There is a power point that we have shown to the Asst Chief's in the past that showed our targets and thier criminal history. I'm sure I can get that updated for a presentation to them again. Most of these guys are violent guys and we also want to go out with a large bang when this ends that should bring us another group of violent guys that will probably be some of our shooters. I will advise you about that in person.

I will work on that power point and get it to you next week sometime.

Thanks Tony,
I'm going to ask that each of the current ATF investigations create a short brief that I can provide to the Chief. This is a good start. All should demonstrate that we have targeted a priority violent crime threat. One thing I would like to see from yours is a criminal history or linking to violent crime to show these are meeting the violent crime mission of both ATF and MPD.

Capt. Smith,
Just a quick update on our operation:
