SENT VIA EMAIL

Austin Evers
American Oversight
1030 15th Street NW
Suite B255
Washington, District of Columbia 20005
Via email: foia@americanoversight.org

Dear Mr. Evers:

This is the first interim release in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of March 16, 2020, assigned 20-00949-FOIA, subsequently assigned #20-00003-LT, for litigation purposes.

Enclosed are 295 pages of responsive records. Some information was withheld from release pursuant to 5 U.S.C. §552 Exemptions, (b)(5) and (b)(6).

EXEMPTION 5

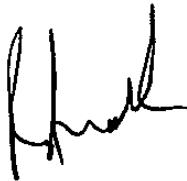

Exemption 5 protects inter-agency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency. Exemption 5 therefore incorporates the privileges that protect materials from discovery in litigation, including the deliberative process, attorney work-product, and attorney-client privileges. Information withheld under this exemption was protected under the deliberative process and presidential communications privileges. The deliberative process privilege protects the decision-making process of government agencies. The deliberative process privilege protects materials that are both predecisional and deliberative. The information that have been withheld under the deliberative process privilege of Exemption 5 are both predecisional and deliberative, and do not represent formal or informal agency policies or decisions. Examples of information withheld include recommendations, comments, opinions. The presidential communications privilege protects documents solicited and received by the President or his immediate White House advisers who have broad and significant responsibility for investigating and formulating the advice to be given to the President.

EXEMPTION 6

Exemption 6 protects information in personnel and medical files and similar files when disclosure would constitute a clearly unwarranted invasion of personal privacy. The information that has been withheld under Exemption 6 consists of personal information, such as names, email addresses, cell phone numbers, and conference and passcode numbers, and we have determined that the individuals to whom this information pertains have a substantial privacy interest in withholding it.

We are continuing to process your request. If you have any questions regarding your request, please contact U.S. Department of Justice attorney, Carol Federighi at carol.federighi@usdoj.gov or (202) 514-1903.

Sincerely,

A handwritten signature in black ink, appearing to read 'Roger Andoh', with a stylized, cursive script.

Subject: FW: Pls Review: Tweet Suggestions

Kyle,

Please review and approve the suggested tweets for Dr. Redfield related to COVID-view (1), National Infant Immunization Week (2), COVID-19 Surge (3 & 4), child care programs reopening (6 & 7), parent tips (8), and suggested retweets (8-13).

1. The latest CDC #COVIDView report shows that the proportion of deaths related to #COVID19 decreased compared to last week but is still much higher than typically seen during any flu season and may change as additional death certificates are counted: <https://www.cdc.gov/coronavirus/2019-ncov/covid-data/covidview/index.html> [protected video link: https://cdc-my.sharepoint.com/:v/g/personal/nle5_cdc_gov/Ec7OPOiXHvpGlxza6B81BBUBdlhUZ6xd-yxz498dK-1S_A?e=KYQI02]

2. This National Infant Immunization Week, we recognize the efforts of #HCPs across the country who work every day to keep children safe from vaccine-preventable diseases.

View guidance on maintaining childhood vaccination during these unusual times:
<https://www.cdc.gov/coronavirus/2019-ncov/hcp/pediatric-hcp.html> #NIIW

3. COVID-19Surge is a spreadsheet-based tool that hospital administrators and public health officials can use to estimate the surge in demand for

hospital-based services during the #COVID19 pandemic. Learn more:
<https://www.cdc.gov/coronavirus/2019-ncov/hcp/COVIDSurge.html>

4. #DYK? COVID-19Surge estimates the number of #COVID19 patients that need to be hospitalized, the number requiring ICU care & the number requiring ventilator support. Hospital admins can then compare those estimates with hospital capacity. Learn more:
<https://www.cdc.gov/coronavirus/2019-ncov/hcp/COVIDSurge.html>

Just spoke with R3-he is on his way home.

Briefed him on materials for AMA tomorrow-he will attend in person and mentioned that there may be media in the AM as well.

He is aware of his schedule for the day, but will need to add calls (Henry has details, I will reach out).

Long day-let's do it again tomorrow.

Subject: R3 tonight

Hi Kyle,

R3 just texted me that he is going to w/POTUS from around 5:45-7:30 timeframe this evening. He will let me know when he is freed up. Figuring when it ends he will head out of DC towards MD.

We have the 7pm debrief call which includes prep time for his AMA 1:1 tomorrow morning at 8:45am and a call w/Henry Walke at 7:45pm. Please advise if I should try to move these to after 8pm or try to get them on for tomorrow sometime.

