**Friday, August 24, 2018**

**Time** 12:00 PM – 1:00 PM  
**Subject** Friday Lunch at EDR  
**Location** EDR  
**Recurrence** Occurs every Friday effective 8/17/2018 until 8/31/2018 from 12:00 PM to 1:00 PM  
Based on the feedback from Friday's lunch, I am setting up a routine, informal lunch for all DOT non-careers every Friday at noon in the EDR.

For now, we will test this out for the next three weeks to see what we think (and while the 40% discount lasts).

See you Friday,

Team - A4A's chief economist has offered to come in and walk us through their 2018 state of the U.S. airline industry briefing.

Would Monday 8/27 at 11:00am tentatively work for folks? I'll send out a calendar invite shortly.

Thanks

**Friday, August 31, 2018**

▲ **Time** 12:00 PM – 1:00 PM  
**Subject** Friday Lunch at EDR  
**Location** EDR  
**Recurrence** Occurs every Friday effective 8/17/2018 until 8/31/2018 from 12:00 PM to 1:00 PM  
Based on the feedback from Friday's lunch, I am setting up a routine, informal lunch for all DOT non-careers every Friday at noon in the EDR.

For now, we will test this out for the next three weeks to see what we think (and while the 40% discount lasts).

See you Friday,

**Subject** speaker event: Bob McNally, CEO of Rapidan  
**Location** Lincoln Room, 9th floor - West building

All, I am pleased to invite the non-career DOT team to a speaker event that we will host at 2pm on Wednesday, September 12, in the Lincoln Room.

Bob McNally is a consultant with a focus on global energy markets, foreign policy, finance, and the economy. His quarter-century-plus of experience studying these issues at a high level, from Wall Street to the White House, should lead to a fascinating discussion at a fascinating time.

This will be an off-the-record discussion and Q&A, and I very much hope you will be able to attend.

Bob's bio is below:

The tour will be about 1 hour in length.

Dear Ms. Monica Kuo,

I received your name from my colleague Rebecca Ortiz-Hernandez, our director Kim Sajet's executive assistant, regarding a special tour for you and two colleagues. We would be happy to do a tour for you at 10am on Friday, November 2, 2018.

On the day of the tour, please meet your tour guide in the G Street lobby of the museum as this is the only entrance open at that time of day (prior to public hours of 11:30 a.m. to 7:00 p.m.). As we get closer to the date, I will put you in touch with the docent that I have assigned for your tour and the final number of guests.

If you have any questions for me in the meantime, please do not hesitate to contact me.

Best,

Geri

**Subject** FW: FAA REAUTH

**Location** DOT Lincoln Room W90

This would be a good thing for you to attend. It is an outline of all the things the department was tasked to do in the FAA reauthorization bill. Many of these items are very important and could be included in speeches.

**Subject** STARTING SHORTLY: speaker event: Steve Moore on economic policy

**Location** Lincoln Room

We are pleased to invite the non-career team to a speaker event featuring Steve Moore, Distinguished Visiting Fellow at the Heritage Foundation. He will speak to the group on economic policy, a topic on which he is well-versed and an entertaining listen. In addition to his remarks, there will be opportunity for Q&A.

We very much hope you will be able to join; happy to discuss if you have questions.

Steve Moore Bio:

Stephen Moore, who formerly wrote on the economy and public policy for The Wall Street Journal, is the Distinguished Visiting Fellow, Project for Economic Growth, at The Heritage Foundation. Moore, who also was a member of The Journal's editorial board, returned to Heritage in January 2014 -- about 25 years after his tenure as the leading conservative think tank's Grover M. Hermann Fellow in Budgetary Affairs from 1984 to 1987.

As Distinguished Visiting Fellow at Heritage, Moore focuses on advancing public policies that increase the rate of economic growth to help the United States retain its position as the global economic superpower. He also works on budget, fiscal and monetary policy and showcases states that get fiscal houses in order.

Moore's early career was shaped by three people who had a profound influence on him: Julian Simon, the late Cato Institute scholar; Edwin J. Feulner, a co-founder of Heritage; and Art Laffer, the economist best

known for the Laffer curve.

“What makes them so great is they were willing to take on the conventional wisdom. They were subject to a lot of criticism for doing that,” Moore told The Foundry. “Those are the real change-makers.”

