

“While we continue to serve our communities, the safety, wellness and economic security of our customers and employees is our top priority as it has been throughout our 65-year history and especially today. That’s why we have taken significant precautions to protect our customers and employees from COVID-19: closing many of our dine-in sections, closing all play areas, increasing cleanings, particularly in high-traffic areas, and making hand sanitizer available in our restaurants.

Employees at our company-owned restaurants who are impacted by the virus are receiving two weeks paid leave to tend to their critical health needs.”
