Subject: Fwd: Facial Recognition

Rick,

Here is the email string I mentioned yesterday. I checked several sources within DSP and I am very confident that there was not an MOU between our agencies. The business process described below is how we have been handling these requests.

If you want to initiate an MOU, I can assist with that effort. We value the partnership and view your facial recognition program as an important tool for fighting crime and increasing homeland security. If you choose, DIAC can remain the conduit for facial recognition requests for law enforcement and other 78 fusion centers in our country.

I hope this helps on your end.

Thanks,
Tim

> Would it be possible for you to send me on a new email that DIAC screens all requests for FR to ensure they have a valid case number and that case number is provided to DMV. My director wants to have this to show officially the process. Give me a shout if you have any questions or concerns. Again, thank you so much for all your assistance with this process. Also, I am not sure if I told you but I am retiring on September 1st. My last work day is August 31st. I want to let you know it has been an honor to work with you and your staff over the years. I appreciate all the support that you and your staff has given to the DMV Compliance Unit. I am sure that moving forward our two agencies will continue to assist each other and support all efforts. It has been great working with you and all the

DIAC staff. Take care and be safe.

> Ken,

>

> I apologize for the delay in getting back to you. I called your line a few times and got the voicemail, but didn't leave a message. You need us to provide a case number for facial recognition requests, correct? If so, we can make this part of our process of requesting them. It is not a heavy lift for us.
