Brad,

Thanks for reaching out! I was just drafting an email for Dr. Yourick to send to our VIP speaker coordinators to follow up on details for next week. This is way better.

Would love to catch up tomorrow. I'm available any time after 1130am ET.

Thanks,
Amanda

Hi Amanda, hope you are well.
I wanted to follow up on a couple of logistical items for next week.
Would you be available to talk tomorrow sometime?
Thanks, just let me know.

Brad

Thanks, will do! We'll have registration open until June 18 and then I'll follow up to send you all the confirmed list of folks who registered.

I did want to follow up with a question and request. We're putting together a handout for the event and would love to include Dr. Redfield's photo and a very short bio (thinking 3-5 sentences).

Can you please send me his preferred head shot as well as text for his abbreviated bio?

Thanks again,
Amanda

Thank you Amanda for sending the spreadsheet.

As I stated over the phone, I will be out for the next two weeks and I wanted to connect you to our Director

of Scheduling and Advance Scott Scales, who is cc'd above. He may have additional questions for you over the course of the next week or so leading up to the visit.

Thanks,
Brad

Hi Brad,

Thanks for connecting.

I've copied your questions below and will respond to each directly below, my text starting with * as occasionally, our formatting is messed up through our .mil servers.

1. I see there are 4 speakers in the one hour time block - would it be accurate that Dr. Redfield will have about 15 minutes for his remarks?

*That is accurate. We'd like each speaker to provide 10-15 minutes of remarks.

2. Are you planning to have media attend, any social media promotion, or a photographer at the event?

*We will promote on social media and will have several photographers at the event. We have not yet invited any journalists but may invite some of our local media contacts. It is possible we may do segments of the day on Facebook or YouTube live, but this has not been confirmed.

3. Is it possible to get an attendee list and an idea of how many guest you expect in the audience?

*We have currently invited about 500 guests, and the American Society of Tropical Medicine and Hygiene will be sharing the registration link with their listserv -- unsure a headcount but quite large global network. We have capacity for 250 attendees.

4. Would it be appropriate for Dr. Redfield to back his remarks with slides, if he were so inclined?

*Absolutely.

Let me know what additional questions come up or how else I can clarify!

A question on our end: will Dr. Redfield be accompanied by any additional staff? If so, how many?

Thanks,
Amanda

Hi Amanda,

Based on the agenda that you sent yesterday, we have just a few questions. I've also cc'd Delaney McGuire from Dr. Redfield's Communications Team who may follow up with additional comments or questions. Thank you very much.

1. I see there are 4 speakers in the one hour time block - would it be accurate that Dr. Redfield will have about 15 minutes for his remarks?
2. Are you planning to have media attend, any social media promotion, or a photographer at the event?
3. Is it possible to get an attendee list and an idea of how many guest you expect in the audience?
4. Would it be appropriate for Dr. Redfield to back his remarks with slides, if he were so inclined?

Thanks,
Brad

Brad,

Thanks for following up. I was out of office last week.

Please see attached for the latest agenda. If possible, we'd like Dr. Redfield to participate in our celebration's opening remarks, highlighting the importance of USG agencies working together to support national security and global health security.

Thanks again,
Amanda

Hello Dr. Yourick, I hope this finds you well.

I am a member of the CDC Director's Advance Team and I wanted to know if you have a draft agenda for this event so we can begin planning for Dr. Redfield's attendance on June 22nd. If you have someone else on your team that will be working logistics for this event, you can certainly pass me off to that individual.

Appreciate your help.

Good morning MayLin,

I hope you are doing well.

Dr. Redfield is attending the 125th Anniversary Celebration of the Walter Reed Army Institute of Research (WRAIR) in Silver Springs MD on June 22, 2018.

Please advise if Ambassador Birx is planning to attend.

If so, would it be possible to schedule a 30 minute meeting?

Thank you for your consideration.

Best,
Teresa

Subject: RE: Director Anthrax TTX

Gents, I'm including Jeremy since he handles the Director's Decision List document. He can summarize this and add it to this week's DL and he'll reach out to you if he has questions. I'd recommend only targeting 13, 14, or 15 June as options due to other R3 conflicts, and I'd recommend a single 2 hour session with sufficient read ahead and prep. If R3 wants more then we'll likely schedule a follow-on session to continue the discussions. Just to be clear, Steve and Rima are both endorsing this too, right?

Scott

Subject: Director Anthrax TTX

Hi Scott,

Steve Papagiotas (NCEZID/DPEI) and I are working together on pulling this Director's TTX together. This is the one I spoke to you about earlier this month. Steve Redd suggested it to Dr. Redfield as a way to help the Director understand CDC's, and his, role in an event like this. Steve Redd suggested it either be a Pan Flu or Anthrax scenario. So, we have had two meetings with NCEZID and DPEI (Toby M, Nicki P, Henry Walke, Inger, Steve P and DEO) to scope out a concept.

Request: Three hours of the Directors time the week of Jun 4-8 or Jun 11-15 to conduct this Anthrax TTX. Unless someone in OD thinks it needs to happen sooner?

Option. We can do it all in one (3hr block) or we could split it up into a (1 hr block) followed by the (2hr block) the same week?

Worst case scenario if you say we only get 2 hours of face to face time is we put together a more robust read ahead package but we will lose some of the transfer of knowledge and engagement with the SMEs if limited to one 2 hr session.

Glad to have a quick phone call if we need to discuss or give you more.

Thanks

Dave

Subject: Meeting with Dr. Chris Elias at WHA

Dear Tracie and Teresa,

On behalf of Dr. Chris Elias, we wondered if Dr. Redfield might be available for a bilateral meeting on the margins of WHA later this month? If so, does he have any availability for a 30 minute meeting between 4-6pm on Tues, May 22 or on Wednesday between 10am-4pm? If helpful, we have a room available at the Palais for this meeting.

Best,
Samantha

Arrival Instructions

Dear Guest,

Entry Information

All attendees will enter the Eisenhower Executive Office Building (EEOB) at the corner of **17th Street and State Place** (see attached map). Please arrive early and note that late arrivals may not be accommodated. You will be standing outdoors while in line, so please dress appropriately for the weather conditions.

Identification

All guests 18 years of age or older will be required to present a valid, government-issued photo identification (detailed below). All foreign nationals must present their passport. All other forms of foreign identification will not be accepted.

All information submitted (e.g. name, date of birth, city, etc.) must exactly match the government-issued photo ID you will present when arriving at the White House.

The following forms of photo ID are acceptable for presentation to USSS upon entry to the White House complex:

- Valid government-issued United States identification card (e.g. drivers license, military ID)
- Valid United States or other official government-issued passports

No other forms of identification will be accepted; photocopies, expired IDs, or other transmissions of these documents are NOT valid.

Prohibited Items

The following items are prohibited:

- Cameras or video recorders
- Any pointed object, including pocket knives
- Strollers and diaper bags
- Aerosol containers
- Guns, ammunition, fireworks, electric stun guns, mace, martial arts weapons/devices, or knives

No storage facilities are available on or around the White House complex. Individuals who arrive with prohibited items will not be permitted to enter.

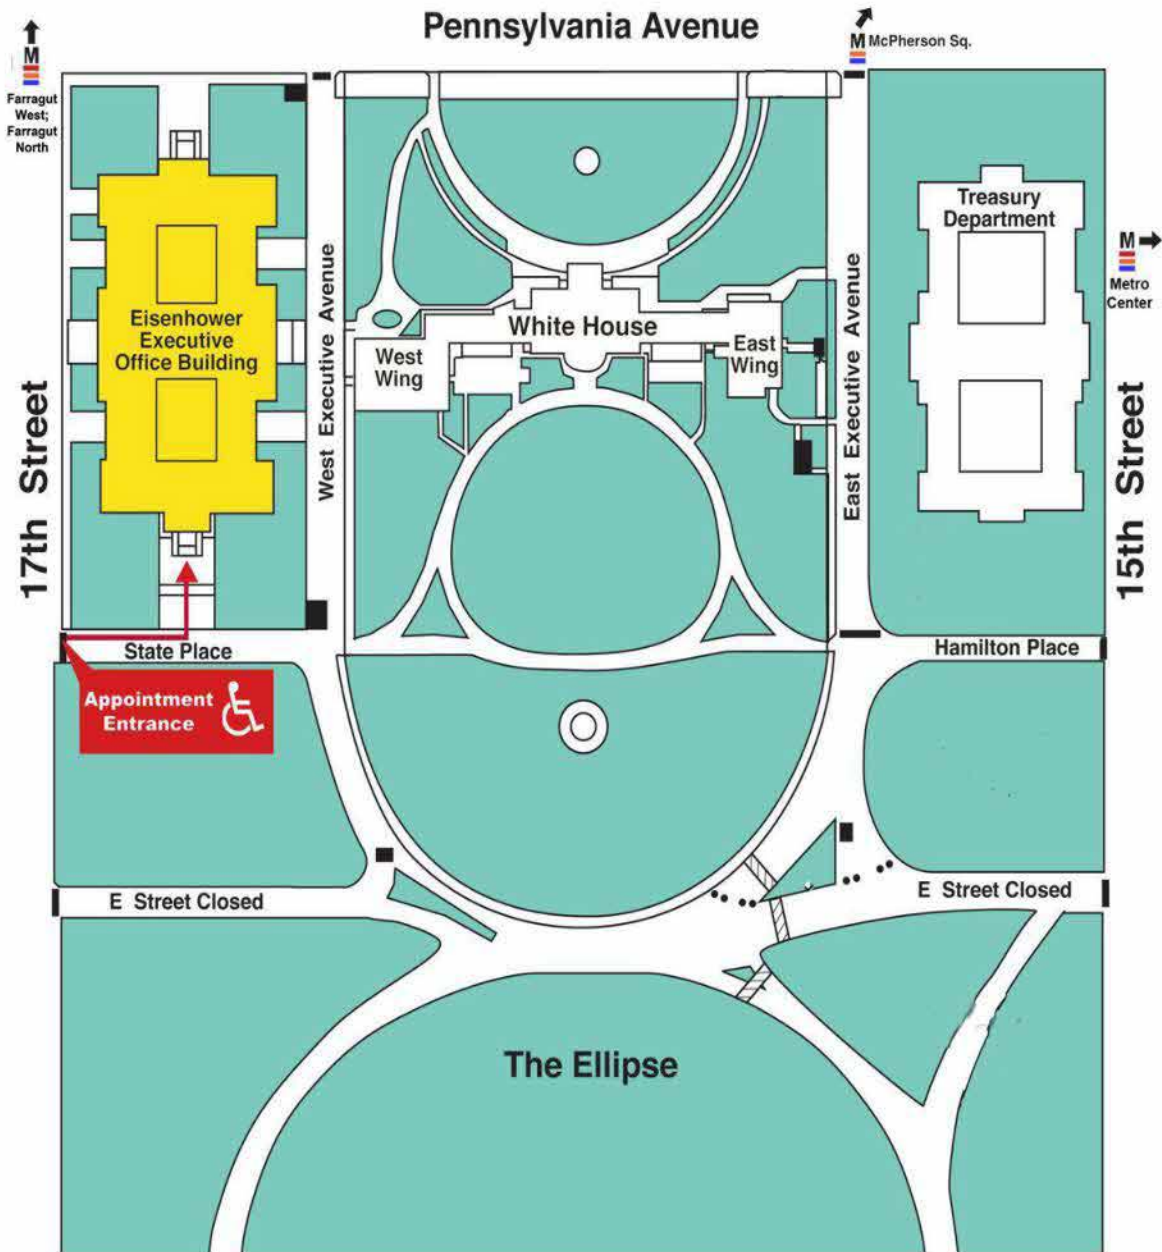

Parking

On-street parking is not available near the White House, and use of public transportation is strongly encouraged.

Other Information

Guests should be advised to wear clothing appropriate for the nature of the White House – business or business casual. **Jeans and shorts are not allowed.**

Occupant Emergency Program - Building Evacuation Drill

The Security Service Office (SSO), Emergency Management Branch (EMB) will conduct a Building Evacuation Drill for:

Roybal Campus, Bldg. 21

Dates:

- Tuesday, 1 May, Floors 10-12
- Wednesday, 9 May, Floors 4-6
- Tuesday, 22 May, Floors 7-9
- Wednesday, 30 May, Floors 1-3

Time: Between the hours of 8:00 AM and 11:59 AM

Note: This drill will involve fire alarm activation resulting in a 'staged-evacuation' of occupants from only the three floors identified.

Please contact Dexter J. Peggins at czj8@cdc.gov or 404.427.4028 with questions concerning this announcement or the Occupant Emergency Program.

Event Host: Hope Beckham, Inc. (HBI)

Purpose of Event: Attend the 2018 Bill Foege Global Health Awards which honors individuals and organizations for their commitment to making advancements in global health.

This year's award recognizes former Pres. Jimmy Carter and former First Lady Rosalynn Carter, co-founders of The Carter Center, for their contributions in combating diseases in Africa and Latin America and restoring global health. The event will be emceed by multiple Emmy award-winning chief medical correspondent for CNN, Dr. Sanjay Gupta.

This event will showcase the CDC and all other important health organizations such as the Task Force for Global Health, CARE, American Cancer Society, MAP International, MedShare, and the Carter Center's work in global health. Atlanta's involvement in healthcare is an amazing story that the city is just beginning to tell. Delta, UPS, Home Depot and other major corporate leaders are already on board with this initiative.

Agenda (if applicable): TBD

Number of Attendees and Composition: 500+ guests including Honorary Chair, Amb. Andrew J. Young.

Key Participants (if applicable): The Metro Atlanta Chamber will also be recognizing a former Director of the CDC, Dr. Jeffery Koplan, on stage. Guests at R3's table: **(Table 4)** John Bardis , Judy Bardis , Ted Turner ,Ted Turner Guest, Beth Davis (The Carter Center), Secret Service ,Ed Heys (Deloitte), Dr. Robert Redfield, Dr. Robert Redfield Guest

2018 AWARD WINNERS President Jimmy Carter & Rosalynn Carter

About Jimmy Carter

39th President of the United States
and Founder of The Carter Center

After his Presidency, Jimmy Carter became University Distinguished Professor at Emory University and founded The Carter Center. The nonpartisan and nonprofit Center addresses national and international issues of public policy in efforts to resolve conflict, promote democracy, protect human rights, and prevent disease and other afflictions. The Carter Center has spearheaded the international effort to eradicate Guinea worm disease. The Nobel Peace Prize was awarded to Mr. Carter in 2002 for his decades of untiring effort to find peaceful solutions to international conflicts, to advance democracy and human rights, and to promote economic and social development.

About Rosalynn Carter

Former First Lady of the United States and
Founder of The Carter Center

Former First Lady Rosalynn Carter has worked for more than four decades to improve the quality of life for people around the world. Today, she is a leading advocate for mental health, caregiving, early childhood immunization, human rights, and conflict resolution through her work at The Carter Center. She created and chairs the Carter Center's Mental Health Task Force, an advisory body of experts, consumers, and advocates promoting positive change in the mental health field. Mrs. Carter emerged as a driving force for mental health when she became active honorary chair of the President's Commission on Mental Health, which resulted in passage of the Mental Health Systems Act of 1980.

Subject: INVITATION | 2018 Bill Foege Global Health Awards

Hi Dr. Anne,
Hope you're doing well! I wanted to reach out and extend an invitation for you and a guest to attend the 2018 Bill Foege Global Health Awards on Wednesday, May 9 at 6:00pm at the Delta Flight Museum. To commend Bill Foege, the award honors individuals and organizations for their commitment to making advancements in global health. This year's award recognizes President Jimmy Carter and First Lady Rosalynn Carter, co-founders of The Carter Center, for their contributions in combating diseases in Africa and Latin America and restoring global health. The event will be emceed by multiple Emmy® award-winning chief medical correspondent for CNN, Dr. Sanjay Gupta.
As Acting Director at the CDC, we wanted to reach out and let you know of this upcoming event. We anticipate more than 500 guests in attendance including Honorary Chair Ambassador Andrew J. Young.
Let me know if you have any questions or need any additional information.
Thanks,
Chelsea

GLOBAL HEALTH AWARDS 

Presented Annually by MAP International

THE BILL FOEGE GLOBAL HEALTH AWARDS

Presented by
MAP International

Honoring
President Jimmy Carter
& Rosalynn Carter

Wednesday, May 9, 2018 | 7pm

Delta Flight Museum
1060 Delta Boulevard | Atlanta, GA 30354

The vision for Atlanta as a global health hub began in the imagination and creativity of one man, Bill Foegen.

In recognition of this spark, MAP International is pleased to present the annual Bill Foegen Global Health Awards, given in honor of people and organizations whose contributions to the progress of global health measure substantially.

A man who once held the stage with Bob Dylan in receiving the Presidential Medal of Freedom, Bill Foegen is a folk hero in the global health community. He's known as the person most responsible for eradicating small pox.

Described as one of his mentors, here is how Microsoft founder Bill Gates refers to Dr. Bill Foegen: "He is one of my heroes. He's a giant in the field of global health, having devised the strategy that led to the eradication of smallpox (among many other accomplishments). His intelligence, leadership, and humility over the last six decades have proven invaluable in the fight against disease and poverty."

Besides receiving the Presidential Medal of Freedom, Dr. Foegen has received the Jimmy and Rosalynn Carter Award for Humanitarian Contributions to the Health of Humankind and the Ivan Allen Jr. Prize for Social Courage in addition to numerous other awards.

Now a top award for achievement in global health is aptly being named for him.

Thank you to our Gold Sponsors for making this celebration possible.

Crazy Good Turns

THE ARTHUR M. BLANK
FAMILY FOUNDATION

A Gold Sponsor extends MAP's capacity to supply more than \$2,000,000 in medicines and health supplies, treating as many as 65,000 people.

HHS-CDC-19-0276-A-002158

SILVER SPONSORS

Thank you to our Silver Sponsors for making this celebration possible.

World Outreach Fund

A Silver Sponsor helps send medicines and health supplies valued at \$800,000, which will provide medical treatments for as many as 26,000 people.

BRONZE SPONSORS

Thank you to our Bronze Sponsors for making this celebration possible.

Atlanta Hawks

Atlanta North Dermatology

Martha & Toby Brooks

Diversified Trust

Home Depot

Primerica

Return Logistics

R.K. Sehgal

Shepherd Center Foundation

The Coca-Cola Company

Transwestern

Turner Enterprises

A Bronze Sponsor provides the equivalent of 12 medical mission packs for health care teams serving remote communities, providing treatments for as many as 7,000 people.

At least 300,000 people in Liberia suffer from mental illness.

Access to safe, affordable mental health medicine is very limited in Liberia.

300,000

They are faced with misconceptions, stigma and the resulting discrimination surrounding mental illness.

More than 200 clinicians trained by The Carter Center provide mental health services.

In partnership with The Carter Center and Liberian Ministry of Health, MAP International is sending mental health medicines to Liberia for the treatment of mental illness.

The first shipment of mental health medicines was delivered to the Liberian Ministry of Health on March 7, 2018.

Another shipment just arrived.

To guarantee future shipments, we need your help.

CREDIT CARD DONATIONS

Event staff at the registration desk are prepared to process your contribution using a credit or debit card following the program. You may also contribute by completing the following information and presenting it at the registration desk.

Your contribution amount:

\$2500 \$1000 \$500 \$250 Other: _____

Name on Card _____

Billing Address _____

City _____ State _____ ZIP _____

Email _____

Card No. _____

Exp. Date ____ / ____ / 20__ Security Code _____

Txt2Give (TEXT TO GIVE)

1. Type '444999' in the 'To' line in your text messenger.
2. Then type "MAP" into the text window on your phone.
3. Tap the 'send' button and you will receive a link to a special donation page with directions.

Donate By Mail *Please mail donation checks to:*

Conclusion	Dr. Sanjay Gupta

ABOUT MAP INTERNATIONAL

MAP International is a Christian organization providing life-changing medicines and health supplies to those in need. MAP serves all people, regardless of religion, gender, race, nationality, or ethnic background. MAP carefully obtains medicines and health supplies to ensure they meet the highest quality standards, including those of PQMD (Partnership for Quality Medical Donations) and other organizations. Throughout its history, MAP has been recognized for its financial accountability and organizational transparency.

For 64 years, MAP International has contributed to global health progress by providing essential medicines and health supplies where there is little or no access to them. MAP's role in global community health development includes the treatment of nearly two million children with deworming medication and Vitamin A supplements in Cote d'Ivoire and Kenya in 2017. Additionally, MAP has worked in partnership with The Carter Center towards the eradication of Guinea worm in Cote d'Ivoire. MAP was one of the first to respond with the provision of personal protective equipment to reduce the spread of Ebola in Liberia and continues to work today in partnership with the Ministry of Health with further preventative and rehabilitative measures. MAP is also involved in numerous other interventions against neglected tropical diseases.

MAP International recently began a partnership with The Carter Center to provide mental health medicines and supplies to the Liberian Ministry of Health. These medications are distributed to hospitals, health centers, and clinics (public and private) throughout Liberia, where there are trained mental health clinicians.

ABOUT JIMMY CARTER

JIMMY CARTER

39th President of the United States and
Founder of The Carter Center

Jimmy Carter served as president from January 20, 1977 to January 20, 1981. In 1982, he became University Distinguished Professor at Emory University in Atlanta, Georgia, and founded The Carter Center. Actively guided by President Carter, the nonpartisan and nonprofit Center addresses national and international issues of public policy. Carter Center staff and associates join with President Carter in efforts to resolve conflict, promote democracy, protect human rights, and prevent disease and other afflictions. The Center has spearheaded the international effort to eradicate Guinea worm disease, which is poised to be the second human disease in history to be eradicated.

On December 10, 2002, the Norwegian Nobel Committee awarded the Nobel Peace Prize for 2002 to Mr. Carter “for his decades of untiring effort to find peaceful solutions to international conflicts, to advance democracy and human rights, and to promote economic and social development.”

ABOUT ROSALYNN CARTER

ROSALYNN CARTER

Former First Lady of the United States and
Founder of The Carter Center

Former First Lady Rosalynn Carter has worked for more than four decades to improve the quality of life for people around the world. Today, she is a leading advocate for mental health, caregiving, early childhood immunization, human rights, and conflict resolution through her work at The Carter Center. A full partner with the president in all the Center's activities, the former first lady is a member of the Carter Center Board of Trustees. She created and chairs the Carter Center's Mental Health Task Force, an advisory body of experts, consumers, and advocates promoting positive change in the mental health field.

Mrs. Carter emerged as a driving force for mental health when, during the Carter administration, she became active honorary chair of the President's Commission on Mental Health, which resulted in passage of the Mental Health Systems Act of 1980.

**THE BILL FOEGE GLOBAL
HEALTH AWARDS
EVENT PARKING PASS
Wednesday, May 9th 2018**

PLEASE PLACE THIS CARD ON YOUR DASHBOARD TO ENTER THE SECURITY GATE AND BE PREPARED TO SHOW PHOTO IDENTIFICATION TO THE GUARD.

DIRECTIONS

(Address for GPS: 1220 Woolman Place, Hapeville, GA 30354)

TRAVELING NORTH ON I-85:

Traveling north on I-85, take the Virginia Avenue exit (73A). Turn right off of the exit to merge onto Virginia Avenue. Go approximately 2 miles and turn right onto Rainey Avenue, which turns into Woolman Place. The Delta Air Lines East Gate will be the first Delta entrance on your right, near the Boeing 747 & 757 aircraft.

TRAVELING SOUTH ON I-85:

Traveling south on I-85, take the Loop Road exit (74). Continue straight off the exit onto Woolman Place. The Delta Air Lines East Gate will be the third Delta entrance on your left, near the Boeing 747 & 757 aircraft.

Subject: RE: Hill calls & meetings

Can we have a few new time slots so CDC/W and OA can schedule more 15 min calls for members we will not be able to meet in month one? Hoping 4/11 provides some opportunity.
Thanks

Dr. Redfield would be available:

4/3 11:15-11:30 a.m.
4/4 2:00-2:30 p.m.
4:45-5:00 p.m.

Let's start with these.

Thanks

Subject: RE: Hill calls & meetings

Hi Sherri,

Below is the consolidated OA and CDC/W list of the first 15-20 recommended member calls for Dr. Redfield. We put the list in priority order but know that we may need to flex a little given member availability (i.e. scheduling).

A few notes about the list:

- Does not include those calls that Dr. Redfield is doing this week (Isakson, Blunt).
- Does not include those members we are looking to schedule in person meetings April 9 and 10 (Isakson, Alexander, Blunt, Murray, and Cole. Possibly, B. Carter and Graves – if time).
- Does not include Rogers since Dr. Redfield is meeting with him at Rx Summit.

Let us know if you have any questions. We look forward to working with Scott and team to get these calls scheduled.

Thanks,
Jen and MW

Recommended Member Call List

- DeLauro (D-CT) – Ranking, LHHS
- Durbin (D-IL), LHHS
- Walden – (R-OR) – E&C Full Committee
- Pallone (D-NJ) – E&C Full Committee
- Moran (R-KS), LHHS
- VanHollen (D-MD), SFOPs, I&E
- Burgess (R-TX) – E&C/Health Subcommittee
- Moolenaar (R-MI), LHHS
- Green (D-TX) - E&C/Health Subcommittee
- Shelby (R-AL), LHHS
- Schatz (D-HI), LHHS
- Capito (R-WV), LHHS
- Harper (R-MS) – E&C/O&I
- Degette (D-CO) - E&C/O&I
- Roby (R-AL), LHHS

Subject: Hill calls & meetings

All,

We reviewed the lists provided by CDC/W & OA today.

Dr. Redfield/Kyle's first chance for in-person meetings will be April 9 (2-5pm) and April 10 (morning through 12pm). The tier one list for in person meetings are: Isakson, Alexander, Blunt, Murray, and Cole. Kyle and I discussed B. Carter and Graves as well, if there's time. Can you please work to schedule these, update ASL & ASFR, and loop back w/ the scheduling team?

In addition, Dr. Redfield will start making 1x1 phone calls to members this week. Can you put a list together of the first 15-20 recommended member calls? We will work with Scott to block time for these and initial partner calls.

Happy to discuss tomorrow, if helpful.

Thanks, Sherri

Subject: CDC Director Dr. Redfield RE: Phone Call Request with Dr Benjamin and CDC Director Dr Redfield

Hello Tracie Strength !

It is good to meet you via your email below. We appreciate your contacting us.
Dr. Benjamin looks forward to a 30-min call and speaking with CDC Director Dr. Robert Redfield.

As indicated in the options you listed below, he is available:

- April 3rd 1:15-1:45 pm ET YES
- April 16th from 2:00-2:30 pm ET YES
- April 18th from 9:30-10:00 am ET YES

When you send the calendar invite, please note to use our conference call dial-in number 1-800-537-1097 passcode: (b)(6) in case Dr. Redfield and Dr. Benjamin need other staff to join.

Thank you very much.

Subject: Phone Call Request with Dr Benjamin and CDC Director Dr Redfield

Donna,

My name is Tracie Strength and I support the CDC Director, Dr. Redfield. We are reaching out to see if we could schedule a call in the next couple of weeks with Dr. Benjamin and Dr. Redfield for about 30 mins. Dr. Redfield currently has the following dates and times available. Please let me know if any of these work with Dr. Benjamin's schedule. We greatly appreciate your time and assistance, please let me know if there is any further information you need from us.

- April 3rd 1:15-1:45 pm
- April 16th from 2:00-2:30 pm

- April 18th from 9:30-10:00 am

Respectfully,

Tracie Strength

Hi Teresa,

Dr. Redfield wants to have a 30 min call with Peter Salama at WHO sometime next week. Can you please reach out to Peter's Chief of Staff and EA to help arrange the call. Topic is Ebola in DRC. You can list me as SA and add Hugh to call as well.

Keep in mind the time difference since Peter is in Geneva.

Chief of Staff: KENNEY, Erin Maura <kenneye@who.int>;
EA: FARES, Christine Youssef <faresc@who.int>

Hi Christine,

Thank you so much for your prompt response.

Unfortunately, Dr. Redfield is attending a Memorial Service at that time.

We may be able to schedule from 12:30-1:00 p.m. Eastern (18:30 Geneva time), but I will need to make sure we can, if this would work for Dr. Salama.

Let me know.

Best,
Teresa

Greetings Erin and Christine,

I hope you both are doing well.

Per the email below from Dr. Salama, would Dr. Salama be available for a 30 minute call on Friday, June 15th from 10-10:30 a.m. Eastern?

If this time is unacceptable, could you offer some dates and times next week that Dr. Salama would be available?

Thank you for your consideration.

Best,
Teresa

Attachments: Meeting with the Director, Missouri Dept. of Health and Senior Services.pdf

Teresa,

Here's the one we talked about earlier. Let me know when you schedule the call and then I'll pass to ES for formal notification. His contact info is on the attached invite. Thank you!

Jeremy

Meeting with the Director, Missouri Dept. of Health and Senior Services

Randall W. Williams, MD, FACOG (MO Dept. of Health and Senior Services [DHSS])

TBD

Jefferson City, MO (DHSS)

? Meet with Randall W. Williams, MD, FACOG, during a MO visit. The oversight for the DHSS comes from the director, who is responsible for the management of the department and the administration of its programs and services.

? Dr. Williams is an obstetrician and gynecologist who graduated from the Univ. of NC with Honors in History and Zoology and received his medical training at UNC where he was a Holderness Fellow. He was appointed by Gov. Eric Greitens to serve in his Cabinet as Director of DHSS and was subsequently and unanimously confirmed by the MO Senate on 3/9/17. He believes a fundamental tenet of effective leadership is to be readily available and accessible, and he has visited all of Missouri's 115 counties to listen and learn from all of Missouri's citizens.

Georgia Moore (OSTLTS): isn't a priority but OSTLTS will strategize on planning a good state-based site visit in general, if the Director goes.

Yes to a visit sometime later

Schedule phone call first within two weeks; we'll weigh options for visit afterwards

Good afternoon Debbie,

I hope you are doing well.

Would it be possible to start call at 4:15 p.m. CT (5:15 p.m. ET) on Wednesday, June 20th?

Thank you for your consideration.

Best,
Teresa

Hi Debbie,

Are you confirming 6/20 from 5-5:30 p.m.?

If yes, Dr. Redfield will call Dr. Williams directly.

Thank you so much for your patience.

Best,
Teresa

Good afternoon Ms. Mebruer,

Unfortunately Dr. Redfield has a conflict at that time.

Would it be possible to reschedule the call on Friday, June 15th from 5-5:30 p.m. Eastern?

Also, could you please provide a number to reach Dr. Williams?

My apologizes for any inconvenience.

Kind Regards,

Teresa Williams

Good morning Juanita,

Just following up.

Do you think we can confirm the meeting on June 11th from 8:30-9:00 a.m.?

Thanks,
Teresa

Hi Teresa,

Let me check with Dr. Sigounas on the 8:30am time on June 11. Since we are located outside of DC we need to allow time to get downtown with rush hour traffic. The June 25th time looks best for us, but let me check and get back to you. Can you hold both of those times. I may not get back today, but will as soon as possible.

Thank you,

Juanita Grabner

Hi Juanita,

We may have some difficulties securing a time on May 15th.

Dr. Redfield has a conflicts at the times you offered on June 11th.

Would it be possible to schedule a meeting on June 11th from 8:30-9:00 a.m.?

If not, what about June 25th from 12:30-1:00 p.m.?

Thanks so much for your time and consideration.

Best,
Teresa

Hi Teresa,

I still don't have a firm answer about Dr. Sigounas' schedule for next Tuesday, May 15. What time, if any, do you have open that day? I can see if we can accommodate Dr. Redfield's schedule. Or, we can look at Monday, June 11. Dr. Sigounas is downtown every Monday for meetings 9:30-12:15 (9:30-10; 10-10:30 and 11:30-12:15). Any chance of time 10:30-11:30 or 12:30?

Thanks,

Teresa,

Dr. Sigounas is scheduled to speak on May 15, 10:45-11:30am and I don't know how much time he wants to stay for this HRSA regional event. Until, I can talk to him, I don't want to commit. Could we either go back to May 14 in the afternoon or wait until I know about May 15. I think Dr. Sigounas would like to meet with Dr. Redfield as soon as possible.

Thank you,

FYI—I am not in the office next Monday, but will be back first thing on Tuesday, May 8.

I understand.

One of the meetings that Dr. Sigounas has every Monday at HHH is 11:30-12:15pm, so 11:30 is not good. Let me look at May 15 and get back to you. He is actually going to be at Humphrey that day attending a HRSA meeting, but we don't have the times locked up yet. That might work.

Dear Tracie,

George will be travelling that day, but may answer the call in the evening. If April 19th is the earliest time convenient for Dr Redfield, let's mark it for them, I will confirm with you the exact time for George one week before 19th , probably around 9 am/pm (Atlanta/Beijing) that day.

Many thanks.

Doris

Tracie,

How about next Tuesday or Wednesday morning, say 8:30 or 9:00 EST (8:30 or 9:00 pm in Beijing). George can be reached at his mobile (b)(6) since he won't be in office then.

Let me know which time fits Dr Redfield's schedule better.

Subject: FW: Hill calls & meetings

All,

Step one is underway... first round of hill meetings will be scheduled April 9 (2-5pm) and April 10 (morning through 12pm).

Next, Dr. Redfield asked for a call with the SHOs. See separate email, suggesting Apr 6 while in DC.

Finally, we need a block time needed for member and partner calls over this week and next. These will be 15 min introductory calls.

I have a partner list started based on our meeting today:

- Judy Monroe, CDC Foundation
- Georges Benjamin, APHA
- Michael Frasier, ASTHO (tentative Apr 6 400-415)
- John Auerbach, TFAH
- Scott Becker, APHL
- Others TBD

I think the scheduling team can do these directly, please discuss with Kyle tomorrow.

CDC/W and OA will work on the member calls once you identify the block of time we should use.

Thanks,
Sherri

Subject: Hill calls & meetings

All,

We reviewed the lists provided by CDC/W & OA today.

Dr. Redfield/Kyle's first chance for in-person meetings will be April 9 (2-5pm) and April 10 (morning through 12pm). The tier one list for in person meetings are: Isakson, Alexander, Blunt, Murray, and Cole. Kyle and I discussed B. Carter and Graves as well, if there's time. Can you please work to schedule these, update ASL & ASFR, and loop back w/ the scheduling team?

In addition, Dr. Redfield will start making 1x1 phone calls to members this week. Can you put a list together of the first 15-20 recommended member calls? We will work with Scott to block time for these and initial partner calls.

Happy to discuss tomorrow, if helpful.

Thanks, Sherri

Thank you so much for the quick response. I've also copied Dr Redfield's scheduled to get a call scheduled in the next couple of days.

For the topic, he's interested in having a one on one conversation with you to get your insight on relations with tribes for an effort he's starting to work on with Adm Giroir. He'll provide you with more information, but this initial information will not require any SMEs.

Thanks again!
Amanda

Hi Amanda. I am copying Denise Turk, who can help to find us a date/time for this call. Do you know the topic that he would like to discuss, so that I can ensure subject matter expertise availability if needed. Thank you.

Michael

Hi RADM Weahkee,

I hope this finds you well. This is Amanda Street, (b)(6)
(b)(6) As you know, I have recently moved to Atlanta to work at the CDC.
Dr Redfield would like the opportunity to speak with you in the next day or two.

Is there a good time and number for him to call to connect?

Thank you so much!
Amanda

Subject: Dr. Redfield call with Durbin - May 8
Importance: High

Hi Friends,

Senator Durbin is sorry that he had to cancel tomorrow's meeting with Dr. Redfield.

He is available for a call at 12pm on Tuesday, May 8.

May we confirm.

Thanks,

MW

Michelle M. Wilson, MSW

Subject: IMPT: Today's call w/ Sen. Durbin at noon
Importance: High

Hi all,

Sorry to email everyone.

Senator Durbin's office just emailed. **Need to cancel today's call with Dr. Redfield at 12pm.**

The Senator (b)(6)

He's very sorry to have to cancel the call at the last minute. Would like to talk with Dr. Redfield later this week if he has time.

Thanks,
MW

Michelle M. Wilson, MSW

Subject: 15min call w RM today

Hi Theresa and Tracie,

During the last Secretary's meeting in DC PEPFAR came up as the major topic for next week. In order to appropriately frame the information it would be good for Dr. Redfield has have a quick chat with Dr. Martin about what he thinks the priorities are to communicate, today if possible. Please include Ashley and I for awareness.

Ashley, apparently there was some confusion about drug pricing and how PEPFAR was able to reduce costs. R3 wants to keep future AMA briefing limited to 1-2 substantive topics and this on the agenda for next week.

Thanks,

Hugh

Hi Tracie,

Just heard from Chairman Cole's office. The first available this week that the Chairman can speak with Dr. Redfield is 3pm on Friday (June 22).

I know this is at the end of the Walter Reed event. Any possible way we might be able to make it happen? Call would be 15 minutes.

Thanks,
MW

Hi Jenny,

Yes, that would be fine.

I'm moving the call to 2-2:15 p.m. on 4/13.

Thanks,
Teresa

T&T,

Can you add 10 minutes just after the listening session with country directors on Monday to his calendar for "Conversation on Research in Western Kenya."

No need to invite others, we just want to make sure it's reflected on his agenda for the day.

Thanks!

Ashley

Hi Scott...

This is great news! The lineup you pose will work perfectly.

I'll lock this in with our chairman and our CDCF staff.

I am the POC for the Roundtable. We'll begin framing up the agenda now.

I'm traveling this week and will be back in action next week.

Many thanks for your help!

Subject: Corporate Roundtable - April 18 and April 19

Scott...

Thanks for your time by phone just now!

I'm writing to ascertain availability for Anne Schuchat or Steve Redd for the Corporate Roundtable dinner on the evening of Wed., April 18, 2018 and provide brief remarks (Location TBD);

and subsequently for Anne Schuchat to speak to the group on Thursday, April 19 over a working lunch – perhaps 11:45 am or noon until 1:00 – 1:15 pm.

Will you please advise regarding these possibilities? I'm happy to complete forms, etc as you indicate are helpful.

Sincerest thanks!

Chloe

LEADERSHIP BIOS

BD

Gary Cohen, MBA
Executive Vice President, Global Health, BD
President, BD Foundation
Board Member and Past Board Chair, CDC Foundation
Chair, Corporate/CDC Roundtable

Gary Cohen is executive vice president, Global Health at BD (Becton, Dickinson & Co), a global medical technology company with \$12 billion in global revenues and 45,000 employees operating in 180 countries and president, BD Foundation. He has served as an executive officer of the company since 1996. Cohen is board co-chair of GBCHealth and a board director of the Perrigo Company, UNICEF USA and board chair/founder of Together for Girls, a partnership to end violence against children. He served as board chair of the CDC Foundation from 2010-2014. BD and Cohen are engaged across the public, private and NGO sectors to address unmet global health needs. He serves as an advocate and expert speaker on advancing health and human rights. He has been honored for his humanitarian work by MESAB (Medical Education for South African Blacks), B'nai B'rith International, UNICEF USA, the Dikembe Mutombo Foundation, the American Jewish Committee and the Nyumbani Home for HIV positive children in Kenya. Cohen- holds a BA and MBA from Rutgers University.

UPS

Kent C. "Oz" Nelson
Former Chairman and CEO, United Parcel Service
Founding Chair, Corporate/CDC Roundtable on Global Health Threats
Former Chair and Member, CDC Foundation Board of Directors

Kent C. "Oz" Nelson is the retired chairman and chief executive officer of United Parcel Service, a position he held from November 1989 to December 1996. Nelson is on the board of directors of the CDC Foundation, having served as chairman of the Board from 2002 to 2005. A native of Kokomo, Indiana, Nelson received a Bachelor of Arts degree in Business Administration from Ball State University. Nelson began his UPS career in customer service two days after his college graduation. In 1962, he was appointed Indiana district customer service manager. After several other district and regional assignments, Mr. Nelson was promoted to the company's corporate office in 1973, where he assumed national customer development responsibilities. He was also a member of the startup team that introduced UPS service in West Germany in 1976. He has served as customer group manager, finance manager and chief financial officer and in 1983, was elected a UPS director and senior vice president. He then became vice chairman before assuming the top post at UPS.

PARTICIPANT BIOS

Amgen

Steven Galson, MD, MPH
Senior Vice President, Global Regulatory Affairs and Safety

Dr. Steven K. Galson, senior vice president, Global Regulatory Affairs and Safety, joined Amgen in 2010 as VP, Global Regulatory Affairs. Prior to Amgen, Galson was senior vice president for Civilian Health Operations and chief health scientist at Science Applications International Corporation. Galson spent more than 20 years in government service, including two years as acting Surgeon General of the United States. Previously, he served as director of the Food and Drug Administration's (FDA) Center for Drug Evaluation and Research (CDER), where he provided leadership for the center's broad national and international programs in pharmaceutical regulation. Galson began his Public Health

Service (PHS) career as an epidemiological investigator at CDC after completing a residency in internal medicine at the Hospitals of the Medical College of Pennsylvania.

Bank of America

Stan Stavro, CBCP
Senior Vice President, Global Business Continuity & Recovery

At Bank of America, Stan Stavro is responsible for external/industry engagement; enterprise business continuity scenario-driven exercises (internal and external to the bank); emerging risk identification / treatment; and the Employee Unavailability Effect Team, a designated enterprise response team responsible for employee impacts at the crisis-potential level. Earlier in his career, Stavro was at the Federal Reserve Bank of Atlanta and at the John H. Harland Company (former Atlanta-based Company). Stavro received his Bachelor of Science in Industrial Management with a minor in Economics from the Georgia Institute of Technology and has attended graduate studies at Cornell University (Executive Development Program) and Georgia State University (Executive MBA Program).

Bayer Corporation

Ray Kerins, MS
Senior Vice President and Head of Communications, Government Relations & Policy

Ray Kerins manages all communications, government relations, policy and advocacy for Bayer Corporation. He oversees the Bayer U.S. Foundation, is a member of the Bayer U.S. Country Council. He serves as vice-chair of Bayer's political action committee. Previous positions held by Kerins include vice president of external affairs & worldwide communications for Pfizer; executive director of public affairs for Merck & Co.; and executive vice president/managing director at GCI Group. He also held several senior-level positions at Porter Novelli. Kerins is the recipient of many company and industry awards, including the "2017 In-House Professional Award" by PR Week Magazine. Kerins holds a master of science and bachelor of arts degree from Iona College.

Cargill, Inc.

Mike Robach
Vice President, Corporate Food Safety, Quality & Regulatory

Michael Robach joined Cargill in January of 2004 to lead the company's corporate food safety and regulatory affairs programs. Since that time, Robach has increased the department's scope to include animal health and quality assurance. He continues to refocus the department toward global efforts in line with Cargill's vision of being the global leader in nourishing people. Robach started his career with Monsanto Company. Prior to joining Cargill, he headed up technical services for Conti Group's meat and poultry businesses.

Robach is a graduate of Michigan State University and Virginia Tech. He is past president for Safe Supply of Affordable Food Everywhere (SSAFE), chairman of the board of directors of the Global Food Safety Initiative (GFSI), a member of the Scientific and Regulatory Affairs Council Executive Committee for the Grocery Manufacturers Association, and a member of the U.S. Poultry and Egg Association's Research Advisory Committee.

Citigroup

Lori Zimmerman, MD
Corporate Medical Director

Lori Zimmerman directs the operations of nine on-site medical clinics and thirty staff members nationally for Citigroup; develops and manages Live Well at Citi, the company's global health and wellness initiative; provides global health services for expatriate staff and international business travelers; serves as the primary medical advisor for all US regulatory compliance and global health preparedness and policy; and provides patient care. She joined Citi in 1989.

Zimmerman has an undergraduate degree from the University of Pennsylvania and an MD from the Mount Sinai School of Medicine. She completed her residency in Internal Medicine at Lenox Hill Hospital in New York City.

CSX Corporation

Craig Heligman, MD, MS
Assistant Vice President and Chief Medical Officer

Craig Heligman has been employed with CSX Transportation since 2012. He has been a consultant for other Class I railroads including Union Pacific Railroad and Kansas City Southern Railroad since 1998. Heligman's past positions include Director of Employee Health at University of Kansas Medical Center, Medical Director for Hallmark Cards, 2nd Vice President and Medical Director for Fortis Benefits Insurance, and has provided direct patient care and consultative occupational medicine services throughout his career.

Heligman holds a BA in Biology from the University of Missouri – Columbia, a Master of Science in Health Sciences from Purdue University, and an MD from St. Louis University Medical School. He completed his residency in Occupational Medicine at Methodist Hospital in Indianapolis, Indiana and is Board Certified by the American Board of Preventive Medicine in Occupational Medicine.

Exxon Mobil Corporation

Deena L. Buford, MD

Global Medical Director, Medicine and Occupational Health Department

Deena Buford leads the department at Exxon Mobil Corporation that delivers services to over 80,000 ExxonMobil and affiliate employees worldwide. In addition to traditional work-related occupational health services, their service portfolio includes emergency response, travel medicine, industrial hygiene, drug testing, infectious disease support, and health promotion services delivered across a global network of over 90 clinics.

Buford completed her undergraduate education at Duke University, obtaining degrees in Psychology and Chemistry. She attended medical school at Meharry Medical College in Nashville, Tennessee, completed a residency in Occupational Medicine, and obtained a Master's of Science in Public Health at the same institution. She is board certified in Occupational Medicine.

Malick Diara, MD, MBA, MPH

Public Health Manager, Corporate Medicine and Occupational Health (MOH) Department

Malick Diara joined Exxon Mobil Corporation in 2009 with more than 20 years of experience in international health. As a member of the MOH leadership team, his responsibilities are focused on infectious disease prevention and control in ExxonMobil workplaces, and recently, on management oversight of the Company Culture of Health Program.

Previously, Diara worked with private non-profit organizations in Washington, DC, for nine years and in West Africa for 12 years, where he supported the design, implementation and evaluation of global, national or local public health programs. Diara is a physician with a Medical Doctorate from Dakar

School of Medicine in Senegal, a Master's in Business Administration from the Paris School of Business – Institut Supérieur de Gestion, and a Master's in Public Health from Tulane University, Louisiana.

HCA (Hospital Corporation of America)

Kenneth Sands, MD, MPH

Chief Epidemiologist and Chief Patient Safety Officer

Kenneth Sands joined HCA in early 2017. Prior to this, Sands served as Chief Quality Officer at Beth Israel Deaconess Medical Center (BIDMC), where he held various positions since 1993, including Senior Vice President, Vice President of Health Care Quality, and Hospital Epidemiologist. He was also an Associate Professor of Medicine at Harvard Medical School.

Sands attended Colgate University and Dartmouth Medical School. He completed residency training in Internal Medicine at Beth Israel Hospital, Boston, and fellowship training in Infectious Disease at the Harvard Medical School joint program. During fellowship, Dr. Sands focused on hospital epidemiology and completed a Masters of Public Health degree in Epidemiology at Harvard School of Public Health.

Eunice "Jackie" Blanchard, RN, MSN

Assistant Vice President, Infection Prevention

Eunice "Jackie" Blanchard is the newly appointed Assistant Vice President, Infection Prevention, at HCA where she reports directly to the Chief Epidemiologist and Patient Safety Officer in the Clinical Services Group. Prior to joining HCA, Blanchard was system director for infection prevention at New Jersey-based Atlantic Health System. At Atlantic Health, she was responsible for the transition from a decentralized, facility-based infection prevention model to a coordinated system based program. She was the leader in reducing healthcare associated infections (HAI's) across the enterprise as well as leading the sepsis collaborative. Blanchard is a registered nurse. She received her Bachelor of Science degree in Nursing from The College of New Jersey, and her Master of Science degree in Nursing from the University of

Medicine and Dentistry of New Jersey. She is board certified in infection prevention and control, and holds a six sigma greenbelt in Process Improvement methodology.

Johnson & Johnson

Chris Lepore
Vice President, US State Government Affairs

Chris Lepore manages Johnson & Johnson's state legislative and regulatory team across the United States and Puerto Rico. He is a member of Johnson & Johnson's Government Affairs Global Leadership Team, which is responsible for setting the function's strategic direction. Formerly, Lepore served as Senior Director of State Government Affairs, for Johnson & Johnson, leading the function's Southeast Region team. He joined Johnson & Johnson in 2004 as Director of State Government Affairs with responsibility for states in the Rocky Mountain West. Before joining Johnson & Johnson he was Manager of State Government Affairs for Schering-Plough Corporation. Lepore is a graduate of the

University of Northern Colorado where he received a Bachelor of Arts Degree.

KYNE

David Kyne
Founder & CEO

David Kyne founded KYNE in 2009 to focus on connecting public and private sector organizations to address unmet global and domestic health needs. Kyne leads a rapidly growing team that works with pharmaceutical, biotechnology and medical device companies; corporate foundations; public health bodies; UN agencies and NGOs. He is an experienced speaker trainer, having prepared spokespeople from across KYNE's client portfolio. Prior to founding KYNE, he led the New York Healthcare practice at the global public relations firm Hill+Knowlton Strategies (H+K). During his tenure, he oversaw transformative practice growth managing a team that grew to 40 and leading global and domestic

engagements for clients such as Pfizer, Amgen, Merck and Johnson & Johnson. In 2009, he led a campaign for consulting firm Deloitte, which was awarded PRWeek's "Healthcare Campaign of the Year." Prior to his time at H+K, David spent five years with GCI Group in New York where he was the global relationship manager for the agency's largest client account, overseeing product and corporate public relations with a focus on the company's HIV/AIDS portfolio and therapeutic areas including hepatitis C, cardiovascular disease and urology. Kyne earned a Bachelor of Arts degree in history and politics from University College Dublin and a master's degree in public relations from the Dublin Institute of Technology.

Michele Malter Kleinmann
Senior Vice President

As senior vice president at KYNE, Michele Kleinmann oversees strategic communications for a number of the agency's non-profit clients focused on global health and health equity. She also leads the new business taskforce, working closely with the senior leadership team on new business strategy and insight generation. Kleinmann has been with KYNE since 2012 and has worked with biopharmaceutical, non-profit and government clients across multiple disease categories, including malaria, maternal health, cardiovascular disease, oncology, hemophilia and smoking cessation. She also planned a convening at The Rockefeller Foundation's Bellagio Center on improving communication during global health

emergencies, a subject that she is particularly passionate about. Prior to joining KYNE, Kleinmann was development manager at Malaria No More. Previously, Kleinmann worked at Acumen, a global non-profit venture capital fund, where she had principal responsibility for writing proposals, grant reports and partner communications relating to health, water, energy and agriculture in South Asia and East Africa.

Novartis Pharmaceutical Company

Robert S. Goldsmith, MD, MPH, FACOEM
Executive Director for Employee Health

At Novartis Pharmaceutical Company, Robert Goldsmith's responsibilities include oversight of occupational health, emergency medical services, acute care, and wellness programs. He is currently working on novel programs that expand employer-sponsored primary medical care. Prior to his employment with Novartis, he served as Associate Global Medical Director for the General Electric Company and had been in private medical practice in his hometown of Stamford, Connecticut. Goldsmith received his medical degree from Albert Einstein College in New York, trained at Greenwich Hospital and the Yale-New Haven Medical Center, and earned his Master's Degree in Public Health from the University of Connecticut. He is a clinical instructor in the Department of Medicine at Columbia University. In addition to his corporate career, Dr. Goldsmith is team physician for Stamford's high school athletes and has published on occupational risk among marijuana users, innovations in primary prevention and exercise-induced asthma.

Pfizer, Inc.

Nicole L. Shaffer, DNP, CRNP-BC, COHN-S, FAAOHN
Director of Occupational Health & Wellness

Nicole Shaffer oversees all operations for the Occupational Health Clinics, Disability program, Global health Threats, and Healthy Pfizer and is based out of Collegeville, PA. Shaffer has been with the company for 16 years.

RB (Reckitt Benckiser)

Hal Ambuter
Senior Director, Regulatory and Government Affairs

Hal Ambuter serves as senior director of regulatory and government affairs at RB, a position he has held since May 2017. He was previously director of regulatory and government affairs, North America. He has a B.S in Chemical Engineering and has worked in Product Development for Procter & Gamble and B.F. Goodrich. His current responsibilities include ensuring that the company's products are in full compliance with all federal, state, and local regulations and working with various government agencies on new regulations.

Lynn Kenney
RB Head of Corporate Communications, North America

Lynn Kenney serves as communications officer for RB North America as well as support for global communications as needed. She is the charity lead for North American Corporate Social Responsibility efforts including strategic oversight for RB's partnership with the local branch of its global charity, Save the Children, raising approximately \$1.3 million each year. As RB's "cheer officer" she is also responsible for developing strategic and fun opportunities for employees to engage with the RB culture and each other.

UPS (United Parcel Service)

Janice Hartgens, BS, BA, RN
Director of Occupational Health and Wellness

Janice Hartgens leads and oversees the global occupational health strategy and implementation for UPS employee wellness, strategies with Corporate Health and Safety Process (CHSP), injury prevention, and cost containment. In this role, she develops cost-effective health and safety services for UPS's employees that align with the company's global strategy and business plan. Hartgens also manages processes related to health and safety, wellness, UPS's policies, and regulatory agencies' protocols and laws.

Walgreens

Rick Gates
Senior Vice President of Pharmacy and Health Care

Rick Gates serves as senior vice president of pharmacy and healthcare, overseeing commercial development and sales, contracting, pharma development, pharmacy supply chain, and clinical programs and alliances. He formerly served as group vice president for pharmacy prior to his recent promotion in January 2018 and has held a number of leadership roles at Walgreens.

After joining Walgreens as a pharmacist and pharmacy manager in 1995, Gates spent most of his career at the company in store and pharmacy operations before joining Walgreens support office. He became executive pharmacy director of western operations in June 2009 and, while in that role, was responsible for pharmacy integration during the Duane Reade acquisition. He also led a team ensuring operational enablement and execution of strategic programs. He currently serves as a board member of the National Association of Chain Drug Stores Foundation and the University of Iowa College of Pharmacy Leadership Board, and he's an active member of the American Pharmacists Association, National Council for Prescription Drug Programs and National Specialty Pharmacy Association.

Walmart

Betsy Hall, MS
Director, Global Public Policy

Betsy Hall manages policy initiatives on Health & Wellness and Associate Benefits at Walmart and joined the company in 2014. As a member of the Global Public Policy team, she is responsible for helping set legislative strategy and regulatory policy at the federal, state, and local level for Walmart and Sam's Club.

Previously, Hall served as Director of Government Relations and External Affairs for Centene Corporation in South Carolina. She has also served as Legislative Assistant to United States Senator Richard Durbin in Illinois. Hall holds a Bachelor of Business Administration from Southern Illinois University-Edwardsville and a Master's of Political Science from Southern Illinois University-Carbondale.

The Walt Disney Company

Lori Schwartz, MD
Director, Global Medical Operations

At the Walt Disney Company, Lori Schwartz directs medical operations, which is part of Corporate Crisis Management. She chairs the Medical Advisory Committee for the Enterprise, coordinates a variety of occupational and wellness programs, supervises 4 medical clinics with nurses and a coordinator.

Previously, Schwartz was the Chief Medical Officer for the U.S. Merchant Marine Academy (USMMA), employed by North Shore Hospital, from 1996 to 2002. She served as the primary care provider for all of the students there and supervised a staff of nurses and physician assistants. Schwartz has an undergraduate degree from the State University New York at Stony Brook, attended the State University of New York at Brooklyn medical school, and completed her medical residency training at North Shore Hospital in Manhasset, NY.

CDC PRESENTER BIOS

Robert R. Redfield, MD
Director, CDC

Robert R. Redfield, MD, is the 18th Director of the Centers for Disease Control and Prevention (CDC) and Administrator of the Agency for Toxic Substances and Disease Registry. He has been a public health leader actively engaged in clinical research and clinical care of chronic human viral infections and infectious diseases, especially HIV, for more than 30 years.

He served as the founding director of the Department of Retroviral Research within the U.S. Military's HIV Research Program, and retired after 20 years of service in the U.S. Army Medical Corps.

Following his military service, he co-founded the University of Maryland's Institute of Human Virology with Dr. William Blattner and Dr. Robert C. Gallo and served as the Chief of Infectious Diseases and Vice Chair of Medicine at the University of Maryland School of Medicine.

Dr. Redfield made several important early contributions to the scientific understanding of HIV, including the demonstration of the importance of heterosexual transmission, the development of the Walter Reed staging system for HIV infection, and the demonstration of active HIV replication in all stages of HIV infection.

In addition to his research work, Dr. Redfield oversaw an extensive clinical program providing HIV care and treatment to more than 5,000 patients in the Baltimore/Washington, D.C. community. Dr. Redfield served as a member of the President's Advisory Council on HIV/AIDS from 2005 to 2009, and was appointed as Chair of the International Subcommittee from 2006 to 2009.

He is a past member of the Office of AIDS Research Advisory Council at the National Institutes of Health, the Fogarty International Center Advisory Board at the National Institutes of Health, and the Advisory Anti-Infective Agent Committee of the Food and Drug Administration.

Anne Schuchat, MD (RADM, USPHS)
CDC Principal Deputy Director

Anne Schuchat, MD, began her public health career in 1988 when she came to CDC as an Epidemic Intelligence Service officer. She is currently CDC principal deputy director, a role she has held since September 2015. She served as acting CDC director from January-July 2017 and was director of CDC's National Center for Immunization and Respiratory Diseases from 2006-2015. Other CDC leadership posts include: acting director of the Center for Global Health (2012-13) and the National Center for Infectious Diseases (2005) as well as Chief of the Respiratory Diseases Branch (1998-2005). Dr. Schuchat was the initial medical director of ABCs – the Active Bacterial Core surveillance of the Emerging Infections Program Network and spearheaded prevention of newborn infection from group B streptococcal disease in the 1990s. She was promoted to Rear Admiral in the Commissioned Corps of the United States Public Health Service in 2006 and earned a second star in 2010. Dr. Schuchat was elected to the National Academy of Medicine (formerly the Institute of Medicine) in 2008.

Dr. Schuchat has played key roles in a number of CDC emergency responses. Most notably, she served as Chief Health Officer for CDC's 2009 H1N1 pandemic influenza response; led the CDC team responding to the SARS outbreak in Beijing in 2003; and supported the Washington D.C. field team during the 2001 bioterrorist anthrax response.

Globally, Dr. Schuchat has worked in West Africa on meningitis, pneumonia, and Ebola vaccine trials; in South Africa on surveillance and prevention projects, and represented technical and health research institutes on the GAVI Alliance board. She has authored or co-authored more than 230 scientific articles, book chapters, and reviews. Her contributions have been recognized by receipt of USPHS Meritorious Service Medals, the American Public Health Association's Maternal and Child Health Young Investigator Award, the USPHS Physician Research Officer of the Year, and an Honorary Doctorate in Science from Swarthmore College. Dr. Schuchat graduated with highest honors from Swarthmore College and with honors from the Geisel School of Medicine at Dartmouth and completed her residency and chief residency in internal medicine at NYU's Manhattan VA Hospital.

Sherri A. Berger, MSPH
Chief Operating Officer

Sherri A. Berger, MSPH, became Chief Operating Officer of the Centers for Disease Control and Prevention (CDC), one of 10 major operating divisions of the Department of Health and Human Services (HHS), in August 2011. As COO, she oversees management, facilities, and operations at the Atlanta-based public health agency. She provides substantial strategic direction for CDC's workforce and budget, while ensuring CDC has proper resources to fulfill its critical work to save lives and protect people from health threats. Specifically, Berger manages CDC's budget; oversees facilities design, maintenance, security, management analysis, and safety and personnel security; leads acquisitions, contractual assistance and grants; manages information technology and security; and directs human resources strategy, training, and workplace development.

Berger is a manager with extensive experience at both the program and senior leadership level. She began her federal career in 1996 as one of four graduate students selected nationwide to participate in the CDC/Association of Schools of Public Health Experimental Learning Program. Berger worked as an epidemiologist at the community level until moving to CDC headquarters in Atlanta to serve as a principal epidemiologic investigator. As a result of her management at the program level, she was nominated to participate in the Senior Executive Service Candidate Development Program, where she expanded her career into business management. Berger has held several leadership positions at CDC, including associate director for formulation, evaluation, and analysis in CDC's Financial Management Office, deputy director of one of CDC's national centers, and director of the agency's Recovery Act Coordination Unit.

Berger received her bachelor's in political science from the University of Florida and a master's of science in public health with a concentration in epidemiology from the University of South Florida.

Coleen Boyle, PhD, MSHyg

Director, National Center on Birth Defects and Developmental Disabilities (NCBDDD)

Coleen Boyle serves as Director of the National Center on Birth Defects and Developmental Disabilities (NCBDDD) at CDC. Dr. Boyle began her career at CDC in 1984 as part of a large effort to study the adverse health effects of exposure to Agent Orange, a herbicide used during the Vietnam War. Following that project, Dr. Boyle joined CDC's work in birth defects and developmental disabilities holding various positions of increasing responsibility until her appointment as Center Director in 2010.

Dr. Boyle has twice received CDC's highest award for scientific excellence, the Charles C. Shepard Award for outstanding scientific publication and has authored or co-authored many peer-reviewed and other scientific publications.

Debra Houry, MD, MPH

Director, National Center for Injury Prevention and Control (NCIPC)

In this role, Dr. Houry leads innovative research and science-based programs to prevent injuries and violence and to reduce their consequences. She joined the CDC in October 2014. She has previously served as Vice-Chair and Associate Professor in the Department of Emergency Medicine at Emory University School of Medicine and as Associate Professor in the Departments of Behavioral Science and Health Education and in Environmental Health at the Rollins School of Public Health. Dr. Houry also served as an Attending Physician at Emory University Hospital and Grady Memorial Hospital and as the Director of Emory Center for Injury Control. Her prior research has focused on injury and violence prevention in addition to the interface between emergency medicine and public health, and the utility of preventative health interventions and screening for high-risk health behaviors. She has received several national awards for her work in the field of injury and violence prevention.

Dr. Houry also served as an Attending Physician at Emory University Hospital and Grady Memorial Hospital and as the Director of Emory Center for Injury Control. Her prior research has focused on injury and violence prevention in addition to the interface between emergency medicine and public health, and the utility of preventative health interventions and screening for high-risk health behaviors. She has received several national awards for her work in the field of injury and violence prevention.

Hamid Jafari, MD

Principal Deputy Director, Center for Global Health

Dr. Jafari is currently serving as the Principal Deputy Director, Center for Global Health, at the Centers for Disease Control and Prevention (CDC). He was previously the Director of Global Polio Eradication at World Health Organization Headquarters, Geneva, and the overall leader of the Global Polio Eradication Initiative through February 2016. Prior to that appointment, Dr. Jafari served as the project manager of World Health Organization's (WHO's) Nation Polio Surveillance Project in India from 2007-2012. As the project manager, he was the main technical advisor to the government of India in the implementation of the nation's large scale polio eradication, measles control, and routine immunization activities, and he directed WHO's extensive network of more than 2000 field staff. Dr. Jafari previously served as Director of the Global Immunization Division in the Center for Global Health at CDC. He also served as the Medical Officer for Polio Eradication in WHO's Eastern Mediterranean regional office in Egypt on assignment from CDC.

Dr. Jafari is a graduate of CDC's Epidemic Intelligence Service (EIS) program, class of 1992. He obtained his MBBS degree from Sind Medical College, Karachi University. He completed his residency training in Pediatrics at Dartmouth Medical School and his Pediatric Infectious Disease fellowship training at University of Texas Southwestern Medical Center, Dallas, TX. Dr. Jafari completed a research fellowship at Harvard Medical School. He's certified by the American Board of Pediatrics in the sub-specialty of Pediatric Infectious Diseases. Dr. Jafari has published more than 70 scientific papers and book chapters on pathogenesis of infectious diseases, polio eradication, and other vaccine-preventable diseases.

Dan Jernigan, MD, MPH (CAPT, USPHS)

Director of the Influenza Division in the National Center for Immunization and Respiratory Diseases, CDC

Daniel B. Jernigan, MD, MPH, is the Director of the Influenza Division in the National Center for Immunization and Respiratory Diseases (NCIRD) at CDC. Prior to his appointment, Dr. Jernigan served as Deputy Directors for the Influenza Division from 2006 to 2014. He is a captain in the United States Public Health Service, and serves as the Senior Medical Officer and Senior Public Health Service Officer for the Influenza Division. As Director, he is responsible for oversight and direction of approximately 320 staff members working to reduce global burden of disease and death due to seasonal, animal-associated, and pandemic influenza.

Dr. Jernigan received an undergraduate degree from Duke University, a Doctor of Medicine from Baylor College of Medicine, and a Master of Public Health from the University of Texas. He is board-certified in Internal Medicine and has completed an additional residency in Preventative Medicine. Dr. Jernigan joined the CDC's Epidemic Intelligence Service in 1994, working in the Respiratory Diseases Branch on the prevention and control of bacterial respiratory pathogens, including *Streptococcus pneumoniae*, Group A *Streptococcus*, and *Legionella*. In 1996, he began serving on assignment from NCIRD to the Washington State Health Department as a medical epidemiologist and coordinator of national initiative to improve surveillance for emerging infectious diseases. Dr. Jernigan became the chief of the Epidemiology Section for CDC's Division of Healthcare Quality Promotion (DHQP) in 2001. In that role, he supervised numerous investigations and initiatives to characterize various hospital-acquired, device-associated, and antimicrobial-resistant pathogen issues. In 2006, Dr. Jernigan joined the Influenza Division as Deputy Director.

Dr. Jernigan has authored peer-reviewed articles and book chapters on various emerging infectious diseases topics, and has supervised outbreak investigations or viral, bacterial, and fungal infections associated with emerging and antimicrobial-resistant pathogens. He has led epidemiology and surveillance teams for national and international responses, including bioterrorism-related anthrax, the emergence of West Nile Virus, SARS, the 2009 H1N1 pandemic influenza, the Ebola response and public health management following natural disasters. During the 2009 H1N1 influenza pandemic, Dr. Jernigan served as the CDC lead for all domestic and international epidemiology and laboratory activities for the U.S. government's response. In 2015, Dr. Jernigan served as the Incident Commander for the CDC's global Ebola response.

Rebecca Martin, PhD

Director, CDC Center for Global Health

Rebecca Martin, PhD, is the Director of CDC's Center for Global Health (CGH). Since 2012, Dr. Martin has served as the Director for the Global Immunization Division, in CGH, which leads CDC's global polio eradication efforts, accelerated disease control for vaccine-preventable diseases, introduction of new and underutilized vaccines, and the strengthening of immunization systems.

Dr. Martin began her career with CDC in 1997 in the National Immunization Program, Epidemiology and Surveillance Division, and has held positions both domestically and globally in immunization and HIV/AIDS. Prior to joining CDC, Rebecca worked at the Maryland Department of Hygiene and

Mental Health in Baltimore Maryland as the immunization program epidemiologist leading efforts to increase vaccination coverage, conducting outbreak investigations, coordinating the development and introduction of Maryland's immunization registry, and supporting the state's Vaccines for Children Program. She also has worked at the Montgomery County Health Department in Maryland in HIV/AIDS programs for high-risk populations.

Since 1991, Dr. Martin has worked in the global health arena in Haiti, and has had CDC assignments in Kenya, Tanzania, and Denmark (2002-2011). Over the past 15 years, she has collaborated with multilateral organizations, including the World Health Organization (WHO) and UNICEF, and development partners, and has worked closely with ministries of health and non-governmental organizations.

Prior to her current position as director of GID, she was detailed to the WHO European Regional Office as the Regional Advisor for Immunization (2008-2011) for its 53 member states, where she spearheaded regional efforts to strengthen immunization and surveillance systems, provide evidence for the introduction of new vaccines, achieve the goal of measles and rubella elimination, and maintain the region's polio-free status. From 2006-2008, Dr. Martin served as Program Director for Strategic

Information and Human Resources for Health with the CDC Country Office in Tanzania. She led and implemented studies, in partnership with the ministry of health, to measure and evaluate the HIV/AIDS epidemic and strengthen national capacity. She was detailed to the WHO African Regional Office from 2002-2006, based in Kenya as the senior epidemiologist in the inter-country immunization program office for the eight east African countries; she served as the team lead from 2005-2006.

She received her Doctorate of Philosophy from the Johns Hopkins Bloomberg School of Public Health in international health and infectious disease epidemiology, conducting her research in Haiti on high-titer measles vaccines. Dr. Martin serves as a technical advisor on global advisory groups to WHO and GAVI Alliance. She has co-authored manuscripts and global guidelines on immunization strategies, vaccine-preventable diseases and surveillance methods.

Stephen Redd, MD (RADM, USPHS)
Director of the Office of Public Health Preparedness and Response (PHPR)

Stephen C. Redd, MD, has been the Director of CDC's Public Health Preparedness and Response (OPHPR) since January 2015. He served as CDC's acting principal deputy director from January to March 2018, and also is the acting CDC Deputy Director leading CDC's Office of Service and Implementation Science (proposed). Prior to these leadership posts, Dr. Redd was Director of CDC's Influenza Coordination Unit. During the H1N1 pandemic, he served as Incident Commander for the nearly year-long response.

Dr. Redd is a Rear Admiral and Assistant Surgeon General in the United States Public Health Service. He came to CDC as an Epidemic Intelligence Service Officer in 1985. He has investigated outbreaks such as Legionnaires' disease, developed strategies to control malaria, and worked to eliminate measles in the US. A graduate of Princeton and Emory universities, he received his medical degree with honors and completed Internal Medicine residency at the Johns Hopkins Hospital. Dr. Redd has authored more than 120 scientific publications and received numerous awards, including the Public Health Service Distinguished Service Medal and the Meritorious Service Medal.

