Multiple cVDPV outbreak and VDPV event responses that span endemic (Nigeria) and non-endemic high risk countries (Lake Chad; Syria; DRC; HOA; PNG) Recently detected VDPV emergences have been genetically distant from Sabin indicating months/years of circulation before detection Insecurity and limited access are often encountered in responses and negatively impact response capacity Resource distribution has been a frequent challenge DRC responses are way off track and a high risk for the region DRC should prioritize a long term RI strengthening plan with GAVI Early progress in HOA at risk due to slow fund processing/ disbursement and programmatic issues

# SUMMARY OF VDPV OUTBREAKS & EVENTS IN NON-ENDEMIC COUNTRIES (2017-2018)

Country	Event or outbreak	No	Type	Source		Dates		Comment/Risk
				AFP	ES	1 <sup>st</sup> AFP Onset or ES Collection	Most recent AFP Onset or ES Collection	
Syria	Outbreak	1	cVDPV2	74		3/3/2017	9/21/2017	No cases for >8 months. Next OBRA scheduled 09/18.
DRC	Outbreak	3	cVDPV2	29		2/20/2017	5/5/2018	<ul style="list-style-type: none"> <li>Maniema outbreak: last case onset April 2017</li> <li>"Haut Lomami outbreak area":                             <ul style="list-style-type: none"> <li>Breakthrough transmission after several SIAs</li> <li>Recent geographic expansion increasing risk of international spread</li> </ul> </li> <li>Mongala outbreak: 1 case + 2 community contacts</li> </ul>
	Event	2	aVDPV2	2		11/15/2017 12/29/2017	N/A	
	Event	1	aVDPV1	1		4/1/2017	N/A	
Somalia	Outbreak	1	cVDPV2	1	11	10/22/2017	05/17/2018	<ul style="list-style-type: none"> <li>Risk of further geographic and international spread</li> <li>The AFP case with cVDPV2 was co-infected with cVDPV3 that is genetically linked to the ongoing type 3 outbreak</li> </ul>
	Event	1	aVDPV2		1	03/08/2018	N/A	
	Outbreak	1	cVDPV3	3		05/17/2018	05/30/2018	
	Event	1	aVDPV3	1		04/24/2018	N/A	
Kenya	Outbreak	1	cVDPV2		1	03/21/2018	03/21/2018	Genetically linked to the Somalia outbreak, but evidence of an extended period of undetected circulation
PNG	Outbreak	1	cVDPV1	1		4/25/2018	4/25/2018	1 case + 2 community contacts bOPV response planned and funded in 3 provinces

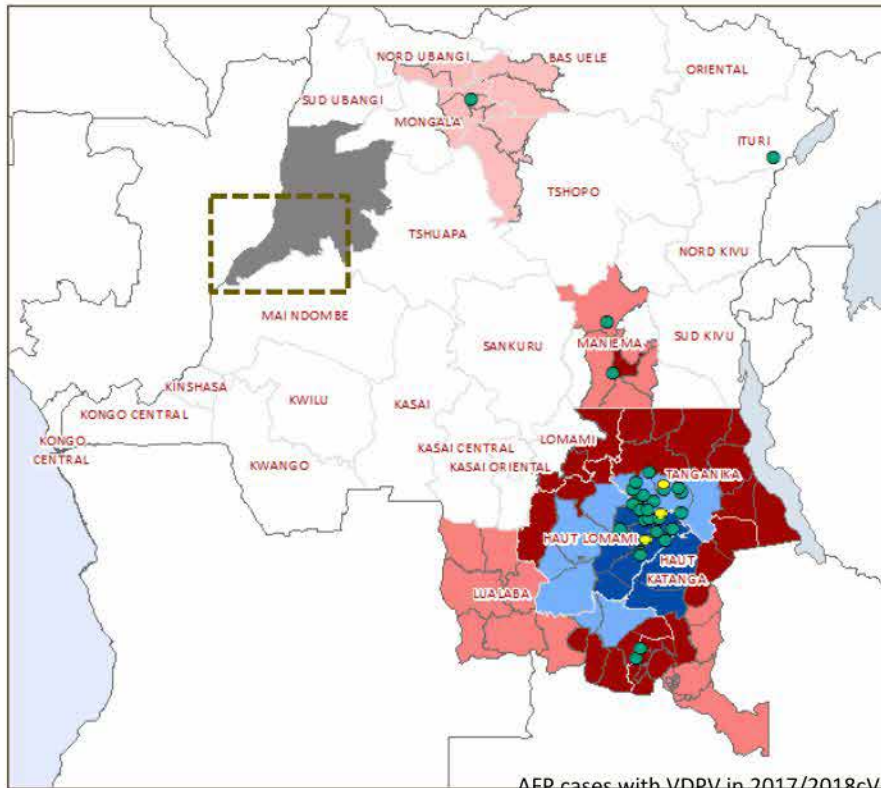

cVDPV = circulating Vaccine Derived Poliovirus outbreaks have evidence of circulation  
aVDPV = ambiguous Vaccine Derived Poliovirus

# DRC- cVDPV2 OUTBREAKS CONTINUE TO EXPAND (2017-2018)

**2017: 22 cVDPV2 + 1 aVDPV1 + 2 aVDPV2**  
**2018: 7 cVDPV2**  
**Total emergences: 6** Ongoing transmission with 3 different cVDPV2 outbreaks:
 

- Maniema** – 2 cases; last case onset 07 April 2017
- Haut Lomami/Tanganyika/Haut Katanga/Ituri**: 26 cases; last case onset in Ituri 5 May 2018; geographic spread despite multiple SIAs
- Mongala**: 1 case with onset 26 April 2018

**Difficult context:** insecurity, inaccessibility, poor infrastructure, and competing priorities (i.e. ongoing Ebola outbreak)  
**Key risks:** Lack of urgency to respond; Poor preparedness  
**Monitoring shows repeated sub-optimal SIA quality** Risk of continued transmission to neighbouring areas/countries

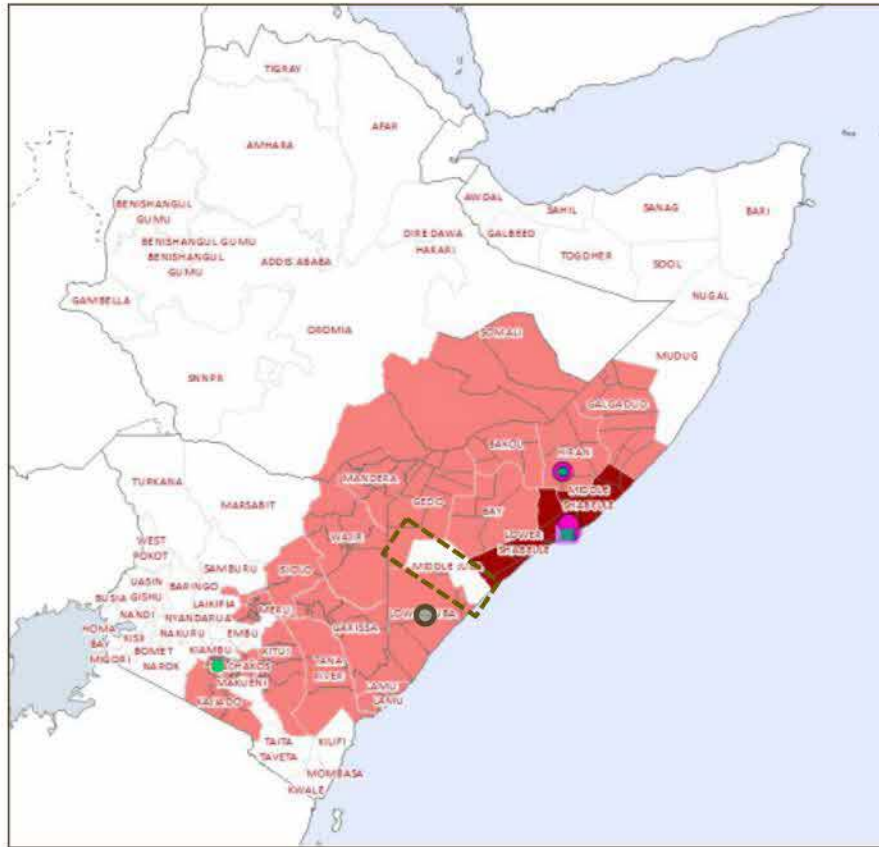

AFP cases with VDPV in 2017/2018: cVDPV2, aVDPV1 or 2

## Health zones with mOPV2 SIAs conducted & planned

# HOA cVDPV2 & cVDPV3 OUTBREAK RESPONSE (2017-2018)

**Current situation** Regional outbreak with virus detected in both Somalia and Kenya; Response also includes Ethiopia; Prolonged undetected transmission with uncertain origin/place of transmission