He did mention earlier that he is going to have a lot of calls he will need to get on the calendar tomorrow – he will let me know what they are once he has time to go through things and sort them out.

He had a 6:15pm call w/Sen Loeffler that Teresa is working on rescheduling.

kindest Regards,

Lynn

Subject: R3 tonight

Hi Kyle,

R3 just texted me that he is going to w/POTUS from around 5:45-7:30 timeframe this evening. He will let me know when he is freed up. Figuring when it ends he will head out of DC towards MD.

We have the 7pm debrief call which includes prep time for his AMA 1:1 tomorrow morning at 8:45am and a call w/Henry Walke at 7:45pm. Please advise if I should try to move these to after 8pm or try to get them on for tomorrow sometime.

He did mention earlier that he is going to have a lot of calls he will need to get on the calendar tomorrow – he will let me know what they are once he has time to go through things and sort them out.

He had a 6:15pm call w/Sen Loeffler that Teresa is working on rescheduling.

Kindest Regards,

Lynn

Dr. Schuchat,

Below is our proposed press plan for the release of the face covering recommendation. (b)(5)

(b)(5)

FYI – this is not on your calendar yet.

Press Plan for New Guidance on Face Coverings During COVID-19 Pandemic Friday, April 3rd

4:30pm ET

(b)(5)

5:00pm ET

(b)(5)

From: Messonnier, Nancy (CDC/DDID/NCIRD/OD)
Sent: 3 Apr 2020 18:38:17 +0000
To: Dreyzehner, John (CDC/DDPHSIS/CPR/OD)
Cc: Jay C. Butler (CDC/DDID/OD) (jcb3@cdc.gov)
Subject: FW: Seasonal flu vaccine manufacture: Getting ready for a fall wave.

John,

Sorry for the delay in responding. Pharmaceutical companies plan production based on anticipated market needs a year or more in advance. 2019/2020 had the highest ever distributed flu vaccines (b)(5)

(b)(5) So, my initial reaction to your email was to send you this information but then I thought about more. Given the current environment, maybe (b)(5)

(b)(5)

So thank you for raising this as an issue,
Nancy

From: Dreyzehner, John (CDC/DDPHSIS/CPR/OD) <PWN3@cdc.gov>

To: Butler, Jay C. (CDC/DDID/OD); Messonnier, Nancy (CDC/DDID/NCIRD/OD)
Subject: Seasonal flu vaccine manufacture: Getting ready for a fall wave.

Hi Jay and Nancy,

(b)(5)

My guess is you are already thinking about this. (b)(5)

(b)(5)

(b)(5)

I also heard a tangential reference from POTUS in the WHTF presser yesterday.

Hope we can consider and let me know how I can help.

Best regards,
John

John J. Dreyzehner, MD, MPH, FACOEM

Confidential WHO Situation Report, Saturday, 07MAR2020

Note: WHO staff are extremely curious about POTUS' visit to CDC on Friday afternoon. Specifically, they would like a read out on any changes in policy or actions that may have occurred.

Surveillance

- **Summary:** The number of cases reported to WHO exceed 100,000 for the first time; Globally, 101,827 confirmed cases and 3,484 (3.4%) deaths due to COVID-19 infection have been reported to WHO between 31 December 2020 and 07 March 2020. It is expected that the total number of confirmed cases will exceed 100,000 tomorrow. In the last 24 hours, there were 3,716 (97%) new cases from outside China and 99 (3%) from China. The countries reporting the most cases continue to be Iran (1,234), Italy (778), Republic of Korea (483), Germany (237) and France (193) with Spain (117) also reporting over one hundred cases.

Five new countries / areas reported their first case of COVID-19 (i.e., Cameroon, Colombia, Holy See [Vatican], Serbia and Slovenia) bringing the total to 94 (48%) out of 194 Reporting countries / areas. It is anticipated that over half of the Member States will have reported a case by Monday. By WHO Region, 9 / 17 WPRO countries (Pacific Island Countries excluded), 6 / 11 SEARO countries, 16 / 22 EMRO countries, 43 / 53 EURO countries, 5 / 47 AFRO countries and 9 / 35 PAHO countries / areas have reported a case. (see attached PowerPoint slide presentation from WHO/HQ, Slide 17, for a list of all countries by region that have not reported a case). Iran reported 1,234 cases in the last 24 hours, the most of any country. Cases in EMRO countries continue to be linked with travel to Iran. Many Western European countries continue to report significant numbers of cases with evidence of local transmission including Italy (778 new cases), Germany (237), France (193), Spain (117), Switzerland (94), Belgium (59), Norway (57), the United Kingdom (49), the Netherlands (46) and Sweden (40). Sustained local transmission with additional fatal cases continues in Italy (49 new death reports), Iran (17) and Korea (2); the Netherlands and the United Kingdom reported their first deaths, one each. Globally, there were 411 deaths reported for a total to date of 3,484.