CDC FOUNDATION STAFF BIOS

Judith Monroe, MD, FAAFP
President and CEO

Dr. Judith Monroe joined the CDC Foundation as president and CEO in February 2016. Over her career, Monroe's professional focus has centered on the intersection of primary care and public health. Prior to joining the CDC Foundation, Monroe worked for six years with the U.S. Centers for Disease Control and Prevention (CDC), serving as director of the Office for State, Tribal, Local and Territorial Support (OSTLTS). In that role, Monroe oversaw key activities and technical assistance that support the nation's health departments and the public health system.

Before joining CDC, Monroe served as the state health commissioner for Indiana from 2005 to 2010. She was president of the Association of State and Territorial Health Officials (ASTHO) from 2008 to 2009.

Monroe received her medical degree from the University of Maryland and B.S. from Eastern Kentucky University. She completed her residency in family medicine at the University of Cincinnati, a rural faculty development fellowship through East Tennessee State University, and a fellowship in obstetrics through the University of Wisconsin. She also participated in the Harvard University, Kennedy School of Government, State Health Leadership Initiative and received an Honorary Doctorate from Purdue University.

Chloe K. Tonney
Chief Innovation and Strategy Officer

Chloe Knight Tonney joined the CDC Foundation staff in 2002. As chief innovation and strategy officer, she is responsible for catalyzing creative partnerships that will advance the Centers for Disease Control and Prevention (CDC) mission to protect the health, safety and security of all Americans. Previously she served as senior vice president for external affairs, overseeing the private-sector engagement and program implementation activities of the Foundation. As the tactical officer for innovation and strategy, Tonney collaborates with CDC leaders, scientists and external partners to develop strategic alliances and foster innovation.

Tonney has more than 30 years of overall nonprofit advancement, strategy and management experience, with deep expertise in higher education and in building scientific public-private partnerships. She was instrumental in the formation of the CDC Foundation's first coalition-based activity—the Safe Injection Practices Coalition (SIPC), housed at the CDC Foundation since 2008—bringing together public, private and philanthropic partners to address this critical public health issue. Globally, Tonney has led a multi-sectoral effort targeted at rebuilding critical public health infrastructure in Haiti following the 2010 earthquake. She architected the Foundation's revenue mobilization strategy in response to the Ebola epidemic—the largest response in CDC history. Prior to joining the CDC Foundation, Tonney was the director of leadership gifts at Agnes Scott College in Atlanta, overseeing a six-fold growth in attracting resources and partners to the institution.

Tonney's experience includes work as a trustee, board member and board chair for local and national nonprofit organizations. She is a trustee for the College of Charleston Foundation and Georgia BIO board member. She is a member of the Association of Governing Boards of Universities and Colleges, the Council for Advancement and Support of Education (CASE), the Association of Fundraising Professionals (AFP) and Phi Beta Kappa. Tonney is the past president of the National Alpha Delta Pi Foundation, and an alumna of Leadership DeKalb. She received her bachelor's degree in political science and international relations from the College of Charleston in Charleston, S.C. and an Honorary Doctorate of Humane Letters from the College of Charleston.

Laura Angel
Vice President for Advancement

Laura Angel joined the CDC Foundation staff in 2011. As vice president for advancement, she is responsible for leading the advancement team in developing, building and implementing public-private partner strategies with national and international partners and philanthropy advocates. She helps guide the planning, coordination and implementation of all key fundraising and stewardship activities for the CDC Foundation. Angel serves as a key liaison between CDC's Office of Chief of Staff and the CDC Foundation's executive team regarding all partnership development efforts. Angel brings to the CDC Foundation team a 30-year combination of nonprofit and private sector expertise in advancement,

management and business development. Prior to joining the CDC Foundation, she served as director of development with The Children's Museum of Atlanta. Angel is a member of the Council for Advancement and Support of Education (CASE) and the Association of Fundraising Professionals (AFP). She holds a Bachelor of Business Administration with a major in finance from the University of North Georgia.

Pierce Nelson
Vice President for Communications

Pierce Nelson joined the CDC Foundation in 2012 and brings more than 20 years of communications experience to the CDC Foundation. Before joining the Foundation, he worked for the Federal Reserve Bank of Atlanta where he spent the 15 years in several communications capacities, most recently as assistant vice president and public information officer. His functional responsibilities included external communications, media relations, policy speeches, government outreach, crisis communication, web/social media and corporate identity. Prior to his work at the Fed, Nelson served in public affairs and corporate communications positions with Riverwood International Corporation and the Georgia

Department of Transportation. Nelson earned a BA in communications from Georgia State University. In addition he attended

executive development programs at the Wharton School of the University of Pennsylvania and at Columbia University's business school.

Brandon Talley, MPH
Vice President for Programs

Brandon Talley joined the CDC Foundation in 2008 and is responsible for nearly 125 employees/field employees and more than 250 programs. Prior to Talley's current role, he was the Associate Vice President for Programs – Tobacco Control. In that role, he led strategic planning, provided operational oversight, and managed external affairs for a tobacco control portfolio totaling nearly \$100 million in donor investments with operations in more than 75 countries. Talley has a bachelor's degree in science, technology, and culture from the Georgia Institute of Technology as well as a MPH degree in health policy and management from the Georgia State University School of Public Health. He is currently a PhD candidate in Public Health – Biostatistics at Georgia State University. He recently received his first National Institutes of Health and Food and Drug Administration doctoral research grant as principal investigator to study knowledge and perceptions toward electronic nicotine delivery systems among primary care practitioners.

Alison Thompson, MPA
Association Vice President for Advancement

Alison Thompson joined the CDC Foundation in 2011 as an advancement officer. She then served as director of partnerships. In 2017, Thompson was named associate vice president for advancement. In her current role, she oversees the organization's public-private partnership work, as well as continues to manage her own portfolio of public-private partnerships. Thompson was selected to participate in the Association of Fundraising Professionals Greater Atlanta Chapter Diversity Fellows Program. She has also served on the board of directors at the Albert T. Mills Enrichment Center, a nonprofit that serves preschoolers from Atlanta's toughest neighborhoods. Thompson holds a bachelor of arts degree from Davidson College and a Master of Public Administration with a concentration in nonprofit management from Georgia State University. While pursuing her degree, Thompson obtained a Certificate in Nonprofit Management/Leadership from the Nonprofit Leadership Alliance, a competency-based program focusing on nonprofit leadership skills.

Lisa Splitlog
Director, CDC Value Communications

Lisa Splitlog is a strategic communications professional with leadership experience in nonprofit and corporate sectors. Since 2009, she has implemented and managed mission-critical programs at the CDC Foundation where she currently serves as director of CDC Value Communications. Before joining the CDC Foundation, she served as an independent communications consultant, as well as a contractor for CARE USA, where she led a communications team for CARE's first global conference to end poverty in Johannesburg, South Africa. In addition to her assignments with the CDC Foundation and CARE, she has served as a senior writer and editor for leading Atlanta-based organizations including Cox Enterprises, Georgia-Pacific, Emory Rollins School of Public Health and Children's Healthcare of Atlanta. She holds a bachelor's degree in journalism from the University of Florida.

Subject: RE: Invitation for Dr. Redfield

Thank you, Tracie. CSTE is grateful that Dr. Redfield has accepted our invitation. The monthly All State Epi call uses Webex and is run by the CSTE Director of Communications, Jeremy ArieH, copied here. Jeremy will include you on all logistics related to the call on Monday, which begins at 3 PM Eastern. Dr. Redfield will be introduced by CSTE President, Janet Hamilton (FL), also copied. Can you send us Dr. Redfield's brief bio?
Best,
Jeff

Good morning, Anne.
Sorry to bother you about this, but I'm not sure who to contact at this point to see if Dr. Redfield would be available to address the State Epis on the CSTE monthly call April 23 from 3-4 PM.
Thanks for your help!
Jeff

Subject: Connects Leadership Profile Interview with Dr. Redfield

KLD requested that we reach out to you to set up a *Connects'* leadership profile interview with Dr. Redfield. Dr. Redfield has already signed off on the interview. The catch is that we are requesting to set up interview before a media training session scheduled with Dr. Redfield on May 14th. We plan on taping the interview session to support the media training with Dr. Redfield.

Our only catch is that we need to know Dr. Redfield's availability today for KLD's meeting with the Chief of Staff tomorrow to go over Dr. Redfield's upcoming communication scheduled activities.

Sorry for the last minute request.

Thanks,

Subject: RE: please finalize your date/time for the R3 interview next week. Thank you

We would like to reserve the 10:30-11:30 a.m. timeslot on Tuesday, May 8th for the leadership profile interview with Dr. Redfield. If possible, we would like to arrange for the interview to occur in the Director's Conference Room. We are exploring Broadcast Services possibly videotaping Dr. Redfield's interview with *CDC Connects*. The video will be used for a media training that is scheduled for Dr. Redfield on May 14th. We are not posting video on *Connects* as part of the story. Bryon – I am adding you as a heads up that there may be a request for Broadcast Services to videotape Dr. Redfield's leadership profile interview.

Thanks all,
Llewelyn

Executive Briefing Memo

CDC Foundation Board Dinner and Meeting May 8 – 9, 2018

PREPARED FOR CDC OFFICE OF THE DIRECTOR, DR. ROBERT REDFIELD

Tuesday, May 8, 2018 – Board Dinner:

Board Dinner Location: Cherokee Town and Country Club
Gold Room (*second floor*)
155 West Paces Road, N.W.
Atlanta, GA 30305
(404) 365-1200

Agenda:

6:00 p.m. Networking Reception

6:30 p.m. Welcome
Doug Nelson, Chair, CDC Foundation

6:45 p.m. Dinner

7:45 p.m. Remarks – Dr. Robert Redfield, CDC Director

8:00 p.m. Remarks – Judy Monroe, President and CEO, CDCF

By 8:30 p.m. Adjourn – Doug Nelson

Board Dinner Invitees: (approx. 35 – 40 guests)

- CDC Foundation Board
- Former CDC Foundation board members/chairs (Phil Jacobs; Oz Nelson; Bernie Marcus; Bob Yellowlees)
- CDC Foundation Executive Staff
- CDC Invited guests: CDC leadership from OD/OD (approx. 8)
- Atlanta- based, corporate and philanthropic leaders

Wednesday, May 9, 2018 – Board Meeting:

Board Meeting CDC Roybal Campus
Location: Tom Harkin Global Communications Center
Conference Rooms (256 – 257)
1600 Clifton Road

Objectives:

- To allow the CDC Foundation Board of Directors to have personal interaction and dialogue with the new CDC Director
- To determine short- and/or long-term interests in how the CDC Foundation Board of Directors may be most helpful to the Director and the agency
- To provide time for the CDC Foundation board to illustrate how it has added value to CDC's work and to learn of any current areas/needs where the CDC Foundation may consider providing assistance to CDC in the future

Outcomes:

- Further synchronization of institutional interactions
- Enhanced information sharing on appropriate topics and determination of communication preferences/channels
- Better informed CDC Foundation board members around key or emerging CDC priorities/issues related to CDC's needs and future directions

Draft Agenda:

8:00 a.m. – 12:00 p.m.	Board Member Executive Session
12:00 p.m.	Executive Session Recesses for Lunch
12:00 p.m. – 12:15 p.m.	Lunch Buffet Service
12:30 p.m. – 1:30 p.m.	CDC Director Dialogue [<i>Director; Chief of Staff and CDCF Board members only; other staff may be included by invitation - TBD</i>]

Suggested Topics, if helpful:

- *Views on philanthropic activities/benefits in previous roles and work – and the key benefits of those;*
- *Any early/innovative ideas on how the Foundation may consider leveraging/highlighting CDC's work and mission?;*
- *Emerging priority areas of focus/challenge/opportunity for the agency?;*
- *CDC's budget outlook as the potential FYE end approaches;*
- *Any other items that he may wish to cover or areas where the group may be helpful to CDC?*

1:30 p.m. Board Resumes Executive Session

2:30 p.m.

Wrap Up and Adjourn meeting

CDC Foundation Board Dinner Attendee Bios

David P. Abney

Chief Executive Officer, United Parcel Service, Inc.

David Abney, who began his career as a part-time package loader while in college, serves as Chief Executive Officer and Chairman of the Board of UPS. David was appointed CEO in 2014 and as Chairman in 2016.

Mr. Abney previously served as Chief Operating Officer since 2007, overseeing logistics, sustainability, engineering and all facets of the UPS transportation network. UPS's global transportation network serves more than 220 countries and territories, and includes a ground fleet of more than 96,000 vehicles and an air fleet of more than 500 aircraft. UPS operates major air hubs in Louisville, Kentucky; Cologne, Germany; and Shenzhen, China.

Before serving as COO, Mr. Abney was President of UPS International, leading the Company's strategic initiative to increase its global logistics capabilities. During his career, he was also involved in a number of global acquisitions that included the Fritz Companies, Stolica, Lynx Express, and Sino-Trans in China.

Earlier in his career, Mr. Abney served as President of SonicAir, a same-day delivery service that signaled UPS's move into the service parts logistics sector. He began his UPS career in 1974 in a small facility in Greenwood, Mississippi, while attending Delta State University.

In addition to his corporate responsibilities, Mr. Abney serves as a Trustee of The UPS Foundation, a Trustee of the Annie E. Casey Foundation, and is a member of the World Affairs Council of Atlanta as well as the Business Roundtable.

Mr. Abney joined the UPS Board of Directors in 2014, and as Chairman and Chief Executive Officer, he serves as the Chairperson of the Executive Committee.

A native of Greenwood, Mississippi, he earned a bachelor's degree in business administration from Delta State University, where he and his wife, Sherry, sponsor the school's annual symposium on international business.

Dan Amos

Chairman and Chief Executive Officer, Aflac Incorporated

Dan Amos is chairman and chief executive officer of Aflac Incorporated. For three consecutive years beginning in 2015, the Harvard Business Review has listed him as one of the 100 Best-Performing CEOs in the World (No. 33). He is the second-longest tenured CEO in the Fortune 200, and his innovative leadership style has generated astounding annual revenue growth from \$2.7 billion in 1990 to \$22.7 billion in 2016. Aflac insures

more than 50 million people in the United States and Japan and is listed at No. 126 on the Fortune 500. In Japan, the company insures 1 out of every 4 households.

In January 2000, Amos launched the popular Aflac Duck advertising campaign, transforming Aflac from a successful voluntary insurance company to a top international brand named by FORTUNE magazine in 2017 as one of America's Most Admired Companies for the 16th year. His commitment to ethical business practices has led the Ethisphere Institute to recognize Aflac as a World's Most Ethical Company for 11 consecutive years, making Aflac the only insurance company in the world to appear on this list every year since the inception of the award in 2007.

In 1995, Mr. Amos inspired Aflac's 22-year commitment to helping families of children diagnosed with cancer. The company and its independent sales associates have contributed more than \$119 million to this cause, including funding for the Aflac Cancer and Blood Disorders Center of Children's Healthcare of Atlanta, which has become a leading childhood cancer facility in the United States as rated by U.S. News and World Reports.

In 2013, Mr. Amos proudly accepted the Salute to Greatness Award from the Dr. Martin Luther King Jr. Center in Atlanta, joining a distinguished list of past recipients, including Ambassador Andrew J. Young, U.S. Poet Laureate Maya Angelou, Ervin "Magic" Johnson, and musicians Bono and Stevie Wonder. He has also received the Anti-Defamation League's Torch of Liberty Award.

A past member of the board of trustees of Children's Healthcare of Atlanta, Mr. Amos serves on the board of the House of Mercy of Columbus in Georgia. He is former chairman of the board of the Japan America Society of Georgia and the University of Georgia Foundation.

Mr. Amos joined Aflac in 1973, working in sales for 10 years. In 1983, he was named president of Aflac and was later promoted to chief operating officer in 1987. He became chief executive officer of Aflac Incorporated in 1990 and chair of the board of directors in 2001. He holds a bachelor's degree in insurance and risk management from the University of Georgia.

Ed Bastian **Chief Executive Officer, Delta Air Lines**

Since being named Delta's CEO in May 2016, Mr. Bastian has expanded Delta's leading position as the world's most reliable airline while growing its global footprint and enhancing the customer experience in the air and on the ground. During his tenure as CEO, Delta has become the world's most awarded airline, having been named the Wall Street Journal's top U.S. airline; Fortune's most admired airline worldwide; the most on-time global airline by FlightGlobal; a Glassdoor Employee's Choice company and more. Delta has returned to sustained profitability, regaining its investment-grade credit rating with all three major ratings agencies and paying out more than \$1 billion in profit-sharing to employees every year over the past four years.

When asked to sum up his job in five words, Mr. Bastian's response is: "Taking care of our people." The answer reflects his leadership philosophy, which is based on the "virtuous circle" – if you take care of your people, they take care of your customers, whose business and loyalty allows you to reward your investors.

Mr. Bastian joined Delta in 1998 as Vice President – Finance and Controller and was promoted to Senior Vice President in 2000. He left Delta in early 2004 and became Senior Vice President and Chief Financial Officer of Acuity Brands. He returned to Delta six months later to become Chief Financial Officer, and in 2007 was appointed to serve as Delta's President.

Prior to joining Delta, Mr. Bastian held senior finance positions at Frito-Lay International and Pepsi-Cola International. He started his career with Price Waterhouse where he became an audit partner in its New York practice.

Mr. Bastian grew up in Poughkeepsie, N.Y., and graduated from St. Bonaventure University with a Bachelor's Degree in Business Administration. He lives in Atlanta, and is deeply involved in his faith, family and community.

Paul Bowers

Chairman, President, and Chief Executive Officer, Georgia Power

Paul Bowers was named chairman, president and chief executive officer of Georgia Power, effective Dec. 31, 2010. The company is the largest subsidiary of Southern Company, one of the nation's leading energy providers.

Mr. Bowers joined the Southern Company system at Gulf Power in 1979 and has held executive leadership positions at multiple subsidiaries.

Prior to his current position, he was chief financial officer of Southern Company, where he was rated by Institutional Investors magazine as one of the industry's Top Three CFOs in America.

In 1998, Mr. Bowers was elected president and CEO of South Western Electricity LLC, Southern Company's former U.K. subsidiary. In 2001, he was elected president of Southern Company Generation, where he was responsible for the company's overall operational activities. He also served as CEO of Southern Power.

Mr. Bowers serves on the boards of Nuclear Electric Insurance Ltd. (2018 chairman), AFLAC, the Board of Regents of the University System of Georgia, Children's Healthcare of Atlanta (2017-2018 chairman), Atlanta Committee for Progress (2016 chairman), Metro Atlanta Chamber of Commerce (2013 chairman), Georgia Chamber of Commerce (2015 chairman) and Georgia Research Alliance. He is curator for the Georgia Historical Society and is a member of the Federal Reserve Bank of Atlanta's Energy Policy Council.

For his professional achievements and his commitment to the well-being of the citizens of Georgia, Mr. Bowers has received the American Jewish Committee's National Human Relations Award and has been inducted into the Junior Achievement Business Hall of Fame. In 2018, he was inducted as a Georgia Trustee by the governor of Georgia for exemplifying the highest standard of "Not for Self, but for Others" in his life and career.

A Pensacola, Fla., native, Mr. Bowers holds a Bachelor of Science degree from the University of West Florida and a master's degree from Troy University. He is also a Harvard Business School AMP graduate.

Dan Cathy
Chairman and Chief Executive Officer, Chick-Fil-A

As CEO of one of the nation’s largest family-owned businesses, Chick-fil-A’s Dan Cathy represents the next generation of leadership for the Atlanta-based fast-food chicken restaurant chain. Named as Chairman and CEO in 2013, Mr. Cathy served as the president and chief operating officer of the 2,000-plus unit chain since 2001.

Throughout his tenure, he has personally challenged himself with upholding Chick-fil-A’s efforts to provide genuine, heartfelt hospitality, while ensuring that all customers have an exceptional dining experience when visiting a Chick-fil-A restaurant. In his quest to provide customers with “second-mile” service (exceeding even the highest expectations one would have of a typical fast-food restaurant), he has humbly defined his role by saying, “I work in customer service.”

Rather than leading from his corporate office in Atlanta, Mr. Cathy chooses to spend the majority of his time traveling to the growing number of Chick-fil-A restaurants and interacting with the thousands of committed restaurant operators and team members. His actions stem from a belief that working in the field provides a clearer understanding of the ever-evolving wants and needs of Chick-fil-A customers; so he leads from the front lines where he is personally able to convey his servant spirit to the more than 100,000 restaurant employees.

Several major marketplace awards have affirmed the commitment and performance of Chick-fil-A operators and team members. Technomic’s survey of 85,000 consumers recognized Chick-fil-A in 2015 with the “Consumer’s Choice Award” for pleasant and friendly service. Chick-fil-A was honored again in 2015 as leader of the fast-food industry in Temkin’s Customer Experience Survey. In the 2014 Glassdoor Employee’s Choice Awards, Chick-fil-A ranked among the top 50 Best Places to Work in the nation. Forbes also ranked Chick-fil-A as the fourth most inspiring company in the country based on a survey of more than 2,000 consumers evaluating 25 companies.

While Mr. Cathy took the reins at Chick-fil-A in 2013, his career began at age nine when he sang songs for customers and performed radio commercials for the chain’s original “Dwarf House” restaurant in Hapeville, GA. After attending college and receiving his Bachelor of Science degree in Business Administration from Georgia Southern University, he returned to Chick-fil-A where he served as director of operations – opening more than 50 new Chick-fil-A restaurants throughout the country.

As Chick-fil-A continued to grow, so did Mr. Cathy’s responsibilities. Prior to being named president and chief operating officer, he served as senior director of operations, vice president of operations and executive vice president.

While fully dedicated to the employees and customers of Chick-fil-A, Mr. Cathy also gives generously to his community. He currently serves on the board of directors for The Georgia Aquarium and the Metro Atlanta Chamber of Commerce. He is a board member for the Atlanta Committee for Progress, and he serves on the board of advisors for Eagle Ranch, Global Teen Challenge, and Heritage Preparatory School. Additionally, he is a member of the board of councilors for The Carter Center. He has received honorary degrees from Pepperdine University, Anderson College and Berry College. Mr. Cathy is humbled to have received numerous honors for his service to others. He is a recipient of the Council for Quality Growth’s Four Pillars Award, the Urban League of Greater Atlanta’s Community Empowerment Award and the National Wrestling Hall of Fame’s Outstanding American Award.

Bobbi Cleveland
Executive Director, Tull Charitable Foundation

Barbara T. (Bobbi) Cleveland was raised in New Jersey, but moved to Atlanta in 1971 after receiving a Master in Social Work degree from UNC-Chapel Hill. She served for many years as a consultant to state government and nonprofit organizations, working on projects related to the planning and evaluation of health and human service programs. During her early years in Atlanta, Ms. Cleveland was active on the Board of Directors of the Georgia Conservancy and the Junior League of Atlanta. She was a founding board member of APPLE Corps, a predecessor to the current Atlanta Education Fund.

In 1987, Ms. Cleveland became the first Executive Director of the Tull Charitable Foundation, a private grant-making foundation based in Atlanta that funds Georgia-based nonprofit organizations. During her tenure at the Foundation, she has had an opportunity to provide leadership for a number of initiatives that address the needs of at-risk children and families. In 2001, she helped launch the Family Connection Partnership (FCP) and served on its Executive Committee. FCP is a statewide organization that supports the work of 159 local Family Connection Collaboratives that strive to improve outcomes for Georgia's children and families. In 2003, Ms. Cleveland was instrumental in the founding of Voices for Georgia's Children, a statewide child advocacy organization.

In 2016, Boys & Girls Clubs of Metro Atlanta honored Ms. Cleveland, along with 24 other women, for blazing trails in business and philanthropy and serving as role models to young women across the city.

Thomas Fanning
Chairman, President, and Chief Executive Officer, Southern Company

Thomas A. (Tom) Fanning is chairman, president and chief executive officer of Southern Company, America's premier energy company. Elected by the board of directors in July 2010, he became president of Southern Company in August 2010, and assumed the additional responsibilities of chairman and CEO in December 2010.

Mr. Fanning has worked for Southern Company for more than 35 years and has held 15 different positions in eight different business units, including numerous officer positions with a variety of Southern Company subsidiaries in the areas of finance, strategy, international business development and technology. Most recently, he served as chief operating officer, where he was responsible for Southern Company's generation and transmission, engineering and construction services, research and environmental affairs, system planning and competitive generation business units. He also was responsible for leading Southern Company's efforts on business strategy and served as a director of Southern Nuclear, Southern Company's nuclear plant operating company. Previously, Mr. Fanning was the company's chief financial officer, where he was responsible for the accounting, finance, tax, investor relations, treasury and risk management functions. In this role, he served as the chief risk officer and had responsibility for corporate strategy. Prior to assuming the role of chief financial officer, Mr. Fanning was president and CEO of Gulf Power.

Fanning serves on the board of directors of the Federal Reserve Bank of Atlanta. He also is the past chairman of the Edison Electric Institute. He is on the advisory board of the Georgia Tech Scheller College of Business, the board of trustees of the Georgia Tech Foundation, the board of directors of the

Institute of Nuclear Power Operations and the regional governing board of the World Association of Nuclear Operators' Atlanta Centre. He also serves on the board of directors of Vulcan Materials Company and is a member of the Business Roundtable. Mr. Fanning is co-chair of the Electricity Subsector Coordinating Council, which serves as the principal liaison between the federal government and the electric power sector to protect the electric grid from threats that could impact national security, including cyber and physical terrorism as well as natural disasters. He also is a member of the international advisory board of the Atlantic Council, which promotes constructive leadership and engagement in international affairs, and the American Energy Innovation Council, a group of America's leading business executives working to build broad bipartisan support for public and private investments in innovation.

Mr. Fanning earned bachelor and master's degrees in industrial management and also was awarded an honorary Doctor of Philosophy degree from Georgia Tech. His executive education includes programs at the International Institute for Management Development in Lausanne, Switzerland, Harvard Business School and the University of Virginia-Darden School of Business.

Bill and Paula Foege

Emeritus Presidential Distinguished Professor of International Health, Rollins School of Public Health, Emory University

William H. "Bill" Foege, MD, MPH is an epidemiologist who worked in the successful campaign to eradicate smallpox in the 1970s. Dr. Foege became Chief of the Centers for Disease Control and Prevention (CDC) Smallpox Eradication Program, and was appointed director of CDC in 1977.

In 1984, Dr. Foege and several colleagues formed the Task Force for Child Survival and Development, a working group for the World Health Organization, UNICEF, The World Bank, the United Nations Development Program, and the Rockefeller Foundation. Its success in accelerating childhood immunization led to an expansion of its mandate in 1991 to include other issues that diminish the quality of life for children.

Dr. Foege joined The Carter Center in 1986 as its Executive Director, Fellow for Health Policy and Executive Director of Global 2000. In 1992, he resigned as Executive Director of The Carter Center, but continued in his role as a Fellow and as Executive Director of the Task Force for Child Survival and Development. In 1997, he joined the faculty of Emory University, where he is Presidential Distinguished Professor of International Health at the Rollins School of Public Health. In 1999, Dr. Foege became a Senior Medical Advisor for the Bill and Melinda Gates Foundation. In 1999, he resigned as Executive Director of the Task Force for Child Survival and Development, and in 2001, he retired from both Emory University and the Gates Foundation. However, he remains active in both organizations as Emeritus Presidential Distinguished Professor of International Health and as a Gates Fellow.

Dr. Foege has championed many issues, but child survival and development, injury prevention, population, preventive medicine, and public health leadership are of special interest, particularly in the developing world. He is a strong proponent of disease eradication and control, and has taken an active role in the eradication of guinea worm, polio and measles, and the elimination of river blindness. By

writing and lecturing extensively, Dr. Foege has succeeded in broadening public awareness of these issues and bringing them to the forefront of domestic and international health policies.

Dr. Foege is the recipient of many awards, holds honorary degrees from numerous institutions, and was named a Fellow of the London School of Tropical Medicine and Hygiene in 1997. He is the author of more than 125 professional publications. He attended Pacific Lutheran University, received his medical degree from the University of Washington, and his Master of Public Health from Harvard University.

Gary Rollins

Chief Executive Officer, Rollins, Inc.

Gary W. Rollins has been the Chief Executive Officer at Rollins Inc., a subsidiary of Western Pest Services, Inc. since July 24, 2001. Mr. Rollins serves as the Chief Operating Officer of Rollins Holding Company, Inc. He served as the President and Chief Operating Officer of Rollins Inc. from January 1984 to January 2013. He served as the Chief Executive Officer of Orkin, Inc. until July 2009 and served as its President. He has been the Chairman of Orkin, Inc. since February 2004. He has been a Vice Chairman of Rollins Inc. since January 2013 and has been its Director since 1981.

He has been an Inside Director of Marine Products Corporation since 2001 and RPC, Inc. since January 1984. Mr. Rollins has extensive knowledge of the RPC's business and industry. He is a co-owner of GWR December Partnership L.P. He served as a Lead Independent Director of Genuine Parts Company since November 21, 2005 and served as its Presiding Independent Director since April 2013 until April 24, 2017. He served as a Trustee of Emory University. Mr. Rollins served as a Director of Rollins Truck Leasing Corp. since 1975.

Mr. Rollins received a BS in Business Administration from the University of Tennessee. He is listed by *Forbes* magazine at #499 on the World Billionaire List and #159 on Billionaires in the U.S. with an estimated net worth of \$4.4 B.

P. Russ Hardin

President, Robert W. Woodruff Foundation

Russ Hardin joined the Foundations' staff as Secretary in 1988, became Treasurer in 1989, Vice President in 1994, and President in 2006. Prior to joining the Foundations, he practiced law with King & Spalding and was associated with the Robinson-Humphrey Company. He currently serves as Chairman of the Foundation Center, trustee of Northwestern Mutual, and director of the Genuine Parts Company and the Commerce Club of Atlanta. He is a former board chair of the Southeastern Council of Foundations.

Mr. Hardin received his B.A. degree with high distinction from the University of Virginia in 1979, and his J.D. degree with honors from Duke University School of Law in 1982.

Doug Hertz
President and CEO, United Distributors

A native Atlantan, Douglas J. Hertz graduated from Westminster High School and went to Tulane University in New Orleans where he earned a BA in History, did graduate work in Organizational Psychology, and earned an MBA in Marketing and Finance.

Mr. Hertz began his professional career with KPMG in New Orleans, working in the accounting and consulting services area. Upon returning to Atlanta, he joined United Distributors, becoming its President and CEO in 1984. Under his leadership, United, a privately held beverage distribution business, has grown to be listed as one of the top 25 private companies in Atlanta.

In addition to his responsibilities at United, Mr. Hertz is Chairman of Camp Twin Lakes, a camping facility designed for chronically ill and disadvantaged children that he founded in 1989. He sits on the Boards of The Marcus Foundation, Inc., Atlantic Capital Bank, Georgia Research Alliance, Westminster School and serves on the Board and Executive Committee of Tulane University. He is the Chairman of the Board of Children's Healthcare of Atlanta, the largest pediatric healthcare system in the country. He also serves on many other civic, business and advisory boards, including the Woodruff Arts Center and Hands On Atlanta. He has been named the Cartier Volunteer of the Year, is a recipient of the Eleven Alive Community Service Award, and was recognized as the Volunteer of the Year by the Georgia Association of Philanthropy. He received the Jefferson Award in Washington, D.C., as one of twenty in the country, for distinguished service to children. Mr. Hertz is also the recipient of the 2009 Philanthropist of the Year Award by the Business to Business Magazine and was inducted into Junior Achievement of Georgia's 2011 Atlanta Business Hall of Fame.

Mary Ellen Imlay
Chairman and President, The Imlay Foundation

Mary Ellen Imlay serves as the Chairman and President of The Imlay Foundation, Inc. and Chairman of the Board of Directors of Imlay Investments, Inc. In September 2016, the Imlay Foundation donated \$5 million for pediatric therapies research to Children's Healthcare of Atlanta and Georgia Institute of Technology. This was the single largest gift in its history.

Jay Kaiman
Executive Director, The Marcus Foundation

Jay Kaiman is the Executive Director of the Marcus Foundation, which is the vision and philanthropic commitment of Bernie Marcus, Co-Founder of The Home Depot, and focuses on Jewish causes, free enterprise, medical research, children, and the community. Mr. Kaiman joined the foundation in 2001 as a Program Director and assumed the role of Managing Director in 2008.

A graduate of the University of Florida School of Journalism and Communication, Mr. Kaiman held several positions in his nonprofit career, including serving as the Southeast Regional Director of the Anti Defamation League. He has held leadership roles on numerous volunteer boards, including two governor appointments, as a member of the Florida Commission on Holocaust Education and of the Southeast Governors Initiative on Infant Mortality.

Ray Kerins

Senior Vice President and Head of Communications, Government Relations & Policy, Bayer

Ray Kerins is Senior Vice President and Head of Communications, Government Relations & Policy for Bayer Corporation.

Mr. Kerins manages all communications, government relations and policy for Bayer Corporation. He oversees the Bayer U.S. Foundation and is a member of the Bayer U.S. Country Council. He serves as Vice-Chair of Bayer's political action committee.

Previously, Mr. Kerins was Vice President of external affairs & worldwide communications for Pfizer overseeing communications, internal & external, for the Company globally. He was the chief global spokesperson for Pfizer. He was part of a team that managed the \$68 billion acquisition of Wyeth and \$2.3 billion settlement with the U.S. Department of Justice.

Prior to Pfizer, Mr. Kerins was Executive Director of public affairs for Merck & Co. and served as the company's chief global spokesperson following the Vioxx recall.

Before Merck, he spent nine years at GCI Group where he was executive vice president/managing director overseeing both the corporate communications & media relations practices. Prior to GCI, he spent five years at Porter Novelli where he held various senior-level positions.

Mr. Kerins is the recipient of many company and industry awards, including being named "2017 Outstanding In-House Professional Award" by PRWeek Magazine; "2010 Public Relations Professional of the Year" by PRWeek Magazine; "2010 Media Relations Professional" by Bulldog Reporter; and was also named "Top 40 under 40" executives by PRWeek in 2009.

He is a board member of the U.S. Chamber of Commerce's Global Intellectual Property Center and serves on the Center for Disease Control & Prevention's Business Roundtable on Global Health Threats.

Mr. Kerins holds a Master of Science degree and Bachelor of Arts degree from Iona College.

Jeff Koplan

Vice President for Global Health, Emory University

Dr. Jeffrey P. Koplan is an internationally renowned public health leader with more than 30 years of experience. Dr. Koplan is Vice President for Global Health at Emory University, Principal Investigator for the Global Health Institute – China Tobacco Control Partnership, and Co-founder of the International Association of National Public Health Institutes (IANPHI). He founded the Emory Global Health Institute (EGHI) in 2006, served as its Director until March, 2013, and continues to be actively involved in its daily operations in his role as Vice President for Global Health. Prior to founding EGHI, Dr. Koplan was Vice President for Academic Health Affairs at Emory University.

A former Director (1998-2002) and 26-year veteran of the U.S. Centers for Disease Control and Prevention (CDC), Dr. Koplan began his public health career in the early 1970s as a member of the CDC's Epidemic Intelligence Service. He has worked on many major public health issues, including infectious diseases such as smallpox, SARS, pandemic influenza and HIV/AIDS, environmental issues such as the

Bhopal chemical disaster, and the health toll of tobacco and chronic diseases, both in the United States and around the globe. He chairs the Institute of Medicine committee on preventing childhood obesity.

From 1994 to 1998, he pursued his interest in enhancing the interactions between clinical medicine and public health by developing and leading the Prudential Center for Health Care Research.

His first collaboration with China was in 1980 as a member of the US-PRC Public Health/Health Services Research Joint Committee, on which he became Co-Chair with Professor Yang Ming Ding (Shanghai No. 1 Medical College, now Fudan) in 1981. Since then he has made more than 40 visits to China on projects for the World Bank, WHO, CDC and China's Ministry of Health. He has worked on several World Bank loan projects in China, including serving as a principal advisor on Health Loan VII, health promotion and tobacco control in seven cities. He has been awarded an Honorary Professorship at China CDC and named Honorary Advisor #001 to China CDC at its formation in 2002.

Dr. Koplan is a graduate of Yale University, the Mt. Sinai School of Medicine, and the Harvard School of Public Health. He is a Master of the American College of Physicians and was elected to membership in and service on the governing council in the Institute of Medicine. He has served on many advisory groups and consultancies in the U.S. and overseas, and has written more than 200 scientific papers. He is a trustee of the China Medical Board.

Amy Rollins Kreisler
Executive Director, O. Wayne Rollins Foundation

Amy Rollins Kreisler serves as Executive Director of the O. Wayne Rollins Foundation. Ms. Kreisler has been an Outside Director of RPC, Inc. since October 25, 2016. Ms. Kreisler serves as Trustee on The Lovett School Board of Trustees. She serves as Trustee on the George West Mental Health Foundation and the Skyland Trail Board of Trustees. She was attorney of the law firm Arnall Golden and Gregory LLP. She holds an English Degree from Hollins University and a Law Degree from The College of William and Mary Law School.

Ed Martinez
President, UPS Foundation and Chief Diversity and Inclusion Officer, UPS

As President of the UPS Foundation and UPS' Chief Diversity and Inclusion Officer, Ed Martinez is responsible for the operations and management of UPS' global philanthropic, employee engagement, corporate relations and diversity and inclusion programs.

In addition to his corporate responsibilities, he represents UPS on the World Economic Forum's Global Agenda Council on Humanitarian Response and serves as UPS Executive Liaison to the Council of Independent Colleges. He is also a member of the Corporate Advisory Board for The National Council of La Raza, corporate liaison to the Points of Light Institutes' Service Council, Chair of the Corporate Development Council for the World Association of Girl Guides and Girl Scouts and a member of the Board of Directors of the International Association for Volunteer Effort. He is also Co-chair of the National Academy of Sciences "Resilient America" program and Chair of IAVE's Global Corporate Volunteer Council. Ed currently served on Atlanta Mayor Kasim Reeds' Mayoral Service Board.

Mr. Martinez is a member of the American Bar Association, Florida Bar and Hispanic National Bar Association.

Pete McTier

Pete McTier is an emeritus trustee of Emory. He is a director of Coca-Cola Fomento Económico Mexicano, S.A.B. de C.V (FEMSA) and the CDC Foundation. He also is a trustee of the Pediatric Center of Georgia, the Georgia Research Alliance and the Task Force for Global Health. He is a past director of AGL Resources and SunTrust Bank, Atlanta, and a past president of The Commerce Club.

As a member of the Emory Board of Trustees, Mr. McTier served on the executive, academic affairs and public policy committees, and continues to serve as a member of the University's Robert W. Woodruff Health Sciences Center Board.

Mr. McTier is past president of the Robert W. Woodruff Foundation, Joseph B. Whitehead Foundation, Lettie Pate Evans Foundation, Lettie Pate Whitehead Foundation and Ichauway, Inc. He led the foundations as they played active roles in many of Atlanta's major civic initiatives, including the creation of Centennial Olympic Park and the Chattahoochee River Greenway, the establishment of The Joseph W. Jones Ecological Research Center at Ichauway, and advancements at the Woodruff Arts Center, Central Atlanta Progress and the Georgia Research Alliance.

Sig Moseley

Managing Partner, Moseley Ventures

Sig Moseley is the Managing Partner of Moseley Ventures, a venture fund investing in early stage technology startups in the Southeast. Widely regarded as "The Godfather of Angel Investing", a title Sig Moseley earned as president of Imlay Investments, Inc. Since 1990, Sig has been the most prolific Southeast investor in 120 startups with 82 liquidity events. He currently is the record holder of the largest Southeast Venture deal with the \$5.7

Billion acquisition of Tradex by Ariba.

From 1968 to 1969 Mr. Moseley was employed by Peat Marwick & Mitchell as a staff accountant. He joined Management Science America, Inc. in 1969 as a staff accountant and served as secretary-treasurer from 1972 to 1990 and was a vice president from 1982 to 1991.

Mr. Moseley serves on the board of directors of 16 private companies.

In addition, Mr. Moseley is a director of The Imlay Foundation, Inc., Techbridge, and Entrepreneurs Foundation of the Southeast. Mr. Moseley is also a director of GATV, the CEO Council, TiE-Atlanta and TAG. He also serves on the advisory board of the ATDC, the investment committee of Gray Ghost DOEN Social Ventures Coöper and on the GRA Venture Fund Board. Mr. Moseley is managing member of Flashpoint Investors, LLC.

Mr. Moseley is a member of the Invest Georgia Roundtable, a joint venture capital initiative by the House, Senate and private industry leaders.

Mr. Moseley received his Bachelor of Business Administration from Emory University in 1968.

Gary Nelson
President, Healthcare Georgia Foundation

As president, Dr. Nelson is responsible for implementing Board decisions and policies and for executive management of the Foundation's program, financial and management operations. Working with the Foundation's Board of Directors, Dr. Nelson oversees the design and management of the Foundation's grantmaking program - dedicated to advancing the health of all Georgians and to expand access to affordable, quality healthcare for the underserved individuals and communities.

Prior to joining the Foundation in March 2002, Dr. Nelson served as a program director at The California Wellness Foundation (TCWF) responsible for managing the Health Improvement Initiative, Healthy Aging and the Foundation's population health programs.

Dr. Nelson previously was employed at the National Centers for Disease Control and Prevention (CDC) from 1986 to 1993, where he managed several nationally significant evaluation projects and served as an Associate Director for Evaluation, Division of Cancer Prevention and Control. Dr. Nelson has held academic appointments in public health at the University of Alabama at Birmingham and at the University of Nebraska-Lincoln. He began his public health career with the Utah State Department of Public Health.

He currently serves as a member of the Board of Public Health Foundation Enterprises. He is also a member of the Philanthropic Collaborative for a Healthy Georgia and now serves on the Board of Visitors for Georgia State University's College of Health and Human Services. Formerly, Dr. Nelson was a member of the Research Committee of the Council on Foundations; and a Board member of Grantmakers Evaluation Network, Grantmakers in Aging, and Grantmakers for Children, Youth, and Families. He received his bachelor's degree at Kansas State University, master's degree at Central Michigan University and his Ph.D. at the University of Utah.

Alicia Phillip
President, The Community Foundation for Greater Atlanta

Alicia Phillip has led the Foundation's grantmaking, fundraising and collaboration with donors, nonprofits and community leaders for almost 40 years. Under her leadership, the Community Foundation has grown from \$7 million in 1977 to more than \$919.8 million today. Ms. Phillip's local, regional and national leadership responsibilities include previous service as a board member of the Council on Foundations, the Southeastern Council of Foundations, Independent Sector and the National Center on Family Philanthropy.

Honors received include being named to Georgia Trend's "100 Most Influential Georgians" list, one of the "100 Most Influential Atlantans" by the Atlanta Business Chronicle, the ninth most powerful Atlantan by Atlanta magazine and one of 175 "Emory History Makers" by Emory University.

Ms. Phillip received a bachelor's degree from Emory University and her MBA from Georgia State University.

James Quincey
President and Chief Executive Officer, The Coca-Cola Company

James Quincey is President and Chief Executive Officer of The Coca-Cola Company. Before becoming CEO on May 1, 2017, he led all of the company's operating units worldwide as President and Chief Operating Officer from August 2015.

From 2013 to 2015, Mr. Quincey served as President of The Coca-Cola Company's Europe Group, which is comprised of 38 countries including the Member States of the European Union, the European Free Trade Association countries and the Balkans. Under Quincey's leadership, the Europe Group, the company's most profitable operating group, strategically expanded its brand portfolio and improved execution across the geography. These actions helped drive solid topline growth and expanded the company's leading market share position in total nonalcoholic ready-to-drink (NARTD) beverages despite the volatile and prolonged macroeconomic challenges in the region.

Mr. Quincey also played an instrumental role in leading the merger of Coca-Cola Enterprises, Coca-Cola Iberian Partners and Coca-Cola Erfrischungsgetranke AG to form Coca-Cola European Partners Plc., which is now the world's largest independent Coca-Cola bottler based on net revenues.

Prior to his role as head of the Europe Group, he served as President of the Northwest Europe and Nordics business unit (NWEN) from 2008 to 2012. Among Quincey's many accomplishments during this time was his leadership during the acquisition of innocent juice in 2009. Innocent is now sold in more than 14 countries and is well on its way to becoming one of the company's brands that generates more than \$1 billion in annual revenue.

From 2005 to 2008, Mr. Quincey was President of the Mexico Division. During his tenure in Mexico, Quincey grew market share for brand Coca-Cola and expanded the company's portfolio with the re-launch of Coca-Cola Zero and the acquisition of Jugos de Valle, one of the company's 21 billion-dollar brands and is now sold in 16 countries.

Mr. Quincey joined the company in Atlanta in 1996 as Director of Learning Strategy for the Latin America Group. He went on to serve in a series of operational roles of increased responsibility in Latin America, leading to his appointment as President of the South Latin Division in 2003. During his time in South Latin, he was instrumental in developing and executing a successful brand, pack, price and channel strategy, which has now been replicated in various forms throughout Coca-Cola's global system.

Prior to joining Coca-Cola, Mr. Quincey was a Partner in strategy consulting at The Kalchas Group, a spin off from Bain & Company and McKinsey. Mr. Quincey, who is bilingual in English and Spanish, received a Bachelor's degree in Electronic Engineering from the University of Liverpool.

Brian Reynolds
Founder and Managing Partner, Chatham Capital

Brian Reynolds is a Founder and Managing Partner of Chatham Capital. He has over 20 years of investment and financial experience, including participation in over 340 deals (185+ Chatham transactions and 155+ GE Capital Transactions). Mr. Reynolds' experience reflects over \$25 billion of transactions. He specializes in leveraged lending, mergers and

acquisitions, recapitalizations, financial restructurings, MBOs, and private placement of debt and equity.

Prior to Chatham, Mr. Reynolds was a Managing Director for KPMG Corporate Finance. During that period, he led the advisory in 21 transactions with an average value of \$84 Million. These transactions included equity raises, debt placements, sell side and buy side representations. Prior to KPMG, he was a Senior Vice President and Credit Officer with GE Capital's Corporate Finance group for 12 years, underwriting over \$3.0 Billion of investments by GE without losing any capital on underwritten deals. Notable investments managed included Gibson Greeting Cards and Palm Beach Apparel. Notable, highly successful underwritten deals included HCA (served as a Board Observer), HealthTrust, Electrical Insulation Supplies, Charter Medical, Epic Healthcare, Kendall McGaw Laboratories, and Imed.

Mr. Reynolds received a B.B.A. in Accounting from St. Bonaventure University.

Nancy Rigby
President, Cox Foundations

As President of Cox Foundations, Nancy Rigby oversees the grants, business management and administration of foundation operations. The James M. Cox Foundation provides funding for capital campaigns and special projects in communities where Cox Enterprises operates. The Foundation concentrates its community support in several priority areas, including: Conservation and Environment; Early Childhood Education; Empowering Families and Individuals for Success; and Health.

Prior to joining Cox, Ms. Rigby was a fundraising consultant who counseled nonprofit organizations on strategic direction for management, fundraising, leadership and organizational sustainability.

Ms. Rigby is a member of Atlanta Rotary and co-founded the University of Georgia's Parents' Council. She is a past board member of the Community Foundation of Greater Atlanta's "Grants to Green" advisory committee, Holy Innocents' Episcopal School Parents Council and the Atlanta Children's Shelter. Rigby was a featured speaker at the White House Initiative on Education Conference for Historically Black Colleges and Universities.

She attended the University of Kentucky and is a graduate of the Regional Leadership Institute.

David Satcher
Founding Director and Senior Advisor, The Satcher Health Leadership Institute

David Satcher, MD, PhD is Founding Director and Senior Advisor of The Satcher Health Leadership Institute which was established in 2006 at the Morehouse School of Medicine in Atlanta, Georgia. The mission of the Satcher Health Leadership Institute at the Morehouse School of Medicine is to develop a diverse group of exceptional health leaders, advance and support comprehensive health system strategies, and actively promote policies and practices that will reduce and ultimately eliminate disparities in health. The Institute's programs reflect Dr. Satcher's experience in improving public health policy and his commitment to eliminating health disparities for underserved groups, such as minorities and the poor and shedding light on neglected issues, such as mental and sexual health.

Dr. Satcher was sworn in as the 16th Surgeon General of the United States in February 1998 and served until 2002. He also served as the 10th Assistant Secretary for Health in the Department of Health

and Human Services making him only the second person in history to have held both positions simultaneously. His tenure of public service also includes serving as Director of the Centers for Disease Control and Prevention (CDC) and Administrator of the Agency for Toxic Substances and Disease Registry. He was the first person to have served as Director of the CDC and Surgeon General of the United States.

Dr. Satcher has held top leadership positions at the Charles R. Drew University for Medicine and Science, Meharry Medical College, and the Morehouse School of Medicine. He has been a Macy Foundation Fellow, Robert Wood Johnson Foundation Clinical Scholar, and a Senior Visiting Fellow of the Kaiser Family Foundation.

Dr. Satcher held the position of Director of the National Center for Primary Care (NCPC) at the Morehouse School of Medicine from 2002 to 2004. This recognizes his long commitment to removing the stigma attached to mental illness, as evidenced by *Mental Health: A Report of the Surgeon General*, the first surgeon general's report on mental health released during his tenure as Surgeon General.

As Surgeon General and Assistant Secretary for Health, Dr. Satcher led the department's effort to eliminate racial and ethnic disparities in health, an initiative that was incorporated as one of the two major goals of Healthy People 2010. In 2005, he was appointed to serve on the World Health Organization Commission on Social Determinants of Health.

Dr. Satcher has received over 50 honorary degrees and numerous distinguished honors including top awards from the National Medical Association, the American Medical Association, the American Academy of Family Physicians, the Ronald Davis Special Recognition Award from the American College of Preventive Medicine, and the Symbol of H.O.P.E. Award for health promotion and disease prevention. He received the Benjamin E. Mays Trailblazer Award and the Jimmy and Rosalynn Carter Award for Humanitarian Contributions to the Health of Humankind from the National Foundation for Infectious Diseases.

Previously, Dr. Satcher served on the Board of Directors of Johnson and Johnson and MetLife. He has also served locally on the board of United Way of Greater Atlanta and The Community Foundation for Greater Atlanta. Currently, he sits on the board of the CDC Foundation.

Dr. Satcher graduated from Morehouse College in Atlanta, Georgia in 1963 and is a member of Phi Beta Kappa. He holds MD and PhD degrees from Case Western Reserve University in Cleveland, Ohio. He is a member of Alpha Omega Alpha Honor Society and a Fellow of the American Academy of Family Physicians, the American College of Preventive Medicine and the American College of Physicians. He is a member of the Institute of Medicine, National Academy of Sciences, the 100 Black Men of Atlanta and the American Academy of Arts and Sciences.

Dave Shull
Chief Executive Officer, The Weather Channel

As chief executive officer of The Weather Channel television network (Weather), Dave Shull oversees all aspects of one of the most widely distributed cable networks, which encompasses programming, distribution, broadcast operations, video technology and addressable TV advertising platforms. He also works with Weather’s ad sales leadership to identify the best solutions for driving both the technology and selling efforts for the network’s advertising as it evolves, including addressable TV advertising solutions.

Prior to joining Weather, Mr. Shull served as chief commercial officer and executive vice president at DISH Network, where he drove the revenue and gross profit for the corporation. He led the groups that created all consumer packages, promotions and marketing messages for DISH Network. His teams developed the award-winning consumer features on the Hopper set top box, launched the dishNET satellite broadband service to rural America and developed a nationwide addressable advertising model. Mr. Shull also successfully negotiated the first grant of rights for over-the-top (OTT) rights to broadcast ESPN/Disney/ABC Channels over the Internet directly to consumers (Sling TV).

Previously, he was senior vice president of content acquisition and programming at DISH. Mr. Shull joined DISH in 2004 as director and assistant to the chairman and CEO, Charlie Ergen. He served in several leadership roles at DISH’s headquarters in the U.S. and also spent three years in Hong Kong working on mobile video and wireless spectrum opportunities as the managing director of EchoStar International.

Mr. Shull serves on the Metro Atlanta Red Cross board. He holds a bachelor’s degree from Harvard University and an MBA from Oxford University’s Saïd Business School.

Jeffrey Sprecher
Founder, Chariman and CEO, Intercontinental Exchange, Inc.

Jeff Sprecher is Founder, Chairman and CEO of Intercontinental Exchange, Inc. (NYSE: ICE) and Chairman of the New York Stock Exchange. Intercontinental Exchange is a Fortune 500 company. Mr. Sprecher acquired the predecessor company to ICE for \$1, building a company with a market capitalization over \$40 billion. Under his leadership, ICE grew from operating an energy swaps market into a network of 12 global exchanges, including the New York Stock Exchange, through organic growth and acquisitions. ICE’s exchanges include equity and equity options exchanges, as well as futures exchanges that establish benchmark prices for interest rates, equity indexes, energy, metals and agricultural commodities. In addition, ICE operates seven central clearing houses that provide risk management services.

As a power plant developer, Mr. Sprecher recognized the need among energy market participants for an accessible, standardized electronic marketplace for OTC energy contracts. He acquired Continental Power Exchange (CPEX) in 1997 to achieve his vision of an efficient market that would bring transparency to previously opaque and fragmented markets. Intercontinental Exchange was formed in 2000 and the company completed its initial public offering in 2005 on the NYSE. He has served as the company's Chief Executive Officer since May 2000 and as Chairman of the Board since November 2002.

Mr. Sprecher has led numerous strategic initiatives that have enabled ICE to expand from a single asset class — energy — into a broad range of asset classes today. These have included numerous acquisitions, including the International Petroleum Exchange of London (2001), the New York Board of Trade (2007), Creditex (2008), The Clearing Corporation (2009), the Climate Exchange (2010), NYSE Euronext (November 2013), Singapore Mercantile Exchange (2014), Interactive Data Corporation (2015), NGX (2017) and BondPoint (2018).

In addition to expanding through acquisitions, Mr. Sprecher has focused ICE's resources on organic growth, including developing the first cleared OTC energy contracts (2002), building the first new major clearing house in the U.K. in over a century (2008) and launching the world's leading clearing houses for credit derivatives (2009). Through ICE Data Services, ICE is one of the world's foremost providers of financial market information.

Mr. Sprecher's leadership has been recognized by Businessweek, Institutional Investor and a number of other industry publications. He was selected as a finalist in Ernst & Young's Entrepreneur of the Year program in 2002 and by MarketWatch as one of five finalists in the MarketWatch CEO of the Year program in 2006. Also in 2006, ICE's stock was named the best 1-year performer by The Wall Street Journal, in 2010 the company was named as the fastest growing company in the Financial Services category by Fortune magazine and was recognized in the Fortune Future 50 in 2017. In 2017, Mr. Sprecher was named Best CEO for Brokers, Asset Managers and Exchanges in Institutional Investor's annual poll. Since 2014, he has been named one of Barron's 30 World's Best CEOs.

Mr. Sprecher is involved in a number of civic initiatives. He is the immediate past Chairman of the Metro Atlanta Chamber; is a Wisconsin Alumni Research Foundation Trustee; and is on the Board of Directors for the Buckhead Coalition, The Commerce Club and Atlanta Committee for Progress.

Prior to acquiring CPEX, he served as President of Western Power Group, Inc., a developer, owner and operator of large central-station power plants in California.

Raised in Wisconsin, Mr. Sprecher earned a Bachelor of Science degree in Chemical Engineering from the University of Wisconsin at Madison and a Master of Business Administration from Pepperdine University in Malibu, California.

John Stephenson

Executive Director, James Bulow Campbell Foundation

John Stephenson is the executive director of the J. Bulow Campbell Foundation, a private charitable foundation established in 1940 through the estate of Atlanta businessman, J. Bulow Campbell. The Atlanta philanthropy awards grants in education, human services, youth development, arts and cultural institutions, and Christian-based charities.

Named a 175 Emory Maker of History, Mr. Stephenson has spent his entire career in education administration and philanthropy. His associations with Emory — student, alumnus, administrator and unwavering advocate have, in his words, "provided a life-long source of pride and profound sense of appreciation for Emory's influence on my life." Stephenson received his bachelor's degree in economics from Emory College in 1970 and his master's degree in business administration from Southern Methodist University in 1973.

Mr. Stephenson serves leadership roles for several Atlanta-based foundations and has been actively involved in many community and scholarship organizations. Prior to joining the Campbell Foundation in 1985, he served Emory Presidents Sandy Atwood and Jim Laney for 12 years as assistant to the president, secretary of the university and vice president.

Kirby Thompson

Senior Vice President of Community and Government Affairs, SunTrust Bank, Atlanta Region

Kirby Thompson is the Senior Vice President of Community and Government Affairs for SunTrust Bank, Atlanta Region. Mr. Thompson is responsible for Georgia/Tennessee government affairs, and he oversees the charitable contributions of the SunTrust Bank Foundation for Atlanta, and 6 Trusteed Foundations.

He previously was the owner of KAT Consulting, Inc., a public affairs company. Mr. Thompson also was the Vice President of Community and Legislative Affairs for Equifax, responsible for The Equifax Foundation and managing state and federal legislative affairs for almost 10 years. Prior to Equifax, he spent 13 years at Citizens and Southern National Bank (predecessor of NationsBank/Bank of America) in various jobs including Government Relations, Community Relations, and Agribusiness. He was a staff member for Senator Sam Nunn in Washington, D.C., from 1978 until 1981.

Mr. Thompson is currently a board chair for the Georgia Council on Economic Education and secretary of the University System of Georgia Foundation board of trustees. He is a past member of the boards of Eagle Ranch Foundation, the GA 4-H Foundation and a former member of the University of Georgia Board of Visitors. He is Past President of Decatur Rotary Club, and serves on various committees for both the Georgia Chamber of Commerce and Metro Atlanta Chamber. Mr. Thompson completed his BBA in Marketing at the University of Georgia, in 1976.

Bob Yellowlees

Robert Yellowlees is the retired chairman of the boards of Global Payments Inc. and National Data Corporation Health (bought by McKesson in 2006). Mr. Yellowlees began his career with IBM in 1960. He joined National Data Corporation in 1992 as chairman of the board and chief executive officer. Prior to that he served as an NDC board member beginning in 1985.

Mr. Yellowlees currently serves on the Emory Global Health Institute Advisory Board and previously has served on the boards of the Woodruff Arts Center, the High Museum of Art, the Aperture Foundation, Pace Academy, United Way of Atlanta, Piedmont (Hospital) Foundation, John Harland Company and Protective Life Corporation. Mr. Yellowlees is a graduate of the University of Maryland and the Advanced Management Program of the Harvard Business School.

Mr. Yellowlees is an accomplished amateur photographer and owns Lumiere Gallery. Lumière's founding was based on his interest in advancing the appreciation of the photographic arts and increased recognition for exceptional photographers. His perspective is based on decades as an active collector and supporter of exhibitions, publications, films and educational programs. (<http://lumieregallery.net>)

Mr. Yellowlees served on the CDC Foundation Board from 2003 to 2014. While on the board, he chaired the Development Committee. In 2007, Mr. Yellowlees and his wife, Mary, were one of the sponsors of a

photography exhibit, The End of Polio: Photographs of Sebastião Salgado on CDC's Roybal Campus in the Global Health Odyssey, Tom Harkin Global Communications Center. The exhibit documented the global effort to eradicate poliomyelitis.

Subject: RE: CDC-F Board Meeting Invite?

Good morning and thanks, Scott!

The Board meeting will be in Rooms 256/257 in the GCC.
For the dinner at Cherokee, we are envisioning its use as a way to introduce Dr. Redfield not only to our current board but also to key Atlanta leaders, including business and philanthropy. Local former board members will be included also. This dinner will be lighter on CDC guests, but certainly will include key CDC leaders.

More shortly – and thank you SO much!
Chloe

Importance: High

Hi Chloe. I got your voicemail last eve – thank you. We will add to the Director's Decision List for this week, the CDCF Board meeting Dinner for May 8th, 6pm, at the Cherokee Town Club and the board meeting for May 9th 12-1:30.

Can you confirm the location for the board meeting and if he'll be asked to present formal remarks or just informal remarks & partake in discussions at both events (I hope it's the latter)?

We're meeting with him tomorrow morning, so we'll be able to confirm his availability for each event at that time and then we can circle back with you.

Thanks! -Scott

Executive Briefing Memo

CDC Foundation Board Dinner and Meeting May 8 – 9, 2018

PREPARED FOR CDC OFFICE OF THE DIRECTOR, DR. ROBERT REDFIELD

Tuesday, May 8, 2018 – Board Dinner:

Board Dinner Location: Cherokee Town and Country Club
Gold Room (*second floor*)
155 West Paces Road, N.W.
Atlanta, GA 30305
(404) 365-1200

Agenda:

6:00 p.m. Networking Reception

6:30 p.m. Welcome
Doug Nelson, Chair, CDC Foundation

6:45 p.m. Dinner

7:45 p.m. Remarks – Dr. Robert Redfield, CDC Director

8:00 p.m. Remarks – Judy Monroe, President and CEO, CDCF

By 8:30 p.m. Adjourn – Doug Nelson

Board Dinner Invitees: (approx. 35 – 40 guests)

- CDC Foundation Board
- Former CDC Foundation board members/chairs (Phil Jacobs; Oz Nelson; Bernie Marcus; Bob Yellowlees)
- CDC Foundation Executive Staff
- CDC Invited guests: CDC leadership from OD/OD (approx. 8)
- Atlanta- based, corporate and philanthropic leaders

Wednesday, May 9, 2018 – Board Meeting:

Board Meeting CDC Roybal Campus
Location: Tom Harkin Global Communications Center
Conference Rooms (256 – 257)
1600 Clifton Road

Objectives:

- To allow the CDC Foundation Board of Directors to have personal interaction and dialogue with the new CDC Director
- To determine short- and/or long-term interests in how the CDC Foundation Board of Directors may be most helpful to the Director and the agency
- To provide time for the CDC Foundation board to illustrate how it has added value to CDC's work and to learn of any current areas/needs where the CDC Foundation may consider providing assistance to CDC in the future

Outcomes:

- Further synchronization of institutional interactions
- Enhanced information sharing on appropriate topics and determination of communication preferences/channels
- Better informed CDC Foundation board members around key or emerging CDC priorities/issues related to CDC's needs and future directions

Draft Agenda:

8:00 a.m. – 12:00 p.m.	Board Member Executive Session
12:00 p.m.	Executive Session Recesses for Lunch
12:00 p.m. – 12:15 p.m.	Lunch Buffet Service

1. Contacts:

Logistics Specialist: Brad Bartee

Special Assistant: TBD

Event Contact: Kimberly Cantrell (OSTLTS), 404-498-0411, klw6@cdcd.gov

CDC Staffer Accompanying Dr. Redfield: TBD

CDC Program Contact (if applicable): TBD

CDC Media Contact (if applicable): TBD

2. Event Information:

Event Host: OSTLTS

Purpose of Event: Present remarks at the special event held exclusively for ~ 25 senior health officials who have been in their positions less than 24 months. The event provides health officials an opportunity to enhance connections with CDC, share strategies with their peers, and learn about innovative practices. The discussions during the 3 day orientation give the new health officials a chance to learn about and explore CDC resources, promising public health practices, and proven and innovative strategies to reduce leading causes of

death and disability. The talks also provide CDC with crucial information to help the agency understand the work being done in the field and identify opportunities for partnerships.

Agenda (if applicable): Attached

Number of Attendees and Composition: 25 senior health officials

Key Participants (if applicable): TBD

Bios: TBD

Source Invitation: Yes on the 4/9/18 DL

3. Dr. Redfield's Speech Information or Talking Points (TPs):

Dr. Redfield's Remarks/Presentation/TPs: Talking Points, Presentation is fine, photo taken afterwards

Proposed Role and Topic: Discuss priorities—please provide specific topic to be listed on agenda

Length of Presentation: 30 mins which includes Q&A time

Press: No

Teleprompter: N/A

4. Supporting/Logistics Materials:

Hi Brad,

I know you all are swapped. Do you know if Dr Redfield will be able to speak? Dr Montero is meeting with him Monday, I was just wondering if I could get an update for him, if you have one.

Thanks so much! Have a wonderful weekend.

Hi Kimberly,

Dr. Schuchat is planning to do the CDC Health Orientation, just in case you were wondering.

We have her scheduled for the same time that Dr. Fitzgerald was planning to be there.

Thanks,

Brad

Jeremy can add it to her Decision List to gain her agreement and to discuss any conflicts. We do however do not typically schedule her before 9:30 am, so she has time to do what she needs each morning, so that would be the earliest. Just clarify your flexibility on time and Jeremy will capture that with his summary. Glad the room worked out in your favor.

Subject: RE: 2018 CDC Health Official Orientation-Inquiring about Dr. Fitzgerald's Availability
Scott,

We will be holding the Health Official Orientation May 1st to May 3rd. Could you place a hold on May 1st from 9:15 to 9:45 on Dr. Fitzgerald's calendar to speak to the Health Officials? If she is interested listening to the introductions of each Health Officer we will start at 8:00 AM. We will send the formal speakers request soon.

We understand that her schedule is subject to change at any moment. We will accommodate our agenda to include her whenever she is available to speak to the group.

Two years ago, we change the agenda a number of times during the meeting to find a time that worked for Dr. Frieden and his ever changing schedule. Everyone understands!

Brad reached out about the room and has already reserved it for us. He has been wonderful to work with!

You all have been awesome! Thanks so much for your help.

Thanks Scott. It helps a lot.

This is great news. In our attempt to secure a date, we have run in to a glitch with scheduling the room. One of the folks working with me has been told we will need to wait until December 1st to check availability to reserve the Director's conference room 12105 and the lobby area. Any chance that someone can help me in reserving that room and space so we can set the date. Right now all three dates work for Dr. Montero also.

Thanks so much. Have a great weekend!

Hi Kim. As of today, all three of the below options are good, but we have not built out a schedule past January so the sooner you can confirm, then the sooner we can hold those dates. As you well know, it's difficult to predict the future conflicts, especially events of higher importance and beyond our control, so it's always good to have a plan "B" in your pocket if she has to withdraw or change her speaking sequence at the last minute.

Hope that helped.

Subject: 2018 CDC Health Official Orientation-Inquiring about Dr. Fitzgerald's Availability
Hi Scott,

This is an unofficial inquiry.... Just asking for assistance as we begin planning for the HOO.

We are looking at the following dates for 2018 HOO:

- Tuesday, April 17 to Thursday April 19 (we know EIS is happening this week- we actually had HOO last year the same week as EIS and it worked well)
- Tuesday, April 24 to Thursday April 26
- Tuesday, May 1 to Thursday May 3

Ideally the director would speak in the morning on the first day, which is the Tuesday of each week around 9:15, although we would welcome her during the introductions or any other time she would like to participate. ☺ We are flexible and will schedule around her schedule so if the Tuesdays are out and one of the other days might work, that is ok too. Could you identify for me all the dates that currently would work. I don't want to select a week and find that there is no way for her to participate? I have attached last year's agenda as reference only.

Once the dates are set we will send a formal request for her participation through the appropriate channels.

Thanks so much Scott!

Subject: RE: last minute check on awards ceremony date

Ok GCC, Aud B is available so my recommendation is we go with the 21st from 1:30 to 3 pm.

Since we are doing this in the afternoon, hoping I can make the case to do "King of Pops" popsicles this year.

- A) Should be much less in terms of cost than prior years
- B) Was a giant hit with NCEZID folks when they used to do this at their awards ceremony.

How does that sound?

Subject: RE: last minute check on awards ceremony date

So the 15th and the 17th are during the annual National Immunization Conference so if we are going to change, the next best date would be Monday, 21st for which Aud B is available at the same time.

Because there is no master CDC calendar its hard to know if this conflicts with any other major event but EIS is the third week in April so we know that's not a conflict so does anybody know anything else that could interfere other than a freak snow storm, locusts or a random parade down Clifton?

Thanks

Brad

Subject: RE: last minute check on awards ceremony date

We could keep the same time (2-3:30) on 15th and 17th as well, but only Monday, the 21st, of the following week is available, and we won't have a problem changing to one of those dates if desired. I'd think whatever works best for the agency and the awards committee should prevail, but others may feel different.

Scott:

Thanks. I am having Tracy check on facility availability later in the week or next week.

The capacity of Aud B is 500 people and there are what 3,000 on campus so I am not really worried about the room being full, in fact if folks are teleworking, it might be easier for those coming to the ceremony (including guests / VIPs) to find parking.

But I would be interested to know what you, Sara, Seth, John and Teresa might think about changing the date.....again.

Subject: last minute check on awards ceremony date
Importance: High

Scott:

During the conference call this morning where the Awards Policy Board voted on their recommendations for the winners of the CDC / ATSDR Honor Awards, it was noted that Emory's graduation is scheduled for May 14 (the date we had set for the CDC / ATSDR Honor Awards). Here is the link to the schedule for Emory (and the programs within) commencement.

<http://www.emory.edu/commencement/schedule/index.html#monday>

I know that Dr. Schuchat has very limited windows of availability during May and we have limited times we can get into Auditorium B so I am wary of trying to find another day.

However, I wonder if we can move the ceremony up an hour to begin at 1 instead of 2 as the majority of Emory's events begin about 11 am and end about 1 pm so if we start at 1 this might be a sweet spot when traffic around the campus is lighter.

I know that day CDC staff are encouraged to telecommute as well but I know trying to find another date might push us into June.

Keep in mind that Tuesday, May 15 the annual immunization conference begins.

Let me know what your thoughts are and if you want to chat.