**cVDPV2 outbreak**  
**Kenya:** 1 cVDPV2 in ES, on 21 March 2018  
**Somalia:** 1 cVDPV2 in AFP on 11 May 2018 in Hiran and 11 cVDPV2 positives in ES (Banadir), last virus (ES) detected on 17 May 2018

**cVDPV3 outbreak**  
**Somalia:** 3 cVDPV3 in AFP (1 in Hiran, 2 in Middle Shabelle), last onset on 30 May 2018, and 8 in ES (Banadir)

**Main risks:** High population movement and inaccessible areas poses risk of geographic and international spread  
 Slow funding execution negatively impacting response

**mOPV2 SIAs conducted or planned**

- 1
- 2
- 3

**AFP cases**

- 
- 
- 

**Environment**

- 
- 

**Inaccessible Area**

-

## ASKS TO THE POB

- Ensure WHO and UNICEF systematically implement existing emergency procedures for the release of funds and deployment of staff in the context of outbreak responses. Polio, as a Public Health Emergency of International Concern, should be prioritized as other emergencies are (e.g., DRC Ebola response compared to DRC polio response) DRCDirect advocacy with the highest political leadership of DRC (PM, President, Health Minister) to improve ownership & accountabilityRequest WHO/UNICEF Regional Directors rapidly host a high level meeting in Kinshasa followed by monthly calls to put response back on trackEnsure full implementation of the emergency administrative / security SOPs for DRC; including flexible in-country travel options (e.g., UN air-bridges where warranted)HoAContinue high level advocacy with the HoA countries' leadership, using any available opportunity to promote an effective, coordinated polio response

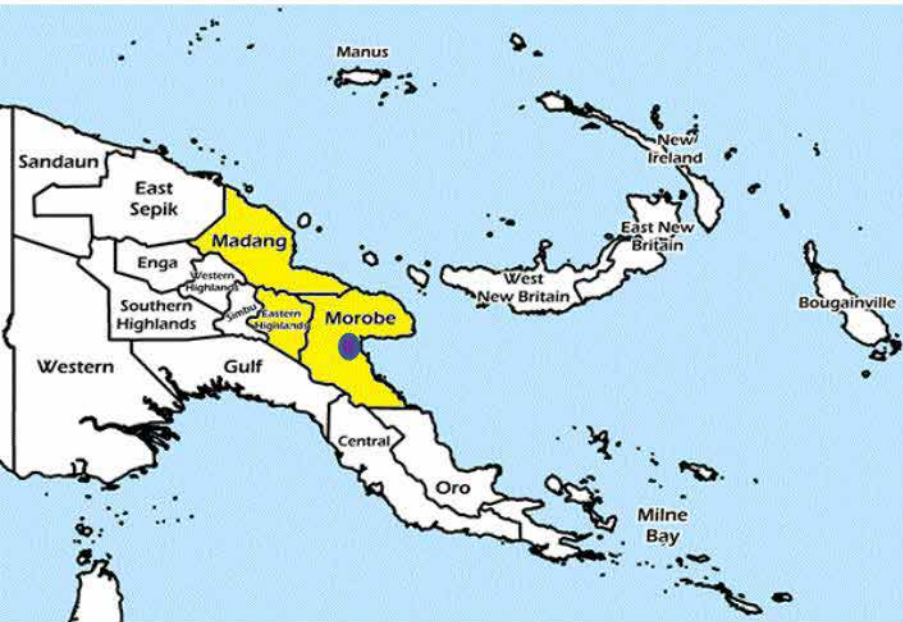

**Thank you**

# Extra Slides

# PNG – cVDPV1 outbreak and response

- cVDPV1
- bOPV planned response – 2 rounds

**Current situation cVDPV1 in Lae, Morobe province**

**1 AFP case with onset on 25 April 2018, and 2 community sampling positives. Response: 2 bOPV rounds in 3 provinces (Morobe, E.Highland, Madang) Main risks: Low population immunity, weak health system, security and logistical issues pose risk of further geographic spread**

**Subject:** RE: Sepsis pre-brief - 6/5

Hi Hugh,

Dr. Redfield is departing the office at 1:30 p.m.

We moved the hold on 6/8 from 10:45-11:45 a.m.

Thanks,  
Teresa

---

**Subject:** RE: Sepsis pre-brief - 6/5

Hi Hugh,

We can hold 6/8 from 3:30-4:30 p.m. and 6/14 from 3:00-3:45 p.m.

Let me know what works best from Program.

Thanks,  
Teresa

---

**Subject:** RE: Sepsis Landscape ?

Hi Rebecca and Susan,

I was just typing an email to you! No additional guidance from HHS today, but I did clarify that it is on Sepsis and it will follow the same format as the AMR briefing. We have also identified two possible times for a pre-brief:

- June 8 – 10:45am

• June 14 – 3:00pm

Please let us know who you would like to include and which date works best for you. Working back from Friday as our earliest date please send materials by COB Wednesday, June 6. Also as and FYI the actual briefing to the Dep Sec is 3:00pm on June 19.

Kind regards,

Hugh

**Subject:** RE: Sepsis Landscape ?

If we want to get materials up to HHS 48hrs in advance with his input then the 14<sup>th</sup> would be the latest date we could do. Can you check availability on your side? Looking at the calendar we could have a window around 2pm.

Separately, I'm still working on getting more clarity on desired focus for our piece and what others are sharing (e.g. slides)

**Subject:** RE: Sepsis Landscape ?

Hi Rebecca,

Breaking news - the Sepsis briefing has been pushed back to the 19<sup>th</sup>. "We are pushing the original date back a week to allow everyone more preparation time."

When does Denise get back from vacation? It would be good to have her in the pre-brief if possible. If she is out for a while then I think we should go with a pre-brief at the end of next week, June 7 or 8, because he is DC the following week. If she is back by June 14 we might be able to squeeze something in, but that would be the latest opportunity.

Thanks,

Hugh

**Subject:** RE: Sepsis Landscape ?

That I actually can answer! It's interagency. Here are the participants:

**Topic:** Briefing on Sepsis Landscape

**Lead:** Dr. Giroir

**Agenda:**

Dr. Giroir – 7-10 minute overview  
Dr. Fauci – 7-10 minute overview  
Dr. Redfield – 7-10 minute overview  
Dr. Kadlec – 7-10 minute overview  
Laura Caliguiri – 7-10 minute overview  
Mary – Sumpter Lapinski – 7-10 minute overview

**Notes:** Briefing Materials due 48 hours in advance.

---

**Subject:** RE: Sepsis Landscape ?

Hugh, one big question I am going to get immediately is whether this is inter-agency or just CDC. Do you know that yet? AMR is usually inter-agency with NIH, FDA, etc. Sepsis is probably a different ballgame. Based on the invite, do we know? Also what time is the official briefing next Thursday? Thanks

**Subject:** RE: Sepsis Landscape ?

Hi Rebecca,

I understand you just spoke with Ashley, but I wanted to let you know where this stood as well. We are seeking further clarity, but our operating understanding is that this is a briefing on Sepsis for the Dep Sec in the style of the AMR briefing for the Secretary (April 13). I have talked to a number of people at HHS and will send additional clarity the moment I have it. I agree with your suggestion for Dr. Schuchat as she is very familiar with both topics.