There are now only three countries that have not reported a case for ≥ 28 days (Cambodia, Nepal and Sri Lanka) as the Philippines reported 2 cases for a total of 5. Vietnam reported a case for a total of 17, so now no countries have not reported a case for >14 but less than 28 days. In China, the same 9 / 31 provinces have not reported a case in ≥ 14 days.

Of note, Hubei Province, China reported less than 100 cases for the first time; all 74 cases were from the city of Wuhan. 24 of the other 25 cases from China were imported, from Iran 20 cases, Italy 3 and Sweden 1.

- **First Investigations**

- New countries reporting cases**

- **Cameroon:** a 58-year-old French citizen who traveled from France to Yaounde on 24 February. Onset date is unknown. One of his contacts is also a confirmed case.
<https://fr-fr.facebook.com/MINSANTE.PageOfficielle/photos/a.1480278031987670/3360924203923034/>
- **Holy See [Vatican]:** One patient tested positive. No further information is available.
<https://www.vaticannews.va/en/pope/news/2020-03/pope-francis-cold-vatican-studies-coronavirus-measures.html>
- **Serbia:** 43-year-old male has been confirmed and is in stable condition. No further information is available.
<https://www.zdravlje.gov.rs/vest/346180/registrovan-prvi-oboileli-od-covid-19.php>
- **Slovakia:** First case. The person is a family contact of one individual who travelled from Venice and has no symptoms.
- **Colombia:** First case ex-Italy
<https://www.minsalud.gov.co/Paginas/Colombia-confirma-su-primer-caso-de-COVID-19.aspx>

- **New countries reporting deaths**

- **Netherlands:** An 86-year-old man who was admitted to the Ikazia Hospital in Rotterdam with COVID-19 died today (source of infection unknown)
<https://www.rivm.nl/nieuws/patient-met-nieuw-coronavirus-overleden>
- **United Kingdom:** A woman in her 70s with no travel history and under hospital treatment for an underlying illness is the first reported COVID-19 case to die in the United Kingdom.

- **Countries in Europe in addition to Italy are exporting cases**

- At least 6 countries/states/territories (Senegal, Denmark, Cameroon, Algeria, St. Martin, Egypt) reported cases with **travel history to France**
- At least 2 countries/states/territories (Occupied Palestinian Territory and India) reported cases with **travel history to Greece**
- At least 2 countries/states/territories (Senegal and Lebanon) reported cases with **travel history to the United Kingdom**
- In Canada, one of the confirmed cases has recent **travel history to India**. According to Canada IHR NFP, the case has joined a guided tour of India between 31 January and 24 February. The case was not symptomatic while traveling and tested positive in Canada after returning. The tour itinerary covers 12 cities in India.

- **Cluster / ship**

- **Update on MS A'Sara cruise (Egypt):** 12 cases confirmed cases among the passengers of the ship. Index case is a Taiwanese American female tourist who tested positive after her return from the cruise trip. Other than the index case and two confirmed French cases, nationality of the cases are unknown. <https://www.sis.gov.eg/Story/144001/Health-Ministry-12-coronavirus-cases-detected-on-Nile-cruise-ship-coming-from-Aswan?lang=en-us>
- **Ecuador:** National Navy boat was put in isolation with 50 people after one crew member tested positive. Douglas Campos, Director of Health of the Navy, said that within the vessel all prevention protocols have been implemented. The ship's crew is used to being on the shop for long periods of time. <https://www.salud.gob.ec/negativo-a-coronavirus-tripulante-de-buque/>
- **Grand Princess (US):** 21 cases confirmed on the Grand Princess cruise ship (not captured in the WHO case count yet)
 - Test has been conducted for 46 suspected cases after a confirmed case in California, a former passenger of the Grand Princess in February, died.
 - 21 out of 46 tested people confirmed positive. One was inconclusive.
 - 19/21 were crew members and 2 were passengers.
 - The ship has been near San Francisco, California since Wednesday.
 - According to several media reports, at least 2 other confirmed cases in the US (1 in Hawaii and 1 in Utah) are linked to the Grand Princess. <https://health.utah.gov/featured-news/utah-health-officials-announce-first-case-of-covid-19>
<https://www.khon2.com/coronavirus-2/gov-ige-confirms-first-case-of-coronavirus-in-hawaii/>
- **Iran Mission:** No additional information from the Iran Mission available. It continues.