As senior economics writer for the Wall Street Journal’s editorial board, he covered Washington policy debates and state issues.

“Because I’ve been a consumer of think tank material and policy research, I think I have a pretty good sense of what reporters want and how to get it to them in the way they want it,” Moore said. “Being timely — and not just offering opinion but giving them the facts and data is really critical.”

Moore, who grew up in New Trier Township, Ill., received a bachelor of arts degree from University of Illinois at Urbana-Champaign. He holds a master’s of arts in economics from George Mason University.

GXTF Members:

Attached is an agenda for our meeting on Tuesday the 10th at 9am EDT.

Also attached is a draft research plan with markups from Volpe. Volpe will be on the call with us to start the meeting to discuss the Simulator Project for ENS Orientation and Recognition/Awareness (Volpe will be dropping off the call after this agenda item). Please look over this draft research plan and if you have any thoughts or idea please feel free to share them ahead of time or at the meeting on Tuesday.

Any questions let me know, thanks,

Jim

This changes the recurring GXTF to Tuesday, since as we discussed the Monday recurring meeting is often delayed, cancelled, or moved due to all the Monday holidays.

Hopefully this will result in less switching around due to holidays.

-----

The date is the second Tuesday of the pay period.

The time is 9am – 10am

The location will be: W36-102

Deborah,

We had similar inquiries from both T&I and Senate Commerce in May/June 2016 after a New Jersey Transit engineer was discovered to have all sorts of DUIs. I'm adding a couple of the folks who helped

with that inquiry.

We even provided technical assistance on a proposed bill in response to NJT's statement to their Congressional delegation that the federal regulations prevented them from imposing stricter rules. We had some issues with the proposed bill because it only focused on commuters and created other inconsistencies. Given all that, I think it may be easier to schedule a call with the congressional staff to walk them through this.

Thanks,

Doug

Subject: ASAP House T&I Request: Engineer driving record lookback

Good morning John and Brett,

We received the below “asap” request from the House T&I Committee minority staff regarding FRA regulations on engineer driving records and the amount of time the agency can use for a lookback evaluation. The question stems from this Boston Globe article <<https://www.bostonglobe.com/metro/2018/04/14/who-driving-your-commuter-train-likely-someone-with-wreck-record/sLRyEIPMFvZqDoe6Je8YFI/story.html>> from Sunday, on safety issues with Keolis operating the MBTA commuter rail (quote below).

Do we have different regulations that reference 3 years and 5 years for a lookback period?

Also, given that Rep. Capuano’s (D-MA) staff cc’d on the email is working on a follow up piece with the Boston Globe, I am looping in Alison.

Please let me know if you have any questions- or if there is anything I can clarify. If possible, we would like to chat/meet today to discuss.

Thanks.

“Keolis and MBCR officials both have said that commuter rail management is hamstrung by federal rules that allow a railroad to look at an engineer’s driving record only for the three-year period prior to certifying him or her as fit for the job. Also, the railroad cannot consider speeding violations, only drunken driving convictions and related license suspensions. And even enforcing that standard is hard; the Brotherhood of Locomotive Engineers and Trainmen union fights the company whenever it seeks to impose discipline on one of its members, they said.”

 Subject: Good morning

There was an article in the Boston Globe a few days ago about the driving records of Keolis employees. We have some questions about FRA regulations regarding driving records. Under certification, there is a 5 year lookback but under another regulation there is a 3 year lookback for railroads so we need some clarification. This is a Member request so if we can get a call together asap that would be appreciated. I yield to Steven's schedule.

This changes the recurring GXTF to Tuesday, since as we discussed the Monday recurring meeting is often delayed, cancelled, or moved due to all the Monday holidays.

Hopefully this will result in less switching around due to holidays.

**Subject** Reminder - Web Clean-up Day Agenda Attached

**Location** Conference Center Room 7

As a fast-moving, operational agency, our websites are a critical channel to communicate with the public and our stakeholders.

In that environment, we tend to focus much of our activity on getting the news out. As time evolves, it is important that we review our public facing profile to ensure our web postings remain relevant. As is the case many times, communications can be overtaken by time, events or new developments.