Regards

Brad

Subject: Award notification letters

Regina:

In prior discussions about notification about award winners I mentioned that I would do this by e-mail. But before I start doing so, I wanted to make sure the OD / OCS or IMAC felt that it would be best for us to continue sending a letter from the Director.

So.....I have mocked up such a letter that still needs some information to be filled in like the date and time for the breakfast (I think we are down to 6/12 and 6/19) and contact points for RSVP.

Let me know what folks think and if we are any closer to locking down the date and time for the breakfast.

Importance: High

Seth & Henry, when you have time in the next few days could you please each check in with AS and SR respectively to see if they'd be agreeable to this proposal?

- AS or SR to speak at the CDCF Corporate Roundtable dinner on 4/18
 - This would conflict with a portion of the EIS International Night
- AS or SR to speak at the CDCF Corporate Roundtable meeting over lunch on 4/19
 - This would conflict with a portion of the Surgeon General's visit/orientation at CDC

Let me know and we'll circle back with CDCF

Thanks!

Scott

Scott...

Thanks for your time by phone just now!

I'm writing to ascertain availability for Anne Schuchat or Steve Redd for the **Corporate Roundtable dinner on the evening of Wed., April 18, 2018 and provide brief remarks (Location TBD);** and subsequently for **Anne Schuchat to speak to the group on Thursday, April 19 over a working lunch – perhaps 11:45 am or noon until 1:00 – 1:15 pm.**

Will you please advise regarding these possibilities? I'm happy to complete forms, etc as you indicate are helpful.

Sincerest thanks!

Chloe

LEADERSHIP BIOS

BD

Gary Cohen, MBA
Executive Vice President, Global Health, BD
President, BD Foundation
Board Member and Past Board Chair, CDC Foundation
Chair, Corporate/CDC Roundtable

Gary Cohen is executive vice president, Global Health at BD (Becton, Dickinson & Co), a global medical technology company with \$12 billion in global revenues and 45,000 employees operating in 180 countries and president, BD Foundation. He has served as an executive officer of the company since 1996. Cohen is board co-chair of GBCHealth and a board director of the Perrigo Company, UNICEF USA and board chair/founder of Together for Girls, a partnership to end violence against children. He served as board chair of the CDC Foundation from 2010-2014. BD and Cohen are engaged across the public, private and NGO sectors to address unmet global health needs. He serves as an advocate and expert speaker on advancing health and human rights. He has been honored for his humanitarian work by MESAB (Medical Education for South African Blacks), B'nai B'rith International, UNICEF USA, the Dikembe Mutombo Foundation, the American Jewish Committee and the Nyumbani Home for HIV positive children in Kenya. Cohen- holds a BA and MBA from Rutgers University.

UPS

Kent C. "Oz" Nelson
Former Chairman and CEO, United Parcel Service
Founding Chair, Corporate/CDC Roundtable on Global Health Threats
Former Chair and Member, CDC Foundation Board of Directors

Kent C. "Oz" Nelson is the retired chairman and chief executive officer of United Parcel Service, a position he held from November 1989 to December 1996. Nelson is on the board of directors of the CDC Foundation, having served as chairman of the Board from 2002 to 2005. A native of Kokomo, Indiana, Nelson received a Bachelor of Arts degree in Business Administration from Ball State University. Nelson began his UPS career in customer service two days after his college graduation. In 1962, he was appointed Indiana district customer service manager. After several other district and regional assignments, Mr. Nelson was promoted to the company's corporate office in 1973, where he assumed national customer development responsibilities. He was also a member of the startup team that introduced UPS service in West Germany in 1976. He has served as customer group manager, finance manager and chief financial officer and in 1983, was elected a UPS director and senior vice president. He then became vice chairman before assuming the top post at UPS.

PARTICIPANT BIOS

Amgen

Steven Galson, MD, MPH
Senior Vice President, Global Regulatory Affairs and Safety

Dr. Steven K. Galson, senior vice president, Global Regulatory Affairs and Safety, joined Amgen in 2010 as VP, Global Regulatory Affairs. Prior to Amgen, Galson was senior vice president for Civilian Health Operations and chief health scientist at Science Applications International Corporation. Galson spent more than 20 years in government service, including two years as acting Surgeon General of the United States. Previously, he served as director of the Food and Drug Administration's (FDA) Center for Drug Evaluation and Research (CDER), where he provided leadership for the center's broad national and international programs in pharmaceutical regulation. Galson began his Public Health

Service (PHS) career as an epidemiological investigator at CDC after completing a residency in internal medicine at the Hospitals of the Medical College of Pennsylvania.

Bank of America

Stan Stavro, CBCP
Senior Vice President, Global Business Continuity & Recovery

At Bank of America, Stan Stavro is responsible for external/industry engagement; enterprise business continuity scenario-driven exercises (internal and external to the bank); emerging risk identification / treatment; and the Employee Unavailability Effect Team, a designated enterprise response team responsible for employee impacts at the crisis-potential level. Earlier in his career, Stavro was at the Federal Reserve Bank of Atlanta and at the John H. Harland Company (former Atlanta-based Company). Stavro received his Bachelor of Science in Industrial Management with a minor in Economics from the Georgia Institute of Technology and has attended graduate studies at Cornell University (Executive Development Program) and Georgia State University (Executive MBA Program).

Bayer Corporation

Ray Kerins, MS
Senior Vice President and Head of Communications, Government Relations & Policy

Ray Kerins manages all communications, government relations, policy and advocacy for Bayer Corporation. He oversees the Bayer U.S. Foundation, is a member of the Bayer U.S. Country Council. He serves as vice-chair of Bayer's political action committee. Previous positions held by Kerins include vice president of external affairs & worldwide communications for Pfizer; executive director of public affairs for Merck & Co.; and executive vice president/managing director at GCI Group. He also held several senior-level positions at Porter Novelli. Kerins is the recipient of many company and industry awards, including the "2017 In-House Professional Award" by PR Week Magazine. Kerins holds a master of science and bachelor of arts degree from Iona College.

Cargill, Inc.

Mike Robach
Vice President, Corporate Food Safety, Quality & Regulatory

Michael Robach joined Cargill in January of 2004 to lead the company's corporate food safety and regulatory affairs programs. Since that time, Robach has increased the department's scope to include animal health and quality assurance. He continues to refocus the department toward global efforts in line with Cargill's vision of being the global leader in nourishing people. Robach started his career with Monsanto Company. Prior to joining Cargill, he headed up technical services for Conti Group's meat and poultry businesses.

Robach is a graduate of Michigan State University and Virginia Tech. He is past president for Safe Supply of Affordable Food Everywhere (SSAFE), chairman of the board of directors of the Global Food Safety Initiative (GFSI), a member of the Scientific and Regulatory Affairs Council Executive Committee for the Grocery Manufacturers Association, and a member of the U.S. Poultry and Egg Association's Research Advisory Committee.

Citigroup

Lori Zimmerman, MD
Corporate Medical Director

Lori Zimmerman directs the operations of nine on-site medical clinics and thirty staff members nationally for Citigroup; develops and manages Live Well at Citi, the company's global health and wellness initiative; provides global health services for expatriate staff and international business travelers; serves as the primary medical advisor for all US regulatory compliance and global health preparedness and policy; and provides patient care. She joined Citi in 1989.

Zimmerman has an undergraduate degree from the University of Pennsylvania and an MD from the Mount Sinai School of Medicine. She completed her residency in Internal Medicine at Lenox Hill Hospital in New York City.

CSX Corporation

Craig Heligman, MD, MS
Assistant Vice President and Chief Medical Officer

Craig Heligman has been employed with CSX Transportation since 2012. He has been a consultant for other Class I railroads including Union Pacific Railroad and Kansas City Southern Railroad since 1998. Heligman's past positions include Director of Employee Health at University of Kansas Medical Center, Medical Director for Hallmark Cards, 2nd Vice President and Medical Director for Fortis Benefits Insurance, and has provided direct patient care and consultative occupational medicine services throughout his career.

Heligman holds a BA in Biology from the University of Missouri – Columbia, a Master of Science in Health Sciences from Purdue University, and an MD from St. Louis University Medical School. He completed his residency in Occupational Medicine at Methodist Hospital in Indianapolis, Indiana and is Board Certified by the American Board of Preventive Medicine in Occupational Medicine.

Exxon Mobil Corporation

Deena L. Buford, MD
Global Medical Director, Medicine and Occupational Health Department

Deena Buford leads the department at Exxon Mobil Corporation that delivers services to over 80,000 ExxonMobil and affiliate employees worldwide. In addition to traditional work-related occupational health services, their service portfolio includes emergency response, travel medicine, industrial hygiene, drug testing, infectious disease support, and health promotion services delivered across a global network of over 90 clinics.

Buford completed her undergraduate education at Duke University, obtaining degrees in Psychology and Chemistry. She attended medical school at Meharry Medical College in Nashville, Tennessee, completed a residency in Occupational Medicine, and obtained a Master's of Science in Public Health at the same institution. She is board certified in Occupational Medicine.

Malick Diara, MD, MBA, MPH
Public Health Manager, Corporate Medicine and Occupational Health (MOH) Department

Malick Diara joined Exxon Mobil Corporation in 2009 with more than 20 years of experience in international health. As a member of the MOH leadership team, his responsibilities are focused on infectious disease prevention and control in ExxonMobil workplaces, and recently, on management oversight of the Company Culture of Health Program.

Previously, Diara worked with private non-profit organizations in Washington, DC, for nine years and in West Africa for 12 years, where he supported the design, implementation and evaluation of global, national or local public health programs. Diara is a physician with a Medical Doctorate from Dakar

School of Medicine in Senegal, a Master's in Business Administration from the Paris School of Business – Institut Supérieur de Gestion, and a Master's in Public Health from Tulane University, Louisiana.

HCA (Hospital Corporation of America)

Kenneth Sands, MD, MPH
Chief Epidemiologist and Chief Patient Safety Officer

Kenneth Sands joined HCA in early 2017. Prior to this, Sands served as Chief Quality Officer at Beth Israel Deaconess Medical Center (BIDMC), where he held various positions since 1993, including Senior Vice President, Vice President of Health Care Quality, and Hospital Epidemiologist. He was also an Associate Professor of Medicine at Harvard Medical School.

Sands attended Colgate University and Dartmouth Medical School. He completed residency training in Internal Medicine at Beth Israel Hospital, Boston, and fellowship training in Infectious Disease at the Harvard Medical School joint program. During fellowship, Dr. Sands focused on hospital epidemiology and completed a Masters of Public Health degree in Epidemiology at Harvard School of Public Health.

Eunice "Jackie" Blanchard, RN, MSN
Assistant Vice President, Infection Prevention

Eunice "Jackie" Blanchard is the newly appointed Assistant Vice President, Infection Prevention, at HCA where she reports directly to the Chief Epidemiologist and Patient Safety Officer in the Clinical Services Group. Prior to joining HCA, Blanchard was system director for infection prevention at New Jersey-based Atlantic Health System. At Atlantic Health, she was responsible for the transition from a decentralized, facility-based infection prevention model to a coordinated system based program. She was the leader in reducing healthcare associated infections (HAI's) across the enterprise as well as leading the sepsis collaborative. Blanchard is a registered nurse. She received her Bachelor of Science degree in Nursing from The College of New Jersey, and her Master of Science degree in Nursing from the University of

Medicine and Dentistry of New Jersey. She is board certified in infection prevention and control, and holds a six sigma greenbelt in Process Improvement methodology.

Johnson & Johnson

Chris Lepore
Vice President, US State Government Affairs

Chris Lepore manages Johnson & Johnson's state legislative and regulatory team across the United States and Puerto Rico. He is a member of Johnson & Johnson's Government Affairs Global Leadership Team, which is responsible for setting the function's strategic direction. Formerly, Lepore served as Senior Director of State Government Affairs, for Johnson & Johnson, leading the function's Southeast Region team. He joined Johnson & Johnson in 2004 as Director of State Government Affairs with responsibility for states in the Rocky Mountain West. Before joining Johnson & Johnson he was Manager of State Government Affairs for Schering-Plough Corporation. Lepore is a graduate of the

University of Northern Colorado where he received a Bachelor of Arts Degree.

KYNE

David Kyne
Founder & CEO

David Kyne founded KYNE in 2009 to focus on connecting public and private sector organizations to address unmet global and domestic health needs. Kyne leads a rapidly growing team that works with pharmaceutical, biotechnology and medical device companies; corporate foundations; public health bodies; UN agencies and NGOs. He is an experienced speaker trainer, having prepared spokespeople from across KYNE's client portfolio. Prior to founding KYNE, he led the New York Healthcare practice at the global public relations firm Hill+Knowlton Strategies (H+K). During his tenure, he oversaw transformative practice growth managing a team that grew to 40 and leading global and domestic

engagements for clients such as Pfizer, Amgen, Merck and Johnson & Johnson. In 2009, he led a campaign for consulting firm Deloitte, which was awarded PRWeek's "Healthcare Campaign of the Year." Prior to his time at H+K, David spent five years with GCI Group in New York where he was the global relationship manager for the agency's largest client account, overseeing product and corporate public relations with a focus on the company's HIV/AIDS portfolio and therapeutic areas including hepatitis C, cardiovascular disease and urology. Kyne earned a Bachelor of Arts degree in history and politics from University College Dublin and a master's degree in public relations from the Dublin Institute of Technology.

Michele Malter Kleinmann
Senior Vice President

As senior vice president at KYNE, Michele Kleinmann oversees strategic communications for a number of the agency's non-profit clients focused on global health and health equity. She also leads the new business taskforce, working closely with the senior leadership team on new business strategy and insight generation. Kleinmann has been with KYNE since 2012 and has worked with biopharmaceutical, non-profit and government clients across multiple disease categories, including malaria, maternal health, cardiovascular disease, oncology, hemophilia and smoking cessation. She also planned a convening at The Rockefeller Foundation's Bellagio Center on improving communication during global health

emergencies, a subject that she is particularly passionate about. Prior to joining KYNE, Kleinmann was development manager at Malaria No More. Previously, Kleinmann worked at Acumen, a global non-profit venture capital fund, where she had principal responsibility for writing proposals, grant reports and partner communications relating to health, water, energy and agriculture in South Asia and East Africa.

Novartis Pharmaceutical Company

Robert S. Goldsmith, MD, MPH, FACOEM
Executive Director for Employee Health

At Novartis Pharmaceutical Company, Robert Goldsmith's responsibilities include oversight of occupational health, emergency medical services, acute care, and wellness programs. He is currently working on novel programs that expand employer-sponsored primary medical care. Prior to his employment with Novartis, he served as Associate Global Medical Director for the General Electric Company and had been in private medical practice in his hometown of Stamford, Connecticut. Goldsmith received his medical degree from Albert Einstein College in New York, trained at Greenwich Hospital and the Yale-New Haven Medical Center, and earned his Master's Degree in Public Health from the University of Connecticut. He is a clinical instructor in the Department of Medicine at Columbia University. In addition to his corporate career, Dr. Goldsmith is team physician for Stamford's high school athletes and has published on occupational risk among marijuana users, innovations in primary prevention and exercise-induced asthma.

Pfizer, Inc.

Nicole L. Shaffer, DNP, CRNP-BC, COHN-S, FAAOHN
Director of Occupational Health & Wellness

Nicole Shaffer oversees all operations for the Occupational Health Clinics, Disability program, Global health Threats, and Healthy Pfizer and is based out of Collegeville, PA. Shaffer has been with the company for 16 years.

RB (Reckitt Benckiser)

Hal Ambuter
Senior Director, Regulatory and Government Affairs

Hal Ambuter serves as senior director of regulatory and government affairs at RB, a position he has held since May 2017. He was previously director of regulatory and government affairs, North America. He has a B.S in Chemical Engineering and has worked in Product Development for Procter & Gamble and B.F. Goodrich. His current responsibilities include ensuring that the company's products are in full compliance with all federal, state, and local regulations and working with various government agencies on new regulations.

Lynn Kenney
RB Head of Corporate Communications, North America

Lynn Kenney serves as communications officer for RB North America as well as support for global communications as needed. She is the charity lead for North American Corporate Social Responsibility efforts including strategic oversight for RB's partnership with the local branch of its global charity, Save the Children, raising approximately \$1.3 million each year. As RB's "cheer officer" she is also responsible for developing strategic and fun opportunities for employees to engage with the RB culture and each other.

UPS (United Parcel Service)

Janice Hartgens, BS, BA, RN
Director of Occupational Health and Wellness

Janice Hartgens leads and oversees the global occupational health strategy and implementation for UPS employee wellness, strategies with Corporate Health and Safety Process (CHSP), injury prevention, and cost containment. In this role, she develops cost-effective health and safety services for UPS's employees that align with the company's global strategy and business plan. Hartgens also manages processes related to health and safety, wellness, UPS's policies, and regulatory agencies' protocols and laws.

Walgreens

Rick Gates
Senior Vice President of Pharmacy and Health Care

Rick Gates serves as senior vice president of pharmacy and healthcare, overseeing commercial development and sales, contracting, pharma development, pharmacy supply chain, and clinical programs and alliances. He formerly served as group vice president for pharmacy prior to his recent promotion in January 2018 and has held a number of leadership roles at Walgreens.

After joining Walgreens as a pharmacist and pharmacy manager in 1995, Gates spent most of his career at the company in store and pharmacy operations before joining Walgreens support office. He became executive pharmacy director of western operations in June 2009 and, while in that role, was responsible for pharmacy integration during the Duane Reade acquisition. He also led a team ensuring operational enablement and execution of strategic programs. He currently serves as a board member of the National Association of Chain Drug Stores Foundation and the University of Iowa College of Pharmacy Leadership Board, and he's an active member of the American Pharmacists Association, National Council for Prescription Drug Programs and National Specialty Pharmacy Association.

Walmart

Betsy Hall, MS
Director, Global Public Policy

Betsy Hall manages policy initiatives on Health & Wellness and Associate Benefits at Walmart and joined the company in 2014. As a member of the Global Public Policy team, she is responsible for helping set legislative strategy and regulatory policy at the federal, state, and local level for Walmart and Sam's Club.

Previously, Hall served as Director of Government Relations and External Affairs for Centene Corporation in South Carolina. She has also served as Legislative Assistant to United States Senator Richard Durbin in Illinois. Hall holds a Bachelor of Business Administration from Southern Illinois University-Edwardsville and a Master's of Political Science from Southern Illinois University-Carbondale.

The Walt Disney Company

Lori Schwartz, MD
Director, Global Medical Operations

At the Walt Disney Company, Lori Schwartz directs medical operations, which is part of Corporate Crisis Management. She chairs the Medical Advisory Committee for the Enterprise, coordinates a variety of occupational and wellness programs, supervises 4 medical clinics with nurses and a coordinator.

Previously, Schwartz was the Chief Medical Officer for the U.S. Merchant Marine Academy (USMMA), employed by North Shore Hospital, from 1996 to 2002. She served as the primary care provider for all of the students there and supervised a staff of nurses and physician assistants. Schwartz has an undergraduate degree from the State University New York at Stony Brook, attended the State University of New York at Brooklyn medical school, and completed her medical residency training at North Shore Hospital in Manhasset, NY.

CDC PRESENTER BIOS

Robert R. Redfield, MD
Director, CDC

Robert R. Redfield, MD, is the 18th Director of the Centers for Disease Control and Prevention (CDC) and Administrator of the Agency for Toxic Substances and Disease Registry. He has been a public health leader actively engaged in clinical research and clinical care of chronic human viral infections and infectious diseases, especially HIV, for more than 30 years.

He served as the founding director of the Department of Retroviral Research within the U.S. Military's HIV Research Program, and retired after 20 years of service in the U.S. Army Medical Corps.

Following his military service, he co-founded the University of Maryland's Institute of Human Virology with Dr. William Blattner and Dr. Robert C. Gallo and served as the Chief of Infectious Diseases and Vice Chair of Medicine at the University of Maryland School of Medicine.

Dr. Redfield made several important early contributions to the scientific understanding of HIV, including the demonstration of the importance of heterosexual transmission, the development of the Walter Reed staging system for HIV infection, and the demonstration of active HIV replication in all stages of HIV infection.

In addition to his research work, Dr. Redfield oversaw an extensive clinical program providing HIV care and treatment to more than 5,000 patients in the Baltimore/Washington, D.C. community. Dr. Redfield served as a member of the President's Advisory Council on HIV/AIDS from 2005 to 2009, and was appointed as Chair of the International Subcommittee from 2006 to 2009.

He is a past member of the Office of AIDS Research Advisory Council at the National Institutes of Health, the Fogarty International Center Advisory Board at the National Institutes of Health, and the Advisory Anti-Infective Agent Committee of the Food and Drug Administration.

Anne Schuchat, MD (RADM, USPHS)
CDC Principal Deputy Director

Anne Schuchat, MD, began her public health career in 1988 when she came to CDC as an Epidemic Intelligence Service officer. She is currently CDC principal deputy director, a role she has held since September 2015. She served as acting CDC director from January-July 2017 and was director of CDC's National Center for Immunization and Respiratory Diseases from 2006-2015. Other CDC leadership posts include: acting director of the Center for Global Health (2012-13) and the National Center for Infectious Diseases (2005) as well as Chief of the Respiratory Diseases Branch (1998-2005). Dr. Schuchat was the initial medical director of ABCs – the Active Bacterial Core surveillance of the Emerging Infections Program Network and spearheaded prevention of newborn infection from group B streptococcal disease in the 1990s. She was promoted to Rear Admiral in the Commissioned Corps of the United States Public Health Service in 2006 and earned a second star in 2010. Dr. Schuchat was elected to the National Academy of Medicine (formerly the Institute of Medicine) in 2008.

Dr. Schuchat has played key roles in a number of CDC emergency responses. Most notably, she served as Chief Health Officer for CDC's 2009 H1N1 pandemic influenza response; led the CDC team responding to the SARS outbreak in Beijing in 2003; and supported the Washington D.C. field team during the 2001 bioterrorist anthrax response.

Globally, Dr. Schuchat has worked in West Africa on meningitis, pneumonia, and Ebola vaccine trials; in South Africa on surveillance and prevention projects, and represented technical and health research institutes on the GAVI Alliance board. She has authored or co-authored more than 230 scientific articles, book chapters, and reviews. Her contributions have been recognized by receipt of USPHS Meritorious Service Medals, the American Public Health Association's Maternal and Child Health Young Investigator Award, the USPHS Physician Research Officer of the Year, and an Honorary Doctorate in Science from Swarthmore College. Dr. Schuchat graduated with highest honors from Swarthmore College and with honors from the Geisel School of Medicine at Dartmouth and completed her residency and chief residency in internal medicine at NYU's Manhattan VA Hospital.

Sherri A. Berger, MSPH
Chief Operating Officer

Sherri A. Berger, MSPH, became Chief Operating Officer of the Centers for Disease Control and Prevention (CDC), one of 10 major operating divisions of the Department of Health and Human Services (HHS), in August 2011. As COO, she oversees management, facilities, and operations at the Atlanta-based public health agency. She provides substantial strategic direction for CDC's workforce and budget, while ensuring CDC has proper resources to fulfill its critical work to save lives and protect people from health threats. Specifically, Berger manages CDC's budget; oversees facilities design, maintenance, security, management analysis, and safety and personnel security; leads acquisitions, contractual assistance and grants; manages information technology and security; and directs human resources strategy, training, and workplace development.

Berger is a manager with extensive experience at both the program and senior leadership level. She began her federal career in 1996 as one of four graduate students selected nationwide to participate in the CDC/Association of Schools of Public Health Experimental Learning Program. Berger worked as an epidemiologist at the community level until moving to CDC headquarters in Atlanta to serve as a principal epidemiologic investigator. As a result of her management at the program level, she was nominated to participate in the Senior Executive Service Candidate Development Program, where she expanded her career into business management. Berger has held several leadership positions at CDC, including associate director for formulation, evaluation, and analysis in CDC's Financial Management Office, deputy director of one of CDC's national centers, and director of the agency's Recovery Act Coordination Unit.

Berger received her bachelor's in political science from the University of Florida and a master's of science in public health with a concentration in epidemiology from the University of South Florida.

Coleen Boyle, PhD, MSHyg

Director, National Center on Birth Defects and Developmental Disabilities (NCBDDD)

Coleen Boyle serves as Director of the National Center on Birth Defects and Developmental Disabilities (NCBDDD) at CDC. Dr. Boyle began her career at CDC in 1984 as part of a large effort to study the adverse health effects of exposure to Agent Orange, a herbicide used during the Vietnam War. Following that project, Dr. Boyle joined CDC's work in birth defects and developmental disabilities holding various positions of increasing responsibility until her appointment as Center Director in 2010.

Dr. Boyle has twice received CDC's highest award for scientific excellence, the Charles C. Shepard Award for outstanding scientific publication and has authored or co-authored many peer-reviewed and other scientific publications.

Debra Houry, MD, MPH

Director, National Center for Injury Prevention and Control (NCIPC)

In this role, Dr. Houry leads innovative research and science-based programs to prevent injuries and violence and to reduce their consequences. She joined the CDC in October 2014. She has previously served as Vice-Chair and Associate Professor in the Department of Emergency Medicine at Emory University School of Medicine and as Associate Professor in the Departments of Behavioral Science and Health Education and in Environmental Health at the Rollins School of Public Health. Dr. Houry also served as an Attending Physician at Emory University Hospital and Grady Memorial Hospital and as the Director of Emory Center for Injury Control. Her prior research has focused on injury and violence prevention in addition to the interface between emergency medicine and public health, and the utility of preventative health interventions and screening for high-risk health behaviors. She has received several national awards for her work in the field of injury and violence prevention.

Dr. Houry also served as an Attending Physician at Emory University Hospital and Grady Memorial Hospital and as the Director of Emory Center for Injury Control. Her prior research has focused on injury and violence prevention in addition to the interface between emergency medicine and public health, and the utility of preventative health interventions and screening for high-risk health behaviors. She has received several national awards for her work in the field of injury and violence prevention.

Hamid Jafari, MD

Principal Deputy Director, Center for Global Health

Dr. Jafari is currently serving as the Principal Deputy Director, Center for Global Health, at the Centers for Disease Control and Prevention (CDC). He was previously the Director of Global Polio Eradication at World Health Organization Headquarters, Geneva, and the overall leader of the Global Polio Eradication Initiative through February 2016. Prior to that appointment, Dr. Jafari served as the project manager of World Health Organization's (WHO's) Nation Polio Surveillance Project in India from 2007-2012. As the project manager, he was the main technical advisor to the government of India in the implementation of the nation's large scale polio eradication, measles control, and routine immunization activities, and he directed WHO's extensive network of more than 2000 field staff. Dr. Jafari previously served as Director of the Global Immunization Division in the Center for Global Health at CDC. He also served as the Medical Officer for Polio Eradication in WHO's Eastern Mediterranean regional office in Egypt on assignment from CDC.

Dr. Jafari is a graduate of CDC's Epidemic Intelligence Service (EIS) program, class of 1992. He obtained his MBBS degree from Sind Medical College, Karachi University. He completed his residency training in Pediatrics at Dartmouth Medical School and his Pediatric Infectious Disease fellowship training at University of Texas Southwestern Medical Center, Dallas, TX. Dr. Jafari completed a research fellowship at Harvard Medical School. He's certified by the American Board of Pediatrics in the sub-specialty of Pediatric Infectious Diseases. Dr. Jafari has published more than 70 scientific papers and book chapters on pathogenesis of infectious diseases, polio eradication, and other vaccine-preventable diseases.

Dan Jernigan, MD, MPH (CAPT, USPHS)

Director of the Influenza Division in the National Center for Immunization and Respiratory Diseases, CDC

Daniel B. Jernigan, MD, MPH, is the Director of the Influenza Division in the National Center for Immunization and Respiratory Diseases (NCIRD) at CDC. Prior to his appointment, Dr. Jernigan served as Deputy Directors for the Influenza Division from 2006 to 2014. He is a captain in the United States Public Health Service, and serves as the Senior Medical Officer and Senior Public Health Service Officer for the Influenza Division. As Director, he is responsible for oversight and direction of approximately 320 staff members working to reduce global burden of disease and death due to seasonal, animal-associated, and pandemic influenza.

Dr. Jernigan received an undergraduate degree from Duke University, a Doctor of Medicine from Baylor College of Medicine, and a Master of Public Health from the University of Texas. He is board-certified in Internal Medicine and has completed an additional residency in Preventative Medicine. Dr. Jernigan joined the CDC's Epidemic Intelligence Service in 1994, working in the Respiratory Diseases Branch on the prevention and control of bacterial respiratory pathogens, including *Streptococcus pneumoniae*, Group A *Streptococcus*, and *Legionella*. In 1996, he began serving on assignment from NCIRD to the Washington State Health Department as a medical epidemiologist and coordinator of national initiative to improve surveillance for emerging infectious diseases. Dr. Jernigan became the chief of the Epidemiology Section for CDC's Division of Healthcare Quality Promotion (DHQP) in 2001. In that role, he supervised numerous investigations and initiatives to characterize various hospital-acquired, device-associated, and antimicrobial-resistant pathogen issues. In 2006, Dr. Jernigan joined the Influenza Division as Deputy Director.

Dr. Jernigan has authored peer-reviewed articles and book chapters on various emerging infectious diseases topics, and has supervised outbreak investigations or viral, bacterial, and fungal infections associated with emerging and antimicrobial-resistant pathogens. He has led epidemiology and surveillance teams for national and international responses, including bioterrorism-related anthrax, the emergence of West Nile Virus, SARS, the 2009 H1N1 pandemic influenza, the Ebola response and public health management following natural disasters. During the 2009 H1N1 influenza pandemic, Dr. Jernigan served as the CDC lead for all domestic and international epidemiology and laboratory activities for the U.S. government's response. In 2015, Dr. Jernigan served as the Incident Commander for the CDC's global Ebola response.

Rebecca Martin, PhD

Director, CDC Center for Global Health

Rebecca Martin, PhD, is the Director of CDC's Center for Global Health (CGH). Since 2012, Dr. Martin has served as the Director for the Global Immunization Division, in CGH, which leads CDC's global polio eradication efforts, accelerated disease control for vaccine-preventable diseases, introduction of new and underutilized vaccines, and the strengthening of immunization systems.

Dr. Martin began her career with CDC in 1997 in the National Immunization Program, Epidemiology and Surveillance Division, and has held positions both domestically and globally in immunization and HIV/AIDS. Prior to joining CDC, Rebecca worked at the Maryland Department of Hygiene and

Mental Health in Baltimore Maryland as the immunization program epidemiologist leading efforts to increase vaccination coverage, conducting outbreak investigations, coordinating the development and introduction of Maryland's immunization registry, and supporting the state's Vaccines for Children Program. She also has worked at the Montgomery County Health Department in Maryland in HIV/AIDS programs for high-risk populations.

Since 1991, Dr. Martin has worked in the global health arena in Haiti, and has had CDC assignments in Kenya, Tanzania, and Denmark (2002-2011). Over the past 15 years, she has collaborated with multilateral organizations, including the World Health Organization (WHO) and UNICEF, and development partners, and has worked closely with ministries of health and non-governmental organizations.

Prior to her current position as director of GID, she was detailed to the WHO European Regional Office as the Regional Advisor for Immunization (2008-2011) for its 53 member states, where she spearheaded regional efforts to strengthen immunization and surveillance systems, provide evidence for the introduction of new vaccines, achieve the goal of measles and rubella elimination, and maintain the region's polio-free status. From 2006-2008, Dr. Martin served as Program Director for Strategic

Information and Human Resources for Health with the CDC Country Office in Tanzania. She led and implemented studies, in partnership with the ministry of health, to measure and evaluate the HIV/AIDS epidemic and strengthen national capacity. She was detailed to the WHO African Regional Office from 2002-2006, based in Kenya as the senior epidemiologist in the inter-country immunization program office for the eight east African countries; she served as the team lead from 2005-2006.

She received her Doctorate of Philosophy from the Johns Hopkins Bloomberg School of Public Health in international health and infectious disease epidemiology, conducting her research in Haiti on high-titer measles vaccines. Dr. Martin serves as a technical advisor on global advisory groups to WHO and GAVI Alliance. She has co-authored manuscripts and global guidelines on immunization strategies, vaccine-preventable diseases and surveillance methods.

Stephen Redd, MD (RADM, USPHS)
Director of the Office of Public Health Preparedness and Response (PHPR)

Stephen C. Redd, MD, has been the Director of CDC's Public Health Preparedness and Response (OPHPR) since January 2015. He served as CDC's acting principal deputy director from January to March 2018, and also is the acting CDC Deputy Director leading CDC's Office of Service and Implementation Science (proposed). Prior to these leadership posts, Dr. Redd was Director of CDC's Influenza Coordination Unit. During the H1N1 pandemic, he served as Incident Commander for the nearly year-long response.

Dr. Redd is a Rear Admiral and Assistant Surgeon General in the United States Public Health Service. He came to CDC as an Epidemic Intelligence Service Officer in 1985. He has investigated outbreaks such as Legionnaires' disease, developed strategies to control malaria, and worked to eliminate measles in the US. A graduate of Princeton and Emory universities, he received his medical degree with honors and completed Internal Medicine residency at the Johns Hopkins Hospital. Dr. Redd has authored more than 120 scientific publications and received numerous awards, including the Public Health Service Distinguished Service Medal and the Meritorious Service Medal.

CDC FOUNDATION STAFF BIOS

Judith Monroe, MD, FAAFP
President and CEO

Dr. Judith Monroe joined the CDC Foundation as president and CEO in February 2016. Over her career, Monroe's professional focus has centered on the intersection of primary care and public health. Prior to joining the CDC Foundation, Monroe worked for six years with the U.S. Centers for Disease Control and Prevention (CDC), serving as director of the Office for State, Tribal, Local and Territorial Support (OSTLTS). In that role, Monroe oversaw key activities and technical assistance that support the nation's health departments and the public health system.

Before joining CDC, Monroe served as the state health commissioner for Indiana from 2005 to 2010. She was president of the Association of State and Territorial Health Officials (ASTHO) from 2008 to 2009.

Monroe received her medical degree from the University of Maryland and B.S. from Eastern Kentucky University. She completed her residency in family medicine at the University of Cincinnati, a rural faculty development fellowship through East Tennessee State University, and a fellowship in obstetrics through the University of Wisconsin. She also participated in the Harvard University, Kennedy School of Government, State Health Leadership Initiative and received an Honorary Doctorate from Purdue University.

Chloe K. Tonney
Chief Innovation and Strategy Officer

Chloe Knight Tonney joined the CDC Foundation staff in 2002. As chief innovation and strategy officer, she is responsible for catalyzing creative partnerships that will advance the Centers for Disease Control and Prevention (CDC) mission to protect the health, safety and security of all Americans. Previously she served as senior vice president for external affairs, overseeing the private-sector engagement and program implementation activities of the Foundation. As the tactical officer for innovation and strategy, Tonney collaborates with CDC leaders, scientists and external partners to develop strategic alliances and foster innovation.

Tonney has more than 30 years of overall nonprofit advancement, strategy and management experience, with deep expertise in higher education and in building scientific public-private partnerships. She was instrumental in the formation of the CDC Foundation's first coalition-based activity—the Safe Injection Practices Coalition (SIPC), housed at the CDC Foundation since 2008—bringing together public, private and philanthropic partners to address this critical public health issue. Globally, Tonney has led a multi-sectoral effort targeted at rebuilding critical public health infrastructure in Haiti following the 2010 earthquake. She architected the Foundation's revenue mobilization strategy in response to the Ebola epidemic—the largest response in CDC history. Prior to joining the CDC Foundation, Tonney was the director of leadership gifts at Agnes Scott College in Atlanta, overseeing a six-fold growth in attracting resources and partners to the institution.

Tonney's experience includes work as a trustee, board member and board chair for local and national nonprofit organizations. She is a trustee for the College of Charleston Foundation and Georgia BIO board member. She is a member of the Association of Governing Boards of Universities and Colleges, the Council for Advancement and Support of Education (CASE), the Association of Fundraising Professionals (AFP) and Phi Beta Kappa. Tonney is the past president of the National Alpha Delta Pi Foundation, and an alumna of Leadership DeKalb. She received her bachelor's degree in political science and international relations from the College of Charleston in Charleston, S.C. and an Honorary Doctorate of Humane Letters from the College of Charleston.

Laura Angel
Vice President for Advancement

Laura Angel joined the CDC Foundation staff in 2011. As vice president for advancement, she is responsible for leading the advancement team in developing, building and implementing public-private partner strategies with national and international partners and philanthropy advocates. She helps guide the planning, coordination and implementation of all key fundraising and stewardship activities for the CDC Foundation. Angel serves as a key liaison between CDC's Office of Chief of Staff and the CDC Foundation's executive team regarding all partnership development efforts. Angel brings to the CDC Foundation team a 30-year combination of nonprofit and private sector expertise in advancement,

management and business development. Prior to joining the CDC Foundation, she served as director of development with The Children's Museum of Atlanta. Angel is a member of the Council for Advancement and Support of Education (CASE) and the Association of Fundraising Professionals (AFP). She holds a Bachelor of Business Administration with a major in finance from the University of North Georgia.

Pierce Nelson
Vice President for Communications

Pierce Nelson joined the CDC Foundation in 2012 and brings more than 20 years of communications experience to the CDC Foundation. Before joining the Foundation, he worked for the Federal Reserve Bank of Atlanta where he spent the 15 years in several communications capacities, most recently as assistant vice president and public information officer. His functional responsibilities included external communications, media relations, policy speeches, government outreach, crisis communication, web/social media and corporate identity. Prior to his work at the Fed, Nelson served in public affairs and corporate communications positions with Riverwood International Corporation and the Georgia

Department of Transportation. Nelson earned a BA in communications from Georgia State University. In addition he attended

executive development programs at the Wharton School of the University of Pennsylvania and at Columbia University's business school.

Brandon Talley, MPH
Vice President for Programs

Brandon Talley joined the CDC Foundation in 2008 and is responsible for nearly 125 employees/field employees and more than 250 programs. Prior to Talley's current role, he was the Associate Vice President for Programs – Tobacco Control. In that role, he led strategic planning, provided operational oversight, and managed external affairs for a tobacco control portfolio totaling nearly \$100 million in donor investments with operations in more than 75 countries. Talley has a bachelor's degree in science, technology, and culture from the Georgia Institute of Technology as well as a MPH degree in health policy and management from the Georgia State University School of Public Health. He is currently a PhD candidate in Public Health – Biostatistics at Georgia State University. He recently received his first National Institutes of Health and Food and Drug Administration doctoral research grant as principal investigator to study knowledge and perceptions toward electronic nicotine delivery systems among primary care practitioners.

Alison Thompson, MPA
Association Vice President for Advancement

Alison Thompson joined the CDC Foundation in 2011 as an advancement officer. She then served as director of partnerships. In 2017, Thompson was named associate vice president for advancement. In her current role, she oversees the organization's public-private partnership work, as well as continues to manage her own portfolio of public-private partnerships. Thompson was selected to participate in the Association of Fundraising Professionals Greater Atlanta Chapter Diversity Fellows Program. She has also served on the board of directors at the Albert T. Mills Enrichment Center, a nonprofit that serves preschoolers from Atlanta's toughest neighborhoods.

Thompson holds a bachelor of arts degree from Davidson College and a Master of Public Administration with a concentration in nonprofit management from Georgia State University. While pursuing her degree, Thompson obtained a Certificate in Nonprofit Management/Leadership from the Nonprofit Leadership Alliance, a competency-based program focusing on nonprofit leadership skills.

Lisa Splitlog
Director, CDC Value Communications

Lisa Splitlog is a strategic communications professional with leadership experience in nonprofit and corporate sectors. Since 2009, she has implemented and managed mission-critical programs at the CDC Foundation where she currently serves as director of CDC Value Communications. Before joining the CDC Foundation, she served as an independent communications consultant, as well as a contractor for CARE USA, where she led a communications team for CARE's first global conference to end poverty in Johannesburg, South Africa. In addition to her assignments with the CDC Foundation and CARE, she has served as a senior writer and editor for leading Atlanta-based organizations

including Cox Enterprises, Georgia-Pacific, Emory Rollins School of Public Health and Children's Healthcare of Atlanta. She holds a bachelor's degree in journalism from the University of Florida.

Thursday, April 19, 2018 | 8:00 a.m. – 3:00 p.m.

7:30-8:00 a.m.	<i>Transportation from Emory Conference Center to CDC; meet in the hotel lobby at 7:30 a.m. for 7:40 am shuttle</i>

Subject: CIO & DIV Director Conference Call with CDC Director
Importance: High

Leaders and Colleagues:

Please join Dr. Redfield on **Wednesday June 20th, from 2:00-2:30p.m.** for a CIO Director & Division Director Conference Call. This will be an opportunity for the CDC Director to share important updates.

This call will have the incoming lines muted due to the expected high number of participants and to mitigate call disruptions from background noises.

There may be time to answer limited questions during the call, so if Division and CIO Directors have questions for the Director, please try to send them as early as possible to [\(b\)\(6\)](#) and we'll try to get to as many of them as possible during the call.

Due to phone bridge size limitations, participants for this call should only be CIO Directors (+ Community of Practice Directors) and Division Directors (or your designee if unable to join). Please do not share call-in details with anyone else beyond your delegate if you cannot join.

Conference Call Details:

Will be provided by Tuesday, 19 June, after you've RSVP'd**

****Please RSVP before 1200-noon on Tuesday 19 June, to Brad Bartee (yxa0@cdc.gov) with your name (or delegate name) & organization title.**

- All callers should connect to the bridge line starting at 1:40 pm on the 20th to identify yourself to the moderator
- To be granted access to the call, invited participants must successfully RSVP and announce yourself to the moderator when connecting

If you have any questions or concerns, please contact Scott Scales (ixj3@cdc.gov) or Brad Bartee (yxa0@cdc.gov) for assistance.

Thank you in advance!

Scott Scales

Arrival Instructions

Dear Guest,

Entry Information

All attendees will enter the Eisenhower Executive Office Building (EEOB) at the corner of **17th Street and State Place** (see attached map). Please arrive early and note that late arrivals may not be accommodated. You will be standing outdoors while in line, so please dress appropriately for the weather conditions.

Identification

All guests 18 years of age or older will be required to present a valid, government-issued photo identification (detailed below). All foreign nationals must present their passport. All other forms of foreign identification will not be accepted.

All information submitted (e.g. name, date of birth, city, etc.) must exactly match the government-issued photo ID you will present when arriving at the White House.

The following forms of photo ID are acceptable for presentation to USSS upon entry to the White House complex:

- Valid government-issued United States identification card (e.g. drivers license, military ID)
- Valid United States or other official government-issued passports

No other forms of identification will be accepted; photocopies, expired IDs, or other transmissions of these documents are NOT valid.

Prohibited Items

The following items are prohibited:

- Cameras or video recorders
- Any pointed object, including pocket knives
- Strollers and diaper bags
- Aerosol containers
- Guns, ammunition, fireworks, electric stun guns, mace, martial arts weapons/devices, or knives

No storage facilities are available on or around the White House complex. Individuals who arrive with prohibited items will not be permitted to enter.

Parking

On-street parking is not available near the White House, and use of public transportation is strongly encouraged.

Other Information

Guests should be advised to wear clothing appropriate for the nature of the White House – business or business casual. **Jeans and shorts are not allowed.**

To: [McCallister, Jeremy \(CDC/OD/OCS\)](#)
Subject: DL Item for Dr. Redfield
Date: Tuesday, April 10, 2018 11:17:22 AM

Hi Jeremy,

I am not sure if Pam Dougherty submitted a Decision List Item to you or not, so I apologize if this is duplicative.

Subject for Requested Meeting/Call: Closing Address at CGH Annual Meeting

Suggested Date: 6/5/2018

Time: 4:30-5:00 pm

Duration: 30 minutes

Location if Outside of CDC: At Hyatt Regency Downtown: 265 Peachtree St NW, Atlanta, GA 30303

Purpose of Meeting/Brief Description: The CGH Annual meeting is held the first full week of June. Country Directors, Deputy Directors, Division and Center staff all come together for 1-2 days of meetings. The purpose of the meeting will be to discuss and define/position ourselves for success in the future.

Question(s): Dr. Redfield provide closing remarks to the CGH Annual meeting.

Agenda (if applicable): Draft agenda will be shared by the middle of May.

Number of Attendees and Composition: Over 500 US-based and Country-based CGH staff, including Country Directors, Deputy Country Directors, Division Directors, Branch Chiefs, program staff, locally-employed staff and other guests.

Key Participants (if applicable): The panel just prior to the closing remarks will include representatives from across the USG who will present on USG global priorities. Panelists are TBD.

Source Invitation if Applicable: NA

In addition, Dr. Redfield, and others from the OD, including Dr. Schuchat will be invited to a social event from 5-7p that evening. Location and final times TBD and I will send a separate DL item for it.

Thanks Jeremy!

Subject: RE: New Date & Request for Update: 2018 CDC- ATSDR Honor Awards Ceremony (Friday, June 1, 2018 at 1:00 – 2:30 pm)

Good afternoon Emma,

After speaking with Scott, we can move forward with scheduling the breakfast with the CDC Director for the award winners only.

Dr. Redfield is available as follows:

- June 12th 9:00-10:30 a.m.
- June 19th 9:00-10:30 a.m.

Please advise which date works best and we will confirm the breakfast on the Director's calendar.

Thanks,
Teresa

Teresa Williams

Subject: RE: Honor Awards Ceremony 2017 - Reservations and Logistics Committee Planning & Update

Hi Emma. Thanks for reaching out. Let's touch base on this topic in mid-March. Since the Honor Awards is not until 14 May, we still have time, and it's likely that we'll have a different Director by then,

so therefore would need to reevaluate anyhow. Regardless, when it's time to schedule, Teresa Williams and Jeremy McCallister, both on the cc line will be the POCs. We'll also need to confirm that the Director would want to have a b-fast with awardees and committee members both, since we did not include committee members for the last time or two, and may be unable to again due to budget constraints. -Scott

Draft Agenda

Partners in Hope: Strengthening the Role of Faith-based Providers in the Continuum of Care for Addiction Recovery

NOV. 7, 2018, 11:30 a.m. – 5:00 p.m. ET

Heritage Foundation, 214 Massachusetts Ave., NE 20002
(11:30 a.m. registration)

NOV. 8, 2018, 8:00 a.m. to 4:30 p.m. ET

U.S. Department of Health and Human Services
200 Independence Ave., SW 20201 Room 800

Goals: Day One- The Heritage Foundation

The Faith Factor and the Continuum of Care

- Explore the unique role capacities and challenges to faith-based providers of comprehensive addiction treatment and recovery support services.
- Identify existing practices and opportunities for bridging the clinic and clinical services to faith-based community recovery support services.

Time	Agenda
11:30 a.m. - 12:30 p.m.	Registration This facility and lunch have been generously provided by The Heritage Foundation*
12:15 p.m. 10 min	Welcome Shannon Royce, Director, Center for Faith and Opportunity Initiatives
25 min	Introductions and Logistics Heidi Christensen- overview of day and introduce facilitators, staff, and note takers.
5 min	<i>Group moves to auditorium</i>
1:00 p.m. 60 min.	Opening Remarks- (Shannon Royce Introduction) Dr. Robert R. Redfield, Director, M.D., Director, Centers for Disease Control and Prevention
2:00 p.m.	Exploring the Faith Factor: John Bartkowski, Professor of Sociology, University of Texas, co-author, <i>The Arc of Faith-based Initiatives</i> - (video remote presentation) <i>Seeding the discussion: Can faith-based organizations be nimble social actors in order to meet the demand of diverse clientele and offer services that strengthen comprehensive care?</i>
2:45 p.m.	Identifying and Strengthening the Faith-Factor Element Questions: In order to strengthen the role of faith-providers in the continuum of care- from clinic to community- for addiction recovery – what do we need to understand about faith-based provision of services?

*The views expressed during this meeting and the resources provided are for informational purposes only and does not constitute an endorsement by The Heritage Foundation, CE Analytics, or HHS.

	What are the challenges you perceive in the integration of clinical services and as it relates to the integrity of your faith-based services?
3:15 p.m.	How We Understand the Faith-Based Component of Our Work. Project 80. Kris McFadden, PA Adult and Teen Challenge <i>Shares their Integrated faith-based and clinical model of care, Project 80.</i>
3:35	Break
3:45 p.m.	Making the Connection: Clinic to Faith-based Recovery Support <i>In advance of this meeting we talked about “a continuum of care for addiction recovery” and the need to expand access to clinical services whether by referral, partnership or integration. This group exercise will raise the up the questions and identify the challenges and opportunities as they arise during different moments of engagement with an individual and their specific circumstances.</i>
10 min	Shannon Royce/Pastor Greg Delaney Debrief: What did we hear today that needs to get pulled in tomorrow and into our work together?

Goals: Day Two - Humphrey Building, U.S. Department of Health and Human Services

Exchanging Expertise between Community and HHS Subject Matter Experts (SMEs)

- Explore best practices in assessment and navigation.
- Gain a better understanding of the WHY and HOW of MAT.
- Address funding mechanisms that include faith-based providers
- Learn about new telemedicine protocols that will increase access to medically assisted therapies.
- Tackle the data challenge and how faith-based providers are demonstrating outcomes.

Time	Agenda
8:00 a.m.	Welcome and review of the day’s agenda. Heidi Christensen <i>Today is a day of learning from one another and from HHS Subject Matter Experts (SMEs). Review of day- answer any questions...</i>
8:15 a.m.	So What, Now What? <i>A group exercise what happened that was relevant yesterday or in conversations or in your own reflections of our time together.</i> <i>What did you notice, what facts or observations stood out?” Then, after all the salient observations have been collected, ask, “SO WHAT? Why is that important? What patterns or conclusions are emerging?</i> <i>NOW WHAT? What actions make sense—what do we want to make sure we address or flag for our learning agenda?</i>
9:00 a.m.	The Opioid Crisis, Trends and Opportunities: What Front-line and Community-based Providers Need to Know ADM Brett Giroir, M.D. Assistant Secretary for Health at the U.S. Department of Health and Human Services

**The views expressed during this meeting and the resources provided are for informational purposes only and does not constitute an endorsement by The Heritage Foundation, CE Analytics, or HHS.*

9:45 a.m.	<p>The Front Line, Health Systems, & Navigation <i>An opportunity to highlight models and what's working to strengthen faith-based participation on the front line, in acute situations and in navigating individuals into treatment or recovery support.</i></p> <ul style="list-style-type: none"> • Emergency Room Navigators/Recovery Coaches- Jeanne Ang: Advocate Aurora Health Chicago • Faith-based ER navigator, NorthStar Community Church, Teresa McBean • Universal SUD Screening & Transitional Clinical Care: Niranjan Karnik/Kristin Hill, Rush University Medical College. • Deployed chaplains: Chaplain Glenn Davis, Wake Forest Baptist Medical Center • Navigators- Recovery Navigate Recovery Gwinnett, Susan and Farley Barge
11:00 5 min	
11:05	<p>MAT at the Intersection of Recovery Housing and recovery support services Art Kleinschmidt, MBA, PhD. Senior Advisor Substance Abuse, Office of the Assistant Secretary /CSAT/SAMHSA</p>
11:30	<p>Why MAT and How? A spotlight on Integrated Faith-based and Clinical Care Models: Community SME's talk about how they came to deliver medication assisted therapies and how they integrate or partner to provide them.</p> <ul style="list-style-type: none"> • April Barnes, The Next Door (TN) • Beau Hill, Salvation Army Harbor Complex, Cleveland • Michele Steeb, Saint John's Program for Real Change
12:30 p.m. Working Lunch	<p><i>Our lunch and refreshments this afternoon has been generously provided by CE Analytics.*</i></p> <p>Brass tacks on How to Increase Access to MAT <i>Working Lunch: Using a worksheet, tables will build a list of the integration or partnership issues that need to be considered in creating access to clinical services.</i></p> <p>Task: Creating an Agenda for the HOW <i>Identify at least 10 issues that need to be on an agenda that need to be considered for faith-based providers to increase access to medication assisted therapies. (Naming not solving).</i></p>
1:00 p.m.	<p>Learning from the Access to Recovery Program Arne Owens, Principal Deputy Assistant Secretary for Mental Health and Substance Use Celebrity interview with Mike Rogers, Higher Ground Recovery Center (Access to Recovery Site, Missouri)</p>

Cc: Williams, Teresa (CDC/OD/OCS)
Subject: RE: Meeting Request with Dr Dzau and Dr. Redfield, CDC Director

Tracie,

We have two buildings and could host Dr. Redfield at either one. They are located at 500 5th Street NW and at 2101 Constitution Avenue NW. It should not be a problem to confirm the location closer to the date. I will block sufficient time in case Dr. Dzau needs to travel.

Thanks,
Morgan

Hi Tracie,

Apologies for the delay. Unfortunately, all of the dates you've proposed are days where Dr. Dzau will be traveling outside of DC. He would very much like to meet Dr. Redfield, but schedules don't seem to be aligning. Are there any other June or July dates when he will be in DC? If an in person meeting seems impossible, perhaps we could arrange an introductory call instead.

Thanks,
Morgan

Morgan,

Good afternoon. I am reaching out to see if Dr. Dzau would be available to meet with Dr. Redfield for 30 minutes when he is in DC on May 14th? Currently Dr. Redfield has availability from:

- 9:00-10:30am
- 12:00-1:30pm
- 3:30-5:00 (tentative)

Please let me know if any of these times work with Dr. Dzau. Many thanks

Kind regards,

Tracie Strength

Hi Anne, hope you are doing well. I am interested in meeting with Dr. Redfield. I know he is here tomorrow and also comes to DC periodically. What would be the best way to connect with him?

Also, let me know when you are in town. Would deeply value the opportunity to talk more.

Thanks for your dedicated leadership.

All the best,

Susan

Dear Teresa,
The senate dining room is closed tomorrow as they are not in session.
Is Dr Redfield in DC? My flight from Boston is delayed but am hopeful to be back in time.

Can we move lunch to Jefferson hotel on 16th and M st NW ? Or Fiolas on 7th and Pennsylvania NW?

Or we can reschedule
For another date when the senate is session?

Please give me a call at 240 4320281 to discuss.

Sorry for this inconvenience.

Best regards

Good morning Dr. Blumenthal,

Unfortunately Dr. Redfield just received a scheduling conflict on August 21st at 12:30 p.m. and we need to reschedule your lunch meeting.

Would you be available between 9-10:00 a.m. for a 30 minute meeting on August 21st?

If you prefer a lunch meeting, we will contact you once we know when Dr. Redfield is scheduled to back in DC after August 21st.

My apologizes for any inconvenience.

Kind Regards,
Teresa

Subject: WV visitors

Good morning Ashley and Kyle,

As you may know, NCBDDD is leading *CDC's Public Health Grand Rounds* on Tuesday, September 18 and the topic is Surveillance for Emerging Threats to Pregnant Women and Infants: Data for Action. Several leaders from West Virginia, including Marshall University, will be in town to attend the Grand Rounds and meet with CDC staff (see below for names/titles). They are staying until around 3:30 pm on Wednesday, September 19. We are scheduling meetings for them with different teams on that day and think this would be a nice opportunity for Dr. Redfield to hear more about and discuss the impact of Neonatal Abstinence Syndrome and the prenatal opioid exposure on pregnant women and children. NCBDDD has been in discussions with West Virginia about ways to collaborate, including an Epi-Aid related to these maternal and child health issues and we have been extremely impressed with their innovative approaches. Please let us know if Dr. Redfield would be interested in meeting with them. We can work around Dr. Redfield's schedule for anytime on Wednesday, September 19 until 3:30 pm when they will need to leave the airport. Tuesday, September 18 is also an option.

Thanks,
Coleen

WV Visitors:

Amy Saunders, MA
Director, Center for Excellence for Recovery
Marshall University

* Of note, Amy served on a panel with Dr. Redfield while he was in Huntington, but did not get a chance to further engage with him because he had to leave. Marshall University staff work with Lily's Place and are undertaking many innovative approaches to understand short-term and longer-term outcomes of prenatal opioid exposure to better serve moms, babies, and children.

Marianna Footo-Linz, PhD
Chair, Department of Psychology
Marshall University

Sarah Sanders, PhD, MA
Director of WV Violence and Injury Prevention Program
West Virginia Department of Health and Human Resources
Bureau for Public Health
Office of Maternal, Child and Family Health

Denise Smith, MS, CHES
Director Perinatal Programs
West Virginia Department of Health and Human Resources
Bureau for Public Health
Office of Maternal, Child and Family Health

One or two leaders from the West Virginia Perinatal Partnership organization (<https://wvperinatal.org/>) may be coming as well. We met with their director – Amy Tolliver. They worked on Zika FYI and they are heavily involved in outreach/education to health care providers and communities on key issues for moms and babies, especially on prenatal substance exposed babies (see <https://wvperinatal.org/about-us/our-history/>)

Hi all,
 Additional info for tomorrow and Friday interviews. Please do not release the 3 to 3:30 pm hold for Friday yet, as we may have one more interview to line up during that timeframe. More to come....

Thanks for all of your help – and patience!
 Kate

Yes. We have an in-person interview scheduled with Tom Howell, Washington Times. We will need the entire 1:30-2:15 time period.

Will Dr. Redfield's 1pm call take place at HHS, or can he take it in transit to CDC-W, where we have the interview currently scheduled?

Thanks,

Molly Gaines-McCollom, MPH

Subject: Calendar holds

Possible to hold about an hour and half next Wed and another hour on Friday next week on Dr R's calendar for potential media interviews re Ebola/DRC? We could do a number of interviews back to back, if we all think he and the messaging is ready.

We would do 1-1 interviews with selected people, and then possibly even a telebrief on Friday. All only possible and all needing HHS approval, but holding time would be first step to knowing if we can.

Thoughts?

KLD

CDC Staffer Accompanying Dr. Redfield: TBD

CDC Program Contact (if applicable): Rebecca Miller (NCEZID), O: 404.639.4470, C: 404.790.8387, ckq0@cdc.gov

CDC Media Contact (if applicable): TBD

2. Event Information:

Event Host: APHL

Purpose of Event: LRN is the nation's laboratory emergency response system for biological, chemical and radiological threats and other public emergencies such as natural disasters. Founded by APHL, the CDC, and the FBI in 1999 to improve US readiness for bioterrorism, the LRN remains a valuable resource for law enforcement and public health officials. It links local, state and federal public health laboratories with sentinel clinical, food, veterinary, environmental and agricultural laboratories; and military and international

laboratory centers. Over time, DoD has become an LRN stakeholder, joining in strategic planning and supporting LRN biological response activities, notably the 2014 response to the outbreak of Ebola.

This is the 7th LRN National Meeting where the CDC Division of Preparedness and Emerging Infections, NCEH, and APHL convene LRN stakeholders, including state and local public health laboratories, multiple federal agencies including representatives from the DoD, HHS, DHS, EPA, FBI, FDA and USDA, as well as a number of other non-governmental partners to discuss current information on preparedness, emerging technologies, networking opportunities, and training needs.

Agenda (if applicable): TBD

Number of Attendees and Composition: TBD

Key Participants (if applicable):

Bios: TBD

Source Invitation: Yes on the 5/21/18 DL

3. Dr. Redfield's Speech Information or Talking Points (TPs):

Dr. Redfield's Remarks/Presentation/TPs: Rebecca Miller (NCEZID): NCEZID can also help with TPs/remarks.

Proposed Role and Topic: Present remarks at the opening session that welcome attendees and focus on the value of the network within CDC and to its external partners; the contributions of the LRN to chemical, biological and radiological threats preparedness; the utility of the LRN in responding to emerging threats such as Ebola and Zika, as well as the potential for this network to serve as a model for developing international networks tasked with implementing the Global Health Security Agenda. This years' theme is Agile, Adept, All-Hazards.

Length of Presentation: 45 minutes remarks with 15 minutes of Q and A

Press: TBD

Teleprompter: TBD

Robert R. Redfield, MD
Director
U.S. Centers for Disease Control and Prevention
Administrator of the Agency for Toxic Substances and Disease Registry
1600 Clifton Road
Atlanta, GA 30329-4027

Dear Dr. Redfield,

On behalf of the Association of Public Health Laboratories (APHL) and the Laboratory Response Network (LRN) National Meeting Planning Committee, we are pleased to invite you to speak at the 2018 LRN National Meeting scheduled for September 5-7, 2018 at the U.S. Centers for Disease Control and Prevention (CDC) in Atlanta, GA. This year's theme is *Agile, Adept, All-Hazards*. The CDC Address and Opening Session is scheduled for September 5, 2018 at 9:45am – 10:30am ET in Tom Harkin Global Communications Center auditorium.

This is the seventh LRN National Meeting where the CDC Division of Preparedness and Emerging Infections, the National Center for Environmental Health, and APHL convene LRN stakeholders, including state and local public health laboratories, multiple federal agencies including representatives from the Department of Defense, Department of Health and Human Services (HHS), Department of Homeland Security (DHS), Environmental Protection Agency (EPA), Federal Bureau of Investigation (FBI), Food and Drug Administration (FDA) and the US Department of Agriculture (USDA) as well as a number of other non-governmental partners to discuss current information on preparedness, emerging technologies, networking opportunities and training needs.

The LRN National Meeting Planning Committee envisions that the CDC speaker will welcome attendees and focus on the value of the network within CDC and to its external partners; the contributions of the LRN to chemical, biological and radiological threats preparedness; the utility of the LRN in responding to emerging threats such as Ebola and Zika, as well as the potential for this network to serve as a model for developing international networks tasked with implementing the Global Health Security Agenda.

It is a privilege to invite you to participate in the 2018 LRN National Meeting. We hope to receive a positive reply from you by May 29, 2018. If you have any questions about this meeting, please contact Mr. Tyler Wolford (tyler.wolford@aphl.org or 240-485-2775).

Sincerely,

Scott Hughes, Ph.D.
Chair, Planning Committee
Associate Director,
New York City Public Health Laboratory
455 First Avenue
New York City, NY 10016d

Scott J. Becker, MS

Subject: RE: CDC Director Participation in LRN Meeting
Attachments: 18_293532-B_LRNAgenda_081018.pdf

Good Morning Brad,

After discussions with the Laboratory Preparedness and Response Branch (LPRB) and the National Meeting Planning Committee, we have slightly modified the time slot for Dr. Redfield. If possible, we would like him to speak from 9:30am – 10:00am during the Welcome and Opening address. The first 3 speakers on the panel will give brief welcomes and Scott Becker will introduce Dr. Redfield to provide the Opening Address. Let me know if this change will be an issue.

We recommend reaching out to Dr. Julie Villanueva (jfv3@cdc.gov), Chief, Laboratory Preparedness and Response Branch, and Dr. Rudy Johnson, Chief, Emergency Response Branch (rmj6@cdc.gov) in NCEH to discuss some of the talking points they might like Dr. Redfield to highlight during his talk. I've attached the most recent agenda for you to take a look at. Page 19 outlines the start of the meeting and opening panel.

Welcome Panel and Opening Address Auditorium B1/B2/B3

9:00 a.m.– 10:00 a.m. *Scott Hughes, PhD, Planning Committee Chair, Associate Director, Environmental Sciences, Responsible Official, Select Agent Program, Public Health Laboratory, New York City Department of Health and Mental Hygiene*

*Elizabeth Franko, DrPH, Laboratory Director, Georgia Public Health Laboratory,
Georgia Department of Public Health*

Scott Becker, MS, Executive Director, Association of Public Health Laboratories

Robert Redfield, MD, Director, Centers for Disease Control and Prevention

Regards,
Tyler

Subject: CDC Director Participation in LRN Meeting

Hello Tyler,
I am a member of CDC Director Dr. Redfield's advance team and I had a few questions below about his participation in the Lab Response Network Meeting at CDC on 5 September. I've also copied Delaney McGuire who is on the Director's communication team and she will likely have a few follow up questions for you as well.

1. I see that Dr. Redfield has 45 min blocked for his remarks – has he been asked to speak for the whole 45 minutes? Would this include QA?
2. Would it be possible to share a draft agenda at this point? If not, are there any other key speakers or attendees that we should be aware of?
3. Are you planning to have any social media promotion, media present or a photographer?
4. If Dr. Redfield were so inclined, would it be appropriate to back his remarks with slides?

Thanks,
Brad

Meeting Goals and Objectives

The Centers for Disease Control and Prevention (CDC) Division of Preparedness and Emerging Infections (DPEI) and the National Center for Environmental Health (NCEH) in collaboration with the Association of Public Health Laboratories (APHL) is pleased to convene the 2018 Laboratory Response Network (LRN) National Meeting from September 5–7, 2018 in Atlanta, GA.

The purpose of this meeting is to provide LRN stakeholders with current information on:

- Preparedness Collaborations among LRN National, Reference and Sentinel Clinical Laboratories and First Responders
- Emerging Technologies
- New LRN Policies
- Model Practices
- Solutions to Ongoing Challenges
- Training Needs
- Future of the LRN

The LRN National Meeting is an ideal combination of science, policy, networking and partnerships, with a focus on innovation and emerging technologies.

Dear Colleagues:

On behalf of the 2018 Laboratory Response Network (LRN) National Meeting Planning Committee, I am pleased to welcome you to Atlanta and we are very grateful to CDC for hosting the LRN National Meeting again. For almost 20 years, the LRN has set the standard for sustainable and flexible partner laboratory cooperation and to acknowledge this, the theme of this year's meeting is Agile, Adept, All-Hazards.

It has been three years since the previous LRN National Meeting was held and during that time the LRN played a key role in the public health response to the threat posed by the emergence of Zika virus, once again demonstrating the qualities that make the LRN a centerpiece in the nation's laboratory response activities to biological, chemical or radiological threats. This year's meeting is comprised of plenary sessions, breakouts, and poster presentations providing opportunities to meet with colleagues and share best practices across an array of areas including laboratory testing, biosafety, informatics, and outreach to LRN partners. If we are to continue to sustain and enhance the LRN so that it can be better prepared to meet the next threat, then it is the strengthening of partnerships that will be the key to the ongoing success of the LRN.

I would like to thank the Planning Committee for their efforts in developing this year's timely program; abstract submitters, moderators, and presenters for sharing their experiences and knowledge as well as the Association of Public Health Laboratories (APHL) and CDC staff, LRN members and partners who assisted with a myriad of logistical issues to make this year's LRN National Meeting a success. I would like to extend a special thank you to Mr. Tyler Wolford, APHL's Senior Specialist, Laboratory Response Network for all of his hard work in "making it happen" to ensure another successful meeting!

Again, welcome and enjoy your stay in Atlanta!

Event Check-In and Information Desk Hours

Located in the Tom Harkin Global Communications Center Lobby, Building 19

Wednesday, September 5 9:00 a.m. – 5:00 p.m.

Thursday, September 6 9:00 a.m. – 5:00 p.m.

Friday, September 7 9:00 a.m. – 1:00 p.m.

Continuing Education Credits

APHL is an approved provider of continuing education programs in the clinical laboratory sciences through the American Society of Clinical Laboratory Science (ASCLS) PA.C.E.® program. Contact hours are available for the entire conference. The contact hours to be awarded to participants who successfully complete the sessions are as follows: Day 1 of the conference—5.75 contact hours, Day 2 of the conference (either Biological OR Chemical track)—5.75 contact hours and Day 3 of the conference—2.75 contact hours for a total of 14.25 contact hours. Contact hours will only be provided for full day attendance. On Day 2, the maximum contact hours is 5.75 and you must sign in on the sign-in sheets in front of the session room(s).

Tell Us What You Think!

We take your evaluation of the LRN National Meeting seriously. Please plan on providing your feedback in an online survey provided after the meeting via email. Your feedback is vital to helping us plan a better and more beneficial meeting in the future.

Emergency Procedures for Attendees

CDC and APHL encourage all attendees to review and be familiar with CDC emergency procedures, including emergency exits for all meeting rooms. Please pre-identify a location away from the Tom Harkin Global Communications Center where you and your colleagues will meet in the event of an emergency.

About LRN

The Laboratory Response Network (LRN) was established in 1999 through a collaborative effort involving founding partners, Centers for Disease Control and Prevention (CDC), Federal Bureau of Investigation (FBI), and Association of Public Health Laboratories (APHL) to ensure an effective laboratory response to bioterrorism. Today, the LRN is an integrated network of local, state and federal public health, hospital-based, food testing, veterinary, environmental testing and international laboratories providing laboratory diagnostics and capacity for biological and chemical threats and other public health emergencies. The LRN is a unique asset in the nation's growing preparedness for biological and chemical threats. The linking of state and local public health laboratories, veterinary, agriculture, military and water and food testing laboratories is unprecedented.

About APHL

APHL is a national non-profit organization dedicated to working with members to strengthen governmental laboratories that perform testing of public health significance. Working at the national and international level, APHL advances laboratory systems and practices, promotes policies that support laboratories as a vital component of the public health system, provides a nexus for crisis response and exchange among laboratory systems, and links APHL member laboratories with federal partners, including the CDC, the Department of Defense (DoD), the Environmental Protection Agency (EPA), the Food and Drug Administration (FDA), the United States Department of Agriculture (USDA), the Department of Homeland Security (DHS) and the FBI.

About CDC

CDC is one of the major operating components of the Department of Health and Human Services (HHS). CDC's top organizational components include the Office of the Director, Coordinating Centers and Offices and the National Institute for Occupational Safety and Health. These components collaborate to create the expertise, information and tools that people and communities need to protect their health through health promotion, prevention of disease, injury and disability and preparedness for new health threats. In addressing the preceding components of health, decisions are based on scientific excellence, requiring well-trained public health practitioners and leaders dedicated to high standards of quality and ethical practice.

LRN Structure for Biological Threats Preparedness

The LRN for Biological Threats Preparedness (LRN-B) is composed of three levels: Sentinel, Reference and National Laboratories. Reference laboratories are further subdivided into Reference, Standard and Advanced. The following are the capabilities for each level:

National Laboratories: There are three national laboratories (1) Centers for Disease Control and Prevention, (2) United States Army Medical Research Institute for Infectious Diseases and (3) the Naval Medical Research Center. These laboratories have specialized testing capabilities (e.g. Biosafety Level 4 facilities, strain characterization) and provide test development and agent specific subject matter expertise which can be leveraged when needed by the network.

Reference Laboratories: Over 130 laboratories, categorized as Reference, Standard and Advanced, provide testing for high priority threat agents in a variety of matrices. In addition to their testing function, these laboratories also conduct outreach to sentinel clinical laboratories, first responders and other partners.

Sentinel Laboratories: Thousands of laboratories, notably hospital based, work closely with local and state public health and federal laboratories to recognize and rule-out potential biological threat agents and other emerging threats to public health. Sentinel laboratories are an integral part of the LRN with the system relying heavily on their ability to recognize, rule-out and/or refer potential threats.

LRN Structure for Chemical Threats Preparedness

The LRN for Chemical Threats Preparedness (LRN-C) is composed of 54 laboratories and is categorized into three distinct levels: one, two and three. Starting with level three and building upward, each designation carries additional safety requirements and testing capabilities, in addition to the duties and requirements of the preceding level. The following are minimum capabilities required at each level:

- **CDC Laboratories** provide a high level of analysis, including a rapid toxicology screen to detect exposure to chemical threats. Further, they maintain a quality system within the LRN-C by developing methods and providing proficiency testing and exercises.
- **Level 1 Laboratories** provide surge capacity for CDC and can detect exposure to an expanded number of chemicals, including mustard agents, nerve agents and toxic industrial chemicals.
- **Level 2 Laboratories** are trained to detect exposure to a number of chemical threat agents, including cyanide, nerve agents and toxic metals.
- **Level 3 Laboratories** work with hospitals and first responders to maintain competency in clinical specimen collection, packaging and shipment.

C.E.U.s and Objectives

5.75 contact hours for today's sessions (588-879-18)

At the conclusion of Day 1, the participant will be able to:

- Describe the evolving role of the LRN and articulate its past accomplishments and future vision.
 - Discuss how the LRN supports public health.
 - Describe partnerships, coordination and response efforts involved in international and domestic laboratory preparedness.
 - Explain how CDC, APHL and other organizations are working to advance public and private laboratory biosafety nationwide.
-

10:45 a.m. – 5:00 p.m.

Leadership in Biosafety

Auditorium B1/B2/B3

CDC and APHL are collaborating with several partners to improve biosafety practices in public and private laboratories across the country. This session will focus on efforts to strengthen biosafety and biosecurity in public and private laboratories as well as discuss the importance of leadership in improving biosafety and biosecurity practices. The session will also discuss partnership initiatives to engage all levels of labs and address key gaps such as the need for equipment decontamination guidance, stronger linkages with clinical labs and evaluation of activities

Moderator: *Michele Howard MS, MPH, RBP, Safety and Occupational Health
Manager, Division of Preparedness and Emerging Infections, National Center
for Emerging and Zoonotic Infectious Disease, Centers for Disease Control and
Prevention*

10:45 a.m. – 12:00 p.m. *Steve Monroe, PhD, Director, Office of Associate
Director for Laboratory Science and Safety,
Centers for Disease Control and Prevention*

*Michael A. Pentella, PhD, D(ABMM), Director,
State Hygienic Laboratory Director at the
University of Iowa*

*Reynolds Salerno, PhD, Director, Division of
Laboratory Systems, Centers for Disease Control
and Prevention*

*Sean Kaufman, MPH, CHES, CPH, CIC, MBTI
Certified Provider, Chief Executive Officer,
Behavioral-Based Improvement Solutions*

12:00 p.m. – 1:00 p.m.

Lunch

Provided in the Tom Harkin Global
Communications Center Lobby

12:15 p.m. – 12:45 p.m.

CDC LRN-B Leadership Meet and Greet
[Meeting Room 245]

CDC LRN-C Leadership Meet and Greet
[Meeting Room 246]

Preparing for Radiological Threats: A Federal Perspective

Auditorium B1/B2/B3

This session will provide attendees with an overview of the steps taken at the federal level and the tools available to respond to a variety of radiological emergencies. Participants will also learn about the challenges associated with effectively responding to a radiological emergency.

Moderator: *Jennifer Buzzell, MS, Health Physicist, Emergency Management, Radiation, and Chemical Branch, Division of Environmental Health, Science and Practice, National Center for Environmental Health, Centers for Disease Control and Prevention*

1:00 p.m. – 2:15 p.m.

Jennifer Buzzell, MS, Health Physicist, Emergency Management, Radiation, and Chemical Branch, Division of Environmental Health, Science and Practice, National Center for Environmental Health, Centers for Disease Control and Prevention

Lynne Wathen, MS, PhD, Biomedical Advanced Research and Development Authority, Office of the Assistant Secretary for Preparedness, U.S. Department of Health and Human Services

Robert Jones, PhD, Chief, Inorganic and Analytical Toxicology Branch, Division of Laboratory Sciences, National Center for Environmental Health, Centers for Disease Control and Prevention

2:15 p.m. – 2:30 p.m.

Break

Tom Harkin Global Communications Center Lobby

Clinical Laboratory and Public Health Partner Engagement

Auditorium B1/B2/B3

This session will discuss clinical laboratory engagement including model practices for biosafety outreach, partner collaboration efforts with poison control centers and adaptive preparedness based on experiences with risk assessments.

Moderators: *Rob Nickla, BS, M(ASCP), Laboratory Response Network Coordinator, Oregon State Public Health Laboratory*

2:30 p.m. – 3:45 p.m.

Erin Bowles, Laboratory Network Coordinator, Co-Biosafety Officer, Wisconsin State Laboratory of Hygiene

Jason Mihalic, Chemistry Office Chief, Arizona Bureau of State Laboratory Services, Arizona Department of Health Services

Rob Nickla, BS, M(ASCP), Laboratory Response Network Coordinator, Oregon State Public Health Laboratory

Jerry Thomas, MD, National Center for Environmental Health, Centers for Disease Control and Prevention

3:45 p.m. – 4:00 p.m.

Break

Tom Harkin Global Communications Center Lobby

Data Information Science: Driving Response Decisions

Auditorium B1/B2/B3

This session will provide an overview of the current landscape of data

exchange, electronic laboratory reporting and HL7 messaging for preparedness and response and discuss strategies employed to improve data exchange in LRN member laboratories.

Moderator: *Joanne Andreadis, PhD, Senior Advisor for Laboratory Preparedness, Office of Public Health Preparedness and Response, Centers for Disease Control and Prevention*

4:00 p.m. – 5:00 p.m.

Jason Hall, BS, Information Technology Specialist, National Center for Emerging and Zoonotic Infectious Disease, Centers for Disease Control and Prevention

Jennifer McGehee, MSCS, MA, Emergency Preparedness and Public Health Support Team, Information Systems Branch, Division of Health Informatics and Surveillance, Center for Surveillance, Epidemiology, and Laboratory Services, Office of Public Health Scientific Services

Noel Stanton, MS, Chemical Response Coordinator, Wisconsin State Laboratory of Hygiene

Keith Higginbotham, BA, IT Systems Manager, Bureau of Information Technology, Alabama Department of Public Health

9:00 a.m. – 5:00 p.m.

Event Check-In and Badge Pick-Up

C.E.U.s and Objectives

5.75 contact hours for today's Biological Breakout session (588-881-18)

At the conclusion of Day 2, the participant of the Biological Breakout session will be able to:

- Describe lessons learned from real cases and exercises.
- Describe new technologies and capabilities of the LRN for Biological Threats Preparedness (LRN-B) as well as initiatives for assay development.
- Describe steps taken to establish appropriate testing capabilities for emerging threats.
- Discuss partnerships and communication strategies after a threat is detected.

5.75 contact hours for today's Chemical Breakout session (588-882-18)

At the conclusion of Day 2, the participant of the Chemical Breakout session will be able to:

- Describe lessons learned from real cases and exercises.
- Outline public health laboratory preparedness and response capabilities for drug threats.

- Describe new technologies and capabilities of the LRN for Chemical Threats Preparedness (LRN-C).
- Discuss state, local and federal strategies for partnerships and communication.

9:00 a.m. – 5:00 p.m.

Posters Available for Viewing

Tom Harkin Global Communications Center Lobby

LRN-B Breakout Session—Laboratory Response Network Response to Zika Virus

Auditorium B3

Recently, public health laboratories across the US responded to an outbreak of Zika virus. The sudden and sustained influx of specimens required a significant change in daily operations, additional staffing, and new instrumentation to provide timely information to all involved stakeholders. This session will describe the dynamic efforts taken by public health laboratories to assess, triage, test and track patients. The session will also highlight the partnerships with epidemiologists and local health departments during the response.

Moderator: *William Nauschuetz, PhD, Clinical Laboratory Biopreparedness Coordinator, Allied Clinical Services Medical Command*

9:00 a.m. – 10:15 a.m.

Stephen White, MS, Medical Laboratory Scientist IV, Bureau of Public Health Laboratories—Miami, Florida Department of Health

Latoya Griffin-Thomas, PhD, Lead Scientist, Biological Threat/Special Pathogens Response Coordinator, Virginia Division of Consolidated Laboratory Services

Diana Riner, PhD, MS, Virology Section Manager, Bureau of Laboratories, Michigan Department of Health and Human Services

LRN-C BREAKOUT SESSION—DEVELOPING NEW METHODS IN AN EVOLVING CHEMICAL THREAT LANDSCAPE

Auditorium B1/B2

The LRN-C is a unique asset positioned to support large scale responses to chemical threats. Additionally, the network leverages its extensive scientific expertise to respond to emerging and unique threats. This session will discuss LRN-C programmatic activities, the smart design of opioid reference materials, laboratory testing to quantify marijuana in food products, and the development of an analytical method for amanitin poisoning.

Moderator: *Rudolph Johnson, PhD, Chief, Emergency Response Branch, Division of Laboratory Science, National Center for Environmental Health, Centers for Disease Control and Prevention*

9:00 a.m. – 10:15 a.m. *Rudolph Johnson, PhD, Chief, Emergency Response Branch, Division of Laboratory Science, National Center for Environmental Health, Centers for Disease Control and Prevention*

Melissa Carter, PhD, Division of Laboratory Science, National Center for Environmental Health, Centers for Disease Control and Prevention

James Eaton PhD, Chemist II, Maine Health and Environmentally Testing Laboratory

William Draper, PhD, Drinking Water and Radiation Laboratory Branch, California Department of Public Health

10:15 a.m. – 10:30 a.m. **Break**
Tom Harkin Global Communications Center Lobby

LRN-B Breakout Session— Detect the Threat: What's Next?

Auditorium B3

Once the LRN laboratories detect a threat agent, it's simply the beginning of the response. Typically, LRN member laboratories notify CDC and other partners as well as message data to CDC. These laboratories are also at the forefront, coordinating across local, state, federal, private and other non-

governmental agencies to shape the response. This session will share unique case stories, outlining challenges and successes with each response.

Moderator: *Marcella Odle, MS, Laboratory Response Network Operations Team Lead, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Disease, Centers for Disease Control and Prevention*

10:30 a.m. – 12:00 p.m. *Rob Nickla, BS, M(ASCP), Laboratory Response Network Coordinator, Responsible Official, Oregon State Public Health Laboratory*

Megan Price, PhD, Biological Threat Principal Scientist, Molecular Detection, Virginia Division of Consolidated Laboratory Services

Christina Egan, PhD, Director, Biodefense Laboratory, Wadsworth Center, New York State Department of Health, Wadsworth Center

Satish Pillai, MD, Acting Director and Deputy Director, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention

LRN-C Breakout Session—The Outbreak and Laboratory Response to Brodifacoum

Auditoriums B3

In early March, a case of abnormal bleeding was associated with synthetic cannabinoid use in the Chicago area. The cases rapidly expanded, and now stand at approximately 250 cases spread over 10 states. There have been six documented fatalities associated with the outbreak. The powerful anticoagulant brodifacoum was found to be the causative agent. This session will follow the chronology and characteristics of the outbreak, describe the effects and required treatment for brodifacoum exposure, and describe the efforts of two LRN laboratories that developed methods to test for exposure and for the presence of brodifacoum in the products themselves.

Moderator: *Katie Seely, PhD, Environmental Section Director, Arkansas Public Health Laboratory*

10:30 a.m. – 12:00 p.m. *Noel Stanton, M.S., Chemical Response Coordinator, Wisconsin State Laboratory of Hygiene*

Mary Hagerman, M.S., Division Director, Chemistry, Indiana State Department of Health

Luke Yip, MD, Medical Toxicologist, Division of Laboratory Sciences, National Center for Environmental Health, Centers for Disease Control and Prevention

12:00 p.m. – 1:00 p.m. **Lunch**
Provided in the Tom Harkin Global Communications Center Lobby

12:15 p.m. – 12:45 p.m. **CDC LRN-B Leadership Meet and Greet** [Meeting Room 245]
CDC LRN-C Leadership Meet and Greet [Meeting Room 246]

LRN-B Breakout Session—Science and Safety: Mass Spectrometry Technology to Detect Toxins

Auditorium B3

Protein toxins such as botulinum neurotoxin and ricin are deadly proteins whose confirmatory detection is often complex. For public health purposes, it is important to have a measure of toxicity of these proteins, yet measuring toxicity of these proteins often involves live animal testing. CDC laboratories have developed mass spectrometric methods to detect botulinum neurotoxin and ricin based on their enzymatic activity, yielding a measure of toxicity. To date, CDC has completed analytical validation of the method to detect botulinum neurotoxin and partnered with APHL to provide training to LRN laboratories participating in a multicenter evaluation study. This session will discuss the newly developed method, as well as provide an overview of the use of matrix assisted laser desorption/ionization—time of flight (MALDI-TOF) mass spectrometry technology in public health laboratories, including efforts to assess safety and accuracy of the technology and databases.

Moderator: *Julie Villanueva, PhD, Chief, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention*

1:00 p.m. – 2:30 p.m. *Suzanne R. Kalb, PhD, Research Chemist, Division of Laboratory Sciences, National Center for Environmental Health, Centers for Disease Control and Prevention*

Carolina Luquez, PhD, Division of Foodborne, Waterborne, and Environmental Diseases, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention

Erin Swaney, Microbiologist, BioThreat Team Leader, Texas Department of State Health Services Laboratory

Michael Perry, MS, Associate Director, Biodefense Laboratory, Wadsworth Center, New York State Department of Health

LRN-C Breakout Session— Public Health Response to Emerging Drug Crisis in America

Auditoriums B1/B2

Opioid abuse is a serious public health problem affecting many areas in the nation. Prescription opioids and synthetic fentanyls are responsible for thousands of fatal and non-fatal overdoses annually. Building upon advanced analytical capabilities acquired through toxicology and other clinical chemistry programs and knowledge of public health surveillance systems, the governmental public health laboratories are exploring how they might be able to contribute to the opioids response. This session will address the laboratory response to the opioid epidemic.

Moderator: *Amy Watson, PhD, Laboratory Response Network for Chemical Threats Response (LRN-C) Program Coordinator, Emergency Response Branch, Division of Laboratory Sciences, National Center for Environmental Health, Centers for Disease Control and Prevention*

1:00 p.m. – 2:30 p.m.

Rebecca Shaner, MS, Division of Laboratory Sciences, National Center for Environmental Health, Centers for Disease Control and Prevention

Jason Peterson, MS, Chemical Threat Preparedness Coordinator, Minnesota Department of Health, Public Health Laboratory

Luke Short, PhD, Chemistry Section Manager, District of Columbia Public Health Laboratory

2:30 p.m. – 3:30 p.m.

Poster Presenters Available for Discussion

Tom Harkin Global Communications Center Lobby

2:30 p.m. – 3:30 p.m.

Demo: Detection of Biothreat Agents in Potable Water Samples

Presenters: Mia Mattioli, PhD, Environmental Engineer and Kirsten Berling, MPH, Microbiologist, Centers for Disease Control and Prevention

Demo: Captair Field Pyramid

Presenter: Cary Rue, PhD, Microbiologist, Federal Bureau of Investigation Laboratory

LRN-B Breakout Session—Scientific and Engineering Controls to Improve Response

Auditorium B3

As technology evolves, laboratories must have the necessary training to safely implement new methods and adopt new technologies while complying with regulatory requirements. This session will describe efforts to strengthen field collection and transport of samples, evaluation of methods to inactivate biological threats and studies to improve the remediation of biological threats.

Moderator: *Shawna Dereemer, MT(ASCP), Laboratory Preparedness Supervisor, Public Health Science Section/Health Readiness and Response Section, Wyoming Public Health Laboratory*

3:30 p.m. – 5:00 p.m.

Cary Rue, PhD, Microbiologist, Federal Bureau of Investigation Laboratory

Phil Lee, MSc FIBMS, Lead Biological Defense Coordinator, Bureau of Public Health Laboratories—Jacksonville, Florida Department of Health

Eric Weening, PhD, IHRC Inc, Contractor to Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention

Samuel Edwin, PhD, Director, Division of Select Agents and Toxins, Office of Public Health Preparedness and Response, Centers for Disease Control and Prevention

LRN-C Breakout Session—Partnerships for a Coordinated Response to Toxin Exposure

Auditoriums B1/B2

The LRN-C tests for biomarkers of toxins such as ricin and other chemical threats but the capabilities of the laboratory is not always known by first responders or clinicians. This session will describe efforts to develop a database to capture toxic chemicals, toxins and metabolites as well as share outreach and educational materials developed for key partners.

Moderator: *Teresa Miller, BS, Michigan Department of Health and Human Services, Bureau of Laboratories*

3:30 p.m. – 5:00 p.m.

Jason Mihalic, MBA, Chemistry Office Chief, Arizona Bureau of State Laboratory Services, Arizona Department of Health Services

Jocelyn Hover-Jeannsonne, MPH(c), Chemist V, Chemical Threat Coordinator, Texas Department of State Health Services

William Draper, PhD, Drinking Water and Radiation Laboratory Branch, California Department of Public Health

5:00 p.m.

Adjourn Day 2

Note: When you exit CDC, please retain your meeting badge.

FRIDAY

FRIDAY

2018
NATIONAL MEETING

FRIDAY

Friday, September 7

8:00 a.m. – 9:00 a.m.

Arrive at Centers for Disease Control and Prevention Campus

8:00 a.m. – 1:00 p.m.

Event Check-In and Badge Pick-Up

C.E.U.s and Objectives

**2.75 contact hours for today's sessions
(588-883-18)**

At the conclusion of Day 3, the participant will be able to:

- Describe some of the challenges associated with developing a state-wide response plan with first responders.
 - Discuss how the CDC builds state and local public health laboratory capacity to prepare for threats.
 - Provide recommendations to develop a policy framework for public health emergency preparedness and response.
 - Highlight successful public health collaborations and understand how collaborations change over time as public health threats evolve.
-

9:00 a.m. – 1:00 p.m.

Posters Available for Viewing

Tom Harkin Global Communications Center Lobby

Regulatory and Public Policy Partnerships for Emergency Response

Auditorium B1/B2/B3

This session will discuss the policy infrastructure and systems in place to prepare for all-hazards threats and address gaps in the ability of the US to respond to emerging and other threats. Presenters will highlight efforts of the Tri-Agency Task Force for Emergency Diagnostics as well as hear from the Department of Defense on their approach to Emergency Use Authorizations.

Moderator: *Jasmine Chaitram, MPH, Associate Director for Laboratory Preparedness, Chief, Informatics and Data Science Branch, Division of Laboratory Systems, Centers for Disease Control and Prevention*

9:00 a.m. – 10:30 a.m. *Julie Villanueva, PhD, Chief, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention*

*Kim Sapsford, PhD, Scientific Reviewer, Office of In Vitro Diagnostics and Radiological Health
U.S. Food and Drug Administration*

Amy Zale, BS, Centers for Medicare and Medicaid Services

Timothy Minogue, PhD, Chief, Diagnostic Systems Division, United States Army Medical Research Institute for Infectious Diseases

10:30 a.m. – 10:45 a.m.

Break

Tom Harkin Global Communications Center Lobby

Awards Ceremony

Auditorium B1/B2/B3

Presenters:

10:45 a.m. – 11:30 a.m. *Julie Villanueva, PhD, Chief, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention*

Rudolph Johnson, PhD, Chief, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention

Joanne Bartkus, PhD, D(ABMM), Director, Public Health Laboratory, Minnesota Department of Health

Captivating Collaborations—Working Together to Improve Public Health Response

Auditorium B1/B2/B3

Since its inception in 1999, the LRN has relied on the expertise of the scientific community to promote innovation across the nation for both biological and chemical threat preparedness. As an important part of the National Response Framework, the LRN exemplifies a united system to respond to a variety of public health threats. Working together across scientific disciplines and at all levels from local to federal responders is an important aspect of the LRN. This session will highlight the successful collaborations that are essential to the success of the LRN.

Moderator: *Laura Zambuto, MS, Deputy Chief, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention*

11:30 a.m. – 12:45 p.m. *Bridgette M. Trela, Supervisory Special Agent, Criminal and Epidemiological Program Manager, Biological Countermeasures Unit, Weapons of Mass Destruction Directorate, Federal Bureau of Investigation*

Maureen Sullivan, MPH, Emergency Preparedness and Response Unit Supervisor, Minnesota Public Health Laboratory, Minnesota Department of Health

Douglas Anders, PhD, Chief, Scientific Response and Analysis Unit, Federal Bureau of Investigation Laboratory

Closing Remarks

Auditorium B1/B2/B3

12:45 p.m. – 1:00 p.m. *Scott Hughes, PhD, Planning Committee Chair, Associate Director, Environmental Sciences, Responsible Official, Select Agent Program, Public Health Laboratory, New York City Department of Health and Mental Hygiene*

1:00 p.m.

NATIONAL MEETING

POSTERS

Poster Sessions

Tom Harkin Global Communications Center Lobby

To be displayed from Wednesday, September 5th at 10:45 a.m. to Friday, September 7th at 1:00 p.m. **Poster presenters will be available for questions on Thursday, September 6th from 2:30 p.m. – 3:30 p.m.**

1. Validation of Inactivation of Viable Cells Using Two Different Biological Rapid Response and Advanced Technology Laboratory DNA Extraction Methods Followed by 0.1 µm Filtration Procedures

James Mock, Lynn Jefferson, Ann Mitulinsky, Eric Weening, PhD, Brad Bowzard, PhD, Mila Cohen, Julie Villanueva, PhD, Jennie Thomas, PhD

Presenter: *James Mock, Centers for Disease Control and Prevention and Eric Weening, PhD, Centers for Disease Control and Prevention*

2. Testing of ticks for Rickettsial species in New York State using real-time PCR

Mark A. Meola, B.A.S, Research Scientist, New York State Department of Health, Wadsworth Center

Presenter: *Mark A. Meola, B.A.S, Research Scientist, New York State Department of Health, Wadsworth Center*

3. Method comparison of the Victor Nivo with the Victor X4 for ricin toxin detection

Michael Perry, MS MSED, Associate Director Biodefense Laboratory, New York State Department of Health—Wadsworth Center

Presenter: *Michael Perry, MS, MSED, Associate Director Biodefense Laboratory, New York State Department of Health—Wadsworth Center*

4. Whole Genome Sequencing of *C. botulinum* and *C. baratii* Isolates in New York State

Dominick Centurioni, MS, Research Scientist I, New York State Department of Health—Wadsworth Center

Presenter: *Dominick Centurioni, MS, Research Scientist I, New York State Department of Health—Wadsworth Center*

5. Performance of the QuantStudio Dx instrument for the Bacillus anthracis Real-time PCR Assay

M. Cohen, MS, CDC, S. Courtney, PhD, CDC, A. Butler, MS, CDC, B. Bowzard, PhD, CDC, J. Villanueva, PhD, CDC, J. Thomas, PhD, CDC

Presenter: *Mila Cohen, MS, Centers for Disease Control and Prevention*

6. A Ricin Story: Using a Training Module to Bridge the Gap between Public Health and Clinical Practice

Jocelyn Hover-Jeansonne, BS, MPH(c), Chemist V, CT Coordinator, Texas Department of State Health Services

Presenter: *Jocelyn Hover-Jeansonne, BS, MPH(c), Chemist V, CT Coordinator, Texas Department of State Health Services*

7. North Carolina Domestic Epidemiology and Laboratory Capacity (ELC) Ebola Laboratory Data Collection Project (2015 – 2018)

B Page, KL Jenkins, SM Orton, and D Pettit, North Carolina State Laboratory of Public Health, Division of Public Health

Presenter: *Barbie Page, MS, MT(ASCP), Laboratory Improvement Consultant, Bioterrorism and Emerging Pathogens Unit, North Carolina State Laboratory of Public Health*

8. Strategies for Limiting Laboratory-Associated Exposures to Brucella in North Carolina

SM Orton,¹ K Long,¹ B Page,¹ KL Jenkins,¹ Dee Pettit,¹ M Haskell,² and C Williams²

¹North Carolina State Laboratory of Public Health, Division of Public Health, Raleigh, NC, ²Communicable Disease Branch, Epidemiology Section, North Carolina Division of Public Health, Raleigh, NC

Presenter: *Susan M. Orton, PhD, D(ABMLI), MT(ASCP), Manager, Bioterrorism and Emerging Pathogens Unit, North Carolina State Laboratory of Public Health*

9. Resources for Sentinel Clinical Laboratory Outreach and Partnerships

Rob Nickla, BS, M(ASCP), LRN Coordinator, Oregon State Public Health Laboratory

Presenter: *Rob Nickla, BS, M(ASCP), LRN Coordinator, Oregon State Public Health Laboratory*

10. The Laboratory Response Network in Action: A Collaborative Effort to Revise the Original Bioterrorism Response Guide for Clinical Laboratories (Bioterrorism Blue Book)

Rob Nickla, BS, M(ASCP), LRN Coordinator, Oregon State Public Health Laboratory

Presenter: *Rob Nickla, BS, M(ASCP), LRN Coordinator, Oregon State Public Health Laboratory*

11. Determination of Microcystins (MCs) and Nodularin in Drinking Water by Automated 96-Well Plate Solid Phase Extraction (SPE) and Ultra High Pressure Liquid Chromatography/Tandem Mass Spectrometry (UPLC-MS/MS)

Wenlu Song, PhD, Research Scientist Supervisor, Biomonitoring Unit, Drinking Water and Radiation Branch, California Department of Public Health

Presenter: *Wenlu Song, PhD, Research Scientist Supervisor, Biomonitoring Unit, Drinking Water and Radiation Branch, California Department of Public Health*

12. Using Podcasts to tell Public Health Laboratory Stories

Ona Adair, PhD, Chemistry Division Director, South Carolina Public Health Laboratory, Erin Bowles, MT (ASCP), Laboratory Network Coordinator and Co-Biosafety Officer, Wisconsin State Laboratory of Hygiene, Denny Russell, BS, Bioterrorism Coordinator, Washington State Department of Health, Dana J. White, BS/BA, Training Coordinator, Mississippi Public Health Laboratory

Presenter: *Dana J. White, BS/BA, Training Coordinator, Mississippi Public Health Laboratory*

13. A Novel Product Design for Better Characterizing the Opioid Epidemic

Michael Mojica, PhD, Centers for Disease Control and Prevention

Presenter: *Michael Mojica, PhD, Centers for Disease Control and Prevention*

14. Orthopoxvirus Detection Utilizing the QuantStudio Dx

Laurie Seigler, BS, Microbiologist, Poxvirus and Rabies Branch, Division of High Consequence Pathogens and Pathology, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention, Sean Courtney, PhD, Microbiologist, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention, Julie Villanueva, PhD, Branch Chief, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention, Christina Hutson, PhD, Virus Host Molecular Interactions Team Lead, Poxvirus and Rabies Branch, Division of High Consequence Pathogens and Pathology, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention, Victoria A. Olson, PhD, Branch Chief, Poxvirus and Rabies Branch, Division of High Consequence Pathogens and Pathology, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention

Presenter: *Ashley V. Kondas, BA, Microbiologist, Poxvirus and Rabies Branch, Division of High Consequence Pathogens and Pathology, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention*

15. Rapid Detection of Antimicrobial Resistance Markers in Bacillus anthracis by Nanopore Whole Genome Sequencing

Amy S. Gargis, PhD, Centers for Disease Control and Prevention, Blake Cherney, MS, Centers for Disease Control and Prevention, Andrew Conley, PhD, Bioinformatician, IHRC-Georgia Tech ABiL, Heather McLaughlin, PhD, Centers for Disease Control and Prevention, David Sue, PhD, Centers for Disease Control and Prevention

Presenter: *Amy S. Gargis, PhD, Centers for Disease Control and Prevention*

16. Rapid Detection of Burkholderia pseudomallei From Small Volumes of Urine Using Filter-Concentration with Active Melioidosis Detect Lateral Flow Immunoassay

Pierre A. Michel, MS, Centers for Disease Control and Prevention, Christine Lascols, MS, Centers for Disease Control and Prevention, David Sue, PhD, Centers for Disease Control and Prevention

Presenters: *Pierre A. Michel, MS, Centers for Disease Control and Prevention, Christine Lascols, MS, Centers for Disease Control and Prevention, David Sue, PhD, Centers for Disease Control and Prevention*

17. Comparability of Solid Phase Extraction Format for Nerve Agent Metabolites in Urine

Alisha Henderson, Centers for Disease Control and Prevention

Presenter: *Alisha Henderson, Centers for Disease Control and Prevention*

18. Evaluation of the Rapid and Field Sequencing Kits for Whole Genome Sequencing to Detect Antimicrobial Resistance Markers in *Yersinia pestis*

Blake Cherney MS, Centers for Disease Control and Prevention, Amy Gargis PhD, Centers for Disease Control and Prevention

Presenter: *Blake Cherney, MS, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Disease, Centers for Disease Control and Prevention*

19. Rapid Automated Antimicrobial Susceptibility Testing of *Burkholderia* Species by Optical Screening

Heather McLaughlin, PhD, Microbiologist, Centers for Disease Control and Prevention, David Sue, PhD, Principal Investigator, Centers for Disease Control and Prevention

Presenter: *Heather McLaughlin, PhD, Microbiologist, Centers for Disease Control and Prevention*

20. Detection of Biothreat Agents in Potable Water Samples

Mia Mattioli, PhD, Environmental Engineer, Centers for Disease Control and Prevention and Kirsten Berling, MPH, Microbiologist, Centers for Disease Control and Prevention

Presenters: *Mia Mattioli, PhD, Environmental Engineer, Centers for Disease Control and Prevention and Kirsten Berling, MPH, Microbiologist, Centers for Disease Control and Prevention*

21. Evaluating Bacillus anthracis Inactivation and DNA Extraction Following Heat Stabilization Treatment by the Denator Stabilizer T1

Julia Bugrysheva, PhD, Microbiologist Centers for Disease Control and Prevention, Pierre Michel, MS, Microbiologist, Centers for Disease Control and Prevention, Phalasy Juieng, Biologist, Centers for Disease Control and Prevention, Vladimir Loparev, PhD, Senior Service Fellow, Centers for Disease Control and Prevention, David Sue, PhD, Microbiologist, Centers for Disease Control and Prevention

Presenter: *Julia Bugrysheva, PhD, Microbiologist, Centers for Disease Control and Prevention*

22. An Analysis of Laboratory Response Network for Biological threat preparedness (LRN-B) Member Laboratory Test Data, 2009-2016

Julie Villanueva, PhD, Beth Schweitzer, MS, Marcella Odle, MS, Tricia Aden, MT(ASCP), Office of Infectious Diseases, National Center for Zoonotic and Emerging Infectious Diseases, Division of Emerging Infections, Laboratory Preparedness and Response Branch, Centers for Disease Control and Prevention

Presenter: *Beth Schweitzer, MS, Office of Infectious Diseases, National Center for Zoonotic and Emerging Infectious Diseases, Division of Emerging Infections, Laboratory Preparedness and Response Branch, Centers for Disease Control and Prevention*

23. Surge Capacity Drill with the Civil Support Team

Pascale Leonard, PhD, Molecular Biology Section Supervisor, New Mexico Department of Health, Scientific Laboratory Division, Allison Treloar, MS, CBA(ASQ), MB(ASCP), SLS, Director—Office of Quality, Safety, Security, & Emergency Preparedness, New Mexico Department of Health, Scientific Laboratory Division

Presenter: *Pascale Leonard, PhD, Molecular Biology Section Supervisor, New Mexico Department of Health, Scientific Laboratory Division, Allison Treloar, MS, CBA(ASQ), MB(ASCP), SLS, Director—Office of Quality, Safety,*

24. Improving Technologies for Biological Threat Detection

T. Wolford, Association of Public Health Laboratories, S. Abrams, Association of Public Health Laboratories, T Aden, Centers for Disease Control and Prevention

Presenter: *Tyler Wolford, MS, Senior Specialist, Laboratory Response Network, Association of Public Health Laboratories.*

25. APHL Biosafety Officer Leadership Workshop

M. Marsico, S. Page, C. Mangal, Association of Public Health Laboratories

Presenter: *Sean Page, BS, CAMP, Associate Specialist, Public Health Preparedness and Response, Association of Public Health Laboratories*

26. Biosafety Peer Network: Connecting the Dots in Biosafety

M. Marsico, C. Mangal and S. Page, Association of Public Health Laboratories

Presenter: *Michael Marsico, MS, Senior Specialist, Biosafety and Biosecurity, Association of Public Health Laboratories*

27. Validation of a Real-time PCR Assay to Detect Francisella tularensis in Clinical Specimens

Lauren E. Andersen, PhD, Biologist, Centers for Disease Control and Prevention

Presenter: *Lauren E. Andersen, PhD, Biologist, Centers for Disease Control and Prevention*

28. Evaluation of Commercial MasterMix for the Use with LRN PCR Assays

Viny Bhullar, Microbiologist, Laboratory Preparedness and Response Branch, Centers for Disease Control and Prevention

Presenter: *Viny Bhullar, Microbiologist, Laboratory Preparedness and Response Branch, Centers for Disease Control and Prevention*

29. Funding Laboratory Preparedness and Response

Samuel Abrams, MPH, PMP, Specialist, Public Health Preparedness and Response, Association of Public Health Laboratories

Presenter: *Samuel Abrams, MPH, PMP, Specialist, Public Health Preparedness and Response, Association of Public Health Laboratories*

30. Laboratory Response Networks: A Model for Linking Private Clinical and Governmental Public Health Systems to Combat Global Health Threats

C. Mangal and T. Wolford, Association of Public Health Laboratories

Presenter: *Chris Mangal, MPH, Director, Public Health Preparedness and Response, Association of Public Health Laboratories*

Meeting Goals and Objectives

The Centers for Disease Control and Prevention (CDC) Division of Preparedness and Emerging Infections (DPEI) and the National Center for Environmental Health (NCEH) in collaboration with the Association of Public Health Laboratories (APHL) is pleased to convene the 2018 Laboratory Response Network (LRN) National Meeting from September 5–7, 2018 in Atlanta, GA.

The purpose of this meeting is to provide LRN stakeholders with current information on:

- Preparedness Collaborations among LRN National, Reference and Sentinel Clinical Laboratories and First Responders
- Emerging Technologies
- New LRN Policies
- Model Practices
- Solutions to Ongoing Challenges
- Training Needs
- Future of the LRN

The LRN National Meeting is an ideal combination of science, policy, networking and partnerships, with a focus on innovation and emerging technologies.

Dear Colleagues:

On behalf of the 2018 Laboratory Response Network (LRN) National Meeting Planning Committee, I am pleased to welcome you to Atlanta and we are very grateful to CDC for hosting the LRN National Meeting again. For almost 20 years, the LRN has set the standard for sustainable and flexible partner laboratory cooperation and to acknowledge this, the theme of this year's meeting is Agile, Adept, All-Hazards.

It has been three years since the previous LRN National Meeting was held and during that time the LRN played a key role in the public health response to the threat posed by the emergence of Zika virus, once again demonstrating the qualities that make the LRN a centerpiece in the nation's laboratory response activities to biological, chemical or radiological threats. This year's meeting is comprised of plenary sessions, breakouts, and poster presentations providing opportunities to meet with colleagues and share best practices across an array of areas including laboratory testing, biosafety, informatics, and outreach to LRN partners. If we are to continue to sustain and enhance the LRN so that it can be better prepared to meet the next threat, then it is the strengthening of partnerships that will be the key to the ongoing success of the LRN.

I would like to thank the Planning Committee for their efforts in developing this year's timely program; abstract submitters, moderators, and presenters for sharing their experiences and knowledge as well as the Association of Public Health Laboratories (APHL) and CDC staff, LRN members and partners who assisted with a myriad of logistical issues to make this year's LRN National Meeting a success. I would like to extend a special thank you to Mr. Tyler Wolford, APHL's Senior Specialist, Laboratory Response Network for all of his hard work in "making it happen" to ensure another successful meeting!

Again, welcome and enjoy your stay in Atlanta!

Event Check-In and Information Desk Hours

Located in the Tom Harkin Global Communications Center Lobby, Building 19

Wednesday, September 5 9:00 a.m. – 5:00 p.m.

Thursday, September 6 9:00 a.m. – 5:00 p.m.

Friday, September 7 9:00 a.m. – 1:00 p.m.

Continuing Education Credits

APHL is an approved provider of continuing education programs in the clinical laboratory sciences through the American Society of Clinical Laboratory Science (ASCLS) PA.C.E.® program. Contact hours are available for the entire conference. The contact hours to be awarded to participants who successfully complete the sessions are as follows: Day 1 of the conference—5.75 contact hours, Day 2 of the conference (either Biological OR Chemical track)—5.75 contact hours and Day 3 of the conference—2.75 contact hours for a total of 14.25 contact hours. Contact hours will only be provided for full day attendance. On Day 2, the maximum contact hours is 5.75 and you must sign in on the sign-in sheets in front of the session room(s).

Tell Us What You Think!

We take your evaluation of the LRN National Meeting seriously. Please plan on providing your feedback in an online survey provided after the meeting via email. Your feedback is vital to helping us plan a better and more beneficial meeting in the future.

Emergency Procedures for Attendees

CDC and APHL encourage all attendees to review and be familiar with CDC emergency procedures, including emergency exits for all meeting rooms. Please pre-identify a location away from the Tom Harkin Global Communications Center where you and your colleagues will meet in the event of an emergency.

About LRN

The Laboratory Response Network (LRN) was established in 1999 through a collaborative effort involving founding partners, Centers for Disease Control and Prevention (CDC), Federal Bureau of Investigation (FBI), and Association of Public Health Laboratories (APHL) to ensure an effective laboratory response to bioterrorism. Today, the LRN is an integrated network of local, state and federal public health, hospital-based, food testing, veterinary, environmental testing and international laboratories providing laboratory diagnostics and capacity for biological and chemical threats and other public health emergencies. The LRN is a unique asset in the nation's growing preparedness for biological and chemical threats. The linking of state and local public health laboratories, veterinary, agriculture, military and water and food testing laboratories is unprecedented.

About APHL

APHL is a national non-profit organization dedicated to working with members to strengthen governmental laboratories that perform testing of public health significance. Working at the national and international level, APHL advances laboratory systems and practices, promotes policies that support laboratories as a vital component of the public health system, provides a nexus for crisis response and exchange among laboratory systems, and links APHL member laboratories with federal partners, including the CDC, the Department of Defense (DoD), the Environmental Protection Agency (EPA), the Food and Drug Administration (FDA), the United States Department of Agriculture (USDA), the Department of Homeland Security (DHS) and the FBI.

About CDC

CDC is one of the major operating components of the Department of Health and Human Services (HHS). CDC's top organizational components include the Office of the Director, Coordinating Centers and Offices and the National Institute for Occupational Safety and Health. These components collaborate to create the expertise, information and tools that people and communities need to protect their health through health promotion, prevention of disease, injury and disability and preparedness for new health threats. In addressing the preceding components of health, decisions are based on scientific excellence, requiring well-trained public health practitioners and leaders dedicated to high standards of quality and ethical practice.

LRN Structure for Biological Threats Preparedness

The LRN for Biological Threats Preparedness (LRN-B) is composed of three levels: Sentinel, Reference and National Laboratories. Reference laboratories are further subdivided into Reference, Standard and Advanced. The following are the capabilities for each level:

National Laboratories: There are three national laboratories (1) Centers for Disease Control and Prevention, (2) United States Army Medical Research Institute for Infectious Diseases and (3) the Naval Medical Research Center. These laboratories have specialized testing capabilities (e.g. Biosafety Level 4 facilities, strain characterization) and provide test development and agent specific subject matter expertise which can be leveraged when needed by the network.

Reference Laboratories: Over 130 laboratories, categorized as Reference, Standard and Advanced, provide testing for high priority threat agents in a variety of matrices. In addition to their testing function, these laboratories also conduct outreach to sentinel clinical laboratories, first responders and other partners.

Sentinel Laboratories: Thousands of laboratories, notably hospital based, work closely with local and state public health and federal laboratories to recognize and rule-out potential biological threat agents and other emerging threats to public health. Sentinel laboratories are an integral part of the LRN with the system relying heavily on their ability to recognize, rule-out and/or refer potential threats.

LRN Structure for Chemical Threats Preparedness

The LRN for Chemical Threats Preparedness (LRN-C) is composed of 54 laboratories and is categorized into three distinct levels: one, two and three. Starting with level three and building upward, each designation carries additional safety requirements and testing capabilities, in addition to the duties and requirements of the preceding level. The following are minimum capabilities required at each level:

- **CDC Laboratories** provide a high level of analysis, including a rapid toxicology screen to detect exposure to chemical threats. Further, they maintain a quality system within the LRN-C by developing methods and providing proficiency testing and exercises.
- **Level 1 Laboratories** provide surge capacity for CDC and can detect exposure to an expanded number of chemicals, including mustard agents, nerve agents and toxic industrial chemicals.
- **Level 2 Laboratories** are trained to detect exposure to a number of chemical threat agents, including cyanide, nerve agents and toxic metals.
- **Level 3 Laboratories** work with hospitals and first responders to maintain competency in clinical specimen collection, packaging and shipment.

NATIONAL MEETING

WEDNESDAY

LRN 2018: Agile, Adept, All-Hazards

Wednesday, September 5

8:00 a.m. – 9:00 a.m.

Arrive at Centers for Disease Control and Prevention Campus

8:00 a.m. – 5:00 p.m.

Event Check-In and Badge Pick-Up

Tom Harkin Global Communications Center Lobby

C.E.U.s and Objectives

5.75 contact hours for today's sessions (588-879-18)

At the conclusion of Day 1, the participant will be able to:

- Describe the evolving role of the LRN and articulate its past accomplishments and future vision.
 - Discuss how the LRN supports public health.
 - Describe partnerships, coordination and response efforts involved in international and domestic laboratory preparedness.
 - Explain how CDC, APHL and other organizations are working to advance public and private laboratory biosafety nationwide.
-

10:45 a.m. – 5:00 p.m.

Posters Available for Viewing

Tom Harkin Global Communications Center Lobby

Welcome Panel and Opening Address

Auditorium B1/B2/B3

Panel:

9:00 a.m. – 10:00 a.m.

Scott Hughes, PhD, Planning Committee Chair, Associate Director, Environmental Sciences, Responsible Official, Select Agent Program, Public Health Laboratory, New York City Department of Health and Mental Hygiene

*Elizabeth Franko, DrPH, Laboratory Director,
Georgia Public Health Laboratory, Georgia
Department of Public Health*

*Scott Becker, MS, Executive Director, Association
of Public Health Laboratories*

*Robert Redfield, MD, Director, Centers for Disease
Control and Prevention*

Keynote Address

Auditorium B1/B2/B3

Moderator: *Scott Becker, Executive Director, Association of Public Health
Laboratories*

10:00 a.m. – 10:30 a.m. *Daniel Sosin, MD, MPH, FACP, Deputy Director
and Chief Medical Officer, Office of Public Health
Preparedness and Response, Centers for Disease
Control and Prevention*

10:30 a.m. – 10:45 a.m. **Break**
Tom Harkin Global Communications Center Lobby

Leadership in Biosafety

Auditorium B1/B2/B3

CDC and APHL are collaborating with several partners to improve biosafety practices in public and private laboratories across the country. This session will focus on efforts to strengthen biosafety and biosecurity in public and private laboratories as well as discuss the importance of leadership in improving biosafety and biosecurity practices. The session will also discuss partnership initiatives to engage all levels of labs and address key gaps such as the need for equipment decontamination guidance, stronger linkages with clinical labs and evaluation of activities

Moderator: *Michele Howard MS, MPH, RBP, Safety and Occupational Health
Manager, Division of Preparedness and Emerging Infections, National Center
for Emerging and Zoonotic Infectious Disease, Centers for Disease Control and
Prevention*

10:45 a.m. – 12:00 p.m. *Steve Monroe, PhD, Director, Office of Associate
Director for Laboratory Science and Safety,
Centers for Disease Control and Prevention*

*Michael A. Pentella, PhD, D(ABMM), Director,
State Hygienic Laboratory Director at the
University of Iowa*

*Reynolds Salerno, PhD, Director, Division of
Laboratory Systems, Centers for Disease Control
and Prevention*

*Sean Kaufman, MPH, CHES, CPH, CIC, MBTI
Certified Provider, Chief Executive Officer,
Behavioral-Based Improvement Solutions*

12:00 p.m. – 1:00 p.m.

Lunch

Provided in the Tom Harkin Global
Communications Center Lobby

12:15 p.m. – 12:45 p.m.

CDC LRN-B Leadership Meet and Greet

[Meeting Room 245]

CDC LRN-C Leadership Meet and Greet

[Meeting Room 246]

Preparing for Radiological Threats: A Federal Perspective

Auditorium B1/B2/B3

This session will provide attendees with an overview of the steps taken at the federal level and the tools available to respond to a variety of radiological emergencies. Participants will also learn about the challenges associated with effectively responding to a radiological emergency.

Moderator: *Jennifer Buzzell, MS, Health Physicist, Emergency Management, Radiation, and Chemical Branch, Division of Environmental Health, Science and Practice, National Center for Environmental Health, Centers for Disease Control and Prevention*

1:00 p.m. – 2:15 p.m.

Jennifer Buzzell, MS, Health Physicist, Emergency Management, Radiation, and Chemical Branch, Division of Environmental Health, Science and Practice, National Center for Environmental Health, Centers for Disease Control and Prevention

Lynne Wathen, MS, PhD, Biomedical Advanced Research and Development Authority, Office of the Assistant Secretary for Preparedness, U.S. Department of Health and Human Services

Robert Jones, PhD, Chief, Inorganic and Analytical Toxicology Branch, Division of Laboratory Sciences, National Center for Environmental Health, Centers for Disease Control and Prevention

2:15 p.m. – 2:30 p.m.

Break

Tom Harkin Global Communications Center Lobby

Clinical Laboratory and Public Health Partner Engagement

Auditorium B1/B2/B3

This session will discuss clinical laboratory engagement including model practices for biosafety outreach, partner collaboration efforts with poison control centers and adaptive preparedness based on experiences with risk assessments.

Moderators: *Rob Nickla, BS, M(ASCP), Laboratory Response Network Coordinator, Oregon State Public Health Laboratory*

2:30 p.m. – 3:45 p.m.

Erin Bowles, Laboratory Network Coordinator, Co-Biosafety Officer, Wisconsin State Laboratory of Hygiene

Jason Mihalic, Chemistry Office Chief, Arizona Bureau of State Laboratory Services, Arizona Department of Health Services

Rob Nickla, BS, M(ASCP), Laboratory Response Network Coordinator, Oregon State Public Health Laboratory

Jerry Thomas, MD, National Center for Environmental Health, Centers for Disease Control and Prevention

3:45 p.m. – 4:00 p.m.

Break

Tom Harkin Global Communications Center Lobby

Data Information Science: Driving Response Decisions

Auditorium B1/B2/B3

This session will provide an overview of the current landscape of data

exchange, electronic laboratory reporting and HL7 messaging for preparedness and response and discuss strategies employed to improve data exchange in LRN member laboratories.

Moderator: *Joanne Andreadis, PhD, Senior Advisor for Laboratory Preparedness, Office of Public Health Preparedness and Response, Centers for Disease Control and Prevention*

4:00 p.m. – 5:00 p.m.

Jason Hall, BS, Information Technology Specialist, National Center for Emerging and Zoonotic Infectious Disease, Centers for Disease Control and Prevention

Jennifer McGehee, MSCS, MA, Emergency Preparedness and Public Health Support Team, Information Systems Branch, Division of Health Informatics and Surveillance, Center for Surveillance, Epidemiology, and Laboratory Services, Office of Public Health Scientific Services

Noel Stanton, MS, Chemical Response Coordinator, Wisconsin State Laboratory of Hygiene

Keith Higginbotham, BA, IT Systems Manager, Bureau of Information Technology, Alabama Department of Public Health

5:00 p.m.

Adjourn Day 1

Note: When you exit CDC, please retain your meeting badge.

THURSDAY

2018
NATIONAL MEETING

THURSDAY

THURSDAY

Thursday, September 6

8:00 a.m. – 9:00 a.m.

Arrive at Centers for Disease Control and Prevention Campus

9:00 a.m. – 5:00 p.m.

Event Check-In and Badge Pick-Up

C.E.U.s and Objectives

5.75 contact hours for today's Biological Breakout session (588-881-18)

At the conclusion of Day 2, the participant of the Biological Breakout session will be able to:

- Describe lessons learned from real cases and exercises.
- Describe new technologies and capabilities of the LRN for Biological Threats Preparedness (LRN-B) as well as initiatives for assay development.
- Describe steps taken to establish appropriate testing capabilities for emerging threats.
- Discuss partnerships and communication strategies after a threat is detected.

5.75 contact hours for today's Chemical Breakout session (588-882-18)

At the conclusion of Day 2, the participant of the Chemical Breakout session will be able to:

- Describe lessons learned from real cases and exercises.
- Outline public health laboratory preparedness and response capabilities for drug threats.

- Describe new technologies and capabilities of the LRN for Chemical Threats Preparedness (LRN-C).
- Discuss state, local and federal strategies for partnerships and communication.

9:00 a.m. – 5:00 p.m.

Posters Available for Viewing

Tom Harkin Global Communications Center Lobby

LRN-B Breakout Session—Laboratory Response Network Response to Zika Virus

Auditorium B3

Recently, public health laboratories across the US responded to an outbreak of Zika virus. The sudden and sustained influx of specimens required a significant change in daily operations, additional staffing, and new instrumentation to provide timely information to all involved stakeholders. This session will describe the dynamic efforts taken by public health laboratories to assess, triage, test and track patients. The session will also highlight the partnerships with epidemiologists and local health departments during the response.

Moderator: *William Nauschuetz, PhD, Clinical Laboratory Biopreparedness Coordinator, Allied Clinical Services Medical Command*

9:00 a.m. – 10:15 a.m.

Stephen White, MS, Medical Laboratory Scientist IV, Bureau of Public Health Laboratories—Miami, Florida Department of Health

Latoya Griffin-Thomas, PhD, Lead Scientist, Biological Threat/Special Pathogens Response Coordinator, Virginia Division of Consolidated Laboratory Services

Diana Riner, PhD, MS, Virology Section Manager, Bureau of Laboratories, Michigan Department of Health and Human Services

LRN-C BREAKOUT SESSION—DEVELOPING NEW METHODS IN AN EVOLVING CHEMICAL THREAT LANDSCAPE

Auditorium B1/B2

The LRN-C is a unique asset positioned to support large scale responses to chemical threats. Additionally, the network leverages its extensive scientific expertise to respond to emerging and unique threats. This session will discuss LRN-C programmatic activities, the smart design of opioid reference materials, laboratory testing to quantify marijuana in food products, and the development of an analytical method for amanitin poisoning.

Moderator: *Rudolph Johnson, PhD, Chief, Emergency Response Branch, Division of Laboratory Science, National Center for Environmental Health, Centers for Disease Control and Prevention*

9:00 a.m. – 10:15 a.m. *Rudolph Johnson, PhD, Chief, Emergency Response Branch, Division of Laboratory Science, National Center for Environmental Health, Centers for Disease Control and Prevention*

Melissa Carter, PhD, Division of Laboratory Science, National Center for Environmental Health, Centers for Disease Control and Prevention

James Eaton PhD, Chemist II, Maine Health and Environmentally Testing Laboratory

William Draper, PhD, Drinking Water and Radiation Laboratory Branch, California Department of Public Health

10:15 a.m. – 10:30 a.m. **Break**
Tom Harkin Global Communications Center Lobby

LRN-B Breakout Session— Detect the Threat: What's Next?

Auditorium B3

Once the LRN laboratories detect a threat agent, it's simply the beginning of the response. Typically, LRN member laboratories notify CDC and other partners as well as message data to CDC. These laboratories are also at the forefront, coordinating across local, state, federal, private and other non-

governmental agencies to shape the response. This session will share unique case stories, outlining challenges and successes with each response.

Moderator: *Marcella Odle, MS, Laboratory Response Network Operations Team Lead, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Disease, Centers for Disease Control and Prevention*

10:30 a.m. – 12:00 p.m. *Rob Nickla, BS, M(ASCP), Laboratory Response Network Coordinator, Responsible Official, Oregon State Public Health Laboratory*

Megan Price, PhD, Biological Threat Principal Scientist, Molecular Detection, Virginia Division of Consolidated Laboratory Services

Christina Egan, PhD, Director, Biodefense Laboratory, Wadsworth Center, New York State Department of Health, Wadsworth Center

Satish Pillai, MD, Acting Director and Deputy Director, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention

LRN-C Breakout Session—The Outbreak and Laboratory Response to Brodifacoum

Auditoriums B3

In early March, a case of abnormal bleeding was associated with synthetic cannabinoid use in the Chicago area. The cases rapidly expanded, and now stand at approximately 250 cases spread over 10 states. There have been six documented fatalities associated with the outbreak. The powerful anticoagulant brodifacoum was found to be the causative agent. This session will follow the chronology and characteristics of the outbreak, describe the effects and required treatment for brodifacoum exposure, and describe the efforts of two LRN laboratories that developed methods to test for exposure and for the presence of brodifacoum in the products themselves.

Moderator: *Katie Seely, PhD, Environmental Section Director, Arkansas Public Health Laboratory*

10:30 a.m. – 12:00 p.m. *Noel Stanton, M.S., Chemical Response Coordinator, Wisconsin State Laboratory of Hygiene*

Mary Hagerman, M.S., Division Director, Chemistry, Indiana State Department of Health

Luke Yip, MD, Medical Toxicologist, Division of Laboratory Sciences, National Center for Environmental Health, Centers for Disease Control and Prevention

12:00 p.m. – 1:00 p.m. **Lunch**
Provided in the Tom Harkin Global Communications Center Lobby

12:15 p.m. – 12:45 p.m. **CDC LRN-B Leadership Meet and Greet** [Meeting Room 245]
CDC LRN-C Leadership Meet and Greet [Meeting Room 246]

LRN-B Breakout Session—Science and Safety: Mass Spectrometry Technology to Detect Toxins

Auditorium B3

Protein toxins such as botulinum neurotoxin and ricin are deadly proteins whose confirmatory detection is often complex. For public health purposes, it is important to have a measure of toxicity of these proteins, yet measuring toxicity of these proteins often involves live animal testing. CDC laboratories have developed mass spectrometric methods to detect botulinum neurotoxin and ricin based on their enzymatic activity, yielding a measure of toxicity. To date, CDC has completed analytical validation of the method to detect botulinum neurotoxin and partnered with APHL to provide training to LRN laboratories participating in a multicenter evaluation study. This session will discuss the newly developed method, as well as provide an overview of the use of matrix assisted laser desorption/ionization—time of flight (MALDI-TOF) mass spectrometry technology in public health laboratories, including efforts to assess safety and accuracy of the technology and databases.

Moderator: *Julie Villanueva, PhD, Chief, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention*

1:00 p.m. – 2:30 p.m. *Suzanne R. Kalb, PhD, Research Chemist, Division of Laboratory Sciences, National Center for Environmental Health, Centers for Disease Control and Prevention*

Carolina Luquez, PhD, Division of Foodborne, Waterborne, and Environmental Diseases, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention

Erin Swaney, Microbiologist, BioThreat Team Leader, Texas Department of State Health Services Laboratory

Michael Perry, MS, Associate Director, Biodefense Laboratory, Wadsworth Center, New York State Department of Health

LRN-C Breakout Session— Public Health Response to Emerging Drug Crisis in America

Auditoriums B1/B2

Opioid abuse is a serious public health problem affecting many areas in the nation. Prescription opioids and synthetic fentanyls are responsible for thousands of fatal and non-fatal overdoses annually. Building upon advanced analytical capabilities acquired through toxicology and other clinical chemistry programs and knowledge of public health surveillance systems, the governmental public health laboratories are exploring how they might be able to contribute to the opioids response. This session will address the laboratory response to the opioid epidemic.

Moderator: *Amy Watson, PhD, Laboratory Response Network for Chemical Threats Response (LRN-C) Program Coordinator, Emergency Response Branch, Division of Laboratory Sciences, National Center for Environmental Health, Centers for Disease Control and Prevention*

1:00 p.m. – 2:30 p.m.

Rebecca Shaner, MS, Division of Laboratory Sciences, National Center for Environmental Health, Centers for Disease Control and Prevention

Jason Peterson, MS, Chemical Threat Preparedness Coordinator, Minnesota Department of Health, Public Health Laboratory

Luke Short, PhD, Chemistry Section Manager, District of Columbia Public Health Laboratory

2:30 p.m. – 3:30 p.m.

Poster Presenters Available for Discussion

Tom Harkin Global Communications Center Lobby

2:30 p.m. – 3:30 p.m.

Demo: Detection of Biothreat Agents in Potable Water Samples

Presenters: Mia Mattioli, PhD, Environmental Engineer and Kirsten Berling, MPH, Microbiologist, Centers for Disease Control and Prevention

Demo: Captair Field Pyramid

Presenter: Cary Rue, PhD, Microbiologist, Federal Bureau of Investigation Laboratory

LRN-B Breakout Session—Scientific and Engineering Controls to Improve Response

Auditorium B3

As technology evolves, laboratories must have the necessary training to safely implement new methods and adopt new technologies while complying with regulatory requirements. This session will describe efforts to strengthen field collection and transport of samples, evaluation of methods to inactivate biological threats and studies to improve the remediation of biological threats.

Moderator: *Shawna Dereemer, MT(ASCP), Laboratory Preparedness Supervisor, Public Health Science Section/Health Readiness and Response Section, Wyoming Public Health Laboratory*

3:30 p.m. – 5:00 p.m.

Cary Rue, PhD, Microbiologist, Federal Bureau of Investigation Laboratory

Phil Lee, MSc FIBMS, Lead Biological Defense Coordinator, Bureau of Public Health Laboratories—Jacksonville, Florida Department of Health

Eric Weening, PhD, IHRC Inc, Contractor to Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention

Samuel Edwin, PhD, Director, Division of Select Agents and Toxins, Office of Public Health Preparedness and Response, Centers for Disease Control and Prevention

LRN-C Breakout Session—Partnerships for a Coordinated Response to Toxin Exposure

Auditoriums B1/B2

The LRN-C tests for biomarkers of toxins such as ricin and other chemical threats but the capabilities of the laboratory is not always known by first responders or clinicians. This session will describe efforts to develop a database to capture toxic chemicals, toxins and metabolites as well as share outreach and educational materials developed for key partners.

Moderator: *Teresa Miller, BS, Michigan Department of Health and Human Services, Bureau of Laboratories*

3:30 p.m. – 5:00 p.m.

Jason Mihalic, MBA, Chemistry Office Chief, Arizona Bureau of State Laboratory Services, Arizona Department of Health Services

Jocelyn Hover-Jeannsonne, MPH(c), Chemist V, Chemical Threat Coordinator, Texas Department of State Health Services

William Draper, PhD, Drinking Water and Radiation Laboratory Branch, California Department of Public Health

5:00 p.m.

Adjourn Day 2

Note: When you exit CDC, please retain your meeting badge.

FRIDAY

FRIDAY

2018
NATIONAL MEETING

FRIDAY

Friday, September 7

8:00 a.m. – 9:00 a.m.

Arrive at Centers for Disease Control and Prevention Campus

8:00 a.m. – 1:00 p.m.

Event Check-In and Badge Pick-Up

C.E.U.s and Objectives

2.75 contact hours for today's sessions (588-883-18)

At the conclusion of Day 3, the participant will be able to:

- Describe some of the challenges associated with developing a state-wide response plan with first responders.
 - Discuss how the CDC builds state and local public health laboratory capacity to prepare for threats.
 - Provide recommendations to develop a policy framework for public health emergency preparedness and response.
 - Highlight successful public health collaborations and understand how collaborations change over time as public health threats evolve.
-

9:00 a.m. – 1:00 p.m.

Regulatory and Public Policy Partnerships for Emergency Response

Auditorium B1/B2/B3

This session will discuss the policy infrastructure and systems in place to prepare for all-hazards threats and address gaps in the ability of the US to respond to emerging and other threats. Presenters will highlight efforts of the Tri-Agency Task Force for Emergency Diagnostics as well as hear from the Department of Defense on their approach to Emergency Use Authorizations.

Moderator: *Jasmine Chaitram, MPH, Associate Director for Laboratory Preparedness, Chief, Informatics and Data Science Branch, Division of Laboratory Systems, Centers for Disease Control and Prevention*

9:00 a.m. – 10:30 a.m.

Julie Villanueva, PhD, Chief, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention

Joanne Bartkus, PhD, D(ABMM), Director, Public Health Laboratory, Minnesota Department of Health

Captivating Collaborations—Working Together to Improve Public Health Response

Auditorium B1/B2/B3

Since its inception in 1999, the LRN has relied on the expertise of the scientific community to promote innovation across the nation for both biological and chemical threat preparedness. As an important part of the National Response Framework, the LRN exemplifies a united system to respond to a variety of public health threats. Working together across scientific disciplines and at all levels from local to federal responders is an important aspect of the LRN. This session will highlight the successful collaborations that are essential to the success of the LRN.

Moderator: *Laura Zambuto, MS, Deputy Chief, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention*

11:30 a.m. – 12:45 p.m. *Bridgette M. Trela, Supervisory Special Agent, Criminal and Epidemiological Program Manager, Biological Countermeasures Unit, Weapons of Mass Destruction Directorate, Federal Bureau of Investigation*

Maureen Sullivan, MPH, Emergency Preparedness and Response Unit Supervisor, Minnesota Public Health Laboratory, Minnesota Department of Health

Douglas Anders, PhD, Chief, Scientific Response and Analysis Unit, Federal Bureau of Investigation Laboratory

Closing Remarks

Auditorium B1/B2/B3

12:45 p.m. – 1:00 p.m. *Scott Hughes, PhD, Planning Committee Chair, Associate Director, Environmental Sciences, Responsible Official, Select Agent Program, Public Health Laboratory, New York City Department of Health and Mental Hygiene*

1:00 p.m.