- **Countermeasures**

- WHO continues to work tirelessly on guidance documents. Not notified that any guidance documents were cleared and released. Will continue to monitor.
- WHO continues to work to secure the funds and access to PPE, oxygen and laboratory kits to ensure that countries have the supplies to implement recommended actions. These will remain on-going problems for the foreseeable future; shortages, misallocation and inappropriate use are likely to continue and exacerbate the problem.

- **Political / Media**

- WHO staff are extremely curious about POTUS' visit to CDC on Friday afternoon. Specifically, they would like a read out on any changes in policy or actions that may have occurred.

Confidential WHO Situation Report, Friday, 05MAR2020

- **Surveillance**

- **Summary:** Five new countries / areas reported their first case of COVID-19 (i.e., Bhutan, Bosnia and Herzegovina, Liechtenstein, Occupied Territory of Palestine and South Africa) bringing the total to 84 (43%) out of 194 Reporting countries / areas. It is anticipated that over half of the Member States will have reported a case by next week. By WHO Region, 9 / 17 WPRO countries (Pacific Island Countries excluded), 6 / 11 SEARO countries, 16 / 22 EMRO countries, 40 / 53 EURO countries, 4 / 47 AFRO countries and 8 / 35 PAHO countries / areas have reported a case. (see attached PowerPoint slide presentation from WHO/HQ, Slide 15, for a list of all countries by region that have not reported a case) European countries continue reporting cases with evidence of local transmission including Italy (769 new cases), France (138),

Germany (138), the Netherlands (44) and Switzerland (29). Sustained local transmission with additional fatal cases continues in Korea, Italy and Iran; Switzerland reported its first death. The death reported in Portugal yesterday was a mistake; Portugal has not reported any deaths. Cases in EMRO countries continue to be linked with travel to Iran. Globally, 98,028 confirmed cases and 3,380 (3.4%) deaths due to COVID-19 infection have been reported between 31 December 2020 and 06 March 2020. It is expected that the total number of confirmed cases will exceed 100,000 tomorrow. In the last 24 hours, there were 2,596 (95%) new cases from outside China and 143 (5%) from China. The countries reporting the most cases continue to be Italy (769) Iran (591) Republic of Korea (518), France (138) and Germany (138).

The last person on the Diamond Princess was released a couple of days ago. The Japanese government reviewed their data and identified ten duplicates so decreased the number of people on the Diamond Princess to 696 from 706.

Countries that have not reported a case for ≥ 28 days remain the same four (Cambodia, Nepal, Philippines and Sri Lanka) and Vietnam remains the only country that has not reported a case for >14 days. In China, 9 / 31 provinces have not reported a case in ≥ 14 days.

- The case reported from Bhutan is a (b)(6) year-old male American tourist. He entered the country at Paro International Airport, flying in from Guwahati, India on (b)(6). The patient was touring India from (b)(6). He left Washington DC on (b)(6). The patient was travelling with his wife, aged (b)(6). There were 10 passengers on board the flight to Bhutan; the eight others were Indian nationals. Upon confirmation, he has been isolated in the COVID-19 hospital. Considering his age and underlying conditions, the patient is on oxygen support. Over 90 contacts have been traced. Health officials and other relevant agencies are in the process of carrying out primary disease management and contact tracing. The close contacts were his partner, the driver and the guide. While all three are asymptomatic for now, they have been quarantined at the designated COVID-19 hospital. The eight Indian passengers have also been quarantined. The government is closely working with the Indian Embassy.

Many countries report only aggregate data to WHO and very few countries submit full line lists with basic demographic and epidemiologic data. This hinders extracting additional information about the reported cases.

WHO remains very concerned with silent areas, both countries that have not reported a case and large countries that have reported a small number but geographically separated cases. Countries of special concern in the later category include Brazil (7 cases), India (29), Indonesia (2), Pakistan (6) and Russia (4). WHO is worried that this may represent significant under-reporting. WHO believes the most common reason is because of lack of available testing.

France is investigating a cluster related to a religious gathering. See below.

- **First Investigations**

- **The WHO Mission to Iran** continues. Unofficial reports indicate that the Government of Iran is cooperating with the investigation, has prioritized responding to and controlling COVID-19 including making testing available, but is overwhelmed. It is understood that the Government has not undertaken any epidemiologic analyses. The WHO Mission expects to be there for some more days.
- The WHO **China** Country Office reports that the General Administration of Customs (GAC) announced on 4 March that border control authorities have identified 6,728 arriving persons with symptoms consistent with COVID-19 infection; 779 were classified as suspected cases and 75 as confirmed cases.
 - One cluster consisted of eight confirmed cases among Chinese nationals returning from Bergamo, Italy, who all worked in the same restaurant.
- Five countries / areas reported their first cases
 - **Occupied Territory of Palestine**: first 7 cases, all linked to a hotel and group of tourists from Greece.
 - **Bosnia and Herzegovina** – first 2 cases (father, ex-Italy, and a school-age son). The elementary school the son attends is now closed and are testing all students who have been in direct contact with the case.
https://twitter.com/Vlada_Srpske
 - **Bhutan**: See the summary above.
 - **South Africa**: The first confirmed case is a 38-year-old male who traveled from Italy with his wife. He returned to South Africa on 1 March and developed symptoms on 3 March 2020.
 - **Liechtenstein**: first case (re-mapped, previously reported under Switzerland)
- New countries reporting deaths
 - First death in **Switzerland** is a 74-year old woman who had an underlying chronic condition.
- Countries that stated a case or cases had no known epidemiological link
 - **Ireland** – 1 case in Cork
 - **Netherlands** – “some” cases
 - **France**: 50% of the cases don’t have any epidemiological link
- **Cluster related to a religious event in France**
 - A cluster of 10 confirmed COVID-19 cases has been reported in relation to a religious gathering that took place between 17 – 24 February 2020 at the

church “La Porte Ouverte Chrétienne” of Bourtzwiller in Haut-Rhone department, Grand Est region, France.

- Between 2000 and 3000 participants from at least 3 countries (France, Germany, Switzerland) attended the event, including 300 children.
- The index cases are a couple managing a small grocery store and living in Hesingue (Haut-Rhone department, Grand Est region, France), near Bâle (Switzerland).
- Investigation ongoing for further case detection.

- **Countermeasures**

- WHO continues to work feverishly on guidelines covering a wide range of topics including quarantine, country classification, clinical care, travel and testing. They are ever hopeful guidelines will be released later today --- will just have to see.
- WHO working to develop internal criteria to prioritize countries for testing kits. Spirited discussions occurring. Not clear when a decision will be made. Once made, it is even less clear what kits WHO can access.
- WHO recommends that Member States not institute travel restrictions against citizens of other states based on the COVID-19 status in the other country. WHO also has collected a great deal of information about what travel restrictions states have imposed on each other. There is pressure for WHO to publicize these travel restrictions, but Member States have not agreed. Discussions underway. Of note, WHO and the UN system have instituted modified travel rules for their own staff based on the location of the person and the COVID-19 status of the resident country and the destination country. The contradiction could embarrass WHO and the UN.

- **Politics / Media**

The DG has another press conference scheduled for today.

Please note that the graph and numbers are in the attached EXCEL.

Subject: Coronavirus Guidelines for America

Office of the Press Secretary

FOR IMMEDIATE RELEASE

March 16, 2020

Coronavirus Guidelines for America

THE PRESIDENT'S **CORONAVIRUS GUIDELINES** FOR AMERICA

15 DAYS TO SLOW THE SPREAD

Listen to and follow the directions of your **STATE AND LOCAL AUTHORITIES**.

IF YOU FEEL SICK, stay home. Do not go to work. Contact your medical provider.

IF YOUR CHILDREN ARE SICK, keep them at home. Do not send them to school. Contact your medical provider.

IF SOMEONE IN YOUR HOUSEHOLD HAS TESTED POSITIVE for the coronavirus, keep the entire household at home. Do not go to work. Do not go to school. Contact your medical provider.

IF YOU ARE AN OLDER PERSON, stay home and away from other people.

IF YOU ARE A PERSON WITH A SERIOUS UNDERLYING HEALTH CONDITION that can put you at increased risk (for example, a condition that impairs your lung or heart function or weakens your immune system), stay home and away from other people.

For more information, please visit
CORONAVIRUS.GOV

DO YOUR PART TO SLOW THE SPREAD OF THE CORONAVIRUS

Even if you are young, or otherwise healthy, you are at risk and your activities can increase the risk for others. It is critical that you do your part to slow the spread of the coronavirus.

Work or engage in schooling **FROM HOME** whenever possible.

IF YOU WORK IN A CRITICAL INFRASTRUCTURE INDUSTRY, as defined by the Department of Homeland Security, such as healthcare services and pharmaceutical and food supply, you have a special responsibility to maintain your normal work schedule. You and your employers should follow CDC guidance to protect your health at work.

AVOID SOCIAL GATHERINGS in groups of more than 10 people.

Avoid eating or drinking at bars, restaurants, and food courts — **USE DRIVE-THRU, PICKUP, OR DELIVERY OPTIONS.**

AVOID DISCRETIONARY TRAVEL, shopping trips, and social visits.

