Good Morning Natasha:

I hope you are well and thank you for following up. I was actually going to respond this week. I'm just finishing up my review. It looks as though the remaining records are all protected by the attorney client and work-product privileges. The Civil Division records I reviewed contain internal communications and documents detailing litigation strategy as well as communication with the Division's clients.

As I mentioned, most of the underlying policy records would not be with the Civil Division but would instead be maintained by DHS. Our records mostly concern litigation.

I'll have a final response later this week. Thank you.

Hirsh

Hi Natasha:

My pleasure.

That's correct. I asked for what we had so if those years were not included, we either didn't track it or none were filed.

For the total outcomes, I believe it means the year of the final disposition, not the year the case was filed.

Thanks,

Hirsh

Hi Hirsh,

Thank you again for getting this information to us. When you have some time could you help us better understand the following:

Document entitled "Calendar Years 1948 through 2018"

- Q: Can we assume the years not included (e.g., 1973, 1975-76) did not have any cases (0) filed?

Document entitled "Total Outcomes"

- Q: Do the outcomes correspond with the year the case was filed? To explain further, for instance, 1981 says that one case was found against the defendant. Does this correspond to the case filed in 1981 or does this just mean that one case was found against the a defendant in 1981 (so the cases in each year do not correspond to the year they were filed)?

Happy to jump on the phone if easier for you.

Thanks and have a fantastic weekend,
Natasha
