Hi Kaitlin,

No not yet, you wont see anything on the server just yet, we are still working that out with our FOIA office. They were insisting on it be put on discs, but the information is too large. I have included DeLee so that she is aware that we are communicating. Regarding the clarification on whether or not the emails for the contracting officers would be included or not, my team told me that emails are provided for all non-DoD and DHS points of contact.

Allison