To help address this, OST-PA in conjunction with the CIO office, is hosting a web clean-up day. Our goal for this exercise is to gather a multi-disciplinary team from each mode that can make a determination on what should remain or be removed from each respective site, with special attention paid to: news, speeches, events and notices. The group will go through each modal website and clean up (archive) all old materials. For items that are removed, we will have guidance to ensure we are complying with all informational archive requirements. Each modal representative must have the ability to immediately update their web pages; please let us know if you have particular requirements in order to make changes on-the-fly.

All modals representatives will meet in the Conference Center – Room 7 on Monday, May 14.

By way of this email, we would ask you to identify who from your web and communication representatives and send their names to teams will participate during this review to Ed Dao and Lori Irving. Thank you for your support in advance of this effort.

**Subject** For Awareness- House THUD Appropriations FY19 Subcommittee Markup Subcommittee Markup

**Location** webcast here-- <https://appropriations.house.gov/calendar/eventsingle.aspx?EventID=395292>

The House THUD committee just release its draft FY19 THUD bill, which will be marked up tomorrow evening. Below is the rail-specific piece of the press release, and attached is the bill. As a part of tomorrows hearing double-header we will cover both the Administrator's rail safety hearing as well as the House markup. Please let me know if you have any questions.

Thanks,

D

Rail – Federal investments in rail infrastructure and safety programs are funded at \$3.2 billion, \$62.5 million over the fiscal year 2018 enacted level and \$2.1 billion above the request.

Rail safety and research programs are funded at \$262.3 million, equal to the fiscal year 2018 enacted level and \$40.4 million above the request. This will fund inspectors and training, plus maintenance and safety investments to the physical rail infrastructure, to help ensure the safety of passengers and local communities.

The bill provides a total of \$1.9 billion for Amtrak, of which \$650 million is for the Northeast Corridor and \$1.3 billion is to support the national network. The bill also continues to require overtime limits for Amtrak employees to reduce unnecessary costs.

Federal-State Partnership for State of Good Repair grants are funded at \$500 million, which is \$250 million above the fiscal year 2018 enacted level. This funding will address critical rail investments nationwide and on the Northeast Corridor – needs that must be addressed to sustain current rail services.

Consolidated Rail Infrastructure and Safety Improvements grants are funded at \$300 million, a decrease of \$292.5 million from the fiscal year 2018 enacted level, to fund capital and safety improvements, planning, environmental work, and research. Within this amount, the bill includes \$150 million for grants to rail operators to install positive train control (PTC) technologies, which will significantly improve the safety of our rail system.

The Magnetic Levitation Deployment Program is funded at \$150 million. This funding will provide the federal investment required to leverage billions in private investment and deploy this advanced technology on the nation’s most congested transportation corridors.

The bill prohibits funding for high-speed rail in California, the California High-Speed Rail Authority, and for the Federal Railroad Administration to administer a grant agreement with the Authority that contains a tapered match. The bill also prohibits the Surface Transportation Board from taking action regarding the construction of high-speed rail in California unless the Board has jurisdiction over the entire project.

All,

It's no secret (b) (6) is leaving us. Her last day is June 8. Unfortunately, I will be on leave next week, so I wanted to be sure to take her (and the team) to lunch before I depart. I have made arrangements to take everyone to lunch at the National Press Club's Reliable Source <<https://www.press.org/restaurants/reliable-source/lunch>> . Let's plan to get an Uber between 11:30 and 11:45 and return to the office after lunch.

These weekly touch base meetings are an opportunity to share information regarding upcoming milestones, current and potential challenges, leadership's priorities and needs, etc.

All folks on the invite are welcome, but feel free to send just one representative for your office.

Thanks,

This changes the recurring GXTF to Tuesday, since as we discussed the Monday recurring meeting is often delayed, cancelled, or moved due to all the Monday holidays.

Hopefully this will result in less switching around due to holidays.

Cancelling the old recurring meeting notice for the Grade Crossing Task Force and will send out an updated meeting invite for the Grade Crossing and Trespassing Working Group (GXTWG).

This changes the recurring GXTF to Tuesday, since as we discussed the Monday recurring meeting is often delayed, cancelled, or moved due to all the Monday holidays.

Hopefully this will result in less switching around due to holidays.

The date is the second Tuesday of the pay period.

The time is 9am – 10am

The location will be: W36-102

The phone conference line for it is:
