10.1.19

Call from Bhavesh

- Noted that have universe of docs in hand, 650 total
- Noted that a lot of chatter in email involving some high-up people in government
- Asked if we would waive newsletters (news story aggregations), publicly available docs (i.e. in email see name of report, and report comes up in Google search), and attachments.
- With attachments, he said that we would not waive our right to get those with a future request. We would do so by referencing this request and then naming the specific attachments we want.
- I agreed to waive those three things and he said he would send an email memorializing our convo shortly.
