Donald J. Trump for President, Inc.

June 9, 2020

Dear Mr. Zucker:

The upcoming November 3, 2020 election is a ripe target for peddlers of misinformation and false, manipulated content, including media polls. The June 8, 2020 CNN poll is designed to mislead American voters through a biased questionnaire and skewed sampling.

According to our independent assessment via the highly respected McLaughlin & Associates, "The CNN poll out today is another skewed anti-Trump poll of only 25% Republican. It's a poll of 1,259 adults - not even registered voters, let alone likely voters. Also, it was done between June 2nd and 5th, before the great economic news from last Friday." Further, the questions and topics selected likely biased the poll further.

Media polls such as these are designed to manufacture an anti-Trump narrative and misinform and mislead actual voters. It's a stunt and a phony poll to cause voter suppression, stifle momentum and enthusiasm for the President, and present a false view generally of the actual support across America for the President.

Instances such as this will not be the last time that CNN pollsters manipulate polling data to manufacture the outcome and air misinformation to the American people. If CNN is genuinely committed to protecting free and fair elections, reporting accurately and truthfully, and polling the genuine pulse of American voters, rather than seeking to harm the Donald J. Trump for President, Inc. campaign, we urge CNN to immediately correct its inaccurate and skewed poll.

**Therefore, Donald J. Trump for President, Inc. is formally requesting that CNN retract its skewed poll by publishing a full, fair, and conspicuous retraction, apology, and clarification to correct its misleading conclusions.**

The poll is intentionally false, defamatory, and misleading, and designed to harm the Donald J. Trump for President, Inc. campaign.

You are officially on notice of this dispute and therefore you are required to undertake steps to affirmatively preserve, and not delete, any and all physical and electronic documents, materials, information, and data that pertain in any way to the June 8, 2020 poll, including without limitation all emails, text messages, instant messages (IMs/DMs), letters and memoranda, articles, and social media postings (including all drafts as well as final versions of all written communications), as well as all other types of written, physical and digital materials, including handwritten notes, typewritten notes, summaries, charts, receipts, audio recordings, video recordings, photographs, telephone call logs, calendar entries of all types, financial data and information, etc. that pertain in any way or might otherwise be relevant or related to the foregoing matters.
