Staff informed the male numerous times to wear a mask, and he refused and referenced that he had side arm, which made it illegal for him to wear a mask. The unknown male did not make any threats to staff. The male was last seen driving an orange Chevy Camero with black stripes and a NH registration(not identifiable). Staff advised that they want the male spoken to about the city ordinance. I advised staff to call LPD if the male comes to the business again or a similar situation occurs. Staff did not need further assistance.</p>

While on a business check I observed Durkee and Leone enter Maplefields. Leone was not wearing a mask or face covering. I asked her about this and she said she had a medical condition. I informed of the ordinance and she and Durkee left Maplefields.

Durkee was upset with our conversation and later called to ask why he had to leave. Both parties were informed I did not tell them to leave and a discussion was had about face coverings and the ordinance in the city.

Leone wants LPD to know she frequents the area and has epilepsy which she says should prevent her from wearing a mask or face covering. Leone also wears a medical alert bracelet that informs first responders of her medical condition.