DO NOT VISIT nursing homes or retirement or long-term care facilities unless to provide critical assistance.

PRACTICE GOOD HYGIENE:

- Wash your hands, especially after touching any frequently used item or surface.
- Avoid touching your face.
- Sneeze or cough into a tissue, or the inside of your elbow.
- Disinfect frequently used items and surfaces as much as possible.

CORONAVIRUS.GOV

School operations can accelerate the spread of the coronavirus. Governors of states with evidence of community transmission should close schools in affected and surrounding areas. Governors should close schools in communities that are near areas of community transmission, even if those areas are in neighboring states. In addition, state and local officials should close schools where coronavirus has been identified in the population associated with the school. States and localities that close schools need to address childcare needs of critical responders, as well as the nutritional needs of children.

Older people are particularly at risk from the coronavirus. All states should follow Federal guidance and halt social visits to nursing homes and retirement and long-term care facilities.

In states with evidence of community transmission, bars, restaurants, food courts, gyms, and other indoor and outdoor venues where groups of people congregate should be closed.

Subject: FW: Pls Review: Tweet Suggestions

Kyle --

Please review and approve suggested tweets for Dr. Redfield related to COVID-19 (1-4), MMWR (5-7), and suggested retweets (8-10).

1. Older adults & people with a severe underlying medical condition: Prepare in advance for the possibility of a #COVID19 outbreak in your community. Take extra measures to put distance between yourself & other people to reduce your risk of being exposed.
<https://www.cdc.gov/coronavirus/2019-ncov/specific-groups/high-risk-complications.html#stay-home>

[video link: <https://youtu.be/TjcoN9Aek24>]

2. Our state, local, tribal and territorial public health partners are on the front lines of the #COVID19 response. These funds will allow public health leaders to implement critical steps necessary to contain and mitigate spread of #COVID19 in communities across the country. (+ RT @SecAzar Today we're announcing that @CDCgov will be rapidly distributing over \$560M to state and local jurisdictions in support of our nation's response to #COVID19. We're deeply grateful for all of the work that state and local health departments are doing.)

<https://twitter.com/SecAzar/status/1237796461506629633>

3. Schools have an important role in slowing and stopping the spread of diseases. Ensure students have safe and healthy learning environments. Work with local health departments to plan for possible spread of #COVID19.

<https://www.cdc.gov/coronavirus/2019-ncov/specific-groups/guidance-for-schools.html>

4. #Childcare Programs: Plan & prepare for #COVID19 in your community:
 - Review, update & implement emergency operations plans for disease outbreaks
 - Encourage frequent handwashing w/ soap & water for 20+ seconds
 - Clean & disinfect surfaces & objects

<https://www.cdc.gov/coronavirus/2019-ncov/specific-groups/guidance-for-schools.html>

5. B
 binge drinking
 increases the
 risk of injuries,
 fetal alcohol

spectrum disorders, and some chronic diseases. Providers and patients can work together to address excessive alcohol use. Learn more in a new @CDCMMWR report: <http://bit.ly/MMWRVA35>

MMWR | Screen and Intervene to Reduce Binge Drinking

Binge Drinking Can Cause Injury, Disease, Death

Binge drinking is defined as

4-5 drinks in about 2-3 hours

More Intervention Is Needed

4 in 5 adults who binge drink were **not advised** to reduce drinking by a healthcare provider*

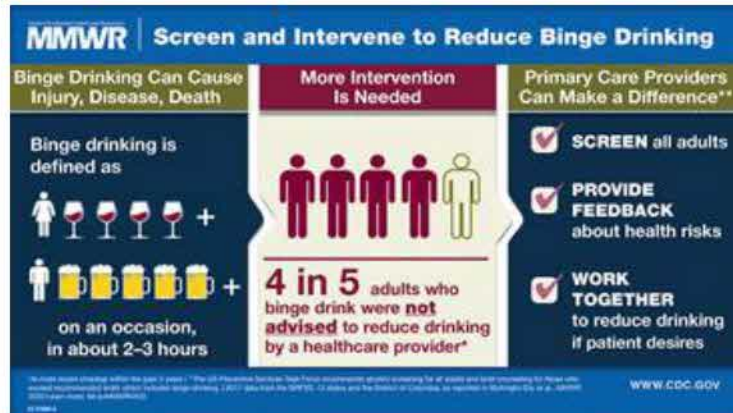

Primary Care Providers Can Make a Difference**

- SCREEN** all adults
- PROVIDE FEEDBACK** about health risks
- WORK TOGETHER** to reduce drinking if patient desires