Adjourn 2018 LRN National Meeting

POSTERS

2018

NATIONAL MEETING

POSTERS

Poster Sessions

Tom Harkin Global Communications Center Lobby

To be displayed from Wednesday, September 5th at 10:45 a.m. to Friday, September 7th at 1:00 p.m. **Poster presenters will be available for questions on Thursday, September 6th from 2:30 p.m. – 3:30 p.m.**

1. Validation of Inactivation of Viable Cells Using Two Different Biological Rapid Response and Advanced Technology Laboratory DNA Extraction Methods Followed by 0.1 µm Filtration Procedures

James Mock, Lynn Jefferson, Ann Mitulinsky, Eric Weening, PhD, Brad Bowzard, PhD, Mila Cohen, Julie Villanueva, PhD, Jennie Thomas, PhD

Presenter: *James Mock, Centers for Disease Control and Prevention and Eric Weening, PhD, Centers for Disease Control and Prevention*

2. Testing of ticks for Rickettsial species in New York State using real-time PCR

Mark A. Meola, B.A.S, Research Scientist, New York State Department of Health, Wadsworth Center

Presenter: *Mark A. Meola, B.A.S, Research Scientist, New York State Department of Health, Wadsworth Center*

3. Method comparison of the Victor Nivo with the Victor X4 for ricin toxin detection

Michael Perry, MS MSED, Associate Director Biodefense Laboratory, New York State Department of Health—Wadsworth Center

Presenter: *Michael Perry, MS, MSED, Associate Director Biodefense Laboratory, New York State Department of Health—Wadsworth Center*

4. Whole Genome Sequencing of *C. botulinum* and *C. baratii* Isolates in New York State

Dominick Centurioni, MS, Research Scientist I, New York State Department of Health—Wadsworth Center

Presenter: *Dominick Centurioni, MS, Research Scientist I, New York State Department of Health—Wadsworth Center*

5. Performance of the QuantStudio Dx instrument for the Bacillus anthracis Real-time PCR Assay

M. Cohen, MS, CDC, S. Courtney, PhD, CDC, A. Butler, MS, CDC, B. Bowzard, PhD, CDC, J. Villanueva, PhD, CDC, J. Thomas, PhD, CDC

Presenter: *Mila Cohen, MS, Centers for Disease Control and Prevention*

6. A Ricin Story: Using a Training Module to Bridge the Gap between Public Health and Clinical Practice

Jocelyn Hover-Jeansonne, BS, MPH(c), Chemist V, CT Coordinator, Texas Department of State Health Services

Presenter: *Jocelyn Hover-Jeansonne, BS, MPH(c), Chemist V, CT Coordinator, Texas Department of State Health Services*

7. North Carolina Domestic Epidemiology and Laboratory Capacity (ELC) Ebola Laboratory Data Collection Project (2015 – 2018)

B Page, KL Jenkins, SM Orton, and D Pettit, North Carolina State Laboratory of Public Health, Division of Public Health

Presenter: *Barbie Page, MS, MT(ASCP), Laboratory Improvement Consultant, Bioterrorism and Emerging Pathogens Unit, North Carolina State Laboratory of Public Health*

8. Strategies for Limiting Laboratory-Associated Exposures to Brucella in North Carolina

SM Orton,¹ K Long,¹ B Page,¹ KL Jenkins,¹ Dee Pettit,¹ M Haskell,² and C Williams²

¹North Carolina State Laboratory of Public Health, Division of Public Health, Raleigh, NC, ²Communicable Disease Branch, Epidemiology Section, North Carolina Division of Public Health, Raleigh, NC

Presenter: *Susan M. Orton, PhD, D(ABMLI), MT(ASCP), Manager, Bioterrorism and Emerging Pathogens Unit, North Carolina State Laboratory of Public Health*

9. Resources for Sentinel Clinical Laboratory Outreach and Partnerships

Rob Nickla, BS, M(ASCP), LRN Coordinator, Oregon State Public Health Laboratory

Presenter: *Rob Nickla, BS, M(ASCP), LRN Coordinator, Oregon State Public Health Laboratory*

10. The Laboratory Response Network in Action: A Collaborative Effort to Revise the Original Bioterrorism Response Guide for Clinical Laboratories (Bioterrorism Blue Book)

Rob Nickla, BS, M(ASCP), LRN Coordinator, Oregon State Public Health Laboratory

Presenter: *Rob Nickla, BS, M(ASCP), LRN Coordinator, Oregon State Public Health Laboratory*

11. Determination of Microcystins (MCs) and Nodularin in Drinking Water by Automated 96-Well Plate Solid Phase Extraction (SPE) and Ultra High Pressure Liquid Chromatography/Tandem Mass Spectrometry (UPLC-MS/MS)

Wenlu Song, PhD, Research Scientist Supervisor, Biomonitoring Unit, Drinking Water and Radiation Branch, California Department of Public Health

Presenter: *Wenlu Song, PhD, Research Scientist Supervisor, Biomonitoring Unit, Drinking Water and Radiation Branch, California Department of Public Health*

12. Using Podcasts to tell Public Health Laboratory Stories

Ona Adair, PhD, Chemistry Division Director, South Carolina Public Health Laboratory, Erin Bowles, MT (ASCP), Laboratory Network Coordinator and Co-Biosafety Officer, Wisconsin State Laboratory of Hygiene, Denny Russell, BS, Bioterrorism Coordinator, Washington State Department of Health, Dana J. White, BS/BA, Training Coordinator, Mississippi Public Health Laboratory

Presenter: *Dana J. White, BS/BA, Training Coordinator, Mississippi Public Health Laboratory*

13. A Novel Product Design for Better Characterizing the Opioid Epidemic

Michael Mojica, PhD, Centers for Disease Control and Prevention

Presenter: *Michael Mojica, PhD, Centers for Disease Control and Prevention*

14. Orthopoxvirus Detection Utilizing the QuantStudio Dx

Laurie Seigler, BS, Microbiologist, Poxvirus and Rabies Branch, Division of High Consequence Pathogens and Pathology, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention, Sean Courtney, PhD, Microbiologist, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention, Julie Villanueva, PhD, Branch Chief, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention, Christina Hutson, PhD, Virus Host Molecular Interactions Team Lead, Poxvirus and Rabies Branch, Division of High Consequence Pathogens and Pathology, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention, Victoria A. Olson, PhD, Branch Chief, Poxvirus and Rabies Branch, Division of High Consequence Pathogens and Pathology, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention

Presenter: *Ashley V. Kondas, BA, Microbiologist, Poxvirus and Rabies Branch, Division of High Consequence Pathogens and Pathology, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention*

15. Rapid Detection of Antimicrobial Resistance Markers in Bacillus anthracis by Nanopore Whole Genome Sequencing

Amy S. Gargis, PhD, Centers for Disease Control and Prevention, Blake Cherney, MS, Centers for Disease Control and Prevention, Andrew Conley, PhD, Bioinformatician, IHRC-Georgia Tech ABiL, Heather McLaughlin, PhD, Centers for Disease Control and Prevention, David Sue, PhD, Centers for Disease Control and Prevention

Presenter: *Amy S. Gargis, PhD, Centers for Disease Control and Prevention*

16. Rapid Detection of Burkholderia pseudomallei From Small Volumes of Urine Using Filter-Concentration with Active Melioidosis Detect Lateral Flow Immunoassay

Pierre A. Michel, MS, Centers for Disease Control and Prevention, Christine Lascols, MS, Centers for Disease Control and Prevention, David Sue, PhD, Centers for Disease Control and Prevention

Presenters: *Pierre A. Michel, MS, Centers for Disease Control and Prevention, Christine Lascols, MS, Centers for Disease Control and Prevention, David Sue, PhD, Centers for Disease Control and Prevention*

17. Comparability of Solid Phase Extraction Format for Nerve Agent Metabolites in Urine

Alisha Henderson, Centers for Disease Control and Prevention

Presenter: *Alisha Henderson, Centers for Disease Control and Prevention*

18. Evaluation of the Rapid and Field Sequencing Kits for Whole Genome Sequencing to Detect Antimicrobial Resistance Markers in *Yersinia pestis*

Blake Cherney MS, Centers for Disease Control and Prevention, Amy Gargis PhD, Centers for Disease Control and Prevention

Presenter: *Blake Cherney, MS, Laboratory Preparedness and Response Branch, Division of Preparedness and Emerging Infections, National Center for Emerging and Zoonotic Infectious Disease, Centers for Disease Control and Prevention*

19. Rapid Automated Antimicrobial Susceptibility Testing of *Burkholderia* Species by Optical Screening

Heather McLaughlin, PhD, Microbiologist, Centers for Disease Control and Prevention, David Sue, PhD, Principal Investigator, Centers for Disease Control and Prevention

Presenter: *Heather McLaughlin, PhD, Microbiologist, Centers for Disease Control and Prevention*

20. Detection of Biothreat Agents in Potable Water Samples

Mia Mattioli, PhD, Environmental Engineer, Centers for Disease Control and Prevention and Kirsten Berling, MPH, Microbiologist, Centers for Disease Control and Prevention

Presenters: *Mia Mattioli, PhD, Environmental Engineer, Centers for Disease Control and Prevention and Kirsten Berling, MPH, Microbiologist, Centers for Disease Control and Prevention*

21. Evaluating Bacillus anthracis Inactivation and DNA Extraction Following Heat Stabilization Treatment by the Denator Stabilizer T1

Julia Bugrysheva, PhD, Microbiologist Centers for Disease Control and Prevention, Pierre Michel, MS, Microbiologist, Centers for Disease Control and Prevention, Phalasy Juieng, Biologist, Centers for Disease Control and Prevention, Vladimir Loparev, PhD, Senior Service Fellow, Centers for Disease Control and Prevention, David Sue, PhD, Microbiologist, Centers for Disease Control and Prevention

Presenter: *Julia Bugrysheva, PhD, Microbiologist, Centers for Disease Control and Prevention*

22. An Analysis of Laboratory Response Network for Biological threat preparedness (LRN-B) Member Laboratory Test Data, 2009-2016

Julie Villanueva, PhD, Beth Schweitzer, MS, Marcella Odle, MS, Tricia Aden, MT(ASCP), Office of Infectious Diseases, National Center for Zoonotic and Emerging Infectious Diseases, Division of Emerging Infections, Laboratory Preparedness and Response Branch, Centers for Disease Control and Prevention

Presenter: *Beth Schweitzer, MS, Office of Infectious Diseases, National Center for Zoonotic and Emerging Infectious Diseases, Division of Emerging Infections, Laboratory Preparedness and Response Branch, Centers for Disease Control and Prevention*

23. Surge Capacity Drill with the Civil Support Team

Pascale Leonard, PhD, Molecular Biology Section Supervisor, New Mexico Department of Health, Scientific Laboratory Division, Allison Treloar, MS, CBA(ASQ), MB(ASCP), SLS, Director—Office of Quality, Safety, Security, & Emergency Preparedness, New Mexico Department of Health, Scientific Laboratory Division

Presenter: *Pascale Leonard, PhD, Molecular Biology Section Supervisor, New Mexico Department of Health, Scientific Laboratory Division, Allison Treloar, MS, CBA(ASQ), MB(ASCP), SLS, Director—Office of Quality, Safety,*

24. Improving Technologies for Biological Threat Detection

T. Wolford, Association of Public Health Laboratories, S. Abrams, Association of Public Health Laboratories, T Aden, Centers for Disease Control and Prevention

Presenter: *Tyler Wolford, MS, Senior Specialist, Laboratory Response Network, Association of Public Health Laboratories.*

25. APHL Biosafety Officer Leadership Workshop

M. Marsico, S. Page, C. Mangal, Association of Public Health Laboratories

Presenter: *Sean Page, BS, CAMP, Associate Specialist, Public Health Preparedness and Response, Association of Public Health Laboratories*

26. Biosafety Peer Network: Connecting the Dots in Biosafety

M. Marsico, C. Mangal and S. Page, Association of Public Health Laboratories

Presenter: *Michael Marsico, MS, Senior Specialist, Biosafety and Biosecurity, Association of Public Health Laboratories*

27. Validation of a Real-time PCR Assay to Detect Francisella tularensis in Clinical Specimens

Lauren E. Andersen, PhD, Biologist, Centers for Disease Control and Prevention

Presenter: *Lauren E. Andersen, PhD, Biologist, Centers for Disease Control and Prevention*

28. Evaluation of Commercial MasterMix for the Use with LRN PCR Assays

Viny Bhullar, Microbiologist, Laboratory Preparedness and Response Branch, Centers for Disease Control and Prevention

Presenter: *Viny Bhullar, Microbiologist, Laboratory Preparedness and Response Branch, Centers for Disease Control and Prevention*

29. Funding Laboratory Preparedness and Response

Samuel Abrams, MPH, PMP, Specialist, Public Health Preparedness and Response, Association of Public Health Laboratories

Presenter: *Samuel Abrams, MPH, PMP, Specialist, Public Health Preparedness and Response, Association of Public Health Laboratories*

30. Laboratory Response Networks: A Model for Linking Private Clinical and Governmental Public Health Systems to Combat Global Health Threats

C. Mangal and T. Wolford, Association of Public Health Laboratories

Presenter: *Chris Mangal, MPH, Director, Public Health Preparedness and Response, Association of Public Health Laboratories*

Sherri,

The August 7th lunch and coaching we can do from 1:00-2:45 due to Vital Signs and a call with Dr. Zuniga that cannot be moved. Will this new time be okay?

Sincerely,
Tracie

Subject: Aug 7/8

All –

There are two invites on R3's calendar – both meetings should include Kyle, me, KLD, Anne & Amanda.

Change both meeting titles to “Visioning Session with the Exec Team”

The two meetings should be as follows:

- Aug 7 930-1130am
- Aug 8 2-4pm

Also add these two for R3 alone:

- Aug 7 lunch and coaching session 12-2pm
- Aug 8 lunch and coaching session 12-2pm

Sound OK?

Thank you

Subject: RE: Thursday morning in DC

Update from CDCW, re: Thursday scheduling hold, Rep. Engel will be at a hearing during that timeframe and Rep. Schakowsky is only available at 10:30am, which isn't guaranteed if votes get called (and is during Dr. Redfield's prep time at HHS). Unfortunately, looks like we won't be able to fill that time.

Logistics Specialist: Brad Bartee

Special Assistant: Hugh Green

Event Contact: Kristina Cesa, Policy Analyst, Office of Strategic Communication, Policy, & Partnerships, Division of Foodborne, Waterborne, and Environmental Disease, National Center for Emerging and Zoonotic Infectious Diseases, Office Phone:404-639-6418, Mobile: 404-901-2276, jzq7@cdc.gov

CDC Staffer Accompanying Dr. Redfield: TBD

CDC Program Contact (if applicable): TBD

CDC Media Contact (if applicable): TBD

2. Event Information:

Event Host: NCEZID

Purpose of Event: Conduct an introductory meeting with Dr. Dominique Legros (Cholera Team Leader, WHO GTFCC), to discuss plans and progress related to the Cholera Roadmap. The Director will likely have heard about the Cholera Roadmap and Cholera efforts at the World Health Assembly, as there will be a major side event on cholera.

GTFCC members share a vision that collective action can stop cholera transmission and end cholera deaths. The purpose of the GTFCC is to support increased implementation of evidence-based strategies to control cholera. The GTFCC aims to achieve this through strengthened international collaboration and improved coordination amongst stakeholders active in cholera-related activities. GTFCC activities will aim to raise the visibility of cholera as a public health issue, facilitate sharing of evidence-based practices, and contribute to capacity development in all areas of cholera control.

Agenda (if applicable): TBD

Number of Attendees and Composition: TBD

Key Participants (if applicable): Dr. Legros will be attending the ICEID Conference from 8/26 – 8/29. NCEZID and CGH Leadership will attend if desired.

Dr. Rima Khabbaz

Chris Braden

Eric Mintz

Rebecca Martin

Hamid Jafari

Hugh Green

Nikki Romanik

Bios: TBD

Source Invitation: Yes on the 5/29/18 DL; NCEZID can provide TPs.

3. **Dr. Redfield's Speech Information or Talking Points (TPs):**

Subject: DL: Cholera meetings for R3
Date: Tuesday, May 22, 2018 12:28:28 PM

Hi Jeremy and Scott, see below an item for the Director's DL. This is in late August and is Center supported. Let me know if you have any questions. Rebecca

Partner: Dr. Dominique Legros, Cholera Team Leader, World Health Organization's WHO's Global Task Force on Cholera Control (GTFCC). GTFCC members share a vision that collective action can stop cholera transmission and end cholera deaths. The purpose of the GTFCC is to support increased implementation of evidence-based strategies to control cholera. The GTFCC aims to achieve this through strengthened international collaboration and improved coordination amongst stakeholders active in cholera-related activities. GTFCC activities will aim to raise the visibility of cholera as a public health issue, facilitate sharing of evidence-based practices, and contribute to capacity development in all areas of cholera control

Purpose: For Dr. Redfield and Dr. Legros to meet, with Dr. Legros to discuss plans and progress related to the Cholera Roadmap. Dr. Redfield will likely have heard about the Cholera Roadmap and cholera efforts at the World Health Assembly, as there was a major side event on cholera.

Where and When: Dr. Legros will be attending the ICEID Conference from August 26-29 and likely could be available to meet whenever is best for Dr. Redfield. One exception is that Dr. Legros' presentation at ICEID will be from 8-9am on the 28th. Meeting could be anywhere on CDC campus or at the ICEID conference if Redfield is attending that.

Other notes: This visit is being flagged for NCEZID and CGH Center leadership, who could likely attend with Redfield. One hour will be more than enough time, but could make 30 minutes work if needed. NCEZID is happy to provide talking points.

Subject: FW: Cholera meetings for R3

Hi Hugh,

Dr. Redfield will be meeting with Dr. Legros from 2:30 – 3 PM on 8/28 in the Director's Conference Room (DCR). Jeremy confirmed the meeting but how do we get it on outlook?
Kristina needs to invite Dr. Khabbaz and the DFWED water people.

Thanks

Susan

Subject: DL: Cholera meetings for R3

Hi Jeremy and Scott, see below an item for the Director's DL. This is in late August and is Center supported. Let me know if you have any questions. Rebecca

Partner: Dr. Dominique Legros, Cholera Team Leader, World Health Organization's WHO's Global Task Force on Cholera Control (GTFCC). GTFCC members share a vision that collective action can stop cholera transmission and end cholera deaths. The purpose of the GTFCC is to support increased implementation of evidence-based strategies to control cholera. The GTFCC aims to achieve this through strengthened international collaboration and improved coordination amongst stakeholders active in cholera-related activities. GTFCC activities will aim to raise the visibility of cholera as a public health issue, facilitate sharing of evidence-based practices, and contribute to capacity development in all areas of cholera control

Purpose: For Dr. Redfield and Dr. Legros to meet, with Dr. Legros to discuss plans and progress related to the Cholera Roadmap. Dr. Redfield will likely have heard about the Cholera Roadmap and cholera efforts at the World Health Assembly, as there was a major side event on cholera.

Where and When: Dr. Legros will be attending the ICEID Conference from August 26-29 and likely could be available to meet whenever is best for Dr. Redfield. One exception is that Dr. Legros' presentation at ICEID will be from 8-9am on the 28th. Meeting could be anywhere on CDC campus or at the ICEID conference if Redfield is attending that.

Other notes: This visit is being flagged for NCEZID and CGH Center leadership, who could likely attend with Redfield. One hour will be more than enough time, but could make 30 minutes work if needed. NCEZID is happy to provide talking points.

Importance: High

Good afternoon Susan,

Unfortunately Dr. Redfield will be traveling on August 28th and not available to meet with Dr. Legos as scheduled on August 28th from 2:30-3:00 p.m.

There may be an opportunity to reschedule the meeting on August 29th, but we cannot confirm a time at the moment as Dr. Redfield has a lot of unconfirmed meetings and events.

Would August 29th be an option to reschedule should anytime become available?

Would Dr. Legos be available on August 30th?

My apologizes for any inconvenience.

Best,
Teresa

Rebecca,

Dr. Redfield agreed to this request. Can we get them to meet him here at CDC from 8/27 – 8/29?

Jeremy

Subject: DL: Cholera meetings for R3

Hi Jeremy and Scott, see below an item for the Director's DL. This is in late August and is Center supported. Let me know if you have any questions. Rebecca

Partner: Dr. Dominique Legros, Cholera Team Leader, World Health Organization's WHO's Global Task Force on Cholera Control (GTFCC). GTFCC members share a vision that collective action can stop cholera transmission and end cholera deaths. The purpose of the GTFCC is to support increased implementation of evidence-based strategies to control cholera. The GTFCC aims to achieve this through strengthened international collaboration and improved coordination amongst stakeholders active in cholera-related activities. GTFCC activities will aim to raise the visibility of cholera as a public health issue, facilitate sharing of evidence-based practices, and contribute to capacity development in all areas of cholera control

Purpose: For Dr. Redfield and Dr. Legros to meet, with Dr. Legros to discuss plans and progress related to the Cholera Roadmap. Dr. Redfield will likely have heard about the Cholera Roadmap and cholera efforts at the World Health Assembly, as there was a major side event on cholera.

Where and When: Dr. Legros will be attending the ICEID Conference from August 26-29 and likely could be available to meet whenever is best for Dr. Redfield. One exception is that Dr. Legros' presentation at ICEID will be from 8-9am on the 28th. Meeting could be anywhere on CDC campus or at the ICEID conference if Redfield is attending that.

Other notes: This visit is being flagged for NCEZID and CGH Center leadership, who could likely attend with Redfield. One hour will be more than enough time, but could make 30 minutes work if needed. NCEZID is happy to provide talking points.

Subject: CDC OD DL Request: US Ambassador to the African Union [9/17]

Hi Melissa,

Please see below for the details of a request for Dr. Redfield to meet with the US Ambassador to the African Union. Let me know if you have any questions.

Who: Mary Beth Leonard, US Ambassador to the African Union

When: September 17th, 2018

Why: Ambassador Leonard is the primary USG conduit and diplomatic influencer of the African Union and its associated institutions, including Africa CDC. Given the growing role of Africa CDC and CDC's ability to influence this, maintaining strong ties with Ambassador Leonard is critical and beneficial.

CGH Recommendation: Dr. Redfield should take this meeting.

Thanks!

Subject: CDC OD DL Request: Burkina Faso MOH [7/12/2018]

Hi Melissa,

See below for the details of a request for Dr. Redfield to meet with the Burkina Faso Ministry of Health on July 12th. Please let me know if you have any questions.

Who:

- Nicolas Meda, Minister of Health
- Herve Mwinone Herve, Director General of Centre Muraz
- Isaie Medah, Director General of Public Health
- Brice Wilfried Bicaba, Director of the Protection of Population Health
- Claude Millogo Barro, IANPHI Consultant

When: July 12, 2018

Why: The Burkina Faso Ministry of Health has identified the development National Public Health Institute as a key priority. The Minister and a delegation of 3 key members of his leadership team will be visiting CDC to better understand how the US CDC functions and to discuss ways to strengthen collaboration between the two institutions. In addition, the delegation will be discussing ongoing technical collaborations.

CGH Recommendation: Dr. Redfield should take this meeting.

Thanks!

Ministry of Health, Burkina Faso
U.S. Centers for Disease Control and Prevention
Study Tour
Atlanta, Georgia
Date: July 11 – July 13 2018

Visit Purpose: The Ministry of Health Burkina Faso will visit the U.S. to learn more about the organizational structure, functions and activities of the U.S. CDC. The ideas, knowledge, and relationships generated from the visit will be used to inform the standing up of the newly established national public health institute (NPHI) in Burkina Faso.

Visit Objectives:

- Receive an introduction to the CDC, highlighting CDC as a NPHI, and how we function within the U.S. public health system – both across the federal system and with local/state health departments
- Receive an introduction to CDC's support for national public health institute development around the world, in partnership with the International Association of National Public Health Institutes (IANPHI)
- Discuss other CDC global health programs and existing collaborations
- Discuss priority technical program areas
- Discuss next steps for establishing Burkina Faso's public health institute

Delegation:

- Professor Nicolas Meda, Minister of Health, Burkina Faso
- Dr. Isaie Medah, Director General of Public Health, Ministry of Health, Burkina Faso
- Dr. Brice Bicaba, Director of the Protection of Population Health, Ministry of Health, Burkina Faso
- Dr. Claude Millogo Barro, Consultant, IANPHI

Meeting Venues:

- Centers for Disease Control and Prevention; 1600 Clifton Rd, Atlanta, Georgia
- Emory Global Health Institute, IANPHI
- Georgia Public Health Laboratory

U.S. CDC Contacts:

Rebecca Greco Koné, CDC Country Director
Maureen Bartee, Associate Director for Global Health Security
Sukeshi Roberts, ORISE Fellow, CGH
Mark Anderson, CDC Country Manager
Shelly Bratton, NPHI Program Lead

Hotel: Emory Conference Center Hotel

Logistics Specialist: Nikki Romanik

Special Assistant: Ashley Knotts

Event Contact: Monica Panwar (CGH), Mobile: 404-317-0619, onml@cdc.gov

CDC Staffer Accompanying Dr. Redfield: Rebecca Martin will join the meeting.

CDC Program Contact (if applicable): TBD

CDC Media Contact (if applicable): Photographer will be present for photos.

2. **Event Information:**

Event Host: CGH

Purpose of Event: Meet with Dr. Chikwe Ihekweazu (CEO & National Coordinator, NCDC). Nigeria is in the final stages of moving forward on Public Health legislation and there will be a final hearing in the next few weeks. They hope the bill will be finalized and passed to the president for signature. NCDC is very pleased to be working with the Private Sector Health Alliance and it is organized in a way that aligns with NCDC priorities. The need in Nigeria could not be more obvious. NCDC is interested in learning from the CDC Foundation regarding fund raising, governance and operational processes.

Subject: CDC OD DL Request: Nigeria-CDC [July 12, 2018]

Hi Melissa,

See below for the details of a request for Dr. Redfield to meet with Dr. Chikwe Ihekweazu from Nigeria-CDC on July 12th. Please let me know if you have any questions.

Who: Dr. Chikwe Ihekweazu, NCDC

When: July 12th, 2018

Why: Nigeria is in the final stages of moving forward on Public Health legislation and there will be a final hearing in the next few weeks. They hope the bill will be finalized and passed to the president for signature. NCDC is very pleased to be working with the Private Sector Health Alliance and it is organized in a way that aligns with NCDC priorities. The need in Nigeria could not be more obvious. NCDC is interested in learning from the CDC Foundation regarding fund raising, governance and operational processes.

CGH Recommendation: Dr. Redfield should take this meeting.

Thanks!

1. Contacts:

Logistics Specialist: TBD

Special Assistant: Ashley Knotts

Event Contact: Danielle Heiberg, Global Health Council, 703-717-5286,
dheiberg@globalhealth.org

CDC Staffer Accompanying Dr. Redfield: TBD

CDC Program Contact (if applicable): TBD

CDC Media Contact (if applicable): N/A

2. Event Information:

Event Host: TBD

Purpose of Event: Meet with GHC leadership, who will also host a town hall with the global health community, when the Director is in DC. Established in 1972, GHC is the leading membership organization supporting and connecting advocates, implementers and stakeholders around global health priorities worldwide. The organization is the collaborative voice of the global health community on global health issues; it convenes stakeholders around key global health priorities and actively engages key decision makers to influence health policy. Currently, Global Impact serves as the Secretariat for GHC.

GHC hopes the Director will continue to prioritize programs that strengthen health systems to better address disease burdens in low- and middle-income countries. GHC knows that investments in global health work, and the work of CDC in HIV/AIDS, malaria, tuberculosis, and global health security to name a few, has had an impact on millions of lives around the world.

Agenda (if applicable): TBD

Number of Attendees and Composition: TBD

Key Participants (if applicable): TBD

Bios: TBD

Source Invitation: Yes on the 5/21/18 DL; R3 Comment: Yes to a meeting at CDCW but not a town hall. Melissa Moore (CGH) & Anstice Brand (CDCW) recommend and suggest having the meeting at CDCW.

3. Dr. Redfield's Speech Information or Talking Points (TPs):

Dr. Redfield's Remarks/Presentation/TPs: TBD

Proposed Role and Topic: N/A

Length of Presentation: N/A

Press: No press and no members of Congress will be present in either format.

Dr. Robert Redfield
Director
The Centers for Disease Control and Prevention
1600 Clifton Road
Atlanta, GA 30329

April 25, 2018

Dear Director Redfield,

On behalf of the members of Global Health Council (GHC), I would like to extend our congratulations on your confirmation to serve as Director of The Centers for Disease Control and Prevention. We look forward to working with you and your colleagues.

As the leading membership organization of global health advocates, implementers and stakeholders, GHC has welcomed opportunities in the past to support and promote the work of CDC. I hope you will consider our community as a resource on global health and its intersection with public health abroad and in the United States.

Over the course of your tenure, we hope that you will continue to prioritize programs that strengthen health systems to better address disease burdens in low- and middle-income countries. We know that investments in global health work, and the work of CDC in HIV/AIDS, malaria, tuberculosis, global health security to name a few, has had an impact on millions of lives around the world.

We know that your schedule is busy, but we hope that when you are in Washington, DC that we could schedule a meeting with you and the global health community to learn more about your priorities and how we can be a useful resource. Danielle Heiberg, Senior Manager, Policy and Advocacy at GHC at (dheiberg@globalhealth.org), can work with your staff to schedule a date and time.

Again, congratulations, and we look forward to your leadership at CDC.

Sincerely,

Loyce Pace, MPH
President and Executive Director

Meeting with Select Washington-Based Global Health Partners

Date: Monday July 9

Time: 2:00-3:00 p.m., CDC Washington office

Meeting Duration: 1 Hour

Anstice Brand (CDC/W) and Serena Vinter (CGH) will open the meeting and introduce you to the partner organizations, then ask that each partner introduce themselves and their affiliation so you have a sense of the room. You will then make a few remarks about yourself and CDC global health priorities. The partners will then ask select questions (pre-submitted; see Appendix). After the meeting you are free to leave or stay and answer questions as your schedule allows (SEE attached agenda).

A. Key Meeting Objectives/Background Information:

- The Global Health Council (GHC) requested and assisted with organizing the meeting. GHC is a major convener of the global health community in Washington D.C. However, CDC asked that additional partners be invited, as not all of our global health partners are members of GHC. You should plan to thank GHC for their advocacy while also recognizing that each partner organization has its own priorities, constituencies, and mandates. (SEE attached list of confirmed attendees).
- While these groups all have an interest in CDC's global activities, some are also interested in CDC's domestic work.
- The meeting participants are largely the groups' government-relations and/or policy leads.
- This is a courtesy meeting to:
 - introduce yourself to the group
 - get to know them
 - share your priorities, specifically global health priorities; and
 - answer pre-selected questions from the partners

B. Top-Line Message Points

-
-
-
-
-
-
-

(b)(5)

- Once again, thank you for all that you do. We strive to work together with you all and look forward to our continued partnership as we move forward.

Agenda-Global Health Partner Meeting

Monday July 9

2:00 p.m.

CDC Washington Office

- I. Anstice Brand and Serena Vinter welcome partners
- II. Partner quick introductions (name, organization and role at organization)
- III. Dr. Redfield brief remarks
- IV. Questions and answers
- V. Close of meeting

APPENDIX—PRE-SUBMITTED QUESTIONS AND SUGGESTED ANSWERS

Question 1: How do we leverage polio assets as we plan for polio transition?

- CDC is planning for the post-polio world to mitigate risks to vaccination programs after polio eradication, and ensure that the world remains permanently polio-free. It is critical that this planning not jeopardize the achievement of our primary goal of eradication.
- CDC is working to ensure that we:
 - Transition Global Polio Eradication Initiative assets and infrastructure to other vaccine preventable disease control efforts, including measles and rubella elimination;
 - Improve vaccination coverage throughout the life course; and
 - Enhance global capacity for early detection and outbreak response.

Question 2: How do we “finish the fight” against priority infectious diseases?

- In addition to maintaining our laser focus on polio eradication as we discussed, CDC is deeply engaged in the fight against other priority infectious diseases around the world:

HIV/AIDS

- CDC works through PEPFAR to accelerate progress toward HIV epidemic control. CDC is focused on Accountability (cost effectiveness), Transparency (program data), and Impact (save lives and avert new infections).
- We must focus prevention interventions to saturation for the 15-30 year old age group, and continue to strengthen key health system capacities, including laboratory capacity/accreditation.
- CDC will continue to lead within PEPFAR to strengthen disease surveillance systems, monitor disease trends, and collect and analyze epidemiological data to drive decision-making.

Tuberculosis (TB)

- To accelerate progress on TB globally, we must find, cure, and prevent TB cases globally, and scale up evidence-based programs to sustain our success.
- CDC is working closely with partners and ministries to find the missing cases of TB through enhanced surveillance and treatment efforts, as well as prevention through infection control programming and scaling up TB preventative therapy.
- There is significant interest in TB control globally, but the world must seize this moment to translate this interest into action. The first United Nations High Level Meeting on TB during the UN General Assembly must lead to significant commitments from partner countries.
- CDC is working to develop a side event that will highlight CDC's domestic and global role in ending the TB epidemic through the use of TB preventative therapy.

Malaria

- While significant progress has been made, malaria remains a threat to the U.S. and the world.
- Global efforts are making real, meaningful progress toward elimination/eradication, but we are still very far away. Critical gaps exist in the program coverage and success, and resistance is creating a different malaria landscape.
- New tools and approaches to stop transmission and overcome technical challenges are needed to support elimination - including diagnostics, strategic use of treatment drugs, surveillance methods, vector control strategies, and vaccines. **The most sustainable approach to address the malaria threat is to eliminate it.**

Question 3: Global Health Security – What’s the way forward, and how is CDC planning for the resources it will need beyond FY19?

- Global health security is a top priority for me and for the Secretary.
- We were pleased to see Congressional support for global health security through the additional \$50 million provided in the Fiscal Year 2018 omnibus appropriations act.
- With this funding and support from the Administration in the FY 19 President’s Budget, we will fully meet our commitments to the 17 Phase 1 GHSA countries where we have been working since 2015.
- The NSC is leading an interagency process to set forth the US GHS Strategy for 2020-2024 as well as identify our commitments moving forward.
- CDC will continue to work with our partner governments to develop the core public health capabilities required to prevent, detect, and respond to infectious disease outbreaks and other public health threats. These investments will focus on critical activities in surveillance, laboratory, workforce development, emergency response, and other technical areas.

Question 4: USAID’s journey to self-reliance: how does CDC work with USAID to help with transition?

- CDC and USAID work closely together in the field to coordinate our work in global health initiatives. CDC is actively tracking USAID’s “Journey to Self-Reliance” pillar of their Transformation effort, and is in communication with USAID on the way forward.
- **FURTHER BACKGROUND:** USAID is beginning its “secondary analytical approach,” which will further define indicators for self-reliance within USAID’s pillar bureaus and key sectors – including health. CDC has begun conversations with USAID to engage in this effort for public health.

Question 5: Chronic diseases: in light of the upcoming UN High Level meeting on Non-communicable Diseases (NCDs), how is CDC engaging?

- CDC recognizes the important opportunity provided through the annual UN General Assembly and associated High Level Meetings, to elevate critical global health issues to heads of state and the highest levels of government worldwide.
- For example, CDC remains engaged in the **Global Hearts Initiative**, which we co-launched with WHO at the 2016 UN General Assembly meeting. The Initiative comprises three technical packages which provide a set of high-impact, evidence-based interventions that, when used together, will have a major impact on improving global heart health.
 - On the prevention side, the Global Hearts Initiative includes the MPOWER package for **tobacco control** and the SHAKE package for **salt reduction**. On the management side, the HEARTS technical package is aimed at **strengthening the management of cardiovascular diseases in primary health care**.
- CDC is actively engaging in the U.S. government's preparatory process for the 2018 UN General Assembly's two health-focused High Level Meetings – on NCDs as well as tuberculosis. We anticipate high-level representation from CDC, the Department of Health & Human Services, and the Department of State at both of those events.

CDC Global Partners Meeting with Dr. Robert R. Redfield Biographies

Ashley Arabasadi, Health Security Policy Advisor, Management Sciences for Health

Ashley Arabasadi is the current chair of the Global Health Security Agenda Consortium and the Global Health Security Policy and Advocacy Advisor for Management Sciences for Health. Previously Ashley worked for International Medical Corps, leading the organization's efforts on the Global Health Security Agenda after managing the disaster response programs in Asia. Prior to her work at IMC, she worked with USAID's Global Health Bureau's Office of Health, Infectious Disease and Nutrition office supporting the Child Survival Health Grants program and the Leadership Initiative for Public Health in East Africa program. Ashley is a formally trained physical anthropologist and archaeologist specializing in health and disease in human skeletal populations. Ashley received an undergraduate degree from Indiana University and a MSc. from the University of Durham in England.

- The GHSAC engages with CDC policy and program staff on issues relating to the overall Agenda and serving as panelists for Ministerials and other high level meetings. The GHSAC recently co-hosted the 2nd Annual Report meeting event on Capitol Hill - coordinating with CDC, HHS, DOD, and others.
- MSH is a recipient of several CDC awards globally including Tanzania, Malawi, South Africa and Kenya for programming on HIV/AIDs, laboratory systems, health information and results management. MSH also works closely with CDC policy and communications staff on health security and advocacy.

Rabita Aziz, Senior Global Health Policy Specialist, Infectious Diseases Society of America

Rabita Aziz is the senior global health policy specialist for the Infectious Diseases Society of America. She advances IDSA's global health advocacy efforts and engages with Congress and the Administration around global infectious disease policy and funding, bringing the voices of IDSA physician scientist experts to the U.S. policy arena and working in coalition with global health partners to encourage a robust U.S. response to addressing global infectious disease issues. She is also the policy writer for Science Speaks blog, deciphering byzantine federal budget issues and covering policy and other global infectious disease areas. She also coordinates IDSA's policy advocacy social media efforts. She has an MPH with a concentration in global health from the George Washington University.

- IDSA represents over 11,000 physician scientists working in infectious diseases responses and research in the U.S. and globally. IDSA supports a policy education program that promotes U.S. leadership in HIV, tuberculosis, antimicrobial resistance and other global infectious diseases issues, and seeks to educate Congressional staff on the CDC's unique and important role in advancing U.S. responses for infectious diseases globally and protecting American health.

Natasha Bilimoria, Director, US Strategy, Gavi, the Vaccine Alliance

Natasha Bilimoria is the Director of U.S. Strategy for Gavi, the Vaccine Alliance where she leads efforts to mobilize public and private sector support in the United States to fund childhood immunisation in the world's poorest countries. Her leadership experience and relationships with U.S. government officials, non-governmental organizations and the private sector are instrumental in furthering Gavi's visibility in the United States and throughout the global health community. Prior to taking on this role in 2013, Ms. Bilimoria served for seven years as President of Friends of the Global Fight, where she led U.S. efforts to support the lifesaving work of the Global Fund to Fight AIDS, TB and Malaria. Previously, she held several positions at the Elizabeth Glaser Pediatric AIDS Foundation. Ms. Bilimoria also served in the Clinton Administration at the White House and in the US Department of Treasury, where she worked on domestic economic development issues. She was also a member of the Obama-Biden Presidential Transition Team's state, national security, defense, intelligence and arms control agency review team and led a comprehensive review and analysis of all U.S. global health programs.

Vince Blaser, Director, Frontline Health Workers Coalition (FHWC)

Vince Blaser is director of the Frontline Health Workers Coalition, an alliance of United States-based organizations working together to urge greater and more strategic U.S. investment in frontline health workers in the developing world. IntraHealth International is a founding member and houses the secretariat of the coalition.

- Georgia Global Health Alliance held a meeting with CDC, FHWC, and others on importance of health workforce in health security.

- Dr. Martin was a panelist discussing the role of frontline health workers in detecting and responding to pandemics at the FHWC flagship event Health Heroes + Social Good Summit in April 2018.
- FHWC has helped to pass report language in legislation (including FY2019 State and Foreign Operations bill) which encourages the USAID Administrator, in consultation with OGAC and the Director of CDC to “increase access to quality care through frontline health workers, particularly at the community level, as part of their strategy to prevent child and maternal deaths and ensure global health security.”

Chris Collins, President, Friends of the Global Fight Against AIDS, TB, and Malaria

Chris leads Friends' efforts to educate and engage U.S. decision makers on the lifesaving work of the Global Fund to Fight AIDS, Tuberculosis and Malaria and its effort to end these three epidemics. Previously, as Chief of the Community Mobilization Division at UNAIDS, Chris helped make the case for investment in civil society as an essential part of the AIDS response. Chris also helped drive the creation of the first comprehensive U.S. National HIV/AIDS Strategy; helped develop and managed the ITPC series of reports on global HIV treatment scale up; and co-founded and served as Executive Director at AVAC: Global Advocacy for HIV Prevention. As appropriations staff to Rep. Nancy Pelosi (D-CA) in the 1990s, Chris designed the first legislation to provide incentives for development and delivery of vaccines against HIV, TB and malaria. He holds a master’s degree in public policy from Harvard University.

- Friends engages with CDC to help develop the case for global health investment (including use of health security assessments by CDC Global) and to advise on policy matters. We also seek to share information about the interconnection of US bilateral global health efforts and the Global Fund.

Katie Lapidés Coester, Senior Public Policy Officer, Elizabeth Glaser Pediatric AIDS Foundation (EGPAF)

Katie Coester is a Senior Public Policy Officer at the Elizabeth Glaser Pediatric AIDS Foundation (EGPAF) where she oversees the U.S. policy portfolio. Katie is responsible for engaging with Capitol Hill, the Administration and the broader global health community around global health issues, including policies related to pediatric HIV/AIDS and prevention of mother-to-child transmission (PMTCT) programs. Prior to joining EGPAF in 2010, Katie worked at the Prevent Cancer Foundation on public policy engagement and managing the Congressional Families Action for Cancer Awareness program. She holds a Masters in Public Policy from American University and a B.A. in political science from Miami University.

- EGPAF partners with CDC in 11 countries under the PEPFAR umbrella both in direct service delivery and technical assistance. EGPAF’s program implementation in country covers the entire HIV continuum of care from prevention through treatment as well as supporting health facilities, training health care workers and strengthening health systems. Our dedicated staff support activities and close partnership with governments, ministries of health, and local organizations to halt the spread of the virus and to ensure those living with HIV receive the care and support they need to live long and healthy lives.
- Our CDC/PEPFAR technical assistance project is Delivering Technical Assistance (DELTA) and provides targeted and cost-effective technical assistance and program implementation expertise in prevention of mother-to-child transmission (PMTCT), and pediatric and adult HIV care and treatment service programs in high-HIV prevalence settings. EGPAF employs a technical team of subject matter and field experts to meet the needs of each local context.

Jodie Curtis, Executive Vice President, District Policy Group

Jodie Curtis is the Executive Vice President of the District Policy Group. Jodie works with a number of organizations on global health policy including the American Society of Tropical Medicine, Drugs for Neglected Diseases Initiative, PATH and the Global Health Technologies Coalition and others. In this capacity Jodie serves as the co-chair of both the Malaria Roundtable and the NTD Roundtable. She has nearly 25 years of experience in government, Congressional affairs and health policy.

- The Malaria Roundtable is made up of diverse group of advocacy stakeholders from groups working on programs on the ground to those who research new tools to combat malaria. As such, the Roundtable supports and follows CDC’s important contributions to these efforts. These efforts primarily take place in the Center for Global Health and National Center for Emerging Zoonotic and Infectious Disease.
- The NTD Roundtable consists of groups that work in neglected tropical disease from programs that work on the USAID NTD program to those that are developing new tools to fight various NTDS. The CDC plays a small but important role in NTD efforts including identifying NTDS for practitioners around the world, evaluating programs

and NTD elimination efforts for effectiveness, providing technical assistance to the USAID program, and efforts to protect Americans through surveillance and getting treatment for those that encounter NTDs in the US, including Zika, Chagas disease, Dengue fever, and chikungunya. Two centers at CDC undertake these important efforts: The Center for Global Health (more global) and The National Center for Emerging Zoonotic and Infectious Disease (more domestic).

Karen Goraleski, Executive Director, American Society of Tropical Medicine and Hygiene (ASTMH)

Karen Goraleski is Executive Director of ASTMH, the largest international scientific organization of experts dedicated to reducing the worldwide burden of tropical infectious diseases and improving global health. Ms. Goraleski oversees all aspects of the Society's efforts that includes the Annual Meeting- widely recognized as the premier international meeting in tropical medicine, the *American Journal of Tropical Medicine and Hygiene*, the CTropMed® - Certificate of Knowledge in Clinical Tropical Medicine and Travelers' Health, and a portfolio of activities that includes awards and research opportunities, policy development, advocacy, communications, and membership. As ASTMH Executive Director, Goraleski has testified before Senate Appropriation Sub-Committees making the case for strong tropical medicine research funding. She is a Steering Committee member of the Global Health Technologies Coalition and recently completed two terms on the board of the Global Health Council.

- ASTMH is the largest international scientific organization of experts dedicated to reducing the worldwide burden of tropical infectious diseases and improving global health. ASTMH seeks to help better inform Congressional staff on the unique role that CDC plays in protecting the health of Americans and those around the world from existing and emerging infectious disease threats.

Celia Hagan, Vice President, CRD Associates

Celia Hagan, MPH joined CRD in 2018. Her primary focus is on the National Independent Laboratory Association, global health, infectious diseases and regulatory affairs. Her expertise brings together science and policy to help shape national health outcomes. She has experience working with several federal agencies including the FDA, CDC, CMS and HRSA. Celia previously worked at the Association of Public Health Laboratories where she focused on regulatory and policy issues related to laboratory developed tests, public health emergencies, human subject research protections, device reclassification and laboratory reimbursement. During her tenure at APHL she provided strategic direction and strengthened the Association's capacity to respond to regulatory issues affecting public health laboratories, including challenges surrounding emergency use authorization in public health emergencies. She also advocated on Capitol Hill for a strong public health laboratory network. Prior to APHL, Celia worked in the laboratory at the Fred Hutchinson Cancer Research Center and at a clinical hematology laboratory in Seattle, WA. Celia holds a BA in Biochemistry, Biophysics and Molecular Biology from Whitman College and an MPH from the Johns Hopkins School of Public Health.

Tara Hayward, Vice President, Resource Development & Policy, Sabin Vaccine Institute

Tara Hayward is Vice President of Resource Development and Policy at the Sabin Vaccine Institute. She oversees fundraising and public policy activities supporting Sabin's work to improve lives through immunization. With more than a decade of experience in non-profit fundraising, she has led Sabin's efforts to secure funding from governments, foundations, corporations and high net worth individuals since 2010. Prior to joining Sabin, Tara served as the manager of development for the International Women's Media Foundation, where she was responsible for creating and managing the infrastructure and operations of annual giving, foundation and corporate fundraising, and special events. Her prior experience also includes working for the United Nations Population Fund in Bosnia and Herzegovina and serving in the Peace Corps in Romania. Tara holds a master's degree in international development from the University of Denver in the Josef Korbel School of International Studies and a bachelor's degree from DePauw University, where she majored in English writing.

- Sabin often relies on the CDC as a technical partner for its work to generate evidence to inform political will to improve lives through immunization. For example, Sabin, in partnership with the CDC's Meningitis and Vaccine Preventable Diseases Branch and PAHO, is working to assess and strengthen the laboratory capacity for diagnosis of pertussis in six countries through the Latin American Pertussis Project (LAPP), which has been active since 2009. LAPP also conducts special studies in the region to inform policymaking for prevention and control of pertussis.

- The Surveillance of Enteric Fever in Asia Project (SEAP) is a multi-country, prospective surveillance study designed to estimate the burden of enteric fever in Bangladesh, Nepal, and Pakistan. Sabin contracts with CDC economists that lead the cost of illness study for SEAP. We also contract with the Immunization Systems Branch in the Global Immunization Division and the Epidemiology, Informatics, Surveillance, and Laboratory Branch in the Division Of Global Health Protection for epi support and laboratory monitoring.
- From July 2016 through June 2018, Sabin worked with the CDC Center for Global Health, Global Immunization Division, through a Cooperative-Agreement to build economic, financial and budgetary evidence to support sustainable financing, planning and decision-making for immunization programs in low- and middle-income countries.

Danielle Heiberg, Senior Policy and Advocacy Manager, Global Health Council

Danielle Heiberg is the Senior Policy and Advocacy Manager at Global Health Council (GHC). In this role, she manages GHC’s domestic and global advocacy strategy and coordinates GHC’s relationship with the global health advocacy community. She oversees GHC’s appropriations and legislative work; manages the publication of “The Global Health Briefing Book” and other advocacy resources; and coordinates the work of several thematic roundtables. Prior to joining GHC, she was a Senior Program Associate at InterAction, where she was responsible for managing thematic working groups on global health, food security and agriculture, and climate and development. Previously, she worked in the Public Policy office of Yahoo and in the Congressional and Public Affairs office of the Institute of Museum and Library Services, an independent federal agency. She also worked on Capitol Hill for Senator Dianne Feinstein (D-CA). Danielle holds a BA in International Relations from Mills College.

- GHC seeks to educate Congress on CDC’s role gathering and sharing public health data and evidence and in protecting the health of Americans and others around the world, as well as the level of expertise it brings to the global health sphere.
- GHC convenes the Global Health Security Roundtable, which advocates for U.S. funding and sound policy for global health security, and regularly convenes global health advocates in Washington, DC to engage with CDC staff.

Dr. Jen Kates, Vice President and Director, Global Health & HIV Policy, Kaiser Family Foundation

Dr. Jen Kates is Vice President and Director of Global Health & HIV Policy at the Kaiser Family Foundation, where she oversees the Foundation’s policy analysis and research focused on the U.S. government’s role in global health and on the global and domestic HIV epidemics. Widely regarded as an expert in the field, she regularly publishes and presents on global health and HIV policy issues and is particularly known for her work analyzing donor government investments in global health; assessing and mapping the U.S. government’s global health architecture, programs, and funding; and tracking and analyzing major U.S. HIV programs and financing, and key trends in the HIV epidemic, an area she has been working in for more than twenty-five years.

- Kaiser Family Foundation regularly interfaces with CDC on both domestic and global HIV, and its larger global health portfolio, to discuss data and key trends and help translate such information for policymakers, the NGO community, and the media.
- Dr. Kates is a member of the CDC/HRSA Advisory Committee on HIV, Viral Hepatitis and STD Prevention and Treatment (CHACHSPT).

Peter Kyriacopoulos, Senior Director, Public Policy, Association of Public Health Laboratories

Peter Kyriacopoulos is the Senior Director, Public Policy and serves as the principal public policy advisor to the Executive Director and Board of Directors of APHL. He is also a frequent consultant to senior CDC leadership on federal legislative and regulatory activities. Prior to joining APHL, Peter was the federal government liaison for a succession of two Governors of Maryland and for the Governor of Michigan for a total of over thirteen years, and he spent almost a decade working on Capitol Hill.

- Over the past 30 years, the Association of Public Health Laboratories (APHL) has been a trusted public health partner of CDC, representing the interests of state and local government public health laboratories and facilitating an ongoing dialogue at all levels of government that assures accurate and effective laboratory testing that improves public health.

- APHL work includes domestic public health testing on infectious diseases, food safety, newborn screening, preparedness, environmental health, and global health work in 55 countries (both PEPFAR and GHS).

Dara Lieberman, Senior Government Relations Manager, Trust for America's Health

Dara Alpert Lieberman is Senior Government Relations Manager at Trust for America's Health. She works with the Director of Government Relations to advance TFAH's agenda with federal, state, and local governments. At TFAH, Ms. Lieberman leads the organization's advocacy around infectious disease prevention, disease surveillance, and strengthening the nation's public health emergency preparedness and response capabilities. Ms. Lieberman previously served as a legislative representative for American Counseling Association, where she advocated for mental health access issues. In recent years, Ms. Lieberman has also worked on children's health care access for the Children's Defense Fund and served as a staff member for the Senate Committee on Armed Services. In addition to working directly with policymakers, she has organized grassroots advocacy efforts at the national and state level. She secured an MPP from the Gerald R. Ford School of Public Policy at the University of Michigan. She graduated magna cum laude with a BA in Public Policy Studies from Duke University. Ms. Lieberman currently serves on the board of Healthcare Ready, a nonprofit that works to protect patient access to healthcare in the face of disaster through collaboration with public health and healthcare.

Hon. Keith Martin MD, PC, Executive Director, Consortium of Universities for Global Health

Dr. Martin is the founding Executive Director of the Consortium of Universities for Global Health (CUGH), based in Washington, DC. Between 1993 and 2011, Dr. Martin served as a Member of Parliament in Canada's House of Commons representing a riding in British Columbia. During that time he held shadow ministerial portfolios in foreign affairs, international development, and health. He served as Canada's Parliamentary Secretary for Defense and in 2004 was appointed to the Queen's Privy Council. As a parliamentarian he created CanadaAid.ca, an online platform to build capacity in low-income communities and in 2006, founded Canada's first all-party Conservation Caucus. He has authored more than 160 published editorial pieces and has appeared frequently as a commentator on television and radio. He sits on the board of the Jane Goodall Institute (USA), the editorial board of the Annals of Global Health and is an adviser to the International Cancer Expert Corps, The Global Sepsis Alliance, McGill University's Global Health Programs, and Seed Global Health.

- CDC has held satellite sessions at CUGH's annual global health conference which attracts 1800+ scientists from over 50 nations annually.
- Dr. Vik Kapil is the CDC's ex-officio representative on CUGH's board.

Brian Massa, Senior Global Health Advocacy Manager, UN Foundation

Brian serves as the UN Foundation's Senior Global Health Advocacy Manager. In this capacity, he manages and implements government relations strategy for UNF's Shot@Life campaign, a grassroots advocacy organization dedicated to increasing support for U.S. and UN programs that reduce vaccine-preventable child deaths in developing countries. He is responsible for overseeing direct engagement with congressional offices and federal agencies, and works closely with the global health community to develop and support policy positions that strengthen global immunization initiatives. Prior to joining UNF, Brian served in the health policy office of the Senate Committee on Health, Education, Labor and Pensions (HELP), chaired by Senator Tom Harkin. His portfolio included global health, infectious disease, vaccine development, and biosecurity. Brian earned his Master's degree in Global Health Security jointly through the American University School of International Service and the George Washington School of Public Health. His research focused on implementation and evaluation of the International Health Regulations.

- With over 300,000 grassroots supporters and 1,350 core Champions across all 50 states, Shot@Life is the nation's largest grassroots campaign dedicated to advocating for global childhood immunization programs. The campaign of the United Nations Foundation works closely with CDC to convene Capitol Hill briefings, dinners, and speaking panels, and hosts congressional members and staff on international learning trips to strengthen support for CDC, USAID, Gavi, UNICEF, and WHO global immunization programs. Over the past seven years, Shot@Life has helped drive a 73% increase in US funding for global child immunization programs through CDC and USAID, with a particular focus on polio eradication, measles elimination, pneumococcal disease, and rotavirus.

- Dr. Anne Schuchat, CDC Principal Deputy Director, closing speaker at 5th annual Shot@Life grassroots Summit and Hill Day in Washington, DC, as well as an annual panel at the Summit featuring CDC global health speakers (Dr. Rebecca Martin, Dr. Hamid Jafari, Dr. Will Schluter)
- Congressional staff learning trips to Tanzania, Rwanda, Bangladesh, and Thailand accompanied by CDC and USAID technical advisors. Hosted seven Hill briefings and receptions focused on USG-UN global immunization programs.

Jamie Bay Nishi, Director, Global Health Technologies Coalition

Jamie leads the Global Health Technologies Coalition (GHTC)'s policy and advocacy portfolio, as well as manages its engagement with GHTC members and other stakeholders and partners in government, the private sector, and civil society. She brings to the role over 14 years of experience in business development, project management, stakeholder engagement, and strategic partnership building. Prior to joining GHTC, Jamie served as Managing Director of Devex LIVE at Devex, a media platform for the global development community. In this capacity, she oversaw all aspects of Devex LIVE, an initiative she launched in 2015 which produced numerous high-profile events around the world, including the Devex World conference in Washington, DC. Prior to serving in this position, Jamie was Devex's Senior Director for member services. Jamie holds a master's degree in conflict analysis and resolution from George Mason University and a bachelor's degree in government from the College of William & Mary.

- The Global Health Technologies Coalition (GHTC) is a group of nearly 30 organizations working together to advance policies that can accelerate the development of global health innovations that combat global health diseases and conditions and save lives at home and around the world. The CDC protects people at home and abroad through disease surveillance, rapid outbreak response, and R&D of diagnostics, drugs and other technologies to combat infectious diseases. GHTC works to help educate Congressional staff about CDC's unique expertise and capacity to detect, track and contain infectious disease outbreaks and develop the right technologies to advance these efforts. GHTC also serves as one of the tri-chairs of the Global Friends of the CDC group and will be helping to facilitate a Congressional staff delegation to visit CDC HQ in August.

Loyce Pace, President and Executive Director, Global Health Council (GHC)

Loyce Pace is Global Health Council's President and Executive Director. Loyce comes to the role having held leadership positions in global policy and strategic partnerships at LIVESTRONG Foundation and the American Cancer Society. Additionally, she has worked with Physicians for Human Rights and also served as an International Development Fellow for Catholic Relief Services. Loyce holds a Bachelor's degree with Honors in Human Biology from Stanford University and a Master's degree in Public Health from Johns Hopkins Bloomberg School of Public Health. She speaks several languages and has lived in Africa, Asia, and Europe. Loyce is based in Washington, DC.

- Member of the CDC Washington Partner's group
- GHC seeks to educate Congress on CDC's role gathering and sharing public health data and evidence and in protecting the health of Americans and others around the world, as well as the level of expertise it brings to the global health sphere.
- GHC convenes the Global Health Security Roundtable, which advocates for U.S. funding and sound policy for global health security, and regularly convenes global health advocates in Washington, DC to engage with CDC staff.

Lindsay Lee Plack, Government Relations Director, US Global Leadership Coalition (USGLC)

Lindsay Lee Plack serves as Director of Government Relations at the USGLC where she oversees the coalition's engagement with Capitol Hill and other policymakers. Lindsay joins the USGLC from the Glover Park Group where she spent five and a half years managing government and public affairs work for a range of internationally-focused clients, including foreign governments, non-profits, and multinational corporations. She also served as a Senior Lobbyist at The Oldaker Group. Prior to joining the private sector, Lindsay worked on Capitol Hill for Congressman Joe Knollenberg (R-MI) and managed his national security, foreign policy, and related appropriations portfolios. Lindsay also has extensive campaign experience working on and managing campaigns at the local, state, and national level. Lindsay holds a bachelor's degree from Saint Mary's College – Notre Dame, and lives with her husband in Alexandria, Virginia.

Carolyn Reynolds, Vice President, Policy and Advocacy, PATH

Carolyn Reynolds, MA, brings more than 25 years of proven success in policy and advocacy for global development to her role as PATH's vice president for Policy and Advocacy. In this role, she also serves as the senior executive in PATH's Washington, DC, office and PATH's principal representative to the US government and multilateral organizations. Prior to joining PATH in 2016, Ms. Reynolds was senior adviser and manager for external and corporate relations at the World Bank Group, where she led the Bank's strategic communications and policy advocacy efforts in global health, education, and human development. In earlier positions, she also shaped and led the expansion of the Bank's global engagement with civil society organizations. Previously, Ms. Reynolds was managing director for the US Global Leadership Campaign, where she led the successful Impact '08 issue advocacy campaign to elevate global health, development and "smart power" as priority issues during the 2008 US presidential election. She also directed advocacy and legislative efforts for InterAction, and she served as legislative aide and acting Africa subcommittee director for the late US Senator Paul Simon (D-IL). Ms. Reynolds holds an MA in economic and political development from Columbia University and a BA from the University of Virginia.

- PATH is one of the largest global health NGOs in the world. PATH uses entrepreneurial insight, scientific and public health expertise, and partnerships with U.S. agencies and private sector partners to create products that save lives and help countries, primarily in Africa and Asia, to tackle their greatest health needs. Part of their work includes working with CDC to develop new vaccines, drugs, diagnostics and devices, while at the same time advocating for CDC's role in global health more broadly.

Hayley Severance, Senior Program Officer for Global Biological Policy and Programs, Nuclear Threat Initiative (NTI)

Hayley Anne Severance joined NTI as senior program officer for global biological policy and programs in May 2018. Severance previously served as a senior policy advisor in the Office of the Deputy Assistant Secretary of Defense for Countering Weapons of Mass Destruction, where she developed strategic policy guidance for the Cooperative Threat Reduction's Cooperative Biological Engagement Program (CBEP) and led the Department's efforts to advance the U.S. commitment under the Global Health Security Agenda. From 2012-2014, Severance served as the epidemiology subject matter expert for the Defense Threat Reduction Agency CBEP. Prior to 2012, Severance consulted for the Department of Veterans Affairs, the Internal Revenue Service, and the Department of Health and Human Services as a Booz Allen employee. Severance also served as an operational research and development team member of 'Project Argus,' a disease prevention initiative at Georgetown University focused on detecting catastrophic biological events on an international scale. Severance also planned and led networking and fundraising events for public health, Congressional, and corporate leaders for the Campaign for Public Health, an organization seeking to build support for CDC. Severance holds an M.P.H. in Infectious Disease Epidemiology from the School of Public Health and Health Services at George Washington University and a B.S. in Public Health from Rutgers University. Severance is an alumna of the Emerging Leaders in Biosecurity Initiative Fellowship.

- NTI engages closely with CDC through our Global Biosecurity Dialogue to make actionable, measurable progress toward improved global biosecurity capacity, in alignment with the Biosecurity and Biosafety action package within the Global Health Security Agenda.
- NTI actively participates in the Global Health Council and advocates for increased investment in CDC's global health activities aimed at preventing, detecting, and responding to infectious disease threats.

Dr. Erin Sorrell, Assistant Research Professor, Georgetown University

Dr. Erin M. Sorrell is an Assistant Research Professor in the Department of Microbiology and Immunology as well as a member of the Center for Global Health Science and Security. Dr. Sorrell's work focuses on developing partnerships across the U.S. government, international organizations, and ministries around the world to identify elements required to support health systems strengthening and laboratory capacity building for disease detection, reporting, risk assessment, and response. Her research uses evidence-based approaches to determine gaps and identify capacities for effective global health programs and policies. Dr. Sorrell is currently a five-year term member at the Council on Foreign Relations.

Kimberly Walker, Ph.D., MT(ASCP), Manager, Public Policy, the American Society for Microbiology (ASM)

Since 2011, Kimberly's portfolio has included health-related microbiology policy and regulation, focused primarily on the Centers for Disease Control and Prevention, the U.S. Food and Drug Administration and the Centers for Medicare and Medicaid Services.

ASM is the largest single life science society, composed of over 30,000 scientists and health professionals; its mission is to promote and advance the microbial sciences. Many ASM members have primary involvement in clinical laboratory medicine including individuals directing clinical microbiology, immunology and molecular diagnostic laboratories, individuals licensed or accredited to perform such testing, industry representatives developing laboratory products for use, and researchers involved in development and evaluation of new technologies.

- ASM members and staff routinely attend or are members of CDC committees, such as: CLIAC; BSC, Office of Infectious Diseases; and DLS Clinical Laboratory Partners Workgroup.
- ASM co-authors (with APHL), updates, and maintains the *Sentinel Level Clinical Laboratory Protocols For Suspected Biological Threat Agents And Emerging Infectious Diseases*.

Danielle Zielinski, Sanitation Policy Project Officer, WaterAid America

Danielle Zielinski is the Sanitation Policy Project Officer at WaterAid, where she coordinates a country-level WASH (water, sanitation and hygiene) advocacy grant covering nine countries, and also assists with US government advocacy in DC. Prior to joining WaterAid, Danielle served at the Richmond City Health District as a fellow with CDC's Public Health Associate Program. She previously worked in communications for health and international development organizations, and in a past life was a newspaper journalist. She is passionate about public health and the ways health connects to equity and empowerment.

- We partner with CDC in Mali on a project on WASH in health care facilities, and generally support their WASH for infection prevention and control and global health security work.
- We support the CDC agency plan under the Global Water Strategy.

Subject: CDC OD DL Request: Regional Director of WHO EMRO [Oct 25-26]

Hi Melissa,

Please see below for the details of the new Regional Director of the World Health Organization Eastern Mediterranean Office (EMRO) visit for the DL. They have proposed a time frame for their visit. Please let me know if you have any questions.

Who: Dr. Al-Mandhari, Regional Director of WHO EMRO

When: October 25th-26th 2018

Why: The new Regional Director of the World Health Organization Eastern Mediterranean Regional Office (EMRO) has been appointed and invited to visit CDC by Dr. Redfield. Our partnership (with WHO EMRO) has been instrumental in the development of the recently updated joint CDC-EMRO work plan, which addresses our joint efforts in surveillance, immunizations, laboratory enhancement, humanitarian assistance, and other areas.

CGH Recommendation: Dr. Redfield should take this meeting.

Thanks!

Hi Melissa,

See below for the details of a request for Dr. Redfield to meet with the Uganda Ministries of Health and Agriculture. Please let me know if you have any questions.

Who: Ugandan MOH

When: Week of July 16th, 2018

Why: Our Division of Global Health Protection (DGHP—Jaco, Vance and team) team would like to invite high-level MOH staff (Permanent Secretary (PS), the Director General of Health Services (DGHS), the Director of Clinical Services, and the Commissioner for National Disease Control (NDC) of Uganda MOH) to Atlanta. The visit will focus on global health security as well as opportunities to discuss CDC collaborations in other programs (HIV, TB, malaria, immunizations, viral hemorrhagic fevers, arboviruses, etc.). The purpose of the visit is ultimately to improve outbreak response capacity at senior levels in the Ministry outside of the Minister herself.

CGH Recommendation: Dr. Redfield should take this meeting. **Note:** Dr. Redfield is planning to go to Uganda in late July and this would be an excellent opportunity to connect with several high level people in the MOH.

Thanks!

Monica Panwar, MPH

Subject: R3 in DC on 18-19 July

Importance: High

Colleagues, as some of you already know, R3 will be in DC on 18-19 July, and departing from IAD (Dulles) for Amsterdam on the 19th.

We'll have to reschedule Reception for the Honor Award Committee and the Ugandan MoH meetings, but we can still do both on Monday or Tuesday of that week (16 or 17 July) if Melissa and Brad want to do that.

Unfortunately, we'll also have to move the Coffee with the Director, but if feasible, perhaps we do that 9-10 on Tuesday the 17th unless Melissa or Brad need that time for their events.

Regarding the media hold on the 18th, OADC can still have time if they'd like, but we may have to be flexible regarding the exact timing until the other meetings R3 requested are scheduled.

Teresa, please confirm the Dep Sec for in-person one of those two dates as discussed. We'll also keep Sherri's time, but it may have to flex depending on what we hear from FDA, USAID, and State Dept about his requested meetings. You can also clear his calendar for the period of travel overseas. Once we've arranged R3's needed or rescheduled his impacted meetings, we'll offer time to CDCW/OA/OADC for other DC activities.

Jenn & Kevin: Please book R3 on the 8:20 am to DCA on Wednesday 18 July, and then the 10:10pm from IAD to Amsterdam on Thursday 19 July, then onward travel according to the African Travel Agenda. **Note, we'll need his passport back here by the 17th, otherwise we can make arrangements for him to get it in DC on 18-19 if needed.

Please let me know if there are any questions or concerns. Thanks for everyone's continued flexibility... Semper Gumby!

Scott

Subject: CDC OD DL Request: WHO ADG for Strategic Initiatives [Aug 8-9]

Hi Melissa,

See below for the details of a request for Dr. Redfield to meet with the WHO Assistant Director General. Please let me know if you have any questions.

Who: Ranieri Guerra, WHO ADG for Strategic Initiatives

When: August 8-9, 2018

Why: We are requesting a 30-minute courtesy meeting with Dr. Redfield while Dr. Guerra is visiting CDC. While the primary goal of the visit is to discuss WHO's polio eradication and transition plans, other discussions will be held around AMR, migrant health, etc. We will also be asking the ADG to give a GHM Seminar. We are proposing Dr. Rebecca Martin (CGH Director), Dr. Will Schluter (CGH GID Director), Dr. John Vertefeuille (Polio Incident Manager) join Dr. Redfield in this meeting; we are also recommending participation by other CIOs (e.g. Dr. Nancy Messonnier, Dr. Steve Redd, and Dr. Rima Kabbaz).

CGH Recommendation: Dr. Martin recommends Dr. Redfield take this meeting.

Thank!

Monica Panwar, MPH

Subject: Opioids Winnable Battle – ORCU Strategy Meeting w/ATTACHMENTS
Attachments: Surveillance_Suggested Actions_Final.pptx, ORCU_Strategic Framework_Final.pptx, ORCU Surveillance Work Group Suggested Actions_9.17.18.pdf, Opioid Strategy Winnable Battles Meeting Agenda.pdf

Colleagues,

Attached please find the agenda and presentation materials for Thursday's Opioid Strategy Winnable Battles meeting. This meeting will focus on the cross-CIO opioid surveillance workgroup, which has developed a set of suggested actions to improve the timeliness and actionability of CDC's opioid-related surveillance systems. There will be a good bit of time on the agenda for discussion. We welcome your perspectives on omissions, concerns, balance of short- and long-term solutions and value of the various suggested actions.

It would be helpful to know whether you plan to attend in person or via phone/envision, as this is a large meeting and we want to ensure effective input from those in person and those joining remotely. Speakers, CIO directors, and senior leaders are invited to attend in Clifton 21 / 12105. We have Envision locations set up in Clifton 21 / 12302 and Chamblee 106 / 9A. You may also call in via the bridgeline.

Thank you

A Bridgeline is provided for those who may need to call in

Subject: PanFlu Exercise Questions

Hi, Kyle and Amanda,

I met with Joe and Brooke this afternoon to go over some of the SA-specific info for Thursday's pan-flu exercise. During our meeting a couple of separate questions came up that I wanted to make sure we got your feedback on, so that the team can better prepare for your participation.

1. Can you confirm that you're comfortable with the following run of show for Dr. Redfield's and your/Amanda's participation?

Dr. Redfield- THU activities only

- 1) Visit Exercise Control Group (State/Locals/Private Sector/International Obs/Fed Partners 1000-1100
- 2) Directors Update Brief 1100-1200
- 3) Press Briefing 1215-1245 (Press Briefing Prep 1200-1215)
- 4) Lunch 1245-1400
- 5) DLG 1400-1500

Kyle McGowan and Amanda Campbell W-F Activities

- 1) Attend meetings shaded in GRAY on the attached slide as the Chief of Staff and Deputy Chief of Staff
- 2) Attend as observers the following:
 - a. WED- IM/TF Meeting 1300, Fusion Meeting 1400, CDC Decision Brief #1 1500.
 - b. THU- Task Force Room/Operations 1000, Director Update Brief 1100, Press Briefing 1200, DLG 1400
 - c. FRI- Task Force Room/Operations 1000, CDC Decision Brief #2 1300
 - d. MON (17 AUG)- Senior Leader Hotwash 1300-1430

2. From the attached participants list, could you let Joe and Brooke know of any individuals/offices/groups that we would like to arrange time for Dr. Redfield (or you) to meet with on the margins of the exercise? If none, that's ok.

Thanks!

Ashley

Subject: RE: Monthly "Coffee" with the Director beginning in July

Thanks for the update. We will plan accordingly. For the dates identified in December, it may be challenging to invite participants so close to the holiday break. The dates identified are the Thursday and Friday just before the Christmas holiday. Folks start to take off a few days before Christmas. If possible, I would like to recommend that the Director's Coffee be moved to the first or second week in December.

Llewyn

Yes, we probably need to coordinate with the requests for the org charts with DCS – would like to know if any of the CIOs already have these face-name/org charts prepared – they can get a gold star and an early slot!

Subject: RE: Monthly "Coffee" with the Director beginning in July

Made a few edits, but same recommendations apply. Sorry for errors.

Llelwyn

We will start planning accordingly. I think the easiest approach is to build a planning calendar that will involve each of the CIOs, i.e., July - NCIPC, August - NCEZID, etc. I also suggest doing virtual meetings with CIO locations outside of Atlanta and/or to incorporate coffees when the Director is traveling to CDC locations outside Atlanta. Finally, I think this would be a good time to incorporate and invite employee organizations, e.g., Association for Professional Women at CDC/ATSDR, GLOBE, Disability Interest Group, BIG, Young Professional Network, etc., to interact with the Director. In addition, to using this opportunity for the Director to recognize key staff for outstanding achievements or contributions such as Honors Awards winner, Charles C. Sheppard

Award winners, responders involved in major CDC outbreak responses, etc.

Let me know if this works.

Subject: Monthly "Coffee" with the Director beginning in July

Hi Llewelyn. R3 asked us yesterday to move forward with beginning a new meeting series to interact with staff along the lines of what we've done before as the Breakfast with the Director, but on a smaller, more sustainable scale. After discussing it with Kyle, the new one-hour "Coffee with the Director" could begin in July, and in most cases, would be a monthly recurring event, if possible.

We'd like to leverage the proven systems that your branch previously used to solicit, select, and prepare staff to attend these events, and then for you to leverage for internal communications as before. We'll continue to handle the other logistics and to be sustainable, ideally we can keep the numbers of staff at 7 or 8, so that we can fit all participants at the round table in 12101.

Any thoughts or concerns before I have Jeremy and Teresa begin looking at dates and working with you to get the rest of this year identified as holds on the calendar?

Many thanks!

Scott

Subject: RE: HOLD: Monthly Coffee with the Director
Importance: High

Good morning Llewelyn and William,

I am following up on the email below.

Please let me know if I can confirm these dates on the Director's calendar with the exception of the December date. We originally had the coffee set for December 6th. Is Dec. 7th the new available date for the Director's Coffee? If so, we will revise our calendar. Changing date is not a problem, we just want to make certain that we are accurate on our end.

Thanks so much.

Teresa

Subject: RE: HOLD: Monthly Coffee with the Director

Actually the point of contact is William Jones moving forward with the Director's Coffee. Also, we requested an earlier date for the December coffee out of concern that many staff will start their holiday leave around December 21st, particularly with that date falling on a Friday. I thought we were given Dec. 6 as an option date. Please confirm if that date is no longer available?

Thanks,

Llelwyn

Here's your gold star list! Others have org charts, but without photos (at least that I could find). I pulled these for the division director meeting

Yes, we probably need to coordinate with the requests for the org charts with DCS – would like to know if any of the CIOs already have these face-name/org charts prepared – they can get a gold star and an early slot!

Made a few edits, but same recommendations apply. Sorry for errors.

Llelwyn

We will start planning accordingly. I think the easiest approach is to build a planning calendar that will involve each of the CIOs, i.e., July - NCIPC, August - NCEZID, etc. I also suggest doing virtual meetings with CIO locations outside of Atlanta and/or to incorporate coffees when the Director is traveling to CDC locations outside Atlanta. Finally, I think this would be a good time to incorporate and invite employee organizations, e.g., Association for Professional Women at CDC/ATSDR, GLOBE, Disability Interest Group, BIG, Young Professional Network, etc., to interact with the Director. In addition, to using this opportunity for the Director to recognize key staff for outstanding achievements or contributions such as Honors Awards winner, Charles C. Sheppard Award winners, responders involved in major CDC outbreak responses, etc.

Let me know if this works.

Subject: Monthly "Coffee" with the Director beginning in July

Hi Llewelyn. R3 asked us yesterday to move forward with beginning a new meeting series to interact with staff along the lines of what we've done before as the Breakfast with the Director, but on a smaller, more sustainable scale. After discussing it with Kyle, the new one-hour "Coffee with the Director" could begin in July, and in most cases, would be a monthly recurring event, if possible.

We'd like to leverage the proven systems that your branch previously used to solicit, select, and prepare staff to attend these events, and then for you to leverage for internal communications as before. We'll continue to handle the other logistics and to be sustainable, ideally we can keep the numbers of staff at 7 or 8, so that we can fit all participants at the round table in 12101.