In the interim, would you please inform the program and start pulling together materials? We have the Vital signs as well as some correspondence from IMAC, but there isn't anything more recent than 2016. We will also be scheduling a pre-brief for Tuesday 1-2pm for Dr. Redfield/ Dr. Schuchat to talk through some of the issues with EZID colleagues. Would you please let me know who all should be invited?

Thank you in advance and apologies for the short timeframe!

Hugh

Hello Teresa,

I spoke with ADS Caliguiri and she mentioned that the request did not come out of the WHA meeting through the Secretary. The request came from the Deputy Secretary prior to the WHA. ADS Caliguiri also mentioned that it is her understanding that a brief was given to the Secretary prior to WHA and this brief would be similar to that.

Hi Will,

In follow up to our chat, attached you will find before and after org charts.

The changes fall into two major buckets:

(b)(5)

As mentioned, we have been working with the ASA and socialized this plan with CDC staff and leaders. Next step, with HHS approval, is to post in the FRN and issue CNs (a CDC-wide email will be sent before the FRN posts). We will also work with ASL & ASFR to offer follow up staff level briefings (we briefed committee staff when we first kicked off the process).

Please let us know if you need additional information.

Thanks,  
Sherri

Per KM, please try to arrange in-person while at HHS on 11 or 12 June, 30 min each. If can't be in-person, please try to arrange as calls on those days, or later that week. Topic is SBC. Sherri can comment if different, but pls include R3, KM, and SB

- ? FDA-Gottlieb
- ? ASH-Giroir
- ? SAMSHA-McCance-Katz

? HRSA-Sigounas

They will discuss with NIH during the visit, so no need for a separate call with them.

Thx!

**Subject:** Request for meeting with Dr. Scott Gottlieb, Commissioner, FDA

Good afternoon Janice,

I hope you are doing well.

Dr. Redfield would like to schedule a 30 minute meeting with Dr. Gottlieb at HHS on June 11th to discuss the FY 2020 HHS Budget Process?

Would Dr. Gottlieb have any time available to meet between 4:30-5:30 p.m. at the HHS Humphrey Building?

Thank you for your consideration.

Best,

Teresa

Good morning Janice,

I hope you are doing well.

Amanda Campbell, Deputy Chief of Staff will accompany Dr. Redfield.

The topic is still to discuss the FY 2020 HHS Budget Process.

Please let me know if you have any additional questions.

Have a wonderful day.

Hi Tracie!

For Monday's meeting with Dr. Redfield and Dr. Gottlieb, is the topic still to discuss the FY 2020 HHS Budget Process? Also, is it a 1:1 or will staff be attending? We're of course fine either way, just want to check to be sure.

Thanks so much!

Hi Teresa,

I am doing well thank you, and hope that you are too.

By chance, could we do this as telecon instead? Perhaps next Tuesday, May 29? I could make Dr. Gottlieb available at 11:00, 2:30, 4:30-6:30. If none of these work well for Dr. Redfield, please just let me know when does and I'll do what I can to make Dr. Gottlieb available.

Thanks so much!

Roybal – let's move this one to May and make it a full hour. I would like to show him where the new lab will go etc.

Can you send a few options?

Chamblee – good, I think 30 mins is plenty. I will have lunch with them (please send invite) then do the tour as you have in on the calendar (maybe extend to 45 mins)

L-ville – May dates please

Thanks

Good morning Sherri,

We need to reschedule the Lawrenceville Campus Facilities Tour scheduled tomorrow, Thursday, May 10<sup>th</sup> from 12:15-2:00 p.m.

Would it be possible to reschedule on any of the dates listed below?

June 15<sup>th</sup>            10:00 a.m. – 12:00 p.m.

June 18<sup>th</sup>            12:30-2:30 p.m.

June 20<sup>th</sup>            12:30-2:30 p.m.

Thanks,

Teresa

Good morning Ms. Strength,

My name is Charleen Ross and I'm currently assisting with scheduling appointments on behalf of Dr. Redd while Ms. Gershman is away. Commander Eric Deussing is requesting a 30 minute debriefing with Drs. Redfield and Redd concerning his recent trip to USAFRICOM. Dr. Redd currently has availability to meet this Thursday, June 28<sup>th</sup>, between 1:00-1:30pm or 1:30m-2:00pm. Would either one of those time work? I also might be able to free some time up for this Friday, 11:30am-12:00noon? Please advise

Thanking you in advance,

**Subject:** USAFRICOM Mtg Debrief- Dr. Redfield

Hi Charleen,

Please let me know if there is a window of time available for Dr. Redd and I to debrief Dr. Redfield on our recent trip to USAFRICOM. The purpose of this meeting is to advise Dr. Redfield on our meetings in Stuttgart and prep him for his upcoming meetings with the Assistant Secretary of Defense (Health Affairs), Mr. McCaffery and the Joint Staff Surgeon, Admiral Chinn. Dr. Redfield's meeting with Mr. McCaffery is on Monday, July 9<sup>th</sup>.

The only days available (Dr. Redd and I are both in the office) are Thursday and Friday of this week. I am

**Importance:** High

Hi Kyle,

In follow up to our meeting yesterday, attached is an information brief on the topic of the SNS antiviral issues we discussed. We provided what we think is enough background information so that Dr. Redfield will be prepared if Dr. Kadlec raises this issue when he is here next week.

However, this paper brief doesn't provide enough information or recommendations to enable Dr. Redfield to make a decision, so we would like to have an opportunity to brief him in more detail.

Yours, Kristin

Hi Dinah,

Thanks so much for your patience.

Could we please confirm 3:15-3:45 p.m. (30 minutes)?

Also, could you provide a meeting location in the Humphrey Building?

Thanks,  
Teresa

**Subject:** Request for Meeting with ADM Brett P Giroir, MD and Dr. Robert Redfield, CDC Director

Good afternoon Dinah,

I hope you are doing well.

Dr. Redfield will be in DC on April 11<sup>th</sup> and would like to schedule a 30-45 minute meeting with Dr. Giroir?

If so, could you please offer some times?

Best,  
Teresa

**Subject:** R3 Tomorrow

Updates from Sherri for tomorrow:

- Dr. Redfield and Kyle will arrive via Uber cab tomorrow morning and we'll meet them in the Visitor Center circle to begin agenda
  - Only change to agenda tomorrow is that we will not do campus tour, but instead Mrs. Joy Redfield will be joining us on campus for a 12<sup>th</sup> floor impromptu meet/greet followed by lunch in Bldg 16 (12:25-1:40pm, followed by a museum tour @ 1:40pm (Whitney will arrange campus access, escort, and connect her with OADC for museum tour)
  - She will return for CDC All Hands on Thursday too, so Whitney will need to do access again, escort, and seating next to Kyle in Aud-A – Brad, please make a name tent for her
- 10 April in the afternoon, while in DC, KLD will be arranging media training with HHS, so the afternoon has already been blocked accordingly and with more details to follow

Thanks for everyone's flexibility and continued professionalism. Let me know if there are any questions. See you tomorrow! -Scott

Good morning Geraldine,

I hope you are doing well.

Per the email below, please advise if the meeting with Mary-Sumpter is confirmed for April 9<sup>th</sup> from 5-5:30 p.m.

If so, could you provide a meeting location?

Thanks so much.

Teresa

Subject: RE: Sepsis Landscape Meeting

Assume it can be done via phone or VTC? Including others for awareness and/or comment, but seems fine however he'll likely need a prep session a day or two before (Seth or others may know more about his level of awareness). I'd target the morning time to hold for now?

Importance: High

Hi Scott,

The HHS Deputy Secretary would like to schedule an hour briefing with Dr. Giroir and Dr. Redfield to discuss Sepsis Landscape.

