Subject: MD Box/MRG Medical Resource Group

To whom it may concern

Our team of doctors behind MRG Health and several elected officials throughout Texas ie: Mayors, Judges, County Commissioners have come together to provide a turnkey screening and in home monitoring program for COVID-19.

We currently have relationships with over 25,000 grocery stores and major retailers including Walmart,HEB,Target etc..where these kits can be picked up if they don't have access to receive them at their place of residents.

We are very committed to the whole Texas population but also first responders, government employees, the military and all of those working tirelessly to help others even when we aren't in a pandemic.

We are the FEMA designated Covid response team for Hays County and will soon likely also be for Harris, Bexar, Uvalde, Williamson and Travis Counties. We are attaching our letters from the FEMA director of Hays County, Judge Ruben Becerra, and the letter he drafted to customs for us as well. See below.

The goal here is to keep everyone isolated!!