Any thoughts or concerns before I have Jeremy and Teresa begin looking at dates and working with you to get the rest of this year identified as holds on the calendar?

Many thanks!

Scott

Subject: RE: Monthly "Coffee" with the Director beginning in July

Thanks for the update. We will plan accordingly. For the dates identified in December, it may be challenging to invite participants so close to the holiday break. The dates identified are the Thursday and Friday just before the Christmas holiday. Folks start to take off a few days before Christmas. If possible, I would like to recommend that the Director's Coffee be moved to the first or second week in December.

Llewlyn

Here's your gold star list! Others have org charts, but without photos (at least that I could find). I pulled these for the division director meeting

Yes, we probably need to coordinate with the requests for the org charts with DCS – would like to know if any of the CIOs already have these face-name/org charts prepared – they can get a gold star and an early slot!

Made a few edits, but same recommendations apply. Sorry for errors.

Llewelyn

We will start planning accordingly. I think the easiest approach is to build a planning calendar that will involve each of the CIOs, i.e., July - NCIPC, August - NCEZID, etc. I also suggest doing virtual meetings with CIO locations outside of Atlanta and/or to incorporate coffees when the Director is traveling to CDC locations outside Atlanta. Finally, I think this would be a good time to incorporate and invite employee organizations, e.g., Association for Professional Women at CDC/ATSDR,

GLOBE, Disability Interest Group, BIG, Young Professional Network, etc., to interact with the Director. In addition, to using this opportunity for the Director to recognize key staff for outstanding achievements or contributions such as Honors Awards winner, Charles C. Sheppard Award winners, responders involved in major CDC outbreak responses, etc.

Let me know if this works.

Subject: Monthly "Coffee" with the Director beginning in July

Hi Llewelyn. R3 asked us yesterday to move forward with beginning a new meeting series to interact with staff along the lines of what we've done before as the Breakfast with the Director, but on a smaller, more sustainable scale. After discussing it with Kyle, the new one-hour "Coffee with the Director" could begin in July, and in most cases, would be a monthly recurring event, if possible.

We'd like to leverage the proven systems that your branch previously used to solicit, select, and prepare staff to attend these events, and then for you to leverage for internal communications as before. We'll continue to handle the other logistics and to be sustainable, ideally we can keep the numbers of staff at 7 or 8, so that we can fit all participants at the round table in 12101.

Any thoughts or concerns before I have Jeremy and Teresa begin looking at dates and working with you to get the rest of this year identified as holds on the calendar?

Many thanks!

Scott

Subject: RE: Monthly "Coffee" with the Director beginning in July

Thanks for the update. We will plan accordingly. For the dates identified in December, it may be challenging to invite participants so close to the holiday break. The dates identified are the Thursday and Friday just before the Christmas holiday. Folks start to take off a few days before Christmas. If possible, I would like to recommend that the Director's Coffee be moved to the first or second week in December.

Yes, we probably need to coordinate with the requests for the org charts with DCS – would like to know if any of the CIOs already have these face-name/org charts prepared – they can get a gold star and an early slot!

Subject: RE: Monthly "Coffee" with the Director beginning in July

Made a few edits, but same recommendations apply. Sorry for errors.

Llelwyn

We will start planning accordingly. I think the easiest approach is to build a planning calendar that will involve each of the CIOs, i.e., July - NCIPC, August - NCEZID, etc. I also suggest doing virtual meetings with CIO locations outside of Atlanta and/or to incorporate coffees when the Director is traveling to CDC locations outside Atlanta. Finally, I think this would be a good time to incorporate and invite employee organizations, e.g., Association for Professional Women at CDC/ATSDR, GLOBE, Disability Interest Group, BIG, Young Professional Network, etc., to interact with the Director. In addition, to using this opportunity for the Director to recognize key staff for outstanding achievements or contributions such as Honors Awards winner, Charles C. Sheppard

Award winners, responders involved in major CDC outbreak responses, etc.

Let me know if this works.

Subject: Monthly "Coffee" with the Director beginning in July

Hi Llewelyn. R3 asked us yesterday to move forward with beginning a new meeting series to interact with staff along the lines of what we've done before as the Breakfast with the Director, but on a smaller, more sustainable scale. After discussing it with Kyle, the new one-hour "Coffee with the Director" could begin in July, and in most cases, would be a monthly recurring event, if possible.

We'd like to leverage the proven systems that your branch previously used to solicit, select, and prepare staff to attend these events, and then for you to leverage for internal communications as before. We'll continue to handle the other logistics and to be sustainable, ideally we can keep the numbers of staff at 7 or 8, so that we can fit all participants at the round table in 12101.

Any thoughts or concerns before I have Jeremy and Teresa begin looking at dates and working with you to get the rest of this year identified as holds on the calendar?

Many thanks!

Scott

Good morning Tracie. We received a list of 11 people from the EOC that we plan to invite to this session of *Coffee with the Director*. We just wanted you to be aware regarding your planning for the event. I think the original goal was 8 people. If this presents a problem, please let us know. We'll be in touch regarding a final, confirmed number once we have it.

Hi Llelwyn,

Dr. Redfield will be in DC on July 18th and we will need to move the Coffee with the Director to another day.

Would July 17th from 9-10 a.m. work?

Thanks,
Teresa

This was a DL request and one that was adjudicated already, last week... decision was to wait for a TBD date in the future, and OGC had some concerns too. JM can advise if the reply has gone out to amfAR already or not.

FYI

An email went to Kyle and Dr. R directly. Kyle knows it is going on the DL and I got him some information on the group from Dr. Houry (she's met with them twice this year) to inform his decision.

Subject: [EXTERNAL] Meeting Request - amfAR, the Foundation for AIDS Research, Greg Millett - Head of Public Policy, and Susan Blumenthal, Chief Medical Officer

Importance: High

Christina,

I'm reaching out to kindly ask for your assistance in connecting me with the appropriate HHS/CDC contact for a meeting request on behalf of our client, amfAR, the Foundation for AIDS research. amfAR's head of public policy, Greg Millett, and Chief Medical Officer, Susan Blumenthal, are interested in meeting with CDC Director Redfield to give a brief demonstration of amfAR's opioid database <http://opioid.amfar.org/> and the awareness the Foundation is raising around the issue of opioids and co-infections. By way of background Greg worked at CDC for over a decade before joining the WH Office of National AIDS Policy, and then moving to amfAR.

Recently, we had an excellent meeting with Surgeon General Adams and his advisor, Kana Enomoto. The Surgeon General was very impressed with the database, so much so that he tweeted out the website on Twitter https://twitter.com/Surgeon_General/status/974030442780340224. We are also meeting with SAMHSA's senior leadership in late April.

That said, we would certainly welcome a meeting in the coming weeks/months if the Director is able to accommodate us. Given Director Redfield's extensive experience in the field of HIV/AIDS we are hopeful he would welcome a meeting. We could do this meeting when he is in DC or via a remote telecast.

I very much appreciate you connecting me with a colleague on this matter.

Thanks again,

Zach Pfister

Importance: High

Kyle,

First, congratulations on your role at CDC. I am sure you are busy with your transition and the incoming director, so I will make my request brief. We at BHFS are working with amfAR, the Foundation for AIDS research. amfAR's head of public policy, Greg Millett, and Chief Medical Officer, Susan Blumenthal, are interested in meeting with you and Director Redfield to give a brief demonstration of amfAR's opioid database <http://opioid.amfar.org/> and the awareness the Foundation is raising around the issue of opioids and co-infections. By way of background Greg worked at CDC for over a decade before joining the WH Office of National AIDS Policy, and then moving to amfAR.

The Surgeon General was very impressed with the database, so much so that he tweeted out the website on Twitter https://twitter.com/Surgeon_General/status/974030442780340224. We are also meeting with SAMHSA's senior leadership in May.

That said, we would certainly welcome a meeting in the coming weeks/months if you have availability to accommodate us – either in DC or we are able to present this via a virtual webex demonstration. I'm copying my colleagues Brian Wild (who I believe you know) and Zach Pfister who also work on amfAR and can share anything I missed. If Director Redfield has no availability for the foreseeable future, we would still very much welcome the opportunity to bring them in for a meeting with you.

Thanks again, Kyle.

Best,
Cate

Actually Teresa,

Perhaps it's best if we plan to come to the CDC Washington offices on E Street SW. All we would need is wi-fi and a connection to a display screen for the laptop to project. That way, there is no travel/traffic/timing risk. We will plan to come to 395 E Street, SW Suite 9100, on July 10th at 2pm unless instructed otherwise. Thank you again.

Importance: High

Kyle,

First, congratulations on your role at CDC. I am sure you are busy with your transition and the incoming director, so I will make my request brief. We at BHFS are working with amfAR, the Foundation for AIDS research. amfAR's head of public policy, Greg Millett, and Chief Medical Officer, Susan Blumenthal, are interested in meeting with you and Director Redfield to give a brief demonstration of amfAR's opioid database <http://opioid.amfar.org/> and the awareness the Foundation is raising around the issue of opioids and co-infections. By way of background Greg worked at CDC for over a decade before joining the WH Office of National AIDS Policy, and then moving to amfAR.

Recently, we had an excellent meeting with Surgeon General Adams and his advisor, Kana Enomoto. The Surgeon General was very impressed with the database, so much so that he tweeted out the website on Twitter https://twitter.com/Surgeon_General/status/974030442780340224. We are also meeting with SAMHSA's senior leadership in May.

That said, we would certainly welcome a meeting in the coming weeks/months if you have availability to accommodate us – either in DC or we are able to present this via a virtual webex demonstration. I'm copying my colleagues Brian Wild (who I believe you know) and Zach Pfister who also work on amfAR and can share anything I missed. If Director Redfield has no availability for the foreseeable future, we would still very much welcome the opportunity to bring them in for a meeting with you.

Thanks again, Kyle.

Best,
Cate

Actually Teresa,

Perhaps it's best if we plan to come to the CDC Washington offices on E Street SW. All we would need is wi-fi and a connection to a display screen for the laptop to project. That way, there is no travel/traffic/timing risk. We will plan to come to 395 E Street, SW Suite 9100, on July 10th at 2pm unless instructed otherwise. Thank you again.

amfAR would be happy to host Dr. Redfield. The amfAR DC offices are located at amfAR

1100 Vermont Ave, NW

Suite 600

Washington, DC 20005

Tel: (202) 331-8600

That said, as the day approaches if Dr. Redfield's schedule tightens, we are happy to come to the E Street offices.

Thanks again Teresa.

Hi Zach,

Dr. Redfield will be in DC on July 10th.

Please advise if this meeting will be held at amfAR's Office or would you like the meeting to be held at our CDC Washington Office?

Thanks,

Teresa

Good afternoon Mr. Pfister,

Thank you for following up on this request.

I reached out to Mr. Greg Millett on April 30th (see attached) to schedule the 30 minute brief demonstration in Washington, DC on July 10th between 2-3 p.m.

Unfortunately Dr. Redfield is not available on the dates you offered in June.

I look forward to hearing from you.

Kind Regards,

Teresa Williams

Kyle,

Any guidance on this request? Normally Dr. Redfield prefers to start his day at 9:00am. I will be happy to move forward if you wish.

Respectfully,

Tracie

Subject: FW: Meeting next week with PH leaders

Hi Tracie,

Can we schedule a meeting with Dr. Redfield on August 2nd at 7:30am with 3 public health representatives who will be here in town for the OSTLTS meeting?

Attendees would include myself, John Brooks, Ashley Knotts, Eugene McCray and Rebecca Huggins. I know it's a bit early, but this meeting is a priority for him.

Thanks,
Amanda

Subject: Meeting next week with PH leaders

Amanda,

We have connected with our OSTLTS colleagues and gathered more information on the schedule for the 3 visitors next week. They are in town for a sub-committee advisory meeting. Their schedules are pretty packed and they can't step out of the formal meeting because the quorum would be lost for the proceedings.

However, there are 2 times suggested that they could meet.

Our first choice is 7:30 am on August 2nd. Eugene McCray and John Brooks could both attend which we would recommend.

The second option is 3:30 pm on August 2nd. Only John Brooks could attend. However, we still need to verify that our visitors will not be on the way to the airport as the meeting will have ended and their itinerary still needs to be checked.

Can you please let us know if it is possible for the 7:30 am meeting time on 8/02 to work for Dr. Redfield?

Becca and Aliyah, cc'd above, are my colleagues who can help make sure the plans come together. We would also like to have Becca join the group as my delegate please.

Please let me know if you have any questions.

Thanks,

Sara

Subject: RE: Media interview scheduling options

We'll discuss July 11th when it's final that he'll be there, and if so, we can likely give you some time. More to follow on that... Tracie can work with you now tho, to target opportunity for the ATL based times you need.

Does that mean July 18 would be our only option? Hoping you can help us identify one or two other holds.

Also, if he does go to DC on July 11, we'd like to request some of that time, if possible. There could be an opportunity to do the Washington Times interview in-person there.

Subject: RE: Media interview scheduling options

Hi Teresa,

Dr. Redfield officially agreed to both of these interviews yesterday, so we'd like to proceed with possible scheduling.

Assuming he still doesn't want you to schedule anything next week, can we hold some time later in the month? (Ex: July 11 looks to be open from 10 am to 2 pm, and we'd like to hold at least 2 hours of that time if possible; late afternoon July 18 also looked like a possibility.)

Once you identify a few options, I'll work with the reporters to confirm a time/date.

Happy to hop on the phone to discuss further if you have any questions.

Thanks,
Kate

Good morning Kate,

I hope you are doing well.

Per your email below, you said per pervious discussions, were these discussions with Dr. Redfield and he has agreed to the interviews?

Also, OADC have used the template below for media requests for the Director. In the future, could OADC please complete template when requesting and/or confirming a media interview for the Director?

Topic	
Name of Reporter	
Media Outlet	

Reporter Contact Info <i>(just in case)</i>	
Media Staff Participating	
On-Camera [Live or Taped]	
Audio Booth [Live or Taped]	
Duration of time needed for interview only <i>(walk time & make up will be added when confirmed)</i>	
Requested dates <i>(include deadlines in response)</i>	
OADC Conference Line	

I will get back with you regarding availability for the dates you requested after making sure there are no conflicts.

Thanks for your patience.

Teresa

Cc: Gaines-McCollom, Molly (CDC/OPHPR/DEO) <iwg9@cdc.gov>
Subject: Media interview scheduling options

Hi Teresa and Tracie,

Per previous discussions, we're going to start lining up some additional interviews for Dr. Redfield with select media outlets. Next in the queue is Washington Times and STAT News.

Looks like he has availability the first week of July, with some additional options the afternoons of July 11 and 13, and some late afternoon windows the following week of July 15-20. Is that accurate? If so, I'd like to place three or four holds on his calendar in early/mid-July so I can coordinate with the two reporters.

As background, we'd need to carve out an hour (30 minutes of prep and 30 minutes of interview time). I had hoped to have him meet in-person with Washington Times during an upcoming DC trip, but it looks like that isn't an option unless the CDCW/OA hold on July 11 is released – is that correct? If so, Washington Times would most likely be a phone interview (30 minutes of prep, 30 minutes of interview). STAT could potentially be in-person, with the reporter visiting CDC campus - and again, we'd need 30 minutes of prep and 30-45 for the interview.

Happy to jump on the phone to discuss further, but wanted to get your input on scheduling options sooner rather than later.

Thanks!

Kate

Subject: Polio Oversight Board meeting and materials

Hi Ashley,

We updated the materials based on the last night budget meeting of the polio Strategy Committee and Rebecca will review shortly. Gena Hill will send them to you by COB as I am about to get on a transatlantic flight.

For tomorrow, Rebecca will be out of town but she and I would like to brief Dr. Redfield 15 minutes prior to the 11am POB call if his schedule allows, to give him the late breakers on the budget. If so, Rebecca will need a call in number but I can join him on the 12th floor if desired.

Also, I am available to take the call with Dr. Redfield from his office if he would like me to. Please let me know.

Thanks.
John

Jeremy- thanks for your note, and that sounds great on setting up a meeting in June here in DC. I have copied my colleague Ashley, who can help coordinate a meeting time. I may be coming down to Atlanta in the interim for some work meetings, and will touch with you in advance to see if it makes sense to look at a possible meeting at CDC HQ.

Best,

Mr. DeLaney,

Dr. Redfield received your request to meet and we'd like to schedule a time in June for him to meet with you in Washington DC. If that's acceptable to you our team will reach out to you in a few days and see what days will work. We appreciate your patience with us as we work through the Director's busy schedule. If you have any questions about this until then, please don't hesitate to reach out to me.

Jeremy

Bob- not sure if this email will reach you, but I wanted to drop you a note of congratulations on your recent appointment to lead CDC.

It has been several years since we met at the dinner I helped organize with Bono and General Jones, and my organization and I have been getting increasingly engaged in the area of global health security, working on behalf of clients such as the Gates Foundation, PATH, CEPI, GAVI and others.

It would be great to reconnect during one of your upcoming trips to DC, and I am planning a trip down to Atlanta in the next month, where I hope to have time to swing by CDC to visit with some of your global health team members.

See below some short background on our firm, and I look forward to reconnecting. Best wishes,

About the Kyle House Group

KHG advises and represents a number of leading foundations and NGOs in the global development sector, including the Bill & Melinda Gates Foundation, the UN Foundation, the Hewlett Foundation, and leading international NGOs such as Bono's organization ONE, CARE, Bread for the World, and the World Wildlife Fund. Specifically, we help lead various advocacy and outreach campaigns on topics including economic development, global health security, malaria, vaccines, clean water, nutrition, international reproductive health, international conservation, aid effectiveness, and agriculture development, etc.

KHG also represents and advises a number of leading multinational companies on corporate social responsibility efforts, and commercial access agendas in Africa and other frontier markets. A few examples of our work in this area include our advisory work for Chevron's Niger Delta Partnership Initiative <http://ndpifoundation.org>, the Alliance for Bangladesh Worker Safety <http://www.bangladeshworkersafety.org> (a coalition of leading U.S. apparel and retail companies), and a number of CSR projects we have led for various multinational companies within the energy, pharmaceutical, technology, manufacturing and apparel sectors. We also manage a leading corporate coalition on global development and trade issues, which is called American Leadership in Global Development (ALGD). ALGD is co-chaired by Chevron, IBM and Bechtel, and its membership also includes Cargill, AGCO, GE, Boeing, FedEx, HP, Wal-Mart, Land O'Lakes, UPS, etc. ALGD's

purpose is to advocate for private sector led development models, and to advance policies that improve public-private partnerships in global development.

Porter DeLaney founded the Kyle House Group in 2010 after more than a decade of senior level work in the political and international relations spheres. Over the last 15 years, Porter has served as a senior advisor and strategist to Bono and his organization ONE and to the Bill and Melinda Gates Foundation, among other global development leaders. Porter has been a chief architect of lobbying and advocacy campaigns that resulted in multi billion-dollar increases in U.S. government funding for global development and health on issues ranging from HIV/AIDS, malaria and TB to vaccines, nutrition, agriculture and international family planning. Porter also has advised a number of fortune 500 companies on their market access and corporate social responsibility programs around the globe.

Hi Teresa,

My sincerest apologies for the delay! A couple follow up questions. Is there any way Porter could do a short 15-minute meeting at whatever location will work before or even near Dr. Redfield heads to the airport? Porters flight from London does not land till 10:30 AM and I can make any time after that work. I tried to find another flight option but there are not any. If not we may look at canceling the London trip or rescheduling for Dr. Redfield's next trip to DC. Do you have any sense when he would be in DC next?

Thanks and have a great weekend,

Emily

Good morning Ms. Tedrick,

It is a pleasure to meet you virtually.

Per the email below, please advise if Mr. DeLaney would be available to meet with Dr. Redfield in Washington, DC on June 26th for a 30 minute meeting between 3:00-4:00 p.m.

If this time is unacceptable, could you offer a time to meet in June 26th?

I look forward to hearing from you.

Kind Regards,

Teresa Williams

Jeremy- thanks for your note, and that sounds great on setting up a meeting in June here in DC. I have copied my colleague Ashley, who can help coordinate a meeting time. I may be coming down to Atlanta in the interim for some work meetings, and will touch with you in advance to see if it makes sense to look at a possible meeting at CDC HQ.

Michael Miller

Partner

Michael W. Miller joined Kyle House Group as a partner in 2014. With more than two decades of diverse experience in government, the private sector, international organizations, non-profits, and academia, he brings a first-hand understanding of how government policy is made and how it affects clients' missions, markets, and outcomes, both domestically and internationally.

Prior to joining KHG, Michael was Republican Policy Director for the U.S. Senate Committee on Foreign Relations for Senator Bob Corker, where he oversaw policy and legislative initiatives globally. Since 2010, Michael has served as an Adjunct Associate Professor of Global Health at Duke University, where he specializes in global health policy.

Before returning to Capitol Hill, Michael founded and led a Washington, D.C., and Research Triangle, N.C., based consulting firm that served a range of U.S. and international clients on government policy, global health and development, international human-health regulation, and international organizations. From 2001 to 2009, Michael held several senior policy positions in the Executive Branch and the White House. As a Senior Advisor in the office of the U.S. Secretary of Health and Human Services, he advised the Secretary on global health policy, health diplomacy, and international regulatory issues. Michael was also a part of the team that led the establishment of a permanent U.S. Food and Drug Administration (FDA) presence in China.

As Deputy Assistant Administrator for Global Health at the U.S. Agency for International Development (USAID), Michael oversaw over one billion dollars of infectious disease and child survival programs worldwide, including implementation of the President's Emergency Plan for AIDS Relief (PEPFAR). Michael led the design, development, and launch of the President's Malaria Initiative (PMI), which is recognized globally for its leadership, effectiveness, and accountability.

Michael began his Executive Branch experience in the White House as Director for Africa on the National Security Council, where he handled political, security, and development issues in East and Southern Africa. While at the NSC, he also served as an advisor to the President's Special Envoy for Sudan and as a member of his delegation. During his service in the Executive Branch, Michael testified as a lead Administration witness before both the House and the Senate. He held positions in several international health organizations, including serving as an alternate U.S. Board Member of the Global Fund to Fight AIDS, Tuberculosis and Malaria; as a Member of U.S. delegation to the World Health Assembly,

the governing body of the World Health Organization; and as the U.S. Board Member of the Roll Back Malaria partnership.

From 1995 to 2001, Michael was Senator Bill Frist's senior legislative assistant for foreign affairs, where he managed the Senator's work on the Foreign Relations Committee and directed the Subcommittee on African Affairs. He authored several pieces of legislation that established major humanitarian and African affairs policies of the United States.

Michael began his career with the International Republican Institute (IRI) as a democracy and governance advisor in Africa, traveling and working extensively across the continent. He received his bachelor's degree with honors in geography from the University of Tennessee, and his master's degree in political geography from the University of South Carolina. He and his wife, Martha, have two children.

Porter Delaney

Founding Partner

Porter founded the Kyle House Group in 2010 after more than a decade of senior level work in the political and international relations spheres. Prior to founding the Kyle House Group, Porter led the lobbying and policy activities of a boutique political consulting firm in Washington, DC.

Earlier in his career, Porter worked in the office of Congressional and Public Affairs at the U.S. Chamber of Commerce and in the Government Relations Practice Group at Powell, Goldstein, Frazer, and Murphy.

Porter possesses a strong background in legislative politics, having advised a broad spectrum of corporate clients, trade associations, non-profit organizations and coalition groups on authorizing and appropriations strategies before the U.S. Congress.

Porter has substantial experience working on global development and health issues. Porter has represented several high-profile foundations, NGOs, coalitions and celebrities on political strategies that resulted in multi-billion dollar funding increases for U.S. development assistance programs, and the bipartisan passage and signing into law of major development legislation. Porter has also advised a number of Fortune 500 and international companies on their commercial expansion into emerging markets and their corporate social responsibility programs around the globe. Porter has traveled extensively throughout Sub-Saharan Africa, and other areas of the developing world.

Porter also has worked extensively on national security issues, having formerly served as an intelligence analyst for the Department of Defense, and having worked for several international companies as a political consultant on defense policy and contracting issues.

Porter is a Washington D.C. native, having grown up in Northwest D.C. and attended the St. Albans School for Boys. Porter and his wife Betsy and their two young children, Lucy and William, live in Arlington, VA.

Chris Sullivan

Senior Associate

Chris Sullivan joined the Kyle House Group in January 2015 after nearly a decade of service in the United States Senate.

Chris previously served in the office of Senator Johnny Isakson (R-GA), where he led the Senator's work on the Senate Foreign Relations Committee and the Subcommittee on African Affairs. In this role, Chris focused on strengthening the private sector in the developing world, regional security issues, global health, democratization and trade. In support of this work, Chris both coordinated and traveled on a number of high-level U.S. government delegations throughout Africa, the Middle East and Southeast Asia and conducted hearings on global health initiatives, emerging national security threats and federal agency budget priorities.

During his time on the Senate Foreign Relations Committee, Chris drafted a number of bipartisan bills that were signed into law, including the U.S.-Israel Enhanced Security Cooperation Act of 2012 and the Kate Puzey Peace Corps Volunteer Protection Act of 2011, which precipitated some of the most sweeping reforms of the Peace Corps since its inception in 1961.

In addition to his work with the Senate Foreign Relations Committee, Chris also served as Minority Staff Director on the Senate Finance Subcommittee on International Trade, Customs, and Global Competitiveness where he worked closely with key Administration officials, Members of Congress and their staff, foreign officials, and representatives of the private sector on ongoing trade negotiations such as the Trans-Pacific Partnership (TPP), the Transatlantic Trade and Investment Partnership (T-TIP) and the Trade in Services Agreement (TISA) to advance the U.S. trade agenda.

Chris developed expertise on a wide range of trade initiatives including preference programs such as the African Growth and Opportunity Act (AGOA) and the Generalized System of Preferences (GSP) as well as the Miscellaneous Tariff Bill (MTB) and customs modernization. Throughout his work on the Senate Finance Committee, Chris focused on advancing policies that would benefit small and medium businesses and reduce barriers to trade and investment. Chris also served as Senator Isakson's homeland security, national security and military Legislative Assistant, advising on a number of initiatives important to our national defense.

Chris attended the University of Georgia's School of Public and International Affairs and the Zanvyl Krieger School of Arts and Sciences at the Johns Hopkins University. Chris is a native of Marietta, Georgia, and recently served as President of the Georgia State Society of Washington, DC. Chris currently resides in Washington, DC with his wife Taylor.

Hugh,

As you may be aware, Dr Ranieri Guerra, WHO

Assistant Director General for Strategic Initiatives WHO, is visiting CDC next week. I know it is on Dr. Redfield's decision list to determine whether he will meet with him.

I wanted to flag two things that might impact that decision as follows:

(b)(5)

Could you check with R3 on this and let me know his decision on the meeting and also whether he could be available for a prep meeting.

Thanks,

John

Event Contact: Jennifer January Therrien, lpz7@cdc.gov & Judith Monroe, MD (Pres. & CEO, CDCF)

CDC Staffer Accompanying Dr. Redfield: TBD

CDC Program Contact (if applicable): TBD

CDC Media Contact (if applicable): TBD

2. Event Information:

Event Host: CDCF

Purpose of Event: As part of the UNGA events related to TB, CDC is developing a side event specifically focused on scaling up TB preventive treatment globally as a key strategy for achieving TB epidemic control and ultimately ending TB. Ending the tuberculosis epidemic is a high priority issue for the global health community. We look forward to the UNGA High-Level Meeting on Tuberculosis (TB), which will take place at UN Headquarters in New York City, and I hope you are too. This high-level meeting is only the third in UNGA

history to focus on infectious disease and highlights the priority and importance being placed on defining the global commitments needed to reach End TB targets and goals.

Agenda (if applicable): TBD

Number of Attendees and Composition: TBD

Key Participants (if applicable): TBD

Bios: TBD

Source Invitation: Direct invite attached.

3. Dr. Redfield's Speech Information or Talking Points (TPs):

Dr. Redfield's Remarks/Presentation/TPs: TBD

Proposed Role and Topic: Addressing TB infection through preventive treatment can reduce the risk that individuals infected with TB will develop active TB disease, thereby preventing future cases and breaking the cycle of transmission. However, despite extensive scientific evidence, program experience, and the World Health Organization's endorsement of the efficacy and safety of TB preventive treatment, implementation of this intervention remains low.

Your participation and willingness to share your perspective on how TB preventive treatment, as well as other global efforts, are needed to change the trajectory of the TB epidemic would be invaluable to this discussion. We seek your input as to what global commitments are needed and what your organization is currently doing or can commit to doing in the future to reach End TB targets. We are inviting voices from countries working to advance TB preventive treatment as well as from multilateral, academic, philanthropic, technical, and civil society and community organizations focused on ending TB. This event will encourage the global TB community to accelerate and expand the scale-up of TB preventive treatment in all countries around the world.

Length of Presentation: TBD

August 14, 2018

Dr. Robert R. Redfield
Director
U.S. Centers for Disease Control and Prevention

Dear Dr. Redfield:

Ending the tuberculosis epidemic is a high priority issue for the global health community. We look forward to the United Nations General Assembly (UNGA) High-Level Meeting on Tuberculosis (TB), which will take place at UN Headquarters in New York City, and I hope you are too. This high-level meeting is only the third in UNGA history to focus on infectious disease and highlights the priority and importance being placed on defining the global commitments needed to reach End TB targets and goals.

As part of the UNGA events related to TB, CDC is developing a side event specifically focused on scaling up TB preventive treatment globally as a key strategy for achieving TB epidemic control and ultimately ending TB. I invite you to join sponsoring governments and the CDC Foundation to speak briefly at this event, entitled *Preventing TB to End TB*, scheduled for Wednesday, September 26, 2018, from 6:30–8:30 PM at The Grand Hyatt New York, 109 E 42nd St, New York, NY 10017.

Addressing TB infection through preventive treatment can reduce the risk that individuals infected with TB will develop active TB disease, thereby preventing future cases and breaking the cycle of transmission. However, despite extensive scientific evidence, program experience, and the World Health Organization's endorsement of the efficacy and safety of TB preventive treatment, implementation of this intervention remains low.

Your participation and willingness to share your perspective on how TB preventive treatment, as well as other global efforts, are needed to change the trajectory of the TB epidemic would be invaluable to this discussion. We seek your input as to what global commitments are needed and what your organization is currently doing or can commit to doing in the future to reach End TB targets. We are inviting voices from countries working to advance TB preventive treatment as well as from multilateral, academic, philanthropic, technical, and civil society and community organizations focused on ending TB. This event will encourage the global TB community to accelerate and expand the scale-up of TB preventive treatment in all countries around the world.

Please feel free to reach out to Jennifer January Therrien (lpz7@cdc.gov) at CDC if you have any questions. We plan to schedule a coordination call in the near future to discuss logistics and possible talking points for the invited brief remarks.

I hope that you will join us for this valuable conversation, and I look forward to your response at your earliest convenience.

Sincerely,

Judith Monroe, MD
President and CEO

We already have this scheduled for him? Can't remember if this specific event made it on DL related to UNGA events.

Subject: Speaker Invitation to TB Side Event at UN General Assembly

August 14, 2018
Dr. Robert R. Redfield
Director
U.S. Centers for Disease Control and Prevention

Dear Dr. Redfield:
Ending the tuberculosis epidemic is a high priority issue for the global health community. We look forward to the United Nations General Assembly (UNGA) High-Level Meeting on Tuberculosis (TB), which will take place at UN Headquarters in New York City, and I hope you are too. This high-level meeting is only the third in UNGA history to focus on infectious disease and highlights the priority and importance being placed on defining the global commitments needed to reach End TB targets and goals.

As part of the UNGA events related to TB, CDC is developing a side event specifically focused on scaling up TB preventive treatment globally as a key strategy for achieving TB epidemic control and ultimately ending TB. I invite you to join sponsoring governments and the CDC Foundation to speak briefly at this event, entitled *Preventing TB to End TB*, scheduled for Wednesday, September 26, 2018, from 6:30–8:30 PM at The Grand Hyatt New York, 109 E 42nd St, New York, NY 10017.

Addressing TB infection through preventive treatment can reduce the risk that individuals infected with TB will develop active TB disease, thereby preventing future cases and breaking the cycle of transmission. However, despite extensive scientific evidence, program experience, and the World Health Organization's endorsement of the efficacy and safety of TB preventive treatment, implementation of this intervention remains low.

Your participation and willingness to share your perspective on how TB preventive treatment, as well as other global efforts, are needed to change the trajectory of the TB epidemic would be invaluable to this discussion. We seek your input as to what global commitments are needed and what your organization is currently doing or can commit to doing in the future to reach End TB targets. We are inviting voices from countries working to advance TB preventive treatment as well as from multilateral, academic, philanthropic, technical, and civil society and community organizations focused on ending TB. This event will encourage the global TB community to accelerate and expand the scale-up of TB preventive treatment in all countries around the world.

Please feel free to reach out to Jennifer January Therrien (lpz7@cdc.gov) at CDC if you have any questions. We plan to schedule a coordination call in the near future to discuss logistics and possible talking points for the invited brief remarks.

I hope that you will join us for this valuable conversation, and I look forward to your response at your earliest convenience.

Sincerely,

A handwritten signature in black ink that reads "Judith Monroe".

CDC Media Contact (if applicable): TBD

2. Event Information:

Event Host: OMHHE

Purpose of Event: OMHHE and the National Center for Bioethics in Research and Health Care at Tuskegee Univ. are co-hosting this 4th annual forum. The theme of the forum is “Minority Elders and Healthy Aging” with the goal to address a number of issues that include: explaining the biological, social, and cultural factors that impact healthy aging; identifying approaches for achieving healthy living for minority elders; describing the epidemiology of minority elders in the US; and distinguishing unique challenges confronted by minority elders.

OMHHE is celebrating its 30th anniversary at CDC, and is using this forum as an opportunity to continue to expand its work and address ways it can strengthen health equity for the country, and to accelerate CDC's health impact and eliminate health disparities.

Agenda (if applicable): TBD

Number of Attendees and Composition: 100 health professionals who work with older adults, students, academics, local adult daycare workers, and older adults interested in the topic of healthy aging; there will also be 100 – 200 participating via livestream.

Key Participants (if applicable): Dr. Leandris Liburd (OMHHE)

Bios: TBD

Source Invitation: Yes on the 7/30/18 DL

3. Dr. Redfield's Speech Information or Talking Points (TPs):

Dr. Redfield's Remarks/Presentation/TPs: Present brief remarks and participate as able in the Forum.

Proposed Role and Topic: Present remarks from 11:15am – 11:30am – focus on 4th Public Health Ethics Forum / Minority Health and Health Equity

Length of Presentation: 15 minutes

Press: No

Teleprompter: TBD

Subject: Invitation for Dr. Redfield's Calendar

On behalf of OMHHE Director, Dr. Leandris Liburd we would like to request and invite Dr. Redfield to participate and provide opening remarks at our upcoming 2018 Public Health Ethics Forum being held on September 14, 2018, 8:30am – 4:00pm in the Global Communication Center. OMHHE and the National Center for Bioethics in Research and Health Care at Tuskegee University are co-hosting this fourth annual forum. The theme of the forum is “ Minority Elders and Healthy Aging” with the goal to address a number of issues to include:

- Explain the biological, social and cultural factors that impact healthy aging;
- Identify approaches for achieving healthy living for minority elders;
- Describe the epidemiology of minority elders in the U.S.;
- Distinguish unique challenges confronted by minority elders

As we celebrate the 30th anniversary as an office of minority health at CDC, we are using this forum as an opportunity to continue to expand our work and address ways we can strengthen health equity for the country and to accelerate CDC's health impact and eliminate health disparities.

On behalf of OMHHE, Tuskegee University and the forum planning committee we would be honored to have Dr. Redfield attend and provide these remarks at this event. If needed we can provide additional information about this request for his participation.

Best Regards,
Sonia Jones-Croft

Subject: Follow up from honor awards ceremony

Nikki:

Proving that it IS possible to underestimate the appetite for snacks at CDC, we don't have a lot of cookies and non-perishable treats left over from the Honor Awards ceremony, but enough for perhaps one more event.

Which leads me to a request / question.

Scott:

Thanks. I am happy to re-schedule the honor awards reception to the 16th or 17th (assuming time would stay the same for R3 [2- 2:30]). 17th would be preferred, but could do Monday as well.

Let me know what works best for you all. Assume location (12302 will still be ok).

Subject: R3 in DC on 18-19 July
Importance: High

Colleagues, as some of you already know, R3 will be in DC on 18-19 July, and departing from IAD (Dulles) for Amsterdam on the 19th.

We'll have to reschedule Reception for the Honor Award Committee and the Ugandan MoH meetings, but we can still do both on Monday or Tuesday of that week (16 or 17 July) if Melissa and Brad want to do that.

Unfortunately, we'll also have to move the Coffee with the Director, but if feasible, perhaps we do that 9-10 on Tuesday the 17th unless Melissa or Brad need that time for their events.

Regarding the media hold on the 18th, OADC can still have time if they'd like, but we may have to be flexible regarding the exact timing until the other meetings R3 requested are scheduled.

Teresa, please confirm the Dep Sec for in-person one of those two dates as discussed. We'll also keep Sherrri's time, but it may have to flex depending on what we hear from FDA, USAID, and State Dept about his requested meetings. You can also clear his calendar for the period of travel overseas. Once we've arranged R3's needed or rescheduled his impacted meetings, we'll offer time to CDCW/OA/OADC for other DC activities.

Jenn & Kevin: Please book R3 on the 8:20 am to DCA on Wednesday 18 July, and then the 10:10pm from IAD to Amsterdam on Thursday 19 July, then onward travel according to the African Travel Agenda. **Note, we'll need his passport back here by the 17th, otherwise we can make arrangements for him to get it in DC on 18-19 if needed.

Please let me know if there are any questions or concerns. Thanks for everyone's continued flexibility... Semper Gumby!

Scott

Aimee,

The Senator's schedule has changed today. Would there be any chance we could move this call to 10:30am? I know that is last minute!
OR at 10am tomorrow?

KRISTINE B. NICHOLS

Subject: Meeting Request - CDC Director

Importance: High

Hi Kristine,

I hope that you are doing well. CDC Director, Dr. Robert Redfield, was hoping to have a phone conversation with Senator Isakson tomorrow or Thursday. Might the Senator be available for a 15 minute call during any of the times below...

August 1st 3:30-4:00 p.m.
 5:00-5:30 p.m.

August 2nd 9:00-9:30 a.m.

Thanks,

Cristi

Mark-up of the LHHS Appropriations Bill by Full Committee has been rescheduled to the 26th. Womack's office reached out to say he can no longer meet that day and I expect to hear soon from Lowey's office. Can I offer the 27th? They may still hesitate to confirm because the mark-up of this bill has been known to run long.

Dear Director Redfield,

On behalf of Research!America’s Board of Directors, it is my pleasure to invite you to join Research!America as a panelist for our 2018 National Health Research Forum on Thursday, September 6, 2018 at the Knight Conference Center, above the Newseum in Washington, D.C. The past several National Health Research Forums have truly benefitted from having CDC leadership represented on one of the panels.

Research!America is the nation’s largest nonprofit alliance working to speed medical progress and strengthen our nation’s public health capacity. Our more than 400 member organizations span patient advocacy, academia, industry, scientific societies, healthcare providers and payers, and philanthropies.

Our annual forum typically attracts an onsite audience of 200+ and is live-streamed. The large and diverse audience includes the leadership of Research!America’s many member organizations, heads of federal research agencies, legislative staff from committees with relevant appropriations and oversight responsibilities, and the media.

While the forum runs from 10:30 am – 2:30 pm, we would be glad to arrange the panels in a manner that accommodates other commitments you may have on the 6th. We will follow up with your scheduler to determine your availability for this event. If additional information would be useful in the interim, please do not hesitate to contact me or Sara Chang on staff at (571) 482-2726 or schang@researchamerica.org.

Best Regards,

Mary Woolley

Panel 2: Unmet Medical Needs: Speeding progress against treatment-elusive health threats

Moderator

- In a very real sense, most health needs are “unmet;” even if there are preventative and treatment options, even cures, available, there is often an opportunity to refine these interventions or create new options that benefit patients in important ways.
- For the purpose of this discussion, we would like to focus on two subsets of unmet medical need:
 - 1) broad-scale health threats such as antimicrobial resistance, the opioid crisis, and obesity, which, left unchecked, pose cross-generational risks at the societal level; and
 - 2) diseases that elude answers because the size of the patient population, awareness of disease burden, or other obstacles have stymied progress against them. There are many reasons to increase federal investment in research and create an environment conducive to fast-paced medical progress, none more compelling than health threats – pervasive or rare – for which progress lags dramatically behind need.
- What is being done, and what more could be done, to overcome these unmet medical needs? What would the future look like if research was leveraged at its full potential to address these unmet medical needs? What does it look like if the will and resources to fuel fast-paced medical progress lags?
- First, let’s define what we mean by “unmet medical needs.”
- We are focusing on the subset of health threats that have either eluded any answer, sometimes even diagnosis - tragically, a host of rare diseases fall under this category – or one in which the magnitude of the threat dwarfs available answers...I’m thinking about antimicrobial resistance, but there are others...the opioid crisis, suicide...
- The purpose of this discussion is to look at what is happening, and could be happening, to overcome overlooked or overwhelming challenges in the health arena. Research!America, the host of this forum, works to make the case that the priority assigned to science, particularly the science that drives health and healthcare forward, is

simply not accorded the priority merited by its role in alleviating suffering, saving lives, and promoting our nation's economic and fiscal objectives.

- The two categories of unmet medical need I just described are emblematic of that disconnect.

Thought Starters

General Questions:

- Is our nation according unmet medical needs the priority they deserve? After all, NIH has been receiving robust increases over the past few years, the 21st century cures bill was signed into law...what aren't we doing that we should be doing?
- What would you say is the greatest, underappreciated health threat we are facing? What can and should we do about it?
- Are we doing enough to educate the public about the benefits of vaccines to combat infectious diseases?

Rare Diseases:

- There are approximately 30 million rare disease patients and only roughly 5 percent of rare diseases have an FDA-approved treatment, meaning that the majority of patients are still waiting for safe, effective treatments to be developed. What are the most formidable challenges in rare disease drug development?
- If there was one change you could make to the status quo in the discovery, development, delivery pipeline-one feasible change- that would speed the progress patients need, what would it be?
- What value does partnerships and collaborations bring to the innovation pipeline?
- The development of treatments for rare diseases is where the rubber meets the road in terms of the potential inherent in the use of real world data, innovative clinical trial designs, and other means of empowering progress in the face of obstacles to "gold standard" clinical trials. What are the prevailing challenges when it comes to engineering new ways forward in the clinical research phase of R&D for rare diseases?
- There is no doubt that Orphan Drug Act incentives have spurred progress in the rare disease arena, yet the law is controversial. Critics point to drugs that are highly profitable and yet receive the incentives imbedded in the bill. The recent tax reform package reduced the tax credit from 50% to 25%. Are more changes called for, either to strengthen or moderate the incentive structure, or does the bill ultimately strike the right balance?
- What more can be done in the legislative or regulatory arena to spur progress against rare diseases?

- Gene therapy and regenerative medicine are areas of particular focus for rare diseases. What are the most important opportunities and challenges in the development and regulation of these interventions?
- How can rare disease patients, researchers, and advocates best convey the need for continued research funding for these diseases? For rare diseases without a known cure, how do researchers balance the long-term search for a cure with the immediate need to alleviate symptoms?

Antimicrobial Resistance:

- In the case of antibiotics, we appear to be moving backward. The invention of penicillin revolutionized health care in the 1940s, and yet, no new classes of antibiotics have been discovered since 1987. That is a huge innovation gap. What is going on here?
- There are obvious challenges, not the least of which is that the incentive to invest is not as great for antibiotics as for high volume drugs or big ticket biologics. But the push and pull mechanisms in BARDA were supposed to help address that issue. What has been the impact of BARDA and what more can be done to incentivize antibiotics and other means of addressing infectious diseases?
- The CDC's National Health Security Network allows healthcare professionals to report and monitor antibiotic resistance and identify at-risk areas. What does this data offer for biomedical researchers?
- By 2020, the CDC had several tasks to implement in the National Action Plan for Combating Antibiotic-resistant Bacteria. What is the status of the action plan and will there be a need for another?
- This summer, the FDA announced a five-year plan for tackling antimicrobial resistance that addresses indirect exposure to antibiotics. What is the current thinking on the role of such exposure, what's the role of research when it comes to this facet of the AMR challenge?
- As microorganisms develop resistance to drugs, researchers face the challenge of studying mutations fully while also creating and testing new vaccines and antibiotics to combat these mutations. What is needed in terms of technology and resources to accelerate this process so that outbreaks can be treated as quickly as possible?
- Vaccination provides a potential solution to antimicrobial resistance, as preventing infection reduces the need for antibiotics and the increase of drug-resistant bacteria. How do researchers prioritize developing and administering effective vaccines with treating microorganism mutations?
- BD is working closely with leaders across sectors and organizations, including the United Nations, to overcome antimicrobial resistance in the fight to support the Sustainable Development Goals. Could you describe some of the ongoing projects in the collaboration? How can healthcare and science policy in the U.S. help to address this problem?
- What role does gene editing/CRISPR and other technologies play in the development of novel therapies?

- In 2016, Pfizer joined 100 other companies in signing the Davos Declaration, which called for collective action to create a sustainable and predictable market for antibiotics, vaccines and point-of-care diagnostics, which encourages appropriate use of new and existing treatments. Was the Declaration helpful in creating collective action?
- What role does diagnostics have in antimicrobial stewardship?
- Policymakers are paying attention to the threat of antimicrobial resistance and “superbugs,” Are the right policies and incentives in place to ensure researchers find the solutions we need?

Opioid Crisis:

- In a very real sense, the opioid crisis is a “treatment-resistant” health threat. What are the highest impact answers to this crisis? Are there unanswered questions about why the crisis has taken such hold? What isn’t happening that should be happening in the research and public health arenas? Where are the research gaps when it comes to addressing addiction and identifying opioid alternatives?

Global Health Challenges:

- A goal for Healthy People 2020 is to achieve health equity, eliminate disparities, and improve the health of all groups. What unmet needs must be addressed to eliminate health and health care disparities, and conversely, how would the elimination of these disparities affect the nature and scope of community health challenges?
- Tuberculosis is often difficult to treat and diagnose, especially when working with HIV and AIDs patients. What new technologies are being developed to reduce the number of false negatives, which can contribute to the rapid spread of TB?
- The WHO reported that in 2016, 490,000 people developed multi-drug resistant tuberculosis. What impact does antibiotic resistance abroad have on population health in the United States? What role does the US play in combating this global health crisis?

Former Commissioner, FDA, 2002-2004

Panelists:

Gopal Khanna, Director, Agency for Healthcare Research and Quality (AHRQ)
Ivor Benjamin, MD, FAHA, FACC, President, American Heart Association

Ann M. Palmer, President and CEO, Arthritis Foundation
 Joe V. Selby, MD, MPH, Executive Director, Patient Centered Outcomes Research Institute (PCORI)
 Tim Hocht, Vice President, Professional Services, Life Science, Elsevier
 Greg Simon, JD, President, Biden Cancer Initiative, Biden Foundation
 Luiz Miguel Camargo, Ph.D., Director of Innovation Networks, UCB

11:30 a.m. **Panel 2: Unmet Medical Needs: Speeding progress against treatment-elusive health threats**

Moderator: Jackie Judd, Health care communications consultant

Panelists:

Robert Redfield, MD, Director, Centers for Disease Control and Prevention (CDC)
 Celia Witten, Ph.D., M.D., Deputy Director, Center for Biologics Evaluation and Research, Food and Drug Administration (FDA)
 Guillermo "Willy" Prado, Ph.D., Dean, Graduate School; University of Miami
 Adrienne Shapiro, Founder, Axis Advocacy
 Gary Cohen, EVP of Global Health, BD
 Mikael Dolsten, M.D., Ph.D., President of Worldwide Research & Development, Pfizer
 Srin Ramanathan, Ph.D., Vice President, Development Sciences, Horizon Pharma

12:40 p.m. **Panel 3: Brain Science: A closer look at opportunities, obstacles and the path forward**

Moderator: Erin Durkin, Health Care Correspondent, *National Journal*

Panelists:

Francis Collins, M.D., Ph.D., Director, National Institutes of Health (NIH)
 Paula Dumas, CEO and Managing Editor, Migraine Again
 Susan Fitzpatrick, Ph.D., President, James S. McDonnell Foundation
 Alfiee Breland-Noble, Ph.D., MHSc, Director of The AAKOMA Project
 France A. Cordova, Ph.D., Director, National Science Foundation (NSF)
 Hussein Manji, M.D., F.R.C.P.C, Head, Neuroscience Therapeutic Area, Janssen Research & Development, LLC, One of the Janssen Pharmaceutical Companies of Johnson & Johnson

1:56 p.m. **Introduction of Closing Speakers**

The Honorable Michael N. Castle, Research!America Chair
 Partner, DLA Piper
 U.S. Representative, 1993-2011

1:58 p.m. **Closing Conversation**

Alex M. Azar II, Secretary, Department Health and Human Services
 Susan Dentzer, President and CEO, Network for Excellence in Health Innovation

2:30 p.m. **Program Adjourns**

National Health Research Forum

Thursday September 6, 2018

8:30 AM-2:30 PM

Knight Conference Center at The Newseum, 555 Pennsylvania Ave NW

Location: The National Health Research Forum will be held at the Knight Conference Center on the 7th Floor of the Newseum.

Entrance: Use the **6th Street entrance**, located on 6th Street NW between Pennsylvania Ave NW and C Street NW. Newseum security will direct you to an elevator to the 7th floor. A Research!America staff member will greet you on the 7th floor.

Transportation:

Metro: Archives/Navy Memorial/Penn Quarter (Green Line and Yellow Line)

Parking: The Newseum offers parking for a fee in their building; the garage entrance is on C Street. Two garages (Colonial Parking and Central Parking) are located on 6th Street NW between Pennsylvania Ave NW and C Street NW, directly across 6th Street from the Newseum entrance.

Timing: Please arrive no later than 9:45AM, especially for first panel participants. The program will begin promptly at 10:15 AM. If you are not arriving by 9:45 AM, please confirm your arrival time with Sara Chang at schang@researchamerica.org.

A/V: We will be using wireless lavalier microphones for the panelists and a wireless hand held microphone for moderators. The Newseum A/V staff will fit your mic in room 704 and can answer any questions you may have. **A Research!America staff member will escort you to room 704 before your panel begins.**

Photos: There will be step-and-repeat photo ops for each panel after the panel discussion has concluded. Panelists & moderator on the *first panel* will convene for photos at approximately 9:45 AM, the *second panel* approximately 12:45 PM, and *third panel* approximately 2:00 PM. *Times are approximate. **Research!America staff will help assemble panelists for their photos.**

Day of Contact: Should you have any questions the morning of the event, please contact Sara Chang at 202.258.0921.

Subject: Upcoming Responder Related Events

Hi Scott,

How are you? Hope all is well!

I wanted to let you know about a couple of upcoming events:

1. *Dare to Respond* Campaign – first week of August
The goal of the 2018 summer marketing campaign, *Dare to Respond*, is to reshape how CDC staff view Emergency Response Work; a vital component to our agency and public health. With our responder poster and video series, the *Dare to Respond* campaign aims to inspire staff to start the process of becoming qualified for CDC emergency response work. The poster series features nine CDC Responders from CIOs across the agency that share why this work is important to them. The video series, currently in production, will feature three short video concepts that grab attention with humor and storytelling. Samples of the poster series attached.
2. Responder Readiness Fair - September 19th Roybal Campus, Bldg 19, 10am-3pm
The Responder Readiness Fair, scheduled for September 19th, is a Deployment Community sponsored event to promote CDC Emergency Response work and draw potential CDC Responders. CDC staff can learn what it takes to be a responder in the EOC or deployed to the field. At the Responder Readiness Fair, staff will hear first-hand stories from CDC Responders, have opportunities to sign up for trainings and classes, schedule responder

Subject: Request for opportunity to meet

Dear Dr. Redfield,

As you know, APHL is a longstanding partner with CDC and as such, I would welcome an opportunity to meet with you at your convenience. APHL represents public health laboratories in the US as well as providing support to CDC for global laboratory system initiatives, under both PEPFAR and through Global Health Security. I was hoping for a brief meeting of introduction, and then further seek an opportunity to have you address our board during a meeting to be scheduled later this winter.

I understand that you are often in the CDC-Washington office and I would be happy to meet with you there or at another time in Atlanta.

I may be reached on my cell at 301-526-5704 or via email at scott.becker@aphl.org

Thank you,

Scott Becker

President

JOANNE BARTKUS, PhD, D(ABMM), MS

Joanne Bartkus is the director of the Public Health Laboratory at the Minnesota Department of Health MDH-PHL). Her duties include supervision of a management team responsible for oversight of environmental testing, infectious disease surveillance and outbreak investigation, newborn screening, and laboratory operations. Joanne received her BS and MS degrees in biology from Northern Illinois University and a PhD in microbiology from Cornell University. She conducted postdoctoral work in the Department of Biochemistry at Cornell University and was a National Research Council Fellow at United States Army Research Institute for Infectious Diseases. She is board certified in medical microbiology by the American Board of Medical Microbiology and is certified as a high complexity laboratory director by the American Board of Bioanalysis.

Joanne currently serves as the board liaison to APHL's Newborn Screening and Genetics in Public Health Committee. She has also served as a member of the steering committee for the Vaccine Preventable Diseases project and on the Planning Committee for the APHL Annual Meeting.

Executive Director and Ex-Officio

SCOTT J. BECKER, MS

Scott Becker has served as the executive director for the Association of Public Health Laboratories (APHL) since 1997. As the association's chief staff officer, Scott is responsible for programmatic and fiscal operations, liaison with APHL members and partners, and policy development. Under his leadership, APHL has doubled its staff, tripled its programs and more than quadrupled its budget. In 1999, he was recognized as one of the nation's top association executives under 40.

Prior to joining APHL, Scott served as deputy executive director for the Association of Schools of Public Health (ASPH). During a sabbatical from ASPH, he directed a WHO project to integrate HIV/AIDS into health profession curricula. He holds BS and MS degrees in business and non-profit management, respectively, from the University of Maryland.

The executive director also serves as an ex officio, non-voting member of the Executive Committee.

1. Contacts:

Logistics Specialist: Brad Bartee

Special Assistant: Seth Kroop

Event Contact: Judy Lipshutz (CSTLTS), O: 404-498-6775, Cell: 404-423-2778, jel6@cdc.gov

CDC Staffer Accompanying Dr. Redfield: TBD

CDC Program Contact (if applicable): TBD

CDC Media Contact (if applicable): TBD

2. Event Information:

Event Host: CSTLTS is the sponsoring CIO.

Purpose of Event: : The STLT Subcommittee meets formally 3 times a year including one in-person meeting in Atlanta. The purpose of this meeting is to deliberate and provide insights/recommendations to CDC on priority and emerging public health issues from a STLT perspective. Much of their current focus centers around the work of 3 general areas: social/structural determinants of health, public health surveillance, and public health finance.

The STLT Subcommittee provides ongoing advice and recommendations to the Advisory Committee to the Director of CDC (ACD) on public health policies and practices relevant to STLT jurisdictions. They focus on both integrating CDC's priorities with the work of STLT public health jurisdictions and helping CDC identify strategies to address the most critical challenges facing STLT public health agencies in the context of a dynamic and ever-evolving health system. The subcommittee is charged with researching and deliberating

about potential ways to address these challenges and proposing subsequent position papers and/or recommendations for consideration by the ACD.

Agenda (if applicable): TBD

Number of Attendees and Composition: 25 – 50 STLT Subcommittee members.

Key Participants: Michael Fraser (ASTHO) and Lori Freeman (NACCHO) are planning to attend as observers.

Bios: TBD

Source Invitation: Yes on the 6/11/18 DL

3. **Dr. Redfield's Speech Information or Talking Points (TPs):**

Dr. Redfield's Remarks/Presentation/TPs: TBD

Proposed Role and Topic: Present remarks in an informal discussion that highlight top agency priorities. The STLT Subcommittee leadership will provide more specific requests closer to the time of the meeting.

Length of Presentation: 10 – 15 min.

Press: TBD

Teleprompter: TBD

4. **Supporting/Logistics Materials:**

Subject: FW: Directors Request - STLT Subcommittee Meeting
Date: Thursday, May 31, 2018 4:41:22 PM

Hi Scott and team,

Please find below a request for Dr. Redfield to provide opening remarks at the STLT Subcommittee Meeting on 8/2/18. They are not amenable to other CDC delegates but are okay with video teleconference.

Additional details are included below.

Thank you,

Mansi

New request from Request Director form --

Event Overview:

Event Title: STLT Subcommittee Meeting

Name of Organization Hosting Event: STLT Subcommittee (CSTLTS is sponsoring CIO)

Description of Organization: The State, Tribal, Local and Territorial (STLT) Subcommittee provides ongoing advice and recommendations to the Advisory Committee to the Director of CDC (ACD) on public health policies and practices relevant to STLT jurisdictions. They focus on both integrating CDC's priorities with the work of STLT public health jurisdictions and helping CDC identify strategies to address the most critical challenges facing STLT public health agencies in the context of a dynamic and ever-evolving health system. The subcommittee is charged with researching and deliberating about potential ways to address these challenges and proposing subsequent position papers and/or recommendations for consideration by the ACD.

Event Location: Atlanta, GA/Roybal Building 19, Rooms 245/246

Event date: 08/02/2018

Event start time: 8:30 AM | End Time: 3:30 PM

Director's participation requested start time: 9:30 AM

Director's participation requested end time: 10:30 AM

Contact Person

Contact Person: Judy Lipshutz

Contact Office Phone: 404-498-6775

Contact Cell Number: 404-423-2778

Contact Email: jel6@cdc.gov

Event Details

What is the purpose of this event?: The STLT Subcommittee meets formally 3 times a year including one in-person meeting in Atlanta. The purpose of this meeting is to deliberate and provide insights/recommendations to CDC on priority and emerging public health issues from a STLT perspective. Much of their current focus centers around the work of 3 general areas: social/structural determinants of health, public health surveillance, and public health finance.

Proposed role of Director?: speaker

If the Director is unable to attend, would you still be interested in a CDC speaker?: NO

If the Director is unable to attend in-person, would joining by video teleconference be an option?: YES

If the Director is unable to attend in-person or by VTC, would a pre-recorded message be an option?: NO

Presentation Details

Topic of Presentation: Discussion with STLT Subcommittee about CDC priorities

Type of Presentation: Break-out Session

Presentation Special Notes: Meeting will be with full STLT Subcommittee so is not really a break-out session. Rather it is intended to be set up as an informal discussion rather than a presentation with Q&A. Opening remarks about CDC priorities would be appropriate as a way to start the discussion. More specific requests may be forthcoming from the STLT Subcommittee leadership

Additional Speakers: N/A

Length of Presentation: 1 hour if possible

PowerPoint requested: [ppt-available]

Will there be Q&A?: YES

Specific topic/points you would like the Director to address: Highlight top agency priorities; we anticipate the STLT Subcommittee leadership will provide more specific requests closer to the time of the meeting.

Audience and Key Participants?: Public Health/Medical Professionals

Audience Size?: 10-50

Expected Media Coverage?: NO

Will this event be videotaped?: NO

Additional details?: [Additional-details]

Subject: FOR RESPONSE BY COB MONDAY, JUNE 25 - Dr. Redfield - STLT Subcommittee Meeting

Hi Dagny,

I was hoping to ask you a couple of questions about the STLT Subcommittee Meeting, August 2. I know this is a little ways out, but if you are able to answer these questions by **COB, MONDAY June 25**, that would be much appreciated. Tuesday we will meet with KLD to start prepping speeches going out the next few months, and we are hoping to start discussing this one as well!

1. I see that Dr. Redfield has been asked to present opening remarks highlighting top agency priorities, and there is also a note that OSTLTS leadership will have more thoughts as we get closer to the event. Are there any other topics that you are aware of now, that you would like Dr. Redfield to include?
 - They are interested in social determinants of health, ACEs, mental health, and modernization issues for surveillance systems, including Digital Bridge. I would like to inquire about other topics and get back to you if possible.
2. It looks like he was originally asked to speak for a little longer than 10-15 minutes, but now this is how long his remarks will last. With that in mind, are you still anticipating his remarks would lead into informal discussion, and if so, how long would you like to remarks versus discussion to last?
 - The group hopes to hear from him and then have a discussion. They will likely want to discuss priorities he brings up and may also have completely different questions/topics to discuss. We have set aside 45 minutes to an hour. Is that what you anticipate as well?
3. If he were so inclined, would it be possible for Dr. Redfield to back his remarks with slides?

- Slides are absolutely welcome if he'd like to use them. It will be best if we can get them the day before so they are ready when he gets there.
- 4. Would it be possible to share a draft agenda for the meeting (if not, do you have an idea who the other speakers will be/what topics they will cover)?
 - See attached draft agenda
- 5. Are you planning any social media promotion, or to have a photographer at the event? I see you are not planning for media to be in attendance.
 - No

Thanks so much, and if it helps to talk through please let me know.

Best,
Delaney

Subject: The AMR Challenge
Attachments: 2018 UNGA AMR Side Event Concept Note_Final.docx

- **Event Format:** During this event, U.S. Department of Health and Human Services Secretary Alex Azar will launch the AMR Challenge alongside representatives from other governments, private industry, and civil society. The event will serve as a platform to share stories of the impact of antimicrobial resistance to make the issue real and relatable for individual attendees, create an environment to promote lasting and positive change to address antimicrobial resistance, and deliver an overview of recent efforts and achievements in antimicrobial resistance over the last several years. The AMR Challenge is built off of the successes made possible through the Combatting Antibiotic-Resistant Bacteria (CARB) National Action Plan with a focus on bacteria and fungi, including TB.
- **Audience:** Approximately 300 global leaders from governments, industries, private sector and civil society committing to actions and results to combat AMR in 5 areas tracking data, infection prevention control, antibiotic use, environment and sanitation, vaccines, therapeutics and diagnostics development
- **Role for Dr. Redfield:** Dr. Redfield's attendance at the launch of the AMR Challenge would be greatly appreciated. Given the audience, there will be ample opportunity to interact with various CDC partners including CEOs and executive leadership from various private companies, civil society organizations, and patient advocate groups. In addition, there will be a unique opportunity for these attendees to take a photograph with the CDC Director as a way of thanking them for their commitment to combating AMR and their commitment to the AMR Challenge. Please contact ARX for additional information or to confirm Dr. Redfield's interest in serving in this capacity.

United Nations General Assembly

Proposed Side Event on

Antimicrobial Resistance (AMR) (unofficial)

Event Working Title

The AMR Challenge: Launch Event and One Health Solutions Showcase

Date

Tuesday, Sept. 25, 2018, 6-9 p.m., location The Roosevelt Hotel, 45 E 45th St, New York, NY 10017

Sponsor

USG/U.S. Centers for Disease Control and Prevention (CDC)

Co-hosts for Consideration

CDC is looking for potential co-sponsors for the event. Countries or WHO regions who are co-sponsors will actively solicit commitments and/or host events or other activities to facilitate commitment gathering during *The AMR Challenge* year.

1. CDC Foundation (secured)
2. Wellcome Trust (secured)
3. The Pew Charitable Trusts (secured)
4. The Bill and Melinda Gates Foundation (secured)
5. The UN Foundation (secured)
6. Governments of India and Pakistan (secured)
7. Other countries
8. WHO regional offices

Points of Contact

- OGA – Larry Kerr, Larry.Kerr@HHS.gov
- CDC – Michael Craig, bez7@cdc.gov

Overview

- During the 2018 United Nations (UN) General Assembly, the United States (U.S.) will launch a year-long effort spearheaded by CDC to call global stakeholders to action on AMR and solicit one health commitments to accelerate combating antimicrobial resistance locally and globally.
- This dedicated side event will describe the global threat of AMR and its impact on all people and industries, underscore how we each have a role to play to slow its development and spread, and highlight successes made to date in the fight against AMR.
- The side event will launch *The AMR Challenge* to encourage government, non-government organizations, academic, and private sector partners to join the effort with a one health approach. The event will include organizations/partners who have already made commitments in at least one of the five categories:

Infection prevention and control

- Antimicrobial stewardship
 - Drug, diagnostic and therapeutic development
 - Environment and sanitation
 - Surveillance and data
- Three years following the [Forum on Antibiotic Stewardship](#), the impact of some of these commitments will also be presented, and the call for commitments from additional governments, national, and multinational private sector partners will be launched to deliver tangible activities for presentation during the 2019 74th United Nations General Assembly.

Session Summary

- Key decision makers in the public and private sectors will convene at an event space near the United Nations in New York City to experience an interactive session. The event will rely on science, personal stories, and action.
- Before and after the event, attendees will be invited to visit stations and hear stories from individuals affected by AMR (possible formats: in-person, video, large visuals) and learn more about the commitments made to date.
- Representatives from the co-sponsor groups will then host the session and discuss the threat of AMR, current challenges in the fight against AMR, the progress that has been made to date, and the needed action to make a lasting impact. Attendees will learn about activities to combat AMR locally and globally and opportunities for their group and others in their industry to participate following the event.

Objectives

- Launch a year-long challenge to obtain and showcase commitments from the public and private sectors and other stakeholders to accelerate and enhance efforts that combat antimicrobial resistance with a one health approach.
- Provide an opportunity for key stakeholders to network, engage, and discuss critical issues and proposed solutions related to antimicrobial resistance.
- Share stories of the impact of antimicrobial resistance to make the issue real and relatable for individual attendees.
- Create an environment to promote lasting and positive change to address antimicrobial resistance.
- Deliver an overview of recent efforts and achievements in antimicrobial resistance over the last several years.

Target Audience

Approximately 300 senior executives and industry leaders who could include:

- Academia (e.g., Washington State University)
- International organizations (e.g., World Health Organization (WHO))
- Government officials (e.g., Food and Drug Administration (FDA), Ministries of Health or Finance, National Institutes of Health (NIH), CDC, US Department of Agriculture (USDA))
- Research institutes (e.g., Access to Medicine Foundation)
- Philanthropic organizations (e.g., UN Foundation, Bill and Melinda Gates Foundation, Wellcome Trust)
- Food and agriculture organizations (e.g., Commodity Groups and Retailers, National Pork Board)
- Other private sector (e.g., BD, Merck, Pfizer, Elanco)

Event Format

1. Arrival and interactive portion. Each attendee will interact with videos/information set up around the side event location. Examples could include, but are not limited to:
 - AMR and modern medicine: A patient survives cancer, but dies from a healthcare-associated infection;

- AMR in the developing world: Children in a developing country suffering and dying from sepsis;
- AMR in farm animals: A farmer experiences financial losses after losing chickens from an outbreak caused by resistance germs;
- AMR and STI: A young woman struggles with infertility related to a drug-resistant gonorrhea infection; and
- AMR and wastewater: CRE found in wastewater effluent outside of a major city.

The examples will be complemented by what organizations/partners have already committed to do in order to promote their efforts and mobilize other organizations to make similar commitments.

2. Welcome, introduction on the global fight against antimicrobial resistance, and the launch of *The AMR Challenge* to encourage partners to take action and join the effort.
3. Personal story of how antimicrobial resistance impacted the life of a real person, in a TED-style talk
4. Inspirational speech about how the time is now to accelerate commitment, and we can solve unsolvable problems with funders, countries, engagement, interest, new technology, and innovation
5. Attendees will be encouraged to network and post videos about their experience at the event, highlight commitments they think are influential, or share their personal story with AMR.

Background

- In 2015, the U.S. hosted a [Forum on Antibiotic Stewardship](#) during which the U.S. Federal government and more than 150 private sector organizations made concrete commitments to help improve antimicrobial use and thwart the public health, economic, and national security threat posed by antimicrobial-resistant bacteria. Those making commitments represented hospitals, health systems, long-term care, pharmacies, pharmaceutical, diagnostics, vaccine, data companies, clinical societies, non-profits, foundations, livestock and poultry farmers, food producers, retailers, animal pharmaceutical companies, veterinary and animal agriculture associations, industry organizations, and more.
- Antimicrobial resistance occurs when germs develop the ability to defeat the drugs designed to kill them. High levels of antimicrobial resistance have been found in all regions of the world, and in multiple sectors including healthcare, the food supply, and the community. Although some people are at greater risk than others, no one can completely avoid the risk of antimicrobial-resistant infections. Infections from resistant germs are often difficult, and sometimes impossible, to treat and require costly and sometimes toxic alternatives.
- Germs will inevitably find ways to resist antimicrobials, which is why aggressive action is needed now to keep new resistance from developing and to prevent the resistance that already exists from spreading.

AMTRAK GUEST REWARDS

No member number provided. Join at Amtrak.com

Proper identification is required for all passengers. This document is valid for only passengers listed. See www.amtrak.com/ID for details.