*All those recent (checked) within the past 2 years. **The US Preventive Services Task Force recommends alcohol screening for all adults and brief counseling for those who exceed recommended limits. Both include binge drinking. (2017) Data from the BRFSS, 12 states and the District of Columbia, as reported in McGovern et al., Alcohol Use and Mental Health. <http://bit.ly/MMWRVA35>

WWW.CDC.GOV

6. HCPs: Please screen all adults for excessive alcohol use, including binge drinking. For those who screen positive, discuss the risks to their health and ways to reduce their drinking. Learn more in @CDCMMWR: <http://bit.ly/MMWRVA35>

7. #Opioid overdose death data from 10 states suggest a shift away from illicit fentanyl analog

distribution to distribution of illicitly manufactured fentanyl. <http://bit.ly/2W1CF5R>
@CDCMMWR

8. RT @DRTedros .@WHO is deeply concerned by the alarming levels of the #coronavirus spread, severity & inaction, &

expects to see the number of cases, deaths & affected countries climb even higher. Therefore, we made the assessment that #COVID19 can be characterized as a pandemic. (<https://twitter.com/DrTedros/status/1237800182235922434>)

9. RT @SecAzar .@POTUS's address tonight laid out bold new steps he is taking to protect the American people from #COVID19 and alleviate the economic impact of the pandemic. He made a powerful, unifying call to action for all Americans to play a role in protecting our country from the virus. (<https://twitter.com/SecAzar/status/1237928161041682432>)
10. RT @Surgeon_General As I said today on @DrOZ it is important that you know your risks. For more information on #COVID2019, visit <http://coronavirus.gov>. (<https://twitter.com/DrOz/status/1237708850930712577>)

Please see the below tweet suggestion for Dr. Redfield related to yesterday's POTUS visit (1) and a suggested retweet (2).

1. Great to have @POTUS & @SecAzar at CDC yesterday to discuss #COVID19 and see firsthand part of what makes @CDCgov a world renowned public health agency.
2. RT @SecAzar [.@CDCgov](https://twitter.com/SecAzar/status/1236090942861475842) plays a critical role in our response to #COVID19. Thank you for hosting @POTUS's visit today and for your tireless response efforts. Americans should know that the entire CDC team, including some of the best scientists in the world, is working to keep Americans safe.

Kyle --

Please review and approve suggested tweets for Dr. Redfield related to COVID-19 (1-6), Ebola (7), violence prevention (8), general traveler's health (9), and suggested retweets (10-14). Also, we will handle POTUS visit separately – so far, guidance has been that we retweet only.

1. As more cases of #COVID19 are identified in specific US locations, affected communities may take actions to minimize the impact of novel coronavirus. Local communities may employ tools that encourage social distancing. Learn actions you can take:

<https://bit.ly/39jJeEm>

[protected video link: https://cdc-my.sharepoint.com/:v/g/person/nle5_cdc_gov/EUTCMI-6jZVHuJwzBzdMWSobChTj8sHzNP5Wn6FWZpkMow?e=CzOiQx]

2. To reduce exposures to #COVID19 and slow the spread of the disease, I encourage everyone to wash your hands often with soap and

water for at least 20 seconds, cover your cough and sneeze, and stay home when sick. Watch the latest @WhiteHouse Press Briefing on #COVID19: <https://www.whitehouse.gov/briefings-statements/press-briefing-vice-president-pence-members-white-house-coronavirus-task-force-2/> (+ RT @Mike_Pence https://twitter.com/Mike_Pence/status/1235331200165662720)

3. If you are possibly exposed to #COVID19 and told by your healthcare provider or a public health worker to stay home for 14 days, unless you need medical care, please follow their recommendation. Protect yourself and protect others. <https://www.cdc.gov/coronavirus/2019-ncov/about/steps-when-sick.html>

4. Travelers: @CDCgov does not recommend that people who are well wear #facemasks to protect themselves

Got it. I will absolutely work with Policy in the a.m. so that you have the information you need for Feinstein. I have also alerted them that you can't go to DC Wednesday, I'll work that out.

I'll also plan to send you an electronic binder of sorts tomorrow so that you have what you need for the day.

Enjoy your day from home tomorrow!
Emily

Subject: Items for Action & Schedule Updates (3/5)

Hi Nancy,

I have 2 items for action and 2 schedule updates.

For action

1. I think it will be hard to move around campus tomorrow. **Do you want to cancel tomorrow's NCRID Weekly Check-in, or make it a call?**
2. Do you want me to set up a brief catch up meeting with Leonard Marcus on Monday 3/9?

