## **Vigilant Solutions: LPR Analytics**

### **1. BACKGROUND**

The San Diego Sector Intelligence Unit's (SIU's) function with the Sector's scope of operations is to collect data from multiple sources, then target and analyze links to identify Transnational Criminal Organizations. Without data to feed into the system, the SIU cannot be effective at disrupting and dismantling the criminal element that operates in the San Diego Sector's Area of Operation. When considering the amount of vehicle traffic that passes through San Diego, and for that matter, through the Nation, the intelligence value of collecting and analyzing license plate reader data from various law enforcement entities is axiomatically necessary to help understand and develop an accurate threat picture.

### **2. SCOPE**

This is a sole source acquisition due to lack of vendors that offer the specific service we are requesting. The subscription is specific to law enforcement and unique to the vendor that grants access to a nation-wide database of license plate reader data via a secure internet connection. We have conducted market research through Google and have been unable to locate another vendor that collects national license plate reader information, collates it in a database, and offers access to Law Enforcement Agencies through access to a data center. We have also requested names of other companies from Vigilant who handle the same type of service. There are other vendors that collect license plate reader (LPR) data, but all require the buyer to set up a stand-alone server to access the data. The vendor we have selected collects data into a secured data warehouse and allows access through a secured internet connection. Additionally, Vigilant Solutions has 2.8 billion LPR records which is much more robust than other vendors such as ELSAG, North America.

### **3. APPLICABLE DOCUMENTS**

CBP Directive # 3340-034A  
Available at: CBP Reference Library

California Senate Bill 34, amended April 22, 2015  
Available at: [http://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill\\_id=201520160SB34](http://leginfo.legislature.ca.gov/faces/billNavClient.xhtml?bill_id=201520160SB34)

### **4. SPECIFIC TASKS**

~~This service will grant access to a nation-wide database of license plate reader data via a secure web-based application and allow intelligence agents to analyze the movement of targeted vehicles as they travel on the nation's highways. This will add otherwise unobtainable travel information and allow for more extensive analysis of trends and shape the sector's threat picture.~~

## 5. DELIVERABLES AND DELIVERY SCHEDULE

There will be no physical delivery as the requested product is access to an online database. Once payment is received, access to the database will be provided through a secure network connection.

## 6. GOVERNMENT-FURNISHED EQUIPMENT AND INFORMATION

N/A

## 7. PLACE OF PERFORMANCE

Access to the database will be through the secure CBP net

## 8. PERIOD OF PERFORMANCE

Period of performance for the purpose of this purchase is a base year with Option year 1, Option year 2, Option year 3 and Option year 4 subscription to the service.

## 9. SECURITY

The work will be UNCLASSIFIED as this is access to a national database and classified FOUO.

## 10. SPECIAL CONSIDERATIONS

N/A

---

**Current National LEARN Database Statistics**

~3,000,000,000 LPR data records (Current)  
~100,000,000 new LPR data records (Monthly Average)  
~3,333,333 new vehicle location records (Daily Average)

This proposal is for Vigilant's Private LPR Data subscription and will be available to all Agency sworn personnel for LPR data analytical use in aiding/fighting/preventing/solving crimes and criminal activity.

Features will include unlimited users or user groups constituting purchasing Agency's sworn personnel, ability to load an unlimited number of Hot-List records, such as NCIC and/or private Hot-Lists for internal use (provided by purchasing Agency), geo-zone fencing with advanced search features, data analytics with common plate / associate analysis, unlimited use of the Mobile Companion smart phone application and receive law enforcement LPR data shared by other participating law enforcement practitioners.

Once this proposal has been reviewed by your office, a signed copy and purchase order must be sent to your local Vigilant sales representative (Contact info below) to process the order. Once order is processed, Vigilant will schedule an account setup, and end user training.

**Proposal Notes:**

- 1. All prices are quoted in USD and will remain firm and in effect for 60 days
- 2. Price based on 12 month Subscription period from subscription start date
- 3. Full annual payment terms are net 30 days
- 4. All data access is via Vigilant's national LPR data server for Law Enforcement Agencies
- 5. Software is manufactured under strict Vigilant Solutions standard
- 6. All orders subject to credit acceptance by Vigilant Solutions management
- 7. This Quote is provided per our conversation & details given by you - not in accordance to any written specification
- 8. This Quote does not include anything outside the above stated bill of materials
- 9. By accepting this proposal your Agency agrees to the Private LPR Data Subscription Terms & Conditions
- 10. All accessible private LPR data provided by Vigilant is considered Vigilant intellectual property.
- 11. Each year's renewals will include a 3% increase.