IMPORTANT INFORMATION

- NER FLEX, TRVL SUN, THUR OR FRI. 1 DAY ADV RES REQUIRED
- Try the FindYourWay app for personalized train and station information at New York Penn Station. Download it on Google Play or the Apple App Store today, or learn more at Amtrak.com/findyourway.
- For passenger safety the boarding gate at Washington Union Station will close two minutes prior to train departure time.
- eTickets for Reserved services are valid only for the specific train number, date and accommodation type booked.
- When should you arrive at the station? Check the recommended arrival times for your departure station at Amtrak.com/stations. Allow additional time if you require ticketing/baggage services or boarding assistance, or if you are boarding at a Canadian station.
- Tickets are non-transferable. They are valid only for the personal use of the passenger(s) named on the ticket.
- For Amtrak travel information, or to make adjustments to your travel plans, please visit Amtrak.com, or call 1-800-USA-RAIL (1-800-872-7245).
- Your printed eTicket travel document shows the services you booked. If you change your booking but do not reprint the document, it will not reflect your current itinerary. You may obtain an updated copy of your eTicket at Amtrak.com. At some stations, a gate agent may need to view your eTicket prior to boarding (learn more at Amtrak.com/boarding).
- Changes to your itinerary may affect your fare. Refund and exchange restrictions and penalties for failure to cancel unwanted travel may apply. For more information please visit Amtrak.com/changes.
- Carry-on baggage is limited to 2 personal items, 14x11x7" / 25lbs per item, and 2 bags, 28x22x14" / 50lbs per bag, per passenger. **You may be charged a baggage fee or denied boarding if your items exceed these limitations.** See the baggage policy at Amtrak.com/baggage.
- Check the departure board or ask a uniformed Amtrak employee to find out where to board your train.
- If You See Something Say Something! Contact Amtrak Police at 1-800-331-0008 or Text to APD11 (27311).**

Subject: Transit to Defense Threat Reduction Agency (Dr. Wolfe to Drive)

Take 395 South to 95 South and exit at Fairfax County Parkway south or east (toward Ft. Belvoir South and Route 1). Once on Fairfax County Parkway, he will drive about a mile and turn left at the light onto John J. Kingman Rd. Once on Kingman Rd., the second right is the entrance to the McNamara Complex where DTRA is located. If they get to the gate to enter Ft. Belvoir, then they have gone too far.

Upon entering the complex, everyone will need their PIV to show to the guard and get beyond the main gate. Upon entering through the gate, the building is to your right. It is a huge arc and DTRA is at the far side and is easily distinguishable from the rest of the building due to its glass facade. There will be a VIP parking space reserved for them near the main entrance to DTRA. Dave McAdam will be waiting out front for you to arrive and will have a parking pass in hand.

CDC-W to Ft. Belvoir: 45 – 55 minutes / 18.8 miles

Cc: Knotts, Ashley (CDC/OD/OCS) <vqf0@cdc.gov>; Green, Hugh (CDC/OD/OCS) <yke8@cdc.gov>
Subject: R3 July Travel - Important Updates

You may want to clarify dates:

19-22 July Amsterdam

23-25 July Kampala Uganda site visits

July 26 travel to Dar Es Salaam

26-28 July Dar Es Salaam Tanzania site visits

July 28-~~or~~29 travel to Maputo

28-31 July Maputo Mozambique site visits

July 31 return Atlanta

FYI: I found out from Hank that PEPFAR meetings in Amsterdam are not like PEPFAR Ps and are more like a conference. Some sessions will be in a large ballroom and some sessions will be held in breakouts. Given that I may propose that he arrive in Uganda on Sunday, July 22. Thoughts?

Subject: R3 July Travel
Importance: High

Team, R3 and Ashley will be traveling to Amsterdam 19-22 July for PEPFAR meeting, and then OA & CGH are coordinating a follow-on trip to Uganda, Tanzania, and possibly Mozambique, thru 31 July.

Can you please let us know if you have any concerns about security or communications in those countries and their capital cities. Dates are expected to be:

19-22 July Amsterdam

July 26 travel to Dar Es Salaam

July 28 or 29 travel to Maputo
July 31 return Atlanta

Larry, can you also work with Teresa to schedule the FSTB's for these locations so that it can be delivered to R3 and Ashley before travel?

Kevin, let us know if there are any hardware or phone changes necessary for this trip.

Delaney/Kate/Molly, we do not have any expected formal presentations for him to deliver, but we expect he'll do a mini All Hands with each country team. Likewise we have no insights if media is being pitched or planned, but I suspect you're already in discussions with CGH about that.

Please let me know if I can answer any questions or concerns. Many thanks!

Scott

July 2018 OMB/CDC Africa Trip Itinerary

Dr. Redfield

As of July 2, 2018 11:50 AM

SUNDAY, JULY 22 AMSTERDAM TO KAMPALA, UGANDA

10:45 AM Departure from Amsterdam Airport Schiphol (AMS) – Flight #KL535

8:15 PM Departure - *Layover 1h 10m*, Kigali International Airport (KGL)

10:20 pm Arrival in Entebbe International Airport (EBB)- Kampala, Uganda

Arrival Flight #KL535

Hotel: [Kampala Serena](#)
Kintu Road, Kampala, Uganda

MONDAY, JULY 23 LOCAL SITE VISITS IN KAMPALA

TUESDAY, JULY 24 FLIGHT TO ARUA TOWN

Travel to West Nile area of Northwestern Uganda by existing air shuttle service - Destination Arua Town (near the border with DRC and South Sudan). Arua and five surrounding districts are the sites of nine refugee settlements. One of these settlements (Bidibidi) is the world's largest with nearly 300,000 refugees. These districts are also the sites of a growing CDC-supported integrated Global Health Security / HIV / TB project fostering both a One-Health and a One-CDC approach. Through a visit to Arua, the delegation will see firsthand some of the challenges and strategies to health security posed by a combination of factors. These include remoteness, high human and animal population displacement and continuous refugee influx and related nutrition, water and sanitation and health problems. In addition, there is a strong need for epidemiologic surveillance both locally and at points of entry into the country, and for strengthened human and zoonotic outbreak prevention, early detection, and rapid response in this area of the country prone to infectious disease outbreaks.

WEDNESDAY, JULY 25 UGANDA TO TANZANIA

8- 3:30 PM **SITE VISITS IN ENTEBBE**

5:20 PM Depart from EBB to Julius Nyerere International (DAR) Dar es Salaam Tanzania Flight# KQ415

Cc: Knotts, Ashley (CDC/OD/OCS) <vqf0@cdc.gov>; Green, Hugh (CDC/OD/OCS) <yke8@cdc.gov>
Subject: R3 July Travel - Important Updates

You may want to clarify dates:

19-22 July Amsterdam

23-25 July Kampala Uganda site visits

July 26 travel to Dar Es Salaam

26-28 July Dar Es Salaam Tanzania site visits

July 28-~~or~~29 travel to Maputo

28-31 July Maputo Mozambique site visits

July 31 return Atlanta

FYI: I found out from Hank that PEPFAR meetings in Amsterdam are not like PEPFAR Ps and are more like a conference. Some sessions will be in a large ballroom and some sessions will be held in breakouts. Given that I may propose that he arrive in Uganda on Sunday, July 22. Thoughts?

Subject: R3 July Travel
Importance: High

Team, R3 and Ashley will be traveling to Amsterdam 19-22 July for PEPFAR meeting, and then OA & CGH are coordinating a follow-on trip to Uganda, Tanzania, and possibly Mozambique, thru 31 July.

Can you please let us know if you have any concerns about security or communications in those countries and their capital cities. Dates are expected to be:

19-22 July Amsterdam

July 26 travel to Dar Es Salaam

July 28 or 29 travel to Maputo

July 31 return Atlanta

Larry, can you also work with Teresa to schedule the FSTB's for these locations so that it can be delivered to R3 and Ashley before travel?

Kevin, let us know if there are any hardware or phone changes necessary for this trip.

Delaney/Kate/Molly, we do not have any expected formal presentations for him to deliver, but we expect he'll do a mini All Hands with each country team. Likewise we have no insights if media is being pitched or planned, but I suspect you're already in discussions with CGH about that.

Please let me know if I can answer any questions or concerns. Many thanks!

Scott

Stunning restaurants, inspired menus and fabulous locations

When it comes to cuisine, ambience and style, **the Kampala Serena Hotel** seems set to be the only place to meet. Choose from our stunning gourmet restaurant, **The Pearl of Africa, The Explorers Italian Bistro, The Lakes**, all day international restaurants and the **All-day Pool Terrace**.

The ultimate in hotel accommodation

Spacious, sumptuous and elegantly styled, our room choices have it all: direct dial digital telephone, 24-hour internet 'hot spot' connectivity, digital multi-channel TV and 24-hour room service. You and your guests can also enjoy the exclusivity of the **Bambara Resident's Lounge**, which offers 24-hour cafe services, daily papers and its own private outdoor terrace.

A world-class health spa

Built in the style of a Moroccan palace, with unimaginably luxurious facilities, the **Maisha Health Spa** offers the ultimate escape: choose from; pool, gymnasium, workout studio, massage, sauna, steam and energizing health and beauty regimes.

Glorious gardens, waterfalls and pool area

Professionally landscaped, the 17-acre grounds offer an oasis of calm in the heart of the city. They feature extensive water gardens, lily ponds, an island bird sanctuary and a 7-metre wide waterfall, which plunges from the lush green of the palm gardens, to the sparkling blue of the pool.

One of the most progressive business centres in the region

This is a Business Centre that really deserves the title, offering: Instant global connectivity, private workstations, state-of-the-art reprographics, audiovisual and presentation equipment, professional secretarial and translation services, and global courier services. We also offer two private boardrooms and a range of private office suites.

A showpiece conference centre of international standing

Immediately adjacent to the hotel, the imposing Kampala Serena Conference Centre is poised to become Africa's premier conference venue.

Hotel Reservation Confirmation

Dear Booker,

Thank you very much for your interest in the Kempinski Hotel Fleuve Congo. We are looking forward to welcome Mr. Robert Redfield and confirm your booking as follows:

Confirmation Number 174753

Booking Details

Arrival Date: 14 August 2018

Accommodation Type:

1 Urban Deluxe Room

Departure Date: 17 August 2018

Room Rate:

USD 250.00 per room per night

Nights: 3

Number of Guests: 1 Adult

Method of Guarantee: Not guaranteed

Embassy of USA Negotiated Rate - The rate includes buffet breakfast in Corleone Dining Room for all guests booked per room. The rate includes complimentary WiFi, in-room tea and coffee making facilities, access to the Health Club. Exempted from 16% VAT, 5% Service Charge, 4% Tourism Tax Included

Your reservation is valid until 4 pm on your date of arrival. After 6 pm your reservation will be released without further notice. In order to guarantee your reservation for late arrival, we kindly ask to submit your Credit Card details.

Cancellations must be made 24 hours prior to arrival to avoid the 100% charge for the first night stay. In case of non-arrival a 100% room charge for the first overnight will apply.

Any early departure will be subject to a penalty fee equivalent to 100% of the rate applied as per terms and conditions, per room.

To facilitate the check-in procedure may we ask you to advise us of the address and arrival time. Kindly note that our usual check-in time is 3:00 PM, check-out time is 12:00 noon.

Valuables

Please keep your valuables in the safe provided for you in each room, the hotel shall bare no responsibility for personal belongings and or valuables loss or damage.

Pick-up / Drop-off

Transfer to/from N'djili International Airport can be arranged at USD 80 per person per way. (maximum 4 persons and 3-5 big cases for luggage)

Hi Tracie,

Below are a number of dates that work for a CDC SBC HIV follow up briefing with the Dep Sec and the ASH. Can you let me know what works best for Dr Redfield?

August 13th
4 -5 PM
5 – 6 PM

August 14th
10 – 11 AM
11 AM – Noon

August 15th
1 – 2 PM
2 – 3 PM

3 – 4 PM

Sent: Monday, July 23, 2018 4:51 PM
To: Campbell, Amanda (CDC/OD/OCS) <ons3@cdc.gov>
Subject: Fwd: Briefing with Dep. Sec.

Giving you all first dibs on this as you'll be coming up from Atlanta. We're trying to avoid August 16 — the ASH will be flying across the country that day. But we can do the morning if we need too.

Just let us know some options and we'll cross check them.

Feel free to loop in his scheduler.

Sure thing.

August 13th

4 – 5 PM

5 – 6 PM

August 14th

10 – 11 AM

11 AM – Noon

August 15th

1 – 2 PM

2 – 3 PM

3 – 4 PM

August 16th

9 – 10 AM

11 AM – Noon

1 – 2 PM

4:30 – 5:30 PM

Ken Callahan

Subject: Briefing with Dep. Sec.

Ken,

ADM Giroir has asked that we check on the Deputy Secretary's availability for a one hour briefing between August 13-16. It is a follow up on the CDC SBC HIV item.

There will be principals OASH, CDC, NIH, IHS, and HRSA in attendance, as well as a few staff.

If you could send us some possible slots, that would be great. We'll work to get everyone lined up.

Please reach out with any questions.

Thanks!

Steven

Subject: RE: Updated UNGA Concept Note

Thanks Serena. We'll add it to his calendar for the week of 24 Sept, no DL needed. By July, if we can get a proposal for his overall dates to be there, we can discuss those with him to get commitments, pending the OGA delegation details & plans, bilats, and side events (like was done with WHA).

Subject: RE: Updated UNGA Concept Note

Good afternoon,

As Rebecca Miller notes, both CGH (plus NCEZID and NCHHSTP) and NCEZID are working on concept notes for side events timed around UNGA this fall. I'm resending the CGH concept note for an event timed around the UNGA High-Level Meeting on TB in case not everyone received it the first time.

It would be great to get overall attendance at UNGA the week of September 24 on the DL for Dr. Redfield sooner rather than later as I know both side-events envision a role for him. I believe it was on the forecast we just sent up last week – let me know if CGH needs to submit a more formal DL request for UNGA.

The actual planning around UNGA will pick up in July and will involve coordination with OGA on the delegation, bilats and side-events. CGH again will work closely with CDC OD and other CIOs as we've done in the past on UNGA. However, since that effort won't ramp up for another 4-6 weeks and since both concept notes are ready for review now I agree with Rebecca Miller that it would be helpful to pass along both to the OD team that needs to see them to help inform the DL request.

Happy to speak by phone if easier.

Subject: RE: Updated UNGA Concept Note

Thanks Sara. We do not have R3 programmed for UNGA yet, but I'm sure he'll be attending some or all of it. Regarding below, I'll defer to Ashley and/or Serena, but typically CGH has led the UNGA prep and coordination with OGA and our other centers, as they did with WHA. Ashley may know more and I'm including Serena if she'd like to offer any comments as well, but I've not seen nor heard anything about this event in Sept yet. After WHA, we'll be focused on PEPFAR in July and then UNGA. At least that's how OGA has done it for the past several years...

Scott

Cc: McClure, Susan (CDC/OID/NCEZID) <zur1@cdc.gov>
Subject: FW: Updated UNGA Concept Note

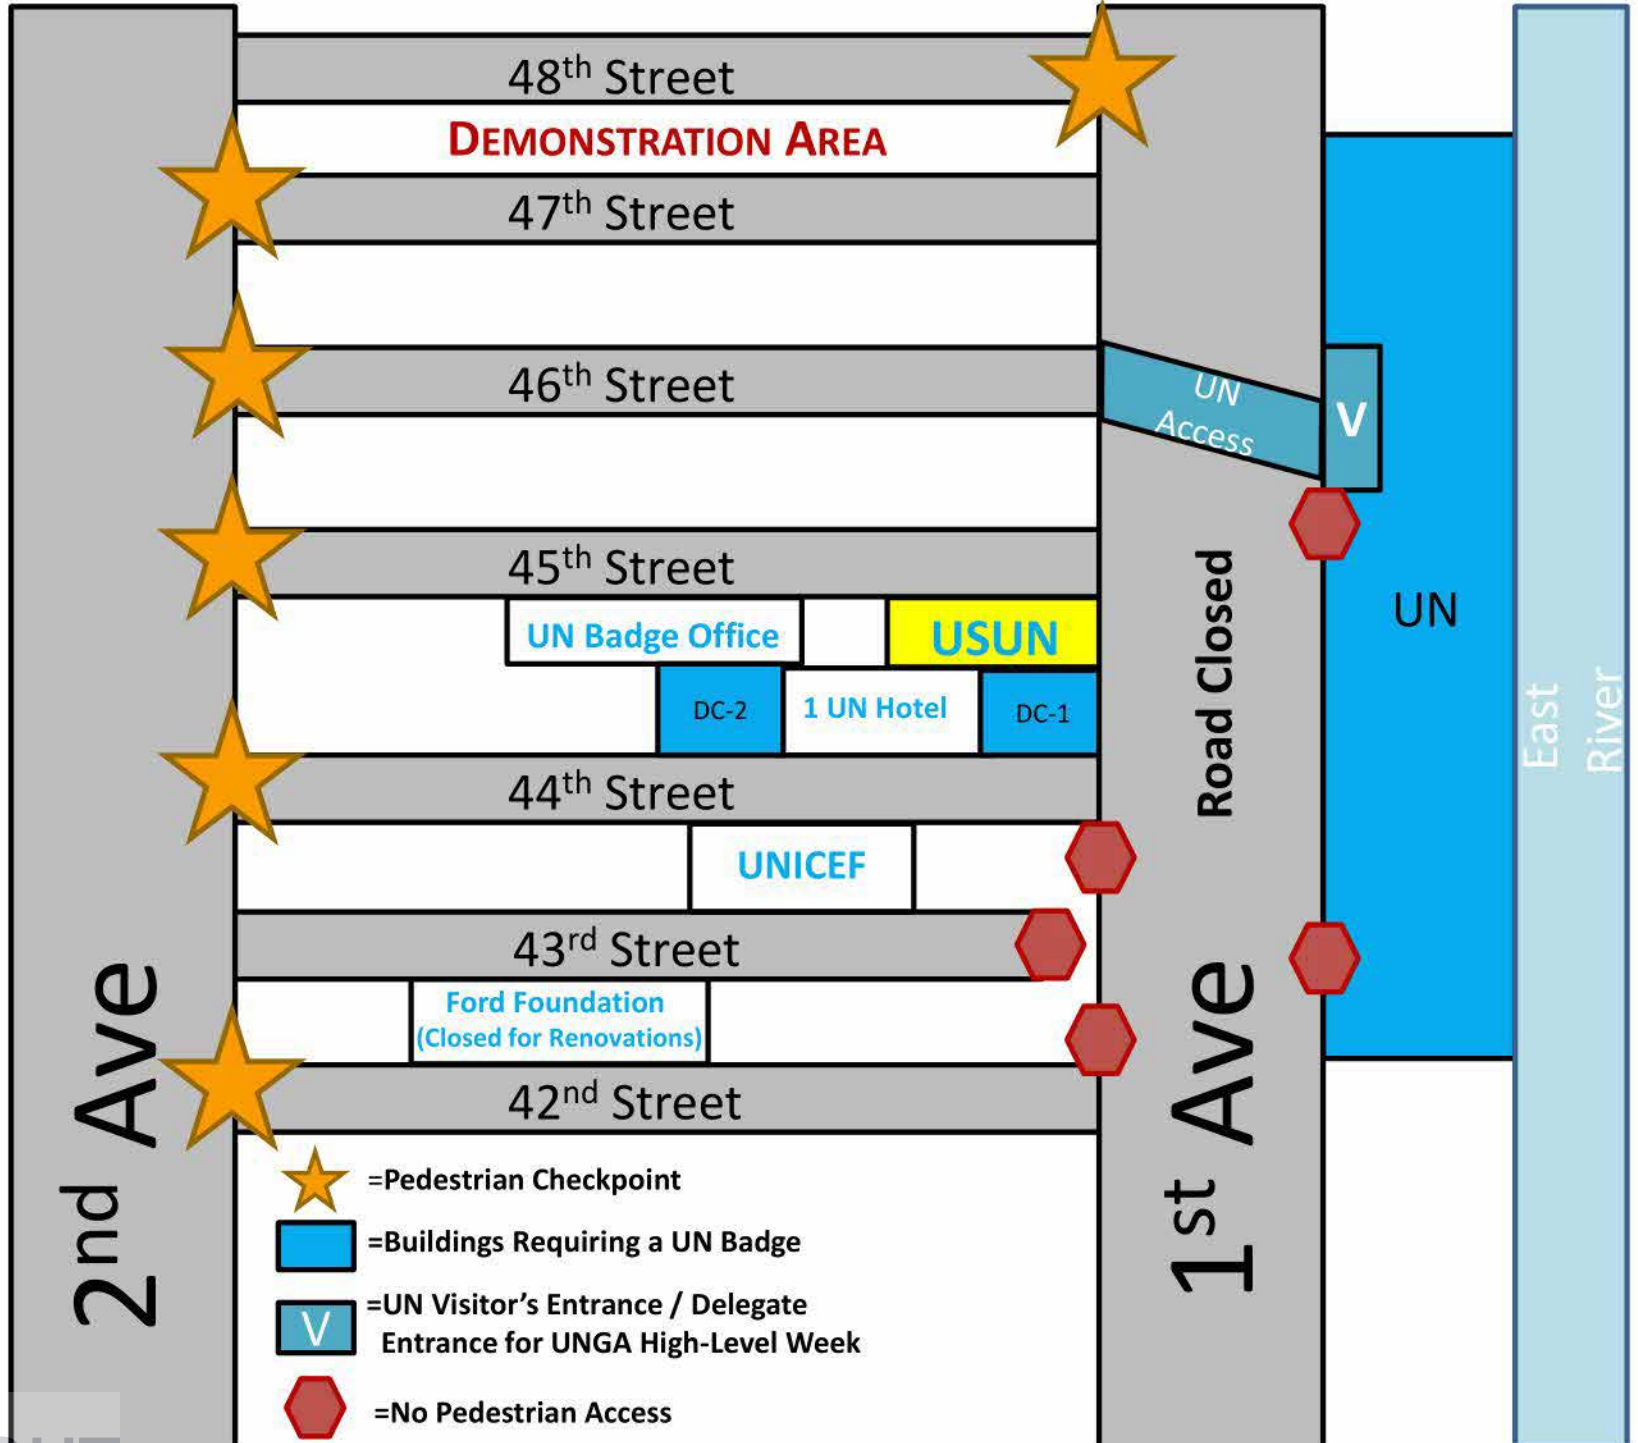

Hi Sara, as mentioned in the (non-working) elevator this morning, wanted to flag this for OD for awareness. There is a lot of work ramping up towards the UN General Assembly meeting in September. There are major topics and side events at the UNGA. CGH has in the driver's seat for TB events and we have been very looped in on those discussions and documents going forward. There is also a side event on Antimicrobial Resistance. AMR was a major topic of UNGA two years and this is a follow-up topic/discussion. NCEZID has been working closely with HHS/OGA and CGH on this side event. The attached concept note has been in the works for a while and describes what the event will consist of, stakeholders, audience, etc. CGH has reviewed and cleared. Michael Craig, our main POC, has been discussing drafts of this with Larry Kerry in OGA but Michael and Larry would like to start sharing this more widely.

Please let me know if anyone has any questions. Again, we just wanted everyone to be aware that this event planning is continuing.

Thanks, Rebecca

Disclosure

Modify and Cancel Information

To view, change or cancel your reservation, please visit [westin.com](#). Any modification to a reservation is subject to the hotel's availability at the time the modification is requested and may change the rate and/or require payment of cancellation fees. If you require further assistance, please contact Westin Hotels & Resorts at 800-937-8461 if you are calling from the United States or Canada. Otherwise, [click here](#) for the telephone number of the Worldwide Reservation Office nearest you. Please note that reservations cannot be changed or canceled via email.

Guarantee Rules

For reservations guaranteed with a form of payment at time of booking, rooms are held until hotel check-out time the day following arrival. For reservations not guaranteed with a form of payment at time of booking, rooms are held until set cancellation time per the rules of the reservation. In the event more guests arrive than can be accommodated due to hotel overbooking or an unforeseen circumstance, and hotel is unable to hold rooms consistent with this room hold policy, hotel will attempt to accommodate guests, at its expense, at a comparable hotel in the area for the oversold night(s), and will pay for transportation to that hotel.

Package Handling Policy

There is a package-handling fee for all inbound and outbound packages. All packages are handled by the on-site UPS store. Guest's name must be on each package. Packages received without the guest's name will be returned to sender.

Smoking Policy

In keeping with our Breathe Westin® initiative, all guest rooms and public spaces are 100% non-smoking. A 250 USD cleaning fee will be charged to any guest who violates the smoking policy.

Exchange Rate

For non-US hotels, rates confirmed in USD may be converted to local currency by the hotel at your time of stay, based on the exchange rate used by the hotel and are subject to exchange rate fluctuations. Credit card charges are subject to additional currency conversions by banks or credit card companies, which are not within the hotel's control and may impact the amount charged to your credit card. Please contact the hotel if you have any questions.

Rate/Reservation Validity

Please note that electronic reservation confirmations are provided to you solely for your convenience and that we retain official records of our reservation transactions, including details of dates of stay and room rates. In the event of discrepancies, alterations, modifications, or variations between this confirmation and our official records, our official records shall control. Tampering with this confirmation to alter the room rate, or any other reservation information is strictly prohibited and may have legal consequences.

Early Departure

Many Starwood hotels have an early departure fee. When you check-in, you will be asked to confirm your

departure date. You may be able to change your departure date without a penalty if your rate plan permits and if you do so before the end of your arrival day. After reconfirming your departure date, if you decide to leave earlier, you may be charged the early departure fee. Please contact the hotel if you have any questions.

EMV/Chip & PIN Credit Card Policy

Please be aware this hotel is EMV/Chip & PIN ready and your credit card's PIN may be necessary for you to check-in to the hotel. If you are not aware of the PIN for your chip credit card, or you are unsure if your card requires a PIN, please contact the financial institution that issued your credit card for clarity and to secure your PIN.

Subject: Video Taping Request from Norris Dickard

I received a call from Norris Dickard to request if Dr. Redfield would be available to stop by the White House at their Studio to do a joint taping for the White House Office of Drug Control. Dr. Redfield would be available this Friday between 10-12 to stop by during that time to do this taping. Wanted to know if this is cleared with OADC and okay to schedule.

For now they are just asking for a hold on the calendar. It was mentioned that a script would be provided and it would only be a 30 sec. part of the entire video. Welcome to any input or advice.

Respectfully,

Tracie Strength

Executive Assistant to the Director, Dr Robert Redfield

Tracie:

Thanks! In response:

1. Studio is on 4th floor of EEOB (building next to White House as you know).
 - a. If you need exact room #, Alex, cc'd can provide.
2. Studio is reserved from 11 a.m. – noon, so I think it is smart to keep 10 – 11 a.m. reserved for travel, security clearance.
3. Vanessa, cc'd will send you Waves information for CDC Director, and staff coming with him.

Norris E. Dickard
Office of National Drug Control Policy
Executive Office of the President

CDC Media Contact (if applicable): N/A

2. Event Information:

Event Host: DTRA

Purpose of Event: Visit DTRA at their HQs and meet with Mr. Vayl Oxford (Dir., DTRA). This is a follow-up from WHA. DTRA is one of CDC's closest partners within the DoD, with close relationships in the field and at headquarters. While the day-to-day partnership is managed through CGH and the Division of Global Health Protection (DGHP), establishing and maintaining a close partnership at the Directors' level is critical to ensuring this partnership moves forward.

DTRA enables the DoD and the US Government to prepare for and combat weapons of mass destruction and improvised threats and to ensure nuclear deterrence. DTRA is a Combat Support Agency and a Defense Agency with a three-pronged mission: 1.) to counter the threats posed by the full spectrum of weapons of mass destruction (WMD), including chemical, biological, radiological, nuclear, and high-yield explosives; 2.) counter the threats posed by the growing, evolving categories of improvised threats, including improvised explosive devices, car bombs and weaponized consumer drones, as well as the tactics, technologies and networks that put them on the battlefield; 3.) ensure the U.S. military maintains a safe, secure, effective and credible nuclear weapons deterrent.

Agenda (if applicable): TBD

Number of Attendees and Composition: N/A

Key Participants (if applicable): TBD

Subject: FW: For OD DL: CDC-DTRA directors" meeting
Date: Friday, June 1, 2018 11:34:00 AM

Greetings Jeremy,

Can we run this on the DL? Thanks!

From: Bartenfeld, Michael (CDC/CGH/OD)
Sent: Friday, June 1, 2018 9:32 AM
To: Moore, Melissa (CDC/CGH/OD) <apo3@cdc.gov>
Cc: McAdam, David M CIV DTRA J2-5-8R (US) <david.m.mcadam.civ@mail.mil>
Subject: For OD DL: CDC-DTRA directors' meeting

Hi Melissa,

See below for an OD DL request. This was a follow-up from WHA. Do you know how long he's typically been taking on these requests?

Who: Mr. Vayl Oxford, Director, Defense Threat Reduction Agency (DTRA)

When: September 2018

Where: DTRA HQ, Ft. Belvoir, VA

Why: DTRA is one of CDC's closest partners within the Department of Defense, with close relationships in the field and at headquarters. While the day-to-day partnership is managed through CGH and the Division of Global Health Protection, establishing and maintaining a close partnership at the directors' level is critical to ensure this partnership moves forward.

CGH Recommendation: Dr. Martin recommends that Dr. Redfield should take this meeting. Alternatively, this could be an invitation to Atlanta, but CGH recommends this first meeting to occur at DTRA during a DC trip.

Let me know if any additional information is needed.

Thanks,
Michael

Sorry, looks like they want a 10 am call. They could do 11 am our time but its not idea for Beni because Beni is one hour later than Kinshasa.

Greetings OD team,

Minister Ilunga, the Minister of Public Health for DRC would like to have a video conference with Dr. Redfield on Thursday at 11 am EDT/4 pm GMT+1. Is Dr. Redfield available and interested in taking this video conference? We are reaching out to obtain objectives for the call now. It sounds like Dr. Redfield requested this when he visited in August.

Thanks!

Hello Teresa, no problem, please let me know if Dr. Redfield has availability that week or the following. Dr. Koplan is available for a lunch meeting (12-1:30 pm) on August 9, 16,17,31.

Also, if those dates do not work, maybe we can look into a regular meeting instead of lunchtime.

Thank you,

Good morning Ayanna,

I hope you are doing well.

Unfortunately Dr. Redfield will be on travel Wednesday, August 15th.

Would it be possible to reschedule the lunch meeting to Friday, August 17th from 11:30 a.m. – 12:30 p.m. at CDC?

Thank you for your consideration.

Best,

Teresa Williams

Hi, Teresa – [REDACTED] (b)(6) I wanted to let you know that our staff can do the 9/21 1:00-2:00 time if that's still available.

If it does, just let me know (and I imagine you will also send out a new invite to the same group from the 9/10 meeting).

Thanks!

Brooke

Hi Brooke,

Unfortunately Dr. Redfield is no longer available on September 10th, he will be traveling.

The earliest dates available to reschedule are:

9/18 3:30-4:30 p.m.
9/21 1:00-2:00 p.m.

Please advise.

Thanks,
Teresa

Hi, Teresa – ok, we can now confirm Sept 4 and Sept 10. I have copied (again) the info for the meetings with topics and attendees that we originally sent below. Just let us know which hour on Sept 4 will work best (b/w 1-3). Thanks for your help!

1) Influenza Virus Characterization and CVVs Sept 4 - (1pm-3pm)

- Attendees: Nancy Messonnier, Kristin Pope, Brooke Barry, Dan Jernigan, Dave Wentworth, James Stevens, Emily Eisenberg
- One Hour

=====

2) Imprinting and Cohort Effects Sept. 10 – 1pm-2pm

- Attendees: Nancy Messonnier, Kristin Pope, Brooke Barry, Min Levine, Alicia Fry, Lynnette Brammer, Jackie Katz, Dan Jernigan, Emily Eisenberg
- One Hour

Good morning, Teresa – I just wanted to check in and let you know that I am still waiting to hear back from our flu folks about whether Sept. 4th will work. Once I know that, I can also hopefully confirm the 10th.

Hope you had a nice weekend!

Thanks,
Brooke

Hi, Teresa – one more thing before I forget...I should have included Michael Iademarco from OID as a regular attendee for these briefings as well. If you can add him to August 6 meeting as well as the meetings we schedule in September, that would be great.

I will be back to you (I hope) today with decisions on the other dates in September.

Thanks,
Brooke

Subject: FW: Flu Briefings for Dr. Redfield

Importance: High

Hi, Seth and Hugh – We wanted to go ahead and schedule our next flu-related briefing with Dr. Redfield. The specific topic for this briefing will be Domestic Surveillance Systems and Burden Averted Modeling Methods. If it's possible to find an hour on Dr. Redfield's schedule during the below dates/times, that would be great.

August 6 – anytime b/w 10:30-1:30

August 7 – anytime except 1-3

For our last briefing, I worked through Ashley but also with Teresa on scheduling. Given that Ashley is out, I am sending this request to you both.

Let me know if you have any questions.

Thanks!

Brooke

Subject: Flu Briefings for Dr. Redfield
Importance: High

Hi, Ashley – Per our conversation yesterday, we would like to propose scheduling regular bi-weekly (i.e. every other week) meetings with Dr. Redfield on Flu. We really appreciate that Dr. Redfield has a lot of interest in this issue and we hope that by having briefings with him, our Flu SMEs can keep him informed and answer any ongoing questions that come up.

We would suggest that the first meeting be scheduled the week of July 16, preferably later in the week, if possible. It would be great if we could get a few options of dates/times so I can ensure that people are not traveling, etc. And finally we are thinking that 2 hours would be good so that we can cover a couple of topics and have time for questions.

Once we get this first meeting scheduled, we can determine how to move forward with scheduling additional meetings.

Let me know if you have any questions.

Thanks,
Brooke

Subject: Scheduling Request: Hepatitis C Prevalence Estimate

Tracie and Teresa:

Kyle McGowan requested we (NCHHSTP and Division of Viral Hepatitis leaders) brief Dr. Redfield on an upcoming paper describing a new estimate on Americans living with hepatitis C. His request is attached. It was requested we have this briefing within the first two weeks of August and we are eying August 10. NCHHSTP would also like to include a tour of our HIV and/or other laboratory(ies).

Can you please assist with scheduling this briefing? Listed here are those we anticipate attending:

CDC OD:

Robert Redfield

Kyle McGowan

Special Assistant

NCHHSTP OD:

Jonathan Mermin
Sara Zeigler

Division of Viral Hepatitis

Paul Weidle
Blythe Ryerson
Meghan Hofmeister

I can take care of prioritizing this meeting among NCHHSTP colleagues if either of you can provide me with a few times that could work for Dr. Redfield and Kyle. I am thinking 60 to 75 minutes will suffice for both the briefing and laboratory tour w/ time to walk in between. I welcome other ideas!

Thanks,
-Michael

Just the prevalence briefing at this time. I defer to you on whether to keep it at 45 minutes or an hour – both will suffice. If you could send me the outlook invitation, I will see the appropriate folks get it. Would that work?

I will follow-up shortly re: lab tours. I think we may push those to October.

Subject: RE: Scheduling Request: Hepatitis C Prevalence Estimate

Michael,

Can you tell me how much time you would need for the tour? Is 30 mins okay for the briefing itself?

Respectfully,

Tracie Strength

Executive Assistant to the Director, Dr Robert Redfield
Office of the Director

Centers for Disease Control and Prevention (CDC)

1600 Clifton Road, NE, MS D-14, Atlanta GA 30333

Subject: Scheduling Request: Hepatitis C Prevalence Estimate

Tracie and Teresa:

Kyle McGowan requested we (NCHHSTP and Division of Viral Hepatitis leaders) brief Dr. Redfield on an upcoming paper describing a new estimate on Americans living with hepatitis C. His request is attached. It was requested we have this briefing within the first two weeks of August and we are eying August 10. NCHHSTP would also like to include a tour of our HIV and/or other laboratory(ies).

Can you please assist with scheduling this briefing? Listed here are those we anticipate attending:

CDC OD:

Robert Redfield
Kyle McGowan
Special Assistant

NCHHSTP OD:

Jonathan Mermin
Sara Zeigler

Division of Viral Hepatitis

Paul Weidle
Blythe Ryerson
Meghan Hofmeister

I can take care of prioritizing this meeting among NCHHSTP colleagues if either of you can provide me with a few times that could work for Dr. Redfield and Kyle. I am thinking 60 to 75 minutes will suffice for both the briefing and laboratory tour w/ time to walk in between. I welcome other ideas!

Thanks,
-Michael

Hi Scott,

I will reach out to schedule for next week.

It didn't mention whether the interview is requested in-person or by phone.

Since we are looking at scheduling next week and Dr. Redfield is not scheduled to be in DC, I will request the interview by phone.

Agree?

Thanks,
Teresa

Sir/ Ma'am,

Heads up and question. The contractor supporting the Corps Assessment Project (Booz Allen Hamilton) will be reaching out via email to CDC leadership, Dr. Redfield, to schedule a 1:1 interview on the Corps. When BAH reaches out to Dr. Redfield, ideally a cc would go to their executive assistant or scheduler to assure maximum visibility. Please let me know the appropriate individuals that BAH should copy. And, please let me know if you have any questions.

Thank you

V/r

Subject: USPHS Modernization Assessment Interview Scheduling

Good Afternoon Director Robert Redfield,

The Office of the Assistant Secretary for Health (OASH), in collaboration with the Office of the Surgeon General, recently initiated a self-assessment of the Public Health Service Commissioned Corps. We are conducting a series of interviews focused on assessing the overall force numbers, structure, training, and organization of the Commissioned Corps based on current and projected future missions.

I would like to introduce myself as the Logistical Lead for data collection from the Booz Allen team working in support of OASH and OSG. I look forward to speaking with you as part of the evaluation.

By virtue of your position, you have been selected to participate in a 1-hour interview, ideally in person, which we hope to conduct at a time suitable to your schedule between Monday, 7/30 and Friday, 8/3. As a leadership figure who is instrumental in the operations of your Agency, your input into the utilization of the Commissioned Corps within your Agency is vital to the assessment of the USPHS Modernization.

We understand that this request is being sent under such short notice and your busy schedule may not allow for the allotted time period. If there are scheduling difficulties, please contact me as soon as you can so that we may find a convenient accommodation to receive your input. We would like to have all interviews scheduled by the end of day Thursday, 7/26.

Please do not hesitate to contact me if you have any questions.
Your participation is critical to the assessment and truly appreciated.

Thank you,

Ahmed Islam, *CHES*

Evaluating a Modernized USPHS Commissioned Corps

Interview Protocol: HHS Operating Division and Non-HHS Agency Leadership

My name is _____ and this is my colleague, _____; we are with Booz Allen. As you may be aware, the Office of the Assistant Secretary for Health (ASH), in collaboration with the Office of the Surgeon General, recently initiated a self-assessment of the Public Health Service Commissioned Corps. The ASH has retained Booz Allen to assist with this data driven self-assessment. We are conducting a series of interviews and focus groups focused on assessing the overall force numbers, structure, training, and organization of the Commissioned Corps based on current and projected future missions.

My colleague will be taking notes throughout the session, but please understand that your responses will be kept confidential. This discussion will only be reported in the aggregate and no comments will be attributed to any individual. We want you to be candid and honest with your responses.

This interview will last about 60 minutes. Do you have any questions before we begin?

Good morning Mr. Islam,

Do you have the call-in information available?

Would it be possible to schedule the call from 4:30-5:30 p.m.? If not, we will keep the call from 4-5 p.m.

Thank you for your consideration.

Best,
Teresa

Good morning Mr. Islam,

I am following up on your request to schedule a one hour interview with Dr. Robert Redfield.

Unfortunately Dr. Redfield is not scheduled to travel to Washington, DC between Monday, 7/30 and Friday, 8/3.

If the interview can be conducted by phone or at our CDC Headquarters in Atlanta, Dr. Redfield is available as follows:

July 31 st	1:00-3:00 p.m.
August 2 nd	3:00-5:00 p.m.

Thank you for your consideration.

Kind Regards.

Teresa Williams

Subject: USPHS Modernization Assessment Interview Scheduling

Good Afternoon Director Robert Redfield,

The Office of the Assistant Secretary for Health (OASH), in collaboration with the Office of the Surgeon General, recently initiated a self-assessment of the Public Health Service Commissioned Corps. We are conducting a series of interviews focused on assessing the overall force numbers, structure, training, and organization of the Commissioned Corps based on current and projected future missions.

I would like to introduce myself as the Logistical Lead for data collection from the Booz Allen team working in support of OASH and OSG. I look forward to speaking with you as part of the evaluation.

By virtue of your position, you have been selected to participate in a 1-hour interview, ideally in person, which we hope to conduct at a time suitable to your schedule between Monday, 7/30 and Friday, 8/3. As a leadership figure who is instrumental in the operations of your Agency, your input into the utilization of the Commissioned Corps within your Agency is vital to the assessment of the USPHS Modernization.

We understand that this request is being sent under such short notice and your busy schedule may not allow for the allotted time period. If there are scheduling difficulties, please contact me as soon as you can so that we may find a convenient accommodation to receive your input. We would like to have all interviews scheduled by the end of day Thursday, 7/26.

Please do not hesitate to contact me if you have any questions.
Your participation is critical to the assessment and truly appreciated.

Thank you,

Ahmed Islam, *CHES*
Senior Consultant

Subject: Interview with Dr. Redfield

Ahmed,

Good afternoon, my name is Tracie Strength and I will be assisting with your visit on August 2nd from 4:30-5:30 with Dr. Redfield. In order to coordinate your visit to our campus I just have a few questions:

1. Are you a US Citizen?
2. Please provide your full name as it is presented on your Government Issued ID?
3. Are you familiar with where our Roybal Campus is located?
4. Who do you plan to arrive to the CDC Campus (POV, Taxi, Public Transit, Walk)?
5. Will there be anyone else joining you?
6. Do you have any reasonable accommodation requirements?

We are truly looking forward to you visit. Once I receive your answers back on the above questions I will be able to move forward with our security approval and provide you more detailed information for your arrival to our campus. Please do not hesitate to reach out to me if you have any questions or concerns.

Respectfully,

Tracie Strength

Dear all,

Despite best efforts, neither August 14 nor Sept. 4 work for a POB call. Since I'm not able to land a date via email I would like to schedule a call on Monday at 6:45am SEA | 9:45am NY & ATL | 3:45pm GVA to find a date that will work for all the POB members.

I'll look forward to speaking to you then.

Best,

Lynn

Avanna,

Good afternoon, I am following up from Dr. Koplan's last visit here to CDC to meet with Dr. Redfield. When their meeting ended they requested to meet up again in about 6 weeks and that Dr. Redfield could come to Dr. Koplan's office this time. In looking at Dr. Redfield's calendar in October here are the best days for Dr. Redfield:

- Oct. 18th 12:00-1:00
- Oct. 31st 12:30-1:30

If I need to look at dates in November, please let me know.

Hi Tracie,

Does Dr. Redfield have any 1 ½ hour time slots available on Friday to have a follow up call with the ASH in preparation of the meeting with the Dep Sec the following Monday?

Thank you,
Amanda

Subject: AMA reoccurring meeting with CDC Director, Dr. Robert Redfield

Good afternoon Beth,
I hope you are doing well.

Would it be possible to reschedule Dr. Redfield's meeting with AMA scheduled September 10th at 10:00 a.m. to September 12th from 9:00-9:30 a.m.?

If this time is not acceptable, could you offer a time on September 12th?

Also, could we schedule a meeting on October 2nd from 1:00-1:30 p.m.? If this time does not work, could we schedule a time any time after 12:30 p.m.?

Thank you for your consideration.

Best,
Teresa

Subject: RE: UNGA AMR Side meeting discussion

Hi Susan,

I think that would be a good idea to have a 30min AMR pre-brief the week before UNGA. Looping in other member of our team for action and awareness.

All, Dr. Redfield currently has a hold on 9/25 for this event. The Secretary is scheduled to speak, so there isn't an active speaking role for R3. That being said, Susan is going to check on the attendees as there may be advocates or other people to connect with at the event itself.

If we could put a hold on the 17th or 18th that would be great.

Thanks,

Hugh

Subject: FW: Flu Briefings for Dr. Redfield
Importance: High

Hi, Seth and Hugh – We wanted to go ahead and schedule our next flu-related briefing with Dr. Redfield. The specific topic for this briefing will be Domestic Surveillance Systems and Burden Averted Modeling Methods. If it's possible to find an hour on Dr. Redfield's schedule during the below dates/times, that would be great.

August 6 – anytime b/w 10:30-1:30

August 7 – anytime except 1-3

For our last briefing, I worked through Ashley but also with Teresa on scheduling. Given that Ashley is out, I am sending this request to you both.

Let me know if you have any questions.

Thanks!

Brooke

Subject: Flu Briefings for Dr. Redfield
Importance: High

Hi, Ashley – Per our conversation yesterday, we would like to propose scheduling regular bi-weekly (i.e. every other week) meetings with Dr. Redfield on Flu. We really appreciate that Dr. Redfield has a lot of interest in this issue and we hope that by having briefings with him, our Flu SMEs can keep him informed and answer any ongoing questions that come up.

We would suggest that the first meeting be scheduled the week of July 16, preferably later in the week, if possible. It would be great if we could get a few options of dates/times so I can ensure that people are not traveling, etc. And finally we are thinking that 2 hours would be good so that we can cover a couple of topics and have time for questions.

Once we get this first meeting scheduled, we can determine how to move forward with scheduling additional meetings.

Let me know if you have any questions.

Thanks,
Brooke

Hi Tracie,

Can we schedule a meeting with Dr. Redfield on August 2nd at 7:30am with 3 public health representatives who will be here in town for the OSTLTS meeting?

Attendees would include myself, John Brooks, Ashley Knotts, Eugene McCray and Rebecca Huggins. I know it's a bit early, but this meeting is a priority for him.

Thanks,
Amanda

Subject: Meeting next week with PH leaders

Amanda,

We have connected with our OSTLTS colleagues and gathered more information on the schedule for the 3 visitors next week. They are in town for a sub-committee advisory meeting. Their schedules are pretty packed and they can't step out of the formal meeting because the quorum would be lost for the proceedings.

However, there are 2 times suggested that they could meet.

Our first choice is 7:30 am on August 2nd. Eugene McCray and John Brooks could both attend which we would recommend.

The second option is 3:30 pm on August 2nd. Only John Brooks could attend. However, we still need to verify that our visitors will not be on the way to the airport as the meeting will have ended and their itinerary still needs to be checked.

Can you please let us know if it is possible for the 7:30 am meeting time on 8/02 to work for Dr. Redfield?

Becca and Aliyah, cc'd above, are my colleagues who can help make sure the plans come together. We would also like to have Becca join the group as my delegate please.

Please let me know if you have any questions.

Thanks,
Sara

2. **Event Information:**

Event Host: N/A

Purpose of Event: Meet with or talk by phone with José M. Zuniga, the Pres. & CEO of IAPAC to discuss how to collaborate with CDC and other federal partners in relation to the federal strategy to end the HIV epidemic in the US that is currently in development. Dr. Zuniga believes that an urban AIDS partnership would represent a high-yield strategic

investment by the Trump Administration with measurable outcomes in curbing new HIV infections, ending AIDS-related deaths, and averting millions of dollars in healthcare costs.

IAPAC is a 33-year-old association of more than 30,000 clinical and lay providers worldwide (including 5,000-plus in the US) whose mission is to expand access to and improve the quality of prevention, testing, care, and treatment services delivered to people living with and affected by HIV. Additionally, IAPAC is the core technical partner of an initiative that is supporting high HIV burden cities in every region of the world to accelerate their local AIDS responses – Fast-Track Cities.

Over 250 cities have joined the Fast-Track Cities network. Their Mayors (or other elected officials) and communities have committed to attain the Joint UN Programme on HIV/AIDS (UNAIDS) 90-90-90 and zero stigma targets. In the US, 16 cities and the District of Columbia are Fast-Track Cities. IAPAC is recruiting other US cities, mostly in the southern US. IAPAC's work with these cities entails support with data generation/reporting, implementation planning, capacity building for clinical/service providers, community education, stigma elimination, quality of life assessments, and resource mobilization.

While IAPAC is initially focused on the attainment of the 90-90-90 targets, it views these targets as the beginning of a city's journey and not the end. IAPAC is supporting Fast-Track Cities to achieve the more ambitious goal of getting to zero new HIV infections and zero AIDS-related deaths.

Agenda (if applicable): TBD

June 26, 2018

Robert Redfield, MD
Director
Centers for Disease Control & Prevention
1600 Clifton Road
Atlanta, GA 30329

Dear Dr. Redfield,

The International Association of Providers of AIDS Care (IAPAC) is a 33-year-old association of more than 30,000 clinical and lay providers worldwide (including 5,000-plus in the United States). Our mission is to expand access to and improve the quality of prevention, testing, care, and treatment services delivered to people living with and affected by HIV. Additionally, IAPAC is the core technical partner of an initiative that is supporting high HIV burden cities in every region of the world to accelerate their local AIDS responses – [Fast-Track Cities](#).

Over 250 cities have joined the Fast-Track Cities network. Their Mayors (or other elected officials) and communities have committed to attain the Joint United Nations Programme on HIV/AIDS (UNAIDS) 90-90-90 and zero stigma targets. In the United States, 16 cities and the District of Columbia are Fast-Track Cities. We are recruiting other US cities, mostly in the southern United States. Our work with these cities entails support with data generation/reporting, implementation planning, capacity building for clinical/service providers, community education, stigma elimination, quality of life assessments, and resource mobilization.

While we are initially focused on the attainment of the 90-90-90 targets, we view these targets as the beginning of a city's journey and not the end. We are supporting Fast-Track Cities to achieve the more ambitious goal of getting to zero new HIV infections and zero AIDS-related deaths. Additionally, the initiative is expanding its focus in 2018/2019 to include HBV and HCV, as well as non-communicable diseases (e.g., diabetes, hypertension) associated with aging with HIV.

I believe that an urban AIDS partnership would represent a high-yield strategic investment by the Trump Administration with measurable outcomes in curbing new HIV infections, ending AIDS-related deaths, and averting millions of dollars in healthcare costs. IAPAC is also well positioned to collaborate with the Centers for Disease Control and Prevention (CDC) and other federal partners in relation to the federal strategy to end the HIV epidemic in the United States that is currently in development.

I request the opportunity to speak with you by phone or in-person at your earliest convenience. I may be reached at (312) 451-1509 or via email at jzuniga@iapac.org.

Warmest regards,

José M. Zuniga, PhD, MPH
President/CEO

Subject: Request for Call between Dr. José M. Zuniga, Pres. & CEO, IAPAC and Dr. Robert Redfield, Director, CDC

Good afternoon Dr. Zuniga,

I am following up on your request to schedule a conference call with Dr. Redfield to discuss how to collaborate with CDC and other federal partners in relation to the federal strategy to end the HIV epidemic in the US that is currently in development.

Would you be available August 7th from 12:30-1:00 p.m. EDT?

I look forward to hearing from you.

Kind Regards,

Teresa Williams

To: Redfield, Robert R. (CDC/OD); Kroop, Seth (CDC/OD/OCS)
Subject: ***FOR MATERIALS ONLY*** CALL: w/ the International Association of Providers of AIDS Care (IAPAC) Leadership (12:30-1:00 p.m.)
When: Tuesday, August 7, 2018 12:00 AM to Wednesday, August 8, 2018 12:00 AM (UTC-05:00) Eastern Time (US & Canada).
Where: Call Adrian Hernandez to connect the call:

1. Contacts:

Logistics Specialist: N/A

Special Assistant: TBD

Event Contact: José M. Zuniga, PhD, MPH (Pres. & CEO, IAPAC), 312-451-1509, jzuniga@iapac.org

CDC Staffer Accompanying Dr. Redfield: N/A

CDC Program Contact (if applicable): TBD

CDC Media Contact (if applicable): N/A

2. Event Information:

Event Host: N/A

Purpose of Event: Meet with or talk by phone with José M. Zuniga, the Pres. & CEO of IAPAC to discuss how to collaborate with CDC and other federal partners in relation to the federal strategy to end the HIV epidemic in the US that is currently in development. Dr. Zuniga believes that an urban AIDS partnership would represent a high-yield strategic investment by the Trump Administration with measurable outcomes in curbing new HIV infections, ending AIDS-related deaths, and averting millions of dollars in healthcare costs. IAPAC is a 33-year-old association of more than 30,000 clinical and lay providers worldwide (including 5,000-plus in the US) whose mission is to expand access to and improve the quality of prevention, testing, care, and treatment services delivered to people living with and affected by HIV. Additionally, IAPAC is the core technical partner of an initiative that is supporting high HIV burden cities in every region of the world to accelerate their local AIDS responses – Fast-Track Cities.

Over 250 cities have joined the Fast-Track Cities network. Their Mayors (or other elected officials) and communities have committed to attain the Joint UN Programme on HIV/AIDS (UNAIDS) 90-90-90 and zero stigma targets. In the US, 16 cities and the District of Columbia are Fast-Track Cities. IAPAC is recruiting other US cities, mostly in the southern US. IAPAC's work with these cities entails support with data generation/reporting, implementation planning, capacity building for clinical/service providers, community education, stigma elimination, quality of life assessments, and resource mobilization. While IAPAC is initially focused on the attainment of the 90-90-90 targets, it views these targets as the beginning of a city's journey and not the end. IAPAC is supporting Fast-Track Cities to achieve the more ambitious goal of getting to zero new HIV infections and zero AIDS-related deaths.

Agenda (if applicable): TBD

Number of Attendees and Composition: TBD

Key Participants (if applicable): TBD

Bios: TBD

Source Invitation: Yes on the 7/2/18 DL; R3: yes to either a call or meeting, whichever Jose wants (they're friends). Dr. Jono Mermin (NCHHSTP) recommends.

To: Deussing, Eric (CDC/OPHPR/OD);Strength, Tracie (CDC/OD/OCS)
Subject: DoD follow up

Hi Tracie,

Dr. Redfield recently met with DOD during a trip to DC and as a follow up to that meeting, we are looking to arrange a call when he returns from Africa. The call will include folks from AFRICOM, so a morning call would be preferable. Eric will be the lead for this meeting. If you can find a morning in the first couple of weeks of August that work for Dr. Redfield, Eric, and the CDC participants listed below, that would be much appreciated. Then Eric can work to confirm a time with the DOD participants.

The participants will include:

CDC staff:

RADM Redd

Nicki Pesik

Joel Montgomery

DoD staff (To be confirmed):

RADM Chinn (Joint Staff Surgeon)

COL Weber (USAFRICOM Surgeon)

Chris Daniel (Global Health advisor for Mr. McCaffery)

COL Nelson Michael (WRAIR)

Subject: Chronic Meeting to be scheduled

Hi Scott,

In follow up to your query this morning about briefings/meetings for R3 there is one that came up, which you may already be aware of. NCCDPHP needs to meet with R3 to discuss power Morcellators. Ashley has been tracking this one, and I will follow it when she is out of the office. I expect 30min would be sufficient. Otherwise, there were no specific briefing requests that we are aware of at this time.

Ashley, anything to add or should we proceed reaching to Sean for participants and times?

Thanks,

Hugh

Subject: Meeting to Discuss Power Morcellators

Good morning Christina,

I hope you are doing well.

I am following up a request to schedule an in-person 30 minute meeting with Dr. Redfield to discuss power Morcellators.

The following participants are invited to attend:

Dr. Robin Ikeda

Dr. Dana Shelton

Dr. Peter Briss

Sean Cucchi

Please let me know what date and time works best below, and I will send an invite.

August 1st 10-10:30 a.m.

August 2nd 2:30-3:00 p.m.

I look forward to hearing from you.

Best,

Teresa

Hi John,

Dr. Redfield is interested in reestablishing the monthly Polio updates. I'm looping in our team for follow up action.

Teresa, would you start adding 30min monthly Polio DUBs back to the calendar? I would agree with John that we schedule the first one in the second week of September. If not possible we should have one the week before UNGA since we have the in-person POB on Friday 9/28.

Many thanks,

Hugh

Subject: Setting up a regular polio update schedule -- proposing an update every four weeks

Hugh,

As per the discussions in the couple polio updates with the Director, I think it would be very useful to re-establish a regular update to ensure Dr. Redfield is aware of both current polio issues/key needs for

engagement as well as to start provide an opportunity to dive in deeper on some of the critical polio issues that come up in global meetings. As you know, it's a rapidly evolving landscape.

We'd like to propose a response update every 4 weeks. If this is agreeable, and given the two board meetings in September, it would be great to schedule the first in the first half of September.

Please let me know if this works.

Thanks,
John

Cc: Strength, Tracie (CDC/OD/OCS); Scales, Scott L. (CDC/OD/OCS); Knotts, Ashley (CDC/OD/OCS); Patterson, Sara S. (CDC/ONDIEH/NCIPC); Kroop, Seth (CDC/OD/OCS)
Subject: FW: Flu and preparedness briefings for Dr. Redfield

Hi Teresa,

There is currently an internal flu briefing for Dr. Redfield scheduled for May 8th. Can you please make a few adjustments on the calendar invite per Drs. Schuchat and Redd's feedback below:

1. Remove CGH from the invite. The briefing will focus on CDC's internal influenza program and won't need CGH participation
2. Invitees should include Steve Redd, Anne Schuchat, Nancy Messonnier, Dan Jernigan, Kyle McGowan and Sarah Wiley
3. You can put a note in the calendar invite that Nancy can include others that she needs.
4. 45 mins should be enough
5. Ashley is SA
6. You can add Sherri as optional for her awareness

Can you please schedule a separate CDC Preparedness Briefing for Dr. Redfield and Kyle. Can also be 45 mins and sometime after the May 8th flu one.

1. Invitees should include Nancy Messonnier, Dan Jernigan, Steve Redd, Anne Schuchat, Kyle McGowan
2. Seth is SA
3. Can put a note in the body of the invite that says "Briefing on the emergency response process at CDC to include discussion of past responses, including H1N1, and future potential responses."
4. You can add Sherri as optional for her awareness

Subject: RE: Flu and preparedness briefings for Dr. Redfield

Agree w steve on both. Don't need cgh for the influenza one, they will likely want to include lab as well as epi and leadership in that one given nature of cdc roles and dr r's background.

Subject: RE: Flu and preparedness briefings for Dr. Redfield

My 2 cents:

For #1. I'd like to be included as it has relevance for our response and also for #2.
For #2: yes on the leads, but we should also include NCIRD leadership at minimum—Nancy and Dan Jernigan.

Subject: RE: Flu and preparedness briefings for Dr. Redfield

Hi Drs. Schuchat and Redd,

I wanted to follow up on item 6 highlighted below, as discussed at the last OD meeting.

We will plan for two separate briefings for Dr. Redfield:

1. **Flu briefing on May 8th** which should focus on CDC's current flu program. Nancy Messonnier, with whom Dr. Schuchat has a regular meeting tomorrow morning, will be the lead for this briefing. Dr. Schuchat will also participate in this briefing.
 - a. **Dr. Schuchat:** Would you like to provide guidance directly to Nancy about what she should address in this briefing? Are there other participants outside of Nancy's office that should be invited (ie CGH to touch on global aspects)?
2. **Larger preparedness briefing** to be scheduled. Per the conversation last week, it should focus on the larger emergency response process at CDC to include discussion of past responses like H1N1 and future potential responses?
 - a. **Dr. Redd:** I assume you and Dr. Schuchat would be the lead for this briefing?
 - b. **Drs. Redd and Schuchat:** In addition to the 2 of you, who should we invite to this briefing?

Thanks,
Seth

To: Schuchat, Anne MD (CDC/OD) <acs1@cdc.gov>; Berger, Sherri (CDC/OCOO/OD) <sob8@cdc.gov>; Daniel, Katherine Lyon (CDC/OD/OADC) <kdl8@cdc.gov>; Redd, Stephen (CDC/OPHPR/OD) <scr1@cdc.gov>; Wolfe, Mitchell (CDC/OD/CDCWO) <maw6@cdc.gov>; McGowan, Robert (Kyle) (CDC/OD) <omc2@cdc.gov>
Cc: Kroop, Seth (CDC/OD/OCS) <wpw7@cdc.gov>
Subject: Follow-ups from OD Senior Leadership

Here are the follow-ups from the meeting this morning:

1. Sherri will connect with KLD re: Smithsonian influenza event and CDC attendance

2. Dr. Redd will check to see if others have been invited to Clade X exercise, hosted by Tom Inglesby's group.
3. Steve and Mitch will both attend HHS Coop exercise on 4/20.
4. Mitch will check with OGA about materials preparation process for several upcoming Secretarial briefings. Mitch will let Dr. Schuchat and the rest of this group know about the process and suggest CDC's desired role to OGA.
5. Sherri will set up briefing for R3 in near future re: state and local SNS issue in near future.
6. Seth will connect with Drs. Schuchat and Redd re: arranging 2 upcoming briefings for R3: influenza program and large emergency response process at CDC (to include example of H1N1 and other potential response).
7. Next Vital Signs on Vector Borne diseases is Tuesday, May 1st. Seth will get on R3's calendar.

Let me know if you have any questions

Seth

Hi Teresa,

We had hoped to brief Dr. Redfield before the exercise so that we could review with him the exercise rhythm, his role, key players, key decisions/issues that will be exercised and any other issues he had questions about. We are preparing a briefing book for the exercise that we can share in advance if he is not able to be briefed in advance.

If we do the briefing on September 21st, we need to rethink the purpose of the briefing since the exercise will have already occurred.

Subject: RE: CDC Preparedness Briefing

Good afternoon Kristin,

I hope you are doing well.

Dr. Redfield will be out of the office on 8/17.

Would it be possible to reschedule the meeting for 8/24 from 3:15-4 p.m.?

Thanks,
Teresa

Hi Kristin,

I hope you are doing well

I sent an invite for 8/17 @ 1:30-2:15 p.m.

Please let me know if there are any issues with this date and time.

Thanks,

Teresa

Subject: RE: CDC Preparedness Briefing

Hi KP. Teresa is already working to reschedule it for another date. Looping her so that she can share any updates. Sorry that we've had to move it once again. I hope this next time, we can pin it to a date that has another significant event, so it's unlikely to move again.

Hope you're doing well!

Scott

Hi Tracie,

I saw that Dr. Redfield has tentative global travel on this date. I didn't know if we should start looking for a plan B for this briefing in case it does need to be rescheduled.

Hello again, I'm looping in a few more members of our team for action/awareness.

Teresa, would you please add a 30-45min hold to the calendar for and update on "transplant guideline revisions" during the second or third week of October? Dr. Redfield would like to have this update when possible.

Susan, would you please confirm presenter(s) and participants? Please add relevant NCHHSTP colleagues, but let's keep the group small.

Thanks all,

Hugh

Dear Susan and team,

Thank you very much for this update. I know this is a topic of great interest for Dr. Redfield.

We'll check with Dr. Redfield and get back to you regarding an in-person update. Due to his travel schedule it likely won't be for a couple weeks at the soonest.

Best,

Hugh

Subject: FW: VZ follow up briefing?

FYI for scheduling on Friday. OGA is leading a briefing w/ AMA on Measles, diphtheria, Malaria, and Zika, prior to his departure to south America after UNGA. This is a follow-up request from the Venezuelan measles briefings he's received (which included r3 and Mitch)

We will want Dr. Redfield to participate in person, but don't yet have a confirmed time on Friday. Can we hold off adding anything else to the calendar (barring NSC and other high-level events that may pop up), to give our best shot for his being available?

Subject: NIAID Kinyoun Lecture

Bob:

Great conversation today! I am writing about another matter. The Joseph J. Kinyoun Lecture is the most important honorific annual lecture sponsored by NIAID. The Lectureship was created to bring in leaders in the field to talk on subjects related to NIAID, particularly infectious diseases, immunology, and global health. The lecture is given in the Fall and I would like you to be our Fall 2018 Kinyoun Lecturer. We can be flexible with the exact date to accommodate your schedule matched with the availability of our lecture hall. It would be great if you could speak on the opioid epidemic and its association with HIV, HCV and other infectious diseases. However, we leave the choice of topic totally up your own preference. Please let me know if you would be willing to be our 2018 Kinyoun Lecturer and give me the name and contact information of your scheduler so that my staff can work with him/her to nail down a date and arrange logistics. I look forward to hearing from you.

Best regards,

Tony

Good afternoon Geraldine,

I hope you are doing well.

Dr. Redfield would like to meet in-person for CDC – SNS Update meeting.

Would it be possible to reschedule the meeting when Dr. Redfield is in DC next week on July 19th anytime between 9-10 a.m.?

If this time does not work, could you offer some times before 11 a.m.?

Thank you for your consideration.

Best,

Teresa

Subject: FW: Briefing with Dep. Sec.

Hi Tracie,

Below are a number of dates that work for a CDC SBC HIV follow up briefing with the Dep Sec and the ASH. Can you let me know what works best for Dr Redfield?

August 13th

4 - 5 PM

5 - 6 PM

August 14th

10 - 11 AM

11 AM - Noon

August 15th

1 - 2 PM

2 - 3 PM

3 - 4 PM

Sent: Monday, July 23, 2018 4:51 PM
To: Campbell, Amanda (CDC/OD/OCS) <ons3@cdc.gov>
Subject: Fwd: Briefing with Dep. Sec.

Giving you all first dibs on this as you'll be coming up from Atlanta. We're trying to avoid August 16 — the ASH will be flying across the country that day. But we can do the morning if we need too.

Just let us know some options and we'll cross check them.

Feel free to loop in his scheduler.

Ken,

ADM Giroir has asked that we check on the Deputy Secretary's availability for a one hour briefing between August 13-16. It is a follow up on the CDC SBC HIV item.

There will be principals OASH, CDC, NIH, IHS, and HRSA in attendance, as well as a few staff.

If you could send us some possible slots, that would be great. We'll work to get everyone lined up.

Please reach out with any questions.

Thanks!

Steven

Subject: [REDACTED] (b)(5) Third Meeting
Agenda Attached
When: Monday, July 16, 2018 11:00 AM-12:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: HHH, 523-B SCIF (OSSI)--SVTC may be available for those off site with access

Dear HHS Colleagues:

Topic: [REDACTED] (b)(5) Third Meeting

(b)(5)

Lead Staff from the IO: Dr. Robert Kadlec, ASPR; Briana Stephan, Senior Advisor

Has this request been approved by IO staff? If yes, by whom? Yes, by Dr. Kadlec

Dr. Kadlec's Role: Presenter

Request POC (Name, Cell and email): Briana Stephan, (202) 690-8340, briana.stephan@hhs.gov

Proposed Timing: 1 hour; in the OSSI SCIF 523-B, July 16, 2018

Is Conference Call Line needed? A SVTC or call line may be requested for those connecting from external campus areas, although attendance in person is highly preferred

Who will initiate the conference call? OSSI

Will there be Briefing Materials provided? Point of contact for sending classified materials to be displayed on the screens is Dr. Andy Garrett at garretta@hhs.id.ic.gov. For non-classified materials, please email DLGDESK@hhs.gov. Classified materials, including notes, may not be removed from the SCIF without proper courier procedures.

HHS Staff Attendees: Principals +1 from the following: IOS, IEA, ASA, ASFR, ASL, ASPA, OASH, OGA, OGC, ACF, CDC, CMS, FDA, HRSA, NIH, SAMHSA, ASPR

External Attendees: N/A—Internal HHS meeting

Additional Notes: SECRET level briefing—the ASPR Security Manager (Mr. Kevin Todd) will verify clearance level of individuals attending. PLEASE be sure to arrive 10 minutes early so you can sign into the SCIF log and be escorted to the meeting room. If you are bringing a plus one, please notify Briana.stephan@hhs.gov, and Kristin.debord@hhs.gov.

****Also, please note the limited space in the SCIF so please ensure *no more than* the Principal +1 attend from your respective office****

We ask that you **do not forward this meeting request** to other staff, please contact the policy leaders identified above in the additional notes section with any requests to modify the distribution of this invitation.

Attachments:

The agenda is attached this meeting request. **Of note, if the agenda covers a topic area in under your direct purview, please be prepared to provide and update/discuss. No slides necessary.** Meeting materials will be at the SECRET level and presented during the meeting on the screens SCIF.

Thank you.

Hi, Angie,

Sorry for the delay – I wasn't able to nail down the last voice, but heard affirmatives from enough folks up here to move forward with scheduling. Adding Tracie and Teresa to see what we can find on the calendar.

Tracie, Kyle would like to prioritize a meeting with WV folks for r3 while they are here next week, if possible. See availability below. Let me know if you have any other questions.

Thanks,

Ashley

WV Visitors:

Amy Saunders, MA
Director, Center for Excellence for Recovery
Marshall University

* Of note, Amy served on a panel with Dr. Redfield while he was in Huntington, but did not get a chance to further engage with him because he had to leave. Marshall University staff work with Lily's Place and are undertaking many innovative approaches to understand short-term and longer-term outcomes of prenatal opioid exposure to better serve moms, babies, and children.

Marianna Footo-Linz, PhD
Chair, Department of Psychology
Marshall University

Sarah Sanders, PhD, MA
Director of WV Violence and Injury Prevention Program
West Virginia Department of Health and Human Resources
Bureau for Public Health
Office of Maternal, Child and Family Health

Denise Smith, MS, CHES
Director Perinatal Programs
West Virginia Department of Health and Human Resources
Bureau for Public Health
Office of Maternal, Child and Family Health

One or two leaders from the West Virginia Perinatal Partnership organization (<https://wvperinatal.org/>) may be coming as well. We met with their director – Amy Tolliver. They worked on Zika FYI and they are heavily involved in outreach/education to health care providers and communities on key issues for moms and babies, especially on prenatal substance exposed babies (see <https://wvperinatal.org/about-us/our-history/>)

Subject: RE: CDC Preparedness Briefing

Hi Teresa,

We had hoped to brief Dr. Redfield before the exercise so that we could review with him the exercise rhythm, his role, key players, key decisions/issues that will be exercised and any other issues he had questions about. We are preparing a briefing book for the exercise that we can share in advance if he is not able to be briefed in advance.

If we do the briefing on September 21st, we need to rethink the purpose of the briefing since the exercise will have already occurred.

Hi Teresa et al,

Unfortunately we can't make the 24th work on our end with travel schedules and the exercise is the week of September 10th, so neither the 7th or the 10th work on our end. There have been some discussions about Dr. Redfield's role in the exercise, and we want to make sure he's adequately prepped. Are there any other options the last week of August? Otherwise we might not be able to get this on his calendar until after the exercise.