Schedule updates

1. The **briefing with Senator Feinstein has been scheduled for a tomorrow at 9:30**. The small group call will go until 9:30, so you may want to step out a few minutes early so that you can have a minute and prepare. I will text you and remind you tomorrow morning. I know that this isn't ideal, but policy wanted to make sure to fit it in before the POTUS sweep.
2. You have been asked to testify before the House Homeland Security Committee on March 11th at 2pm in D.C. I will work with Carla to get your travel solidified. You have a prep call on Monday March 9th.

Best,

Emily

Subject: CHANGE IN RETURN TO ATLANTA TONIGHT

Sir, I will call you when you land in WA to discuss a change in plans for your return to ATL. Kyle has asked that we fly you on a commercial flight back to ATL tonight so we make sure you are here tomorrow for POTUS. You will need to go from the Seattle EOC via Uber to Seattle/Tacoma airport.

We have you on a 10:50pm flight arriving tomorrow morning at 6:26am. We have cleared your calendar tomorrow morning so you don't have any morning meetings so you can get some rest.

I have arranged for Joe to pick you up at the airport in the morning.

Kindest Regards,
Lynn

Subject: Re: Recommendation

This sounds like a very good idea. So far, the contact has been through HHS one on one. I have briefed mayors of LA, Chicago, and San Antonio, and Dep Mayor of NYC. There was a letter sent from 6 mayors to POTUS that had some criticism, mainly about funds and lack of coordination among the Federal agencies. Something that what we have done with NGA makes a lot of sense.

Subject: Recommendation

Hi Anne and Jay,

John Monaghan from Georgetown reached out to me that he had heard a recommendation from a local public health colleague about interest by local city groups to have update from CDC. He heard from state representative (I don't know who) that CDC communication with states is good, and that cities could use outreach through National League of Cities (NLC) and conference of mayors. And note that there is a meeting of the NLC in Washington DC in a couple of weeks.

I wasn't sure who the best person to pass this on to is, and not sure what our communication is with mayors, so wanted to let you know.

Subject: FW: Pls Review: Tweet Suggestions

Hi Kyle -

Please review and approve the tweet suggestions for Dr. Redfield related to coronavirus (1 & 2), opioids (3), and suggested retweets (4-8).

1. If you've recently returned from China, know the symptoms of #2019nCoV. These include mild to severe respiratory illness with
 - Fever
 - Cough
 - Shortness of breath.

See <https://www.cdc.gov/coronavirus/2019-ncov/about/symptoms.html>

2. While CDC considers #2019nCoV a serious situation and is taking preparedness measures, the immediate risk in the U.S. is considered low.

Everyone should always take simple daily precautions to help prevent the spread of respiratory illnesses. <https://www.cdc.gov/coronavirus/2019-ncov/about/prevention-treatment.html>

3. HCPs: Listen and talk with your patients living with chronic pain about the risks and benefits of #opioids.

Together, you can work toward treatment goals. Get started with @CDCgov's Opioid Prescribing Guideline mobile app. Download it today: <https://go.usa.gov/xdBxY>

4. RT @IDSAInfo NEW PODCAST #Coronavirus: What's Happening Now Leading health experts, Dr. Daniel Lucey, FIDSA (@gumedcenter), Dr. Matthew Zahn (@OCHealth), Dr. Tim Uyeki & Dr. Satish Pillai (@CDCGov) share what you need to know about #2019nCoV: <https://bit.ly/39ejrgy> (<https://twitter.com/IDSAInfo/status/1225813164136321030>)

5. RT @GovLarryHogan Sincere thanks to officials from @CDCgov and @HHSgov for today's briefing on the novel coronavirus outbreak. The nation's governors are taking this matter very seriously, and states stand ready to respond to this pressing public health concern. #WeTheStates (<https://twitter.com/GovLarryHogan/status/1226649714139049985>)
6. RT @SecAzar Today, members of @POTUS's Coronavirus Task Force were part of a positive and active discussion with a bipartisan group of governors at the @NatlGovsAssoc about the importance of collaboration between federal, state, and local partners in our work to respond to the #coronavirus. (<https://twitter.com/SecAzar/status/1226660897189498883>)

7. RT @SecAzar The Task Force continues to work to protect the American public, respond to the #coronavirus outbreak, and keep Americans informed. We hosted another press briefing on Friday providing an update. @StateDept @USDOT @CDCDirector @HomelandKen @SteveFDA (<https://twitter.com/SecAzar/status/1226660910044893184>)
8. RT @ASOpodcast In tomorrow's special release episode, @bfrist is examining the new strain of coronavirus that has been declared an international health emergency. Listen Now: http://bit.ly/ASO_Twitter #MDChat #mhs
