II. (U) Damage / Violence Assessment to AOR to the following

(U) Damage to Facilities

(U//FOUO) There was no significant damage reported to FBI facilities; **four** FBI field offices reported graffiti (BA - Wilmington RA, EP, SE, DE) and Detroit also reported **four** broken windows.

(U//FOUO) Open source reporting indicates that most metropolitan areas have suffered some protest related damage. Multiple field offices reported other federal properties were damaged and vandalized. The most common damage reported was graffiti and broken windows. **Twenty-five** field offices reported significant damage to local government facilities, especially local law enforcement facilities and equipment including reports of vehicles either vandalized, damaged, or burned. Field offices reported significant damages to private property through vandalism, fire, and looting.

(U//FOUO) There has been one reported death of a law enforcement officer. On 29 May 2020, at approximately 12:45 AM ET, a Federal Protection Service (FPS) contractor was shot and killed while on duty at the Federal Courthouse, in Oakland. A second FPS contractor was also shot and sustained non-life threatening injuries. At the time of the shooting, a large protest was taking place near the area of the courthouse. At this time, the FBI is unable to determine if this incident is related to the civil unrest in the Oakland area (89B-SF-3272591).

(U//FOUO) During roving patrols on 1 June 2020 with Louisville Metro Police Department, Kentucky Army National Guard Troops received small arms fire from multiple assailants. Two Soldiers on patrol returned fire killing one subject. Louisville Metro police Department SWAT responded to the incident and attempted to resuscitate the individuals. EMS pronounced the subject dead and the investigation is ongoing.

(U//LES) A Las Vegas Metro Police Officer was killed during an arrest of a subject near the Circus Circus Casino. The subject pulled a gun from his waistband and shot the officer in the face. The officer was transported to a local hospital where he was pronounced deceased. The subject is not in custody. The incident is likely related to the ongoing civil unrest.

7

(U//FOUO) **Thirteen** offices reported protestors sustained injuries (BA, BF, DN, HO, IP, OM, PG, RH, SA, SL, SU, SE, WF). There were **two non-law enforcement involved** reported deaths, including a protestor shot by a bar owner in Omaha and a protestor run over by a delivery vehicle in St. Louis. There were shootings reported in Atlanta, Louisville, Erie, Chicago, and Richmond, although relationships between the shooting and protests are not clear.

III. (U) Intelligence / Investigative Updates

(U//LES) During the reporting period, **ten** field offices (CE, CV, DE, DN, HO, KX, LV, ME, MW, MP) reported out-of-state protestors were arrested.

(U) Methods utilized to incite violence and agitate protestors.

(U//LES) Reporting indicates protestors are using vehicles to incite violence and agitate protestors to vandalize property. Offices have reported protestors obstructing roadways, assaulting police officers, interfering with public duties, and resisting. There is also reporting of shots fired and Molotov cocktails thrown, in addition to protestors shining bright lights in officers' eyes.

(U//LES) Offices have observed disinformation campaigns online, mostly focused on false reports of protestors observed in specific locations, attempting to spur followers into criminal action.

(U//LES) Local protestors have also been seen utilizing handheld radios to communicate.

(U//LES) Reporting nationally indicates individuals are using traditional social media platforms and encrypted messaging applications (YouTube, Facebook, Twitter, Instagram, TikTok, Telegram, Topbuzz.com, Snapchat, Wickr) to discuss potential acts of violence. The use of information in social media postings included doxing of law enforcement officials, false reports of violence to incite violence, and rumors about false activities. Multiple field offices have observed individuals using social media platforms such as Twitter and Facebook to organize First Amendment related activity such as peaceful protests as well as criminal activity such as looting and vandalism.

(U//LES) FBI social media exploitation indicates trending hashtags for the past 24 hours focus heavily on protests and issues around the unrest (#BlackLivesmatter, #GeorgeFloyd, #JusticeForGeorgeFloyd, #BLM, #protests2020, #AmericaorTrump, #ICantBreathe, #Curfew, #Protest, #NoJustisceNoPeace, #VoteOutHate). Of note, localized hashtags are being utilized to raise awareness of protest activity (i.e. #DCprotest, #LouisvilleUprising).

(U) Communication means used to plan illegal activities, i.e., types of communication platforms used by violent protestors, code words being used in platforms to mobilize/communicate

(U//LES) Reporting from across the country indicates traditional social media platforms and encrypted messaging applications (YouTube, Facebook, Twitter, Instagram, TikTok, Telegram, Topbuzz.com, Snapchat, Wickr) are being used by individuals to discuss potential acts of violence.

(U//LES) Boston field office highlighted flyers on Facebook advertising a protest suspected of being organized by individuals espousing anti-government and/or anarchist extremist ideology.

(U//LES) Protest planned in the Dorchester neighborhood of Boston for 2 June 2020. The protest is being organized by Black Lives Matter and Violence in Boston INC. This protest is expecting around 100 attendees.

(U//LES) Charlotte – Fayetteville mobilized the National Guard; reporting that unidentified groups plan to target unidentified police stations.

(U//LES) Columbia - Unverified SM reports of buses of people coming from Little Rock Arkansas to Myrtle Beach, SC.