Dr. Giroir's is available June 7th from 9:30-10:30 a.m. and 3-4 p.m.

Dr. Redfield could move the meet and greet with Dr. Deussing from 10-10:30 a.m. to accommodate 9:30-10:30 a.m.; and we could move the Prep for SBC to 2-3 p.m. to accommodate 3-4 p.m.

Please advise.

Thanks,  
Teresa

## Arrival Instructions

Dear Guest,

### Entry Information

All attendees will enter the Eisenhower Executive Office Building (EEOB) at the corner of **17th Street and State Place** (see attached map). Please arrive early and note that late arrivals may not be accommodated. You will be standing outdoors while in line, so please dress appropriately for the weather conditions.

### Identification

All guests 18 years of age or older will be required to present a valid, government-issued photo identification (detailed below). All foreign nationals must present their passport. All other forms of foreign identification will not be accepted.

**All information submitted (e.g. name, date of birth, city, etc.) must exactly match the government-issued photo ID you will present when arriving at the White House.**

The following forms of photo ID are acceptable for presentation to USSS upon entry to the White House complex:

- Valid government-issued United States identification card (e.g. drivers license, military ID)
- Valid United States or other official government-issued passports

**No other forms of identification will be accepted; photocopies, expired IDs, or other transmissions of these documents are NOT valid.**

### Prohibited Items

The following items are prohibited:

- Cameras or video recorders
- Any pointed object, including pocket knives
- Strollers and diaper bags
- Aerosol containers
- Guns, ammunition, fireworks, electric stun guns, mace, martial arts weapons/devices, or knives

No storage facilities are available on or around the White House complex. Individuals who arrive with prohibited items will not be permitted to enter.

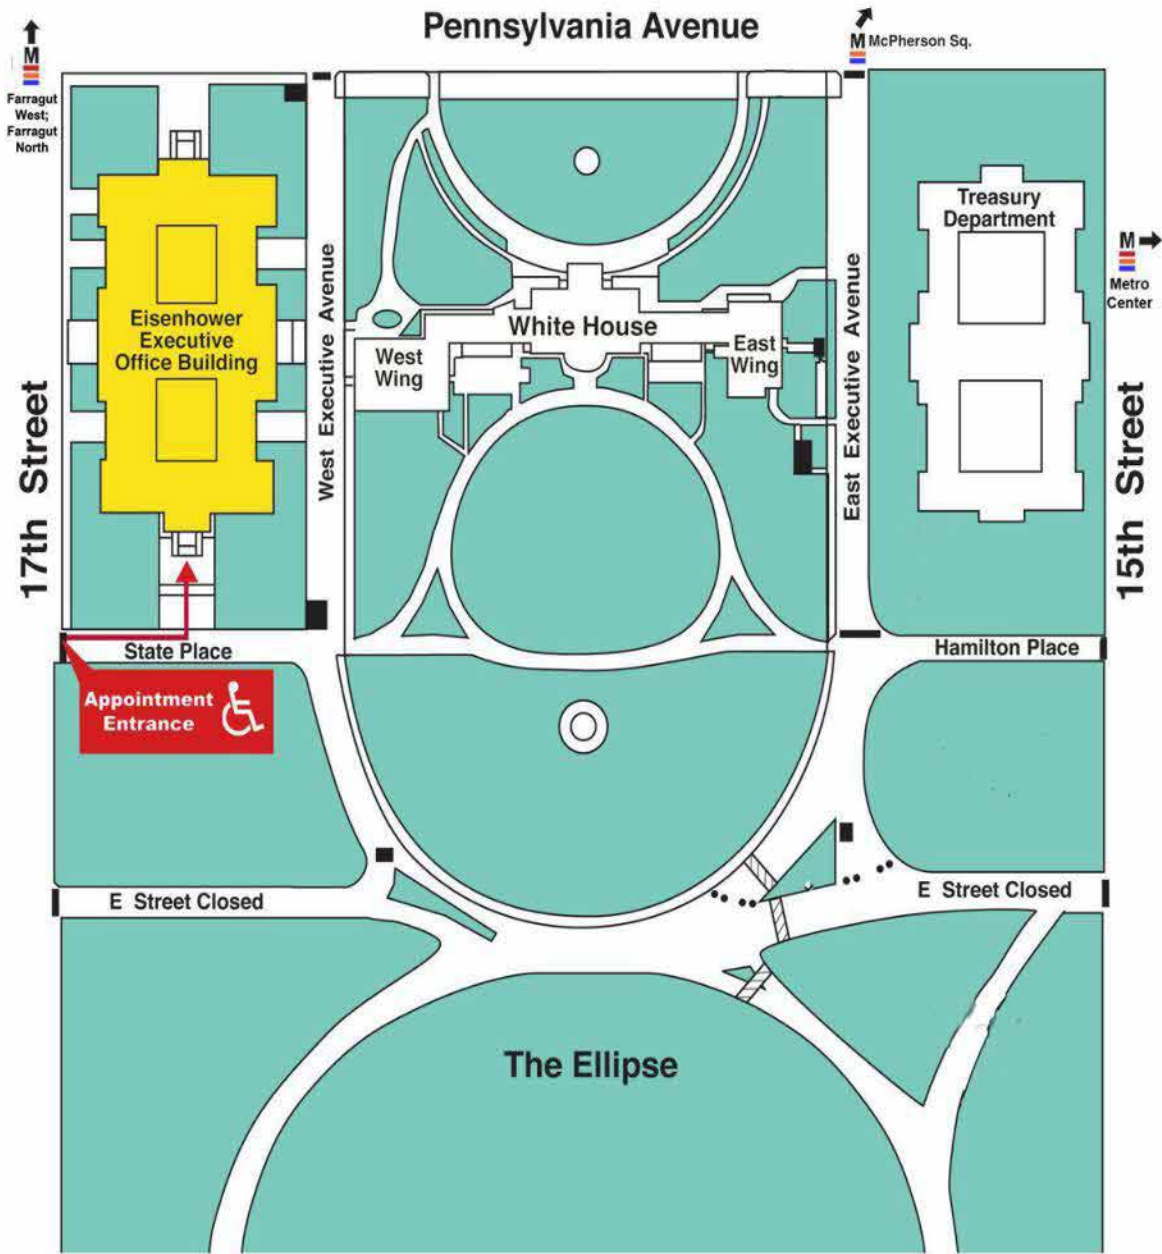

### Parking

On-street parking is not available near the White House, and use of public transportation is strongly encouraged.

### Other Information

Guests should be advised to wear clothing appropriate for the nature of the White House – business or business casual. **Jeans and shorts are not allowed.**

## Arrival Instructions

Dear Guest,

### Entry Information

All attendees will enter the Eisenhower Executive Office Building (EEOB) at the corner of **17th Street and State Place** (see attached map). Please arrive early and note that late arrivals may not be accommodated. You will be standing outdoors while in line, so please dress appropriately for the weather conditions.

### Identification

All guests 18 years of age or older will be required to present a valid, government-issued photo identification (detailed below). All foreign nationals must present their passport. All other forms of foreign identification will not be accepted.

**All information submitted (e.g. name, date of birth, city, etc.) must exactly match the government-issued photo ID you will present when arriving at the White House.**

The following forms of photo ID are acceptable for presentation to USSS upon entry to the White House complex:

- Valid government-issued United States identification card (e.g. drivers license, military ID)
- Valid United States or other official government-issued passports

**No other forms of identification will be accepted; photocopies, expired IDs, or other transmissions of these documents are NOT valid.**

### Prohibited Items

The following items are prohibited:

- Cameras or video recorders
- Any pointed object, including pocket knives
- Strollers and diaper bags
- Aerosol containers
- Guns, ammunition, fireworks, electric stun guns, mace, martial arts weapons/devices, or knives

No storage facilities are available on or around the White House complex. Individuals who arrive with prohibited items will not be permitted to enter.

