**Subject:**

Last night I had an in depth discussion with Secretary Noble. In light of that discussion and the announcement coming today from Governor Beshear you are now expected to cancel all outside inmate work details, volunteers, non-essential contractors and further limit outside contact with inmates. Attorney visits are encouraged to be non-contact if agreeable, however there is no directive at this time for mandatory non-contact attorney visits. We are required to provide inmates to the Courts and medical appointments, however staff are encouraged at this time to work with the courts and providers to transport inmates to what is absolutely necessary. I would suggest that each facility make an attempt to contact volunteers to inform them of the suspended services and state that these measures are due to the state of emergency declared by Governor Beshear and necessary out of an abundance of caution.

Please contact me directly for any additional questions.

R. White, Acting Commissioner