Hi Teresa,

Nancy is not available and our flu leadership will be at the FRMM meeting in DC. I know timing is tight, but are there any other options?

Good afternoon Kristin,

I hope you are doing well.

Dr. Redfield will be out of the office on 8/17.

Would it be possible to reschedule the meeting for 8/24 from 3:15-4 p.m.?

Thanks,

Teresa

Hi Kristin,

I hope you are doing well

I sent an invite for 8/17 @ 1:30-2:15 p.m.

Please let me know if there are any issues with this date and time.

Thanks,

Teresa

Hi KP. Teresa is already working to reschedule it for another date. Looping her so that she can share any updates. Sorry that we've had to move it once again. I hope this next time, we can pin it to a date that has another significant event, so it's unlikely to move again.

Hope you're doing well!

Scott

Good morning –

We will be bringing on a contractor who will be working directly with Dr. Redfield on strategic planning and as his executive coach.

We would like to schedule time on Dr. R's calendar now. These are the dates that work, can you pick a 5-6 days and block 3-4 hours:

- July 10, 11, 18, 24, 25, 26
- August 7, 8, 14, 15, 16

Please let me know what you block!

Thanks

(CDC/OD/OCS)
Cc: McGowan, Robert (Kyle) (CDC/OD/OCS)
Subject: Aug 7/8

All –

There are two invites on R3's calendar – both meetings should include Kyle, me, KLD, Anne & Amanda.

Change both meeting titles to “Visioning Session with the Exec Team”

The two meetings should be as follows:

- Aug 7 930-1130am
- Aug 8 2-4pm

Also add these two for R3 alone:

- Aug 7 lunch and coaching session 12-2pm
- Aug 8 lunch and coaching session 12-2pm

Sound OK?

Thank you

Subject: FW: Presentation on foodborne illness

Kyle and I connected and we'd like a briefing for Dr Redfield on the issue of foodborne outbreaks, and specifically how we work and coordinate with FDA.

There's no urgency to the timing; can work around his schedule.

Suggest Rima Khabbaz and Chris Braden, probably Rob Tauxe and also John OConnor as the ADCS – they may have others to bring for the QA section, just should not be a huge group. Also Michael Iademarco as the Deputy.

+ me for comms and Kyle of course. Thanks!

Cc: Guest, Megan (CDC/OD/OADC) <weo6@cdc.gov>
Subject: Presentation on foodborne illness

Hi Katherine,

Just circling back on our discussion about a possible presentation for OD on CDC's approach for responding to foodborne disease outbreaks, with attention given to how we work with FDA. We can tailor the presentation to any timing and format you think would work best for Dr. Redfield and others. One approach that the team has used is to walk through an example of a recent response and explain the key decision points. They can do this a minimal number of slides / handouts and allow plenty of time for discussion. The presentation opportunity could help answer some of the question about the CDC and FDA roles in foodborne disease outbreak responses.

Thanks,

John

Subject: RE: Foodborne Presentation

Great, Thanks Rebecca!

Regarding schedules I'll defer specific timing to Theresa and Tracie. That being said, he is out of pocket July 18 – August 1 and if this doesn't happen early next week then it won't till August.

I do not think this is urgent and could wait till early August. It should happen no later than the 13th though, since there is an engagement with FDA on the 14th.

Best,

Hugh

Subject: RE: Foodborne Presentation

Hugh, thanks for the below information. I believe that was also our plan in terms of focus, so great that we're all together. I do think our invite list might be slightly higher (a DFWED person with Rob, either Deb or myself) but not too much higher. Susan McClure from my office can help with any prep materials or needed items before the date.

I know we put a hold on the 16th date, but Rob Tauxe is on TDY this week, Chris is also out this week, and Rob is out again from July 13-17. I believe R3 is leaving soon after the 17th for international travel, correct? If so, do you have a sense of when we will be able to schedule this?

Subject: RE: Foodborne Presentation

Good morning all!

I hope you had a nice holiday. I saw some additional traffic on this and it looks like the plan is to have a 30min briefing on "foodborne outbreaks, and specifically how we work and coordinate with FDA." It would be helpful to include how decision are made, the communication process between CDC and FDA, and communication to the public. I saw John's earlier message and I think that using a scenario to walk through the process would be a good format and allow R3 time to ask the questions he wants to learn more about. We can use the information sent up previously as background. The goal will be to outline CDC's role in relation to other agencies and I expect the question "is there anything we can do to improve" may come up again.

KLD and Kyle talked Friday (the latest I've seen), and she suggested the following participants: Rima Khabbaz, Chris Braden, Rob Tauxe, John OConnor, Michael Iademarco (as acting Deputy), KLD, Kyle. We can adjust the list, but recommend we keep it small. Please let me know if you have any questions or want to have a brief chat to discuss further.

Many thanks,

Hugh

Hi Ashley!

We are very keen to brief Dr. Redfield on foodborne outbreaks, however, this scheduling doesn't work for our Division Director, and we want to be sure we know what would be most useful for the Director. Can we work with you or Hugh (who I see is out) to plan? If so, should one of us ask Tracie to hold on rescheduling for a day or so until we have time to think about who needs to attend?

Thanks,

Deb

Subject: Re: Invitation: Meeting w/ Dr. Redfield @ Tue Sep 11, 2018 2pm - 2:30pm (EDT) (tmd9@cdc.gov)

Tracie,

Just come a little earlier before the meeting to allow time to check into the building.

For your awareness, our address is:
US Agency for International Development
Ronald Reagan Building
Administrator Suite, 6th Floor
[1300 Pennsylvania Ave, NW](#)
[Washington, DC 20523](#)

The best entrance to reach USAID is the 14th Street entrance which is located on 14th & D street across from The Commerce Building. Once you pass through Ronald Reagan building security, the USAID lobby will be on your left. In the USAID lobby, please alert the guards at the visitor desk that you have a meeting with the Chief of Staff Bill Steiger. You will need to present a valid photo ID (Government ID, Passport). Either myself or someone from our office will come down to escort you from the USAID lobby to the meeting location. The telephone number to call with any issues is 202-712-4040 or me directly at 202-712-4021

Thank you,
Morgan

Subject: National Health Research Forum Updates and Planning Call

Dear Delaney,

I hope your week is going well! We are looking forward to the Forum in less than a month! I wanted to touch base about the National Health Research Forum and send an updated agenda, thought starters for the panel, and a doodle poll for a planning call.

We have nearly finalized the panel, we are waiting on just one additional panelist and the moderator would like to try to schedule a call with as many panelists or their representatives as possible. Our moderator for Panel 2 is Jackie Judd, with the ABIM Foundation. The date that works best for her is August 23rd from 3-6pm ET. I want to make it as easy as possible for you, so I have created a doodle poll if you would like to respond with your or Dr. Redfield's availability to the poll or directly to me, whichever is easiest: <https://doodle.com/poll/yk7y3fcm4znitez3>. If August 23rd does not work, please

let me know and we can have an individual call with you and/or Dr. Redfield. If you or Dr. Redfield have any questions about the thought starters, please let me know.

I also will probably include this in all of our communication from here on, but my cell phone is (b)(6) should you need anything for the Forum. Thank you so much!

Our moderator for Panel 2 is Jackie Judd, with the ABIM Foundation. The date that works best for her is

August 23rd from 3-6pm ET. I want to make it as easy as possible for you, so I have created a doodle poll if you would like to respond with your or Dr. Redfield's availability to the poll or directly to me, whichever is easiest: <https://doodle.com/poll/yk7y3fcm4znitez3>. If August 23rd does not work, please let me know and we can have an individual call with you and/or Dr. Redfield. If you or Dr. Redfield have any questions about the thought starters, please let me know.

I also will probably include this in all of our communication from here on, but my cell phone is (b)(6) should you need anything for the Forum. Thank you so much!

Subject: Meeting with the Secretary RE: Ebola and Flu Update

Good morning Beth,

I hope you are doing well.

Dr. Redfield would like to schedule an Ebola and Flu update on August 13th with the Secretary.

Would the Secretary be available anytime between 10:30-11:30 a.m.?

Do you think we need to schedule 30 or 45 minutes?

If this time does work, could you recommend some times that would work for the Secretary?

Thanks,
Teresa

Hi, Teresa – ok, we can now confirm Sept 4 and Sept 10. I have copied (again) the info for the meetings with topics and attendees that we originally sent below. Just let us know which hour on Sept 4 will work best (b/w 1-3). Thanks for your help!

1) Influenza Virus Characterization and CVVs Sept 4 - (1pm-3pm)

- Attendees: Nancy Messonnier, Kristin Pope, Brooke Barry, Dan Jernigan, Dave Wentworth, James Stevens, Emily Eisenberg
- One Hour

=====

2) Imprinting and Cohort Effects Sept. 10 – 1pm-2pm

- Attendees: Nancy Messonnier, Kristin Pope, Brooke Barry, Min Levine, Alicia Fry, Lynnette Brammer, Jackie Katz, Dan Jernigan, Emily Eisenberg
- One Hour

Hi, Teresa – one more thing before I forget...I should have included Michael Iademarco from OID as a regular attendee for these briefings as well. If you can add him to August 6 meeting as well as the meetings we schedule in September, that would be great.

I will be back to you (I hope) today with decisions on the other dates in September.

Thanks,
Brooke

Hi Brooke,

Unfortunately Dr. Redfield is not available on August 30th, or the week of August 30th.

Dr. Redfield is available on September 4th between 1-3 p.m.

Also, we can confirm September 11th from 1-2 p.m.,

If we are able to confirm a time the week of Sept. 3rd, you may want to schedule the next briefing the week of September 17th.

Subject: Flu Briefings for Dr. Redfield
Importance: High

Hi, Seth and Hugh – We wanted to go ahead and schedule the other 2 flu briefings with Dr. Redfield given his interest on the below specific topics. Below are the available times for NCIRD and Influenza Division staff:

1) Influenza Virus Characterization and CVVs

- Attendees: Nancy Messonnier, Kristin Pope, Brooke Barry, Dan Jernigan, Dave Wentworth, James Stevens, Emily Eisenberg
- One Hour

Aug 30

9am – 10am

11:30am – 1:30pm

3:30pm – 5:30pm

2) Imprinting and Cohort Effects

- Attendees: Nancy Messonnier, Kristin Pope, Brooke Barry, Min Levine, Alicia Fry, Lynnette Brammer, Jackie Katz, Dan Jernigan, Emily Eisenberg
- One Hour

September 10th

10:30am-3:30pm

September 11th

10am-2:45pm

Thanks!

Brooke

Subject: FW: Flu Briefings for Dr. Redfield

Importance: High

Hi, Seth and Hugh – We wanted to go ahead and schedule our next flu-related briefing with Dr. Redfield. The specific topic for this briefing will be Domestic Surveillance Systems and Burden Averted Modeling Methods. If it's possible to find an hour on Dr. Redfield's schedule during the below dates/times, that would be great.

August 6 – anytime b/w 10:30-1:30

August 7 – anytime except 1-3

For our last briefing, I worked through Ashley but also with Teresa on scheduling. Given that Ashley is out, I am sending this request to you both.

Let me know if you have any questions.

Thanks!

Brooke

Subject: Flu Briefings for Dr. Redfield

Importance: High

Hi, Ashley – Per our conversation yesterday, we would like to propose scheduling regular bi-weekly (i.e. every other week) meetings with Dr. Redfield on Flu. We really appreciate that Dr. Redfield has a lot of interest in this issue and we hope that by having briefings with him, our Flu SMEs can keep him informed and answer any ongoing questions that come up.

We would suggest that the first meeting be scheduled the week of July 16, preferably later in the week, if possible. It would be great if we could get a few options of dates/times so I can ensure that people are not traveling, etc. And finally we are thinking that 2 hours would be good so that we can cover a couple of topics and have time for questions.

Once we get this first meeting scheduled, we can determine how to move forward with scheduling additional meetings.

Let me know if you have any questions.

Thanks,
Brooke

Subject: RE: DPDM Lab Tour and malaria briefing on 06/25 from 9-11

Hi, Melissa and Teresa,

I just spoke with Dr. Redfield, and he is comfortable with a paper briefing and/or SME call (as we have done in the past) to satisfy his immediate topical interest, which leaves us free to schedule a

related/follow-up lab tour in August (or whenever the appropriate staff are available). I hope this helps cut down on some of the scheduling conflicts.

Melissa,

Can we shoot for next Tuesday at noon for the final brief from CGH? Given that he has already received a brief on PMI, I suspect Bill has a handle on the additional areas of interest Dr. Redfield hoped to learn more about. Let me know if that is not the case.

Thanks,

Ashley

Subject: RE: DPDM Lab Tour and malaria briefing on 06/25 from 9-11

I think our preference is not to separate them but if we have to, we can look into it. What kind of time are we talking about? 60 minutes, of which 30 minutes is briefing? What about a paper briefing instead?

Subject: RE: DPDM Lab Tour and malaria briefing on 06/25 from 9-11

Hi All,

Jumping off the CC for a second. The original request was "R3 asked Bill Holley for a malaria briefing in the next week or two." If we are looking at August then maybe these should be two separate events, briefing then tour. Melissa, thoughts?

In light of recent PEPFAR conversations I think it wouldn't be a bad thing to bring him up to speed on PMI sooner rather than later.

Best,

Hugh

Subject: DPDM Lab Tour and malaria briefing on 06/25 from 9-11

Hi Ashley and Hugh,

Last week R3 ran into Bill Holley from DPDM in the airport in DC and they chatted for a few minutes. R3 asked Bill Holley for a malaria briefing in the next week or two. We had been working on a tour of our labs including the insectary, the parasite lab, and one other location and figured we could combine the two. We are proposing to do this on 06/25 from 9-11. Would this work for Dr. Redfield?

Thanks!

SAVING LIVES *and* PROTECTING PEOPLE *from* PARASITIC DISEASES

Parasitic diseases can be transmitted to people:

by insects or animals

through blood or
organ donation

from mother to baby

through contaminated
food or water

Fast and accurate diagnosis is critical for appropriate treatment of these infections.

WHY CARE?

Parasitic diseases, including malaria and neglected tropical diseases (NTDs), cause devastating illness and economic burden among millions of people around the world and in the United States, threatening local populations, businesses, travelers, and American defense forces.

445,000 people died from malaria in 2016, and millions become ill each year, including almost 2,000 returning travelers in the United States.

1 billion people are infected with NTDs that cause blindness, malnutrition, anemia, and disfigurement.

300,000 people in the U.S. are infected with Chagas disease, and 300 infected babies are born every year.

Toxoplasmosis, a leading cause of foodborne illness, affects more than 40 million people in the U.S. and can cause acute and chronic illness, and death.

DEMONSTRATED SUCCESS

Scale up of proven interventions has led to:

Malaria deaths in Africa were cut by more than half.

400 million people no longer require treatment for NTDs.

Guinea worm infections have dropped to fewer than **30 worldwide** annually.

Improved education and awareness in the United States is also helping protect Americans from Chagas disease and neurocysticercosis.

CDC's EFFORTS

CDC's Division of Parasitic Diseases and Malaria translates science into action.

Protecting Americans

Working with healthcare providers to deliver life-saving diagnosis and treatment of parasitic diseases in the United States and disseminating up-to-date, data-driven guidelines and recommendations for public health partners and the public.

Eliminating the Global Burden of Malaria and NTDs

Reducing global deaths, illnesses, and risks of malaria and NTDs by providing scientific leadership and support to ensure data-driven, effective disease control and elimination programs.

Advancing Research

Conducting research to develop tools and approaches to better detect, prevent, and control parasitic diseases, mitigate drug and insecticide resistance, and accelerate progress towards elimination.

SPOTLIGHT ON KEY CDC ACCOMPLISHMENTS AND ACTIVITIES

Co-implements with USAID the President's Malaria Initiative in 24 countries and the Greater Mekong subRegion

Conducts more than 7,000 diagnostic tests each year, and offers DPDx, an online resource, to provide diagnostic assistance and training in laboratory identification of parasites

Serves as a global resource through its WHO centers of excellence for Guinea worm, malaria, and trachoma, and world-renowned insectary and laboratories

Leads Malaria Zero efforts to eliminate malaria from Haiti, and efforts to eliminate lymphatic filariasis from Haiti and American Samoa

Employs a highly sensitive laboratory multiplex assay that can simultaneously detect infections from more than 30 viral, bacterial, and parasitic pathogens using a single, small blood sample

Uses Advanced Molecular Detection methods to modernize development of new tests for parasitic infections and to monitor for malaria drug and insecticide resistance

WHAT'S NEEDED?

Modernize the diagnosis of parasitic diseases to keep pace with emerging parasites and advances in technology

Increase awareness, education, and available data on parasitic diseases in the U.S.

Continue scale up of proven interventions in countries

Expand and strengthen surveillance for data-driven decision making

Monitor and mitigate threats from malaria insecticide and drug resistance

Develop and deploy new tools and approaches

Hugh,

Dr. Maiwand Ahmadzai is the polio Incident Manager in Afghanistan. He is our key government lead for the Afghanistan national polio program and someone we work closely with to enhance the program there.

Dr. Maiwand (as we call him) will be presenting at the International Conference on Emerging Infectious Diseases in Atlanta next week and we were just able to get access for him to join us for planning meetings at CDC on Thursday and Friday (30-31 August).

I have found that Dr. Maiwand often has broad information about the progress and challenges that we continue to see related to eradication in a key endemic country, as well as useful first hand insight to current approaches in Afghanistan to further the effort.

Please let me know if Dr. Redfield would like to meet with Dr. Maiwand and, if so, what day and time would be best.

Thanks,

John

PS: Attached Dr. Maiwand's resume for reference.

Subject: For R3 consideration -- consider meeting Afghanistan Polio EOC lead at CDC 30-31 August

Hugh,

Dr. Maiwand Ahmadzai is the polio Incident Manager in Afghanistan. He is our key government lead for the Afghanistan national polio program and someone we work closely with to enhance the program there.

Dr. Maiwand (as we call him) will be presenting at the International Conference on Emerging Infectious Diseases in Atlanta next week and we were just able to get access for him to join us for planning meetings at CDC on Thursday and Friday (30-31 August).

I have found that Dr. Maiwand often has broad information about the progress and challenges that we continue to see related to eradication in a key endemic country, as well as useful first hand insight to current approaches in Afghanistan to further the effort.

Please let me know if Dr. Redfield would like to meet with Dr. Maiwand and, if so, what day and time would be best.

Thanks,
John

PS: Attached Dr. Maiwand's resume for reference.

Hi Teresa,
For Friday's 10:00am meeting with Dr. Redfield and Dr. Maiwand, the following CDC staff should be included in the invitation:

Serena Vinter, CGH
Will Schluter, GID
John Vertefeuille, GID
Derek Ehrhardt, GID
Maureen Martinez, GID
Gena Hill, GID
Kip Baggett, DGHP

Hi.
Yes.
We can confirm this Friday at 10:00am for Dr. Maiwand.
I will be sending you an invite list shortly in a separate email.
Best,
John

Subject: RE: Flu Briefings for Dr. Redfield

Hi, Brooke,

Thanks for the note and for offering time with your leadership and staff for these meetings. We fully agree that a regular meeting to discuss flu issues in more detail would be beneficial to ensure Dr. Redfield is not only informed of the latest developments, but also has dedicated time to ask specific questions related to this information.

I will let Tracie and Teresa weigh-in with Dr. Redfield's availability next week. I know that he leaves Atlanta on Wednesday and will be on TDY through Aug 1, so I think we ought to shoot for the 16th or 17th if we're to succeed in getting one of these meetings on the books prior to departure. Looking at his schedule next week, we may be hard pressed to find 2 hours, but can shoot for that and make adjustments as needed. Once a time is confirmed, just let Teresa and Tracie know which participants you'd like to include in this first iteration.

Thanks again!

Ashley

Subject: Flu Briefings for Dr. Redfield
Importance: High

Hi, Ashley – Per our conversation yesterday, we would like to propose scheduling regular bi-weekly (i.e. every other week) meetings with Dr. Redfield on Flu. We really appreciate that Dr. Redfield has a lot of interest in this issue and we hope that by having briefings with him, our Flu SMEs can keep him informed and answer any ongoing questions that come up.

We would suggest that the first meeting be scheduled the week of July 16, preferably later in the week, if possible. It would be great if we could get a few options of dates/times so I can ensure that people are not traveling, etc. And finally we are thinking that 2 hours would be good so that we can cover a couple of topics and have time for questions.

Once we get this first meeting scheduled, we can determine how to move forward with scheduling additional meetings.

Let me know if you have any questions.

Thanks,
Brooke

Subject: RE: Flu Briefings for Dr. Redfield

Hi, Brooke,

Thanks for the note and for offering time with your leadership and staff for these meetings. We fully agree that a regular meeting to discuss flu issues in more detail would be beneficial to ensure Dr. Redfield is not only informed of the latest developments, but also has dedicated time to ask specific questions related to this information.

I will let Tracie and Teresa weigh-in with Dr. Redfield's availability next week. I know that he leaves Atlanta on Wednesday and will be on TDY through Aug 1, so I think we ought to shoot for the 16th or 17th if we're to succeed in getting one of these meetings on the books prior to departure. Looking at his schedule next week, we may be hard pressed to find 2 hours, but can shoot for that and make adjustments as needed. Once a time is confirmed, just let Teresa and Tracie know which participants you'd like to include in this first iteration.

Thanks again!

Ashley

Subject: Flu Briefings for Dr. Redfield
Importance: High

Hi, Ashley – Per our conversation yesterday, we would like to propose scheduling regular bi-weekly (i.e. every other week) meetings with Dr. Redfield on Flu. We really appreciate that Dr. Redfield has a lot of interest in this issue and we hope that by having briefings with him, our Flu SMEs can keep him informed and answer any ongoing questions that come up.

We would suggest that the first meeting be scheduled the week of July 16, preferably later in the week, if possible. It would be great if we could get a few options of dates/times so I can ensure that people are not traveling, etc. And finally we are thinking that 2 hours would be good so that we can cover a couple of topics and have time for questions.

Once we get this first meeting scheduled, we can determine how to move forward with scheduling additional meetings.

Let me know if you have any questions.

Thanks,

Brooke

Subject: Follow up Malaria Meeting

Namita,

Dr. Redfield has requested a follow up meeting for one hour, with Neghna Desai and Monica Parise over the next two weeks. Dr. Redfield's current availability for this meeting is as follows:

- August 8 2:00-3:00pm
- August 10 12:45-1:45
- August 16 9:00-10:00 (tentatively possible)

Please let me know if any of the above dates and times work. If not the next availability would be the first week in September.

Respectfully,

Tracie Strength

Hi Scott and Ashley,

Please note the email below from Dr. Staley requesting a 30-minute face-to-face meeting to include Peter McElroy, Monica Parise and Dr. Rick Steketee.

Please advise if okay to proceed.

Thanks,
Teresa

Subject: scheduling call between Dr. Redfield and Dr. Staley

Hello Teresa,

Dr. Staley, U.S. Global Malaria Coordinator, has asked me to schedule a call with Dr. Redfield regarding his recent trip to Africa. It looks like the two have already emailed about it but have not set a date and time.

It would be for 30 minutes on Thursday (8/2) and Friday (8/2). Could you please let me know what Dr. Redfield's availability is for those days? I think Dr. Staley's preference would be for Thursday between 9:30 and 11, or Friday before 10:30 or after 3pm.

I hear you are the best person to start with, but if there is someone else I should speak with about Dr. Redfield's schedule, please let me know.

With gratitude,
Bridget

Yes, that's fine. I sent the calendar invite. Please forward on to Dr. Redfield's calendar and others at CDC as appropriate. I will update with the webinar information once we have that set up, probably sometime next week.

Thanks! -Kathleen

Kathleen,

Yes please send the invite. One small favor, it is possible for the meeting to be from 2:45-3:45? Many thanks

Respectfully,

Tracie Strength

Good afternoon Kathleen,

I hope you are doing well.

I am working with our CDC participants to gain their availability for the briefing.

The week of July 9th will not work for us.

Do you have any dates and times you would like us to consider after July 13th?

Dr. Redfield will be traveling July 19-31st.

Thanks,
Teresa

Hi Kathleen,

Teresa, copied here, is coordinating some schedules of various participants on our end and will be back in touch shortly. Week of July 9th and beyond would be better for us too.

Seth

Hi Amanda & Seth,

I'm coordinating the scheduling of this meeting from ONC. Are there specific blackout dates I should avoid as I try to wrangle the schedules on our end? Realistically, we are probably looking at July 9th and beyond.

Thanks! -Kathleen

Amanda,
As we discussed yesterday with Dr. Redfield, ONC is happy to set up a web briefing on the landscape of the various state PDMP programs as well as the pattern of connectivity with EMR's and across state lines. CC'ing Chesley as well. Attaching a slide deck (especially the last two slides) to give a flavor of this landscape. Matt Swain and Kathleen Zook can help with scheduling.

Good morning –

We will be bringing on a contractor who will be working directly with Dr. Redfield on strategic planning and as his executive coach.

We would like to schedule time on Dr. R's calendar now. These are the dates that work, can you pick a 5-6 days and block 3-4 hours:

- July 10, 11, 18, 24, 25, 26
- August 7, 8, 14, 15, 16

Please let me know what you block!

Thanks

Sent: 18 Jul 2018 15:47:50 -0400
To: Strength, Tracie (CDC/OD/OCS);Williams, Teresa (CDC/OD/OCS);Scales, Scott L.
(CDC/OD/OCS)
Cc: McGowan, Robert (Kyle) (CDC/OD/OCS)
Subject: Aug 7/8

All –

There are two invites on R3's calendar – both meetings should include Kyle, me, KLD, Anne & Amanda.

Change both meeting titles to “Visioning Session with the Exec Team”

The two meetings should be as follows:

- Aug 7 930-1130am
- Aug 8 2-4pm

Also add these two for R3 alone:

- Aug 7 lunch and coaching session 12-2pm
- Aug 8 lunch and coaching session 12-2pm

Sound OK?

Thank you

Teresa,

On Aug 7 at noon we'll have a Vital Signs release on Zika. Dr. Redfield said he wanted to be the speaker, even though he'll be traveling. Could you please get it on his calendar from Noon - 12:30pm for 8/7?

Also, we have always had an immediate pre-brief with the chief spokesperson from 11:40 AM until noon (immediately preceding the release). Could you please also get that one on his calendar? The list of invitees should be available from Marjorie Sorrells, but Dr. Redd can be deleted.

Thanks. Please let me know if this is ok.

Good Morning Director Redfield:

My name is Zach and I am with the American Academy of Pediatrics. I am writing to share with you the attached letter from AAP President Colleen Kraft, MD, FAAP. This is a letter to congratulate you on your appointment and to request a meeting between you and AAP leadership. If that would be of interest, we are happy to work with the appropriate members of your staff to arrange a meeting. Thank you for your time and consideration.

The Honorable Robert R. Redfield, MD
Director, Centers for Disease Control and Prevention
1600 Clifton Road
Atlanta, GA 30329-4027

Dear Director Redfield:

On behalf of the American Academy of Pediatrics (AAP), a non-profit professional organization of 66,000 primary care pediatricians, pediatric medical subspecialists, and pediatric surgical specialists dedicated to the health, safety and well-being of infants, children, adolescents, and young adults, I write to congratulate you on your appointment as Director of the Centers for Disease Control and Prevention (CDC). As a physician, you know that child health is a strong predictor of adult health. Addressing health and development during childhood – from birth through adolescence – leads to improved life outcomes in many areas.

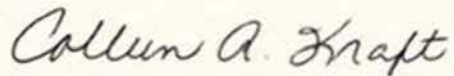

As you develop and advance CDC's priorities and plan, the AAP would offer the recommendations in the attached document to promote healthy children, support secure families, build strong communities, and ensure that the United States is a leading nation for children from our [*Blueprint for Children: How the Next President Can Build a Foundation for a Healthy Future*](#).

As you know, prevention works. A robust public health system is crucial for the health and safety of all Americans, particularly children, adolescents, and the most vulnerable in our society. The work of CDC is essential to supporting public health infrastructure at the local, state, and national levels. The CDC is a leader in preventing infectious diseases from spreading, responding to new and emerging health threats, using the latest scientific technology to prevent disease, promoting healthy and safe environments, and preventing adverse childhood experiences (ACEs). The CDC plays a critical role in the promotion of breastfeeding, supportive parenting skills, violence and injury prevention, tobacco control, immunization, healthy lifestyles, and nutrition. CDC funding for public health preparedness is critical—but many gaps for children exist.

The AAP stands ready to partner with you to advance shared child health priorities. If we or any of our subject matter experts can be of assistance to you, please do not hesitate to call upon us. At your convenience, the AAP would like to arrange a meeting with you to discuss CDC's child health agenda. To arrange that meeting, please contact Mark Del Monte, Chief Deputy and Senior Vice President, Advocacy and External Affairs, at mdelmonte@aap.org or 202-347-8600.

Thank you in advance for your consideration, and congratulations again on your appointment.

Sincerely,

Good afternoon Ami,

Thank you so much for your response.

Would it be possible to schedule the meeting from 2:30-3:00 p.m. instead of September 18, 2018?

Thank you for your consideration.

Also, a member of our Advance Team will contact you to discuss logistics.

Please let me know if you have any questions.

Kind Regards,
Teresa

Dear Ms. Williams:

Thank you for your email and the offer to meet with Dr. Redfield. By this email, I would like to confirm that AAP President Dr. Colleen Kraft will attend the meeting in Atlanta on September 18, 2018 from 2-2:30pm. I am in the process of determining the AAP staff who will accompany Dr. Kraft. By when would you need those names?

Is there anything else that I can provide you at this time?

Thank you,

Ami

Good morning Mr. Del Monte,

It's a pleasure to meet you virtually.

Would the American Academy of Pediatrics Leadership be available to meet with Dr. Redfield at our CDC Roybal Campus Headquarters in Atlanta, GA on Tuesday, September 18, 2018 from 2-2:30 p.m.?

If this time is unacceptable, could you please offer some dates and times in September that would work for your Leadership?

Thank you for your consideration.

Dear Dr. Kraft:

Thank you for the thoughtful letter congratulating Dr. Robert Redfield on his new position as the Director for the Centers for Disease Control and Prevention (CDC). He appreciates your encouragement and kind words.

Dr. Redfield would also like to thank you for inviting him to meet with the members of the American Academy of Pediatrics. He is pleased to accept your invitation and hopes to schedule a meeting at some point in the next few months. Teresa Williams, a member of Dr. Redfield's Advance Team, will contact you soon to schedule the details. You can reach her via e-mail at TWilliams4@cdc.gov or via telephone at (404) 639-5998.

Thank you again for the invitation. Dr. Redfield looks forward to the meeting.

Hello Tracie and Teresa – Looking forward to hearing from your logistics specialist regarding this meeting. FYI, I wanted to highlight that one of OraSure's attendees, Dr. Michael Reed (the company's scientific director), is an Australian national rather than a US citizen—so just wanted you to be aware in case there are any extra steps he/we have to take to insure a smooth entry to the campus. Thanks.

Subject: NCAMS - Michael Reed

Please do not respond, this is an automated email.

Access by a non-U.S. citizen Visitor to the Centers for Disease Control and Prevention (CDC) requires approval **from both** the Office of Safety, Security, and Asset Management/Public Health Intelligence Office (OSSAM/PHIO) **and** Human Resources Office(HRO). **This notice only serves as an approval from OSSAM/PHIO.**

OSSAM/PHIO has approved facility access for Michael Reed *Dr. Michael Reed* from 9/18/2018 to 9/18/2018 to the following:

- BUILDING 21 , CLIFTON - ROYBAL , 9/18/2018 to 9/18/2018

Assigned CDC Escort(s) must accompany Visitor at all times and only to approved facilities listed.

Visitor must provide original travel documents submitted into the Non-U.S. Citizen Access Management System (NCAMS) upon arrival to the CDC (no photo copies, electronic copies, or substitutions allowed).

CDC access is contingent upon HRO approval. HRO will notify Visitor prior to start date if an I-94 (proof of legal entry into the U.S.) is required.

Thank you,

Subject: RE: OraSure's Request to meet with Dr. Robert Redfield, Director, CDC
Attachments: OraSure CDC DRAFT AGENDA.DOCX

Teresa, Tracie, and Brad – Representatives from OraSure are looking forward to meeting with Dr. Redfield on September 18th at 10 AM. We have drafted an agenda for the meeting and look forward to any feedback you have on the draft or additional discussion topics recommended by CDC. An open question on the agenda is who else from CDC will be attending—so it would be helpful to me if you could let me know. OraSure has had most of its interaction with folks from the Infectious Disease and Global Health programs.

Looking forward to any feedback on the draft agenda, additional CDC attendees, and learning more about the logistics for the meeting. Thanks!

Hello Tracie and Teresa – Looking forward to hearing from your logistics specialist regarding this meeting. FYI, I wanted to highlight that one of OraSure’s attendees, Dr. Michael Reed (the company’s scientific director), is at (b)(5) rather

than a US citizen—so just wanted you to be aware in case there are any extra steps he/we have to take to insure a smooth entry to the campus. Thanks.

Subject: OraSure's Request to meet with Dr. Robert Redfield, Director, CDC

Good afternoon Mr. Dirks,

Dr. Redfield has accepted the request to meet with Dr. Stephen Tang, Dr. Michael Reed and Mr. Tony Zezzo.

Would it be possible to schedule a 30 minute meeting at our CDC Headquarters in Atlanta on August 9, 2018 from 11-11:30 a.m.?

If this time is unacceptable, could you offer some times in August to review for scheduling?

I look forward to hearing from you.

Kind Regards,

Teresa Williams

Subject: Helen B. interview

Hi Kate,

Katherine was looking at her calendar next week and noticed the Hold for the Helen B interview on Tuesday the 31st. She wasn't sure if anything is locked in on that yet, but if not, she'd like to push that to later in the week since that is one of Redfield's first days back in the office after his trip. She wants to be sure he has sufficient time to catch up after travel, and she wants to be sure we have time to prep him, similar to how we did after his last trip where you all got a download from him on what he saw/heard on the trip and then prepped him based on that.

Re: the prep, I don't think there's a separate prep time scheduled yet, so we should request to have that added to the calendar a day or two before the interview and then the usual 30 min before the interview also.

She seems a lot of open time on his calendar later in the week, so the schedulers should be able to fit this in, but please flag if you hear differently. Also, if something is already locked in with Helen, let her know before moving it.

Thanks!
Megan

Subject: Request for Dr. Redfield to participate in 8/6 Staffdel to CDC

Hi All,

As Aimee mentioned in the scheduling call today - five global health partners (GHC, GHTC, PATH, ASTMH and IDSA) are sponsoring a staff delegation visit of 8-10 staffers to CDC's Roybal campus on **Monday, August 6th** from 8:15 AM to 4:45 PM (see attached for the draft agenda). Below is a list of staffers who have already RSVP'd and plan to participate in this visit. We will keep you updated as the RSVP list evolves.

We appreciate you putting a hold on Dr. Redfield's calendar at 9 AM that day. We welcome him to stop in during the first session (8:30 AM- 9:30 AM) to provide some brief remarks and meet the staffers. We would like for him to touch on his priorities for the agency.

Also, if possible, may we have a logistics specialist assigned to help the day-of? Please let us know if you have any questions.

Thank you,
Anstice

Hi all,

Unfortunately, we are not able to arrange a meeting on Monday but I asked Janice to look for a time when they can connect in the next week or two. I'll run these dates as well. August is tough for an all-hands meeting but I'll run it by comms to see what they think.

Thank you for sharing you structure. I appreciate it.
Best,

Heather

Subject: RE: All hands?

Heather, thanks very much for your call and for the understanding about having to reschedule Monday's visit. Please do let me know if we can arrange a meeting (1:1 or 2:2) for Monday in DC as we discussed.

Separately, here are some dates to consider for a reschedule of the visit, but unfortunately with Dr. Redfield's travel schedule, it won't be until August -- **the afternoon of 6, 7, 20, or 21 August are available to visit FDA**. Let us know if you'd like us to hold one of those dates...

Finally, per our discussion, attached is a one-pager about my team. I'll be happy to chat further if helpful.

For awareness, I've included Seth, our Lead Special Assistant and my Deputy, and Jeremy who manages our scheduling team & Teresa, the Director's Scheduler. Feel free to share this with others as desired.

Best,

Scott

Subject: RE: All hands?

Scott and Seth,

I think it sounds like we should reschedule. I know the Commissioner wanted to introduce him to the senior staff and the staff in general. The Commissioner needs to be at White Oak in the afternoon, so we can look for time to tackle the MRTP and Vaccines issues separately. I'm sorry this didn't work out. We look forward to Dr. Redfield coming sometime soon. Will one of you send us new dates?

Thanks,
Heather

Looking at Dr. Redfield's moving target schedule for Monday, do you think it would better for Drs. Redfield and Gottlieb to meet in DC during that time to discuss some of their 1:1 or 2:2 issues and have the All Hands at a future date when he has the time to spend for a full visit?

Seth

Subject: All hands?

Hi,

What do you think of Dr. Redfield coming out to campus for only the all-hands? He could arrive at 12:15, we would start at 12:30 and have him out of here between 1:15-1:30? I'm checking with the team now to ensure we can make it work with the studio. Wanted to confirm with you that will still work.

Thank you,
Heather

Subject: RE: All hands?

Heather, thanks very much for your call and for the understanding about having to reschedule Monday's visit. Please do let me know if we can arrange a meeting (1:1 or 2:2) for Monday in DC as we discussed.

Separately, here are some dates to consider for a reschedule of the visit, but unfortunately with Dr. Redfield's travel schedule, it won't be until August -- **the afternoon of 6, 7, 20, or 21 August are available to visit FDA.** Let us know if you'd like us to hold one of those dates...

Finally, per our discussion, attached is a one-pager about my team. I'll be happy to chat further if helpful.

For awareness, I've included Seth, our Lead Special Assistant and my Deputy, and Jeremy who manages our scheduling team & Teresa, the Director's Scheduler. Feel free to share this with others as desired.

Best,

Scott

Subject: RE: All hands?

Scott and Seth,

I think it sounds like we should reschedule. I know the Commissioner wanted to introduce him to the senior staff and the staff in general. The Commissioner needs to be at White Oak in the afternoon, so we can look for time to tackle the MRTP and Vaccines issues separately. I'm sorry this didn't work out. We look forward to Dr. Redfield coming sometime soon. Will one of you send us new dates?

Thanks,
Heather

Subject: RE: All hands?

If feasible, I think he's really prefer that option. I know he wants to visit, but he also does not want it to be incomplete nor rushed.

Subject: RE: All hands?

Looking at Dr. Redfield's moving target schedule for Monday, do you think it would better for Drs. Redfield and Gottlieb to meet in DC during that time to discuss some of their 1:1 or 2:2 issues and have the All Hands at a future date when he has the time to spend for a full visit?

Seth

Subject: All hands?

Hi,

What do you think of Dr. Redfield coming out to campus for only the all-hands? He could arrive at 12:15, we would start at 12:30 and have him out of here between 1:15-1:30? I'm checking with the team now to ensure we can make it work with the studio. Wanted to confirm with you that will still work.

Thank you,
Heather

Please update calendar banner and travel calendar accordingly. Thx

From: Moore, Melissa (CDC/CGH/OD)
Sent: Wednesday, June 27, 2018 5:19 PM
To: Scales, Scott L. (CDC/OD/OCS) <ixj3@cdc.gov>
Cc: Knotts, Ashley (CDC/OD/OCS) <vqf0@cdc.gov>; Green, Hugh (CDC/OD/OCS) <yke8@cdc.gov>
Subject: R3 July Travel - Important Updates

You may want to clarify dates:

19-22 July Amsterdam

23-25 July Kampala Uganda site visits

July 26 travel to Dar Es Salaam

26-28 July Dar Es Salaam Tanzania site visits

July 28-~~or~~29 travel to Maputo

28-31 July Maputo Mozambique site visits

July 31 return Atlanta

FYI: I found out from Hank that PEPFAR meetings in Amsterdam are not like PEPFAR Ps and are more like a conference. Some sessions will be in a large ballroom and some sessions will be held in breakouts. Given that I may propose that he arrive in Uganda on Sunday, July 22. Thoughts?

Subject: R3 July Travel
Importance: High

Team, R3 and Ashley will be traveling to Amsterdam 19-22 July for PEPFAR meeting, and then OA & CGH are coordinating a follow-on trip to Uganda, Tanzania, and possibly Mozambique, thru 31 July.

Can you please let us know if you have any concerns about security or communications in those countries and their capital cities. Dates are expected to be:

19-22 July Amsterdam

July 26 travel to Dar Es Salaam

July 28 or 29 travel to Maputo

July 31 return Atlanta

Larry, can you also work with Teresa to schedule the FSTB's for these locations so that it can be delivered to R3 and Ashley before travel?

Kevin, let us know if there are any hardware or phone changes necessary for this trip.

Delaney/Kate/Molly, we do not have any expected formal presentations for him to deliver, but we expect he'll do a mini All Hands with each country team. Likewise we have no insights if media is being pitched or planned, but I suspect you're already in discussions with CGH about that.

Please let me know if I can answer any questions or concerns. Many thanks!

Scott

Hi Jackson,

Dr. Redfield is available on July 10th from 3:15-3:45 p.m.

Would this time work?

If not, maybe we can schedule a call.

Thanks,
Teresa

Hi Teresa,

Thank you for your response. Unfortunately, Ambassador Birx will be out of the country on the 18th/19th and in New York on the 11th.

Are there any other dates next week?

Best,
Jackson B.

Good afternoon Jackson,

I am doing well and my apologies for the delayed response.

Would it be possible to schedule a meeting in DC on Wed., July 18th after 10:30 a.m. or Thurs., July 19th before Noon?

Please let me know if any of the dates above would work for Ambassador Birx. If not, we will try to find a time on July 11th, unfortunately I am not able to offer any availability at this time.

Thanks,
Teresa

Der Teresa,

I hope you are doing well. Could you send a few possible times next Tuesday (July 10) for a meeting with Ambassador Bix and Dr. Redfield? Preferably in the morning or afternoon.

Let me know if there is another POC I should address this request to.

Many thanks,

Jackson D. Booth

Hi Jackson,

Dr. Redfield is available on July 10th from 3:15-3:45 p.m.

Would this time work?

If not, maybe we can schedule a call.

Thanks,
Teresa

Hi Teresa,

Thank you for your response. Unfortunately, Ambassador Birx will be out of the country on the 18th/19th and in New York on the 11th.

Are there any other dates next week?

Best,
Jackson B.

Good afternoon Jackson,

I am doing well and my apologies for the delayed response.

Would it be possible to schedule a meeting in DC on Wed., July 18th after 10:30 a.m. or Thurs., July 19th before Noon?

Please let me know if any of the dates above would work for Ambassador Birx. If not, we will try to find a time on July 11th, unfortunately I am not able to offer any availability at this time.

Thanks,
Teresa

Der Teresa,

I hope you are doing well. Could you send a few possible times next Tuesday (July 10) for a meeting with Ambassador Birx and Dr. Redfield? Preferably in the morning or afternoon.

Let me know if there is another POC I should address this request to.

Many thanks,

Jackson D. Booth

Subject: Annual National Security Information Training FY2018

Good Afternoon,

On Monday, July 9, 2018, you will be automatically enrolled in the required annual online training related to your National Security Clearance. You will receive a notification from CDC University informing you of enrollment in the **Annual National Security Information Training FY2018** course. If you would like to go ahead and complete the training or if you do not receive a registration notification, you may access it at the link below.

[Annual National Security Information Training FY2018](#)

Training Completion Deadline: September 30, 2018

This training is included on the CDC Mandatory Training Requirements list for all National Security Clearance holders in accordance with the provisions of Executive Order 13526 signed December 29, 2009 and the HHS Classified National Security Information Policy dated January 9, 2012.

NOTE: This training is **NOT** related, but rather in addition to, the Sensitive Compartmented Information (SCI) Annual Briefing SCI cleared staff completed this year. If you have questions about the training material or questions related to the handling or storage of National Security (classified) Information, please contact Melvin Teague at 404-639-0647 or Timothy Fussell at 404-639-2218. You may also reach our staff by email at cdccso@cdc.gov.

If you have problems logging in to the Learning Portal or launching the course, contact the CDC Learning Portal Help Desk at hhs_lps@cdc.gov or at 770-488-1818.

The open training period for this training is July 6, 2018 thru September 30, 2018.

Thanks,

Melvin B. Teague

Virology, Surveillance and Diagnosis Branch

Influenza Viruses

- Human influenza A and B
 - A(H3N2), A(H1N1)pdm09,
 - B/Yamagata, B/Victoria
- Error-prone RNA polymerase
- Genome: 8 negative sense vRNAs
 - Enables reassortment

Thin Section EM. T. Noda, et al, Nature 439 (7075):490-492, 2006.

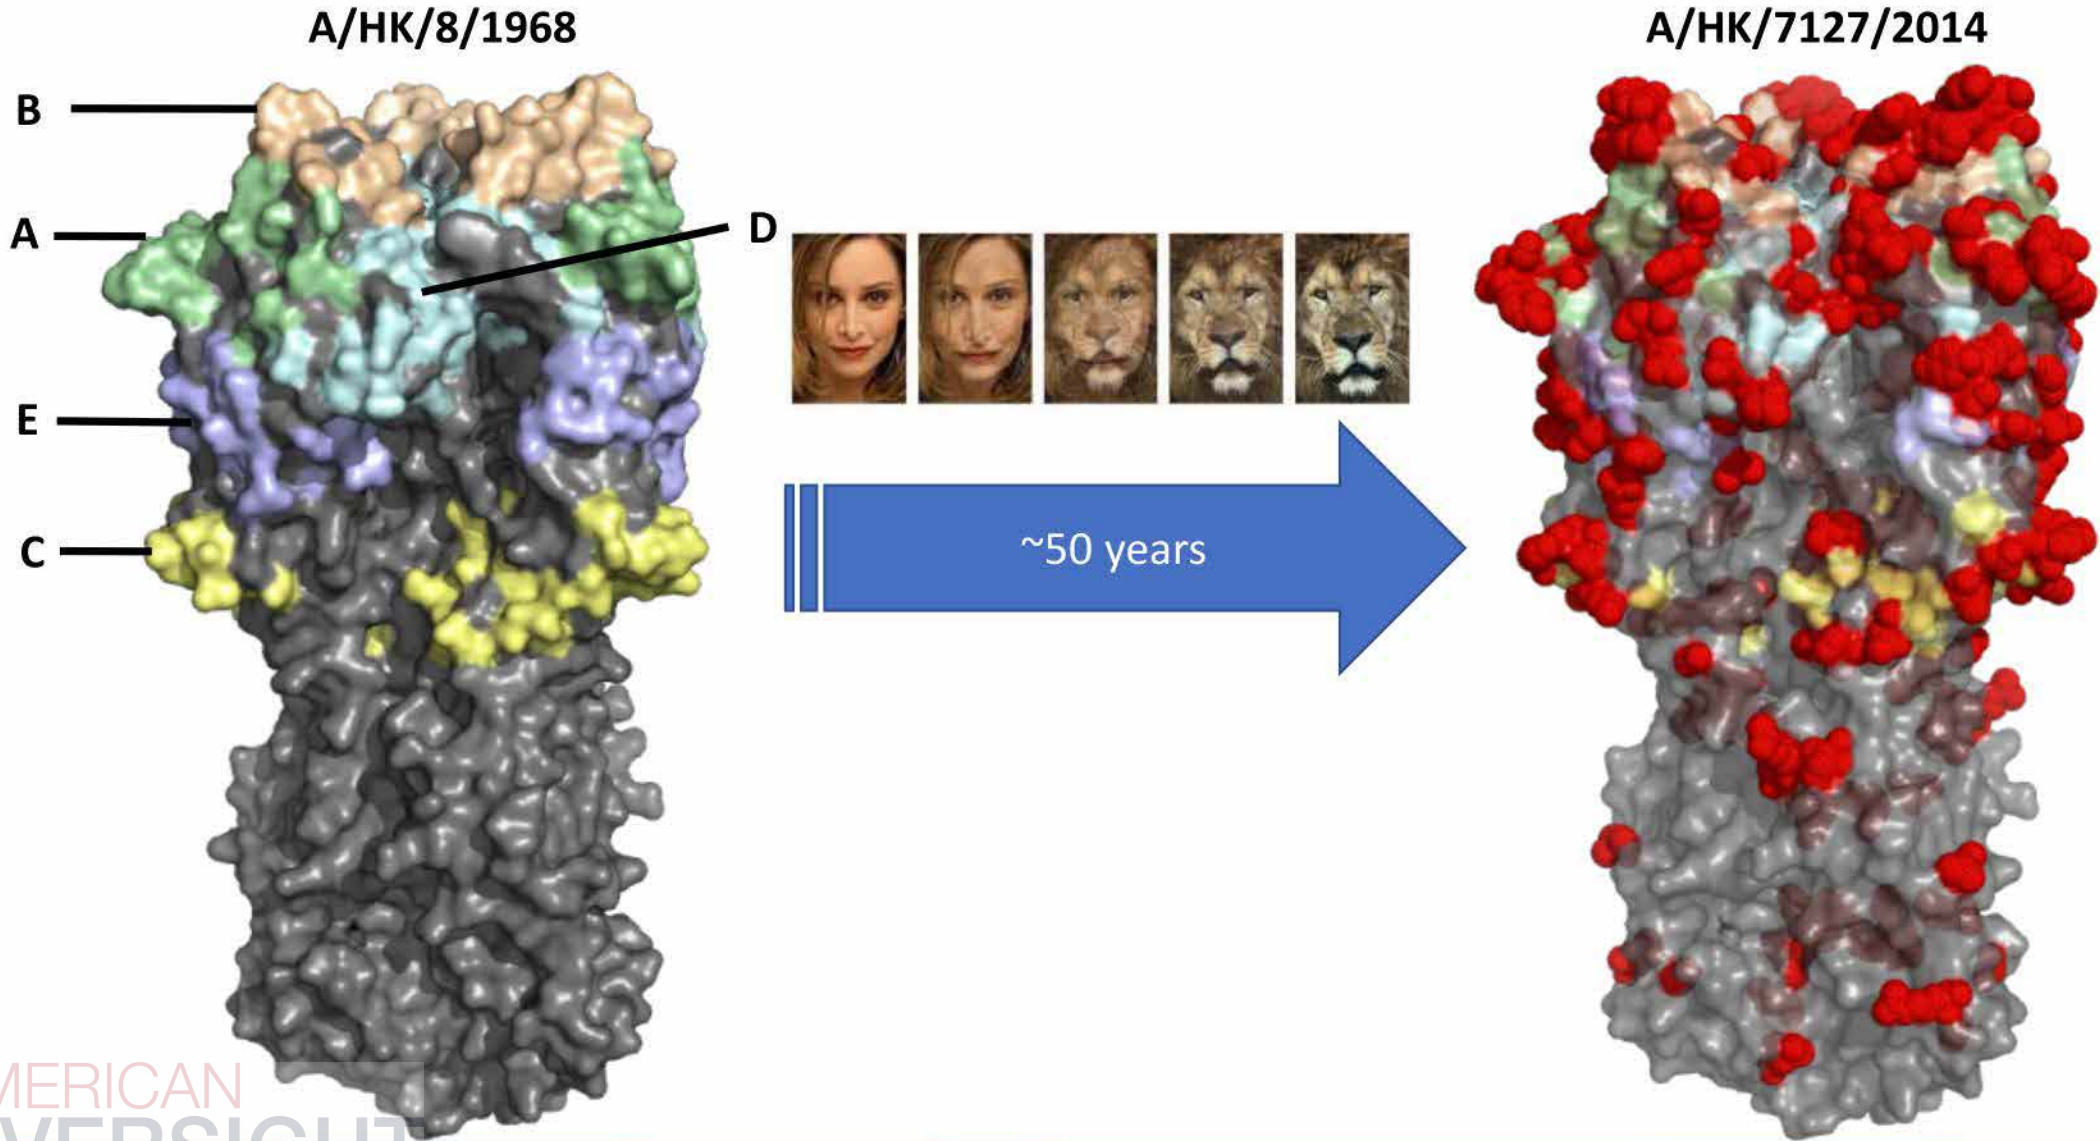

Influenza A Virion Diagram

vRNA Segment	Protein(s) - Function
1.	PB2- mRNA cap-binding
2.	PB1- Nucleotide addition PB1-F2, Pro-apoptotic, IFN antagonist PB1 N40 - unknown
3.	PA - Endonuclease (cap-snatching) PA-X- Modulates host response
4.	HA – Receptor binding
5.	NP – RNA binding, nuclear import, replication
6.	NA – Receptor cleavage
7.	M1 – Matrix, morphogenesis, budding M2 – Ion channel
8.	NS1 – Multifunctional, innate immune antagonist NEP – Nuclear export

U.S. Influenza Surveillance Landscape

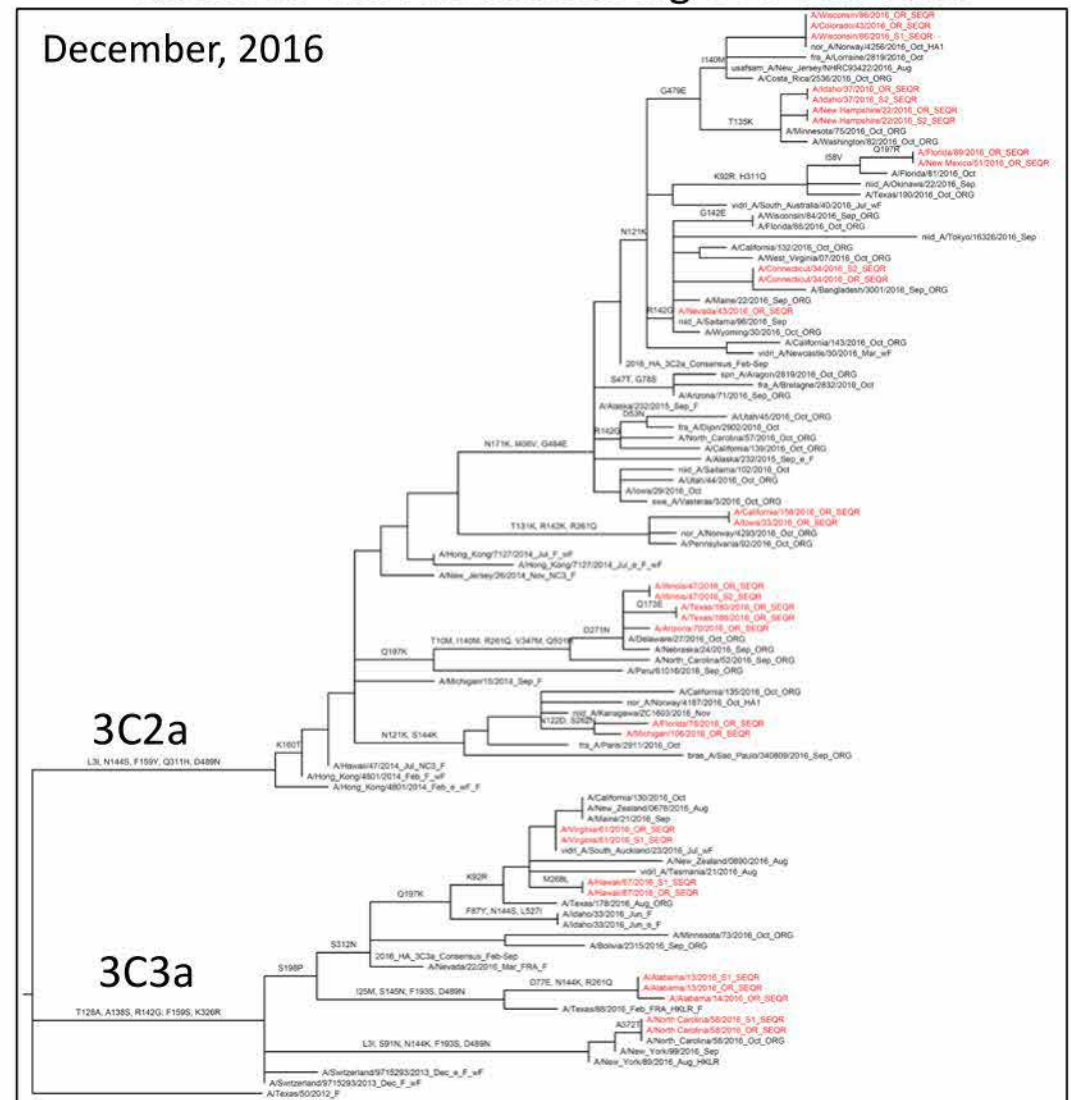

Sequence First: Viral Genomic Data Directly from Specimens

Genomics of Influenza Vaccine Virus Selection

Qualified Cell Manufacturing CVV Selection

- Identify and understand emerging co-circulating variants
 - where and to what extent
- A sliding window in time
 - Compare circulating viruses to reference and vaccine candidates
- Data integration
 - Correlate genetic change(s) with antigenic impact
- Forecast fitness
 - Developing informatics to identify clades likely to predominate
- Select future CVVs early
 - Two specimens per emerging subclade
 - Down-selected through the process

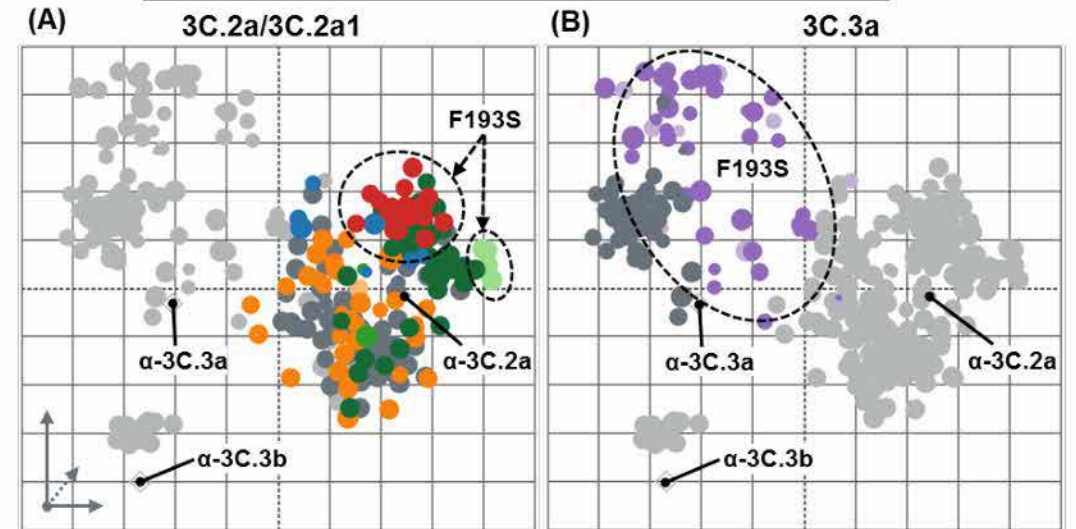

Antigenic Analysis

- Multiple assays to elucidate “antigenic drift” and CVVs (*ferret and human sera*)
 - Hemagglutination Inhibition (HI)
 - Microneutralization (MN)
 - Focus Reduction (FRA)
 - Optimizing to increase throughput
 - Developing High Content Imaging-based Neutralization Test (HINT)
 - Primary specimens

[^]RG56N is a reverse genetics generated virus derived from RG56B with HA1 mutations that are conserved in HPAI A(H7N9) viruses

*VPT17 antigens are reverse genetics generated viruses derived from RG56B with HA1 mutations identified in wt 5th wave viruses.

Developing Deployable NGS and Synthetic Genomics to Identify and Protect from Emerging Threats

Developing Deployable NGS For Outbreak Response

NGS pipeline for speed and onsite workflow

Portable equipment and consumables

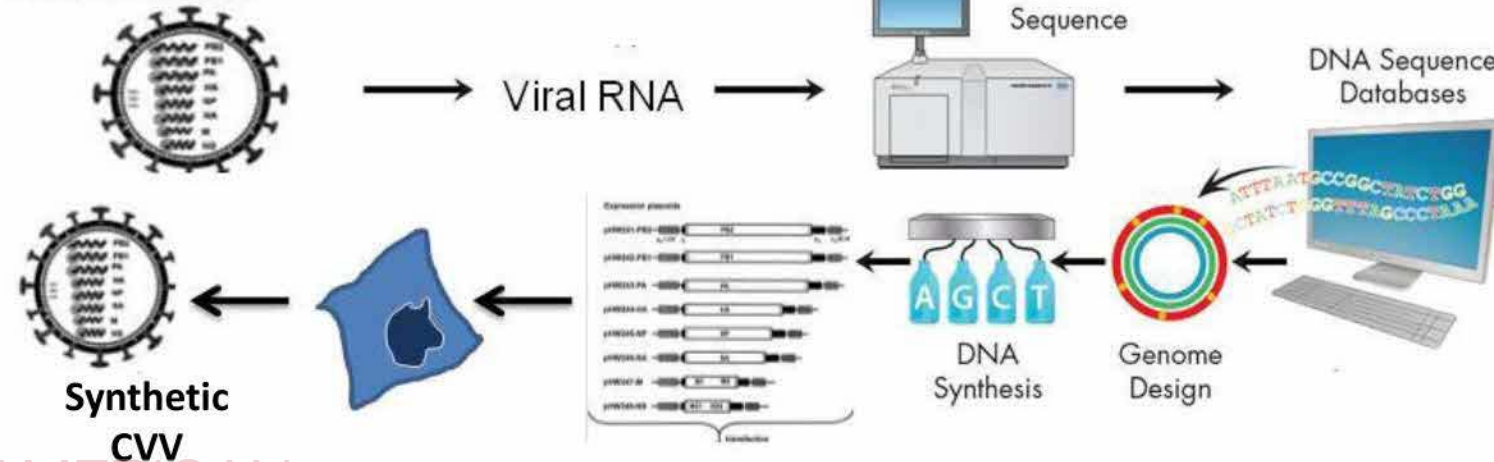

Rational for Testing Deployable NGS at Swine Show

Hypotheses:

Influenza viruses that evolve and circulate at large, early summer swine shows are the progenitors of zoonotic variants that cause outbreaks in humans in the fall.

NGS onsite will identify viruses with pandemic potential and sequence data can be used to engineer optimal CVVs by synthetic genomics. This will speed development and/or enable CVV creation when specimens can't be shipped.

Influenza virus

Field Testing Deployable NGS at Swine Show

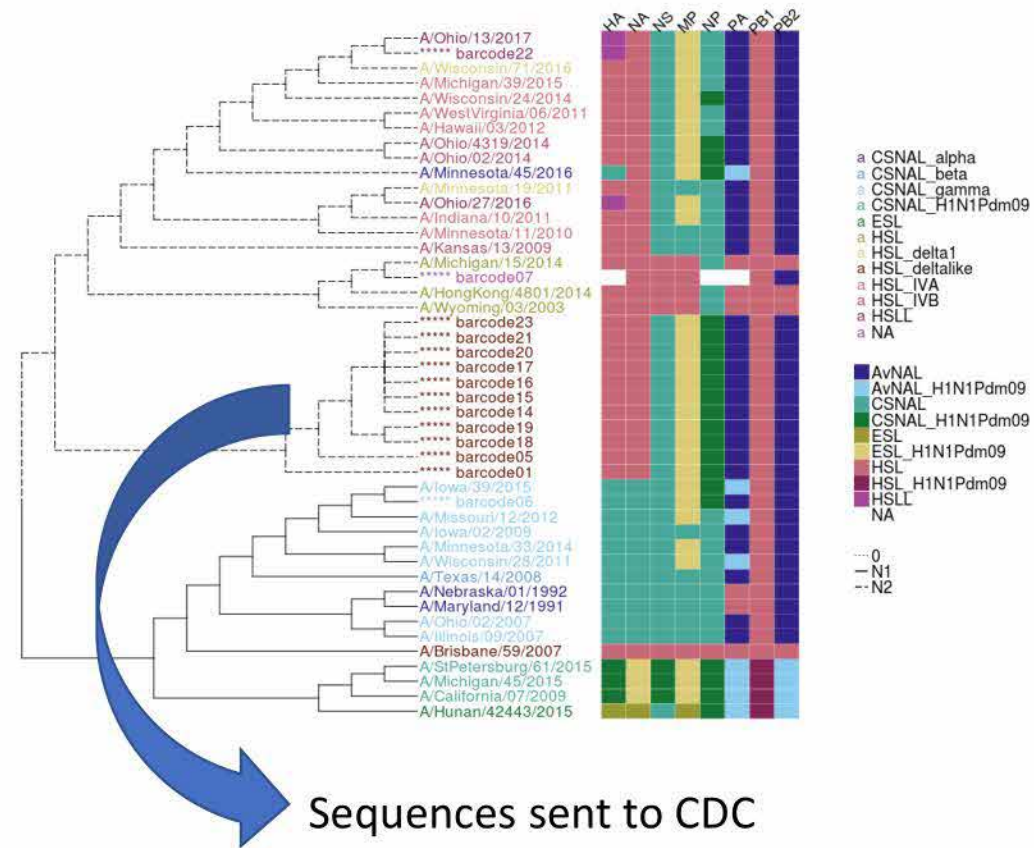

Swabs collected

NGS in empty stall

Assembled and analyzed with laptop

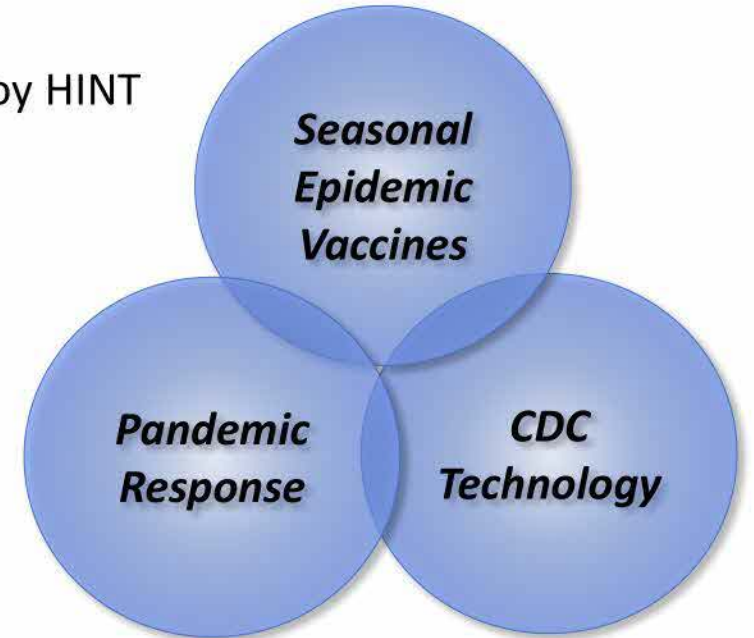

Summary

- CVVs central to CDCs ability to improve influenza vaccines
- Genomic surveillance via NGS now central to vaccine strain selection
 - Improved timelines, more comprehensive data on moving target
 - Directly from clinical specimens
 - Important for fitness forecasting
- A(H3N2) circulating for 50 years (significant drift)
 - Multiple co-circulating clades and reassortment
 - Egg passage results in amino acid changes that alter antigenicity
- 2018-2019 vaccine ahead of B/Victoria drift variants
- Synthetic/ reverse genetic strategies used for pandemic/outbreak response
 - Illustrate strategies to engineer optimal CVVs (e.g., yield/breadth)
 - Deployable NGS along with forecasting speed CVV availability
 - Demonstrate engineering CVVs could improve seasonal epidemic vaccines

Strategies to Improve Influenza Virus Characterization and CVVs

- Improving seasonal epidemic vaccine viruses
 - Advance surveillance and characterization
 - Sequence First, enhanced genomic analysis, fitness forecasting, deploy HINT
 - New approaches to identify escape variants, and exploiting NA
 - Increase CVV repertoire for mammalian cell culture vaccines
- Engineering CVVs under GLP
 - Should be capable of creating 4-6 simultaneously (also COOP)
 - ID funding four new GLP laboratories in 2019
 - Producing optimal egg-based vaccine viruses
- Develop and/or compare new approaches
 - CDC engineered vaccines that can be utilized by all vaccine manufacturers
 - NextGen vaccines -> “Universal”, LAIV re-invented, recombinant, RNA based

All –

There are two invites on R3's calendar – both meetings should include Kyle, me, KLD, Anne & Amanda.

Change both meeting titles to “Visioning Session with the Exec Team”

The two meetings should be as follows:

- Aug 7 930-1130am
- Aug 8 2-4pm

Also add these two for R3 alone:

- Aug 7 lunch and coaching session 12-2pm
- Aug 8 lunch and coaching session 12-2pm

Sound OK?

Thank you

Hi Melissa,

We can make 10:45-11:15 a.m. work on September 5th.

Please advise.

Thanks,
Teresa

Hi Seth and Ashley,

Can we get this on Dr. Redfield's calendar? I spoke with Jeremy and because it is less than 2 weeks out, he asked me to run it through you all.

Thank you.

Subject: CDC OD DL Request: US Ambassador to the Zimbabwe [9/5]

Hi Melissa,

Please see below for the details of a request for Dr. Redfield to meet with the US Ambassador to Zimbabwe. Let me know if you have any questions.

Who: Brian Nichols, US Ambassador to Zimbabwe

When: September 5th, 2018 (Due to the Ambassador's travel schedule, we would like a time between 10am and 4pm)

Why: As new Ambassador to Zimbabwe, there's interest in learning more about our programs at CGH.

CGH Recommendation: Dr. Redfield should take this meeting.

Thanks!