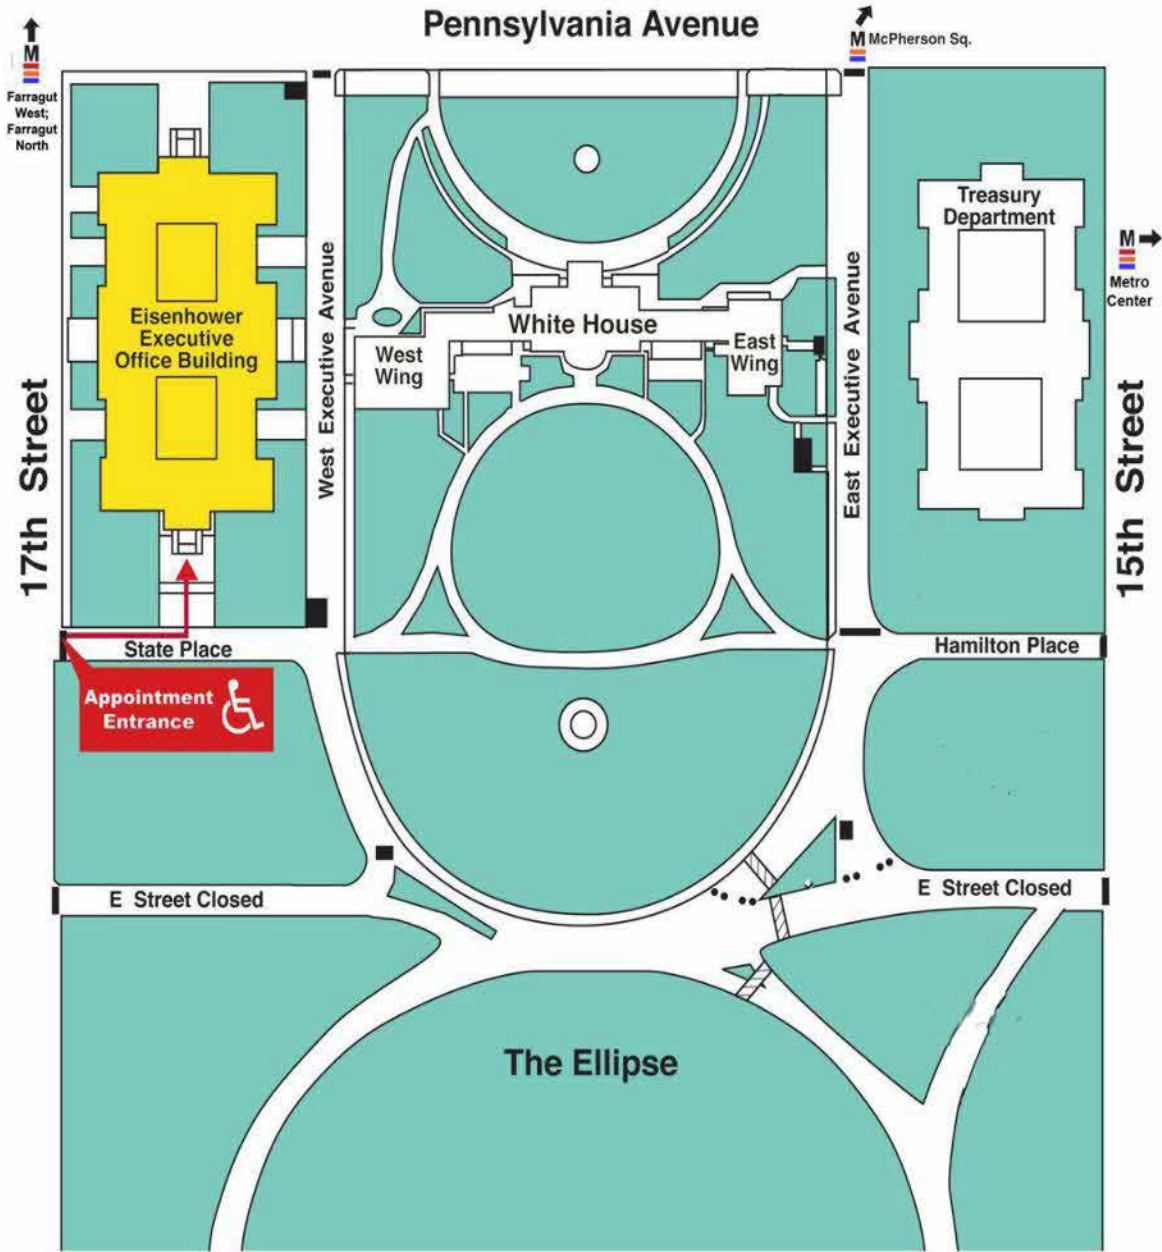

### Parking

On-street parking is not available near the White House, and use of public transportation is strongly encouraged.

### Other Information

Guests should be advised to wear clothing appropriate for the nature of the White House – business or business casual. **Jeans and shorts are not allowed.**

**To:** Redfield, Robert R. (CDC/OD) <[olx1@cdc.gov](mailto:olx1@cdc.gov)>

**Subject:** Redfield call with The Williams Institute

Dr. Redfield,

Following up on our conversation about the letter from The Williams Institute, signed by over 700 academics, regarding the importance to public health of collecting data on risk behaviors of LGBT Americans, I have undertaken to help arrange a call for you with several of the signatories. The Williams Institute officials are appreciative of your long-term commitment to fighting the HIV epidemic and look forward to hearing your thoughts and sharing theirs. You will find them seasoned scholars who, like you, have devoted most of their professional careers to this effort.

There are five individuals (listed below) who will be on the call, which we discussed as ideally occurring this coming Friday, June 22, between 4 and 6 pm EDT (with the exact time to be determined as your schedule is refined). Three of these individuals – Adam Romero, Ilan Meyer and Kerith Conon -- are currently at The Williams Institute. The fourth – Laura Durso -- is a former Williams scholar who is now at American Progress (You met Dr. Durso and discussed the HIV epidemic with her year before last). And I will be on the call to facilitate.

With appreciation,

Jeff Trammell

Good morning Jeff,

Thank you so much for providing the contact information for the participants for the conference call scheduled Friday, June 29<sup>th</sup> from 4-4:30 p.m. EDT.

Below, please find a confidential bridge-line to share with the participants for the call.

Bridge-line: 770-488-3600 Conference ID: (b)(6)

Tracie Strength, Dr. Redfield's Executive Assistant will be managing the conference call and will ask each participant to be identified on the call.

If there are any concerns on the day of the call, please contact Tracie at (b)(6)

Please let me know if you have any questions.

Kind Regards,

Teresa

Teresa,

Here are the four individuals for the call with Dr. Redfield at 4 EDT this coming Friday afternoon, June 29<sup>th</sup>. There is a chance that Jocelyn Williams, the Executive Director of The Williams Institute, will join but let's plan on the four below. I included Ms or Mr as a couple of the names don't automatically help you know the gender of the person to whom Dr. Redfield will be speaking. Please let me know if you need anything else for the call. I provided background info on each of these four last week.

Best.

Jeff Trammell

**Subject:** RE: Redfield call with The Williams Institute

Dear Jeff,

Dr. Redfield alerted me to your request and let me know that you spoke briefly on the phone last night. I am adding the Director's schedulers to this thread to determine a date/time (preferably later next week, if that works for you?) that might work for a call with the folks you mentioned below. We agree that this is a critically important issue, and look forward to hearing more from you and others in the field.

All the best,

---

Ashley Knotts

Special Assistant to the Director

**Subject:** Redfield call with The Williams Institute

Dr. Redfield,

Following up on our conversation about the letter from The Williams Institute, signed by over 700 academics, regarding the importance to public health of collecting data on risk behaviors of LGBT Americans, I have undertaken to help arrange a call for you with several of the signatories. The William Institute officials are appreciative of your long-term commitment to fighting the HIV epidemic and look forward to hearing your thoughts and sharing theirs. You will find them seasoned scholars who, like you, have devoted most of their professional careers to this effort.