(U//LES) No known threats of violence in Hawaii, Guam, Saipan, or American Samoa. There is a peaceful protest planned for 5 June in Hagatna, Guam.

(U//LES) Of note, **one** local law enforcement agency was forced to use encrypted communications as rioting protesters were capturing communications and moving accordingly using social media platforms to communicate law enforcement movements.

(U) Known criminal group associations or memberships.

(U//FOUO) The FBI—in close coordination with its federal, state, and local partners—continues to monitor and respond to events related to the nationwide civil unrest. There are reports, to include open source reports and social media postings, suggesting the individuals involved in or present at locations of unrest are part of anti-government/anti-authority extremism, militia extremism, racially or ethnically motivated violent extremism, or violent gangs. Yet, much of the violence and vandalism is perpetrated by opportunistic, individual actors acting without specific direction. We continue to aggressively seek to corroborate whether or not there is in fact an organized effort to incite violence by either known criminal groups or domestic violent extremists. There is uncorroborated intelligence about alleged participation of Venezuelan and Nicaraguan socialist groups.

(U//LES) Detroit assesses any attempts by law enforcement to arrest individuals open carrying during protests or attempts to seize weapons could result in an increased presence by Anti-Government/Anti-Authority (AAGA) militia activists. As well, an increased National Guard presence could also spark an increased AAGA militia presence. Another extension of the “stay home” order by the Michigan Governor or declaration of martial law could also increase the right wing AAGA presence.

(U) Known DT, IT, CI, CyD or Criminal actors utilizing peaceful protests to incite riots, conduct criminal activity, or enhance their ideology.

On 1 June, FBI DL arrested an individual without incident for violation of Title 18 United States Code § 875 (c), *Interstate communications of a Threat*. The individual posted a threat which alluded to harming unknown number of "racist MAGA people".

(U//LES) Following the arrest of 15 individuals by the Newark police Department, the FBI and USAO are focusing on at least two arrestees for potential federal charges. One identified individual was arrested in possession of a knife, a hatchet, and a jar of gasoline. FBI Newark obtained one of his Facebook posts which contained a video of him at the riots inciting others to steal from the stores while he stood guard to prevent anyone from stopping them. FBI submitted a preservation request to Facebook this morning. The individual describes himself on his Facebook account as anti-government and anti-authority. FBI Newark believe this profile is consistent with “Antifa”.

(U//FOUO) USAO charged five individuals with varying charges ranging from use of explosive or fire to damage or destroy a vehicle used in interstate commerce, traveling in interstate commerce or using a facility of interstate commerce to incite a riot, organize, promote, encourage, participate in, or carry on a riot, and use of an explosive device.

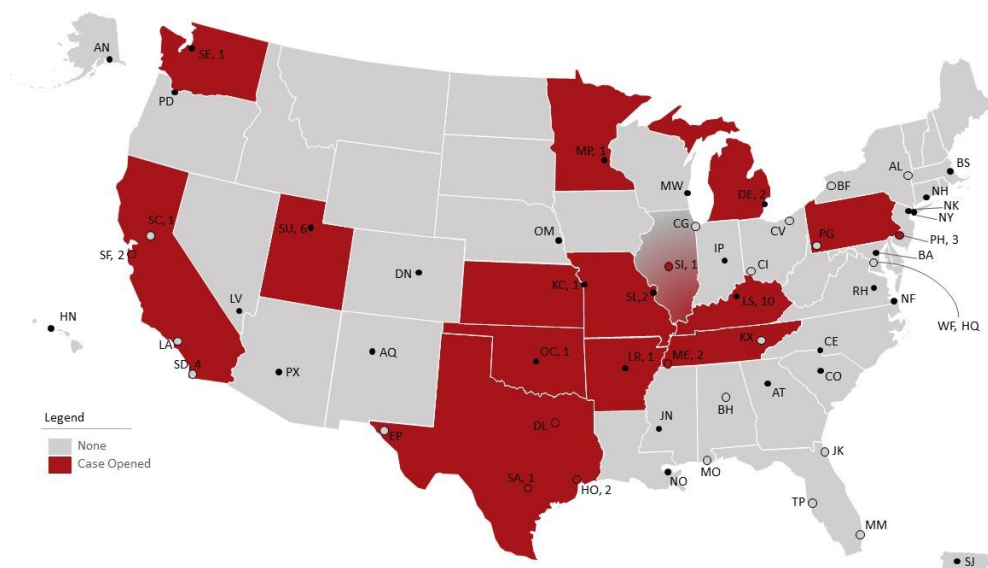

(U//LES) Philadelphia is attempting to confirm if any of the individuals arrested by Philadelphia Police Department have “Antifa” affiliations.

(U//LES) San Francisco field office reported three instances on 31 May 2020 of groups of individuals attempting to break into Federal Firearms Licensees (FFLs). In one instance, the individuals were able to steal 23 firearms (4 long guns and 19 pistols). The other two attempts were unsuccessful.

(U//LES) According to Albuquerque, on 1 June 2020 a business reported numerous firearms were missing. After an inventory was conducted it was determined 149 firearms were missing. Reportedly, 39 long guns and 110 handguns were stolen. It is unclear if this incident is related to the on-going civil unrest in the Albuquerque area.
