

# What is it like to be part of a startup?

**Join a Lick-Wilmerding alumni's startup teen advisory group and find out!**

We are looking for teenagers with an interest in communication, marketing, design and /or development to be a part of our teen product advisory group. You will get an inside view on how a startup develops a product and your input will directly affect how our product is built. Join us in our office for our monthly "squawkup" with teens from other schools where we discuss topics such as fundraising, privacy, design, and industry trends.

**Join us for the next squawkup  
Sunday March 3rd at 10 am**

## Get Involved

**Contact: Chloë Bregman**

## Squawk is a free, fun, mobile messaging app

To be part of the group, you need to have an iPhone.

We are a small team of designers and developers. Some of the companies our team members have worked for include Electronic Arts, Google, NASA, PIXAR, Microsoft and Trion Worlds.

# F.A.Q.

## Who are we?

Alex Karweit is the CEO and has 15 years of professional software and leadership experience working at Google, Electronic Arts, Trion Worlds. Chloe Bregman is the Creative Director, having 6 years of experience in mobile and web product design.

## What do you get out of the group?

- Learn and be a part of the startup experience.
- Take part in our 'squawkup's - a monthly meeting to discuss all things Squawk. You will gain hands on experiential learning about market research, venture funding, advertising, and of course, product development.
- Try something that no one else has access to.

## What do we get out of this?

Last time we checked we noticed we aren't teenagers. We aren't going to pretend to know what your life is like. This gives us an opportunity to incorporate what you value into what we are building for you.

## Will you get paid for this?

No, although at some point in the future, we will consider bringing students on in a more official internship capacity.

## What about my privacy? Is this safe?

This is about as safe as it gets: squawk is a currently a closed system, and in Beta with a small set of trusted, known users. The public has no access to any communications that happens in squawk. New users added to squawk need to be added manually to the test and validated by us.

## To participate you must be:

At least 13 years old.

Opinionated and interested in how a startup and products gets made

Have an iPhone  
(we currently only have an iOS version)

Text on your phone often

Willing to use Squawk as your primary way of communicating with some of your best friends.

## Internship Opportunities

### After School Community Manager Internship

We're looking for a marketing intern to help manage our product marketing efforts. You'll work closely with our product team to communicate your insights from community interactions. This is a very social role that involves using social media and coming up with on the ground efforts to help spread product knowledge. For more info contact [Chloe@squawkapp.com](mailto:Chloe@squawkapp.com)

### After School Development Internship

Do you like to code? We are building a cross platform messaging application on iOS, android and web. There are many opportunities for someone who is interested in development to get involved in our project. For more info contact [Chloe@squawkapp.com](mailto:Chloe@squawkapp.com)