There are five individuals (listed below) who will be on the call, which we discussed as ideally occurring this coming Friday, June 22, between 4 and 6 pm EDT (with the exact time to be determined as your schedule is refined). Three of these individuals – Adam Romero, Ilan Meyer and Kerith Conon -- are currently at The Williams Institute. The fourth – Laura Durso -- is a former Williams scholar who is now at American Progress (You met Dr. Durso and discussed the HIV epidemic with her year before last). And I will be on the call to facilitate.

With appreciation,

Jeff Trammell

Teresa,

Here are the four individuals for the call with Dr. Redfield at 4 EDT this coming Friday afternoon, June 29<sup>th</sup>. There is a chance that Jocelyn Williams, the Executive Director of The Williams Institute, will join

but let's plan on the four below. I included Ms or Mr as a couple of the names don't automatically help you know the gender of the person to whom Dr. Redfield will be speaking. Please let me know if you need anything else for the call. I provided background info on each of these four last week.

Best.

Jeff Trammell

Ms. Kerith Conron (b)(6)

Mr. Ilan Meyer (b)(6)

Ms. Laura Durso (b)(6)

**Subject:** OCOS SL Notes

All: From Kyle, for us to arrange during an upcoming DC trip (possibly 15 May if member meetings don't fill the day, otherwise 11-12 June better):

- Plan a visit to NIH to meet with Fauci and Collins (12 June best if possible)
- Meet with HRSA Director, George Sigounas\*\*
- Meet with HHS Chief Technology Officer, Bruce Greenstein\*\*
- Meet with ONC Director, Don Rucker\*\*
- Possible meeting at Pentagon with DoD Asst. Secy for Health (Seth is pulling bio and contact details to reaffirm R3's interest, and if moving forward, we could schedule via OPHPR's DoD LNO)

\*\* Try to schedule for in-person at HHH Building

SK:

- KM mentioned the tentative topics for the 5/14 AMA meeting might be flu and GHSA
- Please begin to include Cindy on SL meeting notes so she can help with follow-ups

AK:

- Please provide KM with an ACD on-pager (this week if possible) about status of current ACD membership and ongoing activities of existing subcommittees and workgroups. (AS, KM, and R3 will meet to discuss R3's vision for ACD before we proceed with any in-person update brief to KM)

JM/T & T:

- Don't add anything to 5/8 after flu briefing
- Continue to keep 30-45 min buffer following key events & meetings (like flu brief, AMA Meetings, B-fasts, CDC-F Meetings, VIP visits, etc...)
  - On 5/14, need space between ASTHO Board meeting and Shepard Awards
- Please reach out to see availability of above meetings for DC & NIH

Thank you all, and please let me know if you have questions. -SS

Hi Teresa,

I am well, thanks. I hope you are, too!

Yes, Dr. Rucker is available from 1-1:30 on June 11<sup>th</sup> to meet with Dr. Redfield. I currently have the time held on his calendar. Let me know if you would like us to reserve a room at Humphrey and/or send out an invite.

Best,  
Kathleen

**Subject:** Meeting Request with Dr. Don Rucker, National Coordinator for Health Information Technology (ONC) and Dr. Robert Redfield, Director, CDC

Good afternoon Kathleen,

I hope you are doing well.

Dr. Redfield is scheduled to be in DC on June 11<sup>th</sup> and would like to schedule a 30 minute meeting with Dr. Rucker.

Would Dr. Rucker be available to meet with Dr. Redfield on June 11<sup>th</sup> at HHS at 1:00-1:30 p.m.?

Thanks so much for your consideration.

Best,  
Teresa

**Subject:** DRC Ebola Debrief

Can you schedule an Ebola debrief Thursday or Friday next week w R3 and:

- Ben Dahl
- Pierre Rollin
- Dr. Schuchat
- Rebecca Martin
- Rima Khabbaz
- Chris Braden
- Hamid Jafari
- Kyle

Thanks. I think 45 mins.

Let me know if you're not able to find a time that works for folks

**Importance:** High

Good morning Williams and Melvin,

Could you please reserve the SCIF for the Dr. Redfield to participate in an [REDACTED] (b)(5) [REDACTED] (b)(5) Second Meeting [Secret Level] scheduled Monday, June 4, 2018 from 12-1 p.m.?

Also, just a heads up that Dr. Redfield may want to take the call from his office and we may need someone to assist with connecting the call.

Thank you so much for your assistance.

Best,  
Teresa

-----Original Appointment-----

**From:** DLGDESK (HHS/ASPR/OPP) <[DLGDESK@hhs.gov](mailto:DLGDESK@hhs.gov)>

**Sent:** Tuesday, May 15, 2018 5:29 PM

**To:** [redacted] (b)(5)

[redacted] (b)(5)

[redacted] (b)(5) Redfield, Robert R. (CDC/OD);

[redacted] (b)(5)

**Subject:** [redacted] (b)(5) Second

Meeting

**When:** Monday, June 4, 2018 12:00 PM-1:00 PM (UTC-05:00) Eastern Time (US & Canada).

**Where:** HHH, 523B SCIF (OSSI)--SVTC for those off site with access

Dear HHS Colleagues:

**Topic:** Emergency Repatriation and Adaptive Planning Disaster Leadership Group (DLG): Second Meeting

**Objective:** Dr. Kadlec is convening a Classified DLG, at the support of the Secretary and Deputy Secretary's Offices, to inform Principals across HHS of Planning efforts related to [redacted] (b)(5)

[redacted] (b)(5)

**Lead Staff from the IO:** Dr. Robert Kadlec, ASPR; Briana Stephan, Senior Advisor

**Has this request been approved by IO staff? If yes, by whom?** Yes, by Dr. Kadlec

**Dr. Kadlec's Role:** Presenter and Meeting Facilitator

**Request POC (Name, Cell and email):** Briana Stephan, (202) 690-8340, [briana.stephan@hhs.gov](mailto:briana.stephan@hhs.gov)

**Proposed Timing:** 1 hour; in the OSSI SCIF 523B, June 4, 2018

**Is Conference Call Line needed?** A SVTC or call line will be provided for those connecting from external campus areas

**Who will initiate the conference call?** Kevin Todd and Andy Garrett/OSSI

**Will there be Briefing Materials provided?** Yes, they will be submitted to Andy Garret for printing and distribution in the SCIF; *materials MUST be left in the SCIF upon departure.*

**HHS Staff Attendees: Principals +1 from the following:** IOS, IEA, ASA, ASFR, ASL, ASPA, OASH, OGA, OGC, ACF, CDC, CMS, FDA, HRSA, NIH, SAMHSA, ASPR

**External Attendees:** N/A—Internal HHS meeting

**Additional Notes:** SECRET level briefing—OSSI will verify clearance level of individuals attending. PLEASE be sure to arrive 10 minutes early so you can sign into the SCIF log and be escorted to the meeting room. If you are bringing a plus one, please notify [Briana.stephan@hhs.gov](mailto:Briana.stephan@hhs.gov), [Kristin.debord@hhs.gov](mailto:Kristin.debord@hhs.gov), and [kevin.todd@hhs.gov](mailto:kevin.todd@hhs.gov) so we can ensure your access to the SCIF and participation in the DLG.

**\*\*Also, please note the limited space in the SCIF so please ensure *no more than* the Principal +1 attend from your respective office\*\***

We ask that you **do not forward this meeting request** to other staff, please contact the policy leaders identified above in the additional notes section with any requests to modify the distribution of this invitation.

**Attachments:**

The agenda will be provided as an update to this meeting request. Meeting materials will be at the SECRET level and made available in the SCIF.

Thank you.

**Teresa Williams**

Thanks Larry... figured that. Tracie, please connect with Larry to schedule the 30 min FTSB for R3 sometime before the trip. We should also include Kyle and Ashley, although Kyle is not going on this trip.

Whitney is finalizing R3's HTSOS enrollment and he'll start the training this Friday, and it'll be done before the trip.

I imagine she's doing or will do the same for Kyle's HTSOS, but I'll let her comment about that enrollment, and if there's been any decisions about the resident FACT training dates for R3 and Kyle/Ashely.

Good morning Scott,

No issues or concerns for Geneva, however, he will need the FTSB and the HTSOS training. We can setup the FTSB in his office or conference room and Bob can present. The HTSOS is the on-line course that we will need to register him at the FSI registrars' office. If you need the form, let me know and I will resend them to you.

Larry

Good morning Dr. Redfield,

Please find attached your May 18/26 Geneva business class itinerary. The May 18 layover in Paris is for 2.5 hours and on May 26, the layover is for 2 hours 5 minutes. As an aside there are plenty of additional seats in coach/business class for these flights. If you have any questions or concerns please do not hesitate to contact me.

Best regards,

Jennifer

I'll be at a meeting at Royal on Monday at 11 and then have to get back to Chamblee. If you have time in the morning before 11 I can come by your office and prepare. Let me know.

On Mar 30, 2018, at 4:35 PM, Scales, Scott L. (CDC/OD/OCS) <ixj3@cdc.gov> wrote:

Hi Ileana! As you're aware, Dr. Redfield will be visiting Chamblee on Tuesday 17 April for three CIO visits in the morning (9am to 12:30pm), followed by lunch at Bldg 106 Café (12:45-1:45pm). After lunch, he's expressed interest with possibly doing a campus tour and/or a couple of lab tours between 2 & 4pm? When convenient next week, can you please let me know what you think is feasible and how you'd like to proceed?

Thank you and have a great weekend!

Scott

**Subject:** RE: F/U from Pirkle Lab Tour

As we were pressed for time (so that he could get home to have his computer installed), Dr. Pirkle cut the tour off early. We were unable to see two sections/branches in the lab that Dr. Redfield had hoped to see. Instead of staying late, we agreed that Dr. Redfield would return to finish the tour, but also that Jim would give him a classified briefing in advance, for more information/context related to the labs.

If you could reach out to the same people we worked with to schedule the first lab tour, they are expecting us to be in contact to schedule these two events. I'd plan for 1 hour for the lab and 30 minutes for the SCIF briefing, unless scott thinks we need more?

**Subject:** Follow-up: Lab Briefing and Lab Tour

Good afternoon Dr. Pirkle,

Dr. Redfield would like to schedule a 30 minute Lab briefing in the SCIF prior to scheduling a second visit to continue touring the Labs at Chamblee.

Please advise if the following dates and times would be acceptable for scheduling.

5/9 11-11:30 a.m. Lab Briefing in the SCIF  
5/10 2:00-3:00 p.m. Lab Tour at Chamblee.

If these dates and times are unacceptable, we could look at some alternatives on May 3<sup>rd</sup>.

I look forward to hearing from you.

Kind Regards,  
Teresa

I'll be at a meeting at Royal on Monday at 11 and then have to get back to Chamblee. If you have time in the morning before 11 I can come by your office and prepare. Let me know.

On Mar 30, 2018, at 4:35 PM, Scales, Scott L. (CDC/OD/OCS) <ixj3@cdc.gov> wrote:

Hi Ileana! As you're aware, Dr. Redfield will be visiting Chamblee on Tuesday 17 April for three CIO visits in the morning (9am to 12:30pm), followed by lunch at Bldg 106 Café (12:45-1:45pm). After lunch, he's expressed interest with possibly doing a campus tour and/or a couple of lab tours between 2 & 4pm? When convenient next week, can you please let me know what you think is feasible and how you'd like to proceed?

Thank you and have a great weekend!

Scott

**Subject:** RE: F/U from Pirkle Lab Tour

As we were pressed for time (so that he could get home to have his computer installed), Dr. Pirkle cut the tour off early. We were unable to see two sections/branches in the lab that Dr. Redfield had hoped to see. Instead of staying late, we agreed that Dr. Redfield would return to finish the tour, but also that Jim would give him a classified briefing in advance, for more information/context related to the labs.

If you could reach out to the same people we worked with to schedule the first lab tour, they are expecting us to be in contact to schedule these two events. I'd plan for 1 hour for the lab and 30 minutes for the SCIF briefing, unless scott thinks we need more?

Meeting with the	Melissa A. Ely-Moore (CGH)	Present time to NLT 6/22/18, Fri.	CDC	•
------------------	----------------------------	-----------------------------------	-----	---

**From:** [Moore, Melissa \(CDC/CGH/OD\)](#)  
**To:** [McCallister, Jeremy \(CDC/OD/OCS\)](#)  
**Subject:** Item for DL  
**Date:** Friday, May 18, 2018 5:01:27 PM

---

Hi Jeremy,

Rotary is hoping to meet with Dr. Redfield possible prior to the Rotary convention scheduled to begin 24 June. The meeting will include John Germ, the President of Rotary International and former chair of the International PolioPlus Committee. Dr. Martin supports this and it is on the list that we just sent up to Scott Scales and Ashley Knotts for OD review. Can we run it on the DL?

Thanks!

**Subject:** Pathology Lab Tour

Hi Sarah. Building upon today's HCL lab tour, we'd like to schedule a visit for Dr. Redfield and Kyle, to visit & tour the Pathology Lab sometime during the week of 7 May, if that's feasible. We do have availability each day that week, with the 10<sup>th</sup> being the most flexible. Can you share any preferred dates or times for that week? Alternatively, we could consider the week of 29 May if that's more convenient.

Thank you!

Scott

Hi Rebecca! I'm sorry to have to tell you this, but Dr. Redfield has changed his plans for Monday 5/7, and now will be at the Emory Influenza Commemoration for most of the day, so we'll have to reschedule the lab tour for another week.

Teresa will work with you to determine a new date and time. Perhaps now that the PR trip is cancelled, we could consider 6, 7, or 8 June?

Please let me know if I can clarify or assist with anything and thanks to everyone for their understanding!

Scott

**Subject:** Pathology Lab Tour

Hi Sarah. Building upon today's HCL lab tour, we'd like to schedule a visit for Dr. Redfield and Kyle, to visit & tour the Pathology Lab sometime during the week of 7 May, if that's feasible. We do have availability each day that week, with the 10<sup>th</sup> being the most flexible. Can you share any preferred dates or times for that week? Alternatively, we could consider the week of 29 May if that's more convenient.

Thank you!

Scott

**Subject:** Pathology Lab tour request for Director and CoS

Good afternoon CDC Security, Greg, and Noah,

\*\*The Pathology Tour originally scheduled for 7 May for the Director and Chief of Staff was rescheduled for 6 June 2018. The below serves as a new request for the tour on that day.\*\*

Request clearance for Dr. Redfield and Kyle McGowan to tour the Pathology Lab on Wednesday, June 6<sup>th</sup>.

The tour is currently scheduled from 1:00-2:00pm and the following CDC Staff will be participating:

Dr. Robert Redfield (OD)  
Kyle McGowan (OD)  
Dr. Steve Monroe (ADLSS)  
Dr. Rima Khabbaz (NCEZID)  
Dr. Inger Damon (DHCPP/IDPB)  
Dr. Jenni McQuiston (DHCPP/IDPB)  
Dr. Sherif Zaki (DHCPP/IDPB)  
Sarah Wiley (OID)

Location: Building 18, Sub-Basement, Rooms SB-212 and SB-605

All attendees are US Citizens and no one external to CDC will be taking part in the tour.  
Thank you and please do not hesitate to reach out if you have any questions.

Good morning Dolkie,

I was just informed that the Fairlie Room is not available from 3-3:30 p.m. today.

Do you have a room they could meet in? If not, we will look for another alternative.

Thanks,  
Teresa

Good morning,

The meeting organizers at the Rx Summit confirmed Dr. McCance-Katz session for April 4th at 5:15pm. She arrives ATL at 12:58pm and departs at 10:05pm on April 4th. She will not be arriving the day before due to her schedule.

Does Dr. Redfield have any availability to meet on April 4th?

Importance: High

Good morning Dolkie,

I hope you are doing well.

Dr. Redfield is scheduled to attend the Rx Summit in Atlanta at Hyatt Regency hotel and would like to schedule a 30 minute meet and greet with Dr. McCance-Katz on April 3, 2018.

Would Dr. McCance-Katz be available from 11:45 a.m. - 12:15 p.m.? If not, could you offer some times between 11 a.m. - 2p.m.?

Thanks for your consideration.

Best,

Teresa

Good morning Brad.

We will have a dedicated parking spot for Dr. Schuchat. I will work to make sure this spot is clearly identifiable for her.

I hope this helps.

Hi Twanda, good morning.

I was wondering if you had any reserved parking at the Hilton for EIS and if so, how we could apply to get a pass for Dr. Schuchat's vehicle when she comes on Monday, Wednesday and Thursday?

Thanks,

Brad

Hi Dee Dee,

The EIS Satirical Review will be held on Thursday, April 19, 2018 at 7:30 PM at the Hilton Atlanta (Salon Room).

The 2016 Class Skit Manager is Betsy Schroeder. She can provide you more information on the production. I have copied her on this email.

Please let me know if any additional information is needed.

Regards,  
Twanda

**Subject:** RE: Surgeon General Visit to CDC

Hi Pattie and Scott,

Thank you both for the tentative agendas.

We are still in the process of finalizing Dr. Adams' travel arrangements. As of now, it looks like Dr. Adams will only be available Wednesday morning and evening for additional meetings. The meetings listed below for Wednesday should definitely work.

Scott, do you think there is any possibility we could move some of the proposed meetings on Thursday to Wednesday morning? Specifically, the meeting with Dr. Redfield? Please let us know.

Thank you,  
Amber

**Subject:** RE: Surgeon General Visit to CDC

Hi Amber

For Wednesday, right now we have the only following scheduled and await word on Dr. Adams arrival and departure times and decisions about Thursday before doing any further scheduling. We have a room set aside for him all day on Wednesday so depending on his arrival time, we would be happy to arrange additional meetings.

### **Wednesday April 18, Hilton Downtown Atlanta**

12-1:30 – lunch with Dr. Schuchat and some other CDC leaders

2-2:45 – meet and greet with EISOs and LLS fellows (incoming class of 2018 and classes of 2016 and 2017)

3:15-4:45 – Langmuir session (a few awards, 30 min of Dr. Adams remarks and 30 min of Q&A)

Pattie

Brad,

Thanks for following up. I was out of office last week.

Please see attached for the latest agenda. If possible, we'd like Dr. Redfield to participate in our celebration's opening remarks, highlighting the importance of USG agencies working together to support national security and global health security.

Thanks again,  
Amanda

**Subject:** RE: [Non-DoD Source] 125th Anniversary Celebration of the WRAIR (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

Hi Brad,

Thanks for connecting.

I've copied your questions below and will respond to each directly below, my text starting with \* as occasionally, our formatting is messed up through our .mil servers.

1. I see there are 4 speakers in the one hour time block - would it be accurate that Dr. Redfield will have about 15 minutes for his remarks?

\*That is accurate. We'd like each speaker to provide 10-15 minutes of remarks.

2. Are you planning to have media attend, any social media promotion, or a photographer at the event?

\*We will promote on social media and will have several photographers at the event. We have not yet invited any journalists but may invite some of our local media contacts. It is possible we may do segments of the day on Facebook or YouTube live, but this has not been confirmed.

3. Is it possible to get an attendee list and an idea of how many guest you expect in the audience?

\*We have currently invited about 500 guests, and the American Society of Tropical Medicine and Hygiene will be sharing the registration link with their listserv -- unsure a headcount but quite large global network. We have capacity for 250 attendees.

4. Would it be appropriate for Dr. Redfield to back his remarks with slides, if he were so inclined?

\*Absolutely.

Let me know what additional questions come up or how else I can clarify!

A question on our end: will Dr. Redfield be accompanied by any additional staff? If so, how many?

Thanks,  
Amanda

Hi Amanda,

Based on the agenda that you sent yesterday, we have just a few questions. I've also cc'd Delaney McGuire from Dr. Redfield's Communications Team who may follow up with additional comments or questions. Thank you very much.

1. I see there are 4 speakers in the one hour time block - would it be accurate that Dr. Redfield will have about 15 minutes for his remarks?
2. Are you planning to have media attend, any social media promotion, or a photographer at the event?
3. Is it possible to get an attendee list and an idea of how many guest you expect in the audience?
4. Would it be appropriate for Dr. Redfield to back his remarks with slides, if he were so inclined?

Thanks,  
Brad

Brad, thanks for following up!

We have conference rooms on hand that will be available as early as 0700. As Dr. Redfield arrives, he will have a dedicated escort who will show him the way to the conference room and be on stand-by for whenever he'd like to check out the auditorium.

I don't yet have a confirmed POC as his escort but will follow up with that likely before COB tomorrow.

Let me know what additional questions come to mind... and thanks again for your time for a quick call today!

Talk soon,  
Amanda

Amanda,  
I just inquired about the meeting with Dr. Birx and he just needed a time to catch up with her on a few items left over from a previous meeting. If you can help locate a space for them to do that it would be greatly appreciated.

Thanks again for all your help.

Brad

Thank you Amanda.  
I will get the answers to your questions by this afternoon.  
Will also try to call you after 12pm.  
Thanks for the info.

Brad

CLASSIFICATION: UNCLASSIFIED

Brad,

Apologies we didn't connect on Friday. See below for a coordination email that includes some details.  
Happy to talk later today - free between 12pm-2pm ET, or after 4pm.

I've cc'ed Samir Deshpande and CPT Jeffrey Osgood, who have been essential in the planning and preparation of this event, for their awareness.

Thank you for helping us coordinate Dr. Redfield participation during our 125th anniversary.  
This email has a few questions and details. Please let me know what questions you may have for us.

Questions:

- 1) When does Dr. Redfield anticipate on arriving?
- 2) What are the names of people accompanying Dr. Redfield on 22 June?
- 3) Will they be arriving in a separate vehicle? If so, how many vehicles total?
- 4) Does Dr. Redfield plan on using slides and/or notes? If so, can you please provide by Wednesday, 20 June?
- 5) Will Dr. Redfield be interested in seeing the auditorium and podium before speaking?
- 6) To get to the podium, there are 4-5 stairs with a hand rail. There is also an elevator if needed based on accessible. Please advise - which would be best for Dr. Redfield?
- 7) Is there additional information we should know to facilitate Dr. Redfield's visit?

Event Details:

Arrival & Parking:

- 1) Our address is 503 Robert Grant Ave, Silver Spring, MD 20910. Inputting this into a GPS will bring you to the correct location.
- 2) You will pass through a security post in which a guard will request photo identification. They will then direct you to a reserved parking area, approximately 1-2 minutes from the main building.

Registration:

- Upon entering the building, Dr. Redfield will receive a badge then be escorted to a smaller conference room with the option of joining the morning poster session Auditorium
- All speakers will gather 15 minutes before the start of the program and be led by COL Whitmer into the auditorium.

Remarks

- We anticipate Dr. Redfield will speak to "USG Working toward Common World Health Goals" in a 10-15 minute time slot. Dr. Redfield will be introduced by COL Nelson Michael.
- Bottled water will be accessible in the auditorium.

Social media

- We plan on livestreaming the morning session. We will follow up with a link.
- WRAIR will be tweeting throughout the day (@WRAIR | #125YearsofWRAIR)
- We will not be promoting the event prior to day of

Thanks for your time,  
Amanda

Great, thank you Amanda. I just need to coordinate for a space for Dr. Redfield to take a call early before the event, and a place to meet with the Dr. Birx.

Thanks,  
Brad
